

The Ex Husbands Revenge

The Ex Husbands Revenge Chapter 3011-“Grandpa, Uncle, are you willing to accept the collaboration?” Leon smiled.

As Patrick and Damien guessed, Leon proposed a collaboration with the Thompsons and the Scammells to help the Scammells.

He would be leaving the southern region soon and could no longer protect them.

Hence, he bound the Thompsons, the Scammells, and the Cynthion Group together with profit.

The Scammells were Iris’s family and he wanted to help the Scammells with becoming one of the major families in the southern region.

This was the main reason he proposed a collaboration with the Thompsons.

Naturally, this collaboration between the three parties would benefit the Scammells.

He knew that there was no way that Patrick and Damien would turn it down.

Still, this was just his assumption and he still needed their consent.

“Of course, we’re willing to accept it,” Patrick and Damien said.

“Great.” Leon was relieved.

“Leon, what’s the second matter?” Damien contained his excitement and asked.

“Well, Uncle, I’m here to inform you that Iris and I will leave the southern region and head to the central region. We came here to say goodbye,” Leon said.

“What? You and Iris are going to the central region?”

“What?”

Patrick, Damien, and the others were all shocked and their smiles froze.

Patrick knew that while Leon and Iris went to the western region, the western region was similar to the southern region.

When Leon and Iris headed to the western region, they aimed to establish branches for Elegante Group and Cynthion Group. Meanwhile, the core operation of both firms remained rooted in the southern region.

They all expected that Leon and Iris would return to the southern region once they settled everything in the western region. Hence, Patrick did not think much of them leaving for the western region.

However, the central region was different and far more advanced than the southern region.

Once Leon and Iris headed to the central region, the core operation of Elegante Group and Cynthion Group would likely shift to the central region.

This meant that the two of them would not return anytime soon. In the worst-case scenario, the Scammells may not even see Leon and Iris again in a year or two.

Instantly, their hearts sank into disappointment.

“Iris, I didn’t expect you to leave so soon after only being here for a few months.”

“Who knows when we will see you again?”

Patrick and the others all wore gloomy expressions.

Due to grudges held against Gilbert, Iris was separated from the Scammells with no contact for many decades. Now, Iris finally reunited with her family and resolved the conflicts between the Scammells and the Youngs.

Yet, the Scammells only managed to spend a few months with Iris before she had to leave with Leon.

They were all reluctant to part with Iris, but could not do much about it.

The Ex-Husbands Revenge Chapter 3012-“Grandpa, Uncle, the central region isn’t that far from the southern region. Don’t worry. I’ll make time to come visit whenever there’s an opportunity,” Iris consoled them when she sensed how depressed they were.

Patrick, Damien, and the others were her family and she was reluctant to part with them as well.

Still, one had to aim higher, and given Leon’s capability, it would not benefit his future if he remained in the southern region.

As his girlfriend, she had to go to the central region with him.

Thankfully, the central region was connected to the southern region with around a six to seven hours drive.

Once Leon planted his roots in the central region, she could always return to visit the Scammells.

“Let’s hope so.” Patrick and Damien nodded, suppressing their sorrow.

They knew that someone as talented as Leon would not remain in the southern region forever and it was a wise choice to go to the central region.

Leon would soon accomplish greatness in the central region and eventually, he may return to the southern region with Iris to enjoy the rest of their lives.

When that happened, the Scammells could reunite with Iris.

“Iris, when will you and Leon head to the central region?” Damien asked.

“Tomorrow. Leon and I will return to the western region tomorrow then head to the central region,” Iris said.

“You’re leaving the southern region tomorrow? That’s so soon. If that’s the case, why don’t you two stay for dinner tonight?” Patrick said.

“Sure,” both Iris and Leon agreed.

“Damien, inform everyone in the first bloodline to return home early.

Everyone is to be here! We will all gather around to have a farewell party for Iris and Leon,” Patrick ordered.

“Alright,” Damien said and left.

That night, Patrick had a feast prepared while Leon and Iris stayed to have dinner with the Scammells.

The next morning, Leon and Iris gathered their things and carried Renee into the car, before getting ready to head to the western region.

Along with them were Roanne, Sherlyn, Mason, and Austin.

Leo was arranged to take over the Southern Boss’s position, so he had to stay in the Southern region to maintain order in the underground community.

