

The Ex-Husband's Revenge By Dragonsky

Chapter 631-640

Chapter 631

"Are you willing to join the Cythion Group?" Leon smiled politely and asked.

"Mister Wolf, thank you for thinking about us, but we've decided that we won't join Cythion Group for the moment," Spencer rejected humbly.

"What? You're still not willing to join Cythion Group?" Leon's smile froze. He was quite stunned.

He never expected that even his valuable Power Methods were **not** enough to sway Spencer and Stephen!

It greatly exceeded his expectations, and he did not know what to do.

"Hey, are two of you crazy? The Power Methods are something that Supreme Masters and even Overlords covet! The two of you rejected something so amazing? Is there something wrong with you?!"

Cynthia was shocked, and even suddenly had the urge to check if their brains were filled with mush!

"Miss Shear, **of** course, we know how valuable the Power method is! However, we know our place. We wouldn't dare to **covet** something so amazing," Spencer said.

Stephen remained **silent** by the **side**. There was a look of **reluctance** on his face, but he did not **say** anything

in the end.

Cynthia **was** always very smart. From the reaction of the two brothers, she quickly realized something, saying, "What? Are the two of you worried that Leon doesn't have the Power Methods? Or are you worried that he'll give **you a** fake technique?"

"That's not what we mean."

Spencer felt a bit awkward when his thoughts were exposed **by Cynthia**.

Even though Stephen and he did think that way, it was hard for them **to** say it in front of Leon and Cynthia.

“Don’t worry! As long as you’re willing to join the Cynthion Group, I’ll do **what** I said I would!” Leon said.

Leon finally realized after hearing what Cynthia said that the two brothers still did **not** believe him, and were probably even wondering if he **had** any Power Methods!

The two of them **fell** silent.

Power Methods were far too valuable. Unless Leon showed it to them **on** the spot, the two of them could not believe that Leon had any, nor would they believe that Leon would teach it to **them** so easily!

Of course, Leon’s thoughts were different from the two **of** them.

Power Methods were incredibly valuable. There was no way Leon could show it to them before **they** agreed to

join Cynthion!

That was where the conflict lay. Both sides had their reservations, and neither of them dared to easily trust

the other side.

It was **just** common human behavior.

“Mister Wolf, thank **you** for thinking about us.”

“The two of us don’t plan on joining Cynthion Group, please be merciful and let us go,” *Spencer* said.

“You two!”

“Ah, whatever. Since you’ve already made up your mind, I won’t force you two. You can go.”

Leon sighed, feeling very disappointed.

Even though he did not give them the Power Methods right away, he hinted to them so many times that *he* would teach the Power Methods to the two of them. He was already quite sincere.

However, Spencer and Stephen did not personally witness the Power Methods, and could not find it in themselves to believe him. There was nothing he could do about it.

Chapter **632**

Even if he was reluctant, he was forced to give up.

“Thank you, President Wolf.”

The two brothers looked relieved. After thanking Leon, they turned around and prepared to leave.

“Hold it!”

At that moment, Cynthia suddenly shouted out and stopped them.

“Miss Shear, do you have something else you need?” Spencer turned around to ask. He was a bit apprehensive, worried that Cynthia was going to regret it.

The Shears were so powerful and influential. If they wanted to force the two of them to stay, they would have no way to fight back!

“Mister Sharp, the two of you should think about it! Power Methods are incredibly rare. If the two of **you** miss out on the chance, you might not be able to get another chance in the future!” Cynthia said coldly.

She was a bit angry at how the two brothers did not seem to appreciate Leon’s goodwill. If

it was not for the fact that she knew that Leon wanted the two of them, she would not have bothered with them!

“Miss Shear, the two of us have already thought about everything,” Before Spencer could finish speaking, he was interrupted by Cynthia again.

