

The Ex-Husband's Revenge By Dragonsky

Chapter 461-465

Chapter 461

Facing Horsen's intense attacks, he slowly fell to a disadvantage.

Even so, he still managed to last a few dozen exchanges with Horsen. In the end, he lost because his stamina

ran out.

"We finally won one!" Snow breathed a sigh of relief, letting out a smile.

Landry and the others reacted more or less the same way. Their morale recovered a little.

However, it did not last long.

Horsen and Riker fought at full power earlier, and Horsen already spent most of his strength. He quickly fell to one of Jacob's guards.

"How'd things end up like this?!" Snow's expression changed, unable to keep her calm.

After the last few rounds, her side used three of their men to barely defeat one.

Other than Leon, the scammer, only she was left to fight against four opponents.

Among them was Jacob, one of the best fighters among the youths of Springfield City. He was at the late Innate Stage, so there was no way he was any worse than her.

It was a pipe dream for her to defeat four of them alone!

Suddenly, she felt very hopeless!

"No, I can't lose!"

"This match concerns my father's reputation and dignity. Even if there's just a sliver of hope left, I can't give up!" Snow clenched her teeth and walked on the stage.

"Snow, I can't believe you've run out of any talented men so quickly! Even a woman like you has to start fighting. It looks like I'll be winning this match!" Jacob said with a laugh.

“Jacob, don’t be so pleased with yourself just yet! Before we get to the last moment, no one knows who the winner will be!” Snow said coldly.

“Is that so, let’s watch and see what happens then!” Jacob laughed as he motioned for the match to continue.

Snow knew very well that the key to this match was her and Jacob. She needed to figure out a way to quickly get rid of the other opponents. She could not waste too much energy on the others.

Otherwise, she would lose against Jacob!

With that in mind, Snow went on the offensive, attacking her opponents quickly as she prepared to handle everything quickly. She needed to get to Jacob as fast as she could!

Then, the two of them would have a final battle!

“Late Innate State?” Leon straightened his body in the resting area. He had a look of surprise on his face.

From Snow’s true energy, he could tell that Snow was already at the late Innate State!

Since most of the techniques were more suited to women who lost to time, men were at the advantage in

terms of martial arts compared to women.

Among the martial artists **that** Leon met, there were not many youths that could exceed the intermediate innate State.

However, Snow managed to get to the late Innate State even while being such a beautiful woman.

It caused him to look at her differently!

“Mister Poole, I can’t believe your sister is so strong. She is amazing!” Leon could not help but praise.

“Of course!” Fane let out a pleased smile. After that, he seemed to think about something as he winked at Leon, “Mister Wolf, my sister is such an excellent woman. She is so beautiful as well, and she’s considered one of the four most beautiful women in Springfield City.”

“If you don’t have a girlfriend, I can help you go after her. What do you think?”

Leon spat out his drink.

"I think I'll pass. Thank you for the suggestion, though," Leon smiled awkwardly.

Chapter 462

"What? Don't you like the fact that my sister's older than you? **It's** fine, an age **gap** isn't that much of an issue nowadays. My sister's just three or four years older than you at most. Both of you would suit each other very well!" Fane did not give up.

"Mister Poole, forgive me for being honest, but your sister's **so** beautiful. She comes from **a good** family as well. She has many suitors! It would be easy for her to find a suitable boyfriend. Surely **you** don't need **to be** worried for her?" Leon asked curiously.

"You don't know this, but my sister was hurt badly by a relationship before. After that, **she** started to hate men, especially men with silver tongues who are not reliable. My dad and I both hope she can find a man to spend her **life** with soon. At least, we hope **she'll** be able to step out of that shadow," Fane sighed and said.

"So that's what happened!" Leon realized something, finally understanding why Snow seemed to hate him

so much.

Snow was probably lied to by a man and hurt badly. When she found that he could be a fraud, she ended up going against him everywhere!

Just as Leon and Fane were talking about it, the round already ended.

Snow defeated her opponent in a thunderous manner.

"Next!" Snow said coldly with her hands behind her back. She had a sharp gaze as she looked down on **everyone**, like a noble queen.

"Snow, I didn't expect you to already be at the late Innate State. You are quite decent! No wonder you were so arrogant just now!" Jacob was a bit surprised.

He never fought Snow before and did not know how strong Snow was. He finally knew that Snow's skills were not to be underestimated.

"Continue! I want to see how long **you** can last!" Jacob let out a sneer as he motioned for his next guard to go

The next guard was slightly stronger than the last one, but he was still a far cry from Snow.