Apart from that, Patrick and Damien arrived early in the morning to see Leon and Iris off.

“Chandler, stay here for a few days and help Leo maintain order. Once everything settles down, you can head to the western region to find me,” Leon ordered.

Though he ordered Leo to take after the Southern Boss, the underground community was chaotic with plenty of martial artists in the Almighty State.

None of them would obey so easily.

Since Leo was only in the Initial Almighty State, he may not be able to control everyone on his own.

Chandler, on the other hand, reached the Advanced Almighty State, his power rivaling that of the Southern Boss.

With Chandler helping Leo, this was the safest approach.

The Ex Husbands Revenge Chapter 3013-“Yes, sir!” Chandler said.

“Leon, once Chandler helps to settle things with the underground community, you can reach out to the Thompsons if you struggle with anything. They will assist you,” Leon said.

While Chandler could get the underground community in line, the other forces may start to cause trouble once he left the southern region.

Still, Leon already reached the Almighty State and with the Thompsons’ help, these forces would not be able to cause much harm.

Chandler could help eliminate most obstacles at the moment and the Thompsons would assist in the future.

So long as managed to keep all forces in the underground community down, the rest would be up to Leon’s judgment.

“Also, after I leave, take care of the Scammells for me. If they are in trouble, let me know immediately,” Leon added.

“Yes, sir. I won’t disappoint you!” said respectfully.

After arranging everything, Leon and Iris walked over to Patrick and Damien.

“Grandpa, Uncle, it’s getting late. Iris and I will leave first!” Leon said.

“Sure. Leon, the more successful you become, the more enemies you create.

Be careful in the central region. I will leave Iris to you. Take good care of her,”

Patrick said solemnly.

He knew that others would naturally be drawn to the potential of Cynthion Group.

While Leon was powerful and others may not be able to harm him, Leon had Iris and the other women by his side.

Patrick wanted Leon to be careful to prevent others from taking advantage of this.

“Yeah, I’ll be careful!” Leon nodded.

“Grandpa, Uncle, we will leave now. Take care of yourselves,” Iris said.

With that, Iris, Leon, and the others went into the car and drove toward the western region while Patrick and Damien watched.

Meanwhile, in the Morrisons’ mansion.

Though Leon desperately wanted to see Cynthia, Snow, and Ruth and to check on the Cynthion Group, Renee was severely injured for protecting Iris.

When Leon and Iris were about to reach the western region, Leon made a call to Hugo, and explained that he was about to reach the western region, along with the fact that he planned to visit the Morrisons.

In the past few days, he did not inform the Morrisons about Renee’s condition to avoid worrying them.

Now that he returned to the western region, he had to visit them to explain what happened to Renee.

On top of that, the injuries in Renee’s heart and vital organs started O, M healing. Hence, he intended to hand her back to the Morrisons and discuss how the following treatment should be carried out.

The Morrisons should have the right to make the decisions.

The Ex Husbands Revenge Chapter 3014-Outside the gates of the Morrisons' mansion, Caleb, Hugo, and the elders all learned that Leon was returning and stood outside to wait for him.

This was a stark contrast to the first time Leon came to visit.

At the time, Leon was a nobody and the Morrisons did not respect him at all.

However, after what happened during the sales drive, the Morrisons witnessed Leon's true strength.

Not only did Leon defeat the Farmers' five Apostles, but he also managed to scare off the Grimstons and the Underwoods.

Afterward, Leon hurried to the southern region to rescue the Thompsons from the Southern Boss and the Western Boss.

The Morrisons knew about this. Though they did not know about what happened during the battle, they heard that Leon eliminated the Southern Boss and defeated the Western Boss.

The Western Boss, Felton, and most of the core members of the Farmers were all captured for punishment by the Dragon Corps.

After such a drastic event, the Farmers lost the pillars that supported them and faced a downfall.

It was no exaggeration to say that these were all caused by Leon and he was solely responsible for the Farmers' downfall.

Stunned to the cores, the Morrisons dared not to look down on Leon any longer.

Because of that, Caleb made sure that everyone stood outside to welcome Leon upon Leon's return.

"Who would have thought that Mister Wolf could defeat both the Southern Boss and the Western Boss at such a young age? His power is truly limitless! How impressive!" Caleb said, deeply impressed.

