

RICHEST MAN: GETTING 7 BILLION RED POCKETS TO START WITH

Chapter 501 Gift; Choice (2)

A big client!

This was definitely a rare big client!

Lin Fan nodded at the blonde attendant as a form of greeting.

When he saw Xia Bing, Xia Xue, Liu Qianqian, Nie Zhenjiang, and the others, he was slightly stunned and smiled. "Why are you guys here?"

"Professor Lin!" Hao Zhiwu shouted excitedly.

Xia Bing and Xia Xue said shyly, "Professor Lin."

Wan Fei, who was about to continue showing off, looked at Lin Fan in confusion. "Liu Qianqian, is that someone you know?"

"He's our professor," Liu Qianqian explained.

"Professor? So young?" Wan Fei said in surprise.

After all, most university professors were middle-aged and elderly people over the age of 40 or 50.

How old was Lin Fan?

He was only in his 20s.

Lin Fan ignored her shock and said, "It's rare for us to be overseas, so I bought you some small gifts. Nie Zhenjiang, Jiang Chaoqun, and Hao Zhiwu, these are for the three of you."

As he spoke, he handed over three Vacheron Constantin watch boxes.

"A gift? Thank you, Professor!" Hao Zhiwu said excitedly.

Then, he quickly opened the box and took out a well-made watch that looked very calm and fashionable.

Hao Zhiwu fell in love with it at first glance.

"What a cool watch!" he praised sincerely.

The blonde attendant's heart skipped a beat.

Vacheron Constantin's Traditionelle! The market price was 150,000 euros!

He casually gave away a watch worth 150,000 euros!

As expected, this was a great customer!

"What a great watch!"

At this time, Jiang Chaoqun also opened the watch box, revealing a low-key, luxurious watch.

The blonde attendant looked over, and his heart skipped a beat.

Vacheron Constantin 5370P! The market price was 150,000 euros!

Another watch worth 150,000 yuan!

"What a beautiful watch!" Nie Zhenjiang took out his watch and praised.

The blonde attendant looked over, and his heart raced again.

Vacheron Constantin Lange 760! The market price was 150,000 euros!

Someone with a watch worth 150,000 euros was a big client.

What if it was someone who casually gave away three watches worth 150,000 euros?

A god-level customer!

This was definitely a god-tier customer that he rarely met in a year!

The blonde attendant could not help but lower his body even more.

The fair-skinned attendant not far away also bent down.

It was all out of respect for the god-level customer.

Wan Fei only knew LV, Gucci, Chanel...

She did not know much about Vacheron Constantin watches.

She sneered and said, "I said that your professor would buy gifts for you. Look, he's giving you a few watches. They look quite nice. They should be worth dozens or hundreds of euros, right?"

When the fair-skinned and blonde attendants heard this, they all swept their sharp gazes over.

Hundreds of euros?

Was she mocking a god-level customer?

If the god-level customer was unhappy because of this and left the shop, what should they do?

One had to know...

Cartier stores had performance requirements.

Only when the staff and the store achieved a certain level of performance could they get the corresponding commissions.

Such a god-level customer would undoubtedly bring a lot of business to the staff and the shop.

The middle-aged man hurriedly berated Wan Fei in a low voice, "Don't talk nonsense. Those watches are from Vacheron Constantin!"

Obviously, he still had some understanding of watches.

He understood that the other party must have extraordinary strength to casually give away three pieces of Vacheron Constantin.

He definitely could not be easily offended.

The middle-aged man saw that Wan Fei was still a little confused. He said again, "The cheapest watch from Vacheron Constantin costs tens of thousands, or even more than a hundred thousand Chinese dollars!"

"What?" Wan Fei said in surprise.

The cheapest watch was worth tens of thousands or even a hundred thousand yuan?

He directly gave away three watches...

This...I think you should take a look at pa1dasnovel.com

However, when Wan Fei saw the LV bag by her waist, the Chanel bracelet on her wrist, and the Cartier necklace on her neck... she slowly recovered.

Were they not just three Vacheron Constantin watches?

They must be the cheapest models!

Her bag, bracelet, necklace... They were all worth tens of thousands of yuan!

Lin Fan ignored Wan Fei's thoughts and continued, "Xia Bing, Xia Xue, Liu Qianqian, I'll buy your gifts from Cartier. Did you see anything you like?"

Xia Bing and Xia Xue kept their heads buried.

Liu Qianqian shook her head gently.

She had just learned the price of Cartier from Wan Fei, so she did not dare to like the things here.

They were too expensive!

Lin Fan turned to the blonde attendant and asked, "Do you have any recommendations?"

The blonde attendant hurriedly said in Chinese, "Esteemed guest, this way, please."

He brought Lin Fan to the high-end area.

Then, he took out a necklace.

The long chain was inlaid with dense diamonds. Under the light, it was like a galaxy, shining with dazzling light. Coupled with the heart-shaped diamond pendant, it vaguely formed a heart-shaped galaxy. It was very beautiful.

With just one glance, Liu Qianqian was stunned.

Beautiful!

It was too beautiful!

"This necklace is called the Heart of the Milky Way," the blonde attendant introduced. "It was made by the famous designer Brewer Kearns. The necklace is made up of 100 diamonds and a two-carat heart-shaped diamond.

"It's like a flowing galaxy. The heart is bright, symbolizing beautiful love..."

"The Heart of the Milky Way is priced at 182,000 euros."

Liu Qianqian, who was originally intoxicated by the necklace, immediately woke up when she heard the price.

182,000 euros! If converted, it was close to 1.3 million yuan!

It was equivalent to a house!

It was simply terrifying!

Not only Liu Qianqian, but Hao Zhiwu, Nie Zhenjiang, and Jiang Chaoqun were also shocked by the price.

Even Wan Fei, who had been showing off her LV bag and Chanel bracelet, was shocked.

Lin Fan did not react at all.

He easily noticed that Liu Qianqian liked the necklace and nodded slightly.

Then, he pointed at Xia Bing and Xia Xue. He asked, "Do they have any recommendations for them?"

The blonde attendant looked at where Lin Fan was pointing and praised sincerely, "What beautiful twins."

After thinking for a moment, he took out two bracelets from the cabinet.

One was made of sapphire, pure and natural.

Another was made of ruby, fiery and bright.

The two were of the same style but different colors. They were like siblings, each with their own characteristics.

"These two bracelets are called the Blue Enchantress," the blonde attendant explained. "One bracelet is made of 19 small natural sapphires and one large natural sapphire, while the other is made of 19 natural rubies and one large natural ruby. All the gemstones have not been carved or modified. They are the most beautiful gifts of nature!

"The Blue Enchantress was discovered by the American scientific research team and later created by the Swiss designer, Maitreya.

"The blue enchantress flower symbolizes pure and innocent love. It's exactly the same as the bracelets. In fact, the bracelets even have a touch of unique beauty compared to the flower!

"In the past, I always thought that the Blue Enchantress would be sold to a certain customer so that she would display different charms in different clothes!

"Now, I feel that... perhaps the Blue Enchantress was made for these two beauties."

It was unknown if it was because they had listened to the blonde attendant or because Xia Bing and Xia Xue really liked the bracelets.

They looked at the bracelets with their beautiful eyes, and there was a faint light flashing in them.

Obviously, they were very interested in the Blue Enchantress.

Seeing this...

Lin Fan nodded his head.

At this time, the blonde attendant said, "Because these gemstones are very rare, and they were made by Master Maitreya, the price of these two bracelets is relatively expensive. Each bracelet is priced at 390,000 euros."

Hiss!n0Velnex.com

Everyone gasped when they heard this!

390,000 euros!

If it was converted, that would be 2.8 million yuan!

It would be 5.6 million yuan for two!

This was definitely a terrifying number!

Lin Fan's expression remained the same.

He nodded again and said, "Okay, then I'll take this necklace and these two bracelets."

Lin Fan's voice was so relaxed and calm.

It was as if he was just talking about buying two packets of tissues. He did not care at all.

RICHEST MAN: GETTING 7 BILLION RED POCKETS TO START WITH

Chapter 502 - 502 Small Gifts; Inhumane! (1)

502 Small Gifts; Inhumane! (1)

Lin Fan's tone was calm and relaxed.

However, it made the ears of Liu Qianqian, Nie Zhenjiang, Jiang Chaoqun, and Hao Zhiwu buzz.

