

The Ex-Husband's Revenge By Dragonsky

Chapter 851-860

Chapter 851

Iris and he were already at the end of their time together. He planned on accepting Cynthia's love and starting a new life for himself!

"I'm willing! Of course I'm willing!"

Cynthia was ecstatic as she nodded excitedly. Her smile threatened to split her face apart.

She **knew** that the person Leon loved was Iris, and knew that Leon clung on to Iris the whole time. She was just quietly waiting by Leon's side, waiting for Leon to turn around and look at her!

She finally got what she wanted after working so hard.

It was obvious how happy and excited she was.

"Good, this is great!"

"Leon, let's go back right now and prepare for your engagement!"

Benedict was very surprised, and he started to laugh happily.

After he noticed that his granddaughter liked Leon, he tried to get the two of them together. Yet, Leon never mentioned anything about this before, **and** he did not want to force **Leon**.

Leon finally said something about it, and Leon went straight to engagement!

It suited Benedict perfectly!

"Mister Wolf, congratulations to you **and** Miss Shear! In three days, I'll **definitely** make sure to attend your engagement and offer a few toasts!" Quinton smiled and said.

"Alright, no problem."

Leon nodded. Iris's beautiful face appeared in his mind, but he quickly pushed the thought away.

Even though the woman he loved the most was Iris, the two of them were just **not** meant to be.

Nothing was perfect **in** life. There **would** always be some **regrets** in youth.

That was perfect to describe Leon at that moment!

After that, Leon and Benedict left the Young household **with** the others.

At Dragonbay Villas, Iris and Gilbert arrived there after they left.

It was Iris's house, and her only remaining private asset.

She already sold off Elegante, **and** Gilbert already gave up the rights **to** the Young Group. The two of them had nothing else **to** their name!

If Iris did **not** own this **house**, **the** two of them would probably not even have anywhere to stay!

In the living room.

"Despicable! That Leon, that Harold! Those two animals harmed **me to** this degree. I won't let them off!"

Gilbert slammed his hand onto the table, and the table collapsed.

Even though Leon saved him just now, and even swore to protect his and Iris's safety, he paid it no mind at all. Instead, he was filled with hatred for Leon!

By the side, Iris sat on the sofa dispiritedly. She felt incredibly sad.

She never expected that

Leon would be the person who bought Elegante, and never expected Leon to be the culprit behind the venture capital company.

She was the same as Gilbert, and thought that Leon constantly sabotaged the Young Group, forcing her and Gilbert to lose everything!

However, she did not hate Leon as much as Gilbert. After all, the Youngs were the ones who wronged Leon first. Leon seeking revenge was quite normal.

On top of that, she always loved Leon. She did not know if she should hate Leon or not!

She felt very conflicted at that moment!

Suddenly, they heard some quick footsteps. Louisa appeared with a beautiful woman who was about forty years old, and they quickly walked inside.

That beautiful woman was Louisa's mother, Linda Young.

Chapter 852

When it came to the major families, once a daughter married out, the daughter was no longer a part of them. Louisa and Linda were considered outsiders, and they did not participate in the gathering at that time.

However, the two of them heard of what happened, that Gilbert and Iris were forced out of the family.

"Gilbert, what happened? Weren't you supposed to take over as the head of the family today? Why were you and Iris suddenly kicked out of the family?" Linda asked anxiously, not understanding how everything got to that stage.

"Don't even talk about it anymore! It's all that wretch, Daisy. She betrayed me for the sake of seizing power for Royce," Gilbert said viciously, explaining everything briefly.

"Daisy's too despicable! Dad only fell ill not too long ago, and she's already starting to fight for power. I don't know what she's even thinking!" Linda said angrily.

"At least

Daisy has a reason for doing all of that. She might be a bit selfish for helping Royce seize power, but it's still better than having it fall into the hands of the second bloodline. I don't blame her. Leon and Harold, on the other hand. The two of them have harmed me so much. I won't let them off!" Gilbert said through clenched teeth.

