

## RICHEST MAN: GETTING 7 BILLION RED POCKETS TO START WITH

### Chapter 491 Welcome to the Wedding!

#### *Chapter 491 Welcome to the Wedding!*

In the blink of an eye, it was Saturday.

After Lin Fan ate breakfast, he drove the Cullinan straight to Washington Palace.

He remembered that he had made an appointment with Su Ningjing to attend her former classmate's wedding banquet together.

At this moment, Su Ningjing was already waiting in front of the entrance of Washington Palace.

Today, Su Ningjing was wearing a light blue dress and a pair of white shoes. She looked stunning.

Under the sunlight, her body seemed to be wrapped in a layer of silver, looking extremely fresh and pure.

All the people who passed by the gate looked at her.

Su Ningjing ignored the passersby. Her beautiful eyes stared unblinkingly at the road in the distance.

When a tall and sturdy Cullinan drove over, a bright smile immediately appeared on Su Ningjing's pretty face.

This Cullinan belonged to Lin Fan!

Lin Fan slowly stopped the car and asked, "Ningjing, have you been waiting?"

Su Ningjing shook her head vigorously and said, "I've only just arrived."

Lin Fan looked at the beads of sweat on her forehead and said, "Silly girl."

After he finished speaking, he lowered the temperature of the air conditioner a little.

Then, he stepped on the accelerator.

...

The Imperial Hotel was the most luxurious hotel in Jiangbei.

Anyone with some assets would choose to hold their wedding here.

This was because only in this way could they display their power and make themselves look good.

Today, Wang Yunfang and Shu Jiadong's wedding was held here.

Shu Jiadong's father, Shu Rong, owned a factory with about 50 to 60 employees.

He thought that he was a boss too.

He was the boss, so his son's wedding naturally had to be grand enough!

Therefore, he paid a huge price to hold the wedding at the Imperial Hotel.

At this moment, Shu Rong was wearing a suit. He was standing at the entrance of the banquet hall on the third floor of the Imperial Hotel with Wang Yunfang and Shu Jiadong, welcoming the guests who were attending the wedding.

"Boss Ma, hahaha! Welcome!"

"I'm not late?"

"No, no! Quick, please come in!"

"President Liu, thank you for coming."

"Boss Shu, your son's wedding is such a big event. How could I not come? Is this your daughter-in-law? She's so beautiful!"

"Thank you for your praise, President Liu..."

Waves of laughter rose and fell. It was extremely lively.

"Tsk!"

Lin Fan parked the Cullinan in the parking lot at the side and walked into the hotel with Su Ningjing.

When they arrived at the entrance of the banquet hall on the third floor, Shu Rong could not help but ask, "You are?"

Coincidentally, Wang Yunfang also looked over and said, "Dad, she's my former classmate and this is her boyfriend. I'll just bring them in."

"Alright." Shu Rong nodded.

Thus, Wang Yunfang brought Lin Fan and Su Ningjing to the last table.

As Wang Yunfang walked, the gold bracelets on her wrist collided with each other, making a clear sound.

She could not help but complain, "Sigh, it's not good to have too many gold bracelets. They keep making sounds when I walk. They're too noisy and too heavy."

Even though she said that, her face was full of smiles.

Too many gold bracelets, too noisy, too heavy... She was just deliberately showing off.

Su Ningjing's thoughts were all on Lin Fan. She did not think too deeply about Wang Yunfang's words.

She handed over a red packet and said, "May you have a blissful marriage."

Wang Yunfang opened the red packet with a smile and took out five red notes.

"500 yuan? Hehe, sit here."

She laughed disdainfully and arranged for Lin Fan and Su Ning to sit at the end.

At this moment, there was a commotion at the entrance of the banquet hall.

"Chairman Zhang, Chairman Song, Mr. Wang, Director Liu, Director Li..." Shu Rong shouted in surprise. Why are you here?"

No wonder he was so surprised.

The two men in suits standing at the front were none other than...

It was the chairman of Xiao Wu Wholesale Market, Zhang Zhou, and the chairman of Yinshan Group, Song Zhifeng!

Last year, the market value of Xiao Wu Wholesale City and Silver Mountain Group exceeded 10 billion!

Now, these two companies had established a partnership with Flower Stem.

As a result, the status and market value of Xiao Wu Wholesale City and Silver Mountain Group greatly increased.

In Shu Rong's eyes, Zhang Zhou and Song Zhifeng were definitely giants!

Slightly behind them was the general manager of the Imperial Hotel, Wang Fengyi, as well as the higher-ups of Xiao Wu Wholesale City and the Silver Mountain Group.

Zhang Zhou smiled and said, "It's a happy occasion for you. How can we not come?"

"Welcome, welcome!" Shu Rong hurriedly said.

How could he not welcome them?

Song Zhifeng smiled and said, "Don't you welcome us?"

"Yes, we had to attend this wedding banquet," Wang Fengyi said.

"Welcome, welcome!" Shu Rong hurriedly said.

How could he not welcome them?

It was really too unexpected.

Although Shu Rong considered himself a boss, the few of them had only met twice at some large chambers of commerce and banquets.

Therefore, Shu Rong did not dare to invite Zhang Zhou, Song Zhifeng, Wang Fengyi, and the others to his son's wedding banquet.

He understood that he was not qualified.

In fact...

That was indeed the case.

The reason why they came over was because they saw Lin Fan walking into the banquet hall when they were taking the elevator.

Who was Lin Fan?

He was the biggest shareholder of Silver Mountain Group and Xiao Wu Wholesale City. He was also the owner of the Imperial Hotel! [vipnext.com](http://www.vipnext.com)

Lin Fan had personally come over.

They naturally had to follow him.

....

Wang Yunfang saw that so many people had come at once. Moreover, Shu Rong had become happy. There was even a hint of respect on his face.

"Hubby, who are those people?" she asked curiously.

"Don't you like to shop at Yinshan Group's malls?" Shu Jiadong asked. "Don't you like to buy things at Xiao Wu Wholesale City? Didn't you ask to hold the wedding at the Imperial Hotel?"

"The two in the front are the chairmen of Silver Mountain Group and Xiao Wu Wholesale City! The person behind is the general manager of the Imperial Hotel!"

When he mentioned the background of these people, his tone could not help but become high-spirited.

This was a pride that came from the bottom of his heart!

These big shots were here to attend his wedding!

When Wang Yunfang heard this, an unconcealable excitement surfaced on her face.

The reason why she married Shu Jiadong was because his family owned a factory and he had a good family background.

Now, it seemed that her choice... was right!

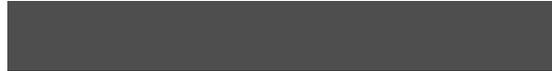

Even the chairmen of Silver Mountain Group and Xiao Wu Wholesale City came to attend the wedding in person.

His family's factory was definitely better than she had imagined!

At this time, Shu Jiadong frowned again and said, "We booked the seats according to the number of guests. With so many guests coming at once, I'm afraid there won't be enough seats."

## RICHEST MAN: GETTING 7 BILLION RED POCKETS TO START WITH

### Chapter 492 Forget It; Give Me A Car! (1)

#### *Chapter 492 Forget It; Give Me A Car! (1)*

Not enough seats?

When Wang Yunfang heard this, she hurriedly turned around and came to the last seats. "Su Ningjing, Lin Fan, you guys came too late..."

"I thought you guys weren't coming today, so I didn't arrange your seats.

"How about this, Su Ningjing? I'll return the gift money to you. You guys go back first. I'll treat you to a meal next time."

After speaking, she stuffed the 500 yuan into Su Ningjing's arms.

Wang Yunfang's original intention was to show off her grand wedding.

Su Ningjing was already here. She had seen it... Wang Yunfang had achieved her goal.

Now that there were not enough seats, there was naturally no reason for Su Ningjing to continue staying.

...

Too late?

Even now, guests were coming in one after another.

This was called too late?

Lin Fan was already unhappy with Wang Yunfang.

Whenever she spoke, she kept showing off.

She even seemed to belittle Su Ningjing.

Now, she even returned the gift money and was trying to chase him and Su Ningjing away.

At this moment, Lin Fan could no longer bear with it. He stood up and said, "Ningjing, let's go."

Su Ningjing had always listened to Lin Fan's words.

