

The Ex Husbands Revenge

The Ex Husbands Revenge Chapter 3021-“Leon, why don't I come with you to the central region?” Cynthia said.

“You want to come with me to the central region? Well-” Leon was taken aback.

He was going to the central region to track Brahma down and expand Cynthion Group's operation to the market there.

It was unlike the circumstances here in the western region.

When he first arrived at the western region, he was already in an agreement with Hugo. With the help of Hugo and Renee, he managed to set up a branch for Cynthion Group fairly easily.

This saved him a lot of trouble, but things would be different for the central region.

He knew nothing about the central region, and he did not know anyone there.

To be safe, it would be more appropriate for him to go to the central region on his own.

Still, part of the reason for him to go to the central region was to expand Cynthion Group's operation.

As the director of Cynthion Group, Cynthia was a great businesswoman. If he took her with him, it would benefit his plan.

Instantly, he was caught at a crossroads, wondering if he should go alone or take Cynthia with him.

“Leon, the branch here in the western region has stabilized and everything is on the right track. There's no point for me to stay here. Just take me to the central region with you!” Cynthia grabbed Leon's arm and shook it with anticipation.

Ever since Leon went to the western region on his own, she spent most of the time apart from him. Now that Leon finally returned to the western region, he was going to head to the central region again.

Not wanting to part with him, she wanted to follow him to the central region.

“Leon, just agree to it. I can't go with you this time, so bring her along and she can take care of you in my place,” Iris said.

“Take care of me? I might be the one who ends up taking care of her,” Leon rolled his eyes.

Before he could finish his sentence, Cynthia pinched him on the waist. He gritted his teeth in pain, looking rather hilarious.

“Well, fine! Cynthia, Ruth, and the two of you will follow me to the central region. Snow, Roanne you ib m remain in the western region to help Iris with the operation of Elegante Group. Once you are done, you can come to the central region to find US.” Leon swiftly made up his mind.

Since Cynthia and Ruth were responsible for handling the operation of Cynthion Group and the branch settled down, he intended to take them to the central region to facilitate the establishment of Cynthion Group.

Roanne was a shareholder of Elegante Group, while Snow was a manager there. Hence, he left them with Iris so that the three of them could work together to handle the branch.

He put much thought into this decision.

His overall strength reached the Semi-Saint state and he would not be rivaled in the centrakregion, so he was more than capable of protecting Cynthia and Ruth even if he took them to the central region.

That was precisely why he agreed to take Cynthia.