"Yeah! It's a good thing that we managed to reach an agreement with Cynthion Group before the Dagleshs! otherwise, we might very well face a downfall."

The elders agreed along, all feeling relieved and glad.

Since they were all foolishly arrogant toward Leon, this almost ruined their opportunity to work with Cynthion Group.

It was thanks to Hugo's hard work that they finally managed to become Cynthion Group's partner before the Daglehs.

If the Daglehs succeeded in establishing a partnership with Cynthion Group, the Daglehs would easily surpass the Morrisons considering Leon's capability and Cynthion Group's potential.

They would eventually replace the Morrisons as the most powerful family and this would lead to the Morrisons' downfall.

Western Boss.

To his bewilderment, things turned out completely differently.

"Damn it! How can that brat be so powerful? Is he even human?" Contrary to their response, Jayden's expression darkened.

Leon eliminated the Southern Boss and even defeated the Western Boss, thus causing the downfall of the Farmers.

Leon's strength was unrivaled in all of the western and southern regions.

Due to the grievances between him and Leon, he fantasized about Leon's defeat and even demise at the hands of the Southern Boss and the

Instantly, he was filled with fear, jealousy, and helplessness toward Leon.

The Ex Husbands Revenge Chapter 3015-I wonder how Renee's doing," Hugo was distracted and fell into silence as he listened to the others praise Leon.

Ever since Renee left the sales drive, she did not contact her family.

Though Leon informed Hugo that Renee followed him to the southern region, Renee did not call him once.

Worried about her, Hugo called her multiple times but she never picked up.

This made him realize that something might have happened to Renee.

Still, this was just a guess and he could not be certain about it.

Therefore, he kept it to himself and did not tell the others to prevent them from worrying.

“Renee’s too reckless. How could she follow Mister Wolf to the southern region without telling US? Once she comes home, I’m going to punish her!” Caleb looked displeased.

Renee disappeared during the sales drive and since Leon was in a hurry to rescue the Thompsons, there was no way that Leon would agree to bring Renee along.

If he was not mistaken, Renee likely followed Leon against his will.

Though he did not know why Renee would do that, he knew that both the Southern Boss and the Western Boss were powerful and almost unrivaled.

Renee was reckless in following Leon to the southern region.

Thankfully, Leon was powerful enough to take care of the Southern Boss and the Western Boss, or Renee would have gotten herself killed.

Hence, he was rather frustrated and was determined to punish her so that she would not do such reckless things again.

“Dad, Renee may have already been in an accident and it may be too late for us to punish her,” Josiah sighed worriedly.

Like Hugo, he had concluded that something bad might have happened to Renee since he did not hear from her for days.

The Ex Husbands Revenge Chapter 3016-“What?” Caleb and the others’ hearts sank as they realized that Renee was not doing well.

“Did something happen to Renee?” With worried expressions, they exchanged glances.

“I don’t know. Well have to wait until Mister Wolf arrives to find out more,” Josiah said with a solemn expression.

He prayed inwardly that Renee was only in a mild accident.

Just as they worried for Renee, they heard noises of engines running and two luxurious cars driving over.

The two cars stopped before them and the car door opened.

Leon stepped out with Iris, Roanne, and the others.

“Mister Wolf, you’re finally here.” Caleb and the others hurried over and they all greeted one another.

“Mister Wolf, where’s Renee?” Josiah did not see Renee anywhere and asked worriedly.

“Well,” Leon said hesitantly.

Though it was never his plan to have Renee there with him in the southern region, she was injured because she tried to protect Iris.

This made Leon partially responsible and he did not know how to explain himself to the Morrisons.

Still, there was no way around this and he summoned the courage to tell the truth.

“Mister Morrison, I’m sorry. Renee was attacked by the Southern Boss to protect Iris and was injured in the process,” Leon explained and was about to recount the event in detail.

Before he could continue, Josiah interrupted him. “What? Renee was attacked by the Southern Boss? How could this happen?” Josiah was stuck and stumbled backward, almost collapsing.

Though he expected that something might have happened to Renee, hearing it from Leon still struck him.

On top of that, the Southern Boss was known as a formidable and ruthless martial artist.

Upon learning that Renee was attacked by the Southern Boss, and attacked by the Southern Boss, adding to the fact that Renee was nowhere to be seen, he assumed that Renee likely perished.

