

The Ex Husbands Revenge

The Ex Husbands Revenge Chapter 3001-Young man, if that's all, we'll return to the central region now. If you ever drop by, let me know so I can set up a party to thank you for the Soul Searcher,"

Roderic said.

"Sorry for not being able to see you out." Leon was still weak and could not get up from the bed, so he watched while Roderic and the others left.

Soon, he was left inside the room with Alfred.

"Leon, here's the Fairy Fruit you told me to look for. I've already found it," Alfred said.

He then took out a delicate-looking box and handed it to Leon.

Leon accepted it and opened it to find a dried herb. It was indeed a Fairy Fruit.

"Great! Thank you, Mister Glasbey!" Leon was overjoyed.

The Fairy Fruit was a supreme spiritual herb that could be used to make Dragon Pills.

A few months passed and he no longer had enough Dragon Pills with him.

Alfred found the Fairy Fruit just in time to resolve this issue so he thanked Alfred gratefully.

"Leon, now that the Southern Boss is dead, what are your plans?" Alfred changed the subject.

"Well, I plan on going to the central region to track Brahma down. Let's see if I can find him to eliminate him," Leon said thoughtfully.

With the Southern Boss dead and the Western Boss captured by the Dragon Corps, Cynthion Group's operation in both the southern and western regions was secured.

The central region was located in the center and connected to both the southern and western regions. In terms of the development plan, Cynthion Group could consider expanding to the central region.

Hence, Leon intended to head there to prepare for opening a branch there.

On top of that, the Dragon Guards in the central region promised to find him a Heavenly Flower.

If he headed to the central region, he could obtain the Heavenly Flower sooner to treat Renee. Apart from that, he could also use this opportunity to track Brahma down and seek revenge on the other's behalf.

"Alright. You're one of our best. Let's hope that you can indeed find and capture Brahma!" Alfred nodded.

Brahma's imposter attacked the Dragon Corps, killing Scott and a few other Dragon Guards.

Alfred too resented Brahma and his imposters. Yet, they were all too powerful for him to rival.

He knew that he was not capable of eliminating Brahma to avenge Scott and the others. On top of that, "Brahma was cunning and even the Dragon Guards in the central region would struggle to handle him.

Hence, he could only place his hope on Leon.

Leon eliminated four criminals out of the eight on the criminal list and his power was constantly increasing

If Leon headed to the central region, he might track Brahma down and manage to eliminate Brahma with the help of the Dragon Guards there..

"Yeah, I'll try my best," Leon said.

"Alright, you seem a bit unwell, so I don't disturb your rest. I'll leave now. If Visit En.novelxo.com to read full content there's anything else you need, come to the Dragon Corps, and look for me," Alfred said and left while Leon watched.

there's anything else you need, come to the Dragon Corps, and look for me," Alfred said and left while Leon watched.

The Ex Husbands Revenge Chapter 3002-In the following days, Leon recovered from his fatigue and went to the Scammells to gather the herbs he needed, before treating the injuries Renee suffered in her vital organs.

Since Renee was badly injured, he had to use compression treatment on her every day for a week before her condition improved.

If he was not mistaken, Renee would fully recover within a month.

Apart from that, he also took the time to produce more Dragon Pills and Soul Searchers.

Dragon Pills were not hard to make.

With the Fairy Fruit Alfred found for him and the precious herbs he obtained from the Scammells, he successfully produced over thirty Dragon Pills.

This would be sufficient for some time.

As for the Soul Searcher, this would be proven useful for the Dragon Corps on their missions to pursue criminals, so the more the better.

He spent a whole week producing Soul Searchers and delivered them to Alfred, asking him to distribute them to the other regions.

After all that was done, a week passed.

One morning, Leon just completed treating Renee when he recalled that he did not help Arthur recover his power. Hence, he intended to visit the Thompsons.

Just then, he heard footsteps approaching and Chandler strode in, followed by three other men.

