

The Ex-Husband's Revenge By Dragonsky

Chapter 641-650

Chapter 641

"That's right!"

"Iris, just think about it in detail. During the sales drive, the other families kept on offering so many different conditions to Leon, but he rejected all of them without any hesitation."

"Yet, he started to hesitate when I did it!"

"Do you still remember that?" Elder Young said with a smile.

"Yes, I remember. **He** seemed to hesitate a bit back then," Iris said after some thought.

"Exactly! I think he hesitated because he still likes you. It's just that he did not want to be someone who would abandon his principles, so he chose to work with the Shears in the end!" Elder Young said.

"That might be true," Iris felt much better.

She realized that she was the one Leon liked, and Leon did not choose Cynthia, so she felt much more relieved.

"**Iris**, getting back together is something that happens more easily if you do it faster. You need to find Leon as soon as possible, and avoid any delay!" Elderly Young did not forget to say.

There were two reasons he was in such a hurry to have Iris get back together with Leon. The first was that he knew of Iris's feelings for Leon, and he was thinking about his granddaughter's happiness.

On the other hand, Leon was someone incredible at that moment. If Iris managed to get back together **with** Leon, it would be really good for the future of the Youngs!

He was killing two birds with one stone!

In truth, it was not just Elder Young. Gilbert thought so as well.

After all, he was the one who caused Iris to break up with Leon. If Iris got back together with Leon, the guilt in his heart would diminish a bit.

Furthermore, **it** concerned the benefits of the family.

As long as Leon was willing to come back and marry Iris, Leon's alchemy and terrifying martial arts talent meant that the Youngs would eventually rule over Springfield City!

"I—I want **to** think about it some more.

Iris was still a bit hesitant.

Even though her worries were not there anymore, the Youngs still wrongfully blamed Leon, and she deeply

hurt him.

She felt like she had no right to see Leon, and did not know how to even begin to ask him to get back together.

"Think about it. The two **of** you love each other. It would **be** a great thing **if** you got back together. What are you thinking about?" Elderly Young was curious.

"I—I'm worried he'll reject me," Iris had no confidence at all.

Getting back together was just something she and her family wished for. Leon was hurt so deeply. It was uncertain if he would want to do that.

If Leon rejected her, what was she going to do?

Suddenly, her heart was a complete mess.

"Iris, don't worry, Leon likes you so much. He'll say yes!" Gilbert hurriedly consoled her.

"It's easy for you to say!

You were the ones who Iris break **up** with Leon, and now you're the ones who want her to get back together with Leon. You're always the ones calling the shots! Who do you think they are? Are they supposed to do whatever you want them to?" Louisa was incredibly unhappy, and could not help but voice out her displeasure for Iris and Leon's sake.

Even though she wanted Iris to get back together with Leon, she did **not** like how presumptuous her grandfather and uncle were acting!

"Iris, it was all our fault. We didn't do it on purpose,"

Elder Young and Gilbert felt very awkward, but they had nothing **to** say.

"It's fine, it's already in the past. There's no point blaming anyone."

Chapter 642

“On top of that, I was the one who didn’t trust Leon enough. I can’t say I’m not responsible for it at all.”

Iris took a deep breath, and she seemed to have decided as she said, “It’s already too late today. I’ll go look for Leon tomorrow morning and ask him to get back together...”

“That sounds good.”

Elder Young and Gilbert both let out sighs of relief.

“Iris, we were the ones at fault this time. When you meet Leon, tell him that we’re sorry. I hope we’ll be able to forgive us,” Elder Young said.

The last time, they really crossed the line when they kicked Leon out of the house.

He should be the one to apologize to Leon, but he was still the head of the Youngs. He was someone incredibly noble, so he could not bring himself to apologize to Leon.

He was forced to ask Iris to do it instead.

“I understand...” Iris answered. After that, she left the house with Louisa, returning to her own home.

When Iris left, Gilbert asked with some worry, “Dad, do you think Leon will agree to get back together with

Iris?”