Daisy was his wife. Even if Daisy betrayed him, it was still a family matter.

Furthermore, it was not necessarily a bad thing that Royce got his place as the head of the family.

However, Leon and

Harold were different. His hatred for Leon and Harold was a hundred times more than his hatred for Daisy!

Of course, if he knew that Royce was not his actual son, he would probably not think that way!

"Leon? What does this have to do with him?" Louisa said uncertainly.

"It's like this. Leon was the culprit behind that venture capital company. For the sake of revenge, he worked with the Shears to sabotage the Young Group. He even bought Elegante over in secret."

Iris sighed as she explained everything briefly.

"What? That's impossible! Iris, Leon really loves you. There's no way he would harm you for the sake of revenge against the Youngs. Could you be mistaken?" Louisa was shocked as she shook her head and disagreed.

She was different from Iris. **Louisa** never lost faith in Leon, and knew that Leon had a very good moral character. She refused to believe that Leon was as petty as **Iris** said!

"I felt that he wouldn't do that either, but the truth is in front of us. Elegante is already in his hands. Is there anything else to say?" Iris said in disappointment.

Even though she did not hate Leon like Gilbert did, she was **still** deeply disappointed in Leon for forgetting about their past relationship and targeting the Youngs with such despicable methods. She no longer held any hope for their relationship!

"Iris, there must be a misunderstanding somewhere! No, I'll go ask Leon about it right now!" Louisa **said as**

she started to walk out.

"Louisa, don't go. It's already over. There's no reason for you to look for Leon right now."
"

Iris hurriedly grabbed Louisa's arm.

"Iris is right! Leon is our enemy. I won't allow you to see him!" Gilbert said angrily.

Leon caused him so much harm this time, and was probably waiting to laugh at him. If Louisa went to see Leon, Gilbert would just be laughed at. He would not let Louisa embarrass himself like that!

Chapter 853

"But,"

Louisa was very unhappy. She was interrupted by Linda before she could finish.

"There are no buts! **Your** uncle and cousin have already gone through so much. Stop **messing** things up **even** more!" Linda said unhappily.

She knew that Louisa was always a strange girl who was not afraid of anything. If Louisa tried to interfere with **things**, it might just make everything worse!

“Fine then, I just won’t go. So what?”

Louisa could not do anything about it.

However, she already **made** the decision that she would definitely ask **Leon** what happened in private!

Before she could even think about it, a car was suddenly heard outside. Ariel rushed in in a **hurry**.

“Ariel, why are you here?”

Iris looked confused when she **saw** Ariel.

Since she already found out **that** Leon was the person who bought Elegante, and Ariel was completely **in** charge of the matter, **it** meant that this was definitely related to Ariel!

She could not understand why Ariel helped Leon keep this a secret. She did not know if Ariel **was used by** Leon or if Ariel already betrayed her and joined Leon!

Of course, Iris and Ariel were practically sisters. She felt like there was no way Ariel would betray her, so she was probably used by Leon. That was how Elegante fell into Leon’s hands so easily!

“Iris, I just got **a** call from Leon. He said that something big happened with the Youngs, and you were forced out of the family with your father. What exactly happened?” Ariel said in shock.

When Leon called her earlier, he simply gave **her** a few instructions. He did not go into detail, so she was not sure about the general situation.

“Did Leon ask you to **come** here? He already took revenge like he wanted to, and Elegante even fell into his hands. Why did he **still** send you here?”

Iris looked uncertain, not sure what Leon was trying to do.

“What else could he be doing?! The two of us are already in **this** state. He **must** be planning on making things worse. He must be trying to do something even worse to us!” Gilbert said coldly, his tone was full of hatred

for Leon.

“Iris, what exactly happened?”

Ariel was confused at the hatred in Gilbert's tone.

"It's like this. Leon worked with the Shears to constantly sabotage the Young Group."

Iris sighed as she recounted the matter.

"What? That's impossible! Isn't the person behind everything Harold Lowe? When did it become Leon and the Shears?!" Ariel was shocked.