“Don’t be in such a hurry to answer! If I’m not mistaken, you should only be using Basic Power Class methods. Those methods are very common. At most, you’ll only reach intermediate Supreme Master or advanced Supreme Master. Even becoming a peak Supreme Master would be very difficult!”

“However, Power Methods are different. As long as you’re proficient enough, even the Overlord State would not be difficult, let alone becoming a peak Supreme Master!” Cynthia said coldly.

The four great families of Springfield City used Ultimate Progressive class methods, while most other larger families used Advanced Progressive class methods. Free-willed martial artists like Stephen and Spencer did not have any major families behind them. They would normally only have Basic Advanced class methods.

There was no way they could obtain anything better.

Spencer and Stephen were speechless.

Cynthia was right. The two of them were only using Basic Progressive class methods.

Even Advanced Progressive class methods struggled to reach the Overlord State, let alone Basic Progressive class methods!

If there were no surprises, their limit was probably being a peak Supreme Master!

In the end, the better a martial artist's methods were, the faster they could train, and the easier they could reach higher levels.

On the other hand, the worse their methods were, the slower they could train, and the more limited their future accomplishments would be!

It was obvious how valuable good methods were!

Of course, the geniuses with terrifying potential like Ruth were a different story.

"I know the two of you doubt Leon's words, but it's up to you to believe him! However, there's something the two of you have to remember. If you join him and you get a Power Method, you probably wouldn't need a few years to reach the Overlord State!

"There are barely any Overlords in Springfield City. All of them are among the strongest of the older generation!

"Of course, if you're not willing to join him and leave your whole life here, you'll probably be stuck your whole life here."

"I'll stop here. You can choose what you want to do!" Cynthia said haughtily.

Leon tried so hard for the two of them. She would not let the two of them go so easily as Leon did!

"That-" Both Stephen and Spencer's expressions changed.

Cynthia's words hit them right where they were weak.

Chapter 633

The two brothers were devoted to martial arts. Even though they did not prioritize money or power, it was not like they did not care about it at all!

Just like Cynthia said. If the two of them rejected Leon, they could maintain their carefree lives, but they would not be able to accomplish anything big in the future.

On the other hand, if the two of them joined Leon, there was a good chance they would be able to get Power Methods and be able to become incredibly strong Overlords, changing their fates!

The martial world always prioritized strength. Overlords were absolutely the pinnacle of Springfield City. They would be incredibly well respected and known everywhere!

If the two of them could become Overlords, they would soar, going from being two unknown figures to standing at the top of Springfield City!

Then, whether it was wealth or power, they would be able to get it all easily!

It was far too tempting. The two of them were no saints. They found it hard to resist!

At that moment, their wills were shaken!

“I’ll give the two of you one last chance. Are you willing to join Cynthion Group, or not?” Cynthia said coldly, giving a final ultimatum.

“We-”

Spencer’s expression changed constantly. He exchanged a look with Stephen, both of them could tell what the other was thinking.

“The two of them are willing to join Cynthion Group. We’ll work hard for you in the future.”

Stephen and Spencer both clenched their teeth, kneeling on one leg as a show of loyalty.

It was obvious that the two of them were convinced by Cynthia, and planned on gambling on it!

If they lost, they would just lose their freedom. If they won’t, they would be able to soar in the future. They would have money, power, and fame!

It was worth a shot!

“Good, that’s great! Two of you, get up!” Leon laughed happily, hurriedly helping the two of them up.

He already gave up, but Cynthia managed to convince the two of them. He was really impressed!

“Cynthia, thank you,” Leon did not forget to thank Cynthia.

"It's not like we're strangers. You don't have to be so polite."

Cynthia let out a sweet smile, looking at Leon lovingly.

Leon let out an awkward smile, **he** was resisting Cynthia's loving eyes. **He** hurriedly looked over to Stephen and Spencer, saying, "Spencer, I already told you earlier. As long as you're willing to join the Cynthion Group, I'll teach the two of you a Power Method. I'm a man of my word!"