He just consoled Leon earlier, he was actually uncertain if Leon would agree to it or not.

“I don’t know,” Elder Young shook his head.

From Leon’s reaction at the sales drive, he could tell that Leon should still have some feelings for Iris. However, he did not know how much of those feelings were left.

It was possible that Leon still loved Iris deeply, but it was also possible that Leon only had some lingering feelings for Iris.

Furthermore, Cynthia did not lose out to Iris whether it was in terms of her looks or her family.

Even though Leon did not accept being betrothed to Cynthia on the spot, he did not reject it!

He did not know if Leon was still willing to get back together with Iris or if Leon had already move on to

Cynthia!

“Ah, it’s all my fault. If I didn’t try to mess things up over and over again, all of this would not have happened,” Gilbert sighed and said, filled with regret. He regretted looking down on Leon back then.

It was true that he should never bully the young and poor!

“It’s good that you realize that! It’s both you and Daisy’s fault! If the two of you didn’t twist the truth in front of me, how would I have misplaced the blame on Leon?!” Elder Young berated unhappily.

“Dad, Leon was just a nameless and powerless orphan, I never expected him to be so capable...” Gilbert was in an awkward spot.

“Enough, I **don’t** want to listen to your nonsense anymore! If Iris manages to get back together with Leon, then I’ll act like this didn’t happen. If she fails, then you and Daisy will be confined for three days to think

about your actions!” Elder Young said coldly before he left.

Elder Young just left when Daisy entered the main hall.

Seeing Gilbert’s depressed mood, Daisy asked curiously, “Dear, what happened? You seem so sad.”

“Don’t mention it. We just went to Cynthion Group’s sales drive...”

“Leon’s actually the chairman of Cynthion Group. He’s even already an Advanced Supreme Master at such a young age...” Gilbert explained everything briefly.

“What? Leon was that amazing?!” Daisy was shocked.

Chapter 643

Even though **she did not** go to the sales drive, she still knew how important alchemy was to the major families of Springfield City.

On top of that, Leon managed to become so strong at such a young age. He **was** an incredibly rare martial arts genius among the younger generation of Springfield City!

She could not help but feel relieved that she managed to seize her chance and make **Elder** Young break **up** with Iris and Leon.

Otherwise, **if** Leon married into the Youngs, Leon would be a tremendous threat to her s on taking over the family business!

“Iris broke up with Leon in large part because of the two of us. However, dad already co nvinced Iris to ask Leon to get back together tomorrow. I hope this thing goes smoothly, or it won’t be good for the two **of** us,” Gilbert said with a sigh.

“**Get** back together? Why would you get back together? Aren’t you worried that Leon’s after the family?” Daisy’s expression changed.

She was the one who wanted to see Iris and Leon get back together the least. It was **no t** good news for her at all!

“How could that be?! Leon is **so** capable. So many **of** the families in Springfield City are after him. Why would he need to go after our family? In the end, we’ve wrongly blame him last time,” Gilbert said.

With things as they were, he would be an idiot if he still could not tell that Leon was wro ngly accused!

“That might not be true! Don’t forget, Leon could very well be the culprit behind Iris’s kidnapping! He’s an a dvanced Supreme Master, but he deliberately killed two thugs to not leave a single clue behind. What could **his** intentions possibly be?!” Daisy d id not give up **as** she insisted that there was a problem with Leon.

“That-”

“That’s true. I almost forgot about that!” Gilbert slapped himself on the forehead when he remembered.

He kicked Leon out because he had both been worried that Leon was after their family’s wealth and that Leon could be the person behind Iris’s kidnapping.

With the situation as it was, Leon was not after the Young fortune. However, **it** was still a big question if Leon was behind Iris’s kidnapping or not.

“Even though Leon is still suspicious, there’s no evidence **to** suggest that he was behin d it all. **He** might have wrongly been blamed **for** that too!” Gilbert said after **some** thoug ht.

He could not figure out what motive Leon could have to kidnap Iris, so he felt like it was possibly another misunderstanding.