They were none other than Leon's subordinates, Mason, Leo, and Austin.

"Mister Wolf!" The three looked excited and bowed respectfully at Leon.

"Mason, have the three of you completed your training?" Realization dawned on Leon and he looked pleasantly surprised.

When he left for the western region, he left the Heavenly Stars Method with five of his subordinates.

On top of that, he even built a gigantic Light Convergence Circle to aid their training.

Chandler and Henry each had their breakthroughs and reached the targets Leon set ahead of time.

With that, the two of them stopped their training and escorted the women to the western region.

Meanwhile, Mason, Leo, and Austin had yet to fulfill their mission and remained in the mountain to train.

Seeing as the three of them were out and about, they likely achieved their goals.

“Mister Wolf, we have all reached the Initial Almighty State,” Mason and the other two said excitedly.

When Leon left the southern region, he set a goal for the three of them to reach the Initial Almighty state.

However, since Mason was falling behind, the two of them trained alongside him for a few more days.

After days of hard work, Auston and Leo’s talent was enhanced by the !

Cleansing Billand managed to reach the Almighty state before Mason did. Earlier this morning, Mason finally reached the Initial Almighty state as well and the three of them came down from the mountain together.

Then, they learned from Chandler that Leon was at home and hurried over to meet with Leon

The Ex Husbands Revenge Chapter 3003-“Great, the three of you didn’t disappoint me.” Leon laughed happily.

When the Spears fell apart, the underground community spiraled into chaos.

He had Mason, Leo, and Austin training to get to the Initial Almighty State because he wanted the three of them to replace the Southern Boss and balance all the forces in the underground community.

This could prevent troubles for the Dragon Corps.

Now that the three of them finally reached the Almighty state, they could be useful.

However, the circumstances changed.

The Southern Boss was dead and the Thompsons were no longer threatened.

Given Leon’s friendship with the Thompsons, he could easily manage the underground community with the Thompsons’ help.

Since he did not have many subordinates, he only needed one person to replace the Southern Boss. There was no point for him to waste his resources and arrange all three of them to stay.

“Leo, I want you to stay here in the southern region to manage the underground community. Are you willing to accept this?” Leon said thoughtfully, deciding to have Leo replace the Southern Boss.

As for Mason and Austin, he had other plans for them.

“Of course. I will do anything you demand of me!” Leo was thrilled and kneeled, accepting Leon’s order.

Anyone could be ambitious given the opportunity.

He was once a nobody in Springfield City. Ever since he started following Leon, Leon taught him powerful methods and helped him power up continuously.

Now, he even intended to set Leo up to replace the Southern Boss.

This was great news, to say the least, and Leo could not ask for more.

He only accomplished this thanks to Leon’s help and he remained grateful.

In the future, he would do anything in his power to aid Leon.

“Great. You will follow me to the Thompsons now. I will have something arranged for you. Mason, Austin, you’ve just concluded your training so you should stay home to rest,” Leon said.

“Yes, sir,” Mason, Leo, and Austin said.

With that, Leon drove toward the Thompsons’ mansion with Leo.

In the Thompsons mansion, many were injured from the fight against the Southern Boss and the Western Boss! Amongst them, the five elders suffered the worst.

Arthur and the others were slowly starting to recover after resting for over a week, but the elders would likely need to rest for a month or two before they could completely recover.

In the main hall, Leon arrived to find Arthur, Angus, and a few core members of the family.

After a brief exchange of pleasantries, they all took their seats.

“Elder Thompson, I’ve come to treat the damage to your Energy Sea Point the damage to your Energy Sea point so you can regain your power. Sorry for making you wait so long,” Leon said with a smile.

“Mister Wolf, you are too kind. It’s fine,” Arthur said excitedly.

A martial artist’s power would only come second to their lives. Ever since Arthur lost his power, he was restless.

Seeing as Leon finally had the time to fix him, he felt extremely relieved.

