

The Ex Husbands Revenge Chapter 3061 -

The Ex Husbands Revenge Chapter 3061-Bang! Bang! What followed was two loud sounds after Leon's attack crashed at Marvin's guards' attacks.

The same thing happened again.

The residual force from Leon's attack continued to whirl toward the guards and hit them.

The guards got blasted and sent flying nearly 10 feet away because of the force.

As they crash-landed, a pain came striking at their chests.

Both of them spat out a mouthful of blood and laid down on the floor looking weak.

Following Marvin's footsteps, they too also lost the ability to fight.

"What the? How— How could that be?"

Shally, Lucian, and Marvin were dumbfounded and shocked.

Especially Lucian and Marvin.

They never thought Leon could defeat the guards because of his age.

Yet, the cruel reality slapped them in the face.

A cold, hard slap.

Never did they dream Leon could stop the guards' powerful attacks with just a swing of his hand and easily injure them too.

It was just unbelievable.

For a minute there, they felt so shocked that their jaws nearly dropped to the floor.

"Damn! That's so awesome! Mister Wolf, you're so powerful!"

After Shally gathered herself, she was struck with happiness and had a big smile on her face.

Although she did not know how exactly Leon defeated Marvin's guards, there was one thing she was certain of.

With Marvin and his two guards hurt, there was nothing Marvin could do to hurt Leon anymore.

That was a relief for Shally.

Now she understood why Leon insisted on staying and provoked Marvin by calling Marvin an insect.

At first, she thought Leon was arrogant.

Now she knew she was wrong.

Leon was capable and strong.

Her perception was wrong.

She underestimated Leon's capability.

"Damn it! How is this happening? Who the hell is he? How can he be so powerful at this young age?"

Marvin cursed.

On the contrary to Shally's joy, Marvin was greatly disappointed.

It just did not make sense to him how a nobody had the power to defeat his guards.

It was just too hard for him to accept the cruel reality.

"Mason. Throw these three garbage out. I don't want to see them in the shop anymore!"
Leon ordered.

Despite Marvin acting arrogantly and how he tried to bully Leon and Shally, Leon thought Marvin and his guards got the punishment they deserved.

He could not be bothered to deal with them anymore.

"Yes, sir!" Mason replied.

Then he walked toward Marvin and the guards.

Grabbing them up like he was grabbing a dog and threw them out of the shop.

At the same time, Mister Negus got chills climbing down his spine after seeing how Leon beat Marvin and the guards.

He was worried Leon would target him next so he took the chance to run away when he was noticed.

The Ex Husbands Revenge Chapter 3062-rAfter Marvin and the guards got thrown out of the shop, Shally approached Leon.

“Mister Wolf, thank you very much.

Thank you for exposing Marvin and Mister Negus.

Thank you for saving my business,” Shally expressed her gratitude.

“You’re welcome, Miss Summers.

We’re friends, aren’t we? It’s what friends do for each other,” Leon smiled back.

“Yes, you’re right.

We’re friends,” Shally said happily after a brief stun moment.

She sold the villa and jadeite to Leon at a discounted price because she wanted to get close to Leon.

Never did she expect that being Leon’s friend could help her out of the mess she was today.

If it was not for Leon, she and her family business would be in turmoil.

“Mister Wolf, you have an incredibly high power level at your age.

If I’m not wrong, I think you must be a direct descendant of a major family in the Western Region,” Shally presumed.

Since there was no movement of true energy on Leon, Shally could not tell how high Leon’s power level was.

The fact that Leon could easily defeat Marvin and the guards proved that Leon’s power level must be at least Advanced Emperor State or higher.

With Leon’s natural-born talent in martial arts, he could ranked in the top list of the strongest young generation in Sky County.

From there, Shally presumed Leon was either a direct descendent member of the major family or a prodigy with natural-born talent.

As such, she could not help but be impressed with Leon’s identity and strength.

“No.

I'm not from any major family in the Western Region.

I was lucky to have obtained some opportunities," Leon explained briefly with a smile while shaking his head.

"You're not?" Shally was quite disappointed as she knew that.

Nevertheless, Leon had a bright future ahead because of his age and power level.

Whether he was from a major family or not, he was a natural-born prodigy with great talent.

Shally believed she was right to be friends with Leon and that would bring many benefits to her and her family in the future.