"Alright, then I'll pack up this necklace and these two bracelets."

Was he going to buy the Heart of the Milky Way which was priced at 182,000 euros and the Blue Enchantress that was priced at 390,000 euros?

The total was 962,000 euros, which was close to seven million yuan!

The blonde attendant was also slightly stunned.

It was too fast!

From the moment Lin Fan walked into the Cartier store until now, less than three minutes had passed.

In three minutes, he had only briefly introduced the products.

Did Lin Fan decide to buy them just like that?

The blonde attendant had served many big customers before, but he had never seen a customer make a decision so quickly.

After all, this involved nearly a million euros!

Wan Fei was the first to react. She sneered and said, "Liu Qianqian, your professor must be very interesting in class, right? He's making jokes so casually."

Obviously, she felt that Lin Fan had no intention of buying the Heart of the Milky Way and the Blue Enchantress.

He was just joking.

After all, the total value of these three pieces of jewelry was close to seven million yuan.

In just a few words, he wanted to buy jewelry worth seven million yuan, and it was for his own students?

How was this possible?

When Wan Fei opened her mouth to speak, she finally pulled everyone's thoughts back to reality.

"Alright, I'll wrap them up for you now!" The blonde attendant said excitedly.

Lin Fan waved his hand and said, "No need to wrap them up. Just put the jewelry on them."

Liu Qianqian quickly said, "Professor Lin, this is... too precious of a gift."

nOvelNext.cOmm

Obviously, she did not care about Wan Fei's joke.

Lin Fan said, "Everyone gets a gift. It's just a little something."

The blonde attendant quickly brought the Heart of the Milky Way to Liu Qianqian and put it on her neck.

"Beautiful lady, your skin and figure are very good. You match the Heart of the Milky Way very well! It's perfect on you!"

He understood that as long as Liu Qianqian agreed, this transaction of nearly one million euros would belong to him!

Liu Qianqian wanted to reject him.

However, she looked at the Heart of the Milky Way on her neck, which looked like starlight, and could not speak for a moment.

The blonde attendant seized the time and put the Blue Enchantress on Xia Bing's and Xia Xue's wrists.

He praised again, "The bracelets have found their match!"

"I'll pay by card," Lin Fan said directly.

As he spoke, he handed over a bank card.

"Yes, Sir," the blonde attendant said excitedly.

After a soft beep...

The bill appeared. The card was successfully swiped!

Nearly a million euros!

Nearly seven million yuan!

The transaction was successful!

Instantly, 680 red packets appeared on Lin Fan's phone.

...

Only now did Wan Fei confirm that Lin Fan was not joking.

He really did buy Cartier jewelry and give it to his students!

...

Lin Fan looked at Xia Bing and Xia Xue and asked, "Do you like the bracelets?"

Xia Bing and Xia Xue nodded hard. "Yes!"

Even if Lin Fan gave them a piece of paper, they would still like it very much.

Moreover, they did think that the bracelets were very beautiful.

Lin Fan smiled. "It's good that you like your gifts. Alright, you guys can continue shopping."

After saying that, he walked out.

Liu Qianqian only retracted her gaze when Lin Fan completely disappeared from her sight.

She turned to Wan Fei and said, "Wan Fei, you were right. Our professor really bought us gifts."

As she spoke, Liu Qianqian gently stroked the two-carat heart-shaped diamond on the Heart of the Milky Way.

Wan Fei said very unnaturally, "Yes... Yes."

Previously, Wan Fei deliberately boasted about her necklace, bracelet, and bag. She just wanted to trample Liu Qianqian under her feet and make her look up to her.

In order to achieve her goal, she even said that Liu Qianqian's teacher would prepare luxurious gifts for the bunch.

In the end, Liu Qianqian's teacher had really prepared gifts!

Moreover, he had prepared luxurious gifts that cost more than a million yuan!

When Wan Fei raised her head, she happened to see the dazzling Heart of the Milky Way necklace on Liu Qianqian's neck.

Then, she secretly hid her Cartier necklace, Chanel bracelet, and LV bag behind her.

After all, the ten items on her added together could not compare to one item of Liu Qianqian's. It was too embarrassing!

"F*ck! My watch is actually a Vacheron Constantin Traditionelle. It costs 1.5 million yuan in Hua Nation!" Hao Zhiwu shouted.

Then, he said, "I'll help you check too!"

Hao Zhiwu shouted again.

"Jiang Chaoqun, your watch is a Vacheron Constantin 5370P. The domestic price is 1.58 million yuan!"

"Nie Zhenjiang, your watch is a Vacheron Constantin Lange 760. The domestic price is 1.81 million yuan!"

A series of screams shocked everyone.

Originally, Jiang Chaoqun and Zhenjiang were just holding their watches casually with one hand.

At this moment, they could not help but hug the watches tightly in their arms.

Wan Fei, who was standing at the side, wished she could find a hole to hide in.

She had just said that these few watches should be worth dozens or hundreds of dollars.

In the end, they were each worth more than one million!

Wan Fei felt as if her entire face had been slapped a few times.

It hurt!

It hurt!

...

Lin Fan was completely oblivious to all of this.

He continued to shop at Chanel, Prada, Hermes, and other stores for a while. He bought some gifts for Hu Tian, Qin Yuxuan, Han Tian, Chu Yunyue, and the others. After spending about 50 million yuan, he returned to the Shangri-La Hotel.

RICHEST MAN: GETTING 7 BILLION RED POCKETS TO START WITH

Chapter 503 - 503 Small Gifts; Inhumane! (2)

503 Small Gifts; Inhumane! (2)

Lin Fan sat on the soft sofa in the presidential suite and took out his phone to browse.

Soon after, he turned his attention to the 6,010 red packets.

These red packets were the red packets he had received after shopping today.

Lin Fan muttered, “6,000 red packets. Let’s see what I can get.”

[Do you want to open all red packets?]

“Yes!]

[Ding! Congratulations, you've received five yuan.]

[Ding! Congratulations, you've received 1,999 yuan.]

...

[Ding! Congratulations, you've obtained 51% of Shangri-La Group's shares.]

[Ding! Congratulations, you've received 99 yuan.]

...

[Ding! Congratulations, you've received two yuan.]

[Ding! Congratulations, you've obtained 51% of Michelin Group's shares.]

...

[Ding! Congratulations, you have obtained a one yuan critical hit card.]

[Ding! Congratulations, you've received 88 yuan.]

...

Out of the 6,010 red packets, Lin Fan received a total of 210,401 yuan. He chose to ignore this amount of money.

Lin Fan had used the one yuan critical hit card several times. He could get 100 million yuan immediately after spending one yuan. It was not bad.

51% of Michelin Group's shares. Michelin Group's main business was tires, and its market value was about 140 billion yuan!

51% of the shares meant that he had obtained 70 billion yuan!

As for money... Lin Fan did not care anymore.

More importantly, Michelin Group was not only famous for tires but also for its Michelin grading system for restaurants.

Every Michelin-star restaurant was good, be it the environment or the taste. They were some of Lin Fan's favorite restaurants.

Now, the entire Michelin Group belonged to him?

...

Finally, Lin Fan's attention fell on the 51% shares of Shangri-La Group.

The Shangri-La Group's market value was about 30 billion yuan, and 51% of the shares were about 15 billion yuan.

Besides, the place he was staying at right now was the Shangri-La Hotel?

After staying for two days, he was given the hotel directly?

Lin Fan rubbed his nose and smiled.

...

In the blink of an eye, it was the second day.

Today, Xia Bing, Xia Xue, Liu Qianqian, Nie Zhenjiang, Hao Zhiwu, Jiang Chaoqun, and the others all woke up very early.

That was because...

Today was the day their professor, Lin Fan, would accept the Fields Medal!

After washing up, they were all in high spirits. They waited excitedly in front of the door of Lin Fan's presidential suite.

A moment later, Lin Fan finally opened the door slowly.

"Good morning, Professor Lin," everyone said in unison.

Lin Fan nodded. "Good morning."

Then, they went to the dining area and had a sumptuous breakfast.

After that, everyone took the elevator to the lobby on the first floor.

It was also at this moment that a large group of men and women in suits and leather shoes walked over quickly.

It was not surprising that there were people in suits at the Shangri-La Hotel.

After all, this was one of the top hotels in Barney.

