

RICHEST MAN: GETTING 7 BILLION RED POCKETS TO START WITH

Chapter 451 Play; Arrival (2)

"When did you wake up?" Qin Yuxuan asked happily.

"Just now," Lin Fan said.

Pausing, Lin Fan continued, "You must be tired during this period of time."

Qin Yuxuan said, "It doesn't matter if I'm tired... Most importantly, I feel very fulfilled. I'm very satisfied to see the projects grow."

As she said this, her beautiful eyes seemed to flicker.

Obviously, she really enjoyed it.

Lin Fan stroked Qin Yuxuan's hair gently, his heart aching for her.

At this moment, the doorbell rang.

"Your breakfast is here."

Lin Fan opened the door slowly.

A waiter pushed a small cart in and served exquisite breakfast to the table.

Then, he respectfully said, "Please enjoy."

Hence, Lin Fan and Qin Yuxuan sat together and tasted the delicacies.

Eating with the person he loved seemed to make his appetite especially good.

Soon, they finished all the food.

Lin Fan and Qin Yuxuan's faces were filled with satisfaction. Then, the two of them leaned against each other, looking very blissful and sweet.

...

At this moment, at Modu International Airport.

Audis and Jeeps lined up neatly at the airport, forming a square.

The black mass of people looked up at the sky, their eyes filled with anticipation.

"Rumble!"

The next moment, a luxury plane landed.

A white-haired old man slowly walked out of the plane under everyone's gaze.

A man in a white shirt quickly went up to him and said happily, "Mr. Ye, welcome to Modu."

Ye Xiu looked at the scene in front of him with a nostalgic expression.

After a while, he said in a slightly hoarse voice, "This is thoughtful... However, I have some important matters to deal with later, so I can't invite everyone to a banquet for the time being to express my gratitude..."

"Cough, cough, cough!"

Ye Xiu's body was not in good condition.

Now, after a bumpy night on the plane, he looked even weaker.

After coughing for a while, he turned his gaze to the four great families.

"Where's Mr. Lin?"

Although it was just a simple question, it made everyone from the four great families extremely excited.

Elder Ye!

They had met Elder Ye!

Moreover, Elder Ye even spoke to him!

"Mr. Lin should be at the Shangri-La Hotel," the Wang family's patriarch said respectfully. "I'll invite him over now."

"No need, I'll go personally to see Mr. Lin!"

After saying that, he got into the car that bore a red flag in front of him and sped away.

The people from the four families did not dare to hesitate at all. They also got into their own cars and followed closely behind.

As for the man in white and the others, they stood where they were and silently watched the shadow of the car with the red flag leave. They pondered for a while.

Elder Ye wanted to visit Mr. Lin personally.

Who was this Mr. Lin?

"Leader, should we follow them?" asked the middle-aged man beside the man in the white shirt.

The man in the white shirt shook his head. "If we follow him without permission, we'll make him unhappy."

"Then... should we investigate Mr. Lin?" the middle-aged man said.

The man in the white shirt thought for a moment and said, "I'm afraid this is not something we can decide. Let's report it to the capital."

He was definitely not joking.

He had a certain understanding of Ye Xiu.

He was the current leader of the Qing Hong Sect!

How high was his status?

What kind of status would Mr. Lin, whom Elder Ye wanted to personally visit, have?

Then, the man in the white shirt thought of Ye Xiu's old face and how he had coughed up blood. "Elder Ye's health must also be reported. I hope nothing happens to him."

...

Ye Xiu's team faced no obstructions on the road.

A moment later, they arrived at the lobby of the Shangri-La Hotel.

However, Ye Xiu did not go directly to the presidential suite where Lin Fan was. He took a few deep breaths and said, "Lil Wang, call Mr. Lin and ask if I can go up and visit him."

When the people from the four families heard this, they were shocked.

Ye Xiu coming to Modu personally just to see Lin Fan had already shocked them.

Just now, he took the initiative to come to the Shangri-La Hotel, which surprised them again.

Now... they were about to meet Lin Fan, but Ye Xiu actually wanted to ask for permission!

This...

To think that Lin Fan held such a high position in Ye Xiu's heart!

The four great families were shocked and terrified.

They started to think about whether or not they had neglected Lin Fan in the past two days.

Then, they thought of Liu Kaijun, who had offended Lin Fan yesterday.

Yesterday, they felt that letting the Liu family live on the streets was already a severe punishment.

From the looks of it now, it might not be enough!

The middle-aged man beside Ye Xiu, Ye Feng, could not help but open his mouth when he heard Ye Xiu's words. "Old Master, you..."

However, before he could finish speaking, Ye Xiu's sharp eyes swept over him, scaring Ye Feng into shutting his mouth.

... n0vElnExt.cOM

At this moment, Lin Fan and Qin Yuxuan were snuggling together, enjoying their sweet time.

At this moment, Lin Fan's phone rang.

He looked at the caller ID. It was the patriarch of the Wang family, one of the four great families in Modu.

Lin Fan did not hesitate and answered the call.

"Hello, Mr. Lin," the patriarch said respectfully.

Lin Fan said, "Hello. Is anything the matter?"

The other party was an old man, so he should also give the other party some respect.

The patriarch of the Wang family said, "Elder Ye is already in the lobby of the Shangri-La Hotel. He asked me to ask if he could go up and meet you."

Lin Fan thought for a moment and said, "Alright, he can come up."

Yesterday, the people from the four families told Lin Fan that Ye Xiu might come back from America to see him.

He was already so old, yet he specially came from the other half of the world to ask for instructions...

It could be said that the man was showing the utmost courtesy.

Under such circumstances, if Lin Fan was not even willing to meet him...

That would be too unreasonable of him.

Ye Xiu was very happy that Lin Fan agreed to let him go up. When he reached the door of the presidential suite, he tidied his clothes before pressing the doorbell.

"Please come in," Lin Fan said.

Ye Xiu pushed open the door and slowly walked in. The people from the four families continued to wait outside like servants.

After Ye Xiu walked into the suite, his turbid gaze landed on Lin Fan and the dragon ring in his hand. He was extremely excited.

Then, he bowed 90 degrees and said respectfully, "Ye Xiu from the Qing Hong Sect greets the sect master!"

Sect master?

That was right! Lin Fan was the sect master!

Lin Fan was the heir of the Qing Hong Sect's founder, and he had the dragon ring. If he was not the sect master, then what was he?

Even though Lin Fan knew that Ye Xiu was an old man, after seeing his appearance, he could not help but be surprised.

One had to know...

Lin Fan had Sun Simiao's Medical Experience.

With his traditional medicine skills, he could tell that Ye Xiu was definitely over a hundred years old.

It was tough for an old man like him to travel thousands of kilometers and rush to Modu overnight just to pay his respects.

Moreover, he had lung cancer, heart disease, diabetes, and many other illnesses.

If he was careless, he could very well die during the journey.

"Cough, cough, cough!"

Perhaps it was because he was too excited to see Lin Fan or perhaps it was because he had traveled a long distance, Ye Xiu suddenly coughed violently.

Qin Yuxuan, who was standing at the side, cried out in fear, "Old man, what's wrong? Why are you coughing up blood?!"

When Ye Feng and the people from the four families who had been waiting outside heard these voices, they could no longer wait outside. They could not help but push open the door and barge in.

Even though Ye Xiu was seriously ill and fell into a coughing fit, he only wiped the blood from the corner of his mouth. When he recovered, he turned around and shouted, "Bastards, who let you in?!"

"Cough, cough, cough!"

After saying that, he coughed again.

[RICHEST MAN: GETTING 7 BILLION RED POCKETS TO START WITH](#)

Chapter 452 Drink It; Command!