She stood up without hesitation.

At this moment, Zhang Zhou, Song Zhifeng, Wang Fengyi, and the others slowly walked over under Shu Rong's personal lead.

"Hello, Mr. Lin," Song Zhifeng, Zhang Zhou, and Wang Fengyi said in unison.

As soon as they said this, Wang Yunfang's heart suddenly jumped.

What did she hear?

The chairman of Yinshan Group, the chairman of Xiao Wu Wholesale City, and the general manager of the Imperial Hotel all greeted Su Ningjing's boyfriend?

This...

What was going on?

...

Seeing that Lin Fan was about to leave, Zhang Zhou asked curiously, "Mr. Lin, you're..."

Lin Fan had already seen Zhang Zhou and the others. At the same time, he understood what they were thinking.

"It's nothing," he said calmly. "This bride is my girlfriend's former classmate. However, she feels that there aren't enough seats at the banquet.

This... It was simply a humiliation!

Zhang Zhou, Song Zhifeng, Wang Fengyi, and the others all had "So, she returned my girlfriend's gift money and asked us to leave."

Return the gift money?

Getting Lin Fan and his girlfriend to leave?

This... It was simply a humiliation!

Zhang Zhou, Song Zhifeng, Wang Fengyi, and the others all had ugly expressions on their faces.

"Since there aren't enough seats, let's leave too!" Zhang Zhou said coldly.

"I agree!" Song Zhifeng said.

"It seems that the hall of our Imperial Hotel is too small. In that case, Mr. Shu, I think you shouldn't hold your wedding here," Wang Fengyi said in a deep voice.

As they spoke, they followed Lin Fan and were about to walk out together.

At this moment, no matter how dumb Shu Rong was, he knew that Lin Fan was definitely an incredible figure.

In fact, Zhang Zhou and the others suddenly came to attend the wedding because of Lin Fan!

Originally, he had the opportunity to establish a relationship with Zhang Zhou, Song Zhifeng, Wang Fengyi, and other big shots.

Now, not only could he not establish a relationship with them, but he had also offended the other party!

Wang Yunfang, this bastard woman!

Shu Rong glared fiercely at Wang Yunfang and then said anxiously, "Chairman Zhang, Chairman Song, Mr. Wang... Please don't leave, Mr. Lin. There must've been a misunderstanding just now..."

However, Lin Fan and the rest did not care about Shu Rong's shouts and continued walking out.

Shu Rong could not help but shout at Wang Yunfang, "What are you waiting for? Quickly apologize to Mr. Lin and his girlfriend!"

Wang Yunfang slowly recovered from her shock and said, "L-Lin Fan, Su Ningjing, I was just joking..."

However, Lin Fan, Su Ningjing, Zhang Zhou, and the others did not stop.

When Shu Rong saw this, he could not help but shout at Shu Jiadong, "Look, this is the woman you want to marry!"

Originally, he was not very satisfied with Wang Yunfang.

Now, he was even more disgusted!

Shu Jiadong opened his mouth and slowly lowered his head.

At this moment, at the front of the banquet hall, the large LED display screen that was originally playing the wedding video of Shu Jiadong and Wang Yunfang suddenly jumped, and a 65-slide PowerPoint presentation deck appeared.

There were photos of Wang Yunfang before plastic surgery, chat records of her with many people, and all kinds of indecent photos...

Seeing this...

Everyone's eyes widened.

Shu Rong was so angry that his entire body trembled.

Shu Jiadong was stunned.

Wang Yunfang's face was pale, and cold sweat rolled down her forehead.

She stuttered, "J-Jiadong, these... These aren't real..."

It would have been fine if she had not opened her mouth, but the moment she did, it seemed to have completely ignited Shu Jiadong's anger.

"B\*tch!"

Shu Jiadong raised his hand and fiercely slapped Wang Yunfang's face.

"I'm not getting married!" [noVeLnext.com](http://noVeLnext.com)

Wang Yunfang did not cry even after the slap.

However, when she heard Shu Jiadong's words, she immediately shed hot tears.

She could not marry the factory owner's son anymore.

...

Lin Fan did not care about any of this at all.

He and Su Ningjing did not leave the Imperial Hotel. Instead, under Wang Fengyi's arrangement, they went to the VIP room on the 78th floor.

The two of them sat in a large private room, admiring the beautiful scenery outside the window and tasting all kinds of delicacies. They were very satisfied.

Su Ningjing's pretty face was full of smiles.

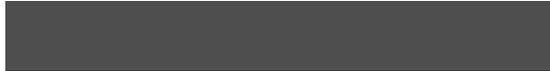

It was not because they were in a VIP room, nor was it because of the beautiful scenery, nor was it because of the delicious food.

It was because Lin Fan was right beside her.

Then, the two of them went to KM Mall.

## RICHEST MAN: GETTING 7 BILLION RED POCKETS TO START WITH

### Chapter 493 Forget It; Give Me A Car! (2)

After all, it was rare to see each other, so they had to take a stroll.

When the two of them walked out of KM Mall, they were carrying large and small bags of Chanel, Lancome, Gucci, and other clothes and jewelry.

When Lin Fan returned to Coiling Dragon Villa, it was already nighttime.

...

A day passed in the blink of an eye.

On Sunday, Lin Fan sat on the sofa after breakfast. He played with his phone and drank some Spirit Tea. He felt refreshed and relaxed.

At this moment, his phone rang.

He glanced at the caller ID. It was Wang Fugui, the chairman of Yadi Automobile.

Lin Fan did not hesitate and answered the call.

"Hello, Mr. Lin," Wang Fugui said respectfully.

Respectful?

That was right!

Respectful!

noVELnext.com

On one hand, Lin Fan was the biggest shareholder of Yadi Automobile.

On the other hand, it was because of Lin Fan's many inventions—the earthquake prediction device, the carbon-based photolithographic machine, the super battery... Which one of them did not shock the world?

Anyone would treat such a great scientist and scholar with respect.

Lin Fan said, "Hello."

Then, he asked bluntly, "Chairman Wang, why are you calling?"

Wang Fugui had interacted with Lin Fan before and knew that he was a straightforward person.

Therefore, he said directly, "Mr. Lin, yesterday, we installed the super battery on the first car and passed all the performance tests!

"After our tests, we've obtained data. The endurance of this pure electric car can reach 3,000 kilometers!"

When he said this, Wang Fugui's tone clearly became high-spirited.

Pride and excitement surged crazily!

It was no wonder that he would be like this.

What did 3,000 kilometers mean?

That meant that one only needed to charge the car once to drive from the east to the west of Hua Nation!

This was already far beyond the capabilities of a gasoline car!

People often said that gasoline cars would eventually be eliminated by new energy vehicles.

However, no one knew when it would happen.

Now, Wang Fugui could clearly tell everyone that it was time for the elimination!

He could almost imagine the grand scene of electric cars being driven by countless people!

The era that belonged to Yadi Automobile had arrived!

Compared to Wang Fugui's excitement, Lin Fan was much calmer.

"Is that so?" he said casually. "Not bad, right?"

One had to know...

The super battery was invented by him.

Lin Fan already knew the exact numbers.

Now, Wang Fugui was only putting it into practice.

What was there to be happy about?

When Wang Fugui heard Lin Fan's voice, he snapped back to his senses.

He cleared his throat and said, "Mr. Lin, I've already sent the first electric car to you. It should be here today. You can feel the effect when the time comes."

"Alright then," Lin Fan said.

Then, Wang Fugui started chatting with Lin Fan.

However, Lin Fan did not have the intention to chat.

He only casually echoed a few words before hanging up the phone.

At this moment, a muffled sound came from outside.

A tow truck arrived outside Coiling Dragon's villa. On top of the tow truck was a very cool electric supercar.

This... It was the first Yadi super-electric car that Wang Fugui had mentioned.

The tow truck driver was very smug along the way. After all, he was transporting a cool super sports car.

All the passerby's attention was drawn to it.

However, when he arrived at the villa, the pride in his heart was completely thrown aside.

This was because all that could be seen here were luxury cars.

Bentley, Ferrari, Lamborghini...

Among them, there were more than ten Rolls-Royce.

He even saw a private helicopter! I think you should take a look at [paπdasnovel.com](http://paπdasnovel.com)

The tow truck driver thought to himself, 'The people who live here are really rich!'

