### Chapter 571-580

However, one could not take their words back, and since her father already declared this in front of so many people, Snow could not possibly turn her father down and risk embarrassing him in front of his respectable

peers.

Besides, she was not entirely against the idea of marrying Leon at all.

“Oh no,” everyone’s blood ran cold at this.

Snow was a beautiful lady—one of the Four Beauties, no less. No man could ever resist a beauty like her, and

Leon was no exception!

Even though the elders **did** not approve of Vincent’s behavior, unlike him, they did not have pretty daughters that they could give out, and thus knew that they would not be able to compete against him.

George could not stand this any longer; he was worried that Leon would not be able to resist Vincent’s offer and quickly added, “President Wolf, the

Collins will offer you six hundred and fifty million dollars to build a new enterprise, provided you work with us! Not only that, but I’ll let you take my granddaughter Ruth as your wife!”

George, on behalf of the Collins, gave Leon a better and more attractive offer!

When Leon and the Shears collaborated to found Cynthion Group, the Shears only contributed 130 million dollars, and now, George offered five times the amount—this was a far more compelling deal than anything!

Not only that, but Ruth was not just a talented martial artist but the **last** of the Four Beauties **as** well.

Ruth's background, beauty, **and** talent were on par with Snow's.

George was unwilling to believe that even with the prospect **of** money and women, Leon would be able **to**

resist his offer.

“What? Grandpa, how can **you**?” Ruth was utterly shocked by this. She never thought, not even in her wildest dreams, that her grandfather would use her as a tool to lure Leon into working with him!

Even though Leon was a handsome and talented young man, this was her first time having laid eyes on him, and up until now, the two of them were total strangers. Besides, she was such a good fighter that up until now, she barely even gave Leon a second glance.

However, now, her grandfather gave her **to** him in marriage, in return for financial gain! She could not

believe her ears!

“Don't butt in, Ruth. I have a plan!” George cut **her off** in a whisper.

The truth was, Ruth was always such a good fighter and granddaughter that he could not bear to give her away in exchange for Leon's **cooperation**; he was **just** saying this to trick Leon into working with him.

As for whether Leon and Ruth would get along and eventually become a couple, it was all up to fate!

Ruth swiveled her eyes and immediately understood what George tried to say, so she kept quiet.

“The Collins are being so generous!” Everyone was astounded by this. George’s offer was far more attractive than Vincent’s, and most of the major families already chose to give up.

“Rats! What makes this fellow so good that both the Pooles and the Collins want him *so* badly?” a *crowd* of young heirs and successors were envious of the way Leon was being treated.

Both Snow and Ruth were members of the Four Beauties; most of them pined after these two women for a very long time, and one would have to be extremely lucky *to* win either of their hearts!

However, now, these two women were being dangled in front of Leon for his choosing, and *it* was up to Leon to make his choice.

What a lucky, lucky man!

## The Ex-Husband’s Revenge By Dragonsky Chapter 572

They were all seething with envy!

“Grandpa, do you think Mister Wolf will be seduced by the Collins’ offer?” Harvey asked, his face pale with fright.

he

“I don’t know either,” Benedict replied, shaking his head. Even though he trusted Leon with all **his** life, had to admit that Collins **gave** him a very attractive offer, and he was concerned that Leon would change his

mind.

Meanwhile, onstage, Cynthia’s face turned red with rage. She planned this immaculate sales drive to help Leon achieve fame and reputation, but along the way, **this** turned into a dating show for Leon to pick his future wife!

The worst part was, both Snow and Ruth were **also part of** the Four Beauties and were both **on** par with her. The truth was, Cynthia, Snow, and Ruth were equal competitors when it came to their family background, looks or figures.

Therefore, she was not too happy about the prospect of discovering two new competitors!

“President Wolf, we’ve already listed our terms. I wonder what are your thoughts regarding them?” George asked calmly.

“I-” Leon was stunned **by** this sudden turn of events.

It started with Vincent promoting his daughter Snow, and now, George joined suit; what was going on?

Leon could not understand how an orphan like him with no familial background whatsoever could have gotten so popular all of a sudden!