In Ye Xiu's heart, Lin Fan was the direct descendant of the Qing Hong Sect's patriarch and the current sect master of the Qing Hong Sect. He had supreme status!

How could others casually barge into the room he was staying in and disturb him?

Lin Fan waved his hand and said, "It's fine."

As he spoke, he spent ten million yuan to exchange for a bottle of Medical Water from the system.

Then, he handed it to Ye Xiu and said, "Drink this."

Even though Lin Fan and Ye Xiu had only interacted for a short while, Lin Fan already had a good impression of him.

Therefore, he was willing to help him.

Ye Feng, who was standing at the side, looked at the unknown liquid in Lin Fan's hand, and his eyes narrowed.

Drink it?

What kind of status did Ye Xiu have?

Whether it was his food or drinks, they had to go through strict checks.

What if it was poisonous?

Moreover...

Ye Xiu's body was in a terrible state.*nOvElnExt.cOM*

Even if it was not poison, he could not consume anything so casually.

His body would not be able to withstand it if anything went wrong.

"Old Master, you..."

However, before Ye Feng could finish speaking, Ye Xiu swept him with a cold gaze. He was so frightened that he did not dare to speak.

Ye Xiu did not hesitate and poured the Medical Water into his mouth.

He did not believe that Lin Fan would poison him.

Even if it was poison, so what?

If the sect master wanted to kill him, he had no choice but to die!

Under the watchful eyes of Ye Feng and the people from the four great families, Ye Xiu slowly swallowed the medicine.

In the next moment...

Ye Xiu was stunned.

At first, he felt pain all over his body and was extremely uncomfortable.

As the liquid entered his stomach, he felt a sense of relaxation and comfort that he had not felt for a long time.

This feeling...

It was like a rusty machine that had been refilled with grease!

At this moment, Ye Xiu even had the illusion that all the pain in his body had disappeared!

Disappeared?

How was this possible?

One had to know...

He was suffering from many incurable diseases that could not be treated at all!

Ye Feng, who was standing behind him, saw that the old man was standing still after drinking the unknown liquid. He immediately had a bad feeling.

"Old Master, are you alright?"

Then, he shouted at Lin Fan, "What did you give the old master?!"

When Ye Xiu heard this, he came back to his senses.

"Bastard!" he shouted sternly. "Who gave you the guts to shout at the sect master like this?!"

Ye Xiu's voice was no longer as weak as before.

Instead, it was full of energy and was very loud!

Then, he picked up the dragon-headed cane in his hand and fiercely smacked Ye Feng.

It was extremely powerful!

Ye Feng was careless and even fell to the ground.

Seeing that Ye Xiu was fine, he heaved a sigh of relief.

Then, he said in a very flustered tone. "I'm sorry, I lost my manners."

"You lost your manners? You offended your superior, you bastard!" Ye Xiu shouted angrily. He picked up the cane again and ruthlessly smacked Ye Feng.

This time, Ye Xiu was truly furious.

On one hand...

Just as he had said, it was an act of defiance!

On the other hand...

He could clearly feel that his body had recovered.

A bottle of medicine had healed his body. I think you should take a look at

He knew very well how precious this bottle of medicine was.

In the end, his savior was suspected by Ye Feng. He was simply a bastard!

At this moment, Lin Fan said, "Alright, there's no need to hit him. He was just worried about you. However, I don't want it to happen again."

"Yes."

Then, Elder Ye turned to Ye Feng and shouted, "Hurry up and thank the sect master!"

Ye Feng, who was lying on the ground, endured the pain in his body and said, "Thank you, Sect Master."

Ye Xiu ignored Ye Feng. He sighed and said, "Sect Master, you gave me such precious medicinal liquid that made all the illnesses in my body disappear without a trace... I... I'm really ashamed!"

His words were not pretentious at all.

He was very sincere.

This was because Ye Xiu understood that a treasure like the Medical Water, which could be considered a godly medicine, was extremely rare and precious.

Otherwise, Lin Fan would not have carried it with him all the time.

In the end, he gave it to him.

If something happened to Lin Fan's body in the future, what would he do?

Ye Xiu was an old man who was over a hundred years old. He had one leg in the grave. He couldn't compare to Lin Fan at all.

Ye Feng, who was crawling on the ground, was slightly stunned when he heard this.

What did Elder Ye just say?

All his illnesses had disappeared without a trace?

Yes!

Elder Ye's voice seemed to be very loud and clear.

In addition, when he hit him just now, he was also very powerful.

Elder Ye had really gotten better!

Thinking up to this point, Ye Feng's face was filled with smiles. The way he looked at Lin Fan was filled with respect and admiration.

Lin Fan could tell that Ye Xiu's words came from the bottom of his heart. He nodded his head and said, "What I gave you was Medical Water. It's nothing to me."

When Ye Xiu heard this, he heaved a sigh of relief.

At this moment, Qin Yuxuan, who was standing at the side, suddenly said in surprise, "You're Mr. Chen, Mr. Wang, Mr. Huang, and Mr. Zhao!"

Currently, Fan Yu Investment was one of the top investment companies in Modu.

As the chairwoman of Fan Yu Investment, Qin Yuxuan was obviously more knowledgeable than Zhang Ting.

Earlier, she had panicked because Ye Xiu had coughed up blood.

Qin Yuxuan finally regained her senses and looked around.

With one look...

She realized that among the people who had just barged in, there were actually people from the four great families of Modu. They were even the patriarchs of the four great families!

Any one of the patriarchs of the four great families could cause the entire city to shake with just a stomp of their feet.

Now, they were actually gathered together!

Moreover, they had appeared in front of her!

No wonder Qin Yuxuan was so surprised.

When the four leaders heard Qin Yuxuan's words, they were so frightened that their bodies trembled.

One had to know...

Qin Yuxuan was Lin Fan's girlfriend. How could they be worthy of her comment?

Even Elder Ye was so respectful in front of Lin Fan.

"You can just call me Lil Wang."

"Just call me Lil Chen."

"Just call me Lil Huang."

"Just call me Lil Zhao."

Qin Yuxuan was stunned.

Lin Fan smiled and said, "Yuxuan, they booked the entire theme park for us yesterday. Also, if you have any problems in Modu, you can ask them for help."

"You can command us at any time."

"Just treat us as your subordinates."

"Yes, yes!"

...

When Qin Yuxuan heard the words of the four leaders, she was stunned again.

Commanding them at will and treating them as subordinates?

This...

Chapter 453 - 453 Return; Entry!

453 Return; Entry!

Qin Yuxuan knew that Lin Fan was very capable. He had several supercars and could easily take out hundreds of millions of yuan to help her start her company.

He could even buy the entire Global Financial Building.

However, she never expected that the patriarchs of the four great families of Modu would be so polite to her because of Lin Fan. They even did not hesitate to call themselves subordinates.

As for Lin Fan, he was not too bothered by the words of the four family heads.

He just casually chatted with Ye Xiu.

From Ye Xiu, Lin Fan learned that the world's largest oil field, a quarter of Silicon Valley, and hundreds of listed companies in the US stock market all belonged to the Qing Hong Sect.

Lin Fan did not have much of a reaction to all of this.

To him, companies and funds... were just a string of numbers.

However, Qin Yuxuan, who was sitting at the side, was completely dumbfounded.

...

At this moment, in Jingbei.

The extremely dignified man picked up the phone on the table and pressed the answer button.

"Leader, Elder Ye has already arrived in Modu, but he said that he has something important to do and doesn't want us to follow him. Also, his physical condition doesn't seem to be good.

"Also, Elder Ye is very concerned about a Mr. Lin. He seems to have come to Modu this time to pay a visit to Mr. Lin."

Mr. Lin?

The dignified man frowned.

