Lin Fan chatted with the interpreter for a while more before hanging up.

However, he did not leave. Instead, he sent a message to Qiu Ziqian.

After a while, Qiu Ziqian and Huang Ling came down from the 25th floor.

When they saw the pile of clothes and bags in the living room, their eyes lit up.

!!

“The limited edition steamer!”

“The limited edition LV Crafty that was released the day before yesterday!”

“LV Tribute!”

...

The two of them could not help but scream.

They used to be air stewardesses and knew all kinds of branded goods.

After resigning, they would also look for clothes and bags online when they had nothing to do.

Therefore, they recognized the brand and model of the clothes and bags at a glance.

Any one of them was expensive and limited edition.

In this room, they were randomly piled on the floor. The number of things here...There were probably hundreds or even thousands of them!

This... This was simply unimaginable!

Lin Fan looked at their shocked expressions and said casually, "These clothes and bags are all mine. You can use them as you wish."

"Heavens!"

When Lin Fan asked Qiu Ziqian and Huang Ling to come down...

They had already guessed this possibility.

However, after Lin Fan confirmed it, they could not help but be shocked.

"Darling, why did you suddenly buy so many LV limited edition clothes and bags?" Qiu Ziqian could not help but ask.

"Oh, I didn't buy them. The president of LV sent them over. Not only that, but he also said that every time LV releases a new product in the future, he'll send one over. Because I bought 5% of LV's shares," Lin Fan said.

Naturally, Lin Fan would not say that he had received 5% of LV's shares from the 1,300 red packets he had received two days ago.

The system and red packets... they were all his secrets.

"Heavens!"

Qiu Ziqian and Huang Ling cried out in shock again.

Every time LV released a new product, they would send one to Lin Fan... In other words, he would have an endless supply of LV products in the future?

Lin Fan actually bought 5% of LV's shares!

That was LV!

Its market value exceeded a trillion!

5% of the shares was more than 50 billion!

This... It was completely beyond their imagination!

However, what they did not know was that Lin Fan not only owned 5% of LV's shares, but he also owned 5% of Penguin's shares!

Otherwise, their expressions would definitely be even more interesting than now.

After a long time, Qiu Ziqian and Huang Ling finally calmed down. They picked out their favorite clothes and bags and returned to the 25th floor happily.

“Brother Lin Fan, the LV clothes and bags are all on the fifth floor. Could it be that... you bought the fifth floor too?”

Lin Fan shook his head. “Not just the fifth floor. I bought the entire building.”

“All of it?”

The two of them widened their eyes again and shouted in surprise.

Other people would have to worry about buying a house for a long time.

Lin Fan directly bought an entire building?

Lin Fan did not care about their shock. He casually threw out a bunch of spare keys and said, “If you feel that it’s too crowded to live together in the future, you can go anywhere you want.”

Instantly, Huang Ling and Qiu Ziqian looked at Lin Fan even more fervently.

In order to let them be relaxed and at ease, Lin Fan actually bought the entire building.

With a man like this, what could a woman ask for?

The next moment, the two of them pounced into Lin Fan’s embrace.

It was nighttime, and the third block was even more lively than usual.

On the distant horizon, a string of fireworks rose and blossomed into gorgeous flowers.

...

The next day.

Since it was Saturday, Lin Fan sat on the sofa after breakfast and casually scrolled through his phone.

At this moment, his phone vibrated slightly.

It was Chu Yunyue.

Chu Yunyue: [Our company is preparing to launch a new product. Do you have time to come over and take a look?]

...

Lin Fan replied without any hesitation.

Lin Fan said: [Okay, I'll come over later.]

Then, Lin Fan chatted with Qiu Ziqian and Huang Ling, who looked exhausted, before driving the Lamborghini toward Feiyang Building.

In the past, the advertisements at the entrance of Feiyang Building were for cars and electronic products.

Now, there was a large logo of Flower Stem, which was very eye-catching.

When Lin Fan took the elevator to the 17th floor, a familiar fragrance wafted over.

Last time, Flower Stem's company seemed a little empty.

At this moment, it was bustling with activity.

When the receptionist saw Lin Fan, she quickly stood up and said in a very respectful tone, "Hello, Mr. Lin."

Recently, Flower Stem had been doing well.

Even the bonuses and wages of all employees had increased substantially.

...

The receptionist knew very well that all of this was because of Lin Fan.

In addition, Lin Fan had a good relationship with the president, Chu Yunyue, and he owned 30% of the company's shares.

No matter how one looked at it, Lin Fan was worthy of respect.

Lin Fan nodded his head. "Hello."

"Mr. Lin, are you here to see the president? The president is in the office now."

"Alright," Lin Fan replied.

Then, he strode into the company.

After a dull knocking sound, a pleasant voice came from the president's office.

"Please come in."

At this moment, Chu Yunyue seemed to be reviewing some important documents. She was so focused that she did not raise her head immediately.

Lin Fan looked at her from afar.

He had not seen Chu Yunyue for some time since he last saw her at Hu Tian's house.

Today, Chu Yunyue was wearing a white-collar suit. She looked very capable, and her full figure was perfectly highlighted.

There was a hint of fatigue on her quiet face, but it was also filled with excitement.

Obviously, the company had been very busy during this period of time.

At the same time, she was very satisfied.

This made Lin Fan's heart ache, but at the same time, he felt happy for her.

Serious people were the most beautiful.

At this moment, Chu Yunyue exuded an unparalleled charm.

Chu Yunyue finally raised her head.

When she saw that it was Lin Fan, a smile that was hard to hide appeared on her face.

“Lin Fan, why didn’t you tell me you were coming? Sit down! I’ll pour you a cup of tea first.”

As Chu Yunyue spoke, she threw the documents aside and got up to make tea.

Although she was very dedicated to her work, it was obvious that Lin Fan was more important to her.

After a while, the office was filled with the fragrance of tea.

Lin Fan picked up the cup of tea and took a sip.

“How does it taste?” asked Chu Yunyue hurriedly.

“It’s sweet, elegant, and fragrant. It’s a very delicious tea,” Lin Fan said.

“I’m glad you like it,” Chu Yunyue said happily as if she had received the greatest praise.

“Oh right, what kind of perfume are you preparing to launch?”

Chu Yunyue's pretty face was filled with excitement when she mentioned the new product.

She held Lin Fan's hand and said, "Come here and look at the information."

Then, the two of them went to the computer and sat on the same soft executive chair, sticking close to each other.

Lin Fan felt a cold, jade-like sensation in his heart.

Chu Yunyue stretched out her slender fingers and quickly moved the mouse.

After a while, high-definition images appeared on the computer screen.

"The new product that Flower Stem is launching this time is not perfume but skincare!" Chu Yunyue introduced.

"This skincare product is made from pure natural herbal essences. The product has the fragrance of herbs. At the same time, it's moisturizing, softening, brightening, and so on..."

The more Chu Yunyue spoke, the more excited she became. Her beautiful eyes glowed faintly.

Lin Fan could not hear what she was saying clearly. He was just looking at her serious and excited expression and was a little lost in thought.

At this moment, Chu Yunyue suddenly turned to the side and exhaled a mouthful of fragrance. "Lin Fan, what do you think? "

Looking at Lin Fan's burning gaze, she thought of something and blushed.

Then, she leaned her head forward.

Her hand accidentally touched the mouse.

Immediately, the computer screen began to play Animal World.

"Spring is here. Everything is recovering. It's time for animals to reproduce..."

...

About two hours later, Lin Fan and Chu Yunyue walked out of the president's office.

At this moment, Chu Yunyue's pretty face was still blushing. Her snow-white skin was covered in sweat as if she had just done some intense exercise.

"Our skincare product will be scented. You're an expert in perfumes. You have to give more suggestions later," Chu Yunyue said.

Lin Fan nodded. "No problem."

The two of them chatted as they walked. After a while, they arrived at the research and development center.

The last time Lin Fan came, the research and development center only had some simple chemical equipment.

At this moment, there were many pieces of large-scale equipment.

The researchers were carefully adjusting the equipment and analyzing the data.

"Everyone, stop what you're doing," Chu Yunyue said. "Let's complete the steps for our latest skincare product from start to finish."

She remembered very clearly that Lin Fan had discovered the shortcomings of the perfume during the production process.

Therefore, Chu Yunyue had to show Lin Fan the complete steps.

"Alright," all the researchers responded in unison.

They divided their work in an orderly manner.

First, they took out the different plant essences that had been placed in the vials and separated them into different colors.

After that, the effective components were extracted by heating and evaporating.

Then, they mixed various medicinal liquids according to different proportions.

About an hour later, a bottle of water-like essence appeared in front of Lin Fan.

At the same time, a crisp notification rang out in Lin Fan's mind.

[Ding! You've completed the hidden mission: watch the complete steps to the skincare product's production. You've obtained the right to purchase Beauty Water.]

[Beauty Water: it can brighten skin, remove freckles... It has the special effect of revitalizing the skin. Cost: 10,000 yuan. [Note: If you spend money to buy Beauty Water, you won't receive a red packet.]