"Thank you, Mister Leon."

The two of them were elated.

They just planned on trying their luck, but Leon kept to his words and planned on teaching them.

However, Basic Power class methods were incredibly valuable. The two of them were still apprehensive, not sure if Leon was planning on teaching them a Basic Power class method or planning on using a random method to trick them.

"I plan on teaching you an Advanced Power class method, Demon Execution!" Leon thought about it for a moment, and randomly chose an Advanced Power class method from what he knew.

Absolute Methods were far too terrifying. He could not teach it to Stephen and Spencer. Otherwise, he would die if word ever got out!

Chapter 634

At least, before he was strong enough, he could not teach those methods to just anyone!

Comparatively, it was far better to teach Power Methods. It was just a level higher than the ones thought **by** the four great families. If he was ever exposed, he would not be so threatened.

It was just that there were no Basic Power class methods that he inherited. The lowest one was at the

advanced level, so he was forced to **teach the** two of them an Advanced Power class method.

"What? Advanced Power class?" The two **of** them were shocked. Their hearts skipped a bit, and they suddenly felt a chill over them.

Advanced Power class methods were far more valuable than Basic Power **class** methods.

Earlier, the two of them discussed things and felt like Leon might have a Basic Power class method, but there was no way he had anything higher!

Even Leon himself could not use Advanced Power class methods. Yet, he was planning on teaching one to the two of them. Was that not just an obvious trick?

It looked like they lost their gamble!

Both Stephen and Spencer felt like crying.

However, the two of them already agreed to join Leon. Even if they knew that Leon might have been tricking them, the two of them did not have any room for regret,

“Look very carefully, I’ll be teaching you Demon Execution right now,” Leon did not know what the two of them were thinking. He started to recite the method right away.

The two of them practically lost interest, but they forced themselves to memorize it.

Even though they did not believe that it was an Advanced Power method, it would still be much stronger than their Basic Progressive class method if it was an Advanced or Ultimate Progressive class method!

Of course, if Demon Execution was a Basic Progressive class method, then they would have lost out. Not only would they lose their freedom for no reason, but they would **also** have to work like a slave in the future!

“Alright, two of you take your Pure Energy Pills and start practicing Demon Execution!” Leon smiled and

said.

“Take Pure Energy Pills?”

“Mister Leon, a—are you joking?” Stephen and Spencer were shocked.

They planned on using the Pure Energy Pills when they were close to a breakthrough. The better their conditions were, the better their chances would be.

However, they were in an incredibly bad state at that moment.

Would it not just be wasted if they used it now?!

"I'm not joking! It's the first time the two of you are practicing Demon Execution. If the two of you practice it with the Pure Energy Pills, the effects will be better. On top of them, I'm right beside you now. I can help

you if you are in any trouble," Leon said seriously.

"But-" Stephen and Spencer were really worried.

They did not try the Demon Execution, and did not know what level it was at.

If Demon Execution ended up being a trash method, then the two of them would have swallowed the Pure Energy Pills for no reason. They would end up suffering huge losses!

"What's there to hesitate for?! Don't forget, you're already Leon's subordinates. You have to follow his orders unconditionally. These are just basic rules! Among the Shears, superior's orders are absolute!"

Chapter 635

"Do the two of you not know something so basic?!" Cynthia berated coldly.

"Miss Shear, you're right. We realized our mistakes now."

The two brothers shuddered.

There were laws and rules everywhere.

Even though they joined Leon, they joined Cynthion Group in name.

Leon was their master, and Cynthia was half their master as well.

The two of them did not dare to talk back to Cynthia.

"Since it's your first offense, I'll forgive you. However, if there's a second time, I won't spare you easily even if Leon doesn't care!" Cynthia said coldly.

"Yes, we wouldn't dare. There won't be a second time," The two brothers answered in a hurry, but their hearts sank.