At this moment, an email popped up on the computer screen in front of the dignified man.

It was Lin Fan!

Seeing this...

The dignified man was stunned.

"Alright, I understand."

After saying that, he hung up the phone.

Only the man in the white shirt sitting in the Audi was left. He held his phone and was at a loss.

That was it?

Elder Ye's identity was very special, no?

'Didn't you ask me to take good care of and protect Elder Ye?'

He was not in good health and wanted to meet a mysterious Mr. Lin.

What did the dignified man know?

What should the man in the white shirt do now?

...

Lin Fan did not care about any of this.

After listening to Ye Xiu talk about the Qing Hong Sect for a while, he boarded a luxurious private jet to Jiangbei.

He was still a professor at Jiangbei University. It would not be good to let his students study by themselves.

Tonight, he was alone, lying comfortably on the big bed in the Coiling Dragon Villa. He slept very comfortably.

...

In the blink of an eye, it was the second day.

"Today, I caught another big bug!"

"I caught two!"

Following the sound of two sparrows chirping outside the window, Lin Fan slowly opened his eyes.

Out of habit, he glanced at his phone. A text message had already appeared on the screen.

[Notice from Merchant Bank: 36,989,010 yuan was deposited into your account.]

Then, Lin Fan muttered, "Let's see what the sign-in reward is today."

"Sign in!" *nOvElnExt.cOM*

[Ding! Congratulations, you've received ten million yuan.]

Seeing this...

Lin Fan chose to ignore it.

After breakfast, he drove the Cullinan straight to Jiangbei University.

Although it was not time for class yet, Xia Bing, Xia Xue, Nie Zhenjiang, Hao Zhiwu, Liu Qianqian, and Jiang Chaoqun had already arrived at the office early and were studying very seriously.

Lil White, who was lying on Hao Zhiwu's shoulder, was the first to notice Lin Fan and let out a crisp meow.

"Master, you're here!"

Then, Lil White jumped down from Hao Zhiwu's shoulder and rubbed against Lin Fan's feet.

Lin Fan stroked the cat, Lil White, a few times.

Then, he tore open a bag of premium beef cat food.

Lil White buried its head into the premium beef cat food and ate happily.

In the beginning, when Hao Zhiwu saw Lil White like this, he was so angry that his teeth hurt.

Now, he was completely used to it.

He hurriedly stopped the ballpoint pen in his hand and excitedly came in front of Lin Fan. “Professor Lin, have you told Chairman Ran? Will I be able to go to the closed beta base tomorrow?”

No wonder he was so excited.

According to the news released by Dahua Group, tomorrow was the closed beta.

The day before yesterday, Dahua Group had already announced the closed beta list.

However, Hao Zhiwu realized that his name was not on it, which made him anxious.

After all, this was the gaming helmet experience that he had always dreamed of!

Lin Fan was stunned for a moment before saying, “Oh, you mean the gaming helmet? Alright, I’ll tell Ran Fei now.”

Hao Zhiwu froze.

What Professor Lin meant was... he had not called Ran Fei yet?

His name had not been added yet?

Lin Fan did not pay much attention to Hao Zhiwu, who was frozen. He took out his phone and dialed Ran Fei’s number.

During this period of time, there was the carbon-based chip and the gaming helmet...

It could be said that Ran Fei, the chairman, was very busy.

However, when he saw that it was Lin Fan, he immediately answered the call.

“Mr. Lin, what instructions do you have?” Ran Fei asked.

Instructions?

Ran Fei was half-joking and half-serious.

Lin Fan was now the biggest shareholder of Dahua Group.

At the same time, he became the soul of Dahua Group.

Many employees of Dahua Group idolized Lin Fan!

Lin Fan smiled and said, "I don't have any instructions. I have a student who wants to participate in the closed beta testing of the gaming helmet tomorrow. Are there any slots left?"

Ran Fei thought for a moment and said, "We've publicly recruited 100 beta players worldwide. However, our Dahua Group has also arranged for dozens of employees to experience it. Professor Lin, you can let your student participate in the closed beta as one of the dozens of employees."

"Alright, that's settled then." Lin Fan nodded.

When Hao Zhiwu found out about this, he was so excited that he wanted to give Lin Fan a big hug.

However, Lin Fan quickly dodged to the side and said, "My sexual orientation is normal!"

At this moment, Xia Bing and Xia Xue each took a bottle of energy drink and came in front of Lin Fan.

Lin Fan casually took them and drank a mouthful of each of the two bottles.

Seeing this...

Xia Bing and Xia Xue looked like they had drunk honey, and their faces were filled with sweetness.

If it were in the past, Liu Qianqian would inevitably sigh upon seeing this scene and feel that it was not worth it for Xia Bing and Xia Xue.

At this moment, however, the image of Lin Fan standing outside the basketball court and casually throwing the basketball into the basket appeared in her mind. She could not help but reveal a look of admiration.

However, Liu Qianqian shook her head hard and said to herself, "Professor Lin already has a girlfriend, Professor Lin already has a girlfriend. Professor Lin already has a girlfriend!

"Professor Lin is a scumbag! Professor Lin is a scumbag! Professor Lin is a scumbag!"

Instantly, Liu Qianqian looked at Lin Fan with a calm gaze.

RICHEST MAN: GETTING 7 BILLION RED POCKETS TO START WITH

Chapter 454 Game; Human Resources Director! (1)

In the blink of an eye, it was the second day.

Xia Bing, Xia Xue, Liu Qianqian, Nie Zhenjiang, and Jiang Chaoqun were still reading seriously in the office.

Hao Zhiwu, on the other hand, arrived at the Jiangbei branch of Dahua Group early in the morning.

A man in a suit said, "Next, you'll participate in the closed beta of Dahua Group's gaming helmet.

"In this internal test, we'll use the mode of playing for one day and resting for one day. The game time is eight hours per day, and the internal test game

time is 56 hours in total. In other words, you'll have to stay in Dahua Group for 14 days.

"During the internal testing period, Dahua Group will provide accommodation, food, drinks, and closed management of physical examinations. In addition, we'll offer a subsidy of 5,000 yuan.

"Once you confirm your participation, you're prohibited from leaving the enclosed area midway. Violators will be fined ten times the subsidy. Do you confirm your participation in the closed beta testing?"

After saying that, he took out a confirmation letter.

Hao Zhiwu's dream was to play with a gaming helmet.

Moreover, he could get 5,000 yuan for gaming. How could he reject it?

As for forbidding them from leaving the sealed area midway...

It was just 14 days.

For the sake of getting to use a gaming helmet, what did it matter if he was locked up for a year, let alone 14 days?

Hao Zhiwu signed his name without any hesitation.

Then... *NOVELnext.com*

Under the guidance of the staff, he and many others came to a hall that was filled with technological equipment.

On the table in the hall, there were exquisite-looking helmets. They were gaming helmets!

Seeing this...

Many people's hearts could not help but race.

Then, under the guidance of the staff, everyone put on the gaming helmet with curiosity or excitement.

Everyone felt their necks tighten.

In the next moment...

They entered the game.

Some people appeared on a green grassland, some appeared on a golden beach, and some appeared in a dense forest...

No matter where they appeared, everyone's eyes were wide open, and their faces were filled with disbelief.

In fact, when many people heard that Dahua Group had launched a gaming helmet, they thought it was something similar to VR glasses.

However, what was the situation now?

After putting on the gaming helmet, it was as if they had traveled to another place.

The air was filled with fragrance, clarity, and heat.

There was also the feeling of the grass swaying and the sand falling by their feet.

Someone accidentally fell and even felt some pain!

After a while, everyone let out excited shouts!

They all understood that they had done nothing wrong by participating in the testing this time!

...

On the internet, the matter of the gaming helmet quickly caused a heated discussion.