Chu Yunyue saw that Lin Fan did not go to get the skincare product. Instead, he just stood there in a daze.

"Lin Fan, what's wrong?" she asked.

"Oh... It's nothing." Lin Fan finally reacted and said, "Don't release this skincare product for now. I'll show you something later."

After saying that, Lin Fan strode out of Feiyang Building.

He bought a two-liter bottle of mineral water from a nearby supermarket and gave the water to the supermarket owner. He left only with the empty bottle.

Then, he went to the car and spent 20,000 yuan to buy two liters of Beauty Water before returning to Flower Stem.

Chu Yunyue saw Lin Fan return with a large bottle of mineral water in his hand. She could not help but ask, "Lin Fan, you..."

Lin Fan said, "This is a skincare product that I got someone to develop. Try it and see how it works."

This was a skincare product?

Chu Yunyue was stunned.

She had seen many skincare products packaged in gorgeous metal containers, and she had also seen skincare products in exquisite porcelain bottles...

However, this was the first time she had seen someone put a skincare product in a mineral water bottle.

If it was someone else who said that their mineral water bottle was filled with a skincare product, Chu Yunyue would probably ignore them.

However, if it was Lin Fan... Chu Yunyue carefully poured a few drops into her palm. Then, she looked in the mirror and gently patted her pretty face.

Instantly, she felt a refreshing feeling on her face.

The next moment, Chu Yunyue's beautiful eyes widened as she cried out in surprise, "How is this possible?"

Ever since the rainbow perfumes were launched, Flower Stem became famous in Hua Nation.

Many channels and sellers came to seek cooperation.

Due to this, Chu Yunyue was extremely busy and often stayed up late.

After a few days, Chu Yunyue's skin became rough and dark. She even had two pimples.

When Chu Yunyue used the Beauty Water that Lin Fan had brought, her skin seemed to have been injected with vitality. It became fair and smooth again, and even the spots disappeared completely.

She became even more perfect than before her skin deteriorated!

Her skin was as translucent as jade! This was the best way to describe Chu Yunyue!

The reason why Chu Yunyue chose to enter the cosmetics industry was not that she was vain.

It was because she had been researching all kinds of cosmetics both domestically and abroad for a long time.

She knew that Estee Lauder had the ability to resist aging and repair, that Lebernie had the ability to activate skin metabolism and prevent aging, and that CBG could make skin glow...

However, only after using these skincare products for a long time could they achieve a little corresponding effect.

What was the situation now?

She had only applied a little bit of skincare product, but in a few minutes, there had been an earth-shattering change!

This...

How was this a skincare product?

It was simply the water of the immortal gods!

After a while, Chu Yunyue came back to her senses and said, "Lin Fan, this essence..."

Lin Fan said, "If you think it's okay, I'll get someone to send a large batch over regularly. Then, Flower Stem will sell it."

Could she?

This was simply too good!

Chu Yunyue's breathing quickened.

She could almost imagine how popular this essence would be once it was released!

Soon, however, she hesitated and said, "This is the product you developed. If you let me sell it directly, will it..."

Lin Fan touched Chu Yunyue's tender face and smiled. "Why do we have to draw such clear lines? Besides, don't I still have 30% of the company's shares?"

When Chu Yunyue heard this, she threw herself into Lin Fan's arms and said gently, "Lin Fan, thank you. "

Lin Fan and Chu Yunyue spent some time together before they went to the private kitchen.

Perhaps it was because New Year's Day had just passed, a few red lanterns appeared in the restaurant.

In addition to the small bridge and flowing water, the green tiles and red bricks made the entire place's antique atmosphere even more intense.

The two of them ordered food and chatted with each other for a while.

At this moment, Lin Fan's phone vibrated.

12:00!

The red packets were here!

[Ding! Congratulations, you've received two yuan.]

[Ding! Congratulations, you've received 10,00 yuan.]

...

[Ding! Congratulations, you've obtained Flying Dragon Security Company.]

[Ding! Congratulations, you've received 19,999 yuan.]

...

After Lin Fan received the red packets, a series of unique delicacies were served.

Both of them were very satisfied with the meal.

Then, Chu Yunyue returned to the company to continue handling matters.

Lin Fan headed toward the Coiling Dragon Villa Complex.

Lin Fan had just walked into the villa when the phone in his pocket rang.

"Is this Mr. Lin?" An unfamiliar voice sounded on the phone.

"It's me," Lin Fan said.

"Hello, Mr. Lin. I'm the general manager of Flying Dragon Security Company, Wang Shengli. You're welcome to come to Flying Dragon Security Company anytime to make your arrangements..." Wang Shengli said respectfully.

Flying Dragon Security Company?

Was this not the company that he had just received from the red packet?

Arrange work?

Lin Fan's eyes moved. "Does Flying Dragon Security Company have trucks?"

"Yes! We have many different types of trucks!" Wang Shengli said.

"Alright then. Get someone to drive two trucks to the Coiling Dragon Villa Complex in Jiangbei City. Do you know where it is?"

"I know, I know! Don't worry, Mr. Lin. We'll rush to Coiling Dragon Villa Complex in the shortest time possible!" Wang Shengli's voice was sonorous and powerful.

After Lin Fan hung up, he bought a large number of plastic buckets.

Then, he spent 50 million yuan to buy 5,000 liters of Beauty Water from the system and put them all into the plastic buckets.

Lin Fan waited for a while before two trucks drove over from afar.

A square-faced man got out of the front passenger seat of one of the trucks and quickly walked in front of Lin Fan. He said respectfully, "Hello, Mr. Lin! I'm Wang Shengli, who just spoke to you on the phone."

"Hello, CEO Wang," Lin Fan said.

"Oh, you can't do that!" Wang Shengli quickly said. "Mr. Lin, you can just call me Lil Wang."

Wang Shengli was probably over 40 years old.

Lil Wang?

Lin Fan really could not bring himself to call him that.

"I'll call you Brother Wang," Lin Fan said.

"Don't, don't. This is even more unacceptable." Wang Shengli shook his head repeatedly with a look of fear and trepidation.

In the end, Lin Fan chose to call him by his name. Only then did Wang Shengli accept it.

"Wang Shengli, send these buckets to Flower Stem in Feiyang Building. Do you know the location?" Lin Fan said.

"Mr. Lin, don't worry. There's no place in Jiangbei that we're not familiar with! I promise to complete the mission!" Wang Shengli patted his chest and said.

With the help of several security staff members, the 5,000 liters of Beauty Water were quickly loaded into the trucks before the trucks drove out.

At this moment, Lin Fan's phone vibrated.

It was a message from his girlfriend, Qin Yuxuan.

Lin Fan contacted Qin Yuxuan on WeChat almost every night.

However, she rarely took the initiative to send messages during the day.

Qin Yuxuan said: [Lin Fan, I want to discuss something with you.]

Lin Fan said: [Sure, I have nothing to do today. I'll come to Modu to discuss it with you later. We haven't seen each other for a while.]

Qin Yuxuan: [You're coming over? That's great!]

Obviously... Qin Yuxuan was very happy.

Lin Fan was a person who would do whatever he said. He immediately bought a first-class ticket.

Then, he drove the Lamborghini toward the airport.

When he arrived at the airport, Lin Fan's phone rang.

"Heavens! Lin Fan, you actually sent over so much essence!" Chu Yunyue's excited voice rang out as soon as the call connected.

Lin Fan said, "Is it enough?"

"It's enough!" Chu Yunyue shouted immediately. "It's too much! Do you know? We just analyzed the essence and found that its vitality and effects are more than a thousand times that of all the beauty products in the world!"

"More than a thousand times! Did you know this? Oh my God! I almost couldn't believe my eyes!"

"In other words, even if this essence is diluted 100 times, the effect of it is still far beyond the beauty products on the market!

"Our essence will definitely become a hit!"

Chu Yunyue's tone became extremely high-spirited as she reached the end of her sentence. She wished she could shout out in excitement.

Lin Fan said, "That's good. Let me know when the essence is almost used up. I'll get someone to send it to you again."

The two of them chatted for a while more before hanging up.

Then, Lin Fan checked his ticket and boarded the plane through the VIP channel.

It was only an hour's flight from Jiangbei to Modu.

Lin Fan lay down on the spacious seat in the first-class cabin and had a relaxing sleep. Then, he arrived at his destination.

After leaving the airport, he called a taxi.

When Lin Fan arrived at Modu University, it was only four in the afternoon.

The brilliant sun was still hanging high in the sky, showing no signs of setting.

Lin Fan took out his phone and sent a message to Qin Yuxuan.

However, Qin Yuxuan was probably busy and did not pay attention to her phone.

Therefore, she did not reply immediately.

Lin Fan did not care too much.

The last time he came to Modu University was to celebrate Qin Yuxuan's birthday, but he did not visit the university.

He had a chance today.

Most of the buildings in Jiangbei University were tall, modern, and full of modern style.

Modu University, on the other hand, had traces of time, giving people a sense of humanity and history.

Lin Fan looked around as he walked. Unknowingly, he had arrived at the teaching building. Many students rushed toward the classroom in front of him.