Seeing that Leon did not reply, Benedict immediately thought he changed his mind. He could not stand it any longer and stepped forward. “Hey, Collins, don’t waste your time and energy! If Leon wanted money, we can always give him six hundred and fifty million like you did! As for attempting **to** lure him in **with** your beautiful granddaughter, as long as Leon wants, I can marry Cynthia off to **him** as well! I’m sure my granddaughter is better than yours!” he said coldly.

“What?” George was taken aback by this.

Even though Leon was an exceptional alchemist, he was still an orphan who hailed from nothing. Not only did he have much room for improvement in his power level, but he did not have anything under his name **as** well.

He was **a** long way away from being able **to** compete with the Four Major Families, and George used his granddaughter Ruth simply **as bait** for Leon.

However, on the contrary, Benedict sounded determined to marry Cynthia off to him. This was a shocking revelation for George.

However, there was one thing George did not know, which **was** that Benedict knew since a long time ago about Cynthia's crush on Leon and was just trying to help her.

"Rats! How did this happen? Has everyone gone insane?" the young heirs and **socialites** watching this even more outraged.

**grew**

With the Shears joining in, this meant that Leon could choose from three out of the Four Beauties **in**

Springfield City, but this was not the worst part.

After what happened before this, everyone knew that **Leon's** ex-girlfriend was none other than Iris Young, the prettiest of the Four Beauties!

The four most gorgeous women in Springfield City, the ones who captured the hearts of almost *every* young man in town, were being offered to Leon like bait!

One could only imagine how that felt!

Meanwhile, Louisa turned to glance at **Iris**, whose face turned pale, in concern. "What's wrong, Iris? Are you okay?"

"I'm fine," Iris forced out a smile, but the truth was, emotions were swirling in her mind.

## The Ex-Husband's Revenge By Dragonsky Chapter 573

After all, Leon used to be her boyfriend, and they broke **up** out of circumstances outside **her** control, and **not** because she ceased to love him at all.

Therefore, it was certainly not a good feeling to watch the man she loved being pined after by other women, not to mention the women in question were the three remaining beauties in Springfield City. The worst part was, she was helpless to stop them.

“President Wolf, please make a choice!” George was relentless. He fixated his piercing gaze on Leon, hopes of getting an answer.

**in**

“Elder Collins, I appreciate your kindness, but the Shears and I’ve been getting along quite well, and as of now, I don’t want to collaborate with anyone else!” Leon replied curtly.

He was a grateful person; the Shears were the ones who helped him build Cynthion Group, and thus he would not abandon them and choose to work with other people. This was not something he could bring himself to do!

The color drained from George and Ruth’s faces upon hearing this—especially Ruth. She was one of the most skilled martial artists that the Collins saw, and one **of** the Four Beauties, no less. There were plenty of young, handsome men who would do anything to take her hand in marriage.

Therefore, she could not accept the fact that she was rejected by someone like Leon!

Even though she never intended to marry Leon for personal gain, it **was** another thing entirely to be rejected by him in public!

All of a sudden, fury was ignited within her, and she fixated her murderous glare on Leon's face, trying to remember the man who turned her down in front of **so** many people!

However, George and Ruth were not the only ones shocked by this; Vincent and Snow were just as appalled.

Leon's rejection of the Collins was **an** indirect indicator of his attitude towards the Pooles as well, Vincent could not help feeling humiliated.

and

However, he and Leon were friends, and despite how disappointed he felt, he could understand Leon's point of view and thus would not hold a grudge towards him for this.

Snow thought along the same lines; she fancied Leon, but she was not in love with him at all, and on the contrary, Leon's rejection made her feel as though a weight was lifted off her shoulders.

However, as one of the Four Beauties, she, too, had her dignity to uphold. Being rejected by Leon in public made her feel as though she was not good enough for him, and she could not help feeling displeased by this and silently cursed Leon.

Not only that, but she even made a mental reminder to get him back for this in the future!

"That's great!" Benedict burst into laughter as a weight was lifted off his shoulders.

Cynthia's face erupted into a delighted smile. She turned to glance victoriously at Ruth and Snow, and even shot Iris a triumphant look.

Iris's face was pale **as** she **felt** her heart sink.

Even though Leon only chose to continue working with the Shears and did not say anything about accepting benedict's offer of marrying Cynthia, one could not deny that this possibility was still there.

Leon was the president of Cynthion Group, whereas Cynthia was the CEO. Considering the two of them spent every minute of their working day together, it would not take long for feelings *to* develop.