Feifei Feifei Feifei: [Didn't Dahua Group's gaming helmet start their closed beta testing today? Is there still no news?]

Brother Brave: [I don't know. Logically speaking, we should hear some news soon, right?]

As expected, someone quickly sent a message.

Nameless: [Heavens! This gaming helmet is simply amazing!]

Nameless: [I can guarantee that as long as the gaming helmet is officially released to the market, the popular games that are popular now will all disappear very quickly!]

Guarding the World: [Previous commenter, don't exaggerate things.]

Nameless: [Exaggerate? This is the truth!]

Happy Happy: [I can vouch for it. I was just in the Dahua Group branch. I just took off the gaming helmet.

[Let's talk about the overall feeling first.

[One word—stunning!

[I'm very lucky, but also very unlucky.

[I'm lucky because I was selected by Dahua Group to participate in the closed beta test of the gaming helmet. I can experience the gaming helmet for 14 days and a total of 56 hours.

[Unfortunately, I can only experience the gaming helmet for 14 days and a total of 56 hours.

[Gaming experience: This is a high-tech product that is completely different from 3D glasses and VR glasses. It felt as if I had teleported to another place. It was very shocking! All senses are involved—hearing, sight, perception,

smell, and others. Of course, it's also different from the real world. However, in my opinion, this difference is very normal.

[Game image: Extremely exquisite!!!! In other words, at first glance, everything looks real, and there's no problem with the quality of the image.

[Game world: The world view is very complete, and it has unprecedented freedom...]

As the players participating in the beta test released some updates, the news quickly blew up the entire online world.

Everyone was curious about the gaming helmet.

The day ended with heated discussions.

Hao Zhiwu and many of the selected beta players filled in the forms and went through the corresponding physical examinations.

It had to be said that Dahua Group was very reliable.

After all, they were testing a device that let the consciousness of a person enter the game world. If something happened, it would definitely cause a big problem.

However, in Lin Fan's opinion, these problems would not happen at all.

...

The next day, the weather was clear and cloudless.

According to the contract signed with Dahua Group, the internal beta testers would undergo a physical examination today before getting some rest.

The selected beta players were all game enthusiasts.

Otherwise, they would not be spending half a month participating in the closed beta test.

In the past, whether they were working or resting, they would always have their minds on gaming.

However, today, they did not have such thoughts.

That was because after playing with the gaming helmet, they were not able to play mobile games, online games, or PSP games... They felt that those were trash!

RICHEST MAN: GETTING 7 BILLION RED POCKETS TO START WITH

Chapter 455 Game; Human Resources Director! (2)

In order to pass the time, they went to Weibo, forums, and other places to share the joy brought by the gaming helmet.

Meanwhile, Hao Zhiwu sent out messages in the WeChat group that consisted of Professor Lin's students.

Hao Zhiwu: [It's a pity that you guys didn't ask Professor Lin to help you get a spot for the closed beta!]

Hao Zhiwu: [After wearing the helmet, I get to hit monsters with rocks. It's like I'm fighting monsters in the real world. There's also the fruit in the game. The taste is amazing...]

Hao Zhiwu: [I'm sure that as long as you guys play this game, you'll definitely fall in love with it!]

Finally, someone replied.

Liu Qianqian: [It's very fun. Come in and play with us!]

When Hao Zhiwu saw this message, he was slightly stunned.

After a while, he finally sent another message.

Hao Zhiwu: [What do you mean?]

Liu Qianqian: [It's just putting on the gaming helmet and playing in the world together.]

Liu Qianqian: [This morning, Professor Lin brought six gaming helmets to the office. We've been playing for hours.]

Liu Qianqian: [My stomach is still a little uncomfortable, so I took the helmet off for a while. I'm going back in now.]

Liu Qianqian: [Alright, let's not talk anymore. I'm going to put on the gaming helmet now. Otherwise, I'll be far behind Professor Lin and the others.]

After Hao Zhiwu saw the news, he suddenly clutched his chest.

It hurt!

It hurt!

He had to beg Professor Lin before he was able to obtain a spot in the beta testing for the gaming helmet on the last day.

As a result, he had to stay in the branch of Dahua Group for 14 days as if he were in prison.

14 days...

Moreover, he could only play with the gaming helmet for 56 hours.

Now?

Now, Liu Qianqian was telling him that Professor Lin had brought six gaming helmets to the office and let everyone play as they pleased!

This...

This...

Hao Zhiwu leaned against the window like a prisoner who had been wronged. He cried and howled, "Let me out!"

...

In the next 14 days, Xia Bing, Xia Xue, Liu Qianqian, Nie Zhenjiang, and Jiang Chaoqun were very happy every day as they could game while studying.

Hao Zhiwu, who was in Dahua Group, would come to the window every day after he finished gaming. His face was full of sorrow, and he could not help but sigh.

Finally, the closed beta ended.

The people who participated in the closed beta were still not satisfied, but they slowly left Dahua Group.

Hao Zhiwu was the only one who ran out like a sharp arrow.

When he arrived at Jiangbei University, before he even entered the office, he shouted, "Professor Lin, I want it, I want it!"

Lin Fan's lips twitched. "What do you mean you want it? If you want to play with the gaming helmet, take it yourself."

As he spoke, he pointed at a gaming helmet on the table.

"Yes, Professor!" Hao Zhiwu said excitedly.

Then, he hurriedly picked up the gaming helmet, found a good position, and put it on his head impatiently. He entered the game world again and began to gallop freely.

When Hao Zhiwu entered the game world again, the news about the gaming helmet on the internet once again caused a heated discussion.

Some people said that gaming helmets could harm the brain.

Some people said that gaming helmets would make people unable to differentiate between reality and virtual reality.

Some people said that gaming helmets would make people more addicted to the internet and become the drug of the new era.

Of course, most people were looking forward to the promotion of the gaming helmet.

If the creator of the gaming helmet had been anyone else, they would definitely be paying close attention to this news.

However, Lin Fan did not care at all.

He went to the office on time every day. Sometimes, he would return to the Coiling Dragon Villa to rest; sometimes, he would go to Yi Ke City; and sometimes, he would go to Washington Palace... He was very content.

...

Today.

As usual, Lin Fan went to Jiangbei University after breakfast.

In the past, when Lin Fan walked around the school, every student's face was filled with youthful and sunny smiles.

These days, he noticed that many students had a faint look of worry on their faces.

A gentle breeze blew from the side, bringing with it a light fragrance.

Lin Fan turned around.

He saw...

A woman with smooth skin, a face like a peach blossom, hair like a waterfall, and a perfect figure slowly walking over.

It was Hu Tian.

"Teacher Tiantian, good morning."

Hu Tian smiled and said, "You're a professor like me now, but you're still calling me Teacher Tiantian?"

Lin Fan smiled. "Can't I?"

The two of them talked and chatted very casually.

If it were in the past, the two of them would feel a little uncomfortable walking side by side.

After all, it was a teacher-student relationship.

Now that both of them were teachers and professors, it seemed much more natural.

At this moment, a slightly ear-piercing cry suddenly sounded not far away.

"Hu Tian!"

Then, a tall and thin man in a suit strode over.

He smiled and said, "Hu Tian, long time no see!"

When Hu Tian saw who it was, she first revealed a puzzled expression.

Then, she said with some uncertainty, "Are you... Zheng Cong?"

When Zheng Cong heard Hu Tian call out his name, he said happily, "It's me!"

"Why did you come to school today?" Hu Tian asked in surprise.

Zheng Cong was Hu Tian's former classmate at Jiangbei University.

After graduating from university, the two of them had not met again.

Now that they suddenly met, they were naturally surprised.

"Isn't it almost graduation season?" Zheng Cong laughed.