Not only did they not get a Power Method, but they were also even forced to waste Pure Energy Pills for no reason. It was obvious how they would feel!

However, they chose this path themselves. No matter how unwilling they were, there was nothing they could do.

After that, they resolved themselves and took the Pure Energy Pills.

Under Leon's instructions, the brothers sat on the floor and started to train.

They were disappointed at the start, thinking Leon fooled them.

However, when the energy in their body slowly circulated through their body, their disappointment immediately disappeared.

The energy produced *by* Demon Execution was incredibly pure. It eliminated a lot of impurities in their energy. It caused their energy to become much cleaner, and the speed of their training improved drastically!

At that moment, they were thoroughly shocked!

Even though the two of them never saw any other Power Methods before, they could feel that the speed Demon Execution trained was not something at the Progressive class level!

Did Leon not fool them? Was this an Advanced Power Method?

The two brothers were shocked. They widened their eyes and exchanged a look of shock and surprise!

The better a method was, the faster their training would be, and the purer their energy.

With their rich experiences, they could tell that Demon Execution was an actual Advanced Power Method!

"The Pure Energy Pills haven't been fully processed, the two of you, don't get distracted!" Leon immediately scolded.

"Yes," The brothers were shocked. They shut their eyes and started to focus on processing their energy.

They did not waste a moment.

The two of them absorbed the power of the Pure Energy Pills, and their energy became much purer.

Right after that, the two of them could feel the bottleneck they were **stuck** in for such a long time and started to show signs of loosening.

"Mister Wolf, I—I feel like I'm making a breakthrough!"

"M—me too!"

Both Stephen and Spencer were shocked.

“Then what are you two waiting for?! Hurry up and get to the advanced Supreme Master state!”

Leon already expected that.

Even though he was not a dedicated martial artist, he saw when Cynthia broke through earlier that the purer one’s energy was, the easier it would be to break through.

The Mysterious Maiden Method that Cynthia used was an Absolute Method. The energy within her was incredibly pure. On top of that, it was her first time using it, so she successfully made a breakthrough.

Chapter 636

Stephen and Spencer were using Advanced Power Methods, so their energy would not be as pure as Cynthia’s.

He deliberately let them take the Pure Energy **Pills** to overcome that deficiency. It was how the two of them suddenly showed signs of breaking through!

Boom!

Spencer was stronger than Stephen. His body jolted, and he broke through right to an Advanced Supreme Master!

However, since he just broke through, his power was still not stable. He did not relax and hurriedly continued to use Demon Execution, planning on solidifying his power.

Stephen was different. He **was** slightly weaker, and the energy within his body was not as dense **as** his brother’s.

Even with the help of Demon Execution and a Pure Energy Pill, he was still a bit away from breaking through.

Right after that, he quickly let out a look of pain. There was a lot of sweat on his head, and his shirt was completely soaked.

He looked like he was about to **fail!**

“Stephen, open your mouth!”

Leon shouted out coldly, taking out a premium Energy Nurturing Pill from his arms. He threw it right into Stephen’s mouth.

After **that**, he quickly struck a few pressure points on Stephen's chest.

The premium Energy Nurturing Pills were even better than first-grade Energy Nurturing Pills.

Stephen swallowed the Energy Nurturing Pill, and it immediately turned into energy that flowed into him.

After that, under Leon's techniques as guidance, and the help of the Energy Nurturing Pill, he **finally** became an advanced Supreme Master!

In just a moment, the two of them continued to practice for a bit before they started to stand up.

"Stephen, and Spencer, congratulations to both of you for breaking through and becoming advanced Supreme Masters!" Leon smiled and congratulated them.

Thump!

Spencer and Stephen were incredibly emotional. They immediately knelt.

"Mister Wolf, thank you. Not only did you teach us an Advanced Power Method, but you even helped the two of us breakthrough. The **two** of us will forever remember what you've done for us! From now on, as long as you give the order, we're willing to do anything for **you!**"

Stephen and Spencer were both incredibly thankful as they repeatedly thanked Leon.