"The truth is evident. Leon and the Shears were the ones behind everything. Even Elegante is already in Leon's hands. What could the Lowes have to do with this?" Gilbert sneered.

"It's not like that!"

"Mister Young, you don't know this. Leon has actually been trying so hard to help Iris the whole time. He did so much for Iris in secret. There's no way he's the mastermind behind everything!" Ariel said in a hurry.

"He's helping me? Not only did he cause my father and I to get kicked out of the family, he even secretly swallowed up Elegante. How is he helping me? Ariel, could you have been used by him?" Iris said in disappointment.

Seeing Ariel being so clueless about everything, she was sure that Ariel was used by Leon, and was not an

accomplice.

Chapter 854

"Iris, I'm speaking the truth! Harold and Ashwin tried to work together to lower the price of Elegante and to buy it cheaply. Leon was the one who ruined their plans! Also, Leon knew that you had some misunderstandings about him, so it was difficult for him to make an appearance. He was forced to spend seven hundred and eighty million to purchase Elegante. He did so to help you and the Youngs."

Ariel said everything seriously.

She promised Leon that she would not tell Iris all of that, but with things as they were, she no longer cared about the promise.

She told them the complete truth.

"What? Leon bought Elegante over to help me?" Iris was stunned, not believing her ears

"I'm serious! Iris, let me be honest with you. You know how Leon's situation is. There's no way an orphan like him could have gotten so much money! To help you, he actually sold off all his shares in Cynthion Group to the Shears, barely managing to get the money needed! He practically gave up everything he had!" Ariel said emotionally.

"How's that possible?!" Iris was shocked. She slumped into the sofa, looking incredibly lost.

She never would have dreamed that Leon actually sacrificed so much for her. Even more of a joke was the fact that she mistook Leon as the mastermind behind everything. Not only did she completely ignore Leon's goodwill, she even hurt Leon so deeply again!

It was obvious how she felt!

"Iris, I told you you might have just misunderstood Leon just **now**. There's no way he would do anything to harm you! You refused to listen. Are you finally going to believe me?!" Louisa jumped up and said.

As she said that, she did not forget to look at her mother and Gilbert with a smug look.

"How could this be?"

Iris's eyes were red as tears started to fall. She could not hold back **the** tears of sadness.

Leon clearly said that he bought Elegante for the sake of Iris and the Youngs earlier, but she was influenced by Gilbert, not believing Leon's explanation at all!

After finding out the truth, she realized how stupid she was. It was already too late for any regrets!

"Iris, don't be sad. It's **still** the truth that Leon has Elegante right now! In the end, he was just saying things. Who knows if he's actually helping us, or if he's just acting like the good guy!"

Gilbert consoled. He had a look of contempt on her face.

With Leon's grudges against the Youngs, he refused to believe that Leon would help him and Iris at such a heavy price.

It did not sound reasonable at all!

With what Gilbert said, Iris immediately calmed down.

She knew that Gilbert made sense. It was possible that Leon just used some sly words to convince Ariel. He might have just been trying to use Ariel to easily secure Elegante!

Reality indicated that as well. Elegante was already in Leon's hands. They could not tell if Leon really wanted to help her or if he was just planning on swallowing up Elegante at that moment!

"Mister Young, I don't know why you're so biased against Leon, but I can tell you clearly that Leon sent me

over this time to transfer the shares of Cynthion Group to Iris unconditionally!"

Spread the love

Chapter 855

Ariel spoke firmly, voicing her opinion.

"What did you say? Leon wants to give me Elegante?" Iris was stunned in place.

She and Gilbert already lost everything, and Leon was giving her Elegante. He was like a shining light at the end of the tunnel. It was enough to prove that Leon helped her the whole time, and there was no way Leon was the mastermind behind the venture capital company!

Of course, it was not just Iris. Gilbert was full of shock as well. He could not help but pinch himself on the thigh, wondering if he was dreaming!