“But-

” Daisy **still** had more to say, but she was interrupted by Gilbert before she could finish.

“Don’t think about it anymore. **If you** have time to worry about that, you should be thinking about our

current situation! Dad already said earlier. If Iris can’t get back together with Leon, we’ll be confined for three days to think about what we did!” Gilbert smiled bitterly.

“It’s just three days, there’s nothing to be scared of,” Daisy sniffed.

Compared to that, she was more concerned that Leon would get back together with *Iris*. It would cause her a lot of unnecessary trouble in the future!

Whatever! She already started her plans anyway. It did not matter *if* Iris got back with Leon or *not!*

Chapter 644

There was a cold glint in Daisy’s eyes, but she quickly hid it.

The next morning, Iris drove to Cynthion **Group** alone.

She thought of giving Leon a call to ask Leon out, but she felt like it would be more sincere if she went to look for Leon herself. After all, she hurt Leon too much.

Outside Cynthion Group, Iris felt quite unsettled.

Even though she already determined to come here to try **and** get back with Leon, she was getting anxious thinking about how she would meet **Leon** soon. She was also afraid, worried that Leon would reject her.

She hesitated for a moment.

In the end, she summoned **up the** courage to walk into Cynthion Group.

In the president’s office, there was a knock on the door. The secretary walked in after Cynthia’s approval.

Seeing no trace **of** Leon around, the secretary was curious, **since** Cynthia was the only one there, “Miss Shear, is Mister Wolf not here?”

‘Oh, Leon is busy with something this morning, so he’s not around,” Cynthia said briefly.

Leon managed to get a Fairy Fruit from **the** two brothers the day before, so Leon hurriedly got Harvey to help obtain some materials that very night.

Leon was making some Dragon Pill at the mountain behind her house, **so** he **was** not at the office that

morning.

“What is it, Miss White? Do you need Leon for something?” Cynthia asked.

“Miss Shear, I heard from the guards just now **that** Iris Young of Elegante came to visit Mister Wolf. However, she did not have a prior reservation, so the guards stopped her,” The secretary reported.

“What? Iris came for Leon?” Cynthia was shocked as she stood up from her table.

Scared by Cynthia’s intense reaction, the secretary said, “Miss Shear, i— is there a problem?”

“**It’s** nothing...”

Cynthia’s face was cold as she said, “Miss White, have the guards bring her over. I want to see what she’s up to!”

“Yes,” Was the answer.

In just a moment, footsteps were heard. The guard brought IRis to the president’s office before leaving.

“Le...”

Iris was a bit anxious. She thought that Leon was in the office, and she was just about to speak when she quickly realized it was Cynthia. She hurriedly swallowed back her words.

“Cynthia? Why are you here?!” Iris frowned, a bit unhappy.

“Why can’t I be here?” Cynthia said coldly, looking at Iris in **an** unfriendly light.

They were love rivals, after all.

The two of them looked at each other for a long time. There seemed to be sparks between them. Neither of them were willing to take a step back!

Cynthia knew that Iris was Leon’s ex-girlfriend, and knew that Leon did not forget about Iris.

She already saw Iris as her greatest love rival!

Iris was the same. Before Leon and her even broke up, Cynthia tried to challenge her before.

After that, Leon left the Youngs for the Shears, and Leon got closer to Cynthia.

Her intuition as a woman told her that Cynthia liked Leon, so she did not like Cynthia at all!

Chapter 645

“Where is Leon?” **Iris** broke the silence first.

She thought about turning around to leave when she saw that Leon **was** not there.

However, it was not easy for her to summon up the courage to come here, so she was a bit reluctant to leave just like that.

“You don’t need **to** care about where Leon is. I just want to know what you’re doing here when you’ve already broken up,” Cynthia said with a steely look on her face.

“Why **do** you care about why I’m looking for him?” Iris said coldly, regaining her noble and cold demeanor.