"The employment situation of university students is not very good now. I'm now the human resources director of Huidong Accounting Firm, and I happen to be in charge of recruiting interns, so I came to Jiangbei University.

"After all, it's better for our school to have the advantage."

After he said this, he could not help but stick out his chest, his face full of pride. novelnext.com

This was because Huidong was one of the top ten accounting firms in the country.

Be it salary or benefits, they were all very good.

It was the ideal place for many graduates to work.

He felt that after he said these words, Hu Tian would definitely praise him.

However, Hu Tian only said in a very calm tone, "Is that so? Congratulations."

However, Zheng Cong did not seem to notice the calmness in her tone. He smiled and said, "I'm just the human resources director of Huidong Accounting Firm. What's there to congratulate me for? Congratulate me after I become the chairman."

His tone was so relaxed.

That appearance...

It was as if it was so easy to become the chairman of Huidong Accounting Firm.

Zheng Cong was already immersed in his own world, unable to extricate himself.

Then, he said, "We haven't seen each other for a long time. Are you free to have a meal together later?"

After saying this, a fiery look flashed across Zheng Cong's eyes.

When Hu Tian was in university, she was the famous campus belle of Jiangbei University.

Zheng Cong and many other boys were fascinated by her.

However, Hu Tian was indifferent to everyone.

This made everyone very helpless.

In fact...

Zheng Cong came to Jiangbei University to recruit interns mainly because he knew that Hu Tian was a professor at Jiangbei University and that she was still unmarried.

This could not help but make Zheng Cong feel a sense of fantasy and anticipation.

With his current status, if he met Hu Tian at Jiangbei University, perhaps...

Lin Fan, who was standing at the side, could tell what Zheng Cong was thinking. He said, "I'm afraid that's not possible because Teacher Tiantian has already decided to have dinner with me tonight."

He wanted to have a meal with his woman?

Had he asked him?

Zheng Cong finally seemed to have noticed Lin Fan and asked, "You're Professor Hu Tian's student, right?"

"Professor Hu and I were very close classmates back then. For Professor Hu's sake, I can make the decision to let you join Huidong Accounting Firm directly."

He believed that as long as he said that, Lin Fan would definitely be overwhelmed and overjoyed.

Zheng Cong spoke like an elder to a junior, with a superior appearance.

He raised his head as if he was waiting for Lin Fan to nod and bow.

However...*nOvELnext.coM*

Lin Fan's expression was calm. He was about to speak.

Not far away, a slightly ear-piercing voice sounded.

"Hu Tian!"

Then, a man in a suit and leather shoes with a slightly raised hairline walked over quickly.

"Hu Tian, long time no see!" he said with a smile.

Before Hu Tian could say anything, Zheng Cong said, "Wang Haoran?"

Wang Haoran was also Hu Ting's classmate at Jiangbei University back then.

Of course, he and Zheng Cong were also university classmates.

"Zheng Cong?"

Wang Haoran's attention was all on Hu Tian.

At this moment, he heard a voice beside him and turned to look.

"We haven't seen each other since we graduated from university. I didn't expect to meet you here today. By the way, why did you come to school today?" Zheng Cong said.

As he spoke, he could not help but lean his body toward Hu Tian.

That appearance... It was as if he was saying, 'Don't even think about touching Hu Tian!'

Zheng Cong and Wang Haoran were former classmates, so the former knew the latter very well. Or rather, all the male students in the class had feelings for Hu Tian.

How could Wang Haoran not see through Zheng Cong's actions and intentions?

However, he saw that Hu Tian did not react at all, nor did she have any intimate actions with Zheng Cong.

He immediately understood that this was just Zheng Cong's wishful thinking.

"Isn't it almost graduation season?" Wang Haoran smiled casually. "The employment environment isn't very good now, and I happen to be the deputy director of Feitu Network, so I'm quite capable. Therefore, I came to help my alma mater solve the employment problems of my juniors."

After saying this, a faint smug expression appeared on his face as he slowly looked at Hu Tian.

It was as if he was saying, 'Hu Tian, I'm amazing, right?'

"Zheng Cong, what are you doing here?"

"Oh, I'm also here to help my juniors find jobs."

As if to verify their words, a loud voice sounded not far away.

"Director Wang, Director Zheng, you're here. The other entrepreneurs and school leaders are in lecture hall 3." A round-faced man walked over quickly.

"Thank you for your reminder, Director Song," said Wang Haoran.

Zheng Cong also said, "Sorry for the trouble, Director Song."

Although the two of them said such words, their hearts were filled with pride.

"What's the trouble?" Song Keling waved his hand. "I should be the one thanking you. It's because of outstanding graduates like you that the students of Jiangbei University can find good jobs." I think you should take a look at

At this moment, he suddenly noticed Hu Tian and Lin Fan standing beside him.

"Professor Hu, Professor Lin, you're here too?"

Especially when he mentioned Professor Lin, Song Keling's tone could not help but become excited.

Lin Fan had the highest status at Jiangbei University.

Even the chancellor was far inferior to him.

In the past, Jiangbei University was considered a well-known university in Hua Nation and was one of the top universities in the country.

However, compared to Huaqing University and Capital University, they were far inferior.

Now, Jiangbei University had become one of the top universities in the country in the world. Its reputation even surpassed Huaqing University and Capital University!

The reason for this was Lin Fan!

Zheng Cong and Wang Haoran clearly did not notice the change in Song Keling's tone.

Wang Haoran looked slightly better, but Zheng Cong was shocked.

Professor Lin?

Professor?

This young man was actually a professor!?

Then, Zheng Cong thought of how Lin Fan and Hu Tian were chatting and laughing earlier. They looked very intimate, and his heart tightened.

At this moment, Song Keling seemed to have thought of something. He quickly suppressed the excitement in his heart and said, "Director Zheng, Director Wang, the corporate meeting is about to start. Let's go over first."

Zheng Cong and Wang Haoran nodded.

"Hu Tian, do you want to go with us?" Zheng Cong asked. "Perhaps you can choose some good jobs for your students in advance."

Wang Haoran also said, "That's right. Let's go together. We're old classmates. We can catch up on old times too."

Their thoughts were very simple.

They had prepared a lot of information about their companies and their positions, but if they said it directly now, it would seem too deliberate.

However, it was reasonable to mention these things in the lecture hall.

They believed that when Hu Tian heard about how well they were doing, she would definitely look at them differently and be fascinated.

After all, outstanding men were the most handsome!

In addition, just as they had said, Hu Tian would definitely want her students to find good jobs.

In turn, this was a good opportunity for the two men to get in touch with her.

Before Hu Tian could answer, Song Keling, who was beside her, spoke first, "Don't worry, Professor Hu is going over as well. Professor Hu is one of the representatives of the mathematics department at the conference."

When Zheng Cong and Wang Haoran heard this, they both revealed a hint of joy.

Soon, Hu Tian would be able to truly realize how outstanding and handsome they were now!

Lin Fan said, "I'll go too."

When Song Keling heard this, his entire face was filled with smiles. "That's great!"

RICHEST MAN: GETTING 7 BILLION RED POCKETS TO START WITH

Chapter 457 Arrival; Preaching! (2)

Not to mention that Lin Fan had a supreme status at Jiangbei University.

If he was willing to go, it would at least raise the standard of this corporate meeting by a level!

Also, according to what Song Keling knew, Lin Fan was also a major shareholder of Dahua Group and Yadi Automobile.

If Lin Fan was willing to help, he would definitely be able to solve a large number of job opportunities at Jiangbei University.

Zheng Cong and Wang Haoran thought that Song Keling was happy because they had agreed to go over now.

Then, the few of them walked toward the lecture hall.

...

Meanwhile, in Jingbei.