A high-level method and breaking through their levels. It was their greatest wish.

They found out that Leon fooled them, but they never expected that he did it!

Not only that, Advanced Power Methods were incredibly valuable. If word ever got out, it would influence Leon incredibly negatively.

Yet, Leon did not care about that and taught them the method. The trust shown in that deeply touched them.

If the two of them joined Leon for the sake of the benefits before that, it changed. The two of them respected Leon deeply, and were willing to give Leon everything to repay him!

"The two of you are too much. Stand up!" Leon hurriedly reached out to help them up. However, the two of them hesitated, not getting up.

“Mister Wolf, you were being so sincere to the two of us earlier, but we were still so suspicious, constantly thinking ill of you.”

“We apologize. Please forgive us.”

The brothers were incredibly regretful. :

Chapter 637

Spencer even lectured Stephen so much. He finally realized how funny and stupid his words were. He almost missed out on such an amazing thing!

“What? The two of you finally realize your mistakes?” Cynthia let out a scoff, **still** unhappy about the matter.

“Miss Shear, thank you for your advice. If you didn’t **tell** us earlier, we would have wasted such an amazing chance for no reason.”

Both Stephen and Spencer thanked Cynthia earnestly.

“That’s more like it,” Cynthia calmed down quite **a** bit.

“Alright, both of you, get up!” Leon said.

“Yes, Mister Wolf,” Spencer and Stephen acknowledged before standing up.

“Spencer, I have something I need to tell the two of you. Power Methods are incredibly valuable. You can’t let it be exposed! Let me make things clear. If either of you dares to let this leak out, I won’t spare you!” Leon said seriously.

Even though Power Methods were not as shocking as Absolute Methods, it would cause a lot of movement among Springfield City’s major families if word got out.

With his connections with the Shears, the Northern King, and various forces, he might have a chance to protect himself, but it was hard to be on guard against everything.

If the various families worked together against him, he would be in huge trouble!

He did not want that to happen!

“Mister Wolf, don’t worry. We’ll keep quiet about it. We won’t tell anyone!” The brothers naturally understood how important the matter was. They made sure to promise Leon.

“That’s good,” Leon **was** much more relaxed after their assurances.

“Spencer, the two of you are already Leon’s subordinates. You shouldn’t call him Mister Wolf anymore. I feel like you should have a different term of address.” Cynthia frowned and said.

“That’s true, then why don’t we call Mister Wolf Lord Wolf in the future, and call you Mistress Shear?” Spencer said after some thought.

During Cynthion Group’s sales drive, the various families tried to give their daughters to Leon to get his cooperation.

Even though Leon only chose **to** work with the Shears, **not** mentioning anything about accepting Cynthia’s hand, **a lot** of people felt like Leon picked Cynthia!

The matter was already talked about everywhere, so the brothers heard about it.

They saw that Leon and Cynthia suited each other very well, and **they** seemed very close. The two of them felt like Leon and Cynthia would be together eventually.

So, they felt like it was fine to call Cynthia that.

“Mistress?”

Cynthia was shocked and immediately felt happy.

Since the two of them rejected Leon’s goodwill earlier, she did not have a good impression of them.

However, what they said was precisely what Cynthia wanted. It was better than all the flattery in the world. She suddenly felt like she liked the two of them much more.

Leon felt very awkward and hurriedly said, “Lord is such a weird title in this day and age. I think that the two of you should just keep calling my Mister Wolf, and call her Miss Shear!”

“Yes, Mister Wolf.”

The two of them nodded.

“I don’t mind that term of address.”

Chapter 638

Cynthia pouted unhappily.

Leon acted like he did not hear it and immediately changed the topic, "Spencer, the two of you joined Cynthion Group in such a hurry. I'm guessing you're not prepared yet."