“Iris, don’t think I don’t know why you’re here. If I’m **not** wrong, **you’re** probably here to get back together with Leon, right?” Cynthia said coldly.

A lot of the major families fought over Leon during the sales drive, including the Youngs. Elder Young even offered Iris’s hand to Leon.

However, Leon was not swayed.

The Youngs just lost out, and Iris was already there looking for Leon. Barring anything **else**, she was either there to recruit Leon or get back together with Leon!

“What if I am? Since you **won’t** tell me where Leon is, **I’ll** just give him a call.”

Iris did not want to bother Cynthia, so she turned around to leave.

“You-” Cynthia’s expression changed. She started to panic.

She knew of **Leon’s** feelings for **Iris**. **If** Iris called Leon and asked to get back together, Leon would agree!

Cynthia was already getting closer and closer to Leon. It was so difficult for her **to** get even a sliver of hope. She could not allow Iris to get in between them, or she would lose Leon!

That was something she could not **accept**!

“Iris, I’m warning you, Leon’s currently my boyfriend! You’re just **his** ex-girlfriend, things are already over between you two! You’re **still** the heiress of the Youngs. You’re someone notable. Are you going to be so shameless as to steal my boyfriend?” Cynthia said to Iris’s back.

“Leon is your boyfriend?” Iris stopped in her tracks.

“Nonsense! During the sales drive, Leon only chose to work with the Shears. He did **not** accept the engagement. How could **he** be your boyfriend?!” Iris turned around and looked at Cynthia, clearly not believing it.

If Leon was Cynthia’s boyfriend, he would have confirmed it in front of everyone at the sales drive, but **he** did not.

“It’s up to you if you want to believe it, but I’m telling you, I’ve already spent the night with Leon! We’ve already done everything we should, and a lot that we shouldn’t. If he was n’t my boyfriend, would that be possible?” Cynthia said with a furious blush on her face.

She was still a pure girl in the end. She found **it** hard to say all of that, but for her love, she persevered.

“What? That’s not possible!” Iris was shocked.

She knew Leon very well. He was not someone so casual.

Even when she was with Leon, Leon only kissed her, and never did anything that crossed the line.

She refused to believe that Leon would do anything like that with Cynthia!

Cynthia knew that Iris was an intelligent girl. It was impossible to fool Iris with *just* a few words!

Chapter 646

To dispel any notions Iris had of getting back together with Leon, and to have Iris completely give up, she gave Leon **a** call.

When the call went through, she turned on the speaker.

“Hello, Cynthia, do you need me for something?”

Leon’s voice was heard from the other end.

“Leon, do you still remember how we got a room at the hotel in Seacove City and spent the night there together?” Cynthia deliberately asked vaguely. She emphasized the words spending the night together to make sure Iris heard them.

“I remember. W—why are you suddenly asking about that?” Leon was surprised.

He was refining the Dragon Pill at the back of the Shears’s residence, but Cynthia’s question caught him off guard. He did not know what to say.

He spent the night with Cynthia in the hotel at Seacove City that night. **It was** the truth. He could not deny it.

A room? Spent the night?

Iris felt like she was struck by lightning, and her mind went completely blank.

That was not the main point. The important thing was that she heard Leon admit to it all!

Leon got a room with Cynthia at a hotel, and the two of them spent the night. They did those sorts of things!

Was there any doubt about their relationship?

It was obvious that Leon was with Cynthia!

“Also, Leon, when the two of us kissed, how did you feel?” Cynthia sent another blow.

“Cynthia, you-” **Leon** was getting frustrated.

He shared a kiss with Cynthia twice, and Cynthia surprised him both times. He did not kiss her willingly.

Before he could say anything, Cynthia interrupted him, “**Leon**, I miss you. When are you coming back? I want you to kiss me,” Cynthia said shyly, dealing another blow to Iris.

“Cynthia, can you stop it? I’m making pills at the moment. The furnace is going to blow if you cause any more trouble!” Leon said.

Cynthia **got** getting closer to him during their time together, and she would constantly try to tease him, so he was already **used** to it.