Seeing this...

Lin Fan could not help but think of Hu Tian's class.

Could it be that the teacher who was about to teach in this classroom at Modu University was also a beauty like Hu Tian?

However, was it not the weekend today?

Why would there be classes?

Lin Fan followed them into the classroom curiously and sat in one of the few remaining seats in the corner.

Ding!

After the bell rang, the entire classroom immediately fell silent.

Under the anticipation of Lin Fan and many other students, a short-haired female professor in her 40s walked in slowly with a textbook.

Lin Fan could not help but reveal a puzzled look.

Why was she not a beautiful teacher?

Why was everyone so enthusiastic, then?

However, since he was here, he should take it as it was.

Moreover, Lin Fan did not know where else to go.

Therefore, he sat in the classroom calmly.

The female professor did not notice Lin Fan and started her lesson.

It turned out that this female professor was an economics teacher.

Her voice was crisp and very pleasant. She did not sound like someone in her 40s at all.

The female professor liked to combine facts in her lectures and was full of logic. She was quite attractive.

Lin Fan was barely listening.

However, Lin Fan frowned.

At this moment, the female professor was using an algorithm to explain the changes in the economy.

Lin Fan did not know much about economics.

However, he was definitely an expert in mathematical operations.

He could easily tell that the female professor's calculation was wrong.

Lin Fan listened to the explanation of the wrong formula. It was like he had eaten something wrong and needed to spit it out.

Finally, Lin Fan could not help but stand up and say, "Teacher, your calculations are wrong."

As soon as he said this, the entire classroom suddenly fell silent.

Everyone turned to look at Lin Fan.

One had to know that the person standing on the podium was a famous economics professor at Modu University.

In fact, she even had a place in the entire Hua Nation.

Would he use the wrong algorithm?

What kind of joke was this?

The female professor was not angry. She asked, "Which of the formulas do you think is wrong?"

"All of them," Lin Fan said.

This time, the female professor could no longer remain calm.

After a while, she said in a somewhat funny tone, "Then tell me, how should I calculate it?"

Since he had chosen to stand out and point it out, Lin Fan would not back down.

He walked straight to the podium, picked up a chalk, and quickly wrote the calculations according to the data given by the female professor.

$Ed = dQ/dp * p/Q = GB/CG * CG/OG \dots$

Immediately, the entire classroom was filled with a series of rapid knocking sounds, like an intense drum beating. It struck straight at people's hearts.

In the beginning, the female professor was still relaxed and indifferent.

It was because she was very confident in the calculations she wrote.

However, the female professor did not want to kill the student's spirit of exploration, so she allowed Lin Fan to write the new formula on the blackboard.

However...

As time passed, the female professor's calm face gradually revealed a strange expression.

Then, she became serious.

In the end, her face showed excitement.

Lin Fan wrote down a lot of calculations.

After a while, the remaining blank spaces on the blackboard were all used up.

The female professor did not hesitate at all. Like the most hardworking assistant, she quickly wiped all the calculations she had written.

Hence, Lin Fan continued to calculate.

$TC = TFC + TVC$

$FVC = TVC(Q)$

....

Gradually, the entire blackboard was almost filled in by Lin Fan.

However, he still had no intention of stopping.

Stop?

No!

Not only did he not stop, but Lin Fan's writing speed increased.

Moreover, the calculations written were no longer just what the female professor had written on the blackboard.

Instead, he carried out more and more complicated expansion, analysis, and induction...

There might even be a conclusion!

Seeing this...

The female professor's heart was beating faster.

She said to the students sitting in the first row, "Go to the office and move a few more... No! Bring over ten small blackboards! Hurry up!"

The female professor's tone was filled with urgency.

She understood that many people relied on inspiration when they calculated.

If he kept this up, then the calculation would most likely succeed.

However, if it was broken.

Then, perhaps... it would be very difficult for him to succeed.

If Lin Fan were to succeed... that would definitely cause a sensation in the entire economics world!

Just thinking about it made the female professor's heart beat faster.

The students sitting in the first row could not understand what Lin Fan was writing.

However, they could hear the urgency and sternness in the female professor's tone.

Therefore, they did not dare to hesitate at all and quickly ran toward the office.

After a while, ten small blackboards were brought over.

At this moment, Lin Fan was fully immersed in his calculations.

After taking the small blackboards, he did not stop and continued to write.

[Ding! Absolute Focus, triggered a flash of inspiration!]

Lin Fan's writing speed was getting faster and faster.

Just as all the calculations were about to be summarized and deduced into a complicated formula...

At this moment, the phone in Lin Fan's pocket rang.

Lin Fan could not help but put down the chalk in his hand and answer the call.

"Alright, I'll be right there."

After Lin Fan hung up, he turned around and walked out of the classroom.

"Where are you going?" The female professor asked anxiously.

Just as he was about to successfully derive the formula, the person deriving it stopped.

It was as if there were many ants crawling on her heart. It was extremely uncomfortable.

"Oh, my girlfriend is waiting for me... I'm going to look for her." Lin Fan said, "Oh right, I'm not your student."

The female professor did not care about what Lin Fan said. She hurriedly said, "Student, do you know what you were writing just now?"

"If you continue to derive it and verify it correctly, it can become an economics theorem! You might even win the Nobel Prize in Economics!"

When the female professor said this, her voice could not help but become much higher.

Excitement, excitement!

The Nobel Prize was definitely the most coveted honor for all education and scientific researchers.

Now, it was actually possible for it to appear in front of her!

Lin Fan said, "I know, right?"

After saying that, he continued to walk out of the classroom.

Facing the possibility of winning the Nobel Prize...

He... left?

The female professor did not expect such a thing to happen.

She was stunned for a moment.

Then, she hurriedly chased after him and shouted, "Hey, student!"

However...

At this moment, Lin Fan had already walked far away.

Nobel Prize?

For many people, this was indeed very attractive.

It was because this represented honor, fame, and money!

However, Lin Fan was not interested in glory.

As for fame?

That was something he did not want.

Once he became famous, his normal life would be completely affected.

As for money?

Lin Fan did not lack it.

Therefore, this was not attractive to Lin Fan at all.

Relatively speaking, it was more important to meet Qin Yuxuan as soon as possible.

At this moment, Qin Yuxuan was waiting at the school gate.

Qin Yuxuan was wearing a white lace dress today. She had a perfect figure and snow-white skin... Under the rays of the setting sun, her entire body was dazzling, like a fairy who had descended to the mortal world. She was extremely beautiful.

Anyone who passed by, regardless of gender...could not help but look sideways.

Women were jealous.

Men, on the other hand, yearned for her.

When Lin Fan walked over from afar, Qin Yuxuan's pretty face was as radiant as a spring breeze.

Then, Qin Yuxuan threw herself into Lin Fan's embrace.

This pounce was like a heavy hammer, hitting the chests of the boys passing by.

The sound of their hearts shattering echoed in their minds.

A day apart felt like three years!

Lin Fan and Qin Yuxuan had not seen each other for a month or two. This made them feel like lovers who had finally met after not seeing each other for many years.

The two of them hugged for a long time, but they did not want to separate.

At this moment, Qin Yuxuan's stomach suddenly let out a low growl.

Her face could not help but blush. Under the setting sun, her skin was like a translucent jade, very beautiful.

Lin Fan smiled. "Are you hungry? Let's go eat something first."

Qin Yuxuan nodded.

JE Restaurant was located on the beach of Modu. It was one of the most luxurious Western restaurants in Modu.

The environment was elegant and quiet.

The decoration was luxurious and heavy.

Sitting in the restaurant, one could take in the scenery of the beach.

While tasting the delicacies, they admired the scenery... Coupled with the elegant and luxurious environment, it gave people the ultimate enjoyment.

Lin Fan and Qin Yuxuan looked at each other and smiled sweetly.

As the soft music played in JE Restaurant, the best pan-fried foie gras, top-grade snails, black truffle, and high-grade black caviar... Many delicacies were served.

Lin Fan poured the 1982 Lafite into a wine glass. Then, he raised his glass with Qin Yuxuan and clinked it lightly.

Good wine entered his throat, accompanied by delicious food and his lover.

Everything... was so beautiful.

...

Shangri-La Hotel, presidential suite.

Perhaps it was because she had drunk, Qin Yuxuan kept her head down, her pretty face flushing red.

Lin Fan looked at her bashful face. She was just like a cute little rabbit, and his heart was filled with love.

"Are you sleepy? Let's go take a shower."

Immediately, the sound of water continued throughout the night.

...

The next day.

The sun was high in the sky, and a huge plane flew across the sky.

Qin Yuxuan slowly opened her eyes.

Lin Fan caressed her soft hair and said, "You're awake? You worked hard yesterday. Eat something to replenish your strength."

When Qin Yuxuan heard this, a blush appeared on her snow-white face. It was as if the Lafite from last night had made her a little dizzy again.

After washing up, Qin Yuxuan ate a big bowl of seafood noodles and drank a cup of soy milk. Her pretty face revealed a satisfied expression.

