

RICHEST MAN: GETTING 7 BILLION RED POCKETS TO START WITH

Chapter 401 - 401 Hilltop Villa 1; Arrival!

401 Hilltop Villa 1; Arrival!

As soon as Zhou Guotao finished speaking, the entire hall quickly fell silent. It was because the person who said this was the old man of the Zhou family, Zhou Guotao.

Since he said that he was looking for a divine doctor.

He must be an amazing doctor!

Perhaps the other party really could save the old master!

Thinking of this, everyone looked at Zhou Guotao with anticipation.

Zhou Guotao finally made a call.

After a while, the call connected, and Lin Fan's clear voice came from the other end.

"Old Master Zhou, why did you call me today?"

Zhou Guotao did not waste any time and said, "Lin Fan, do you have time to come to Hong Kong to save someone?"

"Hong Kong?" Lin Fan asked curiously.

Zhou Guotao said, "I know this request is a bit difficult.

"But I have no choice.

“He’s a very good old friend of mine. Also, he played a part in the smooth return of Hong Kong.

“I really don’t want him to leave like this.”

Lin Fan said, “Old Master, you misunderstood. I’m coming over now. Where are you?”

Lin Fan was a person who would repay one’s kindness. Zhou Guotao had helped him several times.

Now that Zhou Guotao had a request, Lin Fan naturally would not reject it.

Moreover, the person he was going to save had contributed greatly to Hua Nation!

When Zhou Guotao heard this, his face could not help but reveal a hint of joy.

Lin Fan was willing to come over!

Old Tang was saved!

One had to know...

Zhou Guotao was saved by Lin Fan.

In fact, not only was he saved, but all his other ailments were also cured by Lin Fan.

In the past few months, he even felt that he had become a few years younger.

Otherwise, no matter how good Zhou Guotao’s relationship with Tang Mingyuan was, he would not have come all the way here just because Tang Mingyuan was seriously ill.

Zhou Guotao could say... he had personally experienced Lin Fan’s miraculous medical skills.

In addition, Zhou Guotao was one of the few people in Hua Nation who knew about Lin Fan's other identities.

He was the captain of Dragon Division's Team 10, he solved several math problems, he saved the life of Qin Weiming's grandson, and he also invented the earthquake prediction device.

All of this proved that Lin Fan was extremely powerful.

That was why Zhou Guotao was so polite to Lin Fan.

Zhou Guotao quickly said, "I'll get someone to book a plane ticket for you and pick you up at the airport."

Lin Fan said, "No need. I'm in Hong Kong. Just tell me the location, and I'll come over."

Zhou Guotao was stunned for a moment.

Very soon, he was overjoyed. "We're in Hilltop Villa 1!"

In fact, when Lin Fan agreed to come over, Zhou Guotao was still a little worried.

Of course, he did not doubt Lin Fan's medical skills.

He was just worried that when Lin Fan arrived, Tang Mingyuan would already be dead.

After all, Jiangbei was still quite a distance away from Hong Kong.

Zhou Guotao did not expect Lin Fan to be in Hong Kong.

This was definitely good news, extremely good news!

After hanging up, Lin Fan said to Ling Rou, "A friend is seriously ill. I need to go over and take a look..."

"Then you should go quickly," Ling Rou quickly said."

She asked hesitantly after a pause, "Can I go with you?"

That was because Ling Rou knew that Lin Fan had other women.

What if this friend knew another woman?

Therefore, Ling Rou was a little cautious.

Lin Fan smiled. "Of course!"

Then, he called a driver under the Peninsula Hotel.

After a while, the Rolls-Royce Phantom stopped steadily in front of them.

Lin Fan put all the bags from the shopping spree into the trunk.

Then, he said to the driver, "Hilltop Villa 1."

The driver was stunned.

Many ordinary people only treated the mountaintop villa as a scenic spot.

They stood in the distance and took a few glances at it, sighing in admiration.

However, the driver knew that the people living in the villa area were all very important people.

Villa 1 was the residence of the Tang family, one of the two superpowers in Hong Kong.

Where was this customer going?

"Hilltop Villa 1?" the driver repeated.

"Yes," Lin Fan said.

After the driver received Lin Fan's approval, he could not help but be more respectful to him.

The Rolls-Royce Phantom slowly started up. Like a boat sailing in water, it was very stable.

About half an hour later, they saw a villa located on the top of the mountain. At this moment, two well-built security guards strode over and asked warily, "May I ask who you are? Why are you here?"

If it were a security guard from another place, they would definitely be very polite when they saw that the other party had come out of a Rolls-Royce Phantom. They would even try their best to please the other party.

However, Hilltop Villa, a Rolls Royce Phantom was nothing.

The security guards would be wary of the other party before confirming their identity.

Just as Lin Fan was about to reply, a large group of people walked over.

The leader was none other than Zhou Guotao, the old master of the Zhou family.

"Lin Fan, I didn't expect you to come over so quickly. Old Tang is saved!" Zhou Guotao said happily.

When the Tang family members standing behind heard this, they were slightly stunned.

This was because they could easily tell from Zhou Guotao's words that this young man was the divine doctor that Zhou Guotao was talking about.

Such a young divine doctor?

He was Zhou Guo's recommendation. If it were someone else who recommended this young man, the Tang family would definitely shout at the other party for causing trouble.

Zhou Guotao did not pay much attention to them and said directly, "Lin Fan, time is of the essence. I won't be polite. Let's go in quickly."

"Alright," said Lin Fan.

Soon, everyone arrived at the hall.

Lin Fan said to Ling Rou, "I'll go in and take a look at the patient first. You and Old Master Zhou wait outside for a while."

"Alright." Ling Rou nodded.

A tall and thin middle-aged man called Tang Kai saw Lin Fan walking into the ward and could not help but say, "Mr. Lin, we also have some doctors here. Do you need them to go in and help?"

As he spoke, he pointed at the three doctors beside him.

Even though Lin Fan was a divine doctor whom Zhou Guotao, the old man of the Zhou family, had called over, and he knew that Zhou Guotao would never harm his grandfather, Lin Fan was simply too young.

He was worried that if Lin Fan went in to treat the old man, it would put him in danger.

If the doctors followed them in, the danger would obviously be reduced.

How could Lin Fan not understand what he was thinking?

"There's no need. I don't like people following me around when I'm treating patients. I alone am enough."

Tang Kai seemed to want to say something more, but he was stopped by the current head of the Tang family, Tang Hua, with a look.

Then, Tang Hua bowed slightly and said in a pleading tone, "Mr. Lin, I'll leave the old master to you."

His tone was very sincere. Lin Fan nodded slightly and said, "Don't worry."

After saying that, he strolled into the ward under the watchful eyes of everyone in the hall.

Chapter 402 - 402 Wake Up; A Fan!

402 Wake Up; A Fan!

Creak!

With a soft sound, the door of the ward was firmly closed.

However...

Everyone in the hall was still staring at the door, as if they could see the situation in the ward through the door.

...

This ward was about 100 square meters and was extremely spacious.

The air was filled with the smell of medicine.

On the soft bed lay a thin, sallow-faced old man.

Obviously, he was Tang Mingyuan.

Tang Mingyuan was wearing an oxygen mask over his nose. The electrocardiogram beside him was slowly fluctuating.

Everything showed that Tang Mingyuan's situation was very bad.

Lin Fan observed silently for a while. Then, he placed his finger on Tang Ming Yuan's skinny wrist.

After about a minute, Lin Fan retracted his finger.

“With normal treatment, it’ll take at least two months to get better.”

One had to know that Lin Fan had Sun Simiao’s Medical Experience.

Even so, it would take two months to get better. It was not an exaggeration to say that Tang Mingyuan was terminally ill.

Lin Fan said, “That’s too troublesome. I’ll just use Medical Water.”

As soon as he finished speaking, Lin Fan spent ten million yuan to buy a bottle of Medical Water from the system.

Then, he took off Tang Mingyuan’s oxygen mask and poured the Medical Water into his mouth.