A man in a white shirt knocked on the door in front of him anxiously.

"Please come in," an old man with a straight face said in a clear voice.

The man in the white shirt hurriedly walked in.

He sorted out his mind and said in a calm tone, "Leader, according to our intelligence network, a plane carrying the chairmen of Aven Group, United Group, Datong Group, Nanguo Industry Group, Liwa Group, Baojia Group, William Group, Wall Group, and Ye Xiu are about to arrive at Jiangbei International Airport!"

He said hundreds of names in a row. *nOvELnext.com*

Even the old man with a straight face and a determined expression showed a hint of surprise when he heard these people's names.

One had to know...

These were not ordinary people but the leaders of major companies!

Their wealth was comparable to that of some medium-sized countries!

Now, they had gathered together and boarded a private plane to arrive in Jiangbei, Hua Nation?

Wait a minute!

Ye Xiu?

Jiangbei?

The old man quickly thought of something and said, "I understand."

The man in the white shirt was stunned.

What did he know?

However, he did not dare to say anything more and said respectfully, "Alright."

Then, he slowly walked outside.

The old man pondered for a moment before dialing a number from Jiang Province.

The call was quickly picked up.

"Jiangbei International Airport will soon welcome a large group of entrepreneurs, including Ye Xiu, the chairmen of Aven Group, United Group, Datong Group, Nanguo Industry Group, and so on."

"Yes, Sir!"

An extremely excited yet solemn voice came from the phone.

On one hand, it was because Jiangbei City was going to welcome so many entrepreneurs.

On the other hand, it was because of this phone call!

He never thought that he would receive a call from this old man one day!

...

In just a few minutes...

Audis and Jeeps rushed toward Jiangbei International Airport like a sea of cars crossing the river.

At this moment, a luxurious private plane slowly landed.

Ye Xiu and the big shots who often appeared on the major news and financial media walked down one after another.

Ye Xiu, who was walking at the front, took a deep breath and took out his phone to make a call.

After a while, the call went through.

"Sect Master, I've brought the core members of my sect to Jiangbei. I wonder when I can pay you a visit?" Ye Xiu said respectfully.

Back in Modu, Ye Xiu had already told Lin Fan about the businesses and forces that the Qing Hong Sect controlled.

However, Ye Xiu felt that he was lacking in sincerity by not bringing them to meet Lin Fan personally.

After all, even if it were a group of dogs, he should let them meet their owner.

Otherwise, if they met the sect master in the future but did not recognize him, what should he do?

Therefore, he asked Lin Fan for his opinion a few days ago.

Lin Fan, who had just arrived at the lecture hall, was stunned when he received Ye Xiu's call.

He did not expect Ye Xiu to bring those people to Jiangbei so quickly.

After a while, Lin Fan said, "Since you're already here, then come over. I'm in Lecture Hall 3 of Jiangbei University."

"I understand," Ye Xiu replied respectfully.

As soon as he hung up the phone, a large number of Audis and Jeeps arrived at the airport.

A large group of men in white shirts and camouflage uniforms walked out.

They hurriedly stood in a line and shouted in unison, "Welcome to Jiangbei, entrepreneurs!"

Hong Hanlin, who was walking at the front, said, "Mr. Ye, I'm sorry we're late."

Ye Xiu smiled and said, "You're Mr. Hong, right? I appreciate you coming to the airport despite your busy schedule. Besides, we just arrived."

Ye Xiu's tone was not this friendly the last time he was at Modu Airport.

After all, with his status, there was indeed no need for him to be polite.

Today, he was calm when facing Hong Hanlin. It was all because Lin Fan was from Jiang Province.

"It's only right!" Hong Hanlin hurriedly said. "It's rare for Jiang Province to welcome you and so many outstanding entrepreneurs. Of course, we have to come and welcome you ourselves."

"Mr. Ye, you must be tired from traveling. Why don't I arrange for you to have a good rest in the hotel?"

Ye Xiu waved his hand. "We've been resting on the plane, so we won't be resting for the time being."

The last time he went to Modu, he was suffering from several illnesses and was very weak. Even then, he did not rest immediately.

Instead, he went to see Lin Fan.

Now that Ye Xiu's body had completely recovered, he definitely would not rest.

Recovered?

That was right!

He had fully recovered!

After Ye Xiu drank the Medical Water, he felt that his illness had completely disappeared.

After a detailed examination at the hospital, this was confirmed.

Because of this, Lin Fan was no longer just a direct descendant of the Qing Hong Sect's patriarch in Ye Xiu's heart; he was the current master of the Qing Hong Sect and his savior!

"But if it's convenient for you, you can send us to Jiangbei University."

"It's convenient!" Hong Hanlin hurriedly said.

Following that, Ye Xiu and the many chairmen present were all invited into the Audis and Jeeps.

After that, they continued to make their way to Jiangbei University.

...

At this moment, in Lecture Hall 3 of Jiangbei University...

There were dozens of entrepreneurs, as well as some heads and leaders of various departments of Jiangbei University, present.

Many entrepreneurs walked onto the stage and shared information about the company they worked for, as well as the positions and number of people they would be hiring.

When a round-faced man walked down the stage, Zheng Cong tidied his clothes and slowly walked up.

He turned on the mike he had prepared beforehand and said, "Good morning, teachers, leaders, and entrepreneurs of Jiangbei University!"

"I'm Zheng Cong, the human resources director of Huidong Accounting Firm. Huidong Accounting Firm is one of the top ten largest accounting firms in the country. We serve a wide range of listed companies and have more than 5,000 employees in the country..."

"In Huidong Accounting Firm, we have two paths of development.

"Firstly, there's the accounting analyst route. The levels for accountants are one-star, two-star, three-star, four-star, five-star...

"Secondly, there's the management path. It's split into Level P1, Level P2, Level P3, Level P4, Level P5..."

"The benefits of P1 and one-star are the same... The annual salary of P1s and one-stars is 300,000 yuan, the annual salary of P2s and two-stars is 500,000 yuan, and after reaching P3 and three-star, the annual salary is 800,000 yuan. At the same time, employees will receive the company's stock incentive!

"P4s and four-stars have an annual salary of more than 1.5 million yuan and a high stock incentive! Oh right, my position as the human resources director is at P4.

"Also, I have something to tell the teachers and professors here. I'm a student who graduated from Jiangbei University.

"I joined Huidong Accounting Firm five years ago and started as an intern. In a short five years, I became the HR director, a P4-level position.

"So, what I want to say is that as long as my juniors are willing to come to Huidong Accounting Firm, they'll definitely have a bright future!

"We all come from the same educational background. If I can do it, you can definitely do it too!"

Chapter 458 Representative; End Early

Zheng Cong became more and more excited as he spoke. His voice also became more and more high-pitched.

At this moment, he felt as if his entire body was blooming with light. He thought that he must appear so dazzling and eye-catching right now.

Then, Zheng Cong's gaze landed on Hu Tian, who was below the stage.

It was as if he was saying, 'Did you hear that? My annual salary is more than 1.5 million yuan, and I have a high stock incentive!'

Then, he did not forget to look at Lin Fan as if he was saying, 'Although you and Hu Tian work together, you can't compare to me!'

Zheng Cong said a few more words before slowly walking down the stage.

According to the arranged order, it should be a tall and thin man who went on stage next to give his speech.

However, Wang Haoran, who was sitting at the back, took the lead and walked up.

The tall and thin man was stunned.

However, he did not say anything.

After all, this was just a seminar.

It did not matter who went first.

In Wang Haoran's heart, however, this was not the case.

That was because...

Zheng Cong had just mentioned his annual salary and benefits. Perhaps he had already left a good impression on Hu Tian.

What if Hu Tian had a good impression of him?