After dinner, she habitually took out her phone and scrolled through the messages.

Qin Yuxuan suddenly realized that her mentor had sent a lot of messages to the group yesterday.

Kong Ling: [Students, do you know? Just a moment ago, our economics almost produced a theorem formula in our school! You should understand what this means.

[This means that our school is very likely to produce a Nobel Prize in Economics!

[I've never seen such a talented boy in mathematics!

[But that guy gave up because of his girlfriend's phone call!

[Really... I'm so angry! No wonder so many people said that women can bring disaster to a country and its people! This is a living example! Students, be vigilant!]

...

When Qin Yuxuan saw this, she said in surprise, "Because of his girlfriend's phone call, he gave up on deducing the economic theorem formula? How could he do this?!"

When Lin Fan heard this, he suddenly felt that this sentence sounded a little familiar.

He could not help but stretch his neck and look at Qin Yuxuan's phone screen.

"His girlfriend is really a disaster!" Qin Yuxuan continued.

Qin Yuxuan was a graduate student in economics and Kong Ling's student. She was greatly influenced by Kong Ling.

She was very clear about the meaning of solving an economic theorem formula.

If one had a theorem formula, many problems would be easily solved.

Besides, the Nobel Prize represented supreme honor!

"Cough, cough, cough!"

Lin Fan started coughing.

Disrupting the country and its people?

Lin Fan wondered if he should tell Qin Yuxuan that this woman who could bring disaster to the country was herself.

He did not know... what expression she would have.

Qin Yuxuan patted Lin Fan's back gently and said, "Lin Fan, are you alright?"

"No... I'm fine," Lin Fan waved his hand and said.

"Oh right, what did you say you wanted to discuss with me yesterday?"

At the mention of this matter, Qin Yuxuan could not help but sit up straight and say, "Originally, I wanted to return to Jiangbei after graduation.

"In that case, I can always be with you.

"However, a few days ago, my two seniors invited me to start an investment company in Modu...My mentor is also more supportive of this matter.

"So, I wanted to ask for your opinion."

Qin Yuxuan was not just a pretty face. She had many ambitions.

It could be seen from her continuous learning until she pursued a master's degree in economics.

"Jiangbei isn't far from Modu. If I want to see you, I can come over anytime, just like yesterday.

"Just do what you want to do."

Qin Yuxuan threw herself into Lin Fan's arms and said, "Lin Fan, thank you."

"Silly girl, supporting your career is what I should do." Lin Fan smiled and said, "Oh right, where are you guys planning to set up your company?"

"My two seniors have arranged to go around and inspect the sites before they can confirm it," said Qin Yuxuan.

Lin Fan nodded and said, "Alright, I'll accompany you."

"Okay!" Qin Yuxuan said happily.

Then, Lin Fan and Qin Yuxuan arrived at a Starbucks.

People often said that birds of a feather flock together, and this was very reasonable.

At this moment, two women in white shirts with beautiful facial features and voluptuous figures were holding coffee and flipping through information.

They... They were Qin Yuxuan's two seniors.

Although there was still a gap between their figures and appearances compared to Qin Yuxuan, their looks could definitely get more than 85 points... They might not be considered great beauties, but they were still very rare.

"Yuxuan, you're here?"

"Have you had breakfast?"

The three of them greeted each other.

Qin Yuxuan said, "I've already had breakfast... This is my boyfriend, Lin Fan."

Then, from left to right, she introduced, "This is Senior Lu and Senior Fan."

Lin Fan said, "Hello."

Senior Lu teased, "Lin Fan, you're pretty capable. You actually managed to woo such an outstanding girl like Yuxuan. "

"This is mainly due to my handsome face," Lin Fan said.

"Pfft!" Senior Lu almost burst out laughing. "He's handsome, but he's also very thick-skinned."

Senior Fan did not interrupt.

She flipped through the documents in her hands for a while and said, "Let's go. Let's hurry up and look at the office buildings nearby. Then, we'll discuss where to rent."

Senior Lu and Qin Yuxuan nodded as well. After all, this was the reason why they came out today.

The group of four went through every corner of Modu and inspected more than ten office buildings.

Every time they came out of an office building, they would take notes and write down their comments.

After all, this concerned their future career development, so they were very cautious.

Of course, only Lin Fan was relaxed.

He just treated it as accompanying Qin Yuxuan to go shopping.

When they came out of an office building again, they went to the beverage shop next door and sat down.

Senior Fan took out a stack of documents, wrote a few words, and analyzed, "The location of Defense Office Building and Xinmei Building is not very good. Let's put them aside for now.

"The location of Tianpu Building is not bad. However, there's no common area, so we won't be able to use it...

"Triumph Building is a little old...

"The Magnificent Hotel is also relatively old..."

...

Senior Lu, who was at the side, looked at the office buildings that were constantly being passed. She let out a long sigh and said, "If we have money, it would be best to open an investment company in the Global Financial Building!

"The location and environment are all first-class! At the same time, we can also display our strength! In the future, we'll definitely get twice the result with half the effort!"

When Senior Lu mentioned the Global Financial Building, her eyes seemed to sparkle, and her tone became high-spirited.

"Oh?" Lin Fan asked. "Then go straight for the Global Financial Building."

Senior Fan pushed up her glasses and said, "Don't even think about the Global Financial Building. The price is several times that of other places. The annual rent for a small office might cost millions."

Lin Fan said, "Let's go take a look first."

As soon as he finished speaking, he held Qin Yuxuan's hand and was about to walk out.

Senior Lu and Senior Fan thought that Lin Fan wanted to go for a walk, so they did not object and followed him.

After all, the Global Financial Building was a good attraction for outsiders in Modu.

After Lin Fan walked into the Global Financial Building, he went straight to the marketing center.

After he briefly explained the situation, the salesperson brought everyone to the 78th floor.

This was a large office of 500 square meters. Through the translucent floor-to-ceiling windows, one could see the Pujiang River that was as bright as the Milky Way under the sunlight. There were also skyscrapers that rose and fell, and people the size of ants...

It could be said that the beautiful scenery of the entire Modu was captured in their eyes.

In this place, if one was tired from work or encountered something that did not go their way, all of one's fatigue and worries would probably disappear if one looked into the distance, right?

This was a form of enjoyment!

It was an ultimate enjoyment that made one feel relaxed and at ease!

Senior Lu, Senior Fan, and Qin Yuxuan's eyes were lit up by the distant sunlight, and their faces were filled with yearning.

Seeing this...

"We'll buy this office," Lin Fan said to the salesperson beside him.

"Huh?" The salesperson was stunned.

Senior Lu and Senior Fan did not quite understand.

Qin Yuxuan wanted to stop Lin Fan.

Seeing that the salesperson did not reply, Lin Fan could not help but ask again, "Why? Can't I buy it?"

"O-Of course, you can..." After hearing Lin Fan's affirmation, the salesperson finally reacted.

Then, he carefully sized up Lin Fan from top to bottom.

He was not being snobbish.

It was because the price of an office in the Global Financial Building was too expensive.

To be able to rent an office here was already considered very powerful.

As for buying?

That would be too difficult.

"The average price of this office is 185,000 yuan per square meter. It's 500 square meters in total. The total price is... 92.5 million yuan."

Lin Fan took out his bank card and said, "Alright, swipe my card."

"Uhh... Sir, please come with me to the marketing center downstairs. We'll draw up a contract for you, and then... Then, we'll determine the exact price."

The salesperson stuttered for a while before slowly explaining the steps of purchasing.

He had not prepared the contract beforehand.

He had not even prepared a rental contract, let alone a purchase contract.

This was because too many people came to see their offices every day.

However, there were very few people who actually rented one.

The rent of the offices in the Global Financial Building was too expensive.

To buy an office directly?

That was a small probability that would only happen a few times a year.

Soon, everyone returned to the marketing center.

The contract was quickly printed out.

Lin Fan flipped through the contract page by page.

In just ten seconds, he signed his name at the bottom right corner of the contract.

This made the salesperson stunned again.

Was he not afraid that there would be problems with the contract?

This was a deal that involved nearly a hundred million yuan!

However, he did not know that Lin Fan had the scanning ability. He could read all the contents of the page in one glance.

He could even recite it word for word.

Beep!

Lin Fan swiped his bank card on the machine.

The bill slowly appeared. The transaction was successful!

Senior Lu and Senior Fan looked at the contract in Lin Fan's hands and were stunned.

What was going on?

Where were they?

What were they doing?

From the moment Lin Fan walked into the Global Financial Center to the moment he signed the contract and made the payment...

How long did it take?

Including the time they took the elevator, it probably did not even take more than 10 minutes, right?

He bought an office worth nearly 100 million yuan within ten minutes?

Senior Fan and Senior Lu felt that everything was so surreal as if they were in a dream.

However, Lin Fan did not care too much about it.

[Ding! Do you want to use the 10x spending return card?]

"Yes!"

Not long after, Lin Fan's phone vibrated.

[Notice from Merchant Bank: 925 million yuan was deposited into your account.]

He spent 92.5 million to buy an office.

