

My Rich Wife –

Chapter 2161 – 2165

2161 Leaving the Holy Region?

The warship looked somewhat old, but its construction was exquisite.

It was huge, a few hundred meters long, and the entire hull was made of black metal. This metal emitted a steady and ancient internal qi as if it had witnessed countless changes in the passing years.

The surface of the warship was covered with various complicated runes. These runes flickered with a faint light under the sunlight as if a mysterious power was flowing within them. The arrangement of these runes was disordered. Some were dense, some were sparse, but each seemed to be telling an ancient and mysterious story.

There were many deep wounds on the hull of the warship. These wounds looked very old as if they had existed for a long time.

Every wound was like a scar, bearing witness to the countless battles and storms that the warship had experienced.

Although these wounds were old, they did not affect the warship's aura. Instead, it made the warship look even more indestructible and filled with boundless power.

A huge word, "Lei", was on the warship's bow. This word looked very ancient as if it had existed for countless years. It shined with a metallic luster under the sun, emitting a domineering internal qi as if announcing to the world the power of this warship.

Dean Lei gazed at the gigantic warship with yearning in his eyes.

After a while, Dean Lei slowly opened his mouth and said, "This warship once accompanied our ancestors to travel the starry sky and experienced countless battles, big and small. Every wound is a testimony of our former glory!"

"Dean Lei, are you referring to Immortal Emperor Lei?" Qin Yu asked in surprise.

“That’s right.” Dean Lei’s tone carried a hint of pride.

“This warship has been sealed for a few thousand years. I thought it would retire, and I didn’t expect it to be put to use again today.”

Hearing this, a trace of respect instantly rose in Qin Yu’s heart.

It was a warship that had accompanied the Immortal Emperor through countless experiences! Although it was only a warship on the growth path of the Immortal Emperor, it still had an indescribable significance!

The fact that Dean Lei was willing to give this item to Qin Yu was undoubtedly a sign of his high trust and expectations for him. This warship was not only a means of transportation but also a symbol. It symbolized the glory and history of Immortal Emperor Lei and the trust and expectation of Thunder Courtyard. Qin Yu looked at Dean Lei deeply, bowed deeply toward him, and said, “Dean Lei, I will treasure this warship. I will let it witness glory once again.”

“I believe you can do it. I hope the next time I see you, you’re invincible in the world,” Dean Lei said with a slightly gratifying expression.

Qin Yu’s gaze exuded an unwavering determination. He nodded hard and said, “Definitely.”

There were only two ways to activate this warship. One was to use the spiritual energy in the body or a kind of fuel for the warship.

This fuel was called the Void Crystal. It was an extremely rare material that contained powerful spiritual energy and could provide enough power for the warship.

Dean Lei brought Qin Yu onto the warship and then brought Qin Yu to tour its interior.

It could be said that there was nothing on the warship. It almost had no facilities. Other than a massive cultivation space, there was nothing else.

The entire warship was different from what he had imagined. To an existence like Immortal Emperor Lei, he naturally did not care about appearances. It seemed that everything was for cultivation.

Dean Lei pointed to a room not far away and said, "There's also a huge activation formation inside. Use that formation to navigate this warship. As for the remaining Void Crystal, it should be able to last until you find a new one."

Qin Yu nodded slightly. He glanced around and saw countless traces left in the cultivation room.

These traces seemed to come from the activities of Immortal Emperor Lei. Every trace bore witness to the past of his cultivation.

Qin Yu sniffed hard and whispered, "On this battleship, I can even smell an internal qi similar to the immortal grave of Lei Ming."

The air inside the warship seemed to be full of the internal qi of Immortal Emperor Lei. This internal qi was profound and ancient as if it contained endless wisdom and power.

Qin Yu could feel that this internal qi was not a simple spiritual energy fluctuation but a sense of existence coming from the depths of life. This was the unique mark that Immortal Emperor Lei left on this warship.