Seeing that the tow truck driver did not move, Lin Fan walked out and said, "Did Yadi Automobile ask you to send it over?"

[paπdasNovel.com](http://paπdasNovel.com) "Yes," The tow truck driver said. "Mr. Lin, may I ask where you want to leave the car?"

"Oh, put it wherever you want. The villas here are all mine," Lin Fan said casually.

All his?

There were nearly ten villas here!

Also, these luxury cars and private planes all belonged to Mr. Lin?

Being poor really limited his imagination!

The tow truck driver was stunned for a moment before he said, "Alright... Alright."

When the tow truck driver put down the car, a black Audi slowly stopped at the entrance of the Coiling Dragon Villa.

A middle-aged man in a white shirt strode over.

It was the director of the Institute of Science, Feng Zhixiang, who had interacted with Lin Fan several times.

"Professor Lin, you're here," Feng Zhixiang said happily.

"You bought a sports car again? There are so many cars. Can you drive all of them?"

Lin Fan said, "There are many cars here that I didn't buy. I didn't buy this car either. The chairman of Yadi Automobile, Wang Fugui, got someone to give it to me."

"Yadi Automobile?" Feng Zhixiang said in surprise.

He had naturally heard of Yadi Automobile.

In the past, Yadi focused on producing low-end fuel cars.

In recent years, after the country called for new energy vehicles, it put all its focus on new energy vehicles.

However, when did Yadi Automobile produce sports cars?

"Doesn't Yadi Automobile mainly produce new energy vehicles now? Now it's making sports cars?" Feng Zhixiang could not help but say it out loud.

"This is a new energy car. Wang Fugui just called to say that it can drive 3,000 kilometers on one charge."

"What? 3,000 kilometers!" Feng Zhixiang's eyes widened in disbelief.

3,000 kilometers was a terrifying number.

Then, Feng Zhixiang seemed to have thought of something and hurriedly said, "Is it using the super battery you invented?"

Lin Fan nodded. "Yes."

After receiving Lin Fan's affirmation, Feng Zhi Xiang's eyes were still wide open. His face was filled with disbelief.

"Endurance of 3,000 kilometers. 3, 000 kilometers... It's actually done... This... Only the legendary controllable nuclear fusion should be able to do this, right?" Feng Zhixiang muttered to himself.

When Lin Fan heard this, he was slightly stunned.

That was because a crisp notification suddenly sounded in his mind.

[Ding! You've triggered a mission—build a nuclear fusion plant that's more than 10,000 acres, own a Totamac device, and read Particle Simulation of Plasmas, Manual of Plasma Physics and Formulas, Thermonuron Fusion Plasma Physics, and Controlled Nuclear Fusion. Rewards: Complete version of the controllable nuclear fusion device, as well as related knowledge such as principles and design drawings, +1 upgrade Professor-Level Physics Experience, and one platinum packet.]

Building a 10,000-acre nuclear fusion plant would undoubtedly cost a lot of money.

However, to Lin Fan, was a problem that could be solved with money a problem?

Possessing a Totamac device? Hua Nation did not have one at all. Lin Fan did not know how to design one either. He needed to think of a way.

As for flipping through books, that was too simple.

Lin Fan looked at the rewards, and his lips curled up.

Not a bad mission!

Lin Fan was in a good mood. He looked at Feng Zhixiang and said, "Director Feng, why are you here today?"

After Feng Zhixiang heard Lin Fan's question, he came back to his senses.

He cleared his throat and said somewhat embarrassed, "Professor Lin, you said last time that you have advanced versions of prosthetic limbs..."

When Lin Fan heard this, he immediately understood what he meant.

Last time, Feng Zhixiang mentioned that he wanted to let a group of disabled soldiers who were injured during battle use advanced prosthetic limbs to form a special battle team.

"Have you gathered all the disabled soldiers?" Lin Fan asked.

"Yes," Feng Zhixiang quickly said.

In fact, he had gathered all of them a long time ago.

He did not dare to rush Lin Fan and could only let the soldiers wait silently.

However, this wait lasted for more than half a month.

The soldiers could not help but feel anxious.

Therefore, Feng Zhixiang had no choice but to personally come over to ask.

Right now, Lin Fan was in a good mood.

After all, he had just triggered a pretty good mission.

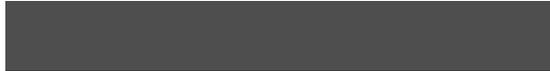

Moreover, this mission was also partly because of Feng Zhixiang.

Therefore, he did not hesitate and said, "I'll send you the prosthetic limbs in a few days."

"Thank you, Professor Lin!" Feng Zhixiang said happily.

## RICHEST MAN: GETTING 7 BILLION RED POCKETS TO START WITH

Chapter 494 Declare; Completion Of The Third Problem!

Not long ago, Feng Zhixiang had already met Hu Shaodong.

He saw with his own eyes... Hu Shaodong, who had put on the advanced version of prosthetic limbs, was so powerful that it was not an exaggeration to call him Superman!

It would not be long before the team of disabled soldiers could all be equipped with prosthetic limbs and become a team of superhuman soldiers.

How could this not make Feng Zhixiang happy?

Lin Fan waved his hand and said, "I've already promised you this. You don't have to be so polite.

"Oh, right, did you just say controllable nuclear fusion?"

Feng Zhixiang smiled and said, "I was just making an analogy... I used to hear academicians say that if controllable nuclear fusion is developed, new energy vehicles can last thousands of kilometers.

"Now, with your super battery, I don't think there's a need to rush into controllable nuclear fusion."

What he said was to highlight the importance of Lin Fan's super battery.

It was a disguised form of praise for Lin Fan.

Generally speaking, people liked to be praised.

Feng Zhixiang believed that Lin Fan would be in a good mood after hearing this.

However, Lin Fan shook his head and said, "We still have to study controllable nuclear fusion. Maybe there'll be results soon."

After all, as long as he completed the mission, he could master controllable nuclear fusion technology.

He was just foreshadowing in advance.

"What's so great about controllable nuclear fusion?" Feng Zhixiang asked. "It's just a little more energy, but if an accident were to happen, it would be a terrible disaster.

"Your super battery is the best. It's safe, reliable, stable, and lasts for a long time!"

Another praise.

Feng Zhixiang felt that Lin Fan would definitely be very happy. His relationship with Lin Fan had taken another big step closer.

Lin Fan glanced at Feng Zhixiang and said, "I'm preparing to research controllable nuclear fusion."

"Huh?"

Feng Zhixiang was slightly stunned.

He had just praised the super battery and belittled the controllable nuclear fusion...

Now, Lin Fan wanted to research controllable nuclear fusion?

Did he dig a hole for himself?

Feng Zhixiang could not help but cough dryly and said, "So, you want to research controllable nuclear fusion..."

"This is good! Controlled nuclear fusion has a small size, high energy, and increased cleanliness. Once the research is successful, it can directly replace our thermal power generation and completely free up our productivity..."

Once he opened his mouth, Feng Zhixiang could not stop.

He kept talking about the advantages of controllable nuclear fusion.

It was as if he was not the one who was belittling controllable nuclear fusion just now.

Lin Fan could not help but look at Feng Zhixiang. He had a strange expression on his face and said, "So, Director Feng, can you help me apply for the controllable nuclear fusion research and development qualification?"

Any nuclear research was definitely not something that an individual could casually carry out.

Especially since Lin Fan wanted to set up a factory, he needed the approval of the country.

Feng Zhixiang was slightly stunned.

After a while, he said, "Professor Lin, you want the controllable nuclear fusion factory qualification?"

Generally speaking, controllable nuclear fusion research only needed to be done in a laboratory.

Factory qualifications?

Was this not only needed for mass production after the research was successful?

Lin Fan naturally understood Feng Zhixiang's doubts, but he did not explain too much and continued, "Yes, and I need to build a controllable nuclear fusion plant that covers an area of more than 10,000 acres."

pandasNovel.com Feng Zhixiang was stunned again.

10,000 acres of controllable nuclear fusion?

This was definitely a large factory.

Hua Nation did not even have such a large controllable nuclear fusion plant.

So big? I think you should take a look at pandasnovel.com

"Can't I?" Lin Fan said.