Hao Zhiwu, Jiang Chaoqun, and the others thought that they were just ordinary guests like him.

Therefore, they did not pay too much attention to them.

However, this group of people in suits stopped in front of Lin Fan.

Then, they greeted him in unison, "Hello, Mr. Lin!"

Their voices were not loud.

However, after gathering together, it still formed a rather loud sound which attracted the attention of everyone in the lobby.

A middle-aged man wearing gold-rimmed glasses stood at the front and said respectfully, "Mr. Lin, I'm Li Hui, the chairman of Shangri-La Group.

"Thank you very much for your trust in our Shangri-La Group. I will definitely work hard with all the employees... We'll be sure to strive to make Shangri-La Group better and better...

"Mr. Lin, are you free? I'd like to give you a report on the future development plan of Shangri-La Group and its financial situation over the years."

Shangri-La Group was founded by Li Hui.

Yesterday, when he found out that 51% of Shangri-La Group's shares had been suddenly acquired, he felt as if he had been struck by lightning. He had mixed feelings and could not sleep the entire night.

After all, Shangri-La Group was his life's work.

Now, it had become someone else's.

This made him doubt himself.

He doubted whether it was right or wrong to expand, raise funds, and go public.

However, it had to be said that Li Hui had a good ability to accept it.

After a sigh, he quickly accepted reality.

Therefore, he took a plane in the early morning and rushed to Barney overnight. He wanted to see the new boss of Shangri-La Group, Lin Fan, as soon as possible.

He wanted to use his utmost sincerity to gain Lin Fan's goodwill and friendship as soon as possible so that Shangri-La Group could continue to develop.

After Lin Fan heard Li Hui's words, he waved his hand and said, "I won't ask or interfere with the specific matters of Shangri-La Group. You can plan your own development. I'll only receive dividends according to the shares.

"So, you don't have to report to me."

Even though Li Hui had already experienced countless storms and had already reached the point where his emotions were not easily stirred, his face revealed unconcealable excitement after hearing Lin Fan's words.

novelnext.com

He would not interfere with the specific matters of Shangri-La Group!

He would only wait to receive the dividends!

Would this not be... no different from the previous circulating shares?

Shangri-La Group's route would not deviate!

After a while, Li Hui tried his best to suppress the excitement in his heart and said, "Yes, Mr. Lin!"

Lin Fan nodded and said, "That's all for now. I have something to do later, so I'll be leaving first."

After saying that, he strode forward.

Li Hui quickly looked at Lin Fan's back and said respectfully, "Goodbye, Mr. Lin."

After they walked out of the Shangri-La Hotel, Hao Zhiwu could not help but ask, "Professor Lin, is that the chairman of the Shangri-La Hotel?"

Lin Fan nodded and said, "Yes."

"I've been staying here for the past two days, so I got 51% of Shangri-La Group's shares."

His tone was very relaxed and indifferent.

However, it sounded like thunder in the ears of Hao Zhiwu, Jiang Chaoqun, Nie Zhenjiang, and Liu Qianqian.

What did they hear?

He enjoyed his stay here for the past two days, so got 51% of Shangri-La Group's shares?

Although they did not know the exact market value of Shangri-La Group, based on the reputation of the Shangri-La Hotel, it should be at least tens of billions of yuan, right?

Lin Fan stayed here for two days and spent tens of billions of yuan to buy half of the group?

This...

This...

It was simply inhumane!

Everyone stood rooted to the ground, staring at Lin Fan's back in a daze.

Lin Fan did not explain that he did not spend tens of billions to buy 51% of Shangri-La Group's shares. Instead, he opened a red packet.

Of course, even if he explained, they would not believe him.

At this moment, Hao Zhiwu suddenly shouted, "I want to study harder! Gaming? Movies? Music? None of them can stop me from learning!

"I want to become like Professor Lin!"

After saying that, he hurriedly ran forward.

After hearing Hao Zhiwu's words, Nie Zhenjiang, Jiang Chaoqun, and the others gradually came back to their senses and followed him.

...

At this moment, two Rolls-Royce were already waiting at the door.

Lin Fan, Xia Bing, and Xia Xue sat in the first Rolls-Royce.

As the car door slowly closed, the air immediately became hot.

For some reason, Xia Bing and Xia Xue suddenly recalled the day before yesterday when Lin Fan had come to their room. They recalled the atmosphere at that time and the scene of Lin Fan sticking his head in.

Therefore, Xia Bing's and Xia Xue's two pretty faces were like ripe tomatoes, completely red.

Liu Qianqian, Jiang Chaoqun, Hao Zhiwu, and Nie Zhenjiang sat in the second Rolls-Royce.

Hao Zhiwu looked at the watch on his wrist, and the word 'study' seemed to be jumping in his eyes.

He immediately took out his phone and opened the biology question bank. Looking at the complicated questions on it, he muttered, "It's rare for me to be abroad. I'll just study hard when I go back."

"Yes, I'll do that!"

After saying that, Hao Zhiwu closed the biology question bank, put on his headphones, and listened to brisk music.

RICHEST MAN: GETTING 7 BILLION RED POCKETS TO START WITH

Chapter 504 Award Ceremony; IN Physics Research Institute! (1)

The two Rolls-Royce slowly drove on the wide road, passing by the world-famous Tour de France, the European-style Sacre Coeur, the romantic opera house, and the historical Versailles Palace.

Finally, they arrived at Barney University.

Whether it was abroad or in Hua Nation, as long as it was a school, it would be filled with a special sense of youth and vitality.

Soon, two Rolls-Royce parked in front of Auditorium 1.

Only during extremely large-scale and important events would Auditorium 1 be put into use.

However, such large-scale events were only held a few times a year.

As a result, Auditorium 1 was closed all year round.

Obviously, the Fields Medal was an extremely large-scale and important event.**nOvelNext.cOmm**

Therefore, the doors of Auditorium 1 were opened early in the morning.

There were all kinds of bright flowers placed at the door, making it very festive.

At this moment, groups of people with different skin colors were chatting as they walked in.

"Professor Wyker, I didn't expect you to come."

"Of course! After all, this is the Fields Medal Award Ceremony, the highest honor in the mathematics world! In particular, the award will be given to the person who solved Riemann's Hypothesis!"

"Not only that! I remember that the youngest winner so far is 26 years old, right? Professor Lin is breaking that record."

"We're witnessing history today!"

"Not bad!"

...

Auditorium 1 had a total of 3,650 seats. Generally speaking, it was difficult to fill it up even if some opera galas were held.

At this moment, everyone was seated.

Among them were mathematics professors from the University of Oxford, Hemp Rope University, and Princeton University. There were also many big names who had retired from the academic world for many years.

It was no exaggeration to say that if everyone present suddenly disappeared, then the entire world of mathematics would go back by at least 30 years!

Amidst everyone's discussion and anticipation, a tall and handsome figure slowly walked in.

It was Lin Fan!

An old man with silver-rimmed glasses and a head full of flowery hair hurriedly came forward and said in English, "Professor Lin, welcome to Barney University. I'm the principal of Barney University, Wittens."

As he spoke, he took the initiative to stretch out his right hand.

Lin Fan stretched out his hand and said in Chinese, "Thank you."

Even though Wittens had heard that Lin Fan only spoke Chinese, he could not help but feel helpless when he heard it.

Then, he could only stutter in awkward Chinese as he had just recently started learning the language, "P-Professor, please..."

As he spoke, he pointed at the stage.

Lin Fan understood what he meant and nodded. "Alright."

Under the gaze of thousands of people, Lin Fan slowly walked onto the stage. I think you should take a look at pa1dasnovel.com

Seeing this...

Wittens let out a long sigh of relief and followed him to the stage.

He picked up the microphone and said in fluent English, "I'm very happy and honored to host this year's Fields Medal ceremony!"

"If mathematics is a mysterious maze, then the Fields Medal is the most dazzling gem buried in the maze!"

"Therefore, on behalf of all mathematics enthusiasts, please allow me to express my sincere gratitude to Mr. Fields!"

"It was Mr. Fields who gave our mathematics more vitality. He gave us the motivation to explore and strive for it.

"Today, according to Mr. Fields' wishes and the selection of many mathematicians, a very young and excellent mathematician has been selected to win this year's Fields Medal!

