

Richest Man: Getting 7 Billion Red Pockets To Start With #Chapter 139 - 139 Praise from Everyone; Red Pockets! - Read Richest Man: Getting 7 Billion Red Pockets To Start With Chapter 139 - 139 Praise from Everyone; Red Pockets!

After People's Daily published the news, everyone understood that they had been deceived earlier.

Fruit-Flavored Tangyuan: [Lin Fan, you've worked hard. Thank you!]

Strawberry: [Lin Fan, you've worked hard. Thank you!]

Loyalty: [Lin Fan, you've worked hard. Thank you!]

!!

...

Last Stand: [Sunlight Scholar is really scheming! He even said that there were corpses piled up in Fu City. I checked and found that the photo of the corpse was actually a screenshot from the movie 'War of Resistance!' If you don't believe me, you can go and take a look! The photo of the trampling is from the TV show 'New Nobleman,' and the photo of the traffic jam isn't from Fu City at all!]

Wish: [Heavens! So this is the truth! We were all fooled by Sunlight Scholar!]

Everyone For Me: [I was wondering why I didn't see any trampling or corpses when I was in Fu City.]

Fragrance to Fanghua: [Sunshine Scholar? Is he worthy of being called a scholar? Sunshine? Pah!]

Wang's Woman: [I've long said that there's something wrong with Sunshine Scholar. Why is it possible for foreigners to invent it, but we Hua Nation people definitely can't? Are you so ready to worship our countries?]

Amidst everyone's discussion, the authorities released evidence of Sunshine Scholar collecting fees from foreign organizations to cause conflicts. They

also released the video of Li Jing crashing into an Audi after drinking at the bar that day, as well as evidence of Li Jing evading taxes.

Instantly, the entire internet was in an uproar.

Gift: [F*ck! I was wondering why Sunshine Scholar would publish such an article. It turns out he's a scumbag!]

To Jun Moruo: [I must have been blind in the past to actually like Li Jing!]

Nature: [An actress actually scammed a scientist! We can't let news of this out!]

Treasure: [We need to get rid of evil from its roots!]

...

Amidst everyone's heated discussions, the earthquake finally arrived at 15:30 on January 2.

Rumble!

The entire city shook. A few old houses that had been in disrepair for a long time and were uninhabited fell to the ground with a loud bang. A ditch that was a few centimeters wide appeared on a muddy and dilapidated road.

Fu City was in an earthquake!

Fortunately, everyone in Fu City had received the notice and came to the open space in advance. Moreover, the magnitude of the earthquake was not high.

Therefore, there were no casualties!

Then, at 21:30 on January 2, a magnitude 5.1 earthquake occurred in Chuan City.

At 9:20 on January 3, a magnitude 3.5 earthquake occurred in Han City.

Every earthquake was predicted accurately. The earthquake prediction device was successfully developed, and it was accurate!

The entire country was in an uproar!

...

Lin Fan had no idea about all of this.

At this moment, he was lying alone in the Coiling Dragon Villa, fast asleep.

He had been accompanying Qiu Ziqian and Huang Ling for the past three days.

Even though Lin Fan had Violent Aesthetics, which enhanced his body, three consecutive days still made him a little tired.

Since it was New Year's, it was inevitable that the dormitory was a little noisy.

That was why he chose to rest in the Coiling Dragon Villa.

At this moment, a crisp notification rang out in Lin Fan's mind.

[Ding! Hidden mission completed. Everyone is praising you. You've received five silver packets.]

Hearing this, Lin Fan, who had been sleeping for a long time, opened his eyes slowly. His face was filled with confusion.

"Praise? What is this?"

These days, he only cared about accompanying Qiu Ziqian and Huang Ling, so he really did not know what had happened.

Lin Fan rubbed his nose and muttered, "Forget it, I don't care. Let's see what I can get first."

[Do you wish to open the five silver packets?]

"Yes!"

[Ding! Congratulations, you've received 500,000 yuan.]

[Ding! Congratulations, you've received one Bugatti Veyron.]

[Ding! Congratulations, you've received Koenigsegg CCR1.]

[Ding! Congratulations, you have received 300,000 yuan.]

[Ding! Congratulations, you've received 10x Enhancement Potion x3.]

Lin Fan looked at the contents of the four silver packets and frowned. His face was filled with disappointment.

If other people found out, who knew what kind of expression they would have?

The Bugatti Veyron and Koenigsegg CCR were both supercars worth more than 20 million yuan.

However, Lin Fan was disappointed?

Then, Lin Fan locked his gaze on the 10x enhancement potions.

[10x enhancement potion: a special potion. After drinking it, it can increase one's spirit, reaction speed, strength, and other aspects by ten times for 24 hours. It makes one stronger and faster, thus more charming.]