Only then did Feng Zhixiang come back to his senses and said, "If it were anyone else, it definitely wouldn't work!"

He was absolutely not spouting nonsense.

Nuclear power was too dangerous for the country and even the entire world.

If the country let just anyone study it, it would definitely be a terrifying thing.

He paused for a moment before continuing, "But as for you... I'll report this matter to the higher-ups. As for whether it'll work out or not, it's up to the higher-ups to decide."

Lin Fan said, "When can we get the news?"

"I'll make a trip to the capital later. If everything goes well... about two days," Feng Zhixiang said.

Lin Fan nodded. "Alright."

Feng Zhixiang hesitated. "Professor Lin, actually, if you want to research controllable nuclear fusion, I can help you apply for the project. You'll be the

chief engineer and the person in charge. When the time comes, the factory, equipment, and everything will be ready for you..."

Lin Fan waved his hand. "That's not necessary. I'll do my own research."

After all, this mission required him to build a controllable nuclear fusion plant of more than 10,000 acres.

If the country helped, how could the mission be completed?

Seeing Lin Fan's insistence, Feng Zhixiang did not say anything else. He said helplessly, "Alright then."

Then, Feng Zhixiang chatted for a while before leaving slowly.

Lin Fan lay on the sofa and continued to play with his phone.

...

*noVELnext.com*

In the blink of an eye, it was the second day.

Lin Fan spent 3,680 yuan and ate breakfast from a two-star Michelin restaurant before heading to Jiangbei University.

At this time, Xia Bing, Xia Xue, Nie Zhenjiang, Jiang Chaoqun, and Liu Qianqian were already reading quietly in the office.

Only Hao Zhiwu's seat was still empty.

Just as Lin Fan was about to sit down in the executive chair to rest...

At this moment, footsteps sounded from outside the corridor.

Hao Zhiwu slowly walked in with a tired body and a weak expression.

This weekend, he was completely immersed in the gaming helmet.

Even though one was meant to play with the gaming helmet by lying on the bed with one's eyes closed, the brain would always be thinking. Thus, one would also be tired.

"Good morning, Professor Lin." Hao Zhiwu yawned.

When Xia Bing, Xia Xue, Nie Zhenjiang, Jiang Chaoqun, and Liu Qianqian heard this, they raised their heads and greeted, "Good morning, Professor Lin."

Lin Fan nodded at everyone and said, "Good morning."

Xia Bing and Xia Xue quickly took out a bottle of energy drinks from their drawers and handed them to Lin Fan.

When they saw Lin Fan drink a mouthful of each bottle, a sweet smile appeared on their faces.

However, they did not behave like usual. They immediately returned to their seats and continued to read quietly with their heads lowered.

Today, Xia Bing and Xia Xue looked like they wanted to say something but hesitated.

Liu Qianqian, who was sitting beside her, could not help but say, "Xia Bing and Xia Xue have solved the third question."

"Oh?"

When Lin Fan heard this, he could not help but look at Xia Bing's and Xia Xue's computers.

Sure enough, their computers had turned into normal desktop displays.

This meant that their third problem had been solved!

Lin Fan said happily, "Xia Bing, Xia Xue, you guys did well!"

After all, his students had to win international awards.

Only then would he be able to complete the system mission.

After solving all three problems, they were undoubtedly one step closer to winning an international award.

## RICHEST MAN: GETTING 7 BILLION RED POCKETS TO START WITH

Chapter 495 Handwritten Letter; Ordinary Technology Company!

After Xia Bing and Xia Xue heard Lin Fan's words, their faces immediately bloomed like flowers.

Praise!

Lin Fan was praising them!

Liu Qianqian looked at Xia Bing's and Xia Xue's happy expressions and could not help but shake her head secretly.

She thought to herself, 'They've completely fallen for him. Is it worth it?'

Then...

Liu Qianqian recalled the scene of Lin Fan casually throwing the basketball into the basket.

Then, she fixed his gaze on Lin Fan.

After a while, Liu Qianqian shook her head vigorously and focused her attention on the question in front of her.

Hurry up and study!

It would not be long before he could answer the third question!

Nie Zhenjiang and Jiang Chaoqun also took the time to read.

In the past, they could use the fact that no one had solved the third problem to tell themselves that the problem was too difficult.

However, someone had already answered their third problem, and it was two women.

This made them feel nervous.

...

Lin Fan looked at Hao Zhiwu who was still a little dizzy and said, "Help me find a few books."

"Alright, Professor Lin." Hao Zhiwu immediately agreed.

For the past two days, he had been staying in the dormitory and playing with the gaming helmet.

At this moment, he really needed to walk around a little as exercise.

After a while...

Particle Simulation of Plasmas, Manual of Plasma Physics and Formulas, Thermonuron Fusion Plasma Physics, and Controlled Nuclear Fusion were placed in front of Lin Fan.

Without any hesitation, Lin Fan started flipping through them.

One could hear the sound of books being flipped in a hurry in the office.

In the end, two were done.

Soon, Lin Fan finished reading all five books.

All the contents were engraved in his heart.

Then, Lin Fan turned his attention to the system mission.

[Ding! You've triggered a mission—build a nuclear fusion plant that's more than 10,000 acres (0/1), own a Totamac device (0/1), and read Particle Simulation of Plasmas, Manual of Plasma Physics and Formulas, Thermonuron Fusion Plasma Physics, and Controlled Nuclear Fusion (5/5). Rewards: Complete version of the controllable nuclear fusion device, as well as related knowledge such as principles and design drawings, +1 upgrade Professor-Level Physics Experience, and one platinum packet.]

Seeing this...

Lin Fan's lips curled up slowly. He had completed one-third of the mission.

...

In the blink of an eye, it was noon.

Lin Fan had just finished his lunch when his phone vibrated.

12:00 PM!

The red packets were here!

[Ding! Congratulations, you've received one yuan.]

[Ding! Congratulations, you've received 19,999 yuan.]

...

[Ding! Congratulations, you've received 88 yuan.]

[Ding! Congratulations, you've received 5% of Handwriting's shares.]*novelNExt.cOM*

Lin Fan received a total of 47,899 yuan from today's red packets.

Lin Fan naturally did not care about this bit of money.

He immediately turned his attention to the 5% of Handwriting shares that he obtained.

Handwriting was the world's largest social media app.

Its market value was close to seven trillion yuan, even surpassing Hua Nation's Penguin Group and Little Tanuki Group!

παΠdasNovel com 5% of the shares was about 350 billion yuan.

To Lin Fan, money was just a string of numbers. I think you should take a look at παΠdasnovel.com

However, when he saw the red packet, he could not help but smile.

This was because he had only received some useless money after signing in and receiving red packets for a long time.

Now, something different had finally arrived.

This meant that his luck was good again.

At this moment, Lin Fan's phone rang.

It was the director of the Institute of Science, Feng Zhixiang.

"Professor Lin, good afternoon," Feng Zhixiang said.

Lin Fan, who had just received 5% of the shares, was in a good mood.

"Hello, Director Feng."

Feng Zhixiang knew that Lin Fan did not like to beat about the bush, so he said directly, "Professor Lin, I've already returned from Jingbei. About what you said yesterday... I'll tell you the details in person. Where are you now?"

After all, what he wanted to talk to Lin Fan about was controllable nuclear fusion.

Anything with a nuclear core was confidential, and no one could eavesdrop on the conversation.

Lin Fan understood what Feng Zhixiang was thinking.

However, he did not think that anyone in this world could eavesdrop on his conversation.

He had a super smart watch.

"Then come over," Lin Fan said. "I'm at Jiangbei University."

"Alright," Feng Zhixiang said.

Not long after, Feng Zhixiang arrived at the office door.

He looked at Hao Zhiwu, Xia Bing, Xia Xue, Nie Zhenjiang, and the others who were studying hard and said in a low voice, "Professor Lin, let's talk in the conference room."

Lin Fan nodded.

After the two of them arrived at the meeting room...

"Professor Lin, Jingbei has agreed to your request," Feng Zhixiang said.

"They also asked us to give you the greatest support, including the construction of controllable nuclear fusion engineering teams, machinery, land approval, loans, and so on."

Lin Fan said in satisfaction, "Engineering team, mechanical equipment, land approval... I'll pay for all of these normally. There's no need for a loan... I can still afford this bit of money."