"He solved Zhou's Conjecture and the Twin Prime Number Conjecture in just one month. He also solved Hail's Conjecture and Hodge's Conjecture in two months!

"Not long ago, he solved Riemann's Hypothesis!

"His name is Lin Fan!"

As soon as Wittens finished speaking, thunderous applause immediately rang out, causing the entire auditorium to shake.

Then, Wittens held the certificate and the medal and came in front of Lin Fan.

"Congratulations, Lin Fan!"

"Thank you!" Lin Fan said.

Most of the people present took out their phones or cameras and took photos and videos of Lin Fan receiving the certificate and medal.

παΠdasNovel.com They wanted to keep this scene forever.

It was a historic scene!

They had to treasure this chance well!

However, they did not know that no matter if they took photos or videos, they would not be able to keep them.

Lin Fan did not want his appearance to be exposed by the media.

And he had a super smart watch.

After a long time, the sound of people taking photos and the applause slowly stopped.

Lin Fan picked up the microphone and said, "Thank you, everyone."

Even though Lin Fan was speaking Chinese and most of the people present did not understand, they still raised their heads, looking forward to Lin Fan's speech.

However...

The next moment, Lin Fan picked up his certificate and medal and walked off the stage.

Seeing this, everyone was stunned.

W-What was going on?

Wittens hurriedly said in Chinese, "P-Professor Lin, you want to... What do you... What?"

"I've already received the award," said Lin Fan.

After a pause, he said, "I'm done speaking."

RICHEST MAN: GETTING 7 BILLION RED POCKETS TO START WITH

Chapter 505 Award Ceremony; IN Physics Research Institute! (2)

After saying that, he walked out of the auditorium.

Only Wittens and the crowd were left, looking at each other in dismay.

He left?

He received a medal and a certificate...

Then, he left?

Should he not be emotional and sigh for a while longer?

Should he not be giving his blessings to the new mathematicians?

Should he not release new conjectures and new problems?

This...

Lin Fan had left too quickly and too suddenly. For a moment, everyone was unable to react, causing the entire auditorium to fall into a short silence.

After a while, someone said hesitantly, "Is it... over?"

"I... think so?"

After all, the Fields Medal winner had already left.

If this was not the end yet, what was?

Everyone present stared at each other.

They were at a loss.

This was the Fields Medal Award Ceremony!

It ended just like that?

History... They had witnessed it just like that?

Everyone touched their phones and cameras and heaved a sigh of relief.

"It's alright, it's alright... I took photos and videos to record this scene. It wasn't a wasted trip."

When they opened the photos and videos, they were stunned again.

That was because there were no more images of Lin Fan!

...

In fact.

Wittens and the others were not the only ones who were stunned and in disbelief.

Hao Zhiwu, Nie Zhenjiang, Jiang Chaoqun, Liu Qianqian, and the other students were also stunned.

They were Chinese, so they naturally understood what Lin Fan said on stage.

It was also because of this that they were even more stunned.

One had to know...

This was the stage for the Fields Medal!

A simple thank you and he left?

Even when Lin Fan walked out of the auditorium, they had not reacted.

...

Lin Fan casually threw the medal and certificate into his pocket and did not even look at them.

He did not care about the Fields Medal.

Therefore, he was too lazy to say anything.

If it was not for the fact that he had to win an international award for his mission, Lin Fan would not even have thought of winning it.

[Mission: Win five international awards (2/5). Reward: 5 golden packets.]

The last international award was the Shiing-Shen Chern Mathematics Award.

This was the Fields Medal.

As long as he won three more international awards, he would be able to complete the mission.

Lin Fan curled his lips and thought, 'It should be soon.'

He was one step closer to completing the mission, and his mood was much better.

Lin Fan got into the Rolls-Royce and said, "To the IN Physics Institute."

"Yes, Sir!" the driver said respectfully.

He was a full-time driver at the Shangri-La Hotel and only served the distinguished guests who booked the presidential suite.

On the first day, the driver was very respectful to Lin Fan.

That was because he knew that Lin Fan had booked five presidential suites.

He understood that Lin Fan was an absolute existence.

Today, the driver found out that Lin Fan had become the biggest shareholder of Shangri-La Group.

This made the driver even more respectful toward Lin Fan.

The IN Physics Institute was not too far away from Barney University.

They drove past the clear Seine and the ancient Cathedral of Notre Dame...

Then, they crossed a few streets.

Finally, they arrived in front of a huge building in the suburbs.

This... It was the IN Physics Research Institute!

When the Rolls-Royce stopped at the door, a security guard quickly walked over.

"Hello, may I help you?" he asked in fluent English.

The security guard's eyes were sharp, and his body was strong.

Obviously, he was not like some security guards who just ate and drank.

Instead, he had real capabilities.

"I have an appointment with Director Jimmy," Lin Fan said.

When the security guard heard this, his figure became slightly solemn. He then said in Chinese, "Then please contact Director Jimmy." I think you should take a look at pafladasnovel.com

It had to be said that the IN Physics Research Institute was indeed extraordinary.

Even the security guards knew Chinese.

Lin Fan nodded. "Okay."

Then, he dialed Director Jimmy's number.

After a while, the call was connected, and a slightly hoarse voice came from the other end.

"H-Hello, Professor Lin."

Yesterday, Lin Fan obtained Jimmy's contact information through his super smart watch. He had also called him and made an appointment to meet him today.

This was because the IN Physics Institute had multiple versions of the Totamac device.

Obtaining a Totamac device was one of the conditions to complete his mission.

In fact, this was also one of the reasons why Lin Fan came to Barney to receive the award.

As the director of the IN Physics Research Institute, Jimmy had a very high status in the physics academic world. He was not someone that ordinary people could meet.

As for Lin Fan, he was no ordinary person.

Physics and mathematics were inseparable. Just Lin Fan's answers to Zhou's Conjecture, the Twin Prime Number Conjecture, Hail's Conjecture, Hodge's Conjecture, and Riemann's Hypothesis were enough for Jimmy to take Lin Fan seriously.

Moreover...

Lin Fan even invented the earthquake prediction device, a high-tech product in the field of physics.

"Director Jimmy, I'm already at the entrance of the IN Physics Research Institute."

Lin Fan was surprised. "Professor Lin, aren't you receiving the Fields Medal today? It ended so quickly?"

Physics and mathematics were not separated.

If it was not for the fact that he had some matters to attend to in the morning, Jimmy would surely go to witness the grand award ceremony in person.

"Yes," Lin Fan replied.

"Please wait a moment," Jimmy said. "I'll come to the door to pick you up."

Just as he hung up, Lin Fan's phone vibrated.

12:00 PM!

The red packets were here!

In his boredom, he clicked on the red packets.

[Ding! Congratulations, you've received one yuan.]

[Ding! Congratulations, you've received 999 yuan.]

...

[Ding! Congratulations, you've received a random rebate card.]

[Ding! Congratulations, you've received five yuan.]

...

This time, Lin Fan received a total of 31,219 yuan.

He naturally did not care about this bit of money. *no next.com*

His gaze immediately fell on the random rebate card.

[Random rebate card: After spending, you'll receive a random amount of money.]

Lin Fan muttered in his heart, 'This is similar to the one yuan critical hit card.'

At this moment, a Mercedes-Benz drove out from inside.

"Hello, Professor Lin." The bald, fair-skinned middle-aged man took the initiative to extend his hand.

"Hello, Director Jimmy." Lin Fan stretched out his hand.

"I heard that you were very young, but after seeing you today, I'm still shocked."

He was definitely not complimenting him.

It was the truth.

A scholar's golden age was 30 to 50 years old.

Lin Fan was only in his 20s. His future achievements were unimaginable!

"Professor Lin, please come in!" Jimmy said.

The IN Physics Institute was involved in the nuclear fusion project.

Ordinary people were not allowed to enter casually.

However, Lin Fan was a mathematician, a great physicist, a great biologist, and a great physicist... He had some special privileges.

The two of them crossed the spacious grassland and walked through the winding green path before arriving in front of a tall building.

"This is the superconductivity physics section of our IN Physics Institute," Jimmy introduced.

"That's the power research area..."

"The new materials research area is in front..."

Every time he mentioned a place, Jimmy's tone was filled with pride.

However, Lin Fan was not interested in listening. In fact, he had already lost the intention to continue listening.