When Iris first broke up with Leon, she did so out of spite and did not think things through, but now, she finally realized just how distant she and Leon were becoming, and that it would not take *long* for her to lose him entirely!

This realization sent shards of fear piercing through her heart, and all of a sudden, the pain was so excruciating that she felt like she was suffocating!

## **The Ex-Husband's Revenge By Dragonsky Chapter 574**

Seeing that Leon made his decision, Albert finally could not keep quiet any longer.

**“Leon,** I want to apologize for the misunderstandings that have arisen between you and my family,” Albert said, letting out an awkward **smile**.

After finding out that Leon was the alchemist behind the Shears' legacy, he intended to resolve the

unpleasant encounter between them. However, what the Youngs did to Leon was **so** cruel and heartless that he did not know how to patch things up.

“Some things are meant to be left in the past,” Leon **said** calmly.

Even though he began to make a name for himself in this city, his achievements were still a long way away from the Four Major Families. Therefore, he was certain that Albert was not giving him a genuine apology at all.

Neither Albert nor Gilbert would truly put their egos aside and apologize to him sincerely, at least not before **he** made a name for himself in this city.

Albert began to panic when he saw how unbothered Leon seemed. He hesitated for a moment, then finally decided enough was enough. “Leon, the Youngs are also interested in the opportunity to work with **you**. If you’re willing to return and join us, I’ll offer you six hundred and fifty million dollars to found another company, and consider letting Iris be with you again!” he declared.

The truth was, even before the sales drive started, he and Gilbert already decided to offer the master alchemist a chance to marry into their family in exchange for collaboration.

Now that the master alchemist turned out to be Leon, this was even better news. After all, Leon and Iris still loved each other, despite having broken up.

It would not be a bad trade to allow Leon to date Iris again in exchange for financial gain.

“What? Grandpa, you,” Iris turned to give Albert a look of disbelief.

It was Albert and Gilbert who questioned Leon’s intentions and even suspected that he was the mastermind behind her kidnapping, which led to her inevitable breakup with him, **but now**, Albert changed his mind and

was now allowing her to get **back** together with him. What was going on?

Was Albert not worried about Leon possibly returning to steal their fortune for himself?

Iris was so puzzled by this that she froze in shock.

“I can’t believe it! Even the Youngs have joined in!” cries of woe and despair rang out amongst the crowd of young socialites watching.

Most of them knew that Leon was **Iris’s ex**–boyfriend, and since sensible people did **not** dwell on past mistakes, they thought that Iris would never want to get back together with Leon again, but it turned out they were mistaken!

However, thankfully, Leon already rejected Ruth and Snow and never showed clear intentions of wanting to

be with Cynthia either, so there was still a chance!

“Elder Young, are you serious?” Leon asked eagerly, unable to hide his excitement.

Iris was always a woman he loved and could not seem to forget. Ever *since* their breakup, he tried *to* make a name for himself in an attempt to change Albert and Gilbert’s minds so that *he could be* with Iris again.

However, now that Albert agreed to let him reconcile with *Iris*, he did not need to prove himself to them any longer!

An expression of delight crossed Albert’s face as he realized Leon was *successfully* tempted. “That’s *right*. If you choose to work with us instead, I’ll allow you to marry Iris, and you can *get* engaged *right away*!”

## The Ex-Husband's Revenge By Dragonsky Chapter 575

“I-

” Leon began to tremble in excitement and wanted nothing more than to agree right in that instant.

“Leon,” Next to him, Cynthia bit her lip nervously, her entire face as pale as a sheet of paper.

The truth was, she knew all along that Leon's heart was still with Iris, but she never thought Iris's power over him was so great that Albert would be able to use her as bait, and that Leon would fall for it so easily, as though all the mistreatment he received from the Youngs was forgotten!

She was certain that Leon would agree to anything Albert wanted!

A wave of despair surged through her at this realization.

When he felt Cynthia's gaze on him, Leon immediately regained his composure as though he was struck by lightning.

The Shears helped him in the past; what would he amount to if he chose to forgo their kindness and work with the Youngs instead?

Besides, it was Cynthia who supported and helped him after his breakup with Iris.

He could not betray the Shears just like that!