Feng Zhixiang opened his mouth.

He wanted to say that building a controllable nuclear fusion plant would probably cost billions!

What he was building was a 10,000-acre controllable nuclear fusion plant, which was worth at least tens of billions!

A bit of money?

However, soon, Feng Zhixiang thought of Lin Fan's invention of the human islet recovery drug, the super battery, the carbon-based photolithographic machine...

All of this seemed to have brought Lin Fan a terrifying amount of wealth.

Perhaps tens of billions... was nothing to Lin Fan.

Therefore, Feng Zhixiang said, "Alright then."

In fact, Feng Zhixiang only guessed half of it.

Lin Fan had a lot of money now.

Not long ago, Little Tanuki Group, Penguin Group, Dahua Group, Yadi Automobile, Da Mi Group, Hua Zhidi, Sun Pharmaceutical, Liu Pharmaceutical... All of them gave Lin Fan a large sum of money.

The current Lin Fan had nearly a hundred billion in cash flow.

This was definitely a terrifying number!

"Professor Lin, do you have any requirements for the site?" Feng Zhixiang asked after a pause.

"I need a big territory! It would be best if it's not too far away from Jiangbei University," Lin Fan said.

After all, he was still a professor at Jiangbei University.

If it was too far away, it would be too troublesome.

Feng Zhixiang nodded in understanding and said, "Also, what are you going to name this factory? I can help you register the name."

Name?

Lin Fan really had not thought about it.

He pondered for a moment before saying, "Let's call it Ordinary Technology."

"Ordinary Technology?" Feng Zhixiang echoed. "Alright."

No one knew that Ordinary Technology, which would resound throughout the world in the future and was destined to be extraordinary, was born in just a few words!

## RICHEST MAN: GETTING 7 BILLION RED POCKETS TO START WITH

### Chapter 496 - 496 Request; Award!

496 Request; Award!

It had to be said that Feng Zhixiang was very efficient.

The next day, Lin Fan received a call from Feng Zhixiang. He said that he had helped him register his company.

In addition, he had also helped him find a few plots of land that met his requirements and wanted him to go over and take a look.

Lin Fan asked Xia Bing, Xia Xue, Hao Zhiwu, and the others to continue studying in the office. If they encountered questions that they could not answer, they could wait for him to come back.

Then, he drove the Cullinan straight to the place Feng Zhixiang had mentioned.

About 20 minutes later, Lin Fan arrived at his destination.

There were a few dilapidated old factories, a few low hills, and a few small lakes... The place looked rather desolate.

However, he was looking to build a controllable nuclear fusion plant, not a financial center.

It was not a big deal for the place to be a little desolate.

At this moment, a gentle breeze blew over from afar, making people feel refreshed.

“This is the closest place to Jiangbei University,” Feng Zhixiang said. “The other place is...”

However, before he could finish, Lin Fan said, “This is it.”

Firstly, this place had mountains, water, and pleasant air.

Secondly, it was the closest to Jiangbei University.

If he did not choose this place, where should he pick?

Feng Zhixiang did not expect Lin Fan to make such a choice.

One had to know...

He was going to spend tens of billions to build a controllable nuclear fusion plant!

Did it take just one minute for Lin Fan to arrive here and make a decision?

After a while, Feng Zhixiang stuttered, “Okay... Alright.”

At this moment, one, two, three...

Many SUVs drove over from afar, and men and women wearing white helmets, red helmets, or white shirts stepped out of them.

Feng Zhixiang pointed at a middle-aged man who was about 50 years old and said, “Professor Lin, this is Chief Engineer Dai Lide from Hua Construction. You can tell him about the design and requirements of the Ordinary Technology factory.”

“Hello, Chief Dai,” said Lin Fan.

Dai Lide did not dare to look down on Lin Fan just because he was a young man.

On the contrary, he seemed very excited and respectful.

One had to know...

Lin Fan was a super genius in the scientific research world.

In fact, Dai Lide had always regarded Lin Fan as his role model and idol!

He quickly stretched out his hands and held Lin Fan’s right hand tightly.

“Hello, Professor Lin!

“Professor Lin, if you have any requirements for the factory, you can tell me.”

Lin Fan nodded. “First, it has to be big! The area had to be more than 10,000 acres!”

After all, the reason he was building the controllable nuclear fusion plant was to complete the mission.

“Second, you need to be fast! You can hire more workers and use more equipment like construction vehicles! You don’t have to worry about money. I’ll give you 20 billion in the early stages! I want to see speed!”

If a mission had to take three to five years, it would be meaningless.

“Third, you must ensure quality, especially safety!”

He did not want any risks.

If he completed the mission, Lin Fan would have the controllable nuclear fusion technology.

If the quality was worrying, it would cause a terrible disaster.

Dai Lide was like a soldier, standing straight and saying, "Professor Lin, please rest assured!"

At this point, the factory of Ordinary Technology officially started being built!

...

Lin Fan and Dai Lide discussed the details.

Then, Lin Fan returned to Jiangbei University.

At this moment, hurried footsteps sounded from outside the corridor.

The dean of the mathematics department, Hu Chuan, walked in quickly.

There were beads of sweat on his forehead, and he was panting heavily.

Obviously, he ran over.

Lin Fan said, "Director Hu, don't be so anxious. Sit down and rest first."

After all, Hu Chuan was already old.

If he was not careful and could not catch his breath, it would be troublesome.

Hu Chuan did not pay much attention to it. He said excitedly, "Professor Lin, the International Mathematics Center just called. They'll be presenting you with the Fields Medal!"

As soon as he said that, Xia Bing, Xia Xue, Hao Zhiwu, Nie Zhenjiang, Liu Qianqian, and Jiang Chaoqun all raised their heads and focused their gazes on Lin Fan.

Lin Fan solved Zhou's Conjecture, the Twin Prime Number Conjecture, Hodge's Conjecture, Hail's Conjecture, and Riemann's Hypothesis.

They knew that Lin Fan would definitely win the Fields Medal.

However, after receiving the news, they could not help but reveal an unconcealable excitement.

One had to know...

This was the Fields Medal that was known as the Nobel Prize in mathematics!

It was the highest award in the field of mathematics!

Compared to their excitement, Lin Fan was much calmer.

He drank a mouthful of Spirit Tea and said unhurriedly, "Alright, then I'll go to Barney to accept the Fields Medal."

It was not because Lin Fan was passionate about this award.

Firstly, Lin Fan still had to complete his mission of winning an international award.

The Fields Medal was obviously an international award.

Secondly, Lin Fan knew that Barney had the Totamac device, which was a necessary device for the controllable nuclear fusion mission.

A trip to Barney would allow him to complete two missions, so it was naturally worth it.

Hu Chuan quickly said, "I'll go through the relevant procedures and prepare the plane tickets for you now."

Lin Fan waved his hand and said, "There's no need to prepare plane tickets for me. I can go there myself."

"Alright," Hu Chuan said.

Then, he ran out in a hurry.

Jiangbei University was finally going to have a Fields Medal winner, and this was a rare opportunity to spread the word.

One had to know... In all of Hua Nation, even the Capital University and Huaqing University did not have a Fields Medal winner!

After Hu Chuan left, Xia Bing, Xia Xue, Hao Zhiwu, Nie Zhenjiang, Liu Qianqian, and Jiang Chaoqun all shouted excitedly, “Professor Lin, congratulations!”

Lin Fan said, “It’s just an award. If you work hard, you can get it in the future.”

Nie Zhenjiang, Liu Qianqian, Jiang Chaoqun, and the others lowered their heads.

They could get it in the future?

Although they never thought that they were worse than anyone else, they never thought that they would one day win the Fields Medal.

“Professor Lin, can you take us to the Fields Medal ceremony?” Hao Zhiwu asked with a smile. “We can also gain some knowledge so that we’ll have more motivation to win the Fields Medal.”

Nie Zhenjiang, Liu Qianqian, Jiang Chaoqun, and the others rolled their eyes.

More motivated to win the Fields Medal?

Was this something that could be obtained with just motivation?

*novelNExt.cOM*

However, a look of anticipation appeared on their faces.

Obviously, they were very interested in attending the ceremony.