After drinking the Medical Water...

The weak fluctuations in the electrocardiography began to rise.

Following that, a tinge of blood appeared on Tang Mingyuan’s sallow face.

Then, his motionless body twitched slightly.

Finally, Tang Mingyuan slowly opened his slightly turbid eyes.

He first looked at the ceiling.

Then, his gaze landed on Lin Fan.

“And you are?” Tang Mingyuan asked in a hoarse voice.

“My name is Lin Fan. Old Master Zhou asked me to save you,” Lin Fan said.

“Old Zhou is really thoughtful. Thank you for saving me,” Tang Mingyuan said in realization.

“You’re welcome. The people outside should be waiting anxiously. I’ll let them in first,” Lin Fan said.

As soon as he finished speaking, he turned around and opened the door.

Creak!

When everyone saw the door open, they could not help but look into the ward.

“How’s Old Tang?” Zhou Guotao asked.

Lin Fan said, “He’s fine. He’s already awake. You can go in and see him.”

He was fine?

He was already awake?

In fact, ever since Lin Fan entered the ward... it had only taken a few minutes.

In just a few minutes, he cured a seriously ill person?

How was this possible?

Many of the people present had doubtful looks on their faces.

Then, they slowly walked inside.

When they saw Tang Mingyuan lying on the bed, they realized that his complexion had improved and he had already woken up. They all became extremely excited.

He was awake!

He really woke up!

“Old Master, it’s great that you’re awake!”

“That’s great!”

“Old Master...”

...

Tang Hua hurriedly stepped forward and asked, “Dad, do you feel uncomfortable anywhere?”

Tang Mingyuan shook his head.

His thoughts were clear, and his voice was steady and powerful!

“Quick, check my dad’s physical condition,” Tang Kai said to the doctors beside him.

The three doctors responded and went forward to listen to the old master’s voice, take his pulse, look at his pupils, and check his tongue...

Soon, their eyes widened in disbelief.

“How’s Old Master?” Tang Kai asked anxiously. “Hurry up and say something!”

The bald doctor finally reacted and stuttered, “His condition is very good! However... It’s best to do a more detailed examination...”

With the doctor’s confirmation, the Tang family became even happier.

At the same time, everyone looked at Lin Fan in shock.

“Old Zhou, you even rushed all the way from Jingbei for me, an old bag of bones. I really feel bad.”

“Why are you still so polite between us?” Zhou Guotao asked.

“Yes, yes, yes.” Tang Mingyuan nodded.

Everyone did not stay in the ward for long.

Firstly, the doctors still needed to do a further examination on Tang Mingyuan.

Secondly, Tang Mingyuan had just woken up and needed to rest.

It was nighttime...

Lin Fan, Ling Rou, Zhou Guotao, and the others stayed in Hilltop Villa under the invitation of the Tang family.

Unlike the Peninsula Hotel, which was located in the middle of the city and was extremely noisy, Hilltop Villa was located on a quiet mountaintop. When one looked up, they could see the bright stars. It was a different feeling.

In the blink of an eye, it was the second day.

When Lin Fan and Ling Rou went downstairs, Tang Mingyuan and Zhou Guotao were sitting in the courtyard, chatting about interesting things and laughing from time to time.

When Tang Mingyuan saw Lin Fan, he asked with concern, "Did you sleep alright?"

Lin Fan said, "The air is fresh, and the scenery is great. It's very comfortable. Old Master is good at choosing locations."

"Is that so? Since you like it, there's another similar house on the opposite mountain. I'll give it to you," Tang Mingyuan said.

A villa on the top of a mountain!

One had to know that the price of Hilltop Villa was several billion yuan!

In fact, there was no supply!

This was not something that could be bought with money.

Lin Fan waved his hand and said, "Forget it. I rarely come to Hong Kong."

"You rarely come, but you will come! It's better than leaving it empty in my hands," Tang Mingyuan said.

Zhou Guotao smiled and said, "Lin Fan, just accept it. It's just a villa. It's nothing to you and Old Tang."

When Lin Fan heard that, he did not reject it anymore.

It was because he had slept very comfortably yesterday. **Novelnext.COM**

Also, Ling Rou seemed to like this place.

“Alright, then I’ll accept your offer,” Lin Fan said.

Instantly, the atmosphere became more relaxed.

Tang Hua walked over slowly with a graceful, dignified, and beautiful woman on his arm.

Tang Mingyuan said, “Tang Hua, you came at the right time. Quickly transfer Villa 6 to Lin Fan.”

“Alright,” Tang Hua said.

Although Villa 6 was quite valuable, compared to Tang Mingyuan’s life, it was not worth mentioning at all.

Tang Mingyuan’s medical report was out.

His body had completely recovered.

In fact, his body stats were even better than before his illness!

It was all because of Lin Fan!

Therefore, Tang Hua did not hesitate.

“Are you Sister Ni Min?” Ling Rou, who had been standing at the side, suddenly shouted in surprise.

The dignified and beautiful woman smiled and said, “It’s me.”

“It’s really you, Sister Ni Min! I’m a fan of yours!” Ling Rou exclaimed excitedly. “Out of all your albums, I like Spring and Four Seasons the most!”

This sentence definitely came from Ling Rou’s heart.

In fact, a large part of the reason why she stayed in the bar and wanted to become a singer was because of Ni Min’s influence.

She yearned to be like Ni Min, to sing wantonly at a grand concert and receive the applause of countless people.

Later, Ni Min suddenly quit the entertainment industry. There were rumors that she married into a wealthy family.

From the looks of it, she had married into the Tang family.

Chapter 403 - 403 Awards Ceremony; Grievance!

403 Awards Ceremony; Grievance!

Ling Rou instantly turned into a fangirl, and she became excited when she spoke.

Then, she said while a little embarrassed, “Sister Ni Min, can I have your autograph?”

“Of course,” Ni Min said with a smile.

When Ling Rou heard this, she wanted to look for a pen and paper, but she realized that she did not bring them with her.

Zhou Guotao, who was sitting at the side, said, “I have a pen and paper here.”

As he spoke, he handed over a Parker fountain pen and a small notebook.

“Thank you, Old Master,” Ling Rou said.

Ni Min picked up a fountain pen and quickly signed her name. Her handwriting was free and elegant!

Ling Rou held the notebook tightly in her hand like a treasure.

Lin Fan smiled and said, "You've fulfilled your wish now, right?"

"Yes, yes!" Ling Rou nodded vigorously.

It was a small interlude of a fan meeting her favorite star.

The atmosphere became even more relaxed.

"Did you specially bring Ling Rou to Hong Kong this time?" Zhou Guotao asked.

Lin Fan said, "Ling Rou and Sister Ni Min are both singers. This time, she was nominated for the Golden Melody Award and the Best Newcomer Award. I came here with her for that."

Zhou Guotao revealed a look of realization.

Ni Min's eyes lit up. "I was just thinking that the name Ling Rou sounded familiar. So, you're the singer of Galaxy."

"The song has a light rhythm and is very nice to listen to. I've been listening to the song for a while now."

Ling Rou became even happier when she heard that.

After all, to be able to make one's idol like one's work was definitely something to be proud of.

"Thank you for your praise, Sister Ni Min. This song was composed by Lin Fan, and he sings it much better than me," Ling Rou said.

"Is that so?" Ni Min's interest was immediately piqued.

She loved music.

If Lin Fan was not the person who saved Tang Mingyuan and Tang Mingyuan was right here...

She would want to ask Lin Fan to sing for her.

Lin Fan smiled. "Ling Rou, you're too humble. You sing very well too."

"You're indeed very good. At least, in my opinion, there hasn't been anyone who can sing better than you in the past two years."

Ling Rou's pretty face immediately bloomed with a smile. "Really?"

"Yes," Ni Min said.

"Ni Min rarely praises people like this. It looks like this year's Golden Melody Award and Best Newcomer Award are all yours." Tang Hua laughed.

"Right, Ling Rou, you might not know yet, but Ni Min is this year's guest presenter."