There were many deep sword scars on the walls of the cultivation room. These sword scars penetrated deeply into the walls, and each seemed to tell the story of a battle. These sword scars had different shapes, some were wide and powerful, and some were as thin as silk. However, they were all filled with a unique sense of power. It was as if each sword scar was cultivation or battle of Immortal Emperor Lei.

A massive stone platform was in the center of the cultivation room. The stone platform was covered with various kinds of complicated runes. These runes flickered with a faint light under the sun as if a mysterious power was flowing within them. This stone platform was clearly where Immortal Emperor Lei cultivated. Judging from the powerful internal qi emitting from the stone platform, Immortal Emperor Lei's cultivation here was definitely not ordinary.

Besides the cultivation room, the other parts of the warship also had traces of Immortal Emperor Lei. In a corner of the cabin, there was a small bookshelf with some ancient books on it. These books were all books that Immortal Emperor Lei had read before, each full of traces of history.

A small alchemy room was on the other side of the warship. All kinds of alchemy tools filled the interior of the room. Immortal Emperor Lei had once used these tools, and each was full of his internal qi.

However, it was obvious that all these tools and books had been abandoned and left only for observation.

Qin Yu stretched out his hand, wanting to feel something from it, but failed in the end.

Dean Lei, at the side, said indifferently, "Don't be greedy. The valuable things on this ship have already been taken away."

Qin Yu was slightly embarrassed. He retracted his gaze and bowed to Dean Lei to express his gratitude.

He looked up at the sky. It was already dark, and there were even specks of stars.

"I should be leaving now," Qin Yu said in a low voice.

At this point, Qin Yu looked at Dean Lei and said, "Can you do me another favor?"

Without even thinking about it, Dean Lei nodded and said, "Just say it, and I won't reject it if I can do it."

Qin Yu was silent for a moment before saying, "I want you to help me find a coordinate."

"Coordinate? The place where you came from?" Dean Lei guessed Qin Yu's thoughts.

2162 Stepping into the Starry Sky

Qin Yu nodded and said, "I want the coordinates of Earth."

Dean Lei seemed not surprised. He did not even ask much and immediately nodded in agreement.

"Speaking of which, coincidentally, I have the coordinates," Dean Lei said. "Wait here for a while."

Although Qin Yu was somewhat puzzled, he did not ask further.

Since Dean Lei knew his father, it was not surprising that he knew the coordinates of Earth.

Dean Lei's figure instantly disappeared. In a short while, he reappeared in front of Qin Yu.

He sent a ray of golden light into Qin Yu's mind. Soon, the coordinates of Earth and even the route appeared in Qin Yu's mind.

It was a thin golden thread sketching a path in Qin Yu's mind.

At this moment, Qin Yu finally realized how far away this place was from Earth. It was so far that it was unbelievable.

"This trip... I'm afraid it'll take many years," Qin Yu frowned and said.

Back then, even a minor sect like Tianyun Sect could reach Earth. Now, Thunder Courtyard could not do it. This could not help but make Qin Yu feel somewhat suspicious.

However, he did not ask any further. Time was of the essence, and it was time to set off.

"It is really unexpected that I have to leave like this. I don't even have the time to bid farewell..." Qin Yu could not help but laugh bitterly.

Dean Lei patted Qin Yu's shoulder and said, "This's considered the best outcome. You should feel glad that you're still alive now. Besides, no one knows if this trip is a blessing or a curse."

Qin Yu nodded slightly. What Dean Lei said was true. It was already fortunate enough that he was alive.

“Dean Lei, I still have to trouble you with one more thing,” Qin Yu smiled bitterly and said.

“Say goodbye to Jue Wu on your behalf?” Dean Lei said with a smile.

“How did you know?” Qin Yu asked in surprise.

“Jue Wu thinks highly of you, so how could you not say goodbye to her?” Dean Lei stroked his beard and smiled.