Yet, Iris was the woman he loved, and if he turned down the opportunity to reconcile with her, he would possibly lose her forever!

This was not the price he was willing to pay!

What was he supposed to **do**?

The color drained from Leon's face at this realization, and his smile froze on his face.

On the one hand, this was the woman he loved, and on the other hand, were his principles and dignity. He had to choose between the two.

This was the biggest decision he ever made!

His heart swung between the two options, unsure of how to go about from here.

Seeing that Leon fell silent, Cynthia, Benedict, and even Harvey's hearts sank. They all knew that Albert's offer was far too tempting for Leon to turn down!

Leon could not possibly resist this!

As opposed to the three **of** them, Albert's face was bright with glee. He knew that Leon would surely choose. Iris over anything!

After a long time **of** no response, Albert furrowed his brows and could not help asking, "Leon, have you made a decision? Are you going to say yes?"

"Elder Young, I'm very sorry, but I cannot say yes!" Leon took in a deep breath and made his choice.

One could not betray his principles and dignity, and he could not bring himself to turn his back on the Shears, who helped him greatly!

As for Iris, he would come back for her once he made a name for himself and win her heart the proper **way**!

**He** could not betray the Shears like this; even if he got to reconcile with Iris, Leon knew that he would be weighed down by guilt for the rest of his **life**.

"What?" the smile **froze** on Albert's face.

He did not only use Iris as bait, but even offered 650 million dollars **as** funding for Leon to start a new company, yet this man turned down both money and the woman he loved!

Albert was utterly appalled by this.

“He, he turned me down,” The color drained from Iris’s face. She staggered and almost crumpled onto the ground in a heap.

### **The Ex-Husband’s Revenge By Dragonsky Chapter 576**

Thankfully, Louisa was quick enough to catch her before she could fall.

“What’s wrong, Iris?” she asked worriedly.

“I’m fine,” Iris replied, biting her lip as her blood ran cold.

She was usually a wise and calm person, and thus could easily understand the position Leon **was** being put in, but now that she was placed on the spot, she could not find **it** in herself to empathize with him!

All she could see was that Leon chose Cynthia over her.

The Youngs were not **the** only ones who lost; she also lost **to** Cynthia.

Louisa **balked** at this.

The truth was, as an outsider, she could tell how difficult of a position Leon **was** in, but she could not deny the fact that Leon indeed **gave up** on the opportunity to reconcile with Iris.

She was secretly outraged by this **and** did **not** know how to best console her cousin.

“That’s great! I love you so much, Leon!” Cynthia never expected that Leon would be able to resist the Youngs’ tantalizing offer. She was absolu

tely over the moon at this and could not help pulling Leon in for a huge hug.

Benedict and Harvey were equally surprised. Grins **of** satisfaction spread across their faces at this.

They both trusted Leon all **along**, and now, it was proven that Leon did not disappoint.

Leon was embarrassed by being hugged by Cynthia in front of so many people, and he quickly tried to push Cynthia away.

Cynthia blushed as she realized how she overreacted, but she tucked her hair behind her ear, feigning nonchalance, **and** quickly regained her composure.

After Leon's numerous rejections, everyone could tell that he was determined to continue working with the Shears and would **not** be swayed by anything. Therefore, no matter how reluctant they were to let this be, they had no choice but to give up.

The Collins and the Youngs were the same; Leon turned down their sincerest offers, and they could not help feeling outraged at being humiliated like this.

If it were not for the fact that Cynthion Group still sold the Energy Nurturing Pills and Pure Energy Pills, which they desperately needed, they would have stormed out of the room by now!

Walter Fields was even more furious. Before this, he got into an alliance **with** the Youngs and the Collins to sabotage Leon's relationship with the Shears, and thus, he could accept any **outcome** that resulted in Leon siding with either the Youngs or the Collins, but Leon insisted on working with the Shears instead, which angered him greatly!

However, he had many years of experience and wisdom within him, so he was careful not to display his rage outwardly.

“Thank you for your support toward Cynthion Group! I’m sure that you all have come **to** join this **sales** drive

not just for me, but because of the Energy Nurturing Pills and Pure Energy Pills.” As the president of Cynthion Group, Leon was obliged to give a short speech. After that, he clapped his hands, signaling the hostess to bring out both items.