He interrupted, "I want to buy one of your IN Physics Institute's Totamac devices."

Jimmy was stunned for a moment.

After a while, he laughed. "Professor Lin, you sure like to joke. The Totamac device is not for sale."

"100 million euros!" Lin Fan acted like he did not hear him and said.

Even though Jimmy was the director of the IN Physics Institute and even though he had handled a large amount of money, his heart could not help but beat faster when he heard the price of 100 million euros.

100 million euros.

This was definitely a terrifying number!

Jimmy swallowed hard and said, "To be honest, I'm very tempted, but I'm just a director. I can't decide to sell the Totamac device..."

Lin Fan acted like he did not hear anything and said calmly, "200 million euros."

RICHEST MAN: GETTING 7 BILLION RED POCKETS TO START WITH

Chapter 506 - 506 Cooperation; Surprise!

506 Cooperation; Surprise!

Jimmy's body slightly stiffened as he opened his mouth, as if he wanted to say something.

At this moment, Lin Fan said, "300 million euros!"

Jimmy's mouth was half open, and he did not know what to say.

Lin Fan said again, "500 million euros!"

"One billion euros!"

Even though Lin Fan's voice was extremely calm, it sounded like thunder in Jimmy's ears.

Rumbling sounds continued!

One had to know...

One billion euros, if converted, was seven billion yuan!

This was definitely a terrifying number.

It was so terrifying that it was enough to support the IN Physics Research Institute to carry out several large research projects!

Lin Fan saw that Jimmy still had not replied. He could not help but frown impatiently.

It was this frown that instantly pulled Jimmy back to reality.

“Professor Lin, is it really just any Totamac device?” he asked hurriedly.

Lin Fan nodded. “Yes.”

“One billion euros?” Jimmy said.

“That’s right,” Lin Fan said.

“Deal!” Jimmy said immediately.

“Aren’t you just a director?” Lin Fan asked. “Can you decide whether to sell the Totamac device? Why don’t I go to your superiors directly?”

Jimmy said hurriedly, “Proffesor Lin, you might not know this, but I have a good relationship with the director of the Academy of Sciences. I guarantee that I’ll be able to reach a purchase contract with you very soon.”

In his opinion, this transaction was extremely profitable and could make great contributions!

What if Lin Fan went to find someone else?

Then, would the profits and credit not all become someone else’s?

Lin Fan did not care about Jimmy’s thoughts at all.

As long as he could buy the Totamac device, it would be fine.

Jimmy introduced Lin Fan to the two directors of the Academy of Sciences.

After a short exchange, both parties successfully signed the contract.

Lin Fan then paid seven billion yuan.

[Ding! Do you want to use the random rebate card?]

Lin Fan's expression shifted slightly as he thought to himself, 'Use it!'

[Ding! Congratulations, you've received a 2x rebate.]

[Ding! Congratulations, you've received 14 billion yuan.]

Then...

Lin Fan's phone vibrated.

[Notice from Merchant Bank: 140,000,000,00 yuan was deposited into your account.]

Seeing this...

Even Lin Fan could not help but curl his lips up.

He spent seven billion and earned 14 billion!

However, to Lin Fan, the money had already become a string of numbers.

It was just very pleasant to see the number continue to increase.

Jimmy and the two directors of the Academy of Sciences were in a good mood when they saw that the contract had been signed and the one billion euros had been transferred to their accounts.

That was because they were selling a second-generation Totamac device.

One had to know...

The IN Physics Institute had already developed the fifth generation of the Totamac device.

The second-generation technology was completely outdated and obsolete. There was no need to worry about anyone stealing it.

In their eyes, the second generation of the Totamac device was just a pile of useless junk.

Now, they had exchanged a pile of junk for one billion euros.

This one billion euros could be used to research and perfect the fifth-generation Totamac device.

This was definitely a very cost-effective deal.

This was a huge contribution!

“Professor Lin, do you want to have a meal together later?” Jimmy said with a smile.

Lin Fan said, “No, I still have something to do. I’ll leave first.”

After all, he was only here to buy a Totamac device.

Now that the purchase was successful, there was no reason for him to continue staying at the IN Physics Research Institute.

Lin Fan took a Rolls-Royce and returned to Shangri-La Hotel.

Although Lin Fan had already said that he would only take the dividends and he would not manage the specific matters of Shangri-La Group, Chairman Li Hui was still very respectful.

He personally waited at the entrance of the hotel and took the initiative to help Lin Fan open the car door. He nodded and bowed, asking about his well-being.

How did he look like the chairman?

He was simply the humblest servant.

He was absolutely respectful to Lin Fan.

This made Lin Fan feel completely at ease as he handed over Shangri-La Group to him to build and develop.

Although Li Hui knew that Lin Fan could let him develop Shangri-La Group on his own...

At the same time, Lin Fan could also completely change the development path of Shangri-La Group with one sentence. Lin Fan could even kick himself out.

Lin Fan owned too many shares of Shangri-La Group.

Lin Fan did not care about what Li Hui was thinking.

Facing Li Hui's actions like a humble servant, he remained the same.

At this moment, Hao Zhiwu, Nie Zhenjiang, Jiang Chaoqun, and Liu Qianqian walked over from afar.

When they saw Lin Fan, their faces were filled with excitement.

"Hello, Professor Lin!" they shouted in unison.

Then, Hao Zhiwu said excitedly, "Professor Lin, why didn't you stay on the stage of Barney University's Auditorium 1 and say a few more words? You don't know how cool you were just now!"

When he said this, his entire body danced with joy.

It was as if the person standing on the stage to receive the award just now was not Lin Fan but him.

Then, he sighed and said, "Unfortunately, I forgot to record that scene."

In fact, Hao Zhiwu had pressed the camera function at that time.

However, under the influence of the super smart watch, all the videos and photos were completely deleted.

Hao Zhiwu thought that he had forgotten to record.

He had a lot of regrets because of this matter.

Nie Zhenjiang, Jiang Chaoqun, and Liu Qianqian said, "Professor Lin, congratulations on winning the Fields Medal!"

Jiang Chaoqun sincerely wished him well.

Liu Qianqian's voice had a different tone to it.

Nie Zhenjiang sounded helpless. *ovelnext.com*

After all, Lin Fan had once fought with him on the same stage.

Now, Lin Fan had won the highest award in the mathematics world, the Fields Medal!

He was just an ordinary student.

Xia Bing and Xia Xue whispered, "Congratulations, Professor Lin."

After they finished speaking, their faces turned red.

Li Hui, who had been standing at the side like a servant, was shocked when he heard what everyone said.

What did he hear?

Lin Fan won the Fields Medal?

Although Li Hui was not from the academic world, as the founder and chairman of Shangri-La Group, the knowledge and experience he possessed were far beyond that of ordinary people.

Li Hui knew that the Fields Medal was known as the Nobel Prize in mathematics. It was the highest honor in the mathematics world!

Lin Fan, his new boss, got it?

Who exactly was his new boss?!

At this moment, in Li Hui's heart, Lin Fan's image suddenly became bigger, more majestic, and more mysterious!

Lin Fan did not care about the thoughts and thoughts of the crowd.

He only said a few words to the crowd before returning to his presidential suite.

Then, his gaze fell on the 700,000 red packets on his phone.

RICHEST MAN: GETTING 7 BILLION RED POCKETS TO START WITH

Chapter 507 Return; It'll Be Successful As Long As It's Built (1)

These 700,000 red packets...

Obviously, it was from the seven billion yuan he had spent to purchase the Totamac device.

Lin Fan muttered, "700,000 red packets. I don't think I've ever accumulated so many red packets."

"Let's see what I can get."

At this point, even Lin Fan could not help but reveal a look of anticipation on his face.

[Do you wish to open 700,000 red packets?]

"Yes!"

[Ding! Congratulations, you've received one yuan.]

pandasNovel.com [Ding! Congratulations, you've received 9,999 yuan.]

...

[Ding! Congratulations, you've obtained a one yuan critical hit card.]

...

[Ding! Congratulations, you've obtained the skill Poison Immunity.]

...

[Ding! Congratulations, you've received a double shares coupon.]

...

[Ding! Congratulations, you've received a Constitution Enhancement Potion.]

...

[Ding! Congratulations, you've received a double shares coupon.]

...

[Ding! Congratulations, you've received Hearing Enhancement Potion.]

...

