

## The Ex Husbands Revenge

The Ex Husbands Revenge Chapter 3026-The young lady's car had a luxurious interior design with spacious space in the back seat. Enough to fit five or more people.

Leon, Cynthia, and Ruth got into the car.

When the young lady was getting into the car, a young man grabbed her arm.

He was probably 27 or 28 years old with good looks and stylish outfit. He did not look like he was the young lady's bodyguard.

"Shally, they're strangers. We don't know if they're good or bad guys. Why did you offer to bring them to the central region? It's too risky!" the young man, Lucian Summers, snapped with hostility while lowering his voice.

Shally Summers, the young lady, did not understand why he said that." Lucian, the bodyguard crashed into their car. Isn't it the right thing for US to send them to the central region since we're heading there too?"

"How is it right? We agreed to repair their car and gave them compensation.

Isn't that enough?" Lucian growled.

In his opinion, repairing Leon's car and giving compensation was good enough.

They were not responsible for sending Leon, Cynthia, and Ruth to the central region.

"But-"

Cynthia tried to say something but she got cut off by Lucian.

"No buts! Think about it, Shally. The Nortons have been on US for many months. We were forced to expand a new market in the Northern region because of them, and this car crash happened right after we finished our expansion. Don't you think it's too coincidental?" Lucian explained.

After a pause, he continued, “We don’t know these people. The Nortons could’ve sent them. They planned this car crash to get close to US so they could try to sabotage our new market! We have to be careful!”

Lucian looked at the trio with alarming eyes as he spoke and purposely lowered his voice to prevent them from eavesdropping.

“That’s impossible. We’re the ones who crashed into them. They didn’t initiate the car crash. I don’t believe they’re trying to get close to US or have any ill intentions. Besides, they don’t look like average people and they’re friendly. I don’t think they’re bad people,” Shally replied, not buying what her cousin said.

“It’s hard to say. You can’t tell if a man is good or bad based on his appearance. We don’t know them We don’t know if they re bad people, especially that man. He looks like a sneaky and untrustworthy person.

Hear me out, Shally. We have to be careful,” Lucian said while feeling jealous.

From his words, it sounded like he was jealous of Leon.

In fact, Leon looked like a boy next door instead of how Lucian described him. In additions Leon had Cynthia añd Ruth with him, and they looked like they were very close with him.

That was why Lucian disliked Leon. He was jealous.

No matter how Leon looked, he was bound to dislike Leoh. The Content is of.En.novelxo.com! Read the latest chapter there!

The Ex Husbands Revenge Chapter 3027-“You think too much. The Nortons didn’t send them, and they aren’t despicable people like what you said. You shouldn’t badmouth anyone without any proof.

It’s rude. I hope you watch what you say in the future,” Shally reprimanded Lucian unhappily after hearing how he insulted Leon.

She knew she was saving her family business by bringing them with her to the Northern region. It did not affect the Nortons, so there was no reason why they would send people to cause her any trouble.

Even if the Nortons were to send anyone, they would send strong martial artists.

Why would the Nortons send a young man like Leon and two beautiful women to come after her? It did not make sense.

She definitely did not think the Nortons sent Leon, Cynthia, and Ruth. It was not logical.

Of course, being cautious was important, so Shally did not argue further. She knew her cousin was just reminding her to be careful and did not insult Leon on purpose.

She then went into the car.

“Argh. Fine. I hope I didn’t worry too much.”

The young man felt helpless seeing Shally refuse to believe him. However, he got into the same car too to protect Shally and avoid Leon and the two girls from hurting Shally.

Once everyone got into the car, Shally gave the driver’s order to leave. The three cars left the scene and headed toward the central region.

Lucian and Shally sat across of Leon, Cynthia, and Ruth in the back seat.

Shally was the first to break the silence.

“Hi, I’m Shally Summers. This is my cousin, Lucian Summers. What are your names?” Shally asked with a smile.

Although she did not think Leon was a bad person, it was better to ask and get to know Leon just in case Lucian was right.

“I’m Hugh Wolf. She’s Cynthia and she’s Ruth,’ Leon answered.

He was on a mission to track Brahma in the central region so he did not wish to reveal his real name, giving Shally a fake name.

“Mister Wolf, you and your companions don’t look like you’re from the central region. I hope you don’t mind me asking where you’re from. What brings you

to the central region?" Shally continued to ask, assuming that the trio were not from the central region.

After all, Cynthia and Ruth were very beautiful. If they were from the m central region/ their names would have been talked about.