The Ex Husbands Revenge Chapter 3004-“Uncle Angus, before treating Elder Thompson, there are two things I need to discuss with you,” Leon said.

“What is it? Go ahead,” Angus said.

“First of all, I plan on going to the central region in a few days so I won’t have time to manage Cynthion Group in the southern region,” Leon explained.

“What? You are going to the central region?” Angus and Arthur were a little shocked.

Still, on second thought, Cynthion Group’s operation in the southern region was stabilizing and it was time for it to expand to increase its influence in Sky County.

On top of that, Leon was formidable and accomplished. Limiting himself to a single region would be a waste of his talent.

Heading to the central region was a great choice.

“That’s right! Uncle Angus, once I leave the southern region, I want to leave the Thompsons and the Scammells in charge of security and supply. Let US ally. As for profit, the Thompsons and the Scammells will take thirty percent of the total profit. What do you think?” Leon added.

The Southern Boss was dead and Leon no longer had enemies in the southern region, no one would dare to cross him or the Cynthion Group.

Still, Cynthion Group was such a profitable business that some criminals or families may hold ill intentions against it once Leon left the southern region.

To be safe, he wanted to work with the Scammells to share Cynthion Group’s profit with the Thompsons and the Scammells.

For Iris’s sake, he wanted the Scammells to rise to power.

The mutual benefit was the key to business and by working with the Thompsons and the Scammells, he could ensure that Cynthion Group could prosper in the southern region.

Moreover, the Morrisons were responsible for supply and security, so it was acceptable for him to offer them twenty-five percent of the total profit.

In the southern region, the Thompsons and the Scammells would be sharing responsibility regarding supply and security, so the Thompsons and the Scammells should share the profit.

Still, considering his relationship with the Thompsons and the Scammells, he decided to offer them more profit compared to what he offered the Morrisons.

As for how the Thompsons and the Scammells planned on giving the profit, it was entirely up to them and it would not be Leon's concern.

"Mister Wolf, are you going to work with US? That's great!"

Angus and Arthur were excited when they heard Leon's plan.

They all knew how much potential Cynthion Group had and the fact that Leon was offering thirty percent of Cynthion Group's profit to the Thompsons and the Scammells.

This would enhance the Thompsons' influence in the southern region and even allow them access to considerable profit each year.

This was an opportunity that others would kill for and they were all thrilled

The Ex Husbands Revenge Chapter 3005-Mister Wolf, we are willing to work with Cynthion Group! Don't worry, we will do our best to not disappoint you," Angus snapped out of it and agreed.

Ever since the first time he met Leon, he attempted to suggest a collaboration with Cynthion Group, but Leon turned him down.

It was pleasantly surprising that Leon proposed to work with the Thompsons.

Though the Thompsons would not have shares in Cynthion Group and could only obtain part of its profit, it was still a considerable amount given Cynthion Group's potential.

Angus could not have asked for more.

On top of that, Leon did so much for them that the Thompsons would be willing to assist Cynthion Group's growth even if they were not paid.

Still, Leon was generous enough to offer them great profit in doing so.

Leon was truly a sincere and generous person, and there was no way that Angus would reject such a proposal.

"It's settled, then!" Leon smiled.

"Sure. What's the second matter you wish to discuss, Mister Wolf?" Angus continued.

"The second matter is about the underground community. Let me introduce my subordinate, Leo." Leon pointed at Leo and introduced him to Angus and Arthur.

"Mister Thompson, Elder Thompson, greetings." Leo bowed.

"Hello." Arthur and Angus nodded their heads in acknowledgment, then turned to Leon in confusion.

"Here's the thing. After I leave the southern region, I plan to have Leo replace the Sotuhern Boss and manage the underground community.

Should he need assistance, I hope that the Thompsons could provide help to maintain order," Leon explained.

"I see! Not a problem!" Angus came to a realization and agreed.