Ni Min looked at Tang Hua without batting an eyelid.

In fact, the Golden Melody Awards had indeed invited Ni Min to be the guest of honor this year.

Rather, it was not just this year but almost every year.

However, every year, Ni Min would directly reject the offer.

This year was no exception.

However, since Tang Hua said so, there was naturally no problem.

"Yeah." Ni Min nodded.

"That's great!" Ling Rou said happily.

After lunch, Ling Rou and Lin Fan left the villa.

That was because the Golden Melody Award Ceremony was tonight.

Ling Rou needed to get her makeup done early and make some preparations.

When they arrived at the Peninsula Hotel, Li Fei, Ling Rou's manager, was already in a panic.

When she saw Ling Rou, she hurriedly asked the makeup artist to style her.

This took several hours.

However, one had to admit that the result was very good.

Ling Rou's long black hair was tied up in a bun. She wore a dazzling diamond necklace on her snow-white neck. She wore a white glass-like dress and a pair of exquisite crystal shoes.

She gave off the feeling of a fairy descending from the sky. She was so dazzling! *Novelnext.CoM*

"You're so beautiful." Lin Fan could not help but say.

When Ling Rou heard this, she felt as if she had eaten honey.

This year's Golden Melody Award Ceremony was held at the Times Hotel.

At this moment, a fiery red carpet was laid out in front of the entrance of the Times Hotel.

A woman with a hot figure in a gray dress slowly stepped onto the carpet.

The reporters in the distance started shouting.

"It's Dai Jiexi!"

"So beautiful!"

Then, the reporters picked up their cameras and pressed the shutter, and the flashes continued.

Dai Jiexi enjoyed the feeling of being the center of attention and being photographed, so she deliberately slowed down her steps.

At this moment, a Rolls-Royce Phantom stopped in front of the entrance of the Times Hotel.

Then, Ling Rou walked down slowly.

In an instant, the reporters could not help but scream.

“Heavens! Isn’t she too beautiful?”

“She’s definitely the most beautiful woman I’ve ever seen!”

“A woman? No! She’s a fairy!”

“Quick, take a photo!”

Instantly, the cameras that were originally focused on Dai Jiexi shifted to Ling Rou.

The flash shone on Ling Rou’s pretty face, making it look as bright as jade.

Ling Rou felt that it was too glaring, so she could not help but quicken her pace on the red carpet. Soon, she walked past Dai Jiexi.

Dai Jiexi’s expression was slightly cold, but in the eyes of outsiders, she maintained a smile.

When she signed her name on the signature board and strolled backstage, the smile on her face instantly disappeared.

What replaced it was endless coldness.

Dai Jiexi’s gaze locked onto Ling Rou. Then, she quickly walked toward her and bumped into her.

Ling Rou accidentally fell to the ground.

Dai Jiexi said, “I’m sorry, I accidentally bumped into you. Let me help you up.”

As she spoke, she reached out to pull Ling Rou up.

However, Dai Jiexi deliberately let go of her hand halfway through.

Ling Rou fell to the ground again.

Dai Jiexi slowly bent over and said coldly in Ling Rou's ear, "Next time, remember not to casually surpass your seniors."

Then, Dai Jiexi straightened her back. "Oh, it's my fault for being too weak. I can't even pull you up..."

As she spoke, she even swung her arms, looking a little exhausted.

Dai Jiexi had some acting skills.

Even if this scene was seen by others, it would probably be difficult for them to say anything.

After falling down twice, Ling Rou's body was in extreme pain. Her eyes were red from being wronged, and tears fell from them.

It took her a lot of effort to slowly get up from the ground.

At this moment, Lin Fan and Li Fei walked over from afar.

They were not nominated and were not allowed to walk the red carpet.

However, as Ling Rou's manager and boss, they could naturally come backstage.

Lin Fan quickly noticed that Ling Rou's eyes were red. He asked, "Ling Rou, what's wrong?"

The grievance in Ling Rou's heart exploded once again. She threw herself into Lin Fan's embrace, and her tears fell like raindrops.

Lin Fan's heart ached as he gently patted Ling Rou's shoulder. He said, "It's okay, it's okay. I'm here..."

After comforting her, Lin Fan asked, "Ling Rou, what happened? Did someone bully you?"

Chapter 404 - 404 Apologize; Admit Cowardly!

404 Apologize; Admit Cowardly!

Ling Rou hugged Lin Fan and felt his warm and broad chest.

She roughly explained what had happened.

Lin Fan's face immediately darkened. His eyes shot out two rays of cold light like sharp blades, shooting toward Dai Jiexi, who was standing not far away.

Dai Jiexi's heart trembled inexplicably, and she involuntarily took two steps back.

However...

It was useless.

Lin Fan strode forward and slapped Dai Jiexi's heavily made-up face.

Two whip-like sounds echoed back and forth at the scene.

Two bright palm prints immediately appeared on Dai Jiexi's face, and it gradually swelled up.

Lin Fan said coldly, "Apologize to Ling Rou."

These two slaps stunned Dai Jiexi.

After hearing Lin Fan's words, she finally reacted and shouted, "How dare you hit me?!"

As soon as she finished speaking, she stretched out her palm and was about to grab Lin Fan's face.

Lin Fan said sternly, "Looks like you didn't understand me!"

As he spoke, he raised his hand and slapped Dai Jiexi's face again.

Dai Jiexi's already red and swollen face gradually turned into something like a pig's head. Tears flowed down uncontrollably as she looked at Lin Fan with fear in her eyes.

She was scared of being beaten!

At this moment, a man in a white shirt walked over quickly.

"What's wrong, Jiexi?" he asked.

When Dai Jiexi saw the person who came, she looked like she had found her savior. She said in a panic, "Zheng Lei, you're finally here. Look at how he beat me up. Quickly take revenge for me."

Zheng Lei was Dai Jiexi's manager. Like Lin Fan and Li Fei, he could not walk the red carpet.

That was why he had only come over now.

At this moment, Zheng Lei saw Dai Jiexi's swollen face, which looked like a pig's head. He was extremely furious.

Dai Jiexi's popularity was largely due to her good looks.

Now that her face had been beaten to such a state, it would definitely affect her popularity.

Having her popularity be affected meant that his income would also be affected.

Zheng Lei was about to shout angrily.

At this moment, another set of footsteps could be heard not far away.

It was Wang Haohua, the chairman of Xin Mei Entertainment.

Even though the Golden Melody Awards were a huge deal, a chairman like Wang Haohua would not attend personally.

However, it was different this time...

This time, the boss' woman was nominated for the first time. She might even win an award.

He also received news that Boss Lin Fan had come personally.

In that case, Wang Haohua would not be absent.

When he saw Lin Fan and Ling Rou from afar, he quickly walked over and bowed slightly. He said respectfully, "Hello, Mr. Lin, Ms. Ling."

Lin Fan just glanced at him and did not say anything.

Zheng Lei, who was about to berate him, shut his mouth.

One had to know...

Xin Mei Entertainment was one of the top three companies in the entertainment industry.

Even Wang Haohua, the chairman of Xin Mei Entertainment, had to be so respectful to the young man in front of him.

In that case, the identity of this young man was worth considering.

"So, it's Chairman Wang. There must be some misunderstanding about what happened just now..." Zheng Lei said.

With that, he pulled Dai Jiexi and prepared to leave.

Dai Jiexi was very unhappy.

However, she was not stupid. She could only pout and leave.

Lin Fan said coldly, "You haven't apologized. Who allowed you to leave?"

Dai Jiexi was already unhappy. At this moment, she heard Lin Fan's words, and she saw that many people were already gathering around her.

She became bolder and shouted, "I'm leaving. If you have the ability, continue to hit me!"

Dai Jiexi continued walking forward.

Lin Fan took a step forward and raised his hand again.

Two more slaps landed on Dai Jiexi's face.

Immediately, a trickle of fresh blood slowly flowed out from the corner of her mouth.

Not only did Lin Fan attack, but his strength was even stronger than before!

Dai Jiexi's face was filled with fear and disbelief.