[Ding! Congratulations, you've obtained 10% of Dahl Group's shares.]

...

[Ding! Congratulations, you've obtained 10% of Dior's shares.]

...

[Ding! Congratulations, you've received a double shares coupon.]

...

[Ding! Congratulations, you've received a random rebate card.]

...

[Ding! Congratulations, you've obtained 10% of Peugeot Group's shares.]

...

700,000 red packets...

Lin Fan received a total of 1,940,300 yuan.

This bit of money was not even worth what he got from breathing, sleeping, and walking every day, so he naturally did not care.

He had obtained a total of four one-yuan critical hit cards. If he spent a total of four yuan, he would immediately receive 400 million yuan.

Dahl Group was the largest oil company in the country, with a market value of about 140 billion US dollars, which was close to one trillion yuan. 10% of the shares were 100 billion yuan!

Dior was a famous luxury goods company. Its jewelry and cosmetics products were world-famous. Its market value was about 20 billion US dollars, which was close to 140 billion yuan. 10% of the shares were 14 billion yuan!

Peugeot Group was the largest car company in the country. At the same time, it was also one of the top ten car companies in the world. Its market value was 22 billion USD, which was about 150 billion yuan. 10% of the shares were 15 billion yuan!

Lin Fan had used the random rebate card not long ago. I think you should take a look at paTdasnovel.com

After spending, he would randomly be given a refund. Lin Fan had spent seven billion previously, and he got 14 billion back. This was a pretty good thing.

As for the double shares coupon, he could instantly increase his shares in a company one time.

Even though money was just a string of numbers to Lin Fan, making the number a little bigger would also feel better.

Therefore, he directly used the double shares coupon on Dahl Group.

Instantly, Lin Fan owned 20% of Dahl Group's shares.

At this moment, two bottles of potions appeared in front of Lin Fan.

One bottle was transparent, while the other was light red.

One of the bottles was a Constitution Enhancement Potion. Lin Fan had used it several times and had a good understanding of it. It could greatly increase the speed, constitution, strength, and so on.

He did not hesitate too much and directly poured the potion into his mouth.
no vel Next.com

After drinking the potion, his body felt slightly warm.

Then, a surge of power surged into his heart.

He did not try anything. He picked up the Hearing Enhancement Potion beside him and poured it into his mouth.

Instantly, Lin Fan heard a soft sound in his ears.

Then, he heard the pedestrians downstairs greeting each other, the sound of the river flowing in the distance, and the sound of sewer workers walking underground... It was very magical.

After that, Lin Fan turned his attention to the skill, Poison Immunity.

[Poison Immunity: The ability to resist all poisons. Poison Immunity shows unlimited charm!]

...

In other words, after spending seven billion yuan, Lin Fan obtained 229 billion yuan worth of company shares, 430 million yuan in cash, a bottle of Constitution Enhancement Potion, a bottle of Hearing Enhancement Potion, and Poison Immunity.

A great harvest!

It was definitely a great harvest!

Even Lin Fan could not help but smile.

...

The next day.

Under the farewell of Shangri-La's chairman, Li Hui, and many senior executives and under the welcome of many beautiful air stewardesses of Xia Airlines...

Lin Fan, Xia Bing, Xia Xue, Liu Qianqian, Hao Zhiwu, Nie Zhenjiang, Jiang Chaoqun, and the others took the luxury plane back to Jiangbei.

In the next few days, Lin Fan went back and forth between the Coiling Dragon Villa and Jiangbei University as usual.

On this day, Lin Fan was sitting in his office chair and playing with his phone.

At this moment, Hao Zhiwu suddenly stood up. He held a stack of draft paper and excitedly came in front of Lin Fan. "Professor Lin, what do you think of my answer to the third question?"

...

Lin Fan picked up the draft paper and flipped through it quickly. He nodded and said, "Good answer."

It had to be said that Hao Zhiwu was quite capable.

Once he put his heart into learning, he would be able to achieve results very quickly.

Hao Zhiwu immediately smiled when he heard that.

Perhaps because Xia Bing, Xia Xue, and Hao Zhiwu had completed the third question one after another, which caused Nie Zhenjiang, Liu Qianqian, Jiang Chaoqun, and the others to feel pressure.

Perhaps, they were like Hao Zhiwu. After seeing Lin Fan's status and wealth, they became motivated.

On the same day, Liu Qianqian, Jiang Chaoqun, and Nie Zhenjiang also solved the third question.

"Professor Lin, we've all solved the third question." Hao Zhiwu could not help but laugh. "Shall we go to the game world to celebrate?"

"Didn't you say that games are a stumbling block to your studies?" Liu Qianqian pouted.

"Didn't you say that games are a stumbling block to your studies?" Liu Qianqian pouted.

RICHEST MAN: GETTING 7 BILLION RED POCKETS TO START WITH

Chapter 508 Return; It'll Be Successful As Long As It's Built (2)

"I think that only by balancing work and rest can we improve our learning efficiency!" Hao Zhiwu said righteously.

Lin Fan listened to their conversation and could not help but laugh. "Alright, go play if you want to."

He had never been a strict professor, nor was he a hardworking professor.

It was good to balance work and rest.

...

At this moment, the phone in Lin Fan's pocket rang.

He looked at the caller ID and saw that it was Feng Zhixiang, the director of the Institute of Science.

Lin Fan did not hesitate and answered the call.

"Good afternoon, Professor Lin!" Feng Zhixiang's respectful voice came from the other end.

"Good afternoon, Director Feng," Lin Fan said. "What's the matter?"

He never liked to beat about the bush, so he asked directly.

Feng Zhixiang was not too surprised by this.

After all, both sides had dealt with each other many times.

"I just received news that the Totamac device you purchased has arrived at the port," Feng Zhixiang said. "I'm now preparing to get someone to ship it to Ordinary Technology. Do you want to come over and take a look?"

It had to be said that the IN Physics Institute was very efficient.

In such a short period of time, the item had been transported over.

Of course, the main reason was that Lin Fan had given too much money.

Lin Fan's heart skipped a beat. The Totamac device had arrived?

One had to know...

His mission required him to read five books, own a Totamac machine, and a controllable nuclear fusion plant that covered more than 10,000 acres.

He had already read all five books.

Although he had purchased the Totamac device, he had not been able to fulfill the mission requirements.

Lin Fan suspected that he had to wait for the Totamac device to arrive in Hua Nation before it would be ticked off.

Thinking of this, Lin Fan said, "Alright, I'll go to Ordinary Technology now."

After hanging up the call, he asked Hao Zhiwu and the others to continue their self-study.

Then, he drove the Cullinan out.

The last time he came here, there was only a dilapidated road, a few small mounds, and a few dilapidated factories.

At this moment, the road had already been widened by two times. The small mound and the dilapidated factory had long disappeared...

In its place were tall factories and the main office building.

It could be said that the structure of the controllable nuclear fusion plant was slowly taking shape.

Dozens of engineering vehicles and hundreds of workers were seen working very hard.

At this moment, two soldiers walked over with their backs straight.

"Hello, what's the matter?"

Their voices were steady and powerful.

His factory was actually guarded by soldiers!

Lin Fan was just about to speak...

At this moment, an Audi drove over from afar.

Behind the Audi was a van.

Soon, Feng Zhixiang and a middle-aged man wearing gold-rimmed glasses walked down.

"Professor Lin, sorry for being late," Feng Zhixiang greeted from afar.

Lin Fan said, "It's fine. I just arrived."

The two soldiers stepped aside after hearing this.

Feng Zhixiang explained, "For the safety of Ordinary Technology, we arranged for some soldiers to guard it."

Lin Fan's face revealed a strange look.

Ordinary Technology was wholly invested by him.

Soldiers were sent to guard this place?

Feng Zhixiang seemed to have noticed Lin Fan's confusion and continued, "After all, this is a controllable nuclear fusion company. As long as it involves nuclear energy, we have to be careful."

Lin Fan nodded. I think you should take a look at

Then, Feng Zhixiang pointed at the truck and said, "The Totamac device is inside..."

Lin Fan looked in the direction he was pointing at. A crane was lifting a strange-looking machine out of the truck.

The middle-aged man wearing the gold-rimmed glasses could not help but say, "Professor Lin, may I ask, why did you spend so much money to buy a second-generation Totamac device from the IN Physics Institute?"