What should he do then?

Wang Haoran felt that it was necessary to stop or reduce Hu Tian's favorable impression of Zheng Cong at the first possible moment.

Therefore, he quickly walked onto the stage.

"Good morning, school leaders and entrepreneurs!

"I'm Wang Haoran, the vice president of Feitu Network. Feitu Network has 20 branches in the country and a total of more than 4,000 employees. Our main focus is on developing games, chat software, social software, web page maintenance, and so on.

"We, Feitu Network, have many routes of development.

"If you like software development, you can directly join the technical department.

"If you like the news, you can join the entertainment department.

"If you like to communicate with others, you can join the sales and public relations departments."

...

"All in all, Feitu Network recruits all kinds of talents.

"In addition, the salary of P1 employees is 300,000 yuan per year, plus a bonus of more than 120,000 yuan.

"P2 employees receive a salary of 500,000 a year, plus a bonus of 150,000. I think you should take a look at

"P3 employees receive a salary of 800,000 yuan per year, plus a 300,000 yuan bonus and equity incentive.

"P4 employees will have an annual salary of one million yuan, plus a bonus of more than 500,000 yuan, as well as a large amount of equity incentive.

"P5 employees receive a salary of two million, plus a bonus of one million and a large amount of equity incentive.

"Many people find it extremely difficult to climb the corporate ladder in most companies... It can even be said that the path is full of obstacles.

"However, Feitu is different. We're still in the rising stage. As long as you have the ability, you can be promoted very quickly.novelnext.com

"Let me use myself as an example. Just like Director Zheng from Huidong Accounting Firm, I graduated from Jiangbei University. He spent five years to become a P4-level employee of Huidong, while I only spent four years going from P1 to P5 at Feitu Network! Look, I've already become the vice president of Feitu Network!"

When Wang Haoran said this, his pitch became extremely high, and his gaze landed on Hu Tian.

It was as if he was saying, 'Hu Tian, did you hear me? I'm at the P5 level! I have an annual salary of two million, plus a bonus of more than one million, as well as a large amount of equity incentive!'

In Wang Haoran's opinion, he was definitely like an angel with a pair of pure white wings in Hu Tian's eyes at this moment. He was extremely charming!

The more he thought about it, the wider the smile on Wang Haoran's face became.

Then, he did not forget to cast a smug look at Zheng Cong.

Wang Haoran said a few more words and slowly walked off the stage.

After the company representatives went on stage to speak, Feng Weijian, the vice-chancellor of Jiangbei University, finally picked up the microphone and said, "Thank you very much to the representatives of the various companies for coming to our school to recruit talents.

"This is a sign of trust in our school and their high opinion of our school's nurturing of students..."

"I already know the number of recruits each company is hiring, but there's still a huge gap compared to the number of our graduates this year. I wonder if there'll be any increase in the number of positions?"

"I can guarantee that if you choose more students from Jianghai University, it'll bring more benefits to your companies in the future!"

The representatives looked at each other, but no one spoke.

After all, the number of people and positions hired were things that the company had already decided on according to their needs. They could not increase them at will.

Wang Haoran, who was sitting below the stage, muttered, "Vice-Chancellor Feng is right! Hiring more students from Jianghai University will bring more benefits to the companies. I agree with this very much!"

"As I graduated from Jiangbei University myself, I understand the University of Jianghai and its spirit! Feitu Network can add another 20 positions!"

"Good!" Feng Weijian said happily. "On behalf of the graduating students of Jiangbei University, I'd like to thank Director Wang!"

Wang Haoran's face was also full of smiles.

Then, he cast a smug look at Hu Tian.

This scene was witnessed by Zheng Cong.

He gritted his teeth and said, "I also agree with Vice-Chancellor Feng's point of view. Therefore, Huidong Accounting Firm will also add another 20 positions!"

"Alright, alright!" Feng Weijian said. "Thank you, Director Zheng!"

When Zheng Cong heard this, he also smiled at Hu Tian.

Chapter 459 - 459 Representative; End Early (2)

459 Representative; End Early (2)

Just one sentence could decide the future of 20 more people!

Zheng Cong and Wang Haoran thought that Hu Tian must think they were like nobles from ancient times who held great power.

Feng Weijian was about to say something else...

At this moment, there was a dull knock on the door.

Hence, Feng Weijian could only turn sideways and say, "Please come in."

The next moment, everyone in the lecture hall was stunned.

That was because a large group of people had suddenly walked in from outside.

Among them were people from various ethnicities with different skin types...

They made the originally spacious lecture hall a little crowded.

If an ordinary person suddenly saw someone from a different race with a different skin color, they would be filled with curiosity.

However, the people present were all leaders and representatives of major companies and often dealt with foreigners.

Therefore, they were only a little puzzled and were not too curious.

At this moment, someone suddenly exclaimed.

“The chairman of Aven Group, Herrs?!”

After this voice sounded, it was as if a huge stone had been thrown into a calm lake, causing ripples.

Soon, someone else shouted.

“It’s Herrs!”

“Heavens!”

“Why is he here?”

One had to know...

Aven Group was one of the top 500 corporations in the world!

As the founder of Aven Group, Herrs had an extremely legendary life!

Many people present had read his biography and interviews and regarded him as their idol!

Now, he had actually appeared in front of them!

Then...

“Li Jiawei, the chairman of Datong Group!”

“It’s Li Jiawei! I saw him on the news yesterday!”

“That’s the chairman of Nanguo Industry Group, Henry Jack!”

“That’s the chairman of Liwa Group, Michael!”

...

Waves of shouts rose and fell, causing the entire lecture hall to become incomparably noisy.

Most of the people in the lecture hall were from the upper echelons of major companies.

They had gone through all sorts of experiences and had the ability to remain calm and composed.

However, at this moment, all of them actually stood up, as if they were ordinary people who had seen their idols. They were so excited that their faces were red.

One had to know...

Jiawen Group, United Group, Datong Group, Nanguo Industry Group, and Liwa Group were in the world's top 500 giant companies.

How many people were there in the lecture hall?

Hundreds of people!

Hundreds of chairmen of various giant companies had appeared in front of them!

No wonder they were so excited.

In fact...

Not only were the representatives excited, but Feng Weijian, the vice-chancellor of Jiangbei University, was also very excited.

As the vice-chancellor of a university, he needed to have knowledge in all fields.

He often read the financial news and knew what Aven Group, United Group, Datong Group, and other companies represented.

With the arrival of these chairmen at Jiangbei University, the university stood to receive endless benefits!

It was an opportunity!

This was a rare opportunity!

Feng Weijian was about to speak when he thought of this.

At this moment, Ye Xiu, who was walking at the front with a head full of hair, said to Lin Fan, "Hello, Mr. Lin."

Then, the chairman of Aven Group, Herrs, the chairman of Datong Group, Li Jiawei, the chairman of Nanguo Industry Group, Henry Jack, and more than a hundred chairmen of other giant companies, who were standing behind Ye Xiu, shouted respectfully in unison, "Hello, Mr. Lin."

Their voices were not very loud.

However, it was like a clap of thunder, causing everyone's ears to buzz.

Everyone froze!

Hundreds of chairmen of giant companies all took the initiative to greet one person?

In fact, their tone seemed to be respectful?

This...

This...

Everyone could not believe their ears.

Rather, they felt like they were dreaming.

Everyone could not help but look over at Lin Fan.

When they saw that it was a young man, they were even more surprised and aghast.

Lin Fan remained calm as he nodded his head. "Hello."

After all, he had already received Ye Xiu's call.

After a pause, Lin Fan said, "It's almost graduation season. If there are any vacant positions in your company, please provide some jobs to my school's graduates."