Speaking up to this point, Dean Lei sighed with emotion and said, “Speaking of which... If Jue Wu knows about this... She’ll definitely go crazy.”

“Yes, so I’ll have to trouble you to keep an eye on her. Her personality...” Qin Yu did not finish speaking, but what he meant was obvious.

“Don’t worry. As long as I’m around, I won’t let anyone hurt her,” Dean Lei nodded and said.

“Thank you very much.”

Qin Yu thanked Dean Lei again before turning around and boarding the warship.

Activated by Qin Yu, the warship slowly began to rise into the air. A terrifying internal qi instantly filled the entire open space.

Qin Yu stood on the deck, and his long robe fluttered in the wind. His gaze was firm and profound. He could feel the immense power brought by the warship, and yearning and determination for the unknown world filled his heart.

The warship glided through the clouds, resembling a dazzling star piercing the night sky. Everything was changing rapidly. Qin Yu watched as the land below gradually moved further away. The buildings and mountain ranges that were as small as ants shrank gradually in his eyes. The lofty clouds were pierced through as the warship advanced, revealing the profound night sky adorned with sparkling stars, creating a mesmerizing spectacle in front of his eyes.

The warship sped up and streaked across the sky like a shooting star. It passed through the galaxy, shining with a golden light. The wind blew past Qin Yu's face, bringing a cold feeling. He reached out and touched it as if he could feel the pulse of the universe and the existence of the boundless stars.

Soon, Qin Yu could no longer see anything. The warship entered the void. At a glance, endless darkness filled the surroundings.

Looking into the distance, he could see faint glimmers of light emanating from the stars that shined dimly.

They were like distant lighthouses, guiding the direction of the warship. Qin Yu stared at those stars, imagining the galaxies and the existence of life they represented. He could not help but fall into deep thought.

At this moment, Qin Yu's emotions were tremendously complicated. He could not imagine leaving the Holy Region just like this. He did not know when he would meet those old friends again.

A hundred years might not mean much to cultivators, but in Golden Age, no one knew what would happen in a hundred years.

The warship continued to fly, passing through galaxies and nebulae, shuttling through the vast universe. Each leap brought a sense of awe and astonishment. Qin Yu saw the colorful galaxies, the strange landscape of the planets, and the diverse life forms. Some planets were surrounded by brilliant halos, while some galaxies emitted mysterious energy fluctuations.

Time became blurry in the universe. Qin Yu could no longer accurately sense the passage of time. He was immersed in the wonders of the universe, touching endless possibilities and unknown secrets.

Right at this moment, a tremendously gigantic warship suddenly appeared not far away, blocking Qin Yu's way.

This warship was tremendously massive, like a moving mountain. Its pitch-black hull emitted a dense internal qi. Its appearance was like a gigantic beast, and its bow was carved with a ferocious face as if it could open its bloody mouth at any time to tear apart any existence that dared to stop it.

The surface of the warship was covered with a hard black-gold alloy, which flickered with a cold light, giving off an unshakable sense of firmness. Mysterious runes and ancient totems were carved all over the ship, giving off a majestic and ancient internal qi.

The dragon-like structure that extended from the hull was like a massive skeleton that supported the entire warship.

These dragon bones flickered with weak energy fluctuations like a sleeping giant beast that had awakened and emitted a majestic internal qi.

Qin Yu frowned slightly, and he suddenly felt an ominous premonition in his heart.

The entire warship blocked Qin Yu's way. Immediately, two elderly men appeared on the deck.

The two had cold expressions and extraordinary internal qi. Their gray robes were embroidered with strange patterns, and their gazes were sharp and cold as if they could see through people's hearts and everything.

One of the elderly men was tall and had broad shoulders and a broad back like an iron tower. His hair was completely white, but his gaze was still as sharp as a knife, emitting a domineering aura. He held a black

magic staff with a blood-red gem embedded in it, emitting a powerful internal qi of death.

