

The Ex Husbands Revenge Chapter 3022

The Ex Husbands Revenge Chapter 3022-“Alright. Fine. I agree,” Leon replied.

Cynthia was thrilled to get his answer. She no longer had to worry.

“You’re a good man, Leon.”

Cynthia was not the only one happy to hear it. Ruth shared the same happiness.

After spending days and nights together, she had gotten used to living together with Leon.

She too was very happy when Leon agreed to bring her and Cynthia to the central region. So happy that she suddenly gave Leon a big hug as a reward.

It caught Leon by surprise. Leon’s face was emotionless as he quickly pulled Ruth away from him.

“Cynthia, we’ve got two days before we leave. You should use this time with Ruth to get ready and make sure everything is fine with the Cynthion Group branch while you’re away,” Leon reminded.

“Okay. I’ll do that,” Cynthia replied.

“Iris, I hope the Elegante Group can learn from Cynthion Group. Expanding the market to the Eastern region from the Southern region and to the Western region from the Northern region. Once everything is picked up from the Western region’s branch, you can start to think about it,” Leon said after thinking for a while.

Iris nodded. “Yes, I had the same thought too.”

Since Leon planned to go to the central region, there was no longer any reason for the Elegante Group to have branches in the Eastern and Northern regions.

However, the situation for the Elegante Group was different from the Cynthion Group. The alchemical pills sold by the Cynthion Group were more special and many people were eyeing them.

In order to be safe, Cynthion Group would have to work with the Thompsons and the Morrisons to expand the business to the Eastern region and the Northern region.

The Elegante Group was a normal trading business, so it was not as complicated as the Cynthion Group. In fact, the group would just need to search for proxy companies such as the Zeller Group from the Southern Region.

The proxy companies would be responsible to expand the market to the Eastern region and the Northern region. It was much easier to expand compared with the Cynthion Group.

After that, Leon and the others continued discussing other problems in detail. It was up until the evening that they left the company and went back to the hotel to get dinner and rest.

For the next two days, Iris, Cynthia, and the other girls were busy with their work.

In the meantime, Leon took the time to head to the branch of Dragon Corps in the Western region to look for Mister Orpwood. They discussed the problem left behind by the Western Boss and the Farmers.

Their situation was similar to the Southern region.

Since the crucial members of the Western Boss and the Farmers were captured, the Farmers(fell apart!"

Without the control of the Western Boss and the Farmers, other forces fought with each other to take over more control in the Western regi

It caused a disruption to the order and stability of the martial world, which gave Mister Orpwood a headache because of all the trouble.

That was why Leon came to look for Mister Orpwood to help him solve the problem. After all, Leon was the one who destroyed the Western Boss and the Farmers.

Thus, he would have to bear some responsibility for the chaos happening in the Western region and help Mister Orpwood.

Of course, his solution was very straightforward.

It was like what he had done with the Southern region. He assigned Austin to replace the Western Boss and got Austin to control all the forces in the Western region to maintain order and stability.

Everything would be solved by then.

Mister Orpwood was very happy with the solution Leon proposed. He agreed and quickly reached a consensus with Leon.