There were so many people standing around. She did not expect Lin Fan to dare to hit her.

Zheng Lei opened his mouth, wanting to say something.

However, when he saw Lin Fan's cold gaze, he swallowed his words.

"Apologize. I don't want to say it again," Lin Fan said calmly.

Dai Jiexi could not help but tremble. Her mouth seemed to be out of control as she stammered, "Yes... I'm sorry..."

Lin Fan said coldly, "Not to me but to Ling Rou!"

Dai Jiexi said again, "I'm sorry..."

Then, she ran forward as if he was escaping.

Seeing this...

The surrounding crowd also dispersed.

They understood that it was not necessarily a good thing to know too much about some things.

Lin Fan hugged Ling Rou's waist and said, "Are you feeling better now?"

"Yes, yes!" Ling Rou nodded vigorously, feeling extremely sweet inside her heart.

On the other hand, Li Fei and Wang Haohua, who were beside him, had a worried look on their faces.

...

Dai Jiexi placed ice on her swollen face and shouted, "I was just beaten up. What were you doing there? You didn't even let out a word. Are you even a man?!"

Zheng Lei found an excuse and said, "I... I was just worried that the more I spoke, the more disadvantageous it would be for you..."

"Didn't you see that even Wang Haohua, the chairman of Xin Mei Entertainment... was so respectful to that young man? He's definitely an extraordinary big shot!"

In fact, this was only one of the reasons.

More importantly, he was afraid.

He was scared by Lin Fan's tall figure and his strength.

What if he opened his mouth and got beaten up?

Dai Jiexi felt that what Zheng Lei said made sense.

However, she still said angrily, "But you couldn't just stand there and say nothing!"

“By not saying anything, it could calm him down a little,” Zheng Lei said. “I’ll make him think that we’re cowards. However, we can find trouble with him afterward!”

“Jiexi, aren’t you close to Sister Ni Min?” Zheng Lei asked after a pause. “I just received news that the guest of honor for this award ceremony has been changed to Sister Ni Min.”

“She’ll be here later. You just have to tell Sister Ni Min about this later. Do you think Sister Ni Min will let them have a good time?”

“No matter how powerful that man’s background is, can he compare to Sister Ni Min? Is he comparable to the Tang family?” *NoVELNext.cOM*

When Dai Jiexi heard this, her eyes immediately lit up. “Really? Sister Ni Min is the guest presenter?”

“How can it be fake? I heard it from the executive director,” Zheng Lei said.

“Good! When we meet Sister Ni Min later, I want to see how arrogant he and that b*tch Ling Rou can be!” Dai Jiexi grinned hideously.

It was as if she could already see Lin Fan and Ling Rou being ravaged by her.

Chapter 405 - 405 Twisting the Facts; Despicable!

405 Twisting the Facts; Despicable!

What happened backstage was only discussed in a small circle.

After all, this matter involved the popular celebrity Dai Jiexi and the mysterious young man...

Obviously, these two were not to be trifled with.

No one dared to gossip.

...

In the dressing room.

Ling Rou sat in front of the mirror and touched up her makeup.

This award ceremony was simply too important.

Creak!

The door to the dressing room was slowly pushed open.

Dai Jiexi, whose entire face was still red and swollen, walked in and sneered, "She's still touching up her makeup."

When Ling Rou saw her, she stood up in a panic.

Men were not allowed to enter the women's dressing room.

Thus, Lin Fan was not by her side.

"Don't tell me you think you can win some award?" Dai Jiexi continued. "What a joke!"

"Let me tell you, don't even think about winning any awards on this stage in your lifetime!"

Her words were extremely firm.

Dai Jiexi knew very well how influential the Tang family was at the Golden Melody Awards.

As long as she met Ni Min later, she would tell her about it.

Ling Rou would no longer have a place in the entertainment industry, let alone the Golden Melody Awards!

“Ling Rou, are you ready?”

Li Fei’s clear voice sounded from outside. As she spoke, she slowly pushed open the dressing room’s door.

When she saw Dai Jiexi, Li Fei’s expression changed, and she asked, “Ling Rou, are you alright? Should we call Mr. Lin over?”

When Dai Jiexi heard the words ‘Mr. Lin,’ she was so scared that her face turned slightly pale. She did not dare to stay any longer and turned to leave quickly.

She only heaved a sigh of relief when she reached backstage.

NoVELNext.cOM

At this moment, hurried footsteps sounded not far away.

Zheng Lei quickly ran over and shouted, “Jiexi, get ready. Sister Ni Min and Mr. Tang Hua are coming over soon!”

As Zheng Lei finished speaking, a noblewoman in luxurious clothes with an extraordinary temperament walked over slowly with a middle-aged man in a suit and leather shoes.

They were none other than Ni Min and Tang Hua!

They were here!

They really came!

Dai Jiexi ignored Zheng Lei and excitedly ran over, shouting, “Sister Ni Min!”

Ni Min turned around when she heard the voice.

Even though Ni Min and Dai Jiexi were cousins, they were very distant cousins.

In fact, before Ni Min became a celebrity, the two of them had never met.

After becoming a celebrity, she had only seen her a few times.

Dai Jiexi's face was red and swollen.

Ni Min could not recognize her at all.

Dai Jiexi saw that Ni Min was a little confused, so she spoke again, "Sister Ni Min, it's me. I'm Cousin Jiexi!"

She deliberately addressed her as her cousin to further improve their relationship.

As expected, Ni Min immediately remembered when she heard this and asked, "Jiexi, what happened to your face? Did someone bully you?"

Dai Jiexi was delighted.

Ni Min was indeed concerned about her.

'Ling Rou, Lin Fan, I'll teach you a lesson later!'

Dai Jiexi deliberately sobbed and said, "I... When I was backstage, I accidentally bumped into a newcomer.

"She felt that I did it on purpose, so she got her boyfriend to hit me..."

At this point, Dai Jiexi squeezed out a few tears.

Then, she quickly said, "I saw the chairman of Xin Mei Entertainment. He's very friendly to her boyfriend... Anyway, the matter was over. I'll just take it as though they were venting their anger."

Dai Jiexi had some acting skills.

With just a few words, she easily disguised herself as a pitiful sheep.

At the same time, she turned Ling Rou and Lin Fan into savage and vicious wolves.

Ni Min hated unreasonable people who bullied others.

This was because when she was a singer, she had also experienced such a pitiful and helpless time.

“We can’t just let it go like this!”

“Don’t worry, Jiexi,” Tang Hua said. “We’ll help you.”

Dai Jiexi bit her lip lightly, as if she was having an intense internal struggle.

In reality?

She was already dancing with joy in her heart.

Ni Min and Tang Hua both spoke up!

‘Lin Fan, Ling Rou... Very soon, you’ll be finished!’

At this moment, Lin Fan, Ling Rou, Li Fei, and Wang Haohua walked out.

Dai Jiexi’s expression changed slightly, and she put on a terrified expression.

She pointed at Lin Fan and Ling Rou, “They... It’s them!”

Tang Hua and Ni Min looked in the direction Dai Jiexi pointed.

In the next moment...

Both of their expressions changed.

Instantly, they no longer looked at Dai Jiexi pitifully. Instead, they looked at her with disgust, deep disgust!

One had to know...

Lin Fan had saved the life of the Tang family’s old master.

In addition, they also learned some things about Lin Fan from Zhou Guotao. He solved several math problems, invented the earthquake prediction device, the human islet recovery medicine, the super battery, and so on.

He was definitely a great scientist, a national treasure!

How could such a person be a tyrannical and reckless person?

What a joke!

Was she trying to fool them like monkeys?

When Tang Hua and Ni Min saw Lin Fan, Lin Fan also noticed them.

His expression remained calm.

On the other hand, the faces of Wang Haohua and Li Fei turned slightly pale.

They knew Ni Min and Tang Hua.

In the past, they had heard that Dai Jiexi seemed to have some relationship with Ni Min.

Now, seeing that Dai Jiexi was really with Ni Min, they could not help but panic.