The other elderly man was short but exuded a pressure that could not be ignored. His face was full of wrinkles, revealing the traces of time, but his gaze was unusually sharp as if hiding endless wisdom.

“Qin Yu, we have been waiting for a long time!” an elderly man said coldly.

“Do you really think you can leave the Holy Region alive?” another person mocked and said.

“That fool, Yan Tianshi, actually let you go. He’s really old and muddle-headed!”

“He’s foolish, but we’re not. Qin Yu, you won’t be able to escape death!”

The internal qi of the two elderly men spread out in the starry sky, bringing with them a formidable pressure that made Qin Yu feel like he was in an unavoidable predicament.

Qin Yu’s expression changed slightly. He looked at the two and said in a low voice, “I knew it! There would be villains blocking my way!”

2163 The Pursuit!

Hearing Qin Yu’s words, the two instantly burst into laughter.

“Although we don’t know what’s wrong with Yan Tianshi, you can’t leave here alive!” an elderly man laughed out loud.

Qin Yu looked at the two coldly and said sarcastically, “That’s why you can never accomplish Yan Tianshi’s achievements!”

Faced with Qin Yu’s ridicule, the two were not angry at all. Instead, they said indifferently, “So what? No one knows what achievements we can accomplish, and no one can see the future. But we can see your future!”

With two True Saints blocking Qin Yu's way, this undoubtedly was a tremendous disaster.

With Qin Yu's strength, he absolutely could not defeat them.

"I can only think of a way to escape." Qin Yu turned to look at the warship.

Since this warship was once used by Immortal Emperor Lei when he was traveling, it was definitely not an ordinary ship. He could take this opportunity to escape.

Qin Yu looked at the other party's warship. It was incredibly luxurious and totally different from the warship of Immortal Emperor Lei. The luxury on the ship was unimaginable.

However, it was precisely because of this that the warship became bloated. The warship of Lei Ming was obviously practical.

Thinking of this, Qin Yu did not talk nonsense. He quietly mobilized the internal qi in his body and spread it throughout the entire warship.

In an instant, the warship was enveloped by Qin Yu's internal qi and resonated with the activation formation. At this moment, Qin Yu seemed to have integrated with the warship.

Rays of Golden Light began to appear on the warship. The golden light exploded into a dazzling light in the dark void!

"D*mn it! This kid wants to escape!" That elderly man instantly understood Qin Yu's intention. His feet immediately shook, and he shot explosively in Qin Yu's direction!

Qin Yu dared not waste time. He closed his eyes and focused on controlling the warship to shoot into the distance!

The warship streaked across the void, leaving behind a golden trail. The warship sped through the void, and the golden light streaked across the boundless darkness like a meteor crossing the galaxy.

The wind blew past Qin Yu's face, bringing with it the internal qi of the universe. The stars swiftly flashed past his eyes, and the starlight swept past his body like dazzling sparks. It was as if he had merged with the rhythm of the universe and existed with the stars.

Qin Yu dared not be negligent at all. Those were two True Saints. Once they caught up, he would definitely die!

Looking at the warship that was shooting away, the two elderly men's faces turned ashen. The elderly man who had originally planned to chase after Qin Yu also stopped in his tracks.

He stood in the boundless void and said coldly, "Chase him! We can't let his kid escape!"

The warship sped through the void. The golden light illuminated the surrounding darkness, causing the void to tremble. The wind whistled, and the stars flickered beside the warship as if cheering for it.

The two elders did not hesitate and swiftly chased after the warship. Their bodies were like lightning as they transformed into flowing lights that shuttled through the galaxy. Their speed was astonishing, but the warship seemed to have a magic power that caused them unable to catch up, constantly extending the distance away from them.

Qin Yu was anxious. He focused all his attention on controlling the warship, trying to maximize its speed.

Under his guidance, the warship kept changing directions, nimbly avoiding the pursuit of the two elders.