"Why don't we do it like this? I'll give you a few days. Go back and make your preparations. You can come after three days."

"Thank

you

for understanding, Mister Wolf. We do have some private **affairs** to handle. If you don't have any other instructions, we'll take our leave."

The brothers gave Leon a respectful bow before bidding their farewells and leaving.

Looking at the two of them leave, Leon could no longer hold back the happiness in his heart, and he smiled.

Initially, before he met Stephen and Spencer, he felt like it would already be quite amazing if he managed to get two peak Innate State martial artists to join him.

Yet, he **was** so lucky. Not only did he get a Fairy Fruit, he even successfully recruited two intermediate Supreme Masters!

No, to be more accurate, the two of them were already advanced Supreme Masters. They were already at least amongst the middle of the second generation of the various big families.

He finally had a foundation for his forces!

In the end, he was just an intermediate Supreme Master, but he managed to gain two advanced Supreme Masters. It greatly exceeded his expectations!

He was just incredibly happy!

Of course, the two brothers felt the same as well.

The two of them might have lost their carefree lives, but they managed to gain an unbelievably valuable Advanced Power Method. They also managed to get **to** become Advanced Supreme Masters.

It was amazing news. They were both incredibly emotional.

Both sides celebrated the matter!

With the Youngs, after Gilbert and Elder Young returned from Cynthion Group's sales drive, Iris's **face** was pale when she thought about Leon's choice. She was depressed.

Elder Young could tell that Iris was acting differently, so he asked with concern, "Iris, what's wrong? Are you feeling sad about Leon?"

"I—I'm not!"

"I've already broken up with him. He has nothing to do with me anymore. I'm not that sad about it."

Iris bit her lips and said.

"Ah, it's all my fault. If I didn't force the two of you to break up back then, things wouldn't be like this."

Elder Young knew what Iris thought, so he sighed with regret.

With Leon's amazing skills in alchemy and his shocking performance during the sales drive, the Youngs would have had someone so excellent among the younger generations if he just agreed for Iris to be with Leon. His future development would be incredibly bright!

However, Iris was affected since he objected to it and chose to break up with Leon.

Even worse was the fact that he and Gilbert chased Leon out of the family!

Not only did he ruin Iris's happiness, he even gave away such a bright future for the Youngs!

It was obvious how he would feel!

"Grandfather, don't blame yourself."

"I think you're right, Leon and the Shears have a close connection. His business acumen and his martial arts are really good as well."

"If I was with him, it would be incredibly easy for him to destroy us with the Shears' power!"

Chapter 639

"I'm a part of **the** Youngs. I can't jeopardize the whole family for my own personal relationship!" **Iris said** earnestly.

It was easy to be blinded when you were involved.

Even at that moment, she still clung on to the **fact** that Leon only decided to date her because he had ill intentions toward the Youngs!

"That-

"Elder Young was caught in an awkward spot. He said after some hesitation, "**Iris**, from the current circumstances, there's only a very small chance that Leon wanted to harm our family."

"Grandfather, what do you mean?" Iris was stunned.

It was her grandfather and her father who were **so** certain that Leon only dated her to **use** her to get to the family fortune.

However, **at** that moment, her grandfather said there was a very small chance. It went against what he said earlier.

She was getting confused by it.

"Iris, let me be honest. During the sales drive, I suggested letting Leon get engaged to you and even offered so much money for him to establish a new company, but he rejected it. If he was after our wealth, there's no way he would have rejected that. So, I think we might have misunderstood him. He might never have tried to go after our wealth. At least, the chances are low."

Elder Young explained with some difficulty.

Ever since he realized that Leon was the alchemist behind the Shears and after witnessing Leon's strength, **he** slowly realized that he misunderstood Leon.

Leon was so young, but he was **already** at the level of a Supreme Master. It was very possible that he would be able to get to the Overlord State in the future!

An Overlord in Springfield City was enough to support an incredibly big power.