His words were filled with confusion.

There were two main directions for controllable nuclear fusion research.

One was a stellarator, and the other was a Totamac device.

Among them, the stellarator was a path recognized by most scholars. It was also the main research direction in Hua Nation and was at the forefront of the world.

As for the Totamac device, it was much more unpopular.

In fact, many scholars believed that it was the wrong path.

As a result, Hua Nation chose to give up on researching the Totamac device.

On top of the stellarator, Lin Fan should study the Totamac device, or at least buy the third generation of the Totamac device, right?

One had to know...

The current Totomac device was already in the fifth generation, and it was said that the sixth generation would soon appear soon.

Then, what was the use of the second-generation stellarator that Lin Fan had bought?

It would not be an exaggeration to say that it was junk, right?

Spending so much money to buy a piece of junk!

No wonder the middle-aged man was so confused.

"Professor Lin, this is Director Wang Dahua from the Institute of Nuclear Physics at Capital University."

Lin Fan did not reply immediately. Instead, he focused his attention on the mission system.

[Mission: Build a nuclear fusion plant of more than 10,000 acres (0/1), own a Totamac device (1/1), and read Particle Simulation of Plasmas, Manual of Plasma Physics and Formulas, Physics of Thermonuclear Fusion Plasmas, Controlled Nuclear Fusion (5/5). Reward: Complete version of the nuclear fusion device, as well as related knowledge such as principles and design drawings, Professor-Level Physics Experience +1 upgrade, one platinum packet.]

As expected, the mission was only confirmed and completed when the Totamac device appeared in front of him.

After a while, Lin Fan said, "Because if I buy this Totamac machine, I can successfully develop controllable nuclear fusion."

"Really?" Feng Zhixiang asked excitedly. "The research is going to be successful?"

It was no wonder that he would react like this.

There were too many things involved in controllable nuclear fusion.

The first and second industrial revolutions could both be described as energy revolutions.

Once the controllable nuclear fusion was completed, it would be enough to set off the third industrial revolution.

At that time, Hua Nation would be able to develop by leaps and bounds!

"Professor Lin, is what you said true?" Wang Dahua asked in surprise.

Lin Fan looked at the two of them and said, "It's useless to talk about this now. The factory of Ordinary Technology hasn't been built yet. Let's build a factory of more than 10,000 acres first.

"By then, controllable nuclear fusion will be successful."

When Lin Fan said this, he was very sure.

The system had never disappointed him.

As long as he completed the mission, he would have the technology for controllable nuclear fusion. *Novelnext.CoM*

Lin Fan's goal today was to personally come and see the Totamac device and complete the mission.

Now, everything was done.

There was no need for him to stay any longer.

After Lin Fan said a few words to Feng Zhixiang, Wang Dahua, and the others, he drove the Cullinan away.

After Lin Fan left, Wang Dahua could not help but say, "Director Feng, do you think Professor Lin can really develop controllable nuclear fusion just by relying on the second-generation Totamac device that the IN Physics Institute researched many years ago and has long since eliminated?"

"How long have those mathematicians been studying Riemann's Hypothesis?" Feng Zhixiang asked. "Did they manage to answer it in the end? How long have those medical experts been studying diabetes? Did they solve it in the end? How long have those physicists been studying earthquakes? Did they invent the earthquake prediction device in the end? How long have those mathematicians been researching batteries? Did they invent the super battery in the end?"

One question after another, he directly asked Wang Dahua till the latter's jaw was agape. He was unable to answer at all.

"Some people are like that!" Feng Zhixiang continued. "To be able to do things that others can't, I call this kind of person a great man!"

Feng Zhixiang looked in the direction where Lin Fan had left.

Then, he recalled what Lin Fan had said.

"There are still too few workers and engineering vehicles here. We have to transfer more over!"

After all, Lin Fan said that once the construction was completed, the controllable nuclear fusion would be a success!

RICHEST MAN: GETTING 7 BILLION RED POCKETS TO START WITH

Chapter 509 Treat; My Mom Is Here! (1)

The setting sun dyed the sky red, bright and beautiful.

As it was time to get off work, everyone was rushing home. The traffic was very congested.

Lin Fan raised his head. A tall building appeared before his eyes.

It was Jiangbei Hotel.

When Lin Fan saw this building, he could not help but think of the first time he came here. It was Old Master Qin Weiming who treated him to a meal.

Then, he thought of the unique delicacies in Jiangbei Hotel.

At this moment, Lin Fan's stomach started to growl.

He looked at the black mass of cars in front of him, then turned the steering wheel and drove toward Jiangbei Hotel.

He had just parked his car when a thin figure in a white T-shirt happened to walk past him.

Lin Fan could not help but exclaim, "Cousin?!"

The man slowly turned around.

When he saw Lin Fan, he could not help but shout, "Lin Fan?"

Lin Fan did not get the wrong person.

This was his cousin, Lin Zihao.

Lin Fan said, "Cousin, when did you come to Jiangbei?"

"I came this year," Lin Zihao said.

"Have you eaten? Let's have a meal together," Lin Fan said.

Lin Zihao's stomach growled.

"Sure." He nodded.

Thus, the two of them walked side by side, chatting as they walked into the Jiangbei Hotel.

...

At this moment, a large group of men and women in suits and leather shoes had already arrived at the Jiangbei Hotel.

The person in the lead was the chairman of Xiao Wu Wholesale City, Zhang Zhou.

The people standing beside and behind Zhang Zhou all nodded and bowed, smiling obsequiously.

"I heard that the Jiangbei Hotel just airlifted a batch of sea urchins, tuna, abalones, and king crabs this morning..."

"I also heard that a wild boar was shipped in yesterday..."

"Head Chef Liu Wentao used to be a chef at a state banquet. I've already told him to cook today's food."

"Chairman Zhang, you came at the right time today!"

...

Zhang Zhou nodded arrogantly in response to the crowd's praise.

When Zhang Zhou turned his head, he suddenly froze.

He saw a tall and handsome figure.

It was Lin Fan!

Zhang Zhou took a few quick steps and arrived in front of Lin Fan.

Then, he bowed and said in an extremely respectful and excited tone, "Mr. Lin, I didn't expect to meet you here. What a coincidence." "I think you should take a look at

One had to know...

Lin Fan owned 51% of the shares of Xiao Wu Wholesale City. He could be said to be his boss.

In addition, the reason why Xiao Wu Wholesale City had been able to develop so much was all thanks to Lin Fan.

Lin Fan had made Xiao Wu Wholesale City the biggest agent for Flower Stem. Flower Stem's perfume and skincare products were a huge success.

It could be said that becoming a major agent of Flower Stem was equivalent to owning a banknote printing factory.

Every day, countless people offered money to work with Zhang Zhou.

Lin Fan finally noticed Zhang Zhou and said, "Yeah, what a coincidence."

"I've been wanting to treat you to a meal for a long time. I just happened to meet you today. I wonder if you're free today?"

Lin Fan did not reply. He turned to Lin Zihao and said, "Cousin, do you want to eat with them?"

"The more the merrier," Lin Zihao said.

He could tell that Zhang Zhou and the people behind him all had extraordinary auras.

Even though Lin Zihao knew that Lin Fan seemed to be quite extraordinary now, he did not want Lin Fan to offend anyone over a meal.

Moreover, just as he said, the more the merrier.

Lin Fan nodded. "Alright, let's eat together."

"That's great!" Zhang Zhou said excitedly. "Mr. Lin and his cousin, this way, please."

As he spoke, he bent down again and extended his right hand.

That appearance... He was like the most respectful waiter.

nOvELNext.cOm

This scene shocked the men and women in suits standing behind him.

One had to know...

Zhang Zhou was the chairman of Xiao Wu Wholesale City!

Even if they did not cooperate with Flower Stem, Xiao Wu Wholesale City was still a large company with a market value of more than ten billion.

After working with Flower Stem, their scale and reputation continued to rise.

In the end, Zhang Zhou actually treated a young man who looked to be in his 20s... so respectfully!

What was the identity of this young man?

Lin Zihao scratched the back of his head and said awkwardly, "This... Mr. Zhang, my name is Lin Zihao. You can just call me by my name."

After all, Zhang Zhou was about 40 to 50 years old.

Zhang Zhou also felt that Lin Zihao was uncomfortable. He did not insist any longer and said, "Alright."