## RICHEST MAN: GETTING 7 BILLION RED POCKETS TO START WITH

Chapter 497 Going Forward; A Stumbling Block To Learning!

Lin Fan looked at the expectant faces of everyone and smiled. "Alright, then we can all go together."

"Thank you, Professor Lin!" everyone shouted excitedly.

Since the start of the Fields Medal, it had only been awarded to a few dozen people.

None of them had ever thought of winning the award.

To them, being able to attend the award ceremony was already very special.

Xia Bing's and Xia Xue's beautiful eyes flashed with a faint light.

However, they were not happy because they could go to the award ceremony.

They were happy because they would have more time to spend with Lin Fan.

...

Just as Hu Chuan had expected, it was rare for Jiangbei University to have a Fields Medal winner. This was a rare opportunity for publicity.

Almost as soon as he walked into the office, the phone in his pocket rang.

"Hu Chuan, I heard that Lin Fan from Jiangbei University's math department won the Fields Medal. Congratulations..."

"What's there to be happy about?" Hu Chuan asked. "This is Lin Fan's honor, and he should be congratulated."

"However, Huaqing University and Capital University haven't won the Fields Medal yet. This is the first Fields Medal from Hua Nation, right? I, Jiangbei University, and the mathematics department will benefit from it. Yes, we'll just benefit from it..."

Although he said that he did not care, the smile on Hu Chuan's face seemed to be saying that he should be congratulated!

...

On Weibo.

Almost at the same time as Hu Chuan told Lin Fan about the award...

Nation Daily: [Congratulations to Lin Fan of Jiangbei University for winning the Fields Medal.]

Rollie: [How many times has the Nation Daily congratulated Professor Lin? Professor Lin is awesome!]

Stone Golem: [The fewer words, the bigger the matter!]

Fireball: [Fields Medal! F\*ck!]

Nobody: [So, what's the Fields Medal? Can you give me a big explanation?]

Man-Eating Bug: [The Fields Medal seems to be a mathematics award.]

Shadowless Kick: [Isn't it just a Fields Medal? It's not like it's a Nobel Prize. There's no need to be so excited, right?]

Madman: [Don't be excited? People often say that the average undergraduate acceptance rate is less than 3%, and I've seen it for myself now.

[Let me give everyone a brief introduction.

[There is no Nobel Prize in mathematics!

[The Fields Medal is the most prestigious award in the mathematics world, and it's also known as the Nobel Prize in mathematics!

[In addition, Professor Lin is also the first person from Hua Nation to win the Fields Medal!]

Mr. Mo: [God Lin is awesome!]

Nine Heavens Essence: [God Lin is awesome!]

Silent Smile: [God Lin is awesome!]

...

Soon, the words 'God Lin is awesome' were pushed to the top of the trending searches.

Lin Fan did not care about any of this.

For the next few days, he went to school and Coiling Dragon Villa as usual.

Today, after eating breakfast, he drove the Cullinan straight to the airport.

That was because today was the day they were going to Barney.

When Lin Fan arrived at the airport, Xia Bing, Xia Xue, Nie Zhenjiang, Liu Qianqian, Jiang Chaoqun, Hao Zhiwu, and the others were already waiting there.

"Professor Lin!"

After greeting each other, everyone boarded the luxury plane of Xia Airlines under Lin Fan's lead.

When Nie Zhenjiang, Liu Qianqian, Jiang Chaoqun, Hao Zhiwu, and the others saw a row of beautiful air stewardesses lining up to welcome them and tasted the luxurious delicacies on the luxury plane...

They could not help but praise.

Liu Qianqian could not help but look at the tall and handsome Lin Fan.

He could play basketball, was handsome, and knowledgeable... Moreover, he was so rich!

He was simply a perfect male god!

No wonder even though Xia Bing and Xia Xue knew that Lin Fan had a girlfriend, they did not care.

At this moment, Lin Fan placed a plate of lobsters in front of Xia Bing and Xia Xue and said, "The lobsters taste good. Try them."

Xia Bing and Xia Xue were like children who had received a reward. Their faces were filled with happy smiles.

Seeing this...

Liu Qianqian could not help but look envious.

Even Liu Qianqian did not realize that she had strongly opposed it at the beginning but was slowly accepting it. Now, she was actually envious.

*novelNExt.cOM*

...

When they arrived at Barney, two Rolls-Royce were already waiting at the airport.

Nie Zhenjiang, Liu Qianqian, Jiang Chaoqun, Hao Zhiwu, and the others enjoyed the luxurious experience brought by Rolls-Royce. Their eyes kept looking at the unique buildings outside, and they sighed from time to time.

Soon, they arrived at Barney Shangri-La Hotel.

Barney Shangri-La Hotel had a different style compared to the Shangri-La in Hua Nation.

Most of the domestic styles were modern, while the ones here were European and American.

Unique statues, castle-like outer walls...

Under the lead of the attendant, Lin Fan, Nie Zhenjiang, Jiang Chaoqun, Hao Zhiwu, Liu Qianqian, Xia Bing, Xia Xue, and the others were brought to six luxurious presidential suites.

The reason why there were six rooms was because Xia Bing and Xia Xue wanted to stay together.

When one pulled open the curtains and looked out, one could see the tall and large Avenue de la Champs-Elysees.

After putting down their luggage, Lin Fan brought everyone to LAE, a Michelin 2-star restaurant.

Everyone ate the juicy foie gras, the beautiful M9 beef, and the crispy and delicious snacks...

After unloading their luggage and tasting the delicious food...

Lin Fan brought everyone to the spa.

Enjoying the soft massage, everyone almost cried out in pleasure.

"I'll study harder when I get back!" Hao Zhiwu said immediately.

"You're not gonna play with the gaming helmet anymore?" Jiang Chaoqun asked.

"What's gaming? That's just a stumbling block that's stopping me from learning!" Hao Zhiwu said seriously.

"Why did you suddenly have such thoughts?" Nie Zhenjiang asked in confusion.

"Because only by studying hard can we have more opportunities to enjoy everything we had today!"

Lin Fan, who was walking in front, had a weird expression on his face when he heard Hao Zhiwu's words.

He had brought him to eat, drink, and play, but it had aroused his desire to study hard?

The sky gradually darkened.

Xia Bing and Xia Xue sat quietly on the sofa. Their expressions were a little nervous, and their pretty faces were slightly red.

That was because Lin Fan stayed next door.

They were only separated by a wall!

The first time...

This was the first time that they were so close to Lin Fan.

They slowly raised their heads and looked at the wall.

Then, they quickly lowered their heads.

That appearance...

It was as if they were peeking at Lin Fan but were worried that they would be discovered.

At this time, a crisp doorbell suddenly rang in Xia Bing and Xia Xue's presidential suite.

## RICHEST MAN: GETTING 7 BILLION RED POCKETS TO START WITH

### Chapter 498 Twins; Change!

The bell of the door scared Xia Bing and Xia Xue, who had just raised their heads. They hurriedly lowered their heads. Their pretty faces were even more flushed.

After a while, they slowly got up and walked toward the door.

The door slowly opened, and a tall and handsome figure immediately appeared in their field of vision.

It was Lin Fan!

Their eyes met.

Xia Bing and Xia Xue were slightly stunned. Their beautiful eyes were like gemstones, emitting an incomparably gorgeous light.

Perhaps it was because they felt the other party's hot breath, but in the next moment...

Xia Bing's and Xia Xue's faces immediately turned red like ripe tomatoes.

They hurriedly lowered their heads.

Their hearts were beating like drums.

Lin Fan looked at their cute faces and could not help but laugh. "Can I come in?"

Xia Bing's and Xia Xue's hearts beat even more violently.

They seemed to have used up all their strength before they could gently nod their little heads.

Lin Fan did not stand on ceremony and walked in.

Then, Xia Bing and Xia Xue hurriedly closed the door.

Just as they closed the door, a beautiful figure appeared.

It was Liu Qianqian.

Originally, Liu Qianqian wanted to talk to Xia Bing and Xia Xue.

After all, they were both women, and it was their first time going abroad.

However, when her fingers were about to touch the doorbell, she slowly stopped and muttered, "Did someone come here just now?"

She thought for a moment, then withdrew her hand and returned to her room.

...

At this moment, in the presidential suite.