With Leon's terrifying potential in martial arts and **his** amazing alchemy skills, wealth and power were incredibly easy for him to **get!**

If he wanted to, he would be able to start his force.

Since that was the case, why would Leon need to try too hard to take over the Youngs?

It was not realistic at all!

Furthermore, the four great families were trying too hard to recruit Leon during the sales drive, but Leon did not budge for the wealth or riches. He did not betray the Shears the whole time.

It was enough to show how morally upright Leon was. He was very principled, so there was no way he was someone as petty as they thought!

In the end, with Elder Young's smarts, he saw through everything and found that he framed Leon back then.

However, Leon and Iris were still too inexperienced, so they were not able to see through it.

Leon still did not know that he already proved his innocence with his skills during the sales drive.

Even at that moment, Leon was still working hard to try and reach the heights of the Youngs to get back Iris.

It was a pity that he did not know that Elder Young already trusted him!

"What?" Iris was shocked. She immediately stood up.

"Grandfather, you mean we blamed Leon wrongly?" Iris's voice shook, and she was very emotional.

"Yes, I think so." Elder Young said.

Boom!

Iris felt like she was struck by lightning. Her eyes darkened as her body swayed, feeling like her world shook.

She broke up with Leon because her grandfather and father were so sure that Leon was using her to harm the

Youngs.

Chapter 640

Yet, at that moment, Elder Young told her that Leon was wrongly accused.

There was no way she could accept such a cruel truth!

“Iris, did you hear that? I already told you that Leon was misunderstood, but you refused to believe it! So, **are** you finally willing to believe me?” Louisa jumped **up** and said with a huff.

Her words were just like salt in the wound for Iris. Iris collapsed on the spot.

“Why...”

“Why did this happen...”

Iris immediately fell into despair, and she **was so** sad that her tears started to fall.

She started to cry on the table.

She suffered the whole time since she broke up with Leon. She would constantly think of Leon.

She thought that Leon was a sinister and petty person, so she bitterly accepted it for the sake of the family.

However, everything was false, and she wrongly blamed Leon!

Her moment of stupidity did not only deeply hurt herself, it deeply hurt Leon as well!

At that moment, she seemed **to** feel like her heart was stabbed!

“Iris, I’m sorry, it’s all my fault. Your grandfather and I didn’t think things would progress like this...” Gilbert said regretfully.

In truth, Elder Young already agreed to Iris and Leon being together at the start. He was the one who looked down on Leon and constantly twisted the truth in front of Elder Young.

On top **of** that, what his wife, Daisy said, managed to change Elder Young’s mind.

In the end, he was the one most responsible for it all. He destroyed **his** daughter’s happiness, and he kicked Leon out, destroying a bright future for the Youngs!

“Sorry? Leon and I have already broken up. What’s the point of telling me that?” Iris sobbed.

“Iris, don’t be too sad. Even though you’ve already broken up with Leon, you still have feelings for each other. It’s not too late yet. I think you still have a chance to get back together...” Elder Young consoled.

“Get back together?” Iris’s eyes suddenly had a glint in them, and her crying stopped.

“That’s right! Iris, grandfather is right. Breaking up and getting back together is so normal now. Leon loves you. If you go look for him to get back together, I think he’ll agree!” Luisa hurriedly consoled.

Leon was able to get Iris back then thanks a lot for her help. No one knew better than her about how much Leon loved Iris!

Furthermore, she was quite close to Leon, so she wanted them to get back together!

It was something she approved of!

“But, he already chose Cynthia during the sales drive. How could I get back with him?” Iris’s expression

dimmed.

“Iris, don’t worry. Leon just chose to work with the Shears back then, he did not accept Cynthia’s hand in marriage! Those are two different things, you can’t lump them together!” Elder Young said calmly.

“Really? Grandfather, are you saying he didn’t choose Cynthia?” Iris’s heart skipped a beat. She suddenly regained some hope.