He thought that Cynthia **was** teasing him again, and thought nothing of it.

Of course, there was no way he could have known that Iris was right in front **of** Cynthia!

"Alright, I won't tease you anymore. Focus on your pills," Cynthia smiled cheekily, hanging up the call.

"How could **this** be?"

Iris was completely ashen when she heard Leon's conversation with Cynthia. She almost crumpled on the ground.

She never would have expected that Leon would end up with Cynthia so quickly after they broke up. The two of them even kissed and shared a room, spending the night together. They've already done everything!

It was obvious how deeply she was impacted!

She could not accept the cruel truth. She clutched her chest, and felt so hurt that it was difficult to breathe!

"Iris, did you hear all of that? Leon's my boyfriend right now. The two of us love each other. I'm warning you. Being **a** third party is something deeply immoral. If you have even a shred of shame, please draw the line with Leon. Stop pestering him! Otherwise, don't blame me for what I do!" Cynthia said coldly.

Chapter 647

"1-1 heard it all!"

"I—I wish you two happiness."

Iris was on the verge of collapsing, but she forced herself to keep the tears in her eyes.

No matter what, she was the head of the four great beauties of Springfield City, and she was the heiress of the Youngs. She had her pride and dignity.

With her pride, even if she lost to Cynthia, she would not reveal any weakness in front of Cynthia.

As for Leon, feelings could not be forced. Since Leon was already with Cynthia, she had no other choice but to give up.

As Cynthia said, she could not do anything so immoral.

There was no way she would be a mistress and ruin a relationship. She was of too noble birth for that. Otherwise, she and the Youngs would be the laughingstock of Springfield City!

After that, she bore the pain in her heart and left without turning her head around.

The moment she left the office, she could no longer control her tears as they fell without a sound.

At the mountain behind Shear Mansion, Leon continued to focus on making the pills after Cynthia hung up.

Buzz!

Not too long after that, the furnace shook slightly, and the pill condensed, giving out a faint fragrance.

“It’s done!”

Leon was incredibly excited. He opened up the furnace and saw over thirty purple-colored pills there. The color was incredibly lustrous and clear.

The purple pills were Dragon pills that were made from Fairy Fruit. After doing some calculations in his head, a Fairy Fruit on top of many valuable materials was only enough to make thirty-four Dragon Pills.

The Dragon Pills’ effects were unique. It could not help a martial artist get strong or speed up training.

So, Leon did not plan on selling Dragon Pills at Cynthion Group.

He took out a white bottle and put all the pills inside, leaving them for himself. At vital moments, they would be important trump cards to protect himself.

After making the pills, Leon left Shear Mansion. He rode a race bike as he sped toward Mason’s territory.

Since Leon did not have a driver’s license, he could not drive a car.

For the sake of convenience, he asked Harvey to help him buy a BMW motorbike.

The bike was meant for men, and it was worth almost sixty thousand. It looked incredibly impressive.

Leon looked much manlier and more handsome when he rode it.

Yet, for some reason, he preferred Iris's bike, since that bike meant a lot more to him.

"I wonder when I can reach the heights of the Youngs and get Iris back!" Leon sighed, unable to stop himself from thinking about Iris's looks.

After that, beautiful memories surfaced in his mind.

There was the memory of him going to Mistcloud Mountain with Iris, his excitement when Iris accepted his advances, and all of the time he spent with Iris.

Yet, all of them turned into a dream!

Of course, Elder Young mentioned giving him Iris's hand in marriage during Cynthion Group's sales drive. He was tempted back then, but he still rejected it in the end.

For one thing, he did not want to betray the Shears.

On the other hand, he did love Iris. He did not want their feelings for each other to become a bargaining chip!

Chapter 648

Yet, he did not know that Elder Young already believed in his innocence and even convinced Iris to try and get back together with him.

Even more regretful was the fact that he was not at the company that day. He missed Iris!

Fate was truly toying with him!