Since Shally had never heard of them, it was safe to assume they were not from the central region.

"Since you know it's a little rude, why did you ask?" Cynthia and Ruth rebuked.

Shally had caused many troubles for them after crashing their car, yet she kept asking questions as if she was conducting an interrogation.

Cynthia and Ruth were proud and arrogant people. Shally's actions had rubbed them the wrong way, and they were not going to be friendly with her.

"I..."

Shally was speechless. She felt embarrassed and did not know what to say

The Ex Husbands Revenge Chapter 3028-Leon saw how embarrassed Shally was and tried to ease the tension.

"Miss Summers, we're from the Western region. We're thinking of opening a pharmaceutical firm in the central region. It'll be our first time there, so we don't know anything about the central region. Do you think you can tell US about it?"

Since he knew nothing about the situation in the central region, it was a good opportunity for him to find out when Shally tried to strike up a conversation.

He could get to know about the central region and also the forces. It would give him more benefits and advantages.

"Sure."

Shally nodded and briefly shared information.

After the conversation, Leon knew there were many ancient martial arts families and powerful major families in the central region. With the strongest being the Three Major Families and the Central Boss.

The Three Major Families had similar influences and power. Whereas, the Central Boss was the ruler of the gangster world. Quite similar to the Southern Boss and the Western Boss. However, its power was far more powerful than the Southern Boss and the Western Boss.

Shally's family was a third-tier ancient martial art family in the central region.

Their main business was in jadeite, jadestone, and antique.

From the conversation, Shally also got to know a little about Leon, Cynthia, and Ruth. She knew they were from a pharmaceutical firm in the Western region.

They were sent by their company to survey the market in the central region to determine if they should expand the business to the central region.

Shally was a little disappointed when she discovered that. Leon's manners and aura gave her an inkling that he could be a member of an ancient martial arts family or a billionaire.

She found out that Leon was just from a normal pharmaceutical firm from Western region, and not from a family trading ingredients to make alchemical pills.

Rare spiritual herbs could help martial artists level up. Therefore, any families who were in the spiritual herb trading business were ancient martial arts families.

However, it was not the same with pharmaceutical firms.

From what Shally knew, a pharmaceutical firm was just a normal company that sold OTC pharmaceutical products. Most of them did not belong to any ancient martial arts families.

That was not all. Leon, Cynthia, and Ruth were just representatives of their company. They were probably managers of a marketing or sales department. Surely they were not billionaires.

Since Shally figured out that Leon, Cynthia, and Ruth were just ordinary working class people, she realized they were not in the same category.

She had overestimated them, giving didn't need to know about those ancient martial arts families in the central region."

She mistook Leon them as someone in the same world as her and realized it was inappropriate to talk about martial arts with them.

Leon calmly smiled and changed the topic. "It's alright. I used to interact with the ancient martial arts families in the past. I'm quite interested with it too."

The Ex Husbands Revenge Chapter 3029-"Miss Summers, does your family deal in antiques and jade? I'm planning to buy some jade pieces. Could you give me your contact information? When I need some, I can purchase from your family," Leon inquired.

He needed jade pieces for setting up Energy Convergence and Energy Gathering Circles, or for alchemy. The ones he had previously bought were left in the Southern and Western regions for emergencies.

He had not brought any with him. Now that he was in the Central region, he needed to buy a new batch of jade pieces. Since the Summers dealt in jade, he thought he could buy from them.

"Sure," Shally agreed, thinking Leon was an ordinary middle-class person likely interested in low-grade jade pieces. She did not consider it a significant matter.

They exchanged contact information.

"Miss, we are nearing the outskirts of the Central region. Where should we go next?" A guard driving the car reported to Shally.

The Summers were a third-rate ancient martial arts family, and their territory was near the outskirts of the city. They were almost within their family's domain, but with Leon and his two companions in the car, the guard sought Shally's instructions.

"Mister Wolf, where are you and your companions headed? We'll take you there first," Shally asked.

"Uh... do you know if there's a real estate office nearby? I'd like to buy a house."

“You can drop US off at the nearest real estate office,” Leon replied.

Leon pondered for a moment before speaking. The situation in the Central region was different from the Western region. Due to the significant geographical location of the Central region, if everything went smoothly, he planned to develop there and gradually shift the business focus of Cynthion Group and Elegante Group from the Southern region to the Central region.

Naturally, this required a more permanent arrangement than just finding a random hotel to stay in, as they did in the Western region.