With that in mind, she no longer felt disappointed and put it away from her mind.

"Damn it! How did he do it? How can he be so powerful at this age? Lucian murmured to himself while looking at Leon with fearful eyes.

After witnessing how Leon defeated Marvin and guards he knew how powerful

From being arrogant and conceited attitude at Leon, he was now slightly scared Leon and no longer dared to defy Leon like before. "Miss Summers, I'm still missing a piece of large extreme top-quality jadeite.

I hope you can help me find one.

If there is nothing else, 'I get going,"

Leon requested and bid this farewell.

Lucian's view of him did not bother him at all.

"Okay.

Goodbye, Mister Wolf," Shally said and walked with Leon to the door.

After that, Leon, Cynthia, and the others left the shop and went back to the villa. Content is on En.novelxo.com! Read the latest chapter there!

The Ex Husbands Revenge Chapter 3063-After Leon and the others left the shop, Shally and Lucian went back to their office to deal with the new supplies.

Their work only finished during the evening.

Then they went back to the manor.

Meanwhile, Elder Summers, the five elders, and the core family member of the summers were sitting in the living room to discuss the future development of the family business.

When Shally and Lucian arrived, they went straight to the living room to report about the new supplier they found.

“Hi, Grandpa.

Uncles,” Shally greeted.

“Mister Summers,” Lucian also greeted the leader of the family which was Shally’s grandpa.

Shally was the granddaughter of the leader of the family, Keith Summers.

She was also the only grandchild of the main family.

Sometimes, Shally called Lucian her cousin but Lucian was not Keith’s descendant.

In reality, he was the grandson of the Great Elder of the family.

Therefore, he was a distant relative and not a close relative of Shally.

That was the reason why he had to listen to Shally even when he disliked Leon a lot.

“Shally, Lucian.

You guys are here.

Come sit down.

I heard Marvin and his men went looking for trouble this afternoon.

What happened?” Keith asked curiously.

Although he handed the business to Shally, he was concerned when he knew Marvin was trying to scam Shally.

The managers and guards briefly reported the incident to him.

However, he was not aware of the details.

“Grandpa.

Marvin came!" Shally went on to tell him the whole incident.

"What? That Marvin! What a devil he is!" Keith and the elders were shocked to find out the details of the incident.

Marvin's vicious and evil plan would destroy their business if he succeeded.

Luckily, there was always a way out.

Based on what Shally said, a young man named Leon exposed Marvin and defeated Marvin and his guards.

Or Shally would fall into the trap and bring chaos to their family business.

"Shally, where is Leon now? After what he did for our family, we must thank him.

Why don't you invite him here so I can thank him myself?" Keith thought and said.

As a grateful person, Keith believed it was important to appreciate when someone showed you kindness.

Although he did not know who Leon was, he was thankful to Leon for exposing Marvin and helping them to avoid a business catastrophe.

Thus, he came out with the idea to invite Leon over to express his gratitude himself.

Something anyone would do to show good manners and courtesy.

"Okay.

I'll inform him tomorrow morning," Shally replied.

After the incident, Shally and Lucian needed to deal with the new supply.

Thus, she did not have the time to express her thankfulness to Leon at that time.

Now that Keith reminded her, she realized it was impolite of her.

Luckily, Keith proposed to invite Leon over tomorrow.

Shally would have the chance to thank Leon.

Other than that, she prepared to invite Leon herself by going to the villa tomorrow.

That would show her sincerity as compared to inviting Leon through a phone call.

The Ex Husbands Revenge Chapter 3064-“Keith, it’s too early to thank Mister Wolf,” One of the Elders, Otto, who was next to Keith sighed with a frwn.

“Too early? What do you mean by that, Otto?” Keith needed clarification.

“Keith, I’ll be frank.

The Nortons are our biggest business competitors.

They are not good people! Not only had Mister Wolf exposed Marvin Norton’s scheme, but he also injured him! He embarrassed the Nortons! If my guess is right, the Nortons won’t let this matter rest!” “Oh!” Keith and Shally were at a loss for words.

What Otto said made a lot of sense.

The Summers and the Nortons were rivals.

For the past two years, the Nortons were constantly trying to take the Summers down.

Leon ruined their plans and even hurt Marvin in the process.