One had to know...

Ni Min's husband was the current head of the Tang family!

The Tang family was one of the two most powerful forces in Hong Kong!

It was over!

It was over!

Lin Fan did not care about the two panicking people and walked toward Ni Min and Tang Hua.

After all, they were acquaintances.

...

When Dai Jiexi saw Lin Fan walking toward her, she laughed coldly in her heart.

'I was just thinking about how to teach you a lesson.

'I didn't expect you to come right over.'

"Are you talking about the young couple on the left?" Tang Hua asked with a gloomy face.

Dai Jiexi's entire heart was filled with joy, so she did not notice the changes in Tang Hua and Ni Min.

She put on an extremely frightened expression and said with a trembling voice, "Yes, yes...It's them. No, don't..."

At this moment, Tang Hua suddenly raised his hand and slapped Dai Jiexi's swollen face.

He really could not stand a woman lying to him like a stupid pig.

This slap stunned Dai Jiexi.

She covered her face in disbelief.

This...

This...

What was going on?

Why was she beaten up again?

Moreover, it seemed to be... Tang Hua?

Just as Dai Jiexi was in a daze, Lin Fan and Ling Rou walked over.

Tang Hua said with a slightly fawning tone, "Mr. Lin, Ms. Ling... Hello."

RICHEST MAN: GETTING 7 BILLION RED POCKETS TO START WITH

406 Return; Yadi Automobile! (1)

Silence.

The entire place was silent.

Dai Jiexi, Zheng Lei, Li Fei, and Wang Haohua were all stunned.

Tang Hua actually took the initiative to greet Lin Fan and Ling Rou.

Moreover, there was a hint of flattery in his tone.

Flattery?

The current head of the Tang family wanted to curry favor with Lin Fan and Ling Rou?

This...

This...

What was going on?

Lin Fan nodded at Tang Hua and Ni Min and said, "You guys are here?"

After a pause, he pointed at Dai Jiexi and said, "You know this sinister woman?"

"Sister Ni Min, Mr. Tang, don't listen to his nonsense..." Dai Jiexi's heart skipped a beat.

“Nonsense?” Lin Fan said. “Just because Ling Rou walked in front of you on the red carpet, you deliberately knocked her down. Then, you pretended to help her up, but in reality, you just wanted to threaten her.”

“Sister Ni Min, I’m your cousin. You have to believe me!” Dai Jiexi panicked. As she spoke, she was about to hug Ni Min’s arm.

Ni Min pushed Dai Jiexi away and said coldly, “Do I look like a fool?”

“In addition, I’m warning you. From now on, don’t rely on the fact that we’re cousins or say that we know each other to swindle people outside!

“Otherwise, you’ll have to bear the consequences!”

Ni Min hated people who played tricks on her the most.

As for their relationship as cousins, Ni Min directly threw it aside.

It was because she and Dai Jiexi could barely be considered cousins.

In fact, they were relatives. *novelnet.com*

Before Ni Min became a superstar, the two of them had never met.

Ni Min knew very well that Dai Jiexi only wanted to borrow her power.

However, she did not care too much about it.

It was because helping Dai Jiexi was just a small matter for Ni Min.

It was not a big deal to help someone who could barely be considered an acquaintance.

Now, however, this person who often borrowed her influence was using her to deal with the old man’s savior, a national treasure...

She was simply detestable!

How despicable!

As Ni Min's voice fell, Dai Jiexi's heart suddenly froze. She was in utter despair!

It was over!

She knew that she was completely finished!

Compared to Dai Jiexi's despair, Li Fei and Wang Haohua were filled with joy and excitement.

Even Tang Hua and Ni Min had to curry favor with their boss!

Good!

That was great!

Lin Fan, Ling Rou, Tang Hua, and Ni Min did not pay attention to the people who had different thoughts.

They walked forward and chatted casually.

After Lin Fan and the others left, Dai Jiexi said in a trembling voice, "Zheng Lei, I... What should we do now?"

"How am I supposed to know?!" Zheng Lei said in annoyance."

After saying that, he turned around and left.

As a manager, Zheng Lei understood the entertainment industry better than Dai Jiexi. At the same time, he understood the influence of the Tang family better.

Dai Jiexi's singing and acting skills were average, but because she had some connections with the Tang family, she was able to obtain a large amount of resources and become a popular celebrity.

Now, she had lost the Tang family and even offended them.

In that case, she would soon lose these things just like how she had obtained them previously!

“Zheng Lei, Zheng Lei!”

Dai Jiexi called out a few times and chased after him.

She was careless and fell to the ground. She fell flat on his face.

This scene was witnessed by the crowd not far away. They discussed in low voices and took out their phones to send messages.

...

As the lively music played, two hosts who were dressed elegantly walked onto the stage.

They talked about the development, influence, and meaning of music.

Their tone was impassioned, but at the same time, it was humorous, causing the crowd to cheer.

In addition, there were some song and dance performances in between, making the atmosphere extremely lively.

At this moment, the male host in a black suit said, “Next, we will proceed with the most exciting award ceremony!”

In the audience, the nominated singers all became solemn, feeling extremely nervous and expectant.

Among them included Ling Rou and Dai Jiexi, whose face was still red and swollen.

Lin Fan patted Ling Rou’s fair hand and said, “Don’t worry, there won’t be a problem.”

“Yes, yes!” Ling Rou nodded vigorously.

The male host exclaimed, “The winner of this year’s Golden Melody Newcomer Award is... Ling Rou!”

The sound system immediately started playing exciting music.

At the same time, everyone applauded enthusiastically.

Ling Rou was so happy that she was stunned.

She won an award!

She really won the Golden Melody Newcomer Award!

Lin Fan smiled. “Silly girl, what are you waiting for? Hurry up and go on stage.”

When Ling Rou heard his voice, she came back to her senses. She nodded vigorously and walked towards the stage.

A dazzling light shone on Ling Rou.

Ling Rou was already very beautiful, and she had dressed up meticulously today.

Now, under the illumination of the stage lights, her entire body became crystal clear. She was slender and beautiful. Everyone was mesmerized by her.

The male host could not help but say, “Oh my god, she’s so beautiful!”

“She’s definitely the most beautiful woman I’ve ever seen!”

After a pause, the female host continued, “Of course, Ling Rou isn’t just beautiful. Her songs are even more beautiful!

“I’ll never forget the grand concert in Jiangbei a few months ago. I’ll never forget the elegant and free Sword Dance, and I’ll never forget the long and crisp The World of Man... Of course, there’s also her best and most enjoyable song, Galaxy!”

Chapter 407 - 407 Return; Yadi Automobile! (2)

407 Return; Yadi Automobile! (2)

“Even though we’re only a few months into this year, I can say that Ling Rou is the most popular singer of the year!”

“Congratulations, Ling Rou!”

After the female host finished speaking, the audience burst into applause again.

At this moment, the male host said, “Next up, let’s invite our Heavenly Queen, Ni Min, to present the award to the winner of the Golden Melody Best Newcomer Award, Ling Rou!”

The applause became even more enthusiastic.

Some people applauded because of Ni Min’s identity.

They really liked Ni Min’s songs.

Even though Ni Min had not released a new song for several years, the songs that she had released in the past were still sung by many people and were liked by many.

It could be said that more than half of the people present were Ni Min’s fans.

Ni Min came to the stage and handed over a shiny trophy.

“Thank you, Sister Ni Min,” Ling Rou said happily.

What could be happier than her idol giving her an award?

“You deserve it,” Ni Min said with a smile.

The two of them stood together and spoke softly. Their faces were filled with smiles.

Countless flashes of light gathered on the two of them, making them extremely beautiful.

“Sister Ni Min, do you have anything to say to Ling Rou?” The female host handed over the microphone.

“A few months ago, when I accidentally heard songs like Galaxy, Three Lives, and The World of Man, I was immediately attracted by Ling Rou’s singing.

“At that time, I lamented that it had been a long time since a singer with such superb singing skills appeared in the music industry!