—

At Blue Moon Bar, Leon met Mason in one of the rooms.

"Mister Wolf, why are you here?"

"Please, take a seat."

Mason was shocked as he hurriedly greeted Leon.

"Mister Wolf, I already heard about yesterday's sales drive from Mister Poole. So you're the chairman of Cynthion Group. You even defeated Haroon and the expert of the Fields. You're amazing! I respect you so much!" Mason said excitedly.

He was Leon's subordinate. The stronger and more famous Leon was, the more glad he **felt!**

"It was not bad. I was just lucky to be able to beat Haroon," Leon said with a smile.

He was **not** embellishing things at all. Haroon was already close **to being** an advanced Supreme Master and was not that weak compared to him.

If Haroon did not face him head-on like that, without any preparation for his second strike, it would not have been easy for him to beat Haroon.

"Mister Wolf, you're too humble!"

"**For you** to reach that level at so young **of an age**, you're definitely at the top of the younger generation of Springfield City. Even among the second generation, you're among the top! I've never even heard of someone as talented as you before."

Mason got more and more excited as he spoke, constantly praising Leon.

"That's enough, it's not like we're strangers. Why are you trying to flatter me so much?" Leon said with a frustrated smile, but **he** was quite pleased.

"I'm **not** trying to flatter you, I'm just speaking the truth."

Mason smiled before shifting the topic, "Mister Wolf, it's rare for you to come **over**. I'll go prepare some

food and drinks. Let's celebrate the sales drive!"

Mason stood

up

after he said that.

"No need, I came **here** for something important. Let's drink another **time**."

Leon shot Mason a look.

Mason understood and had **his** subordinates leave the room.

Very quickly, only Leon and Mason were left there.

"Mason, you're the first person who submitted to **me**, so I won't **let** you down. I'll teach you a method. Remember it and practice it properly!"

Leon had a serious look on his **face** and prepared to teach Mason Demon Execution.

He **was** too weak before and was not able to teach Mason so easily.

However, he was already somewhat capable of protecting himself, so it should be fine for him to teach Mason an Advanced Power Method.

Furthermore, he already taught it to the Sharp brothers. Mason was the one who followed him first. He could not mistreat **Mason**.

"Thank you, Mister Wolf."

Mason **was** elated **as** he thanked Leon.

Leon was already so strong at such a young **age**, so he **felt** like Leon's martial arts method should not be weaker than the four great families. It was very possibly at **the** Ultimate Progressive class level.

He used an Ultimate Starting Method. It was far too weak. He dared not hope that Leon would teach him an Ultimate Progressive Class method. Even a basic or advanced one would be much better than what he had!

Chapter 649

The more powerful a training method was, the quicker one would improve, and the brighter one's future would be!

He was already at the Intermediate Innate State. If he managed to obtain a Basic or Advanced Progressive class method, it would be much easier for him to become a Supreme Master in the future.

To him, becoming a Supreme Master was his greatest wish in life!

"Listen well!"

Leon had his hands behind his back as he recited Demon Execution to Mason.

Mason was fully focused as he quickly remembered it all.

"Alright, try it out right now. I'll guide you by your side. If there are any problems, I'll make sure to help you correct them in time," Leon said.

It was Mason's first time using Demon Execution, it would be much easier with Leon there.

"Yes," Mason answered before he sat on the ground, starting to practice.

As Demon Execution was activated, a pure wave of energy came out of his energy center. It was much faster than his original method.

It was a Progressive class method. It was amazing!

Mason thought in his heart in excitement..

However, before he could even finish the thought, he quickly realized something was wrong.

Demon Execution was not only fast, but he could also feel the impurities within his energy being quickly cleansed, causing his energy to become much purer.

"W—what level is this method?" Mason was stunned.

Even though he never used any Progressive class methods before, he had a lot of experience in the underworld. He quickly realized that Demon Execution did not seem to just be a Progressive Method. It could even be a Power Method!

"Keep your focus up, don't be distracted!" Leon shouted.