When he felt the pain in his leg, he realized that everything was **real!**

"Iris, Leon actually got me to purchase Elegante Group before this to transfer all the shares to my name. It would make it easier for me to give you back the company in the future! I can assure you, he **never** even thought about swallowing up Cynthion Group. **The** shares never even touched his hands! You and your father's suspicions on him are completely unfounded!" Ariel sighed and said.

"No wonder you helped him. So I really did misunderstand him."

Iris's face paled as she stumbled, almost falling on the ground.

Things were already at that stage. She finally realized that she once again betrayed Leon and wrongly blamed him!

Leon practically gave everything up to help her this time, even transferring **all** his shares to the Shears. Yet, what Leon got in return was getting hurt by Iris over and over again!

She could **feel** how sad and hopeless Leon must have felt!

At that moment, she was completely sobbing. She felt her heart ache at her constantly hurting Leon. It was as if her heart was bleeding from being stabbed.

“Ariel, why would Leon give EleganteGroup to Iris for no reason? **He** must’ve some conditions, right?” Gilbert asked when he snapped back to reality.

He knew **that** Leon spent 780 million to purchase Elegante. It was not a **small** sum. He did not think that

Leon would hand the company over for no reason!

Unless Leon **was** an idiot!

“Leon has no conditions!”

“However, he asked me to tell Iris one thing. He told me to thank Iris for their time together. If it wasn’t for Iris, he would never have reached his current heights. This is the last thing he can do for Iris, and he hopes for Iris’s future happiness!” Ariel said with a complicated expression on her face, telling them everything Leon said.

Even though it sounded polite, she could feel the pain and coldness in Leon’s heart. It was as easy for her to guess that this was one final goodbye from Leon **to** Iris!

From that moment **on**, Leon and Iris’s feelings were going **to** end!

Of course, Ariel was right. Leon really did think that way.

Back then, Leon was just a useless man that was kicked out by his ex-wife. If he did not meet Iris, his life would not have been turned around so dramatically!

He gave Iris back to Elegante unconditionally as a means of repaying that.

From that moment on, Iris and Leon owed each other nothing, and had nothing to do with each other!

“Good, this is amazing! Iris, did you hear that? Leon is willing to just give us Elegante. With Elegante, we still have a chance to make a comeback.”

Gilbert was ecstatic. He started to laugh loudly.

Chapter 856

The major families always prioritized profits. Iris and Gilbert were kicked out of the family because they had nothing!

It was completely different when they had Elegante. With Elegante's tremendous potential, he would probably be able to return to the family eventually and get back everything that belonged to him!

He finally reignited some hope, having already lost all hope before!

"No, this can't end just like that!" Iris held back the pain in her heart as she got up and headed out.

Just like Ariel, she guessed Leon's intentions. It was meant to be a final farewell to her!

She finally realized everything, and she always loved Leon deeply. There was no way she could look on as the

man she loved left her!

"Iris, stand there! What are you doing?" Gilbert frowned as he immediately shouted at Iris.

"Dad, I'm going to look for Leon! He did so much for me, but I kept on hurting him. I have to apologize to him and gain his forgiveness!" Iris clenched her teeth as she said **resolutely**.

"No, I don't allow you to see him! Elegante is already in our hands, apologizing to him is completely pointless! He's already Cynthia's boyfriend anyway. There's no way he'll get back together with you. **What's** the point of gaining his forgiveness?" Gilbert said unhappily.

To him, everything would be fine as long as Leon gave back Elegante. Nothing else was important!

"I-" Iris was speechless as her heart sank.

Only after what Gilbert said did she remember that Leon was already Iris's boyfriend. It was pointless for her to look for Leon. Was she going to take Leon away from Cynthia?

With her reputation and pride as the top of the four great beauties of Springfield City, there was no way she could be something as immoral as a mistress!

Since that **was** the case, why did she need to bother Leon? It would just add trouble for the two of them!

“Who told you Leon was Cynthia’s boyfriend? I just asked Leon a few days ago. He personally told me that Cynthia was not his girlfriend! Could the two of you be mistaken?” Ariel asked in confusion.