“Now, I’m not surprised to see her win the Golden Melody Best Newcomer Award because she deserves it!”

The venue once again erupted in warm applause.

They had never heard Ni Min praise a singer like this before.

Those who liked Ni Min also started to like Ling Rou!

Those who liked her became even prouder of her!

“Thank you, Sister Ni Min,” Ling Rou said excitedly.

When Ni Min and Ling Rou were about to walk down the stage, the two hosts stopped them.

“Sister Ni Min, Ling Rou, please wait a moment.” The male host laughed.

“Yes, I have to delay you for a little longer.”

The female host cleared her throat and said, "Next, we will present the most important award of the day! The winner of the Golden Melody Award is... Ling Rou's Galaxy!"

One person won two awards.

Moreover, they were the two most important awards.

The crowd burst into applause again.

"Sister Ni Min, please present the award to Ling Rou."

Ni Min picked up another transparent trophy and handed it to Ling Rou. She then picked up the microphone and said, "I just want to say that with Ling Rou's singing, it's only right for her to win these awards!

"In addition, these two awards are definitely not Ling Rou's end but her starting point!"

"Thank you, Sister Ni Min," Ling Rou said with a trembling voice.

She held the two trophies in her hands, and her eyes that were shining with starlight landed on Lin Fan.

She understood that the reason why she was able to win these awards was all because of Lin Fan.

...

In the audience.

Dai Jiexi's entire face was red and swollen. She looked at Ling Rou on stage and could not help but cry.

These awards were originally hers!

Now, there was nothing left. There was nothing left!

At this moment, Dai Jiexi's phone vibrated slightly.

A piece of news popped up.

[Dai Jiexi's relationship exposed. She's dating three people at the same time!]

One by one, photos of Dai Jiexi holding hands with different men as they entered the hotel, as well as their intimate actions, appeared on the internet.

Seeing this...

Dai Jiexi's phone fell to the ground.

It was over!

She was really finished!

After the Golden Melody Awards, Lin Fan and Ling Rou stayed in Hong Kong for a few more days before taking a private plane back to Jiangbei.

The next day, the sky was clear.

Lin Fan opened his eyes slowly.

He looked at his phone. A text message had appeared on the screen as usual.

[Notice from Merchant Bank: 7,542,900 yuan was deposited into your account.]

Then, he turned his attention to the sign-in system.

"Sign in!" *novelnext.com*

[Ding! Congratulations, you have obtained 20% of Yadi's shares.]

"20% of Yadi's shares?" Lin Fan's expression changed slightly.

A few years ago, Yadi was only a relatively low-end automobile company.

However, with the vigorous development of new energy vehicles in recent years, Yadi had gradually become a top automobile company domestically and even internationally, with a market value of nearly 800 billion yuan!

20% of the shares was about 150 billion yuan!

Lin Fan nodded and muttered, "Today's sign-in is not bad."

He yawned and slowly got up from the bed.

After washing up, he leisurely ate his delicious breakfast.

While he was relaxing, Wang Fugui, the chairman of Yadi Automobile, was uneasy.

That was because Wang Fugui had discovered that 20% of Yadi Automobile's shares had been acquired by someone else!

One had to know...

As the chairman and founder, he only had 24% of the shares.

As long as the other party bought more, they would be able to surpass him!

At that time, would Yadi Automobile still belong to him?

Wang Fugui sat on the soft executive chair and sighed. "Lin Fan is so young... Who exactly is he?"

Wang Fugui took out a stack of documents. After hesitating for a long time, he finally dialed the number according to the shareholder's information.

After a while, the call went through.

Wang Fugui said in a slightly nervous voice, "Excuse me, are you Mr. Lin Fan?"

...

At this moment, Lin Fan had just finished his breakfast. He wiped the grease off the corner of his mouth and said, "Yes, who are you?"

"Mr. Lin, I'm the chairman of Yadi Automobile, Wang Fugui," Wang Fugui said.

"Oh, Chairman Wang, hello," Lin Fan said.

Lin Fan had received calls like this many times.

Therefore, it was not too surprising.

“I know that you’ve bought 20% of our shares,” Wang Fugui said. “First of all, thank you very much for your trust in us!

“In addition, I will now give a simple explanation of the future development direction of our Yadi Automobile. If you have any suggestions or opinions, you can let me know. In the future, we’ll firmly develop battery-powered new energy vehicles and...”

However, before he could finish, Lin Fan said, “You don’t have to tell me this. The reason why I bought your shares is because I trust you. You...”

As Lin Fan said this, he suddenly stopped.

That was because a clear notification sounded in his mind.

[Ding! Reward: One ultra-speed battery, as well as its detailed research and development data, principles, etc., and your chemistry experience will be upgraded.]

When Wang Fugui heard the first half of Lin Fan’s words, he was so happy that he could not control himself.

Lin Fan did not want to listen to him talk about the development direction of Yadi Automobile because he trusted him.

In that case, he would not interfere with the management of the company!

This was definitely good news!

That was because if that was the case, Lin Fan would be no different from a normal small shareholder. He would only receive a fixed amount of dividends.

Just as Wang Fugui was overjoyed, Lin Fan said, "About the development of new energy vehicles, I'll call you later."

After that, Lin Fan hung up the phone.

Wang Fugui was the only one left holding his phone in a daze.

What was going on?

Did he not say that he believed in him?

Was he going to interfere with the company's new energy development?

Wang Fugui heaved a long sigh and got up to look at the vast scenery outside the window. He muttered, "What should I do?"

Chapter 408 - 408 Super Batteries; Buying Clothes! (1)

408 Super Batteries; Buying Clothes! (1)

Lin Fan had no idea what Wang Fugui was thinking.

At this moment...

Lin Fan drove the Cullinan to Jiangbei University, which he had not seen for a long time.

He did not choose to go to the classroom. Instead, he walked past the basketball court and went straight to the teaching building.

Even though Lin Fan had only been here once, with his photographic memory, he was as familiar with the entire teaching building as he was with his home.

Soon, Lin Fan arrived at the entrance of the chemistry teaching room and slowly pushed the door open.

Professor Zhao Xueqin and Professor Li Rongfa were leading three Ph.D. students to study something carefully.

After a long time of research, Zhao Xueqin's mouth was dry. He turned around and picked up the thermos cup to drink a mouthful of goji berry water.

In the next moment...

"Lin Fan!" Zhao Xueqin suddenly shouted excitedly."

As soon as he said that, Li Rongfa and the three Ph.D. students stopped their research and looked at Lin Fan.

Lin Fan coughed lightly and said, "Uh... Am I disturbing you?"

"No, no," Zhao Xueqin said.

"Why would you be disturbing us?" Li Rongfa asked. "We're so happy that you're here to guide the experiment."

Zhao Xueqin replied, "That's right!"

Their words were extremely sincere.

They still remembered clearly that Lin Fan had come to the laboratory for a stroll not long ago.

Then...

He wrote a paper on the principle and usage of super batteries and successfully published it in Science!

This thesis changed the mobile phone industry.

At the same time, it allowed the field of battery to take a big step forward!

What made Zhao Xueqin and Li Rongfa even happier was...

Lin Fan had actually put their names as the second author!

It was also because of this that Zhao Xueqin and Li Rongfa had recently become famous in the school and even the entire chemistry world!

This was the most glorious moment they had ever had in their lives!

Now, Lin Fan had come to the laboratory.

If he invented something or even wrote a thesis...

Thinking of this, Zhao Xueqin and Li Rongfa were excited.

“What are Professor Zhao and Professor Li researching now?” Lin Fan asked.

“The chemistry community unanimously believes that your super battery has already pushed the limits of small-scale batteries to what’s attainable in this century,” Zhao Xueqin hurriedly said.

“Therefore, we’ve recently stopped researching small-scale batteries and changed our direction to new energy vehicle batteries.”

Li Rongfa chimed in, “Yes, but since we’ve just started this project, everything is only in the initial stage.”

The two of them scrambled to answer.

It was as if they were trying to answer first.

