The Ex Husbands Revenge Chapter 2961-Baam!

Following a deafening sound, Leon's Double Attack landed on the Southern Boss's chest and sent him flying.

As soon as he landed, the Southern Boss felt a piercing pain in his chest and spewed blood from his mouth.

Thankfully, he was a formidable martial artist and Leon's true energy was much weaker than his spiritual energy, so the Southern Boss merely suffered some injury and was in no critical danger.

This was quite fortunate.

"Great!"

"Mister Wolfs so strong!"

Angus and the others were taken aback and all revealed excited smiles.

Though they did not know how Leon managed to defeat the Southern Boss, they knew that being able to do it twice meant that it was not a coincidence.

This indicated that Leon was already in the Peak Almighty state and that he was more powerful than the Southern Boss.

This was the only reasonable explanation.

At this moment, they finally realized why Leon refused to run and insisted on staying to fight the Southern Boss and the Western Boss on his own.

Leon was not being arrogant. He had the power to fight the Southern Boss and the Western Boss.

They were all too blinded and underestimated Leon.

"Who would've thought that he's in the Peak Almighty state?"

"How'd he do it?"

Contrary to their excitement, the Western Boss, Felton, and Rodney all wore dark expressions as their hearts sank.

The Western Boss could tell that Leon reached the Peak Almighty State judging from his strength and speed.

It baffled him as to how someone who was not even thirty could reach such a high level of strength.

This was practically a miracle and he would have never believed this to be true if he did not see it himself.

Most importantly, both he and the Southern Boss recently reached the Peak Almighty State as well.

If the Southern Boss could not defeat Leon, the same would apply to him as well.

Once Leon defeated the Southern Boss, he would combine strength with the Pragon Guards and the Thompsons, which meant the Farmers would be doomed.

Instantly, the Western Boss was troubled. Snapping out of it, he glared coldly at Leon. "No way! I can't just wait around for that to happen."

While Angus and the others were cheering in excitement, the Western Boss gave up on dealing with Levi and instead charged toward Leon from behind.

"Die, kid! Take this, Phantom strike!" the Western Boss roared.

He reached both his arms out to launch his most powerful technique.

The true energy on his palms combined into a powerful attack that was sent directly toward Leon's back.