At the hotel, Leon got into an issue with Jacob when he was buying Elegante Group. She asked Leon about the matter, and Leon clearly told her that he did not have that sort of a relationship with Cynthia.

Just a few short days passed, so she could not figure out when Leon get together with Cynthia!

That was just too strange!

“What? Leon isn’t Cynthia’s boyfriend?”

Iris, Gilbert, and Louisa were all stunned!

“Iris, didn’t you say that Cynthia was Leon’s girlfriend? What exactly happened?” Louisa looked at Iris, feeling like something was off.

“I don’t know what happened either. When I went to Cynthion Group to ask Leon to get back together,

Cynthia said she was Leon’s girlfriend. She gave Leon a call in front of me. The two of them seemed so close, so I thought that they were already together.”

Iris explained everything that happened then.

“That-”

When Gilbert and Louisa heard everything that was said, they almost fell down in shock.

They could not believe that Iris actually thought that Cynthia’s words were true, and that Iris did not even meet Leon the whole time!

Chapter 857

“Iris, I thought you were personally rejected by Leon at that time. In the end, you didn’t even meet him the whole time. What kind of rejection was that?!” Louisa said in frustration.

She knew that Leon loved Iris a lot. When she found out that Leon was with Cynthia, she was very confused. She could not understand how Leon found a new love so quickly!

She finally understood that Iris just jumped to conclusions after being deceived by Cynthia!

“Louisa, do you mean that Cynthia was lying to me back **then**? She’s actually not Leon’s girlfriend?” Iris’s heart skipped a beat as she slowly realized what happened.

“Of course she was lying to you! **If** she really was Leon’s girlfriend, they could have just publicly declared their relationship. Why did she need to call Leon in front of you? What could she be doing other than trying to deceive you?!” Louisa said in frustration.

“Yes, Louisa’s right. There’s no way Cynthia is Leon’s girlfriend!” Ariel nodded.

She could finally see that Iris was an incredible figure in the business world, an incredibly amazing female president with strong business skills, but was **an** idiot when it **came** to romance. She was completely toyed by Cynthia!

However, just thinking about it, there was no one who was perfect. Iris was incredibly intelligent and

capable, but she was too naive when it came to love. Otherwise, the two of them would not have reached **this**

point of their relationship!

“Cynthia was too despicable!” Iris was furious when she found out the truth.

Since Leon was not Cynthia’s boyfriend, it was obvious that Leon still loved Iris!

If Cynthia did not initially cause trouble, she would probably already have **gotten** back together with Leon. That way, she would not have been kicked out of the family for the marriage, and would not have wrongly

blamed Leon!

Everything was Cynthia’s fault!

It was obvious how angry she was!

“Iris, **it’s** still not too late. You have to hurry up and explain things to Leon, and try to get back together with him!” Louisa urged anxiously.

“Yes, I’ll go see him right now!” Iris nodded **as** she started to walk out.

Her misunderstandings about Leon were all cleared up. She no longer had any fear in her heart, and decided that she would get back with Leon no matter what. She would not let things end just like that!

Gilbert was silent at the scene.

If it was before, he would not regard Leon as worth his notice at all!

Yet, at that moment, he fell to the level of being kicked out of the Youngs.

Yet, Leon soared, becoming the most excellent young man in Springfield City through his own hard work. Leon's influence was extraordinary!

In just a few short months, him and Leon's positions were completely swapped.

With Leon's abilities and terrifying potential, Iris getting back together with Leon would only be good for him and Iris. There was no reason for him to object to it!

"There's no need to go anymore! Iris, it's already too late for you to look for Leon!"

At that moment, a cold laugh was heard. Jacob walked inside with a few experts from the Lowes.

"Jacob, it's you! You're not welcome here!" Iris said unhappily.

Gilbert, Louisas and the others looked at Jacob with animosity as well. None of them regarded Jacob kindly.

Chapter 858

"What do you think? Gilbert already agreed to our marriage. A man keeps to these words. I came here to make sure he goes through with his promise!" Jacob sneered as he voiced out his reason for being there.

