Chapter 146

Chapter 146: Stop taking Advantage

Penelope POV

I was always brought up with minimum essentials by Willow and I never complained

With Drexel, my life changed

I took a deep breath in, unable to stop feeling excited. "Okay! I want to see them. But I want one with a mansion and also a boat or a yacht!"

He let out a laugh. "Done. I will start looking for

one and get a deed in your name."

Goddess. He was spoiling me. And was I lovin'

it?

We had nonstop sex after that and I couldn't help waking up with a smile on my lips while Drexel had this stupid grin all over his face. We used the condoms that he had brought with him

He would happily wrap them around his raging erection while having sex with me. The thing is that I remembered him asking me about whether I love babies or not. I love babies, but not now

I had heard from Kimberley that werewolves loved to have pups with their mates and that was why Steven was in a hurry to make her pregnant with his pups

We returned to the pack after two weeks of bliss

and those two weeks were the best days of my life

I really wanted to visit Steven and Kimberley, so two days after returning to the pack, I walked in Drexel's office to inform him that I was going to visit my brother. He was in a meeting with senior members of his pack but the moment he saw me, he curled his index finger, indicating me to come to him. The moment I reached him, he grabbed my waist and pulled me in his lap

Every person in the office bowed their heads in submission to me while I blushed heavily

The meeting continued as if this was a normal thing to do for their Alpha. I just relaxed and rested my head against his chest as Drexel talked with his wolves

"We have come across way too many discrepancies in Freya's transactions with your

account," Leo said. "I will have to go to the human world and check out several accounts myself. According to Luna's report, Freya had some shell companies too. I wonder if we will be able to get that money back, but I would like to try legal help."

Luna. The word sounded... heavy. "Please call me Penelope," I said feeling extremely awkward

Leo smiled and said, "No. You are our Luna and that is what everyone is going to call you. Get used to it."

Drexel curled his arm around my waist and kissed my temple affectionately. I snuggled into him. "How much money do you think we can recover?" he asked Leo. "And when do you plan

to leave?"

Leo let out a sigh. "I don't know... It is pretty complicated." Then he looked at me. "Can you help us with tracking down more of her illegal money trails?"

"Of course!" I said excitedly. I was getting bored and there was nothing better than this. I had got way too many invitations about inaugurating establishments or functions or birthdays which was boring, so this was a nice offer. Drexel was happy that half his load was on my shoulders when I accepted those invites

"Great!" Leo breathed. "And I think I will go

next week once Luna Penelope has more information for us."

The meeting was dismissed soon after and Drexel got up, scooping me in his arms. As he carried me upstairs, he asked, "How are you feeling?"

I raised my eyebrow. Why would he ask that when he knew that I was feeling well? In fact, he was asking that question way too many times. "I am feeling perfect!" I replied

He gave a tight lipped smile and said, "That is nice to hear. I think I have to put more effort into making you pr— feel better!"

I frowned and narrowed my eyes. What was wrong with my Alpha? When he lay me on the bed, the first thing he did was to take off my blouse and then pull out my skirt. Next, he

lowered his pants and tossed them away. He spread out my legs and a rumble formed in his chest seeing my pussy. "Do you want me to eat you or do you want me to come inside you?" He started to crawl over me when I lifted my foot and placed it on his chest to stop him

"I want you to hear me first." He nodded but his focus was on my pussy and I got wet under his gaze. He licked his lips. "I want to go to visit my brother and Kimberley."

He nodded again and I knew he didn't hear a word. "Okay," he breathed

Good enough

I removed my foot and the next moment his

mouth was on my pussy, tongue-fucking me. He licked my cum as I came all over his tongue

Soon, he was inside me, pumping like a piston

Within seconds, he released his seeds inside me with a roar

When he was lying beside me, he asked me languidly, "What were you saying earlier?"

For the next two days, Eric was training me hard. Everyone around me had become way too guarded and called me Luna. At the same time, I could feel a strange pull between all the werewolves and me. It was as if they were all ready to protect me. Whenever I was out in the open, a few would even shift into their wolves and guard me

Because of Eric's training, Ria also came out

And whenever she came out, her mate Wolfe would come running from somewhere and be with her. Gods, I was happy for Ria and Wolfe

They loved each other so much. And because of Wolfe, Ria was coming out confidently more and more. However, it was not the same with Drexel. He was getting angry because I wanted to go to meet my brother and stay there for a month

"Stop taking advantage of me while sex. My mind is too addled. Moreover, Wolfe is going to miss Ria," he argued when I was packing. "A month is very long. You can go for two days, but a month?"

"I do feel like spending some time with my brother," I replied as I folded a shawl

"I am worried about Ria, Penelope!" Drexel whines. "She can't stay without Wolfe!"

I rolled my eyes. "She can manage herself pretty well!"

'No, I can't!' Ria blurted. 'I don't want to be away from Wolfe. You are behaving like my enemy,' she cried

I shook my head. Drexel came behind me and curled his arms around my shoulders. He pulled me against his chest. "Lippy, please don't go for a month. I will wither. I will die. I will not be able to focus. I would need you so much that—"

"Ugh!" I felt like I wanted to throw up. I

removed his arms and rushed to the bathroom

And I puked and puked. Everything that I had eaten for lunch came out