Lin Fan walked up to the tall, bright window and looked at the dazzling Eiffel Tower in the distance. "I've long heard of the name of the Eiffel Tower. It looks pretty good with the night view."

Xia Bing and Xia Xue looked out of the window. Their two pairs of beautiful eyes seemed to be reflected by the light of the Eiffel Tower, and they became extremely bright.

At this moment, a gust of cool wind swept over from afar, bringing with it the fragrance of flowers.

Xia Bing and Xia Xue could not help but sneeze.

When Lin Fan heard this, he slowly closed the window and turned to look at Xia Bing and Xia Xue.

Perhaps it was because the windows were closed, but the air in the room suddenly became a little stuffy.

Perhaps, Lin Fan's gaze was too fiery...

Xia Bing's and Xia Xue's pretty faces gradually became redder.

Lin Fan could not help but use his Eyes of Truth to look at the two of them.

[Appearance: 95]

[Favorability: 99]

[Appearance: 95]

"You guys..."

Xia Bing and Xia Xue seemed to have thought of something. They hurriedly took out a bottle of energy drink each and handed them to Lin Fan.

Seeing this...

Lin Fan smiled and asked, "Where did you guys buy these?"

After all, this was Barney, not Hua Nation.

Xia Bing and Xia Xue said in unison, "O-Outside."

Lin Fan could not help but think back to the time when the two of them had gone out hurriedly after their meal.

They had probably gone out to buy the energy drinks.

Lin Fan took the two bottles and drank a mouthful of each.

Seeing this...I think you should take a look at [panidasnovel.com](http://panidasnovel.com)

A sweet smile immediately appeared on Xia Bing's and Xia Xue's pretty faces.

Lin Fan looked at their smiles and could not help but think back to how they insisted on waiting at the basketball court every day.

He recalled how they wanted to chat with him but did not dare to send him a message. Therefore, they wrote messages in the chat box every day...

He thought of how happy they looked as if they had eaten honey whenever he praised them.

He could not help but raise his arm and gently stroke Xia Bing's and Xia Xue's hair. He slowly moved his head toward their beautiful faces.

In an instant, the redness on their faces quickly spread to their ears, necks, arms, and legs... It continued to spread.

Soon, Xia Bing's and Xia Xue's bodies were completely red.

Then, they fell straight onto the sofa.

Lin Fan shouted, "Xia Bing! Xia Xue!"

However, no matter how he shouted, the two of them did not respond.

Lin Fan hurriedly placed his hands on Xia Bing's and Xia Xue's hands.

He could only feel that the two people's pulses were beating at a speed of several times per second.

Sun Simiao, the King of Medicine, had saved thousands of people in his life!

It could be said that Lin Fan had a wealth of medical experience.

Lin Fan had Sun Simiao's Medical Experience, but after taking Xia Bing's and Xia Xue's pulse, he could not help but be surprised.

Without any hesitation, he spent 20 million yuan to exchange for two bottles of Medical Water from the system and quickly poured them into their mouths.

After the Medical Water was consumed, the fiery red color on Xia Bing's and Xia Xue's bodies slowly faded, and their pulses gradually returned to normal.

Seeing this...

Lin Fan heaved a sigh of relief. *novelNEXt.cOM*

In the past, patients would wake up very quickly after drinking a bottle of Medical Water.

However, this time, Xia Bing and Xia Xue showed no signs of opening their eyes.

Lin Fan prepared to carry them to bed to rest.

However, when he picked up Xia Bing, who was the closest to him, her entire body turned red again.

Lin Fan had no choice but to quickly put her down. He spent another ten million yuan to exchange for a bottle of Medical Water and poured it into Xia Bing's mouth.

Only then did Xia Bing's body return to normal.

Lin Fan understood that he could not hug them anymore.

Hence, he took out a blanket and covered the two of them.

In order to prevent any accidents, Lin Fan did not leave. He sat on another soft sofa and played with his phone.

...

pandasNovel.com In the blink of an eye, it was the second day.

When a few birds flew past outside, the eyelashes of Xia Bing and Xia Xue, who were asleep, fluttered.

Then, the two of them slowly opened their eyes.

They looked at the spacious living room and were at a loss for what to do.

However, when Xia Bing's and Xia Xue's gazes landed on Lin Fan, they immediately recalled the scene of Lin Fan's head coming close. Their faces instantly turned red.

Lin Fan smiled. "You're awake?"

Last night, Lin Fan did not sleep.

However, with his extraordinary physique, he was not affected at all. He was still in high spirits.

Xia Bing and Xia Xue buried their heads and nodded hard. They said softly, "Yes, yes."

Lin Fan looked at their shy faces.

He knew that if he stayed here, they would never be able to adapt.

"Then go wash up first. We'll go downstairs for breakfast later."

After saying that, he walked out.

Just as Lin Fan opened the door, a beautiful figure appeared at the door.

It was Liu Qianqian.

## RICHEST MAN: GETTING 7 BILLION RED POCKETS TO START WITH

### Chapter 499 - 499 Strolling Around; Meeting an Acquaintance!

#### 499 Strolling Around; Meeting an Acquaintance!

Liu Qianqian looked at Lin Fan in front of her and then at Xia Bing and Xia Xue, who were lying on the sofa with their faces flushed red...

Then, she thought of last night. She vaguely saw Lin Fan walk into Xia Bing and Xia Xue's room.

Could it be... Did Lin Fan stay with Xia Bing and Xia Xue for an entire night?

Instantly, images unsuitable for children appeared in Liu Qianqian's mind.

A blush appeared on her pretty face.

Then, Liu Qianqian ran back to her room without greeting Lin Fan.

Lin Fan looked at her back and shut his mouth. He muttered, "What's going on?"

Of course, Lin Fan did not care too much. [novelnext.com](http://novelnext.com)

He shrugged and returned to his presidential suite. After taking a refreshing shower, he slowly opened the door.

At this moment, Xia Bing, Xia Xue, Nie Zhenjiang, Liu Qianqian, Jiang Chaoqun, and Hao Zhiwu were standing in the corridor.

As usual, Nie Zhenjiang, Jiang Chaoqun, and Hao Zhiwu shouted, “Good morning, Professor Lin.”

Among them, Hao Zhiwu’s voice was the loudest and most excited.

After all, this was his first night abroad!

He even stayed in the presidential suite of the Shangri-La Hotel and experienced a luxury he had never experienced before.

Xia Bing and Xia Xue blushed and buried their small heads. They said softly, “Good morning, Professor Lin.”

Liu Qianqian’s voice was also very soft, and her face was still blushing.

However, her mentality was different from Xia Bing and Xia Xue. She was trying to hide her reaction.

Regarding this...

Lin Fan did not mind at all. He nodded and said, “Good morning. Let’s have breakfast together.”

The breakfast at Barney Shangri-La Hotel was also very sumptuous.

Exquisite pastries, M5 beef, natural corn, sweet potatoes, seafood noodles, ham, fragrant bread, and toast...

Everyone was very satisfied.

The Fields Medal ceremony would be held tomorrow.

Today was the day for everyone to hang out around Barney.

Lin Fan glanced at Hao Zhiwu, Nie Zhenjiang, Liu Qianqian, and Jiang Chaoqun, who were walking out of the Shangri-La Hotel and looking around curiously.

They looked like children who had just learned how to walk. They were filled with curiosity about everything that was unfamiliar to them.

However, they were worried that Lin Fan would blame them.

Therefore, they could only suppress their curiosity and follow behind Lin Fan quietly.

Lin Fan smiled and said, "You guys don't have to follow me around. Just go around. Of course, don't get lost."

Lin Fan had said that they could treat him as a peer when they were outside, and it was indeed a fact, but how could they really?

After all, Lin Fan was their teacher, a genius professor who was known throughout the world!

Nie Zhenjiang, Liu Qianqian, Jiang Chaoqun, Hao Zhiwu, and the others all looked happy when they heard that. They replied, "Alright."

Then, everyone walked into the distance.

Lin Fan shook his head and started to stroll around this unfamiliar city.

Barney was indeed an international metropolis.

Perhaps the city looked similar to Jiangbei.

However, when one was in Jiangbei, one only had the chance to see luxury brands such as LV, Gucci, Chanel, Cartier, Versace, and so on in some high-end shopping malls.

On Barney's streets, these luxury brands could be seen everywhere.