"Impossible! The matter's already in the past. Leon and Harold already reached an agreement, and the matter is already settled! Jacob, is your family trying to go against your words then?!" Gilbert said angrily.

"Gilbert, Leon is Leon, and **you** are you. It's two different matters! In the end, all I know is that you already agreed to the marriage, so you have to go through with your promise! If you want to go back on your words, then you'll be making an enemy out of the Lowes. You can bear the consequences yourself!" Jacob threatened coldly.

In truth, he knew very well that Iris and his marriage was already ruined after Leon forcibly interfered.

However, since Gilbert and Iris both mistakenly thought that Leon was the culprit behind the venture capital company, they drew a line between them and Leon!

Leon helped Iris and Gilbert once, but there was no way he would help them again!

Furthermore, Iris was the leader of the four beauties of Springfield City. He yearned for Iris's beauty for a long time. Since Gilbert and Iris were already completely fallen, there was no way he would let Iris **off just** like that!

"Jacob, don't try and throw your power around!" Gilbert trembled in anger.

He could tell that Jacob was just finding an excuse **to** cause the two of them trouble.

"So what if I am? Old dog, you and Iris have already been abandoned. Without the protection of the Youngs and Leon, you have no right to act so arrogantly in front of us! I'm warning you. If you know what's good for you, then hand Iris over to me, and **I can** consider letting the two of you live! Otherwise, don't blame me for being rude!" Jacob sneered.

"You!" Gilbert was furious, but there was nothing he could do.

He knew that Jacob was right. Iris and him already lost everything. There was no way they could go against the Lowes!

In front of Jacob, Iris and him were like lambs to **the** slaughter!

"Jacob, don't **be** so arrogant! Leon and the Shears have already dealt **with** this matter, and your family agreed! If you continue pestering me and Leon finds out, he won't let you **off!**" Iris said coldly.

Thinking about how Leon protected her all this time and the fact that she already planned on looking for Leon to get back together, she felt some confidence.

"Haha!"

"Iris, you shouldn't be dreaming about Leon anymore! Let me tell you, Leon already decided to get engaged to Cynthia in three days! From now on, he **has** nothing to do with you anymore. There's no way he'll keep helping you!" Jacob laughed and mocked.

"What? Leon and Cynthia are getting engaged? How is this possible?!" Iris was shocked, looking like **she** was struck by lightning.

Gilbert, Ariel and the others were the same, exchanging looks with each other. They were completely shocked

by the news.

"There's nothing impossible about it! I heard it myself, there's no way it's fake!"

Chapter **859**

Jacob smiled coldly.

Before Leon left the Youngs, he publicly decided to get engaged to Cynthia. Many of the Youngs and the Lowes heard it, including Jacob.

It was precisely because he guessed that Leon planned on abandoning Iris that Jacob decided to go for Iris and Gilbert behind Leon's back without any fear!

"How would **that be**? I'm clearly the person Leon loves. Why does he want **to** get engaged to Cynthia?"

Iris paled as she stumbled, almost falling to the ground.

She already found out that Leon was not Cynthia's boyfriend. She planned on going to look for Leon to get back together, but before she could even do that, Leon already decided to get engaged to Cynthia!

It was obvious how it would impact her!

At that moment, she finally understood why Leon returned Elegante **to** her, and even gave her a final

farewell!

Leon was actually serious. It was no joke **at** all!

Leon might have been too hurt by her, and planned on forgetting his feelings for her because of that, choosing to get engaged to Cynthia!

It was all her fault!

"No, I have to explain everything to Leon. I can't let him get engaged to Cynthia!"

After snapping back to reality, Iris's head was a mess. She wanted to go find Leon, but was stopped by Jacob.

"Jacob, give **way**!" Iris said angrily.

"You want me to let you go? Do you think that's possible?!" Jacob sneered as he shot a look at the experts

behind **him**.

The experts understood, and immediately surrounded Iris and the others.

“Jacob, what do you want?” Iris held back her anger as she said.