Then, he earned 925 million yuan?

At this point, Lin Fan's cash reserves had reached 1.28 billion yuan!

Even Lin Fan, who obtained so much cash in one go, could not help but smile.

At this moment, Lin Fan's mind rang out with a crisp notification.

[Ding! Hidden mission completed: own more than one billion in funds. Reward: ten silver packets.]

[Ding! System upgrade: LV6!]

[Level 6 reward: 50 yuan for every breath; 50 yuan for every second of sleep, and 50 yuan for every step taken. Rewards are distributed at 12 a.m. daily.]

At Level 5, he could earn a minimum of 1.4 million yuan per day.

Now, the total money he could earn from this method had increased by 2.5 times!

In other words, he could earn 3.5 million yuan every day!

[Upgrade cost: 52.8 million/100 million (not including gifts and gambling. In addition, all items obtained from the system are prohibited from being traded.)]

[Ding! The check-in system has been activated. Note: You can sign in once a day. You'll receive different rewards.]

As Lin Fan listened to the notifications in his mind, the smile on his face grew wider.

Spending 92.5 million to buy an office was worth it!

## RICHEST MAN: GETTING 7 BILLION RED POCKETS TO START WITH

Chapter 154 Nobel Prize? My Girlfriend Is More Important!

It turned out that this female professor was an economics teacher.

Her voice was crisp and very pleasant. She did not sound like someone in her 40s at all.

The female professor liked to combine facts in her lectures and was full of logic. She was quite attractive.

Lin Fan was barely listening.

However, Lin Fan frowned.

At this moment, the female professor was using an algorithm to explain the changes in the economy.

Lin Fan did not know much about economics.

However, he was definitely an expert in mathematical operations.

He could easily tell that the female professor's calculation was wrong.

Lin Fan listened to the explanation of the wrong formula. It was like he had eaten something wrong and needed to spit it out.

Finally, Lin Fan could not help but stand up and say, "Teacher, your calculations are wrong."

As soon as he said this, the entire classroom suddenly fell silent.

Everyone turned to look at Lin Fan.

One had to know that the person standing on the podium was a famous economics professor at Modu University.

In fact, she even had a place in the entire Hua Nation.

Would he use the wrong algorithm?

What kind of joke was this?

The female professor was not angry. She asked, "Which of the formulas do you think is wrong?"

"All of them," Lin Fan said.

This time, the female professor could no longer remain calm.

After a while, she said in a somewhat funny tone, "Then tell me, how should I calculate it?"

Since he had chosen to stand out and point it out, Lin Fan would not back down.

He walked straight to the podium, picked up a chalk, and quickly wrote the calculations according to the data given by the female professor.

$Ed = dQ/dp * p/Q = GB/CG * CG/OG \dots$

Immediately, the entire classroom was filled with a series of rapid knocking sounds, like an intense drum beating. It struck straight at people's hearts.

In the beginning, the female professor was still relaxed and indifferent.

It was because she was very confident in the calculations she wrote.

However, the female professor did not want to kill the student's spirit of exploration, so she allowed Lin Fan to write the new formula on the blackboard.

However...

As time passed, the female professor's calm face gradually revealed a strange expression.

Then, she became serious.

In the end, her face showed excitement.

Lin Fan wrote down a lot of calculations.

After a while, the remaining blank spaces on the blackboard were all used up.

The female professor did not hesitate at all. Like the most hardworking assistant, she quickly wiped all the calculations she had written.

Hence, Lin Fan continued to calculate.

$TC = TFC + TVC$

$FVC = TVC(Q)$

....

Gradually, the entire blackboard was almost filled in by Lin Fan.

However, he still had no intention of stopping.

Stop?

No!

Not only did he not stop, but Lin Fan's writing speed increased.

Moreover, the calculations written were no longer just what the female professor had written on the blackboard.

Instead, he carried out more and more complicated expansion, analysis, and induction...

There might even be a conclusion!

Seeing this...

The female professor's heart was beating faster.

She said to the students sitting in the first row, "Go to the office and move a few more... No! Bring over ten small blackboards! Hurry up!"

The female professor's tone was filled with urgency.

She understood that many people relied on inspiration when they calculated.

If he kept this up, then the calculation would most likely succeed.

However, if it was broken.

Then, perhaps... it would be very difficult for him to succeed.

If Lin Fan were to succeed... that would definitely cause a sensation in the entire economics world!

Just thinking about it made the female professor's heart beat faster.

The students sitting in the first row could not understand what Lin Fan was writing.

However, they could hear the urgency and sternness in the female professor's tone.

Therefore, they did not dare to hesitate at all and quickly ran toward the office.

After a while, ten small blackboards were brought over.

At this moment, Lin Fan was fully immersed in his calculations.

After taking the small blackboards, he did not stop and continued to write.

[Ding! Absolute Focus, triggered a flash of inspiration!]

Lin Fan's writing speed was getting faster and faster.

Just as all the calculations were about to be summarized and deduced into a complicated formula...

At this moment, the phone in Lin Fan's pocket rang.

Lin Fan could not help but put down the chalk in his hand and answer the call.

"Alright, I'll be right there."

After Lin Fan hung up, he turned around and walked out of the classroom.

"Where are you going?" The female professor asked anxiously.

Just as he was about to successfully derive the formula, the person deriving it stopped.

It was as if there were many ants crawling on her heart. It was extremely uncomfortable.

"Oh, my girlfriend is waiting for me... I'm going to look for her." Lin Fan said, "Oh right, I'm not your student."

The female professor did not care about what Lin Fan said. She hurriedly said, "Student, do you know what you were writing just now?"

"If you continue to derive it and verify it correctly, it can become an economics theorem! You might even win the Nobel Prize in Economics!"

When the female professor said this, her voice could not help but become much higher.

Excitement, excitement!

The Nobel Prize was definitely the most coveted honor for all education and scientific researchers.

Now, it was actually possible for it to appear in front of her!

Lin Fan said, "I know, right?"

After saying that, he continued to walk out of the classroom.

Facing the possibility of winning the Nobel Prize...

He... left?

The female professor did not expect such a thing to happen.

She was stunned for a moment.

Then, she hurriedly chased after him and shouted, "Hey, student!"

However...

At this moment, Lin Fan had already walked far away.

Nobel Prize?

For many people, this was indeed very attractive.

It was because this represented honor, fame, and money!

However, Lin Fan was not interested in glory.

As for fame?

That was something he did not want.

Once he became famous, his normal life would be completely affected.

As for money?

Lin Fan did not lack it.

Therefore, this was not attractive to Lin Fan at all.

Relatively speaking, it was more important to meet Qin Yuxuan as soon as possible.

At this moment, Qin Yuxuan was waiting at the school gate.

Qin Yuxuan was wearing a white lace dress today. She had a perfect figure and snow-white skin... Under the rays of the setting sun, her entire body was dazzling, like a fairy who had descended to the mortal world. She was extremely beautiful.

Anyone who passed by, regardless of gender...could not help but look sideways.

Women were jealous.

Men, on the other hand, yearned for her.

When Lin Fan walked over from afar, Qin Yuxuan's pretty face was as radiant as a spring breeze.

Then, Qin Yuxuan threw herself into Lin Fan's embrace.

This pounce was like a heavy hammer, hitting the chests of the boys passing by.

The sound of their hearts shattering echoed in their minds.

Chapter 155 Disrupting The Country And Its People; Renting An Office Building!

A day apart felt like three years!

Lin Fan and Qin Yuxuan had not seen each other for a month or two. This made them feel like lovers who had finally met after not seeing each other for many years.

The two of them hugged for a long time, but they did not want to separate.

At this moment, Qin Yuxuan's stomach suddenly let out a low growl.

Her face could not help but blush. Under the setting sun, her skin was like a translucent jade, very beautiful.

Lin Fan smiled. "Are you hungry? Let's go eat something first."

Qin Yuxuan nodded.

JE Restaurant was located on the beach of Modu. It was one of the most luxurious Western restaurants in Modu.

The environment was elegant and quiet.

The decoration was luxurious and heavy.

Sitting in the restaurant, one could take in the scenery of the beach.

While tasting the delicacies, they admired the scenery... Coupled with the elegant and luxurious environment, it gave people the ultimate enjoyment.

Lin Fan and Qin Yuxuan looked at each other and smiled sweetly.

As the soft music played in JE Restaurant, the best pan-fried foie gras, top-grade snails, black truffle, and high-grade black caviar... Many delicacies were served.

Lin Fan poured the 1982 Lafite into a wine glass. Then, he raised his glass with Qin Yuxuan and clinked it lightly.

Good wine entered his throat, accompanied by delicious food and his lover.

Everything... was so beautiful.

...

Shangri-La Hotel, presidential suite.

Perhaps it was because she had drunk, Qin Yuxuan kept her head down, her pretty face flushing red.

Lin Fan looked at her bashful face. She was just like a cute little rabbit, and his heart was filled with love.

"Are you sleepy? Let's go take a shower."

Immediately, the sound of water continued throughout the night.

...

The next day.

The sun was high in the sky, and a huge plane flew across the sky.

