

THE CEO'S RUN AWAY WIFE

Chapter 8 Please don't kill me!

"You are not able to make me hard," Daniel said and Sara got out of the bed.

"Why? Give me a chance. Let me give you blowjob," she said and sat on her knees. She tried to unzip his pants, but Daniel again pushed her away, and this time she hurt herself.

"Keep your dirty hands away from my body!" Daniel warned her and she was going crazy. She was too wet. She wanted him inside her pussy.

"Why?" she asked, and again tried to touch him but this time Daniel grabbed her hand and bent her over the bed.

"If you wanted to play my Sara then you should have done your research about her first," Daniel whispered

into her ears, and her eyes widened.

"What... What do you mean?" She stammered. Daniel let her hand go.

"Did you really think that you are having the same face as my Sara would make me believe in your fucking slut game?" Daniel said while pulling his gun out from his pocket. She got scared to see the gun and crawled back on the bed.

"What... What are you... Doing? I am Sara," she cried, and Daniel gave her a sadistic smile.

"You should have done your homework well before coming here. Your acting was very good. You showed yourself as timid, but you did not know that Sara is not a timid girl, she is not a prostitute like you," Daniel told her.

"Just because you are saying I am not Sara?" she asked in fear.

"When you hugged me while running here, I realized that you are not my Sara. I recognize the fragrance of her body. I am aware of the warmth of her body. She never turns her eyes while replying, no matter how scared she is. She will never come out of the bathroom with a towel wrapped around her body because she will know that I am present in the room. If I pull the towel from her body, she will immediately try to cover herself. She would never spread her legs for me. And no matter what happens, she will never try to touch me nor demand sex. She would never offer a blowjob. You know why?" Daniel asked and she shook her head. She had come to know that there is no use pretending anymore because he already knew everything.

"Because she is afraid of me. She is so afraid of me

that even if she runs away from here, she will never dare to come back unless I drag her back to me!"

Daniel shouted, keeping the gun on her head. The girl was trembling in fear.

"Please don't kill me!" She was constantly begging for her life, but Daniel kept a finger on the trigger.

"You should have thought of this before playing this game with me," Daniel said and the girl noticed that he was about to press the trigger.

"I know where Sara is. You will never know about her if you kill me," the girl said and Daniel gave her a boring look.

"I don't need people like you to find Sara. Sara will be in front of me within the next 4 hours!" The girl saw confidence in his eyes, and she panicked.

"But if I don't leave here alive, then both of your brothers will be killed!" The girl said, and as soon as Daniel heard the word brother, he stopped. He understood that this girl was talking about Jacob and Jackson. But the strange thing was that the girl was calling these two his brothers. No one knew that both Jackson and Jacob seem to be Daniel's brothers in the relationship, even if they are not all connected by blood. They are all cousins. Daniel got angry and nearly pulled her hair out from her scalp.

"You bitch! How dare you to threaten me by my brothers?! What the fuck do you want to say?" He shouted at her and she laughed at him.

"If you want to know then you have to come with me. They have been kidnapped and now if you do not go there then they all will lose their lives, including Sara. They were able to kidnap them because they were with their girls. I can see that all of you know

something dangerous was around you all, but they were still wondering openly. They both were stupid because they wanted to save those women. But kidnapping you is not child's play. You are surrounded by your bodyguards, and even if you are not with your bodyguard no one will dare to kidnap you. If you come with me quietly then there would not be any blood shed," the girl said and started to put on her clothes. Daniel clutched his palm in anger and threw his gun on the floor. The girl walked out of the room and Daniel came out behind her.

"Because she is afraid of me. She is so afraid of me that even if she runs away from here, she will never dare to come back unless I drag her back to me!"

Daniel shouted, keeping the gun on her head. The girl was trembling in fear.

The girl was walking ahead and Daniel was following her. Daniel took the keys from his bodyguards and as

they were about to follow him he stopped them.

"No need to follow me. You all must be tired, so go and relax." As soon as he said this, Daniel sat in his car and left with the girl.

Daniel was driving his car fast and the girl was leading him.

"I am really surprised that you found out the truth. I cannot believe that you love that woman so much that you recognized me as a fake just because my smell is not similar to her. I think you are insane. I am sure you have fucked her like an animal in your bed. I am jealous of her," she said while touching his arms, and Daniel gave her a deadly stare which was enough to tell her to stay away. She gave him a dirty smile.

"Soon I will make you fuck me," she whispered in his ears and he shoved her away. On the way he did not

open his mouth even once, and only drove as fast as possible. After 2 hours she asked him to stop the car in front of a factory. Daniel came out and saw that it had been locked for years.

"Welcome Daniel," she said, and suddenly he noticed something about her.

The girl was walking ahead and Daniel was following her. Daniel took the keys from his bodyguards and as they were about to follow him he stopped them.