When the Spears fell, Leon had a discussion with the Thompsons about having someone from the Thompsons handle the underground community.

However, the Thompsons were the most powerful family in the southern region and did not wish to get involved with the underground community.

In the end, Arthur suggested that Leon have his subordinates replace the Southern Boss and control the underground community.

Now that Leon selected Leo, Angus immediately understood what Leon planned to do.

"Thank you," Leon said with a smile.

Like the Thompsons, Leon was not interested in controlling the underground community and did not want anything to do with the conflicts within it.

He merely assigned Leo to this task because he needed someone to, maintain, order and prevent internal fights. Otherwise, the disruption of the order would cause casualty and trouble for the Dragon Corps.

As for whether Leo could command the underground community, this was out of Leon's concern.

The Ex Husbands Revenge Chapter 3006-After the discussion with Angus, Leon immediately starts healing the damage to Arthur's Energy Sea Point to restore his power.

It was a tricky process and under his guidance, he and Arthur went into a quiet room for treatment.

Angus and the others waited outside the room to not interrupt the treatment.

Leon took out two Cleansing Pills and made a potion along with the herbs he obtained from the Scammells, before feeding it to Arthur.

He then executed the Eternity Compression Method to clear the blockage in Arthur's circulation and repair the damages.

The Fairy Fruit could repair one's circulation. However, the Cleansing Pills only contained a small portion of the Fairy Fruit and could not replace it entirely.

Therefore, Leon's treatment only succeeded in restoring half of Arthur's power.

If Arthur wished for a full recovery, he would need to rest for quite some time.

"Alright, it's done!" Leon withdrew his arms after repairing Arthur's Energy Sea Point.

Seeing as the treatment was completed, Angus and the others who were waiting outside the door came in.

"Uncle, how are you feeling now?" Angus asked.

Apart from Angus, the others all wore concerned looks as well.

"My power is back, but it's currently still in the Advanced Almighty state," Arthur attempted to feel his true energy and looked excited.

Though his power was not entirely returned to the Peak Almighty State, he could tell that his circulation was no longer blocked.

If he was not mistaken, his power would fully recover in no time.

“Great!” Angus and the others were all relieved that Arthur’s power returned.

The Thompsons suffered great losses from the battle against the, Southern Boss and the Western Boss! Not Only did Arthur lose his power, but all five elders also suffered great injuries.

Arthur was the spiritual leader of the Thompsons.

Though Leon mentioned multiple times that he could restore Arthur’s power, it sounded so surreal that the Thompsons were hesitant to trust him.

If Leon failed to restore Arthur’s power, the Thompsons would lose their most capable martial artist.

On top of that, no one knew how long it would take for the elders to recover and with that considered, the Thompsons may lose their positions in the southern region.

Thankfully, Leon’s supreme skills restored Arthur’s power and with Arthur’s strength, he could shake the Thompsons’ position in the southern region.

The Ex Husbands Revenge Chapter 3007-“Thank you, Mister Wolf. You’ve helped US so many times that we don’t know how we can ever repay you,” Arthur snapped out of it and thanked Leon alongside the others.

“Elder Thompson, Uncle Angus, you don’t have to thank me. Cynthion Group only managed to plant its roots here in the southern region with your help. The Thompsons and I are friends and it’s only natural for US to help each other,” Leon said with a smile.

“Also, Elder Thompson, your Energy Sea Point has just been repaired and your power will not fully recover right away. I will prescribe you some medicine. Take

it and within a month or two, your power will be back to its peak,” he added.

He then gestured for Angus to bring him paper and a pen, before prescribing Arthur.

“Sure.” Arthur accepted it.

“Uncle Angus, if there’s nothing else you wish to discuss, I’ll take my leave now.”

Seeing as the treatment for Arthur concluded, he prepared to leave with Leo.

“Leon, wait. I’ll leave with you.” Roanne stepped forward.