Qin Yuxuan slowly opened her eyes.

Lin Fan caressed her soft hair and said, "You're awake? You worked hard yesterday. Eat something to replenish your strength."

When Qin Yuxuan heard this, a blush appeared on her snow-white face. It was as if the Lafite from last night had made her a little dizzy again.

After washing up, Qin Yuxuan ate a big bowl of seafood noodles and drank a cup of soy milk. Her pretty face revealed a satisfied expression.

After dinner, she habitually took out her phone and scrolled through the messages.

Qin Yuxuan suddenly realized that her mentor had sent a lot of messages to the group yesterday.

Kong Ling: [Students, do you know? Just a moment ago, our economics almost produced a theorem formula in our school! You should understand what this means.

[This means that our school is very likely to produce a Nobel Prize in Economics!

[I've never seen such a talented boy in mathematics!

[But that guy gave up because of his girlfriend's phone call!

[Really... I'm so angry! No wonder so many people said that women can bring disaster to a country and its people! This is a living example! Students, be vigilant!]

...

When Qin Yuxuan saw this, she said in surprise, "Because of his girlfriend's phone call, he gave up on deducing the economic theorem formula? How could he do this?!"

When Lin Fan heard this, he suddenly felt that this sentence sounded a little familiar.

He could not help but stretch his neck and look at Qin Yuxuan's phone screen.

"His girlfriend is really a disaster!" Qin Yuxuan continued.

Qin Yuxuan was a graduate student in economics and Kong Ling's student. She was greatly influenced by Kong Ling.

She was very clear about the meaning of solving an economic theorem formula.

If one had a theorem formula, many problems would be easily solved.

"Cough, cough, cough!"

Lin Fan started coughing.

Disrupting the country and its people?

Lin Fan wondered if he should tell Qin Yuxuan that this woman who could bring disaster to the country was herself.

He did not know... what expression she would have.

Qin Yuxuan patted Lin Fan's back gently and said, "Lin Fan, are you alright?"

Then, Lin Fan, Qin Yuxuan, Senior Fan, and Senior Lu returned to the 78th floor.

Lin Fan held Qin Yuxuan's hand and walked slowly to the huge, transparent window. He looked down into the distance.

"Yuxuan, this office is for you to start your company. Do you like it?" he asked with a smile.

Two streams of hot tears rolled down from Qin Yuxuan's beautiful eyes.

"Yuxuan, why are you crying?" Lin Fan was stunned.

"Oh..."

Qin Yuxuan did not explain at all. She directly pressed her fiery lips against his.

At this moment, silence was better than sound!

This kiss was her answer!

She was completely enveloped in happiness and happiness!

With such a boyfriend, what could she ask for?

Qin Yuxuan had even forgotten that Senior Fan and Senior Lu were still in the empty office.

She really could not control her emotions!

Of course, Senior Fan and Senior Lu did not notice their actions.

That was because they were still in a daze.

This spacious and luxurious office overlooking the entire Modu would be his workplace in the future?

They were still in disbelief.

After a long while, Qin Yuxuan parted with Lin Fan, her face flushed red.

Lin Fan wiped the lipstick off the corner of his mouth and asked, “The company’s location has been settled. You probably haven’t prepared the start-up funds yet, nor have you attracted any investment clients, right?”

Speaking of work, Qin Yuxuan immediately came out of her shy state. It was as if she had transformed into a professional white-collar worker and was full of energy.

“We’re preparing to borrow 500,000 yuan each from the university, totaling 1.5 million yuan.”

“As for the clients, we have some potential clients from the past. After the company opens, we’ll have in-depth contact and cooperation.

“In addition, my mentor is willing to help introduce some customers to me...”

When Lin Fan heard that, he nodded his head thoughtfully and said, “How about this? I’ll take out 200 million first. Part of it will be the start-up capital, and the other part will be given to the company by me as your first customer. You guys can determine how to invest it.”

Silence.

The entire empty office was silent.

Senior Lu and Senior Fan opened their mouths wide, forming an O shape.

What did they hear?

He would take out 200 million first?

His tone was so calm.

It was as if he was taking out 200 yuan!

Did he have to be so domineering?

200 million yuan! He could become a key client of any large investment company and obtain a guaranteed high return on investment.

At this moment, he directly took it out for a newly established...In fact, it was a small company that could close down at any time.

Once it went bankrupt, the 200 million yuan would go down the drain!

Taking out 200 million for his girlfriend to practice?

It turned out that there was such selfless love in the world!

“Lin Fan...”

Qin Yuxuan’s beautiful eyes, which had just regained their calm, became misty again.

Then, she ignored Senior Lu and Senior Fan and jumped into Lin Fan’s arms.

After a long time, they separated again.

Lin Fan said, “It’s getting late. Why don’t we go eat first?”

“Alright,” Qin Yuxuan replied softly.

“I want to call my mentor over too. She’s helped me a lot...”

Lin Fan could not help but think of that short-haired female professor who kept asking him to come back and continue to derive the formula.

“Of course.”

At this moment, Senior Lu said, “I finally understand why Lin Fan was able to woo Yu Xuan. Not even a celestial immortal can withstand such an attack!”

“Celestial Immortal?” Lin Fan asked. “That can’t compare to my Yuxuan.” As he spoke, he gently stroked Qin Yuxuan’s hair.

Senior Lu said, “This wave of PDA... I feel like I don’t even need to eat anymore.”

Then, she asked, “Oh right, Lin Fan, do you have a brother?”

“I have a younger sister,” Lin Fan said.

Senior Lu heaved a long sigh, looking as if she had missed out on hundreds of millions of yuan.

The few of them chatted as they walked. Not long after, they arrived at Li Restaurant.

The outside of the Li Restaurant was rather ordinary.

...

The interior of the restaurant was decorated in black, giving off a sense of grandeur and luxury.

“When I first came to Modu to study, I read a lot of legends about Li Restaurant’s dishes on the internet...” Senior Lu said excitedly.

“I heard that the founder of Li Restaurant used to be a second-grade official!”

“Moreover, he was the kind of high-ranking official who specialized in tasting imperial banquets!”

“The dishes of Li Restaurant were made according to the imperial banquet after he retired!”

“In other words, the dishes here are all things that the emperor used to eat!”

“I don’t know how many times I’ve passed by this shop, but I’ve never walked in even once... My wallet really doesn’t allow it.”

“Today, thanks to Lin Fan and Yuxuan, I finally have a chance! I have to try it!”

The more Senior Lu spoke, the more excited she became.

Although the dishes had not been served yet, she seemed to have smelled the fragrance and could not help but swallow her saliva.

“The owner of Li Restaurant didn’t retire,” Senior Fan corrected. “The Qing dynasty perished. However, this shop is indeed very famous. Both Elder Jin and Cheng Long have come here to dine.”

...

“Yeah.” Senior Sister Lu praised, “The food must be delicious!”

At this moment, a series of low footsteps sounded from outside.

Then, the female professor with short hair strolled in.

Senior Fan and Qin Yuxuan, as well as Senior Lu, all stood up and said respectfully, “Hello, Professor Feng!”

Professor Feng nodded and was about to speak...

In the next moment, her small eyes suddenly widened.

Then, she took big strides and quickly walked in front of Lin Fan. She hugged his arm and shouted excitedly, “I finally found you. I won’t let you go again!”

It was as if Lin Fan had stolen her wallet and she was afraid that he would run away.

Seeing this...

Senior Lu, Senior Fan, and Qin Yuxuan were all puzzled.

“Professor Feng, is there a misunderstanding?” Qin Yuxuan asked. “Did you get the wrong person?”

Professor Feng’s actions were really too big.

!!

It was as if Lin Fan was someone who had done something bad.

However, Qin Yuxuan believed in Lin Fan’s character.

“Professor Feng, you must have misunderstood,” Senior Lu chimed in.

After all, Lin Fan was someone who could spend close to 100 million yuan to buy an office in less than ten minutes.

He was no average person.

How could he do something bad?

“Professor Feng, let’s sit down and talk slowly,” said Senior Fan.

“What misunderstanding?!” Professor Feng shouted. “Yesterday, he derived the economics formula in front of me!

“Just a little bit more and it could’ve formed an economic formula and theorem!

“We can’t let him go!”

Qin Yuxuan, Senior Lu, and Senior Fan were all stunned.

They all saw the message sent by Professor Feng.

A super genius had appeared at Modu University!

He had deduced and summarized a formula that was enough to make economics take a big step forward!

Although they had not seen this person with their own eyes, they were also filled with admiration for this person.

In the end...

This person was Lin Fan?

Not only was Lin Fan rich, but he was also smart!

Heavens!

What kind of immortal was this?

Then, Qin Yuxuan blushed.

She suddenly remembered Professor Feng saying that the male student had stopped deducing after receiving a call from his girlfriend and left immediately.

Therefore, Professor Feng said that the woman was a disaster to the country and its people.

No!

Professor Feng was not the only one who thought so.

She seemed to think so too.

In the end...

She was this woman who brought disaster to the country and its people?