How could the Nortons easily let this matter go? “Well, no matter! Marvin Norton tried to set Shally up.

They deserved what they got! They have no one but themselves to blame.

If the Nortons are not going to let this slide, we’ll fight back!” Keith said coldly.

Ever since Shally’s parents and her brother died in an accident, the Nortons took advantage of the Summers not having an heir to constantly mess with them.

The Summers had enough of it! If the Nortons would not let this matter go, the Summer were ready for a fight! They were going to let the Nortons know that the Summers would not be easily bullied! “Keith is right!” “Although the Nortons have the support of the Central Boss, we have the support of the Jansons.” “If the Nortons want to fight US head-on, they would be no match for us!” The other elders all chimed in.

The ancient martial arts families in the central region were different from the other four regions.

The families in the other four regions were relatively peaceful.

They stuck to their lanes and enforced their own rules.

They had nothing much to do with each other.

The competition between the ancient martial arts families in the central region was much more intense.

A third-tier ancient martial arts family like the Nortons would usually need to rely on more powerful families to survive.

The family that the Norton family relied on was the Central Boss and the Micahs.

Every year, the Nortons would offer the Micahs a portion of their business profits in exchange for protection and support.

Likewise, the Summers relied on the Jansons.

They would do the same to get the protection and support from them.

It was exactly because of this reason that the Summers and the Nortons were equally powerful.

They both had more powerful families supporting them so they”

ould not do anything to one another.

Which was why the only thing the Nortons did for past two years was trying to destroy the Summers’ businesses.

They wanted to take the Summers down and bankrupt them.

However, the Nortons never once used force on the Summers of course the Summers were more or less as strong as the Nortons.

If the Nortons were to fight the Summers with force, they, might not even win

The Ex Husbands Revenge Chapter 3065-“Sir! TT Just when Keith and the Elders were discussing the matter of the Nortons, one of their collateral descendants rushed in looking flustered.

“Something terrible has happened! I have just received news that the Nortons have gathered many fighters.

They are coming over right now!” The collateral descendant reported.

“What?” Keith and the others were shocked.

Some even sprang up on their feet.

After Otto's assessment, although they acknowledged that the Nortons would not give up that easily, they were still shocked to hear that the Nortons were coming over with fighters.

"That's terrible!" "Mister Wolf is in trouble!" Shally looked aghast.

She knew that the Nortons were on the same level as the Summers.

They were both third-tier ancient martial arts families.

Their powers were roughly the same.

Under usual circumstances, the Nortons would not have used force on the Summers, to prevent them from incurring unnecessary losses.

The Nortons were acting out of the ordinary, leading a huge pack of fighters over to them.

Shally did not need to think hard to know that the Nortons were coming for Leon! After all, the person who hurt Marvin was Leon.

Not her or Lucian.

Besides, the Nortons did not know who Leon was.

If they wanted to seek revenge on him, they would naturally have to start from the Summers! "Grandpa, what should we do now?" Shally asked Keith worriedly.

She was quite stumped.

"We'll be on the defensive! They are just the Nortons! They can't do anything to us!" Keith harrumphed.

At that point, he suddenly remembered something.

"Shally, this is more urgent.

Mister Wolf's safety is more important right now! Why don't you take the Forth Elder and Fifth Elder to look for Mister Wolf? Tell him about the Nortons.

Then, protect him and escort him out of this region.

Get him to go somewhere and lay low." When Shally told him about Leon beating Marvin up, he also found out about how Shally got to know Leon.

At the same time, he knew that Shally sold Leon the villa at the Pearl Garden Estates.

Leon was currently staying there.

The Pearl Garden Estates were not far away from them.

The Nortons were the Summers' biggest rivals in business.

They knew each other very well.

If the Nortons wanted to go up against Leon, they could just easily send someone to look into it.

Finding out where Leon was staying was nothing challenging! 10 prevent the nortons from attacking Leon,"

Keith planned to get Shally and two other Elders to escort Leon out of this region to a safer place.

.

Once Leon was in hiding and the

Nortons could not locate him, they would not be able to do anythingn tothem. By then they would have no cholde but to let this matter go!

Everything would be solved.

"Okay!" Shally responded.

She immediately understood what Keith was planning to do.

Before the Nortons arrived, she quickly left the summerg with twol other elders to the Pearl Garden Estates to warn Leon.