Herrs, who was wearing black-rimmed glasses, was the first to speak in his somewhat broken Chinese, "Our Aven Group can provide at least 1,000 jobs. As for the salary, the starting annual salary can be one million yuan."

Lin Fan nodded. "Not bad."

Praise!

Mr. Lin actually praised him!

Even though it was just a simple praise, it made Herrs so happy that he could not control himself.

Li Jiawei, the chairman of Datong Group, Henry Jack, the chairman of Nanguo Industry Group, and the others all looked at him with jealousy.

However, their speed was not slow either. They shouted one after another.

"Datong Group can also provide at least 1,000 jobs with an annual salary of no less than one million!"

"Liwa Group can provide at least 1,000 jobs with an annual salary of no less than one million!" novelnext.com

"Nanguo Industry Group can provide at least 1,000 jobs with an annual salary of no less than one million!"

...

The entire lecture hall became extremely noisy again.

These sounds seemed to have produced a huge sound wave that directly numbed the ears of everyone in the lecture hall and even their entire bodies.

1,000 jobs with an annual salary of no less than one million!

One had to know...

These were all giant companies.

Many of them were companies that many people yearned to join.

This made some people have the urge to ask, 'If I resign now, can I join?'

Lin Fan's expression remained the same. After everyone told him about the recruitment situation of their company, he turned to Feng Weijian and said, "Vice-Chancellor Feng, these positions should be enough, right?"

Feng Weijian was dumbfounded when he heard the number of employees and the benefits offered by these chairmen.

At that moment, he heard Lin Fan's question and slowly came back to his senses. He said excitedly, "They're enough!"

What a joke!

There were hundreds of chairmen of giant companies standing here.

Most of them said that they could hire at least 1,000 people with an annual salary of one million.

With an annual salary of one million, there was naturally nothing to say!

That was a very high salary!

Most of the chairmen here said they could hire at least 1,000 people, and there were hundreds of chairmen standing here.

In other words, they could provide at least 100,000 jobs!

What a terrifying number!

One had to know...

There were less than 10,000 graduates from Jiangbei University every year.

Now, there were 100,000 positions to choose from!

In the past, it was mostly dozens or hundreds of graduates fighting for a job. Now, every student had ten jobs to choose from!

This was simply...

Unimaginable!

Lin Fan nodded and said, "If that's the case, this conference can end early."

Then, he said to Hu Tian, "Teacher Tiantian, let's go to the hotel and confirm the specific positions with the chairmen of these companies. How about that?"

Hu Tian looked at Lin Fan with a pair of beautiful eyes that were faintly shining.

She knew that Lin Fan had solved many math problems, invented many high-tech products, and was the largest shareholder of Dahua Group and Yadi Automobile.

He even had a good relationship with Qin Weiming and Zhang Jian.

However, Hu Tian never expected that so many chairmen of giant companies would come to the school and be so respectful to Lin Fan.

At this moment, in Hu Tian's eyes, Lin Fan's body was emitting an extremely dazzling light. It was so mesmerizing.

If not for the fact that there were many other people here, Hu Tian would have thrown herself into Lin Fan's arms.

"Alright," Hu Tian said softly after a while.

460 Rejoice; Reason! (1)

Lin Fan nodded his head and said to Ye Xiu and the hundreds of chairmen, "Let's go."

"Yes, Sir!" Ye Xiu and the others said respectfully.

Then, they retreated to two sides, like lowly servants who were deliberately making way for their master.

This scene...

Everyone, including Vice-Chancellor Feng Weijian, was stunned once again.

Previously, everyone understood that the reason why these chairmen were here was because of Lin Fan.

Even so, no one had expected that Lin Fan would get hundreds of chairmen to free up a quota of 1,000 jobs with an annual salary of one million.

Now, the chairmen of these companies were even retreating to the side like servants.

This...

This...

What was the identity of this young man?

However, Lin Fan did not walk forward immediately. Instead, he looked at Zheng Cong and Wang Haoran, who were sitting not far away.

This glance caused Zheng Cong's and Wang Haoran's faces to flush red.

From the beginning, Lin Fan had been with Hu Tian.

Just now... he did not ask anyone else but Hu Tian to go to the hotel with him.

In addition, Hu Tian looked at Lin Fan with affection.

Zheng Cong and Wang Haoran understood that Lin Fan and Hu Tian had probably gotten together a long time ago.

Yet they actually had feelings for Hu Tian just now.

They even talked about their positions, salaries, and power.

How could they boast about their positions, salaries, and power in front of a person who could easily get the chairmen of hundreds of giant companies to come up with 100,000 jobs, all with an annual salary of one million yuan?

How could they boast about their positions, salaries, and power in front of a man who made hundreds of chairmen give way to him like servants?

What a joke!

At this moment, Zheng Cong and Wang Haoran were both frightened and embarrassed. They wished they could find a hole in the ground and hide in it.

If Lin Fan was unhappy with him and curled his finger, their entire lives would be over.

Lin Fan did not continue to pay attention to the two of them. He walked out with Hu Tian under everyone's gaze.

Ye Xiu and the hundreds of chairmen followed closely behind.

After they left, the entire lecture hall became empty again.

The representatives of the various companies who had gone on stage to give their speeches were still stunned and surprised.

Everyone was still shocked by the arrival of those chairmen, as well as their respectful treatment of a young man.

In contrast to the shock of the company representatives, Vice-Chancellor Feng Weijian was filled with joy.

His entire face was already wrinkled like a crumpled cloth.

He could imagine how sensational it would be when these jobs were announced. Just how much benefits would this bring to Jiangbei University?

Feng Weijian said happily, "Today's conference is over. On behalf of all the teachers and students of Jiangbei University, I'd like to thank everyone for coming. I still have some things to deal with, so I'll take my leave first."

After saying that, he prepared to walk out.

He wanted to tell the chancellor the good news as soon as possible.

At this moment, someone could not help but ask, "May I ask who's that person just now?"

Everyone's ears perked up.

Obviously, they were also very curious about this.

"He's Professor Lin Fan from Jiangbei University!" Feng Weijian said.

Professor Lin Fan!

Everyone felt as if they had been struck by lightning.

In the entire world, there were many people called Lin Fan.

However, Lin Fan was only in his 20s and was a professor at Jiangbei University.

He could only be one person!

He was the super genius who had solved several unsolved mathematical problems, invented the earthquake prediction device, super battery, human islet recovery drug, carbon-based photolithographic machine, advanced prosthetic limbs, and other high-tech products!

Then, everyone gradually revealed a look of realization.

No wonder so many chairmen of giant companies were so polite to him.

He was Lin Fan!

Zheng Cong's and Wang Haoran's faces turned even redder.

...

Lin Fan, Hu Tian, Ye Xiu, and hundreds of chairmen quickly arrived at the most luxurious hotel in Jiangbei, the Imperial Hotel.

The chairman of the Imperial Hotel, Wang Fengyi, had already received news that many important figures were coming.

Therefore, he had been waiting at the door for a long time.

When he saw Lin Fan walking at the very front and those important figures following behind him like servants, he was slightly stunned.

It was Lin Fan who spoke first. "Is the banquet hall ready?"

Only then did Wang Fengyi react and hurriedly say, "It's all arranged. This way, please..."

Back then, Lin Fan had directly bought the Imperial Hotel. After that, he casually took out a few hundred million yuan to hold a concert. Wang Fengyi knew that his boss, Lin Fan, was definitely a big shot.

Only now did Wang Fengyi have a deeper understanding of Lin Fan's identity.

How could this be summarized by the words 'big shot'?

There were hundreds of big shots following behind him like underlings!

Soon, Lin Fan, Hu Tian, Ye Xiu, and the others arrived at the luxurious banquet hall on the 68th floor.