To everyone's surprise, Zhang Zhou personally led the two to the private room.

Lin Fan and Lin Zihao arrived at the luxurious Room No. 8.

Zhang Zhou personally pulled out a chair and arranged Lin Fan to sit in the first seat. Lin Zihao sat on Lin Fan's left and he sat on his right.

"I heard that the Jiangbei Hotel just airlifted a batch of sea urchins, tuna, abalones, king crabs, and other seafood this morning," Zhang Zhou said. "In addition, a wild boar arrived yesterday..."

"Yes! Head Chef Liu Wentao is here. He used to be a chef at a state banquet. I've already made an agreement with him. He'll personally cook today's delicacies. The taste will definitely be good!"

RICHEST MAN: GETTING 7 BILLION RED POCKETS TO START WITH

Chapter 510 Treat; My Mom Is Here! (2)

"Mr. Lin, you came at the right time today!"

As he spoke, he started to dance.

The men and women in suits and leather shoes smelled like smoke, and the corners of their mouths could not help but twitch.

Earlier, when they were saying these words, Zhang Zhou only nodded lightly and was extremely arrogant.

In the end, when he faced these two young people, he started to dance and talk.

Why did his attitude change so much?

Jiangbei Hotel was very efficient.

After a while, delicious dishes were served one after another.

Lin Fan picked up some food and put it into his mouth. He nodded slightly and said, "Cousin, try this. It's not bad."

Lin Zihao also picked up a piece with his chopsticks and praised sincerely, "It's delicious!"

When Zhang Zhou heard this, he heaved a sigh of relief.

After all, he had just recommended the dishes here.

Novelnext.CoM

If they were not delicious, then it would be a little difficult.

Then, like a child hearing a teacher's praise, Zhang Zhou's entire face immediately curled up into a smile.

"Today, we're honored to be able to have a meal with you two. I suggest... Let's toast to the two Mr. Lins!"

After saying that, Zhang Zhou picked up his wine glass and stood up.

Everyone present also raised their glasses and stood up.

After that, everyone downed the wine in their glasses.

At this moment, there was a crisp knock on the door.

Then, a man in a white shirt walked in.

It was the general manager of Jiangbei Hotel, Zhang Shanfeng.

"I just heard from the people below that Mr. Lin is here for a meal, so I specially came to toast you. I hope I didn't disturb you."

As soon as he said this, many people's hearts jumped wildly.

They knew Zhang Shanfeng and knew that he was the general manager of Jiangbei Hotel.

It was because of this that they were even more surprised.

If it were an ordinary restaurant, it would be fine.

However, Jiangbei Hotel had a very deep official background.

Even the general manager of Jiangbei Hotel rushed over to toast Lin Fan when he heard that Lin Fan was here.

Who exactly was this young man called Lin Fan?

Compared to the shock in everyone's hearts, Lin Fan was still extremely calm.

"You're not disturbing us. We're just eating."

"That's good, that's good..." Zhang Shanfeng heaved a sigh of relief.

"Mr. Lin, thank you for coming to our Jiangbei Hotel for your meal. Here's a toast to you."

After saying that, he picked up the wine glass and drank it in one gulp.

Then, Zhang Shanfeng poured himself another glass of wine and said, "Thank you for coming to the Jiangbei Hotel. I hope everyone will enjoy the meal."

With that, he finished the wine in his glass.

Everyone present, including Zhang Zhou, the chairman of Xiao Wu Wholesale City, quickly raised their glasses and said, "Manager Zhang, you're too polite."

As soon as they finished speaking, they also drank the contents of their glasses in one gulp.

"Then I won't disturb you."

This meal...

Everyone would occasionally find an opportunity to toast Lin Fan and Lin Zihao, wanting to get closer to them.

They understood that this would definitely be of great benefit to them.

Lin Fan did not reject any toasts.

After all, he had Drinking Gentleman, allowing him to drink a thousand glasses and not get drunk.

Lin Zihao's alcohol tolerance was much lower.

Fortunately, everyone did not dare to say much about it. They drank it all themselves, but Lin Zihao only took a small sip.

Everyone had a great time during the meal.

When Lin Fan returned to the Coiling Dragon Villa, the sky had already turned completely dark.

After taking a shower, he lay down on the LV custom-made bed and fell asleep comfortably.

...

The night passed in the blink of an eye.

The two little birds on the branches gently stamped their feet and made a crisp sound. I think you should take a look at

"How many bugs did you catch today?"

"One."

"Hehe, I got two!"

"Hmph, we also got two!"

...

In the past, Lin Fan could hear the conversation of the birds outside the window.

And after taking the Hearing Enhancement Potion, these sounds became even clearer.

Out of habit, he glanced at his phone. As usual, a text message appeared on the screen.

[Notice from Merchant Bank: 36,790,201 yuan was deposited into your account.]

Then, he turned his attention to the sign-in system.

"Sign in!"

[Ding! Congratulations, you've received ten million yuan.]

Lin Fan yawned and lay on the bed for a while before slowly getting up.

After eating M9 beef rolls, king crab bread, and a glass of premium milk, he drove the Cullinan to Jiangbei University as usual.

...

To Lin Fan, today was a very ordinary day.

However, to Lin Zihao, it was exceptionally unusual.

While Lin Zihao was still asleep, a sudden ringtone woke him up.

He looked at the caller ID and realized that it was his girlfriend, Zhong Jieyu.

"Good morning, Jieyu," Lin Zihao said.

Zhong Jieyu said anxiously. "Zihao, my mother is in Jiangbei! I told her that you're a senior executive of the company, a director! However, she insists on going to your company to take a look. What should we do now?"

His eyes, which were initially still a little sleepy, immediately widened as he sat up on the bed.

"You... Your mother is going to my company? Moreover, you even said that I'm the company's director?" Lin Zihao said in surprise.

"Yeah, you know that my mother is a little powerful. If I didn't say that, she wouldn't have agreed to us being in a relationship at all... Quickly think about what to do now!" Zhong Jieyu said, "Why don't you find a few good colleagues to help you put on an act?"

Lin Zihao thought for a moment and said, "That should be the only way for now."

After hanging up the phone, Lin Zihao hurriedly washed up and changed into his best suit.

He hailed a taxi and rushed toward the company.

He finally arrived at the company before Zhong Jieyu and her mother.

The company's executives rarely came to the company in the morning.

Today was the same.

Lin Zihao heaved a sigh of relief. After promising to treat them to a meal, he finally convinced his colleagues to help him act.

Following the sound of the elevator, a young woman with a good figure, a middle-aged woman wearing a pearl necklace, and a man in a checkered shirt slowly walked in.

They... They were Zhong Jieyu, Zheng Jing, and Liu Wei.

When Lin Zihao saw Zhong Jieyu from afar, he strode forward and smiled.

"Jieyu, you're here?"

Zhong Jieyu nodded uneasily. When she noticed Lin Zihao's reassuring gaze, she breathed a sigh of relief.

She pointed at Zheng Jing and said, "This is my mother."

"This is Liu Wei, the son of my mother's friend."

"Hello, Aunt."

Zheng Jing nodded her head lightly without much expression.

Lin Zihao could not help but feel a little embarrassed. He took the initiative to reach out to Liu Wei and said, "Hello, Liu Wei. I'm Jieyu's boyfriend."

Liu Wei and Lin Zihao shook hands lightly and said their greetings.

"I heard from Jieyu that you're the director of Xuanyuan Trading Company," Zheng Jing said. "It shouldn't be a problem for you to bring us in to take a look, right?"

"Of course, there's no problem. Please come in."

As soon as he entered the company, a man wearing black-rimmed glasses walked over quickly with a stack of documents.

"Director Lin, so you're here?" he hurriedly said to Lin Zihao. "Our company has signed a 20 million yuan contract with Xiao Wu Wholesale City. These documents require your approval. Are you free now?"

His attitude was very respectful, and there was a hint of pleading in his tone.

If Lin Zihao did not know that he was just a small-time employee, he was afraid that he would really think that he was the director.

It had to be said that the black-framed glasses man's acting skills were not bad.

He cleared his throat and said, "Okay, put them aside for now. I'll come over to approve them later."

Liu Wei, who was standing at the side, curled his lips slightly and revealed an imperceptible sneer. He said, "A 20 million yuan contract? Can you show us?"