Mason's expression changed as he pushed down the shock in his heart, continuing to practice in earnest.

Not too long after that, Mason finished a round and stood up.

"Mister Wolf, w—
what is this? I practiced using Demon Execution once, and my strength improved by so much. Even my energy has become purer. C—
could Demon execution be an amazing Basic Power class method?"

Feeling the pure energy in his body, Mason was shocked. He was almost speechless.

After using it, he had a better understanding of Demon Execution.

His intuition told him that it was not at the Progressive class. It was probably something above that!

"Demon Execution is not a Basic Power class method, it's—
" Leon said with a smile, but he was interrupted by Mason before he could finish.

"It's not? I was so shocked!" Mason was a bit disappointed.

He thought that Demon Execution was a Basic Power class method, but he snapped back to reality at Leon's

denial.

The most powerful training methods in Springfield City were the Ultimate Progressive class. He never heard about any of the major families possessing Power Methods!

He guessed that Leon was probably also only using an Advanced Progressive class method. How could Leon teach him a Power Method?

He overthought things!

"Demon Execution might not be a Basic Power class method, but it's an Advanced Power class method!" Leon said with a smile.

He did not want to explain things so clearly to Mason, but he was worried that Mason would casually expose Demon Execution, thinking that it was no big deal. He would invite a lot of unnecessary trouble if that happened!

Chapter 650

He needed to make things clear to Mason.

"What?"

"D-Demon Execution is an Advanced Power class method? Did I mishear you?" Mason was completely

shocked by that piece of news. He was stunned in place, unsure of how to react.

"You're not mistaken," Leon nodded.

"That-" Mason was completely shocked. He felt like there were waves in his heart.

He knew that there was no way Leon was lying to him. He felt Demon Execution in his body as well. With the speed and effect of the method, it was at least a Basic Power class method!

It was enough to prove that Demon Execution was in the Advanced Power class!

However, in his limited knowledge, the best training methods in Springfield City were only at the Ultimate Progressive class. He thought that it would already be amazing if Leon was able to teach him a Basic or Advanced Progressive class method.

He never would have dreamed that Leon would teach him something so amazing!

It was so much better than what he expected.

The shock in his heart was obvious!

“Mister Wolf, no wonder you managed to get to your level at such a young age. So you were using an amazing Advanced Power class training method!”

Mason had a moment of realization.

4

An Advanced Power class training method was unbelievably valuable. It was enough to completely trample over all the major families of Springfield City!

Even though he did not know where Leon got the method from, he knew something very well. Leon’s future. was limitless if he had such an amazing training method at such a young age!

“That’s more or less it,” Leon smiled slightly, not explaining it.

He was using sage arts that were much better than even Absolute Methods. It was not some Advanced Power class training method.

However, he did not plan on telling anyone his secrets at that moment.

Otherwise, the consequences would be even direr than if anyone found out if had Absolute class training

methods.

He would die!

Mason was incredibly emotional. He knelt in front of Leon.

“Mister Wolf, I’m just an insignificant man who’s in the underworld. I don’t know what I did that made me lucky enough to learn something so amazing from you! I won’t ever be able to repay you for this. In the future, as long as you give the order, I’ll do absolutely anything you ask for!” Mason was so emotional that

he was crying. His gratitude for Leon was so much that he would never be able to repay Leon.

In his state, he thought that it was already amazing if he could become a Supreme Master in his lifetime.

Yet, he managed to get an Advanced Power training method. Even breaking into the Overlord State in the future would not be difficult, let alone becoming a Supreme Master!

The underworld always prioritized honor and friendship.

Leon already gave him a hundred True Energy Pills before this!

He owed Leon a mountain of gratitude!

He swore to his heart that he would do anything for Leon, even die!

"It's fine, it's nothing that amazing. Get up!" Leon hurriedly helped Mason up.

In truth, Mason was too weak and was not too useful to Leon at the intermediate Innate State.

However, he knew Mason for quite a long, so he understood Mason's personality, among other things.