Lin Fan coughed lightly and said, "Professor Feng, don't worry. I won't leave."

However, Professor Feng had no intention of letting go.

Yesterday, because she did not stop Lin Fan, she regretted it the entire night.

Today, they finally met again. She would never let such a thing happen again!

"Professor Feng, why don't we sit down first?" Lin Fan pointed at Qin Yuxuan, "Look... My girlfriend is here. I won't leave again."

"What? You're that woman who brought disaster to the country and its people?" Professor Feng shouted.

Qin Yuxuan's pretty face instantly turned red as she lowered her head silently.

At this point...

Professor Feng slowly put down Lin Fan's arm and asked, "What's your name?"

"My name is Lin Fan," Lin Fan answered honestly.

Yesterday, Lin Fan was not too polite to her.

After all, she was just a stranger.

Today was different.

Today, Lin Fan knew that she was a teacher who took good care of Qin Yuxuan.

Therefore, he had to show respect.

"Lin Fan, it's such a pity that you left yesterday..."

“If you had continued to derive it, it would very likely become an economic formula or theorem! I’m afraid I don’t know when you’ll be able to complete it next time.” Professor Feng sighed, her face full of regret.

“Anytime,” Lin Fan said casually.

He was not speaking nonsense.

That was because the specific derivation formula had been imprinted in his mind when he triggered the flash of inspiration. It was impossible for him to forget it.

“Really?” Professor Feng shouted excitedly.

Lin Fan nodded his head.

...

Seeing this...

Professor Feng hurriedly took out a notebook and a ballpoint pen from her bag.

She said in a tone full of anticipation, “Lin Fan, quickly write down the derivation and the final formula for me.”

Lin Fan thought that since the dishes had not been served yet and he had nothing to do anyway, he might as well do it.

Therefore, he took the pen and paper and wrote quickly.

Immediately, the sound of a ballpoint pen tapping on the notebook rang out.

At the same time, a series of elegant and flowing characters quickly appeared in the notebook.

Qin Yuxuan, who was sitting at the side, looked at Lin Fan’s serious expression as he wrote the calculations. She was entranced.

In the past, when she was in high school, Lin Fan was very hardworking and serious.

The reason why Qin Yuxuan liked Lin Fan...

On one hand, Lin Fan was indeed handsome. On the other hand, he was serious.

...

That was because a serious man could exude a unique charm.

At this moment, in Qin Yuxuan's eyes, Lin Fan was exuding his charm to the extreme, causing her heart to race.

If it was not for Professor Feng and the others, Qin Yuxuan would have thrown herself into Lin Fan's arms.

Lin Fan's writing speed was very fast. In just a few minutes, two pages of the notebook were filled with neat calculations.

Soon, the third page was finished.

Lin Fan put down his pen and paper.

After the deduction, the economic theorem and formula appeared!

"Alright, alright! That's great!" Professor Feng shouted excitedly, her entire face full of smiles.

Then, she hugged the book tightly in her arms like a treasure.

Senior Fan could not help but ask, "Professor Feng, is the formula correct?"

Her studies were not bad.

However, Lin Fan's calculations were too complicated. She could not understand them at all.

"This requires detailed verification!" Professor Feng said. "However, even if the conclusion is wrong, it'll still greatly promote the development of economics!"

"And if it's correct..."

At this point, Professor Feng's face became even more excited.

She seemed to have already seen the grand scene after the formula was proven to be correct.

Then, Professor Feng said, “Lin Fan, spend more time and write a complete economics thesis on the derivation of the formula. I’ll help you revise it and submit it to Ecta.”

Lin Fan waved his hand, “Let Yuxuan write it. I’ll tell her the detailed process.”

Professor Feng looked deeply at Lin Fan, her face revealing a look of shock that was hard to hide.

Having her write the thesis was equivalent to giving away half of the credit for free.

After all, this was half the result that could make the entire field of economics take a big step forward. It might even win them the Nobel Prize in Economics. They would leave a mark on history!

Even a married couple would not be so generous.

Moreover, they were just a couple!

“Lin Fan, you should write it. I didn’t even participate in this deduction process,” Qin Yuxuan said.

Obviously, she understood what it meant to write a thesis.

Lin Fan said, “I’ve never studied economics. I’ve never even written a thesis before. How could I write such things? Yuxuan, don’t decline.”

“Uhh... Alright then.” Qin Yuxuan hesitated for a moment before answering.

However, she had already decided that even if she had to write the thesis herself, she would leave all the glory to Lin Fan.

## RICHEST MAN: GETTING 7 BILLION RED POCKETS TO START WITH

### Chapter 159 Great Harvest; 9,300 Red Packets!

At this moment, delicacies were slowly served.

Shrimp and celery heart, dried phoenix chicken, amber peach kernels, fried red fruits, braised fish, white braised abalone, soft fried fresh shellfish, egg chicken soup...

Each dish was gorgeous in color, beautiful in shape, and filled with fragrance.

Now, the economic formula had been successfully derived.

Everyone was in a good mood and had a good appetite. It was a good time to eat.

Everyone ate happily. They even drank a little wine, and their faces turned red.

Initially, Lin Fan was prepared to treat them.

However, Professor Feng said that she had witnessed the emergence of the economic formula, so she had to treat him.

Seeing how insistent she was, Lin Fan decided to let her be.

Tomorrow was Monday.

In addition, Qin Yuxuan's matter had already been settled.

Therefore, Lin Fan did not stay in Modu any longer. He bought a first-class ticket for the afternoon and headed to Jiangbei.

"Yuxuan has really found a good boyfriend," Senior Fan praised sincerely.

"He's not just a good boyfriend," Senior Lu said. "He's simply a perfect male god!"

"He spent more than 90 million to buy a big office in the Global Financial Building... Then, he gave 200 million yuan to our new company as start-up capital and investment capital!"

The more Senior Lu spoke, the more excited she became. She was dancing with joy.

Professor Feng, who was standing at the side, said in surprise, "He even took out so much money?"

Professor Feng was a financial expert and often dealt with very large amounts of money.

However, that money did not belong to an individual but to the company.

Taking out nearly 300 million yuan in one go?

Most likely, even a person with a net worth of more than ten billion yuan would not be able to take it out in a short period of time.

However, Lin Fan had done it.

How rich was Lin Fan exactly?

Unimaginable!

Professor Feng patted Qin Yuxuan's shoulder and said, "A man like this is hard to control."

Qin Yuxuan's delicate body trembled slightly.

Soon, however, her beautiful eyes became determined again.

...

Yesterday, Lin Fan was exhausted for the entire night.

Therefore, as soon as he lay down on the spacious first-class seat, he quickly fell asleep.

When Lin Fan opened his eyes, he was already in Jiangbei.

Lin Fan drove the Lamborghini that he had left in the parking lot yesterday and headed toward the Coiling Dragon Villa Complex.

When the security guards standing at the entrance of Coiling Dragon Villa Complex saw Lin Fan, they all stood up straight and took the initiative to greet him.

Lin Fan greeted them and entered the villa near the lake.

Then, he turned his attention to the system.

[Do you wish to sign in?]

This was the new system ability he had obtained after spending 92.5 million yuan to purchase an office in the Global Financial Building.

Lin Fan had wanted to give it a try for a long time.

At this moment, without any hesitation, he said directly, "Sign in!"

[Ding! Congratulations, you've obtained Modu Global Financial Tower 1.]

Seeing this...

Lin Fan was stunned.

W-What was going on?

In other words, he had not only earned 900 million yuan by buying an office, but he also won an entire building?

This was the Global Financial Tower!

One office was worth nearly 100 million yuan.

How much would the entire building cost?

30 billion? 50 billion?

Lin Fan's face was filled with a strange expression.

This trip to Modu was really not bad.

[Do you want to open the ten silver packets?]

This was the reward for completing the hidden mission when the funds exceeded one billion.

"Yes!"

[Ding! Congratulations, you've received one million yuan.]

[Ding! Congratulations, you've received 300,000 yuan.]

...

[Ding! Congratulations, you've received 500,000 yuan.]

[Ding! Congratulations, you've received a Patek Phillipe 5002P.]

...

[Ding! Congratulations, you've obtained 5% of the shares of Little Tanuki Group.]

[Ding! Congratulations, you've received 100,000 yuan.]

...

From the ten silver packets, Lin Fan received a total of 2.9 million yuan, a Patek Phillippe 5002P, and 5% shares of the Little Tanuki Group!

Seeing this...

Even Lin Fan could not help but smile.

Little Tanuki Group was a super internet company comparable to Penguin with a market value of nearly five trillion!

5% of the shares meant that it was also worth about 250 billion yuan!

What a terrifying number!

Then, Lin Fan took out his phone.

[Do you wish to open 9,300 red packets?]

This...

They were from the 93 million yuan he had spent on his trip to Modu.

"9,300 red packets? Let me see what I can get," Lin Fan said expectantly.

[Ding! Congratulations, you've received five yuan.]

[Ding! Congratulations, you've received 1,999 yuan.]

...

[Ding! Congratulations, you've obtained the Painting of Spring Trees and Autumn Frost.]