This sent him down a spiral of sorrow.

“Mister Wolf, is Renee dead?” The others felt the same and all struggled to keep tears in their eyes.

“No, Elder Morrison, Mister Morrison, you’re mistaken. Her condition isn’t as severe.” Seeing as they all misunderstood, Leon shook his head and immediately clarified.

The Ex Husbands Revenge Chapter 3017-“Mister Wolf, is Renee still alive?” Caleb and the others were taken aback and slightly relieved.

They all turned to Leon with anticipation, waiting for his response.

“Yes. Renee was injured by the Southern Boss, but I’ve managed to stabilize her condition and she is slowly getting better, still, her injuries were severe and she remains unconscious,” Leon explained.

“I see,” Caleb and the others sighed a breath of relief.

Though Renee was unconscious, it was still better than dying at the hands of the Southern Boss.

“Mister Wolf, where is Renee? Where is she?” Josiah asked, desperate to find out how Renee was doing.

“Oh, Renee is in the car behind me,” Leon said and pointed at the black car behind him.

It was a limo, one that Cynthion Group used to welcome esteemed guests.

Since it was a long drive from the southern region to the western region, Leon took this car from Cynthion Group and put a makeshift bed inside.

Renee was placed on the bed so that she could not be affected by the drive.

“Mason, opened the car door,” Leon ordered.

Then, the Morrisons went over to check on Renee.

Renee lay quietly on the bed, breathing rhythmically. Despite looking slightly slim and pale, she seemed fine.

“Thank god!” They were all relieved that Renee was in a better condition than they initially imagined.

“Mister Wolf, when will Renee regain consciousness? Will she stay this way forever?” Josiah asked worriedly, concerned that Renee would become a vegetable.

Such torment would only make Renee suffer more.

“That won’t happen! Mister Morrison, don’t worry. There’s a type of supreme spiritual herb galled then Heavenly Flower that can cure Renee. I’ve already gotten help to search for it. Once it is found, I guarantee that she will wake up,”

Leon promised.

“Really? That’s great!” Josiah was relieved.

Though he did not know how skilled Leon was in medicine and never saw him treating patients in the past, he knew that Leon was formidable and that his power rivaled that of Caleb and the Western Boss.

Given his strength and status, Leon would not make empty promises in front of everyone if he was not

confident about it.

Hence, Josiah was not worried

The Ex Husbands Revenge Chapter 3018-By the way, Mister Morrison. The western region has an abundant supply of herbs. Is there any Heavenly Flower here?" Leon asked.

Though he already asked the Dragon Guards from the central region to help, the western region was known for its rich supply of rare herbs.

If the Morrisons could find the Heavenly Flower, he did not need to wait for updates from the central region and could help Renee soon.

"Heavenly Flower? I've never heard of that. I don't know if the western region has any of that. I'll send my men to search for it," Josiah said.

There were plenty of herbs in the western region and since the Morrisons were not from a medical background, they did not know much about herbs and it was normal that he never heard of the Heavenly Flower.

Apart from that, supreme spiritual herbs were rare in any region. Herbs that contained light or dark energy could enhance martial artists' power and some families would preserve them for later use.

Hence, it would be easier to search for these herbs in the western region.

Still, herbs like the Heavenly Flower and Fairy Fruit were unique and no one would preserve them. Hence, it was challenging to find them even in the western region.

Josiah could only arrange for his men to search around, but the likelihood of him finding something was low.

"Alright, you should search around. It would be ideal if you can find one, but if you can't, I have another way," Leon said.

He knew that supreme spiritual herbs, especially unique ones like the Heavenly Flower, could not be easily found.

It was fine even if the Morrisons could not find one.

He already sought help from the Dragon Corps and the Dragon Corps in the central region commanded the branches in all four regions. With the Morrisons and the Dragon Corps working at the same time, he could help Renee no matter who found the Heavenly Flower.

“Mister Wolf, don’t worry. We will try our best.” Josiah and Caleb sighed.

Though Renee was injured because.

se alone onto the her here v that Renee was the one who followed Leon and this was not entirely Leon and Iris’s fault.

Hence, they did not blame the two. Nothing else mattered so long as Leon could cure Renee.

“Elder Morrison, I’ll be heading to the central region soon and won’t be able to take care of her until the Heavenly Flower is found, I hope that you can take care of her,” Leon said to Caleb.