Lin Fan looked at Barney's unique buildings for a while and then walked on the winding sidewalk for a while. His gaze fell on the luxury stores.

He muttered, "I don't have anything to do anyway. I'll just buy some things. Consider it a souvenir for the students who came to Barney."

As he spoke, he walked straight into the nearest shop.

...

Compared to Lin Fan, who was walking calmly, Nie Zhenjiang, Liu Qianqian, Jiang Chaoqun, Hao Zhiwu, and the others kept looking around, occasionally letting out gasps of praise.

"Wow! Look, that place is so beautiful!"

"Come, take a photo of me."

"I want to take photos too!"

The few of them took photos as they walked.

Not long after, they saw a long row of luxury stores.

"LV, Gucci, Versace... A lot of luxury goods stores!"

"Give me a close-up!"

...

"Ta Ta Ta!"

At this moment, a series of dull footsteps sounded not far away.

A slightly pungent smell drifted over.

"Liu Qianqian?!" A woman in high heels as thick as a thumb called out in a slightly ear-piercing voice. She was holding a middle-aged man's arm.

When Liu Qianqian heard this, she slowly turned around and said with uncertainty, "You're... Wan Fei?"

“Hehe, it’s me!” Wan Fei smiled. “I didn’t expect to meet you here! We haven’t seen each other for five or six years since we were separated into different classes in the first year of high school.”

“Yes, I am,” Liu Qianqian said happily.

Even though Liu Qianqian and Wan Fei were not on very good terms in high school, they were still classmates, after all.

It was very rare to meet a former classmate in a foreign country.

“Right, didn’t I hear that you went to Xia Ke University?” Wan Fei asked. “Why are you here in Barney?”

Liu Qianqian said, “I’m not studying at Jiangbei University. My professor is here to receive an award, so my classmates and I are here to play.”

Speaking of the professor, Liu Qianqian’s face revealed a complicated expression of admiration, yearning, helplessness, and so on.

Then, she introduced, “Right, these are my classmates—Xia Bing, Xia Xue, Nie Zhenjiang, Jiang Chaoqun, and Hao Zhiwu.”

“Hello, we’re Liu Qianqian’s classmates.”

Wan Fei nodded casually. “So you’re all students of Jiangbei University. No wonder you look so knowledgeable.

“Especially your professor. He must be very impressive to be able to come to Barney to receive an award.”

Xia Bing, Xia Xue, Nie Zhenjiang, Liu Qianqian, Jiang Chaoqun, and Hao Zhiwu all nodded.

Obviously, they all agreed with this statement.

Lin Fan was indeed amazing!

“Oh right, why are you all standing on the road?” Wan Fei asked again. “Let’s go to the shops and buy some things.”

“When I was studying in the past, I always felt that things like Gucci and LV were all very expensive! Only now did I know that they aren’t expensive at all!

“For example, this Chanel bracelet that my husband just bought for me only cost 50,000 yuan, and this LV bag only cost 80,000 yuan... They’re very cheap!”

As she spoke, she deliberately waved the bracelet on her wrist and the bag on her shoulder.

Then, she continued, “Let’s go. Let’s go in and buy something. They’re all so cheap anyway.”

After saying that, her face revealed a hint of contempt that was difficult to detect.

## RICHEST MAN: GETTING 7 BILLION RED POCKETS TO START WITH

Chapter 500 - 500 Gift; Choice! (1)

500 Gift; Choice! (1)

Tens of thousands for a bag?

A bracelet?

They were gonna go inside and shop themselves?

Where would they get so much money?

Liu Qianqian was about to speak.

“You’re all students from a famous university,” Wan Fei said. “You’ll definitely have a high salary in the future. Even if you don’t buy these things, you can take a look first. You can buy them later!”

“It’s rare to come to Barney, so it would be a pity if you didn’t take a look.

“Your professor must have a high salary! If he’s not with you, he might have gone to a luxury store. He might even buy you some luxury gifts... Hehehe.”

When she finished speaking, her entire body was shaking with laughter.

Prestigious university students who would get high salaries after this?

When she was studying, Wan Fei did have that opinion.

However, after graduating and entering society...

She had long thrown this opinion to the back of her mind.

Even graduates from famous universities only had a salary of 10,000 yuan.

Her husband’s company hired university students for a few thousand yuan a month.

University students were completely worthless now.

As for saying that their professor had a high salary, had gone shopping in luxury stores, and might even buy them luxury gifts... She was joking!

This was because Wan Fei had a certain understanding of the salary of a university professor. It was only 20,000 to 30,000 yuan a month.

How could such a measly salary be enough to buy luxury goods?

Not to mention luxury gifts!

The reason why Wan Fei said so much and insisted that Liu Qianqian and the others go to the luxury stores with her was just to show off.

Back in school, Liu Qianqian relied on her excellent grades and beautiful looks to become a campus belle.

Now, Wan Fei wanted to let Liu Qianqian know that good grades were useless, and so was being pretty... In the end, none of them could compare to her!

She wanted to enjoy the thrill of stepping on Liu Qianqian. She wanted to see Liu Qianqian look up at her.

...

When Liu Qianqian and the others heard Wan Fei's words, their reactions were different.

They all nodded.

Their professor had a high salary?

Well, that was for sure!

For the past two days, they had been on a luxurious private jet and were picked up by a Rolls-Royce motorcade.

They were staying in the presidential suites of the Shangri-La Hotel...

All of them could verify this point.

In addition, they would just be browsing through the luxury stores. It did not seem like much.

Wan Fei did not pay much attention to Liu Qianqian's thoughts. She held her hand and walked toward the Cartier store in front of her.

"Welcome to Cartier!" The graceful fair-skinned attendant at the door said in fluent English, "May I know what you need?"

Wan Fei said in broken English, "Can you speak Chinese?"

“Of course, I can,” the attendant said in somewhat awkward Chinese.

As Hua Nation became more and more powerful, and Lin Fan made great achievements in mathematics, chemistry, biology, physics, and other fields, the Chinese language had become one of the must-have languages for service staff in many international cities to learn.

“I’m looking for a necklace.”

The fair-skinned attendant sized up Wan Fei’s clothes and could tell at a glance that most of her clothes were from low-end brands.

Although the bracelet was from Chanel and the bag was from LV, they were only the lowest-end products of Chanel and LV.

The fair-skinned attendant immediately understood Wan Fei’s financial ability. Hence, she brought her to the lower-range products.

It had to be said that the fair-skinned attendant had good eyesight.

She took out a necklace and said, “The main body of this necklace is made of platinum and inlaid with ten diamonds. It’s very beautiful.”

“Ten diamonds! Oh, great!” Wan Fei asked, “How much?”

“6,122 euros,” the fair-skinned attendant said. *novelNExt.cOM*

Wan Fei immediately praised, “More than 6,000 euros. It’s only about 40,000 yuan when converted. It’s so beautiful and so cheap... I’ll buy it!”

Then, she rubbed against the middle-aged man beside her and said, “Hubby, help me put it on.”

“Alright.” The middle-aged man felt a little pained, but he still replied agreeably.

After Wan Fei put on the necklace, she felt that her entire person was glowing, as if she had become a princess or queen. She felt incomparably noble.

“Liu Qianqian, hurry up and buy something too!” she said with a smile. “This is a Cartier diamond necklace, and there are ten diamonds inlaid in it! It’s only 40,000 yuan. If it was in Hua Nation, it might be 100,000 yuan!

“The more we buy now, the more we earn. Hurry up and buy something!”

As she spoke, she deliberately showed off her Cartier necklace, Chanel bracelet, and LV bag...

Wan Fei wanted to see Liu Qianqian’s envious and admiring gaze!

Liu Qianqian was about to speak...

At this moment, there was the sound of brisk footsteps outside.

A tall and handsome man strolled in.

It was Lin Fan.

The blonde attendant standing at the door sized Lin Fan up and said in fluent English, “Welcome.”

That was because the blonde attendant saw Lin Fan holding several Vacheron Constantin watch boxes in his hands.

One had to know...

Vacheron Constantin was a top luxury watch. Any one of them would cost tens of thousands of euros!

Moreover, from the appearance of the boxes that Lin Fan was carrying, they were not low-end models. They were high-end models that cost more than 100,000 euros!