“These are the Pure Energy Pills. They come in tens and are brewed from fine herbs from more than five hundred years ago. as a result of this, they are extremely rare,” Leon took the pills from the hostess and showed them to everyone.

Each pill was encased in shiny, golden capsules where they could see the faint ripple of energy within. One could easily tell that this was indeed a valuable piece of treasure,

“Oh!” Quinton was astounded by this. He finally understood why Leon and Cynthia went all the way to Seacove City that day; it was all because they wanted to get their hands on the five-hundred-year-old wild Panax to manufacture the True Energy Pills!

### **The Ex-Husband’s Revenge By Dragonsky Chapter 577**

“Mister Wolf, can the True Energy Pills help people who are at **the** Peak Innate State become a member of the realm of Supreme Masters?” Jensen asked excitedly.

Due to **the** Shears having given good marketing before this, most **of** the major families already heard about the True Energy Pills and what **they** could yield.

Both Jensen and Bernard came here just for **this!**

The realm of **the** Supreme Masters was the first gateway into the practice of martial **arts**, and the most challenging obstacle to get past.

Jenson **was** the heir to the Wicks' legacy, and even though he was not as talented **as** Harvey or even Anson, he was still skilled nonetheless, and just recently, after much hard work and effort, he managed to achieve the Peak Innate State.

If **he** could get his hands on one of the True Energy Pills, he could easily become a member **of** the realm of Supreme Masters, and this would save him so much time!

“That’s right! Not only can the True Energy Pills help every martial artist transition from Peak Innate State to the realm of Supreme Masters, but they can even help people who are already in the realm of Supreme Masters. Anyone who is at a level below the Supreme Innate State will be able to overcome their **plateau** in the path of martial arts by taking one of these True Energy Pills!” Leon said, nodding.

“What? The True Energy Pills work on people in the realm of Supreme Masters too? That’s incredible!”

The crowd burst into a flurry of commotion at this.

Most of the second generation of the major families already reached the **realm** of Supreme Masters, and every time one leveled up, their powers would significantly improve.

If they could get their hands on the True Energy Pills, they could easily improve their fighting and power, so much so that they might even be able to take on the Four Major Families!

One could only imagine how important the True Energy Pills were!

However, unfortunately, the quantity was limited; Cynthion Group sold only ten of these pills.

It would already be a miracle **to** get their hands on just one or two **of** the se pills; anything more than that was impossible!

The Shears knew this too. Because **of** how rare the True Energy Pills were, they did not keep all of it for themselves. **Since** there was no guarantee that the pills would be able to break **the** plateau in their martial arts training, there was **no** point in trying to hoard everything for themselves.

This was why Benedict suggested Leon sell the rest and earn **a** reputation this way.

**He** did this out **of** consideration for both Leon and Cynthia Group's future.

“President Wolf, this is all just based on your claims! Who would know whether you're telling the truth or not?” Harold was the first **to** question him.

**His** words made everyone snap back to reality.

“The Northern King is right! President Wolf, this is **a** product of your making, *so* of course you'll have nothing but good words about it! We've never even seen something like this before, *so* how can be sure you're not boasting?”

Everyone murmured in agreement over Harold's statement.

After **all**, the True Energy Pill sounded too good to be true, and it was reasonable *to* doubt *it*.

Thankfully, Cynthia already anticipated this happening and prepared for this!

“Everyone, please calm down. If you want to know whether the pills work or not, we'll try it out later!”

## The Ex-Husband's Revenge By Dragonsky Chapter 578

Leon cleared his throat.

“Try? How is he going to do that?” Everyone **was** dubious of this.

“It’s easy; as everyone knows, Mister Harvey Shear has remained at **the** Peak Innate State for quite some time now. Cynthion Group can offer him a True Energy Pill to **try**, and if he manages to ascend to become a member of the realm **of** Supreme Masters, it will prove **that** the True Energy Pills do work. On the contrary, if he is unable to achieve that, it would mean the True Energy **Pills** don’t work at all!” Leon said, **smiling**.

Leon finally understood why Cynthia refused to **let** Harvey take one of the pills when they were first produced; it turned out she plan to use Harvey to prove the pills’ effectiveness in public!

Leon could not help lamenting how smart and sharp Cynthia was!