When Lin Fan saw this, his lips curled up.

...

This potion would make him ten times stronger immediately. This was definitely a good potion.

Lin Fan slowly raised his head. In front of him were two car keys. He walked out of the window. Other than the Mercedes-Benz, there were two more super sports cars outside.

However, Lin Fan had no intention of going downstairs to admire them.

Instead, he slowly picked up his phone.

[Do you wish to open 255 red packets?]

This was mainly the red packets that he had received from helping Qiu Ziqian and Huang Ling buy things on New Year's Day.

"Yes!"

[Ding! Congratulations, you've received three yuan.]

[Ding! Congratulations, you've received 1,999 yuan.]

...

[Ding! Congratulations, you've obtained the skill doubling card.]

...

[Ding! Congratulations, you've received 1,99 yuan.]

....

[Ding! Congratulations, you've received one yuan.]

[Ding! Congratulations, you've received a skill level upgrade card.]

...

With 255 red packets, Lin Fan received a total of 352,211 yuan.

Of course, money was not important.

More importantly, Lin Fan had also obtained the doubling skill card and the skill level upgrade card that he had always wanted!

To Lin Fan, these two items alone were worth more than five silver packets.

Could this be quantity over quality?

[Level: LV5]

[Level 5 reward: 20 yuan for every breath; 20 yuan for every second of sleep, and 20 yuan for every step taken. Rewards are distributed at 12 a.m. daily.]

[Upgrade cost: 10.05 million/50 million (not including gifts and gambling. In addition, all items obtained from the system are prohibited from being traded.)]

[Skills: Professional Driving Skills, Charming Aura (5% chance of triggering love at first sight, unforgettable memory), Violent Aesthetics, Drinking Gentleman, Absolute Focus (10% chance of triggering a flash of inspiration), Professor-Level Mathematics Experience, Eyes of Truth... Professor-Level English, Professor-Level Chemistry Skills, Scanning]

[Funds: 221 million]

Lin Fan rubbed his chin and hesitated about what skill to level up.

At this moment, Lin Fan's phone rang.

It was Lin Xiaoyao.

"Brother, I heard that Lin Fan from Jiangbei University invented an earthquake prediction device... That person... Could it be you?" Lin Xiaoyao asked as soon as she picked up the call.

Lin Fan was stunned, "How do you know that?"

"F*ck, it's really you! Awesome!" Lin Xiaoyao shouted excitedly.

After Lin Fan hung up the phone, he started to search for relevant news online.

It turned out that the Earthquake Center had already released the news of the earthquake prediction device, and People's Daily had even praised him.

However, Lin Fan's photo was not published online.

That was why Lin Xiaoyao called to ask.

Lin Fan rubbed his slightly deflated stomach and walked straight to the front of the Bugatti Veyron. He then sat on it.

Boom!

He did not have the time to observe the new car. He stepped on the accelerator and rushed out.

Lin Fan ate some food and went straight to Jiangbei University.

At this moment, a bright banner was hung in front of the gate of Jiangbei University.

'Congratulations to our school's Lin Fan for his invention of the earthquake prediction device!'

Last time, when he solved Zhou's Conjecture and the Twin Prime Number Conjecture, Lin Fan had the same experience.

Therefore, he did not pay too much attention to it.

Dorm 104.

Zheng Jinbao was so focused on his game that he did not notice Lin Fan when he entered.

Not long after, Ma Zhong walked in with a few books.

When he saw Lin Fan, he could not help but say, “Brother Lin Fan, you’re back? That earthquake...”

However, before he could finish, Zheng Jinbao, who was originally focused on playing the game, jumped up and said, “Brother Lin Fan, did you invent the earthquake prediction device?”

Lin Fan looked at his excited expression and could not help but laugh. “Other than me, who else could it be?”

“F*ck!” Zheng Jinbao shouted.

“F*ck!” Ma Zhong also called out.

When they found out that the earthquake prediction device was invented by Lin Fan of Jiangbei University, they suspected that it was their roommate even though they did not see the photo.

However, even after Lin Fan confirmed it, they were still shocked.

After all, that was an earthquake prediction device!

A high-tech product that no one in the world had invented.

In the end, it was actually invented by their roommate!

At this moment, there was the sound of footsteps outside.

Before Song Yi arrived, his voice was heard first. “What are you guys shouting about?”

When he saw that it was Lin Fan, he shouted, “Brother Lin Fan, you invented the earthquake prediction device, right?”

Then, Song Yi took a big step forward and opened his arms to embrace Lin Fan.

Lin Fan quickly retreated to the side and nodded, "I invented it. But don't get too excited. I don't have any special preferences."