The golden light flickered like a ray of flowing golden light, full of power and hope.

However, the two elders were too powerful. They used amazing supernatural powers and techniques to try to interfere with the warship's sailing repeatedly.

Lightning flashed, flames raged, and darkness spread, forming invisible obstructions.

Qin Yu had no choice but to expend a large amount of energy and intelligence to avoid these obstructions at the fastest speed and maintain the warship's flight.

"Brat, don't even think about escaping!" The voices of the two elders pierced through everything, causing the entire starry sky to tremble. Terrifying booming sounds continuously entered Qin Yu's ears, and a tremendously terrifying light even flickered at the back of Qin Yu!

The two elders raised their palms as if activating some terrifying techniques, wanting to destroy Qin Yu's warship!

Their palms emitted waves of scorching energy fluctuations, forming a blazing net of flames and lightning wrapping around the warship. This energy was full of destructive power that seemed to be able to turn everything into dust.

Qin Yu's expression changed drastically. With a roar, the internal qi in his body suddenly erupted. Countless rays of golden lights emitted and enveloped the entire warship!

"Boom!"

Terrifying beams of light shot toward the warship. The two elders seemed to have determined to get rid of Qin Yu. They raised their hands and unleashed terrifying techniques with tremendously destructive power!

The Golden Light in Qin Yu's body was penetrated almost instantly. With the appearance of cracks, the Golden Light of the entire warship completely dissipated!

Qin Yu's expression changed drastically! That terrifying light was heading straight for the ship!

"Clang!"

The terrifying sound was deafening, and the entire warship was wrapped by that terrifying internal qi. The destructive power entangled the warship and continuously emitted a terrifying sound!

The entire warship continued to shake, and Qin Yu felt unprecedented pressure. This warship was originally controlled by his true essence, and now, all the tremors were resonating with Qin Yu's body and primordial spirit!

Qin Yu only felt dizzy, and his mind was in a mess. He almost lost control of the warship!

However, he gritted his teeth and relied on his strong willpower to control the warship with difficulty! At this moment, the warship of Lei Ming finally showed its might. It was unknown what terrifying materials were used to make this warship. The terrifying light left wounds on the warship, but there were no signs of it collapsing!

Seeing this scene, Qin Yu's heart was instantly ignited with hope!

Immortal Emperor Lei's warship indeed lived up to its reputation! As long as the warship was not destroyed, Qin Yu could rely on his speed to escape this pursuit!

Qin Yu took a deep breath. He controlled the warship with all his might and shot forward at a tremendously fast speed.

The speed of Lei Ming's warship was tremendously fast. It was not something that the two elders could compare to.

Seeing the warship going farther away, the two elders became increasingly anxious.

"This warship is extraordinary. I wonder where this kid got it from!" an elder gritted his teeth and said.

"It must have been given to him by Dean Lei... We can't let him escape!" another elder said coldly.

They were tremendously anxious in their hearts. If they continued to chase like this, Qin Yu would definitely escape!

Once they pursued too far away, there was a risk that they could not return to the Holy Region!

Then one of them slowly raised his hand, and terrifying true essence immediately spread out. Even the surrounding void began to collapse!

All of a sudden, boundless starlight gathered around them, forming a giant vortex. This vortex emitted the internal qi of the vast universe, like the center of a galaxy!

At this moment, they were like the masters of the starry sky that seemed to mobilize all the power in the starry sky!

2164 Into the Void!

Dazzling starlight gradually appeared on the bodies of the two elders. Their true essence surged continuously, resonating with the surrounding starry sky.

The starlight in the starry sky vortex became increasingly brighter, gathering on the bodies of the two elders like a tide.

“Ah!”

After a loud roar, the void began to distort violently! A large area before Qin Yu even collapsed!

Qin Yu’s expression instantly changed drastically. One after another, huge holes appeared before him. Those were signs of the void collapsing!