“Use Mister Shear as a test subject? **That** sounds like a good idea!” the crowd erupted into a flurry of commotion and activity.

Harvey was one of the most outstanding martial artists in the city, and everyone knew that he **was** stuck at the Peak Innate State for quite a **while** now. therefore, he would be **the** perfect test subject for **this** experiment.

With everyone’s eyes on him, Harvey picked up a True Energy Pill and swallowed it whole.

The pill melted **in** his mouth, and a gush of pure energy surged toward his energy center.

He quickly sat down cross-legged on the floor and began harnessing his energy, using the energy provided by the pill to rise against the obstruction caused by the plateau.

However, the crowd began to grow unsettled **as** more time passed.

“Do you guys think the True Energy Pills can help fighters in Peak Innate State ascend to the realm of Supreme Masters?”

“I don’t know, but we all have seen **for** ourselves just how powerful the Energy Nurturing Pills were. Since Cynthion Group **successfully** manufactured them before, I’m sure the True Energy Pills won’t be any different.”

“I don’t agree. Perhaps the True Energy **Pills** are good complements to a martial artist like the Energy Nurturing Pills are, but **I think it’s** a stretch to say that they can help Peak Innate State warriors ascent **to** the realm of Supreme Masters. How **can** there **be** such a miraculous pill?”

“**That’s** right. I think Cynthion Group is just bluffing!”

Whispers and murmurs rippled through the crowd.

Since everyone just how effective the Energy Nurturing Pills were, they were confident of Cynthion Group’s abilities, but on the other hand, the True Energy Pills seemed too good to be true, and it was likely that Cynthion Group exaggerated its true effects!

This was a common marketing tactic and thus no one would be surprised **if** it turned out to be the case!

The Fields and the Lowes could not help sneering when they saw how long Harvey went without any change.

They were Leon’s enemies, so of course they hoped **that** the True Energy Pills were a hoax! That way, the

y could use this to challenge Leon and bring down Cynthion Group altogether!

This was Leon's price to pay for crossing them!

After a long time, Harvey's eyes remained closed, and there was no sign of him stirring.

At this point, even Cynthia and the rest of the Shears were beginning to get restless.

After all, because of the True Energy Pill's scarcity, they were yet to experiment with it on real people and thus did not know whether it would truly work!

Most of the people who showed up for the sales drive were here to pick on Leon and the True Energy Pills.

Just now, Leon's determination to work with the Shears inadvertently **crossed** many of the major families, and Leon made **many** new enemies this way.

## **The Ex-Husband's Revenge By Dragonsky Chapter 579**

If the True Energy Pills turned out to be a hoax, the crowd would be outraged, and the consequences would be dire!

However, Leon was the only person who seemed calm about all this.

Even though he never experimented with the True Energy Pills and was thus unsure if they would work or not, he took the Foundation Pills before, and since the Foundation Pill successfully helped him get through to the Foundation Phase, this meant that the True Energy Pills would work too!

After all, the last time he took the Foundation Pill, **he** spent an entire afternoon absorbing the energy within them which finally allowed him to break through the Foundation Phase.

Leon guessed that Harvey's situation was the same; he needed time to absorb the **energy** within the pills, which was why there was a significant delay.

However, the people watching were not as patient as Leon was. After waiting for a little while longer, they were beginning to grow impatient at the lack of progress.

“Leon, you swore up and down that **the** True Energy Pills can help martial artists attain the realm of the Supreme Masters! Where is it? Why can't I see it anywhere?” Theodore sneered.

“Don't rush; **this** isn't something as simple as drinking a glass of water, so how can you expect it to be done so soon? Everyone, **let's** just wait for a few more minutes. I'm sure Mister Shear **is** going to achieve it soon!” Leon replied.

“A few more minutes? We've already waited so long, how much longer are we supposed to wait? forever?” **Jacob** jeered.

He and Theodore were both rivals to Leon, and they could not give up the opportunity **to pick** on Leon, considering how badly **the** scales seemed to be tipped in their favor now!

Everyone began to rouse at this.

“That's right! Leon Wolf, do you and Cynthion Group think we're fools? We've **all** cleared our schedules to attend this sales drive and brought the rest of our family. We're not here to be treated like **circus** monkeys!”

Everyone began to toss the blame on Leon.