“It’s simple. Gilbert is your father. Since he already agreed **to** the marriage, it doesn’t matter if you’re willing or not. From now **on**, you belong to me! Men, bring Iris away. I’ll consummate our wedding tonight!” Jacob said coldly.

At **his** order, two of them experts reached out and grabbed Iris.

“Don’t you dare!” Gilbert **was** furious. **He** lashed out with terrifying power as he quickly attacked those two martial artists, trying to stop them from taking Iris.

“Know your place!”

Marco, who was behind Jacob, scoffed. He struck with tremendous energy, stopping Gilbert’s attack.

Bang!

After the clash, Marco did not move at all.

Instead, Gilbert, who was still **on** the wheelchair, was sent back several meters. His face paled, and he almost fell off his wheelchair.

Gilbert was only an advanced Supreme Master, while Marco was already a peak Supreme Master. The two of them were not at the same level.

Marco fought Leon before. Even though he was defeated in one blow by Leon, he was still a peak Supreme Master. He was more than enough to deal with Gilbert!

There was no way Gilbert could beat him!

At the same time, the other two took the chance to capture Iris.

“Despicable!”

Gilbert spat out a mouthful of blood as his expression soured.

The strong always trampled over the weak. He was far too weak compared to Marco. Even if he was unhappy, there was nothing he could do but stare **as** his daughter was taken away by Jacob.

Chapter 860

“Jacob, let me go right now! I’m warning you. Even if I have to die, I won’t marry you!” Iris frantically struggled as she shouted angrily.

Jacob put his hand on Iris' chin, sneering, "Iris, I know you're too proud, and that you look down on me."

"It's fine, even if I can't get your heart, I'm more than happy to just get you! Take her a way!"

With a wave, Jacob motioned for those two experts to bring Iris away.

but

Looking at that scene, Gilbert and the others were hopeless. They wanted to rush forward to stop it, Marco and the other martial artists were too threatening. It would be difficult for them to even get close, let alone stop it.

"Stop right there!"

At that moment, a cold shout was heard as Anson brought a few of his men over.

"Mister Collins, it's you! Why are you here?" Jacob was stunned and surprised.

Anson did not answer. He looked at the two experts with their hands on Iris and shouted out with a dark expression, "Jacob, how dare you be so impolite to Iris? Have you men let her go right now!"

"Mister Collins, what's the meaning of this? Gilbert promised Iris to the Lowes a while ago, this is something every major family in Springfield

City should know. From now on, Iris is already my fiancée. I can do whatever I want with her. It has nothing to do with you!" Jacob said unhappily.

"Fiancee?"

Only you would be able to say something like that! Jacob, most of the people in our circles know that I like Iris. I've been pursuing her for a long time. You should know that! We've been quite friendly with each other, and I've always seen you as a friend. Yet, you actually proposed to the Youngs behind my back, stabbing me from behind. Do you even think of me as a friend at all?!" Anson said in frustration.

Jacob and him were friends before. Then, because of Xander's matter, Jacob got into a conflict with Leon. At the time, he helped Jacob before.

Yet, he never expected Jacob to stab him on the back like that, turning Jacob's attention to Iris. It caused a gigantic rift between the two of them.

"Mister Collins, I know you're one of Iris's pursuers, but the four great families have never gotten married to each other before.

It's impossible between you and Iris! Honestly, men go after beautiful women all the time

e. Iris has so many pursuers, **it's** up to her who she wants in the end! I've always liked Iris, and the two of us willingly got married. How could I be stabbing you in the back?!" Jacob said calmly.

"You're right, I have no right to stop you from pursuing Iris, but Iris **is** a goddess in my eyes. No matter who wants to get with her, they should get her in a fair manner. I would have nothing to say then! **If** you're **trying** to use some despicable methods or to force her, then I'll be the first one to disagree!" Anson said coldly.

Since the four great families never married between each other before, Anson did not hate Jacob when he first found out about their marriage, even though he was definitely angry.

Yet, it was already a completely different situation. Iris swore against accepting her marriage with Jacob, and was even forced out of the family because of it.