The holes became bigger. Once it entered the void, no one knew what would happen!

“Ah!”

The voices of the two elders shook everywhere. Obviously, the use of this technique was also incredibly strenuous for them!

However, they were reluctant to miss such an opportunity. Once Qin Yu entered the void, it would mean he could never walk out and would definitely die within!

No one knew the mysteries of the void, but Xiao Sheng's Rashomon could explain everything!

The void before him was still collapsing, and the entire area in front of him had turned into a pitch-black hole!

Qin Yu roared with all his might. He tried his best to control the warship to change its direction, but the collapse before him was simply too great. No matter which direction Qin Yu turned, he could not escape from this pitch-black hole!

“Go to hell!”

Accompanied by the two elders' hoarse roars, the terrifying true essence in their bodies seemed to form two giant hands that actually forcibly tore apart the void before Qin Yu!

At this moment, Qin Yu had no way to escape. He could only stare with his eyes wide open as he watched the warship sink into the massive hole and the void!

Terrifying dizziness instantly rushed over. Qin Yu could only feel everything spinning!

It was desolate and lifeless. There was endless darkness all around. There were no stars flickering or light shining.

Qin Yu's warship passed through the massive hole and entered this desolate void. As soon as he entered, he felt a deep loneliness and coldness.

The entire void seemed to be a bottomless abyss. Darkness swallowed all light, making it impossible for people to determine their direction.

A sense of powerlessness rose in Qin Yu's heart. He felt that his existence had become insignificant. Compared to this desolate void, he was like a speck of dust, so insignificant that it made him feel despair.

There was no wind, no sound, no color. There was only endless darkness and deadly silence.

Qin Yu tried to mobilize his true essence to move the warship forward but realized there was no response in this desolate void. His efforts and struggles seemed to have become insignificant ripples, unable to change the surrounding environment.

Soon, due to the immense dizziness, Qin Yu's vision started to become blurry, and he could no longer sense anything!

"Is this the world that Rashomon swallowed..."

Before Qin Yu fainted, this sentence could not help but appear in his mind.

Soon, the massive hole began to heal slowly. In just a moment, everything returned to silence as if nothing had happened.

The starry sky was still the same starry sky, decorated with light and incomparably beautiful.

The two elders looked coldly in the direction where Qin Yu disappeared, and a cold, indifferent smile appeared on the corners of their mouths.

"We finally got rid of him," an elder sneered and said.

“Once he enters the void, he will definitely die. Our effort this time is not wasted.”

“Unfortunately... We didn’t get the Traceless Immortal Scripture from him.”

There was only one copy of the Traceless Immortal Scripture. Qin Yu’s disappearance would mean the Traceless Immortal Scripture would no longer exist.

They stood there for a long while, afraid that something unexpected would happen.

It was only when everything quieted down that they finally let go of their worries.

“He’s finally dead.” The two heaved a long sigh of relief and then raised their heads to laugh heartily.

This laughter traveled tens of thousands of li, causing the entire starry sky to tremble!

They did not stay any longer. They turned around, returned to the warship, and disappeared into the starry sky.

...

Qin Yu and his warship fell into endless darkness.

It was the mysterious void zone. Once one entered it, there was no possibility of leaving.

In this void, everything was barren and endless darkness. There was no color.

There was an incredibly terrifying, dense, and mysterious internal qi here. That internal qi caused the entire warship to rumble, and countless wounds even appeared.

Qin Yu also slowly woke up under this tremendous pressure.

When he opened his eyes, he could not see anything clearly. There seemed to be no difference between opening and closing his eyes here.

The void was pitch-black, without a trace of light and any trace of material existence. There was no air current or sound transmission in the surroundings. It was like a quiet area isolated from the world.

Qin Yu felt that he was in an endless, boundless space. He had no sense of direction and could not differentiate the positions of up, down, left, and right. His existence seemed to have been swallowed by this void. The outline of his body gradually blurred and merged into the endless darkness.