Not only that, but with Jacob and Theodore's deliberate provocation, the crowd **grew** more **and** more riled up, their eyes glinting with malice as though they would pounce **on** Leon at any minute.

"Leon Wolf, you and Cynthion Group have deceived **us** and wasted our time! as the president of Cynthion Group, you need to give us an explanation for this, otherwise, we will charge!" Walter scoffed, stepping forward to **face** him.

As the head of the Fields, Walter's presence was an undeniable power that propelled the rest to stand forward in preparation to attack Leon and Cynthion Group.

Seeing that the atmosphere began to get heated, both Benedict's and Vincent's **faces** turned pale.

**If** there were only the Fields and the Lowes against Leon, they would not be too frightened, but now, Walter deliberately riled up and turned the rest of the crowd against them. How could they possibly stand **a** chance?

"Who says Cynthion Group has deceived you?" All of a sudden, a sneer rang out from the stage *as* Harvey opened his eyes, his penetrating stare sweeping across the crowd.

With that, his energy ascended and rose, penetrating through the Peak Innate State right into the realm of

Supreme Masters!

"The Initiate Supreme State!" Everyone was utterly shocked by the change in Harvey's energy.

## **The Ex-Husband's Revenge By Dragonsky Chapter 580**

Neither of them thought that Harvey would truly make **it to** the realm of Supreme Masters with the True Energy Pill's help!

“How’s this possible?” the Fields and the Lowes were casting dirty looks **at** him.

The crowd was already riled up with their encouragement, and Leon was just minutes away from **being** defeated, but now, Harvey’s energy ascended at the last minute and foiled their plans!

One could only imagine their rage!

“Mister Shear, congratulations on achieving Initial Supreme State,” Leon said, smiling.

“Yes, you have no idea how long I’ve been waiting for this day! If it weren’t for the True Energy Pills, afraid I would have two or three more years to go before I can reach this point!” Harvey could **not** help bursting into laughter.

I’m

To ascend into the realm of Supreme Masters was his biggest wish, and now that he finally achieved his goal, his entire heart almost burst with joy, and he grinned from ear to ear.

Not only that, but the True Energy Pills contained purified energy that seemed to cleanse his entire being, so much so that he felt **that** his energy became lighter and purer!

The purer one’s energy was, **the** easier it was for them to overcome obstacles in their martial arts practice, and this would benefit him **greatly** in the future!

“Did you guys see that? With the help of the True Energy Pills, **my** brother has achieved a new milestone in his martial arts training, **so** what **do**

**you** have to **say** about that?” Cynthia said coldly, but she secretly let out a sigh of relief.

Both Benedict and Vincent were just as **relieved** by this.

“Um,” Sheepish looks crossed the audience’s faces as everyone **fell** silent, especially the Fields and the Lowes.

No matter how reluctant they were to admit it, the truth sat right in front **of** their faces.

“Wait a minute!” All of **a** sudden, Anson stepped forward.

Cynthia furrowed her brows. “What **are** you doing, Mister Collins?”

“President Shear, why did Harvey take so long to get through to the realm of Supreme Masters, yet manage to achieve **it just** at the right time? This seems to be too much of a coincidence to me!” Anson said.

“What are **you** trying to say, Anson?” Harvey’s expression turned dark as he shot Anson a cold look.

“**What** I’m trying to say is that I suspect you’re cheating! Perhaps you were only pretending to have attained the **Initial** Supreme State to help Leon and Cynthion Group get out of **this** mess!” Anson replied, sneering.

“What nonsense! Everyone was watching me just now, so how could **I** possibly have faked my energy?” Harvey scoffed and immediately heightened his energy, sending a surge of energy gushing in the crowd’s

direction.

Most of the people watching were experienced martial artists and immediately could **see** that Harvey told the truth; judging from his energy, **he** indeed attained **the** Initial Surpeme State!

“That is up for debate! The Cynthion Group has exceptional skills in alchemy, as evidenced by their success in manufacturing the Energy Nurturing Pills, so how can you be certain they didn’t try to hide or change your energy?” Anson tried to defend himself.

“That doesn’t sound possible!” The crowd was dubious at this.

Every martial artist had their energies and auras, which were tightly linked to their martial arts training, therefore it would be very difficult to hide or even attempt to change them.