In just a moment, he fell just like his companion had, defeated by Snow.

“Snow, that’s it! You’re so awesome!”

When Snow won two in a row, Landry and the others could not help but cheer intensely.

Their morale suddenly improved a lot.

Jacob did not mind it as he motioned for the next one to go on stage.

This subordinate was at the late Innate State just like Snow, so they were about equal in strength.

However, Snow was already in the late Innate State for a few years. Among those of the same level, she was

quite strong.

Even though it took her quite a lot of effort, she still managed to defeat her opponent!

“Snow, keep at it!”

“Continue defeating them!”

When Snow won again, the others were cheering madly. They started to shout as if they finally saw a chance at winning!

“Jacob, it’s your turn now!” Snow pointed at Jacob and issued her a challenge.

“Haha, this is interesting! It looks like I’ll have to fight!” Jacob laughed as he walked up with his head held high.

He thought that they would be able to win the match without him having to fight at all. He never expected Snow to be much stronger than he anticipated.

Chapter 463

“This is good too. The more hope you have, the more disappointed you’ll be! I’ll extinguish all your hope myself later. I’ll let you know what despair is!” Jacob said arrogantly.

“The one who’ll be in despair is you!” Snow said coldly. However, she was incredibly nervous inside, not feeling nearly as calm as she looked.

She already said it before. Jacob was already at the late Innate State, and was not far a way from reaching the peak.

He was not weaker than she was.

Furthermore, she already went three rounds earlier. She already used up a lot of her stamina and true energy.

At that moment, she had a very slim chance of defeating Jacob!

“What? Are you scared?” Jacob seemed to have seen through Snow’s thoughts, and he had a sudden idea.

“Miss Poole, you’re a woman in the end, and you’ve used up quite a lot of strength fighting the last three rounds. It would be too easy for me to defeat you like that! Why don’t I give you a one–hand handicap?” Jacob said meaningfully.

“A one–hand handicap? W–would you be so kind?”

Snow was shocked. She jumped at the surprise.

Jacob was at the same level as her. They were both at the late Innate State. Even though she was not as strong as Jacob, the gap between them was not that wide.

If Jacob gave her a handicap like that, she had a good chance of defeating Jacob!

“Of course, I wouldn’t just give you a handicap like that. I have my conditions too!” Jacob said calmly.

“What conditions?” Snow could not help but ask.

“Nothing comes free in this world! Since I’m giving you a handicap, then the bet has to change as well! If I manage to win, your side needs to give me an additional two hundred first–grade Energy Nurturing Pills!” Jacob let out a sinister smile.

He knew of how Fane was lucky enough to purchase a thousand first–grade Energy Nurturing Pills from Cynthion.

He was always envious of that.

It was a rare chance for him to get even more Energy Nurturing Pills!

“So, you’re after the pills!” Snow realized something.

After Fane got the pills, he gave her some of them. She used them before, and the effects were really good. They were amazing pills to help martial artists.

It was only natural that Jacob would have his eyes on those pills.

She finally understood why Jacob was **so** kind!

“No! Absolutely not!” Fane immediately walked out of the resting area.

“Snow, you can’t agree to it! He’s already prepared. You can’t fall for it!” Fane said urgently.

He knew that his sister was probably no match for Jacob, but it was fine. He still had Leon as a trump card!

With Leon’s skills, it would not be too hard to defeat Jacob!

He did not need to add on to the bet and give Jacob something for free!

“That-” Snow was hesitant.

She was different from Fane. She had no faith in Leon at all and did not hold out any hope that Leon would be able to do anything.

All she knew was that everything would be done **if** she lost!

On the other hand, she would have a very good chance of beating Fane **if** she agreed. As long **as** she would win, there would be no losses incurred!

Chapter 464

It was the perfect opportunity!

However, there were no absolutes.

Energy Nurturing Pills were too valuable. They were things that all the large families coveted. Two hundred pills was not a small sum either.

If she was not careful and ended up losing, it would be a huge loss!

The price was too big to pay, **so** she was a bit hesitant.

“What? Aren’t you even willing to put just two hundred first-grade Energy Nurturing Pills on the line? If that’s the case, I can give you a new condition!” **Jacob** said with a challenged look.

“What condition?” Snow asked.

If Jacob gave them an easier request, she could agree to it!

“Miss Poole, you’re one of the four great beauties of Springfield City, and you’re the dream companion of many **men!** Any normal man would be moved by a sexy **and** beautiful woman like you! If I win, then you’ll keep me company for a few nights. I want to taste someone as beautiful as you are, to see how amazing it feels.” Jacob let out a sinister smile as his gaze wandered over Snow’s beautiful face and gorgeous figure with a look of greed.