[Ding! Congratulations, you've received 1,000 yuan.]

...

[Ding! Congratulations, you've received 144 yuan.]

[Ding! Congratulations, you've received 100 stock trend cards for the next three days.]

...

[Ding! Congratulations, you've received 5% of Gucci's shares.]

[Ding! Congratulations, you've received one yuan.]

...

[Ding! Congratulations, you've received 19,999 yuan.]

[Ding! Congratulations, you've received a MEGAS4 wristwatch.]

...

From the 9,300 red packets, Lin Fan received a total of 2,521,151 yuan.

He did not care about this bit of money at all.

After all, Lin Fan could earn at least 3.5 million yuan every day.

[100 stock trend cards for the next three days. After using it, you can randomly obtain the trend chart of 100 stocks in the next three days. With one word, you can determine the future and show your supreme charm. Note: When buying stocks, the amount of each stock should be less than 1% of the market value of the stock.]

Was this the way to increase the value of his money quickly?

Lin Fan skipped over it.

5% of Gucci's shares?

Gucci was a world-renowned luxury bag and clothing company with a market value of about 500 billion yuan.

5% of the shares?

That was about 25 billion.

This was not bad.

When Lin Fan lifted his eyelids, there were two fashionable and cool watches in front of him.

Obviously, these were the MEGAS4 and the Patek Phillippe 5002P that he had just gotten from the silver and red packets.

Under the two watches was an exquisite ancient painting.

In the painting, two scholars sat cross-legged on a big rock, chatting softly, which was very artistic.

Seeing this...

Lin Fan threw the two watches aside. Then, he picked up the painting and admired it carefully.

"Is this Tang Bohu's Painting of Spring Trees and Autumn Frost? It's indeed well-drawn! No wonder Tang Bohu was able to chase after Qiuxiang."

If someone who loved watches saw this scene, they would be heartbroken.

One had to know...

The two watches that Lin Fan casually threw out were the Patek Phillippe 5002P and the MEGAS4!

The 5002P was a super-complex functional watch, limited to no more than ten pieces worldwide! The price of each watch was more than 15 million!

The MEGAS4 was recognized as the most complicated watch in the world, and its price was also more than 15 million!

These two watches were priceless treasures!

In the end, they were thrown out just like that?

If they were knocked over, it would definitely be a loss for the watch industry!

## RICHEST MAN: GETTING 7 BILLION RED POCKETS TO START WITH

### Chapter 160 Another Truckload Of Luxury Goods; Touching!

The next day.

When the sun rose slowly, Lin Fan finally got up from the big bed in the Coiling Dragon Villa.

His phone rang.

Lin Fan looked at the caller ID. It was a familiar number.

"Hello?"

"Hello, Mr. Lin. I'm from the transportation company. We have some of your items. Do you still want to send them to Yi Ke City?" A dull voice came from the phone.

Lin Fan immediately thought of a person.

A few days ago, he was the one who sent a truckload of Louis Vuitton bags and clothes.

Lin Fan said, "Send them to the Coiling Dragon Villa Complex. Do you know where it is?"

"Is it the Coiling Dragon Villa Complex that's by the lake?" the driver asked.

"Yes," Lin Fan said.

"Okay, please wait a moment. I'll be there in about 15 minutes," the driver said.

Lin Fan was not in a hurry. He walked to the bathroom and washed up.

Just as he was about to take a break in the living room, his phone rang again.

"Mr. Lin, we're here." The driver's voice came from the phone.

Lin Fan looked out the window.

Sure enough, a tall truck had already stopped at the entrance.

When the driver saw Lin Fan walk out, he said respectfully, "Hello, Mr. Lin."

It was no wonder that the driver would be like this.

That was because he had delivered packages to Lin Fan twice.

Every time, it was a truck full of expensive top-notch luxury goods.

The power of such a person was simply unimaginable.

As soon as he finished speaking, the driver opened the truck's door and revealed a truckload's worth of Gucci clothes and bags.

"Mr. Lin, are we going to put these things in this villa?"

Even though Lin Fan was already mentally prepared, when he saw so many clothes and bags, he could not help but be dumbfounded.

"Yes, put them in the living room." He nodded after a while.

"Alright."

The driver responded and then moved the clothes and bags inside with two porters.

Lin Fan thought for a while and casually took some bags and placed them in the Mercedes-Benz.

In a short while, the entire living room was completely filled.

After the driver left, Lin Fan did not have any intention of resting anymore. He turned around and drove the Mercedes-Benz G-Class toward Jiangbei University.

Monday morning seemed to be more congested than at other times.

Looking ahead, the roads were filled with densely packed vehicles.

Lin Fan sat in the car, feeling a little bored. He could not help but place his attention on the sign-in system.

[Do you want to sign in?]

"Yes!"

[Ding! Congratulations, you've obtained all the property rights of Zhenhu Yuting.]

Zhenhu Yuting was a famous residential building in the center of Jiangbei City. The environment of the neighborhood was excellent, and the surrounding industries were rich. It was the ideal residence for many company bosses.

There were more than a thousand houses in the entire neighborhood!

If each house cost five million yuan, the total value was about 5 billion!

Lin Fan did some calculations and nodded his head slightly. It was not bad.

When he turned his head, he saw that the front passenger seat was already piled with property ownership certificates and large keys.

Lin Fan casually flipped through a few property ownership certificates.

'Zhenhu Yuting Building A, Unit 201. Area: 125 square meters. Owner: Lin Fan.'

'Zhenhu Yuting Building A, Unit 202. Area: 109 square meters. Owner: Lin Fan.'

...

Then, Lin Fan looked at the congested road in front of him. After hesitating for a moment, he finally turned the car around and headed toward Lianjia Real Estate Agency not far away.

At this moment, Han Tian was sitting in front of her desk, carefully flipping through the documents.

When she unintentionally raised her head, her entire pretty face was filled with surprise as she shouted, "Mr. Lin?"

"Mr. Lin, please take a seat. I'll pour you a cup of coffee first."

After saying that, she quickly got up and took out a box of beautifully packaged coffee from the cabinet.

After brewing the coffee meticulously, she carefully brought it to Lin Fan.

Han Tian had a special feeling about Lin Fan.

He was rich, handsome, low-profile, and well-mannered.

The only pity was that he already had a girlfriend.

Lin Fan did not know much about coffee and just took a sip.

However, he could not help but nod his head. It was sweet and delicious, and the taste was indeed not bad.

"Mr. Lin, what a coincidence that you're here," Han Tian said. "I was planning to send you the rental status of Washington Palace for last month."

As she spoke, she handed over a stack of documents under the table.

"The total rent is 800,000 yuan. If there's no problem, I can arrange for the finance department to transfer the money in the afternoon."

Even though Lin Fan had the scanning ability and could read all the data in one glance, he still did not accept the information.

"I won't look at the information. I believe you!"

Han Tian was touched.

This involved nearly a million yuan, yet he trusted her so much.

Lin Fan continued, "I'm here this time to rent out Zhenhu Yuting. "

"Sure, our Lianjia has also rented out many units in Zhenhu Yuting."

Lin Fan nodded his head and placed a large Gucci bag on the table.

The bag was filled with property ownership certificates and keys.

Seeing this...

Han Tian could not help but be stunned. "M-Mr. Lin... This..."

"Oh, I've bought the entire Zhenhu Yuting. Here are the property ownership certificate and keys. I'll be counting on you to help me rent it out in the future," Lin Fan said.

His tone was so calm.

However, Han Tian's ears buzzed like thunder.

The entire Zhenhu Yuting?

The average price there was about 40,000 yuan per square meter!

Buying the entire building would cost at least a few billion!

Now, he was asking her to rent it out?

Even if he could collect 100 million yuan in rent every year, it would take decades to recoup his losses.

This was definitely not worth it.

Then why did he do this?

Lin Fan ignored Han Tian's thoughts and asked, "Do we need to sign a contract?"

"Ah... Ah... Alright, let's sign a contract, " Han Tian said.

As the printer made a squeaking sound, a warm contract appeared in Lin Fan's hands.

Lin Fan casually flipped through it and signed his name.

Then, Lin Fan handed over two exquisite Gucci bags and said, "These two bags are for you."

He looked at his watch and said, "It's getting late. I'll make a move first."

He turned around and got into the Mercedes Benz G-Class, heading toward Jiangbei University again.

Han Tian was the only one left. She stood in place and stared blankly at the Mercedes-Benz G-Class that had left.

In her mind, she could not help but recall the bits and pieces of her life with Lin Fan.

Lin Fan specially invited her to Star Restaurant for a meal... to let her taste the delicacies.

Lin Fan rented out the entire Zhenhu Yuting so that... her work could go smoothly.

Lin Fan gifted her two limited edition bags from Gucci... to let herself enjoy the luxury of branded goods.

She was moved, happy, and blissful. All kinds of emotions kept surging in his heart.

Her heart began to beat faster, and a blush appeared on her pretty face.

At the same time, Lin Fan, who was driving the Mercedes-Benz, heard a clear notification in his mind.