Due to the battle between the Southern Boss and the Thompsons, the Thompsons suffered great losses and she stayed behind to help instead of leaving with Leon.

After resting for days, the Thompsons were recovering and Leon was about to leave the southern region for the central region.

As one of the shareholders of Elegante Group, she should leave with Leon.

“Alright.” Leon nodded.

He then bid farewell to Angus and Arthur, before leaving the Thompsons’ mansion with Roanne and Leo.

Back in the Heavenly Waters Estate, Leon told Leo to rest since he just came out of training.

He then took Roanne to the room where Renee stayed.

Inside the room, Renee lay unconscious, her face pale.

Iris sat by the bed to care for her and was feeding her water and liquid food.

Renee came close to perishing to save Iris and to repay her help Iris, was devote to caring for Renee.

This included feeding Renee and cleaning her.

Thanks to Iris’s attentive care along with Leon’s treatment, Renee looked alright apart from the fact that she lost some weight and remained unconscious.

“Iris, how is Renee?” Leon asked as he walked over to Iris.

He knew that Renee’s condition was bad and would need the Heavenly Flower to regain consciousness, but he still held hope that perhaps Renee would regain consciousness on her own.

own.

Should a miracle take place, Renee would not have to suffer any longer.

The Ex Husbands Revenge Chapter 3008-“Miss Morrison is still the same. Not getting any better,” Iris said worriedly.

Like Leon, she also wished that Renee would wake up earlier.

However, she was also troubled by the fact that Renee was trying to snatch Leon away.

Given how Renee felt about Leon, she may try to win Leon over again once she regained consciousness.

In the past, she would have stopped Renee from destroying her relationship with Leon no matter the cost.

However, Renee sacrificed herself to save her life and all her resentment toward Renee vanished.

Hence, if Renee insisted on pursuing Leon after she woke up, Iris would not know what to do.

“Iris, don’t worry. I asked someone to help search for the Heavenly Flower a few days ago. I should be able to obtain one soon and cure Renee,” Leon mistakenly thought that Iris was worried about Renee’s health and consoled her.

“I hope so.” Iris nodded and felt less worried.

Though she did not know how to handle Renee’s feelings for Leon, nothing mattered compared to Renee’s life.

All she wanted was for Leon to find the Heavenly Flower soon and everything else could wait until after Renee woke up.

Renee may give up on Leon after this near-death experience, and that would be ideal.

“Leon, when will you head to the central region?” Iris changed the subject.

As Leon’s girlfriend, she already knew that Leon was prepared to leave the southern region and head to the central region.

However, she did not know when exactly he planned to execute this plan.

“In a few days. I need to head back to the western region to settle things there first. After that, I’ll head to the central region,” Leon said thoughtfully.

Cynthia, Snow, and Ruth were all still in the western region and there was much left to do. Hence, he had to settle everything before heading to the central region.

“Sure. By the way, Cynthion Group’s operations in the southern and western regions have settled down. This is a rare opportunity. Don’t you want to expand to the eastern and northern regions?” Iris asked in confusion.

To rescue the Thompsons, Leon had to leave the sales drive in the western region and leave Cynthia in charge.

Afterward, both Leon and Iris called Cynthia and learned that the sales drive was a great success.

With that said, Cynthion Group found its place in both the southern and western regions.

Hence, Iris was unsure of his intention.

The Ex Husbands Revenge Chapter 3009-“No, I don’t intend to give up on the market in the eastern and northern regions.

I went to the Thompsons and reached an agreement with Uncle Angus. I wish to expand my business to the eastern region through the Thompsons and I’ll leave the Morrisons in charge of business in the northern region,” Leon explained.

He and Cynthia initially planned to expand to the eastern and northern regions after taking over the western region’s market.

Then, they would establish branches of the Cynthion Group there.

However, Renee’s condition and the fact that Brahma murdered Scott and the others enraged Leon.