After saying that...

The two of them looked at Lin Fan expectantly.

They were looking forward to Lin Fan giving them some guidance and help.

When had the students in the laboratory ever seen the two professors like this?

It was like a conversation between a student and a teacher.

However, none of them had any strange expressions.

That was because Lin Fan was publicly acknowledged as the number one person in chemistry!

Compared to the anticipation of the crowd, Lin Fan had a weird look on his face.

He had just received a mission regarding energy vehicle batteries.

It turned out that they just happened to be researching new energy vehicle batteries?

What a coincidence!

After a while, Lin Fan said, "Have you done any experiments?"

"We've already done material experiments and high-temperature experiments," Zhao Xueqin said hurriedly.

"Next, we're also preparing to do different kinds of efficiency experiments, high-molecular experiments, and so on," Li Rongfa added.

Lin Fan did not bother with Li Rongfa's words. As long as he had done experiments, it was fine!

His mission was to watch an experiment!

Lin Fan said, "Then you guys can experiment with the materials and show me what you've done."

"Alright!" Zhao Xueqin and Li Rongfa said in unison."

"Hurry up and prepare the experimental materials!" Zhao Xueqin turned around and said to the students.

“Everyone, get your spirits up. Treat this experiment as a graduation assessment!” Li Rongfa said.

“Yes, Sir!” the students shouted.

In fact, there was no need for the two of them to remind them.

The students also knew that this was a rare opportunity.

After all, Lin Fan was the number one person in terms of chemical batteries.

He was a big shot among big shots!

If they could get some pointers by doing experiments in front of him, it would definitely be a very rare opportunity!

Soon, the students sorted the different materials in order, including heating, compressing, and vaporizing. *NoVELNext.cOM*

The materials emitted different colors of light.

Then, a twisting curve appeared on the computer screen.

Half an hour later, the experiment slowly ended.

“Lin Fan, which material do you think is the most suitable?” Li Rongfa asked with anticipation.

After he finished speaking, Zhao Qin and the other professors looked at Lin Fan expectantly.

Lin Fan did not answer immediately but focused on the mission.

[Ding! Mission: Watch a battery experiment (1/1). Seeing this...

Lin Fan's lips curled up.

Half of the mission was completed!

Then, Lin Fan said, "I need to think about the specific materials."

After saying that, he turned around and left the laboratory.

"Alright, goodbye, Lin Fan," Zhao Xueqin raised his voice and said.

Chapter 409 - 409 Super Batteries; Buying Clothes! (2)

409 Super Batteries; Buying Clothes! (2)

"Goodbye, Lin Fan."

"Goodbye," the students said.

Lin Fan did not turn around. Instead, he waved his hand behind him.

Soon, he arrived at the library.

As usual, the library was overcrowded.

Lin Fan passed through the crowd, past the history bookshelves, and past the language bookshelves... He went straight to the battery and new energy bookshelf.

The Safety Analysis of Electric Vehicle Power Batteries, The Engineering of Batteries...

Ordinary people might have to search for the books slowly.

However, with a single glance, Lin Fan easily found all the books he needed.

Then, Lin Fan looked into the distance.

A female student in a gray dress with her hair hanging naturally on her shoulders was sitting there reading seriously.

It was Lu Ling, whom Lin Fan often met.

There were many books on the table next to Lu Lin, indicating that there was someone sitting there.

Lin Fan did not mind at all as he strode over.

Lu Ling seemed to have noticed something and slowly raised her head.

When she saw that it was Lin Fan, her brows, which were originally slightly furrowed because of the difficult questions, immediately relaxed. She said happily, "You're here? Sit down."

Lin Fan did not stand on ceremony and sat down.

Then, he flipped open the first book, *The Safety Analysis of Electric Vehicle Power Batteries*...

Immediately, there was a rush of flipping of pages.

In three minutes, a book with hundreds of pages had been flipped through.

Then, it was the second book, *The Engineering of Batteries*...

novelNExt.cOM

The third book, *The Technology Basics of Electric Vehicles*...

In just ten minutes, Lin Fan had finished reading all five books.

At this moment, a crisp notification rang out in Lin Fan's mind.

[Ding! Mission completed. [Ding! Mission: Watch a battery experiment (1/1). Read The Safety Analysis of Electric Vehicle Power Batteries, The Engineering of Batteries, The Technology Basics of Electric Vehicles, The Powertrain of Electric Vehicles, and The Theory of Vehicle Batteries (5/5). Reward: One ultra-speed battery, as well as its detailed research and development data, principles, etc., and your chemistry experience will be upgraded.]

[Ding! Chemistry Professor-Level Experience upgraded to Chemistry Academician Experience!]

All of a sudden, a vast amount of complicated chemistry knowledge, as well as complicated battery structures and principles, flooded into Lin Fan's mind like a tidal wave.

Lin Fan thought back to the things that this knowledge would bring him. His lips curled up slightly, revealing a faint smile.

Lu Ling saw that Lin Fan had finished flipping through all the books.

She could not help but ask, "Lin Fan, are you done reading?"

Lin Fan nodded. "Yeah."

"You really don't know quantum reading?" Lu Ling asked again.

Lin Fan smiled. "That's just a trick."

"Alright," Lu Ling said.

"You seem to be reading battery books again?"

"Yes, but this time, it's a new energy battery for cars," Lin Fan said.

Then, Lin Fan pointed at the questions written on the notebook in front of Lu Lin and asked, "Are these the questions that you don't know how to solve?"

Speaking of these questions, Lu Ling could not help but nod shyly.

Lin Fan casually glanced at them and wrote the solutions down without thinking.

The tip of the pen collided with the table, making a hurried sound.

Very soon, a series of very detailed calculations appeared on the notebook.

A moment later, Lin Fan stood up and said, "Take your time."

Although Lu Ling had seen Lin Fan answer difficult questions quickly many times, each time she saw him write out extremely detailed answers without thinking, she could not help but be surprised.

After a while, she stammered, "Okay... Alright."

Lin Fan did not hear this voice.

It was because he had already walked out of the library and arrived at the parking lot.

Lin Fan got into the Cullinan, stepped on the accelerator, and sped forward.

In just 20 minutes, he returned to the Coiling Dragon Villa.

Then, Lin Fan turned his attention to the system.

[Do you want to retrieve the super battery?]

"Yes!"

The next moment, a battery pack that looked like a desktop computer appeared in front of him.

Lin Fan sized it up and muttered, "Is this a super battery? It's not big."

Then, he lifted it with his hands and said, "About 20 kilograms. It's not too heavy."

Then, Lin Fan looked at the black super smart watch on his wrist and said, "Lil White."

“Master, I’m here.”

The super smart watch flickered slightly and made a crisp sound.

“Help me apply for the patent for this super battery.” Lin Fan pointed at the battery in front of him.

“Alright, Master,” Lil White said.

As soon as it finished speaking, the super smart watch shot out a red scanning line.

A few minutes later...

“Master, the global patent application has been completed.”

Then...

Electronic patent documents appeared on the screen of the super smart watch.

Lin Fan nodded his head in satisfaction and said, “By the way, Lil White, can you write a paper on this super battery?”

Every time he watched an experiment, he would have to write a thesis.

This had almost become a habit for Lin Fan.

“Master, I’ve already written it,” Lil White said.

Lil White seemed to have predicted that Lin Fan would need such a thesis.

Almost as soon as it finished speaking, an email popped up on Lin Fan’s phone.

It was titled ‘The Principle and Use of Super Batteries!’

In fact, Lil White even wrote Lin Fan’s name on the position of the first author.

Li Rongfa and Zhao Xueqing names were placed as the second author.

Lin Fan was satisfied. "Good job!"

"I sent it to Science last time, so this time... Nature!"

"Lil White, tell the editor of Nature to review it as soon as possible."

"Yes, Master!" Lil White replied.

..

It was midnight in America.

In the house of Esmond Bevan, the editor of Nature, all kinds of electrical appliances suddenly started ringing.

However, he was not afraid or angry.