Therefore, he intended to buy a house in the Central region for himself, Cynthia, and Ruth to settle down. Having a house would also make things more convenient when Iris and the others arrived to join them in the Central region.

“Buy a house? What kind of house do you want to buy?” Shally asked instinctively, her surprise evident.

“I want to buy a detached villa, preferably one that’s surrounded by mountains and water, with beautiful scenery, and ready for immediate occupancy,” Leon answered simply, sharing his thoughts.

“What?” Shally was taken aback by his response. Through her earlier conversation with Leon, she hadn’t assumed he was just an ordinary middleclass person. She also knew that Leon, Cynthia, and Ruth came to the Central region to represent their company in exploring the local market.

Initially, she thought that if Leon wanted to buy a house, it would be a typical apartment to temporarily accommodate the three of them.

However, she never imagined that Leon would openly declare his intention to purchase a beautifully scenic detached villa.

Even though this was just the suburban area of the Central region and not the bustling prime location, the Central region’s central position among the live regions made its population density and other factors much higher than the other four regions. Therefore, even in the suburbs, the price of a detached villa usually starts in the tens of millions.

or even billions.

With such an exorbitant price, she couldn't believe that an ordinary, middle-class person like Leon could afford it. For a moment, she was perplexed, unable to discern whether Leon was serious or just boasting.

The Ex-Husbands Revenge Chapter 3030-Mister Wolf, please allow me to be frank.

"Currently, in the Central region, most real estate is sold through pre-sales, with very few properties available for immediate occupancy.

"Especially when it comes to brand-new single-family villas in beautiful settings, it's extremely difficult to find such properties ready for immediate move-in. The chances are almost zero!" Shally stated bluntly after regaining her composure.

Although she was not sure if Leon truly had the means to afford an expensive single-family villa, she knew one thing for certain. Businessmen pursue profit, and many real estate operations in the Central region follow a model of selling

properties to gather funds before construction. Very few developers actually have ready-to-move-in properties available!

This was even more true for single-family villas, which required significant investment.

Leon wanting to purchase a single-family villa in a short period, one that was also in a beautiful setting and ready for immediate move-in was like chasing an impossible dream.

"This..."

Leon was speechless.

He understood that buying his ideal single-family villa in the Central region was not going to be easy. When he managed to find a suitable villa in the Southern region, it was largely due to luck, like a blind cat stumbling upon a dead mouse.

The Central region was more prosperous than the Southern region, and coupled with his numerous requirements, finding a single-family villa near the mountains and water, ready for immediate move-in, seemed indeed unlikely.

“Forget it. If I can’t buy a brand-new single-family villa, I’ll have to settle for a second-hand one...” Leon said with some resignation.

This time, his goal in purchasing a villa was twofold: first, to provide a place for himself, Cynthia, and Ruth to settle down. Second, to facilitate his alchemy practice.

Only if the villa was situated near the mountains, where the spiritual energy was abundant, could he set up an Energy Convergence or Energy Gathering Circle for his alchemy.

This was his basic requirement for purchasing a villa!

Compared to the villa’s location near the mountains, all other conditions were secondary.

Although he did not particularly like second-hand houses, he had no choice but to settle for one since he could not find a suitable new house within a short period. He decided to try his luck with a second-hand villa.

Who knows, he might just find one!

“If you don’t mind buying a second-hand villa, it should be much easier. How about this, I’ll take you to a nearby real estate agency, and you can try your luck...” Shally suggested.

She was just about to instruct the driver to take Leon and his companions to a nearby real estate agency when Lucian interrupted her.

“Shally, don’t you happen to have an unused independent villa?” he said.”

That villa is surrounded by mountains and water, with beautiful scenery. It meets all of Mister Wolf’s requirements perfectly. Since he wants to buy a second-hand villa, why not sell him yours?”

Lucian, who had been silent all along, suddenly spoke up. There was a hint of disdain and a cold smile in his eyes as he glanced at Leon.

He had overheard the conversation between Shally and Leon and shared Shally’s impression that Leon was just an ordinary middle-class man.

Now, Leon claimed he wanted to buy a villa worth tens of millions or even over a hundred million, which sounded like pure bragging to Lucian.

The more he listened, the more disgusted he became with Leon's boasting. Furthermore De felt a tinge of jealousy and irritation seeing the two stunning women, Cynthia and Ruth, by Leon's side.

Since Leon insisted on bragging about his desire to buy an expensive villa, Lucian decided to fulfill Leon's wish by suggesting that Shally sell her unused villa to him.

If Leon could not come up with the money to buy it, Lucian was eager to see how he would save face.