He was in a hurry to head to the central region to find and eliminate Brahma, so that he could avenge Renee and the others.

Hence, he changed his mind and gave up on establishing branches in the eastern and northern regions.

Still, that did not mean he was going to give up on these regions.

The eastern region was linked with the southern region and he collaborated with the Thompsons mainly because he wished to sell the alchemical pills through their vast connection.

Given the Thompsons’ power and the alchemical pills’ supreme effect, the Thompsons should easily operate sales across regions.

The only drawback was that Cynthion Group would not establish a branch in the eastern region, the cost for operation would be higher and they would not establish any influence on the families in the eastern region.

Such a business model would decrease Cynthion Group's profit and minimize its influence on the eastern region.

The same would apply to the northern region.

Still, Cynthion Group had great financial capacity and it would not matter even if the profit from the eastern and northern regions was not as impressive.

As far as influence went, Leon's overall strength reached the Semi-Saint State and there would rarely be anything in Sky County that could rival him.

Hence, he did not need to be influential in the eastern and western regions and would rather focus on pure financial gain.

"I see!" Realization dawned on Iris and she realized that Leon's method would work much better than setting up branches in the eastern and northern regions.

At the moment, this seemed unnecessary.

"Iris, we'll be heading to the western region tomorrow. Do you want to go say farewell to the Scammells before we leave?" Leon asked.

She knew that the central region was the core of Sky County and since Leon planned to head there, they would not return to the southern region anytime soon.

"Yeah. You should come with me," Iris said and stood up.

With that, Roanne remained to take care of Renee, while Leon and Iris left and drove toward the Scammells' mansion.

Patrick was her grandfather and the Scammells were her family, so she should bid farewell to them before leaving the southern region.

The Ex Husbands Revenge Chapter 3010-In the Scammells' mansion, Leon and Iris arrive to find Patrick, Damien, and the others.

Ever since Iris went to the western region to see Leon, she had not been to visit the Scammells.

Seeing as Iris was here, the Scammells were pleased and greeted her warmly.

They invited Leon and Iris in and they all took their seats in the living hall.

"Iris, what have you been busy with lately? We haven't seen you in a while,"

Damien asked.

However, Iris was not seen with him and Damien was slightly baffled by that.

“Oh, Uncle, I’ve been caught up with something and haven’t had the time to come visit,” Iris explained.

Since Renee fell unconscious, she was occupied caring for Renee and did not have time to follow Leon to the Scammells’ mansion.

She then recalled the fact that they would soon leave the southern region. She parted her lips and wished to bid farewell.

However, she could not find her words when she saw how excited the Scammells were when they saw her.

“Grandpa, Uncle, Iris, and I came to speak with you about two matters.” Leon could tell she was struggling and changed the subject.

“What is it?” Patrick and Damien asked in confusion.

“First, I’d like to ally with the Scammells and the Thompsons to transport Cynthion Group’s pills to the eastern region for sales,” Leon explained.

“Really? That’s great!” Patrick and Damien were thrilled.

The Scammells were just a minor family in the southern region with not much power.

The Thompsons, on the other hand, surpassed them by miles in terms of connection and power.

Leon was a budding force, he first defeated the Spears and the Ejalds. A few days ago, he even took the southern Boss down and the Scammells heard about it as well.

It was no exaggeration to say that given Leon’s power and Cynthion Group’s potential, Leon’s influence may just rival that of the Thompsons.

Leon was proposing an alliance with the Thompsons and the Scammells mainly because they wanted the Scammells to profit and rise in terms of status with the Thompsons’ help..

A few months ago, Leon taught the Scammells a method in the Ultimate Power Class.

After training for months along with the alchemical pills Leon provided, the Scammells grew stronger.

Once they started working with the Thompsons and Cynthion Groupn they would be shielded and could stowly grow into one of the major families in the southern region.

This was always the Scammells' dream and one could only imagine how excited Patrick and Damien felt.