“Despicable! You’re looking to die!” Snow was furious. She rushed right at Jacob with a punch.

Jacob was already prepared for that and avoided Snow’s attack by dodging it.

“Snow, you’re so foxy looking. It’s **not** like you’ve never slept with any men before. Why are you acting like such a pure girl in front of me?! I’m giving you two choices. Either you add two hundred first-grade Energy Nurturing Pills, or-” Jacob was lewder as he spoke, trying to anger Snow.

“You scum!”

Snow’s whole body was trembling in anger.

Even Landry and the others were looking at Jacob with fire in their **eyes.**

If not for the fact that Jacob was strong, they would have already rushed over to beat Jacob up!

“Alright, I’ll agree to add two hundred pills to one **of** your hands!” Snow lost all her rationality in her anger, and agreed to it directly.

“Snow, don’t be reckless. He’s purposely making you angry. Don’t fall for it.” Fane was shocked and tried to stop Snow, but he was interrupted by Snow before he could finish.

“Fane, don’t say anymore, I’ve already decided it! I’ll beat up his rotten mouth today!” Snow was furious. She seemed to be covered in a layer of ice, and she wanted nothing more than to rip Jacob apart!

The crowd was immediately in an uproar when they heard that Snow agreed to Jacob’s conditions.

Everyone thought that the match would be **very** simple, not one expected so many twists and turns in the middle.

Very quickly, the atmosphere was incredibly loud!

“Very good! Then let’s have everyone here be our witness!” Jacob laughed and said.

His goal was the pills in the first place. Snow fell right for his trap!

Of course, Snow was so incredibly gorgeous. If he could get Snow as well, then it would be perfect.

However, it was not something that could be rushed. There were more chances in the future!

On the stage, Jacob put his hand behind his back as agreed.

Chapter 465

The people of the underworld put a high amount **of** importance on their words.

With both of them already agreeing to the bet and coupled with the fact that there were many of the upper society present, neither side was worried that the other would go against their word!

“Jacob, you are arrogant. I’ll make sure you pay the price for your arrogance! Take this!”

Snow was incredibly murderous as she used her full strength. She charged right at Jacob with a soft **but sharp**

aura.

Jacob was at about the same level **as** she was. They were both at the late Innate State.

However, at that moment, Jacob was only using one hand. She believed that she could easily defeat Jacob and wipe away the earlier humiliation!

“That’s perfect! Let me show you my true skill today!” Jacob laughed coldly, not retreating at all as he charged at Snow with one hand.

“Peak Innate State?” Feeling Jacob’s true energy, Snow’s expression changed.

She always thought that Jacob was at the late Innate State. She never expected that Jacob already broke through at some point, reaching the peak Innate State!

Even though the late Innate State and the peak Innate State was just one level apart, there was a gap that was

hard to overcome between them.

With her being at the late Innate State, it would be suicide for her to face someone at the peak Innate State

head one!

At that urgent juncture, Snow suddenly changed her approach as she hurriedly retreated, trying to avoid Jacob's attack.

However, she might have been quick, but Jacob was quicker!

No matter how she dodged, Jacob's fist seemed to follow her.

Seeing as she could not avoid it, Snow clenched her teeth and punched right at Jacob's attack.

Bang!

After that clash, Snow's body was sent flying backward, slamming into the ground outside the stage.

Snow clutched her chest and started to cough out blood. She was injured internally.

"Snow, are you alright?" Fane was shocked as he helped Snow up.

"I'm fine, it's just some small internal injuries," Snow shook her head.

"**These** are Circulation

Pills from Cythion. They're good for internal injuries. Have some," Fane hurriedly pulled out a bottle and gave Snow a pill.

After Snow had the Circulation Pill, the injuries immediately felt much better.

"Snow, you've lost! Didn't you keep saying that I was arrogant just now? Do you see my true skills now?!"

Jacob laughed and said.

He stood on the stage and looked down at Snow and Fane with a crazed expression!

“Jacob, unbeatable!”

At that moment, Jacob’s subordinates were frantically cheering for Jacob.

On the other hand, Landry and the others were completely ashen.

“Jacob, you tricked me! You were just in the late Innate state. How’d you suddenly reach the peak Innate State?” Snow said with a dark look on her face.

She finally understood that Fane was right. Jacob deliberately gave her a handicap to give her hope. In the end, he just toyed with her. She recklessly fell for Jacob’s trap!