“Of course. We will take good care of Renee.” Caleb nodded.

Renee was his granddaughter, so the Morrisons would surely take care of her even if Leon did not ask them to.

The Ex Husbands Revenge Chapter 3019-“Also, this is the prescription for Renee’s injury. Just feed it to her every day and her internal injury will heal completely in a month,” Leon added and handed a prepared prescription to Josiah.

After the treatment for the past few days, Renee’s condition was stabilizing and improving.

Compression treatment was no longer necessary and so long as she took her medicine according to schedule, she should be able to recover soon.

“Alright.” Josiah accepted the prescription and put it away carefully.

After returning Renee to the Morrisons, Josiah and Hugo carried Renee out of the car.

Once everything was settled, Leon bid farewell to them and left with Iris and Roanne, heading toward the Cynthion Group branch.

Meanwhile, in the western branch of Cynthion Group.

Cynthia was working inside the president's office while Snow and Ruth sat next to her, assisting her.

Just then, they heard footsteps approaching and Leon came in with Iris and the others.

"Leon, Iris, welcome back!" Cynthia, Snow, and Ruth all welcomed them enthusiastically.

Though Leon and Iris informed them about their return before arriving in the western region, the three of them were still thrilled after being apart from Leon and Iris for over a week.

"Cynthia, you've done great work while I was away." Leon smiled apologetically for not being present so frequently.

"We are a family, so why are you even thanking me." Cynthia rolled her eyes at him.

"That's right. If you think she's doing a great job, you should accept her as your lover soon. There's also me and Snow. You can consider dating US too. We are fine by it," Ruth teased.

Cynthia and Snow immediately blushed.

"Well," Leon rubbed his nose awkwardly and changed the subject. "By the way, how is the branch doing?"

"The sales drive was a success. Snow, Ruth, and I have taken care of everything else," Cynthia said.

Since the branch was established through an acquired firm, the management model and production line all required reconstruction.

After the sales drive, Cynthia, Snow, and Ruth worked hard and the production line of the branch was in place.

Also, Harley was capable and recruited a lot of talent to fill positions for management.

In the following days, the western branch would only need to operate as usual like the Southern branch.

"Great!" Leon was relieved as he could now head to the central region without concern.

The Ex Husbands Revenge Chapter 3020“Leon, Cynthion Group is on the right track now, but there’s still much to do for Elegante Group. We need to handle everything soon to put the branch here on the right track as well, or it will affect your plans in the central region,” Iris said thoughtfully.

Like Cynthion Group, the Morrisons helped acquire a firm for Elegante Group and did so after they did the same for Cynthion Group.

In terms of operation and production, reconstruction was needed before the branch could be up and running.

In recent days, Leon and Iris were in the southern region and could not spare any time to handle the Elegante Group.

At the moment, the two individuals introduced by the Morrisons were managing the branch.

Since the two were now back in the western region, they had to take over the branch as soon as possible to place it on the right track, or Leon’s plan in the central region would be delayed.

“Um, how about I go on my own and leave Elegante Group to you? Once you are done with everything, you can always come to the central region,” Leon said.

He knew that as a cosmetic firm, Elegante Group had a far more complicated business model compared to Cynthion Group and needed different sales channels to be established.

If he remained in the western region to help Iris with it, it would take at least half a month to settle everything.

He was in a hurry to go to the central region and did not have time to waste.

Hence, he decided to leave Iris in charge while he headed to the central region to survey the environment.

Once Iris was done with everything, she could always join him in the western region.

“Yeah, that works too,” Iris said.

Elegante Group was her firm and she did a great job running it even before she met Leon.

In terms of selling cosmetic products, she was certainly more capable compared to Leon, so there was no point for Leon to remain in the western region to help.

Since Leon was in a hurry to go to the central region, she could take care of everything.

“Leon, are you going to the central region?” Cynthia, Snow, and Ruth were taken aback.

They were apart from Leon so they did not know about his plan until now.

“Yeah, I plan to go to the central region,” Leon nodded and explained his plan, including expanding the group’s operation to the eastern region through the southern branch, and to the northern region through the western branch.

“I see!” The three of them came to a realization and agreed that this was a more efficient plan than setting up branches in the eastern and northern regions.