In this desolate void, Qin Yu felt a deep sense of loneliness and powerlessness. His breathing became difficult as if the air was being swallowed by this void. He was isolated in a deadly stillness.

There was no scenery, no stars, and no signs of life in the surroundings. This void was like a forgotten corner, abandoned by time and forever immersed in darkness and silence.

Qin Yu tried to mobilize his true essence to release light, but his efforts seemed to be absorbed by this void, and there was no response. He felt that his power had become insignificant and could not change the state of desolation.

Time became blurry in the void. There was no alternating between day and night, no concept of time. Qin Yu felt he was being trapped in eternal darkness, and time had become irrelevant.

His thoughts gradually quieted down, leaving only helplessness and despair toward death. This void devoured his hope and will, and he gradually lost himself in this desolated world.

“Ah...”

At this moment, Qin Yu's perception began to recover. He only felt that his body was being pressed down by a tremendously heavy internal qi,

causing him unbearable pain. Cracks continuously appeared on his body!

“It’s so... terrifying... Pressure...” Qin Yu uttered a sound with difficulty, but after uttering the sound, it was directly swallowed and nothing was left!

No one knew the origin of this heavy internal qi, but its powerful oppressive feeling was something that even Qin Yu’s physical body could not resist!

“Buzz!”

At this moment, Wu Ji’s divine robe on Qin Yu’s body emitted rays of light, resisting this internal qi.

Wu Ji’s divine robe was incomparably powerful, but under this internal qi, it gradually became much dimmer. Qin Yu’s physical body was still continuously collapsing!

If not for Wu Ji’s divine robe on his body, Qin Yu would probably have long turned into a pile of meat paste!

2165 The Endless Void

Qin Yu gritted his teeth with difficulty. He gathered all his strength on the divine robe of Wu Ji, trying to resist this dense pressure.

The light emitted by the divine robe of Wu Ji gradually grew brighter, forming a strong resistance against the dense internal qi. Qin Yu felt the cracks in his body eventually heal. His physical body began to condense again and become strong.

Nevertheless, the heavy pressure still made Qin Yu feel incomparably painful and depressed. He felt as if he was being pressed by a gigantic mountain, unable to breathe.

In this void, Qin Yu felt an immense danger. He knew that he had to find the source of life as soon as possible. He had to find a chance to escape from this desolate void.

Qin Yu gritted his teeth and mobilized his true essence, gathering all his strength and attempting to break through the shackles of this void.

Qin Yu used mobilized his true essence with all his might. His divine robe emitted a dazzling light. He tried to use his greatest strength to break through the shackles of the void. He released waves of scorching light, hoping to tear the darkness apart.

However, no matter how hard he tried, the void seemed unmoved by his efforts. His power was like a drop of water falling into the sea in the void, so insignificant that it made people despair.

Qin Yu was unwilling to give up. He tried to use various methods. He released scorching flames to trigger powerful explosions, but the void swallowed everything. He tried to control time and space, but the void's interference caused these powers to fail to operate steadily.

As time passed, Qin Yu's efforts became more challenging, and his body began to show signs of fatigue. His eyes revealed determination and persistence, but at the same time, there was a hint of despair and bitterness.

He tried using his thoughts to open up the path and find the weakness of the void, but the void still could not be torn apart. Every attempt he made failed. He felt like he had fallen into an endless cycle with no way out.

Despair gradually spread as Qin Yu's body began to tremble. He eventually exhausted his strength. The determination in his heart wavered, and he began to doubt his choice and determination.

However, just as he was about to give up, a glimmer of light flashed across his mind, barely maintaining his hope. He remembered what Xiao Sheng had once told him, "The key to the dao technique lies in finding inner peace and a condensed state of mind."

Qin Yu slowed down his breathing and strived to calm the inner excitement and restlessness within.