"Brother Lin Fan." Song Yi scratched the back of his head. "Can you tell us what that earthquake prediction device looks like?"

Zheng Jinbao and Ma Zhong pricked up their ears.

Obviously, they were also very interested in this.

Lin Fan said, "You've all seen it."

"Huh?" The three of them were puzzled.

"A few days ago, wasn't there a black box here?" Lin Fan said.

The three of them nodded.

"That's the earthquake prediction device," said Lin Fan.

"F*ck!" Zheng Jinbao, Ma Zhong, and Song Yi all widened their eyes and howled loudly.

At this moment, Lin Fan's phone rang.

He glanced at the caller ID. It was a call from his good friend from Shanwu Village, Chi Zengyi.

Lin Fan and Chi Zengyi had exchanged contact information when Lin Fan went back to Shanwu Village to celebrate his grandfather's birthday.

"Lil Yi, did you hear about the earthquake prediction device?" Lin Fan asked with a smile.

"What earthquake prediction device?" Chi Zengyi asked.

Lin Fan was stunned for a moment before saying, "Ah... It's nothing. Oh right, why did you call me today?"

“Oh, I opened a barbecue restaurant in Jiangbei today. Come and try it when you’re free!” Chi Zengyi said.

Some people would often pay attention to online news because they had free time.

Some people spent all their time working hard.

Lin Fan smiled. “Really? Then I definitely have to go over! Where’s the location? Send the address to me.”

“Alright,” Chi Zengyi said.

After hanging up the call, Lin Fan chatted with his roommates for a while before heading to the place Chi Zengyi had mentioned.

When Lin Fan passed by a flower shop, he bought a flower basket for the opening ceremony.

When he arrived at a traffic light not far away, his phone rang again.

“There are so many calls today,” Lin Fan muttered.

...

“Brother Lin Fan, you’re really amazing! Not only did you solve two math problems, but you also invented an earthquake prediction device! This is a divine piece of equipment!”

It was the voice of the leader of Jiangbei City, Jiao Yang.

Last time, Jiao Yang went to Jiangbei University and did not talk much with Lin Fan.

However, they still exchanged contact details.

Lin Fan said, “That’s just a small invention. Brother Jiao, you flatter me. How can this be considered a divine piece of equipment?”

Jiao Yang immediately refused.

“This isn’t considered a divine piece of equipment?”

“Let’s talk about the recent events first. During New Year’s Day, if it weren’t for your earthquake prediction device, three consecutive earthquakes would have directly or indirectly caused many injuries. Countless assets would’ve been lost!

“Let’s talk about the future. No one knows when a major earthquake will occur. The earthquake prediction device will play a role in saving countless people!”

Jiao Yang’s tone became extremely high.

It was as if he was singing praise to a great savior.

...

Savior?

Perhaps, the earthquake prediction device could really be called a savior at some point in time!

“Also, only our country has the technology to predict earthquakes. We can use it to raise our international status!” Jiao Yang said.

“Lin Fan, you’re Hua Nation’s hero!”

Jiao Yang’s tone became more enthusiastic when he said this.

If he was the one who invented the earthquake prediction device, Jiao Yang felt that his future would be bright.

Unfortunately, he was not.

Since that was the case, he had to befriend Lin Fan.

Jiao Yang had already prepared for this.

Lin Fan rubbed his nose and said, “Brother Jiao, did you call to praise me?”

“I called to congratulate you! Are you free later? I’m going to organize a celebration party for you with the leaders of Jiangbei! After all, you’re a student of Jiangbei University, and we’ve benefited from you again!” Jiao Yang laughed heartily.

“Later?” Lin Fan asked. “I’m afraid that won’t do. My good friend opened a shop, and I’m going over to support him.”

Jiao Yangyan was not disappointed.

On the contrary, his eyes lit up.

“Is that so? Anyway, it’s time to get off work. Let’s go and support your friend together,” Jiao Yang said.

In fact, when Jiao Yang saw Lin Fan sitting next to Qin Weiming, he wanted to befriend him.

Later on, during Lin Fan’s grandfather’s birthday celebration, Jiao Yang made a decision on this idea. Unfortunately, he never found a suitable opportunity.

Now that Lin Fan had invented the earthquake prediction device, Jiao Yang was even more eager to befriend Lin Fan. At the same time, he found another opportunity.

Jiao Yang waited until New Year’s Day ended before making a call.

“Alright,” Lin Fan said. “I’ll send you the address later.”

140 New Shop Opening; Congratulations!

After Lin Fan hung up the phone, he started to search for relevant news online.

It turned out that the Earthquake Center had already released the news of the earthquake prediction device, and People’s Daily had even praised him.

However, Lin Fan’s photo was not published online.

That was why Lin Xiaoyao called to ask.