On the contrary, he became extremely excited and quickly turned on his computer.

Sure enough, an email appeared on the screen.

"The Principle and Use of Super Batteries!"

Esmond Bevan did not read the content immediately but flipped to the author page.

"First author, Lin Fan of Jiangbei University!"

"It really is him, haha! That's great!"

After Esmond Bevan finished speaking, he began to read the content carefully from beginning to end.

As he continued reading, Esmond Bevan became more and more excited.

"A new energy car, this is a new energy car!"

"If the data on it is accurate..."

"It will completely overturn the entire automobile industry!"

At this point, Esmond Bevan quickly took out his phone and dialed the number of the managing editor.

Not long after, the chemistry laboratory at Hemp Rope Technology University lit up.

Even though it was midnight, many white-haired chemistry experts drove to the laboratory and could not wait to do complicated experiments.

...

Lin Fan was completely oblivious to all of this.

Originally, he wanted to go to school for classes today.

After all, he had not been to class for a few days, but he had encountered a mission.

Additionally, he had already returned home.

He was too lazy to go to school.

When he arrived at school the next day, he realized that it was Saturday.

Lin Fan hesitated for a moment before driving the Cullinan to Yi Ke City.

At this moment, Qiu Ziqian and Huang Ling were sitting on the sofa watching a movie.

When they saw Lin Fan's smiling face, they quickly went forward and held Lin Fan's arms.

Lin Fan looked at how happy they were. It was as if he had been infected and was very happy as well.

Then, he took out his phone and transferred ten million yuan to each of them. "I transferred some money to you guys to buy some clothes."

Huang Ling felt the phone in her pocket vibrate and picked it up out of habit.

The next moment, she immediately opened her mouth wide and said, “Ten million!”

Qiu Ziqian was also shocked. She leaned her head on Lin Fan happily.

Then, she whispered into Lin Fan’s ear, “Actually, we’ve already bought a lot of clothes. Nurses, teachers, nannies, white-collar workers, cats, dogs...”

Chapter 410 - 410 Shocking; I’ve Invented It!

410 Shocking; I’ve Invented It!

In the chemistry laboratory of Hemp Rope Technology University in America.

The intelligent experts in chemical battery who were white-haired and wore presbyopic glasses quickly wrote the reaction equation and discussed it from time to time.

In the end, they all focused their attention on the computer screen.

One hour, two hours...

Gradually, pages of extremely complicated diagrams and calculations appeared on the screen.

Immediately, the crowd erupted in enthusiastic praises.

“Oh my god! The power can actually reach such a level!”

“I can’t believe my eyes!”

“If this battery is manufactured, according to the energy consumption calculation, the endurance of the new energy vehicle can reach... more than 2,500 kilometers!”

“Traditional cars will be completely eliminated!”

“The person who researched it is a genius, definitely a genius!”

...

The editorial department of Nature quickly received feedback from Hemp Rope Technology University.

The editors were well aware of what this research represented.

It would definitely shake the world!

Therefore, the entire editorial department seized the time and published a full-page supplement on ‘The Principle and Use of Super Batteries.’

Tongyong Car Group.

Accius slowly poured a cup of steaming hot coffee into his mouth.

He was extremely satisfied.

Creak!

At this moment, the door to the chairman’s office was suddenly pushed open.

A white man walked in hurriedly.

Accius frowned. “Jer, I’ve told you many times. No matter what happens, as long as the sky doesn’t fall, you must stay calm!”

Jer took a deep breath and said, “Yes.”

Accius nodded in satisfaction and said, “Tell me. What happened?”

“Professor Mary Witt, Professor Justus, Professor Brewer, and other battery experts were invited by Nature to review a paper called ‘The Principle and Use of Super Batteries.

“After their repeated verification, the data in this thesis is completely correct.

“This super battery can be used in new energy vehicles with a cruising range of more than 2,500 kilometers.”

Accius dropped the coffee cup in his hand to the ground.

“The sky has collapsed!”

...

The headquarters of Shuangtian Car in Island Country.

Chairman Taro Yamamoto stared at the report in front of him without blinking. A thin layer of sweat gradually seeped out of his forehead.

The next moment, he stood up abruptly.

“2,500 kilometers, 2500 kilometers!

“F*ck!

...

In fact, it was not just the automobile industry.

When the oil and energy industries saw this thesis, they were completely shocked!

...

As for Lin Fan, who was the one who started all this, he stayed in Yi Ke City for the weekend, living a blissful life.

Monday morning, after Lin Fan ate the breakfast Qiu Ziqian and Huang Ling prepared, he drove the Cullinan to Jiangbei University.

“Lin Fan!”

Lin Fan had just gotten out of the car.

Not far away, two extremely excited voices sounded.

Lin Fan followed the voice and saw that it was Professor Li Rongfa and Professor Zhao Xueqin. *nOVElnext.COM*

They seemed to have been waiting for Lin Fan here. The moment Lin Fan appeared, they immediately called out.

“Professor Li, Professor Zhao, good morning!” Lin Fan said.

“Morning, morning...” Li Rongfa and Zhao Xueqin hurriedly said.

Then, Li Rongfa said in a solemn yet excited tone, “Lin Fan, thank you.”

“Thank you!” Zhao Xueqin bowed slightly.

As they spoke, they took out the latest Nature journal. On the cover was the paper titled ‘The Principle and Use of Super Batteries.’

Seeing this...

Lin Fan nodded his head and said calmly, “What are you thanking me for? I watched your experiment and got to write this thesis because of it. You deserve to be the second authors.”

When Zhao Xueqin and Li Rongfa heard this, they became even more excited and grateful.

What did he mean when he said he only managed to write this thesis after watching their experiment?

Their experiment that day was just a very basic new energy experiment.

The Principle and Use of Super Batteries directly demonstrated the ultimate results of new energy that far surpassed the era.

The experiment had nothing to do with it!

Zhao Xueqin and Li Rongfa had no doubt that Lin Fan had already written the thesis.

The reason why he came to the laboratory was to find an excuse to take care of them.

It was probably the same with the previous super battery thesis!

Thinking of this, Zhao Xueqin and Li Rongfa looked at Lin Fan with gratitude and excitement.

They bowed in unison and said sincerely, “Lin Fan, we know the truth. Thank you!”

Lin Fan’s lips twitched.

They knew the truth?

However, from the looks of it, they did not seem to know.

Forget it, forget it. In any case, what he said was the truth. He could let them think whatever they wanted.

At this moment, another excited shout sounded from behind.

“Lin Fan!”

Lin Fan followed the voice and saw that it was the director of the Institute of Science, Feng Zhixiang.

Feng Zhixiang’s eyes were bloodshot, as if he had not slept the entire night.

In fact, Feng Zhixiang did not sleep the whole night.

Last night, he suddenly found out that Lin Fan had published a paper titled The Principle and Use of Super Batteries. He then took the earliest flight and arrived at Jiangbei overnight.

Feng Zhixiang ran toward Lin Fan and almost tripped over the door.

However, he did not care at all. He hurriedly said, “Lin Fan, how far have you gone with your research on the battery? When can it be produced?”

Zhao Xueqin and Li Rongfa pricked up their ears.

They were also very curious about this.

Lin Fan yawned. “When? I’ve already invented it.”

“You invented it?!” Feng Zhixiang’s eyes widened, and he quickly said, “Is what you said true?”

“Yes,” Lin Fan said.

“Good, good, good, hahaha! That’s great!” Feng Zhixiang shouted toward the sky.

It was no wonder that he would be like this.

One had to know...

Since foreign countries developed cars decades earlier than Hua Nation, all kinds of technologies and patents were in their hands.

If Hua Nation wanted to develop cars, they had to find another way!

After careful research and discussion, Hua Nation finally set its sights on electric vehicles.

The super battery that Lin Fan had developed could be used perfectly in electric vehicles, allowing Hua Nation’s cars to overtake others!

Zhao Xueqin and Li Rongfa, who were beside them, listened to their conversation. Their jaws dropped, and they were completely stunned.