“No matter what... I want to escape from this d*mned place!”

He closed his eyes and tried his best to immerse himself in his inner world, attempting to find a calm and condensed state of mind.

As time passed, Qin Yu gradually felt an internal qi of calmness.

His state of mind gradually settled as if he had returned to the beginning of his cultivation. He began to feel the power in his heart. It was a power that resisted the void.

Qin Yu opened his eyes once again as the state of mind in his mind condensed. His gaze was full of determination.

He mobilized his true essence again, but this time, it was no longer the power to show off but a gentle and firm power.

He concentrated his strength and gathered his true essence in his palms, forming a ball of blue light. His palm was warm and serene like a surge of inner strength was releasing at this moment.

Qin Yu's gaze locked onto a weak spot in the void. Without hesitation, he reached out his hand and gently projected the ball of light.

The ball of light tore through the dark void, leaving behind a beautiful trail as it headed straight for the weak spot. A strange phenomenon occurred when the ball of light came into contact with the void.

The ball of light gradually disappeared, but a faint light appeared in the void, like the embers of a star. The faint light quickly spread out and gradually formed a crack.

Qin Yu's eyes flashed with joy, knowing he had finally found a way to break through the void.

“There's hope!” Qin Yu suppressed the excitement in his heart, but his body still trembled continuously because of the excitement!

Under this excitement, Qin Yu even forgot the pain of his body being suppressed. At this moment, the divine robe of Wu Ji also emitted an even more dazzling light as if it was cheering for him!

The terrifying and dense internal qi around him once again hit his face as if it wanted to press Qin Yu to the ground completely.

But now that he had hope, Qin Yu could not care less about the pain in his body.

He concentrated all his strength, instilled his true essence into his palms, and then pushed hard.

Qin Yu pushed the crack with all his might, hoping to break free completely from the shackles of the void.

However, the crack began to heal at a tremendous speed at this moment, and the surrounding internal qi became even denser, almost suffocating!

“How could this be?” Qin Yu’s eyes flashed with panic. He tried to tear open another crack with all his might, but this time, no matter how hard he tried, he could not tear open even half a crack in the void!

The surroundings were still full of endless cold darkness. Qin Yu tried repeatedly in despair, but no matter how, he could not open that crack again. The binding of the void became even stronger, and the dense internal qi almost crushed him completely.

Every attempt failed. Qin Yu’s strength gradually depleted. His body began to tremble, unable to withstand the pressure of the void anymore.

Despair enveloped his heart. He felt he could no longer escape this desolate void. Fatigue and disappointment filled his eyes, and despair replaced his determination and persistence.

“Why... Why can’t I break through the void!” Qin Yu roared, his voice filled with powerlessness and pain.

It was endless darkness in the surroundings, and he could not see anything clearly.

The dao technique here began to fade away. Qin Yu's own dao techniques were also wiped out. Everything started to dissipate in an instant. What remained of Qin Yu seemed to be only his unique physique.

“Ah!”

Qin Yu was on the verge of collapse, and that pain began to strike him like it was tearing him apart!

Qin Yu clenched his fists tightly. Like a headless fly, he continuously swung his fists at the void. However, each time he punched out, there was nothing, nothing at all.

It was an endless void in which he could not touch anything. This cold despair was enough to shatter all of a person's faith.

Qin Yu's state of mind collapsed. He began to doubt his own strength and value.

After an unknown period of time, Qin Yu finally lost all his strength. He collapsed to the ground in despair, like a drunken man.

Qin Yu lay on the ground in the air, staring at the pitch-black sky above him with a helpless expression. His heart was full of despair.

“I... Am I going to be trapped here forever...” He mocked himself in a low voice, the despair in his heart could no longer be suppressed.

The dreams and faith he once had in the depths of his heart gradually shattered.

At this moment, Qin Yu felt how small and powerless he was. He could not contend with the void at all.
