Chapter 601

Chapter 601 She took birth control pills

Seeing Olive pretend to be asleep, Elvis' beautiful eyes quickly darkened. He looked at her with displeasure.

Olive didn't want to talk to him at all. Every time Nathan is near, he will rob her from Nathan. Once she was provoked by such a man, there was no end. She didn't want to serve him.

The last time the two were intimate was in Imperial, and stie was afraid of pain so she took aphrodisiacs before having sex with him.

Hugging the soft little boy was very comfortable. Compared to Elvis's solid chest, it was much better. Olive soon fell asleep.

She fell asleep too quickly under his nose. Elvis suddenly had a sense of crisis. His position was lost!

He took advantage of his tall body, pressed his thin and flexible lips to the woman's forehead, and kissed her.

He remained in this position, not wanting to move at all. The little boy was now sleeping between the two of them. They look like a real family of three.

At this time, the little boy in his arms moved, probably not wanting to let him cling to him, so he moved his small butt, wanting to push his father away.

Elvis: ""

He left Olive's forehead and slept alone beside him.

When he looked sideways, he saw the little boy still holding Olive tightly, mother and son sleeping soundly.

Elvis' handsome eyebrows furrowed. Then he stretched out his large, clearly-b oned hand, took the little boy's small hand, and pushed it away from Olive's waist, then he hugged Olive close. Now Olive is sleeping between father and son.

Elvis reached out again and pushed the little boy further away.

Perfect!

Elvis stretched his strong arm so that the woman could rest her head on it.

She hid her face in his lap. Her slender body slept soundly in his large arms.

Her curled eyelashes quietly lowered, she slept soundly, and on her soft and smooth little face appeared two blushes. Elvis gently kissed her red lips, then closed his eyes.

The next morning.

Olive was the first to wake up. She slowly opened her eyes, and at this moment, a handsome and noble face appeared in her vision.

Elvis.

It wasn't until she was stunned that she realized she was sleeping in his arms.

The man's strong arm was resting under her head, while the other still wrapped around her slim waist. The two hugged each other very tightly. What happened?

How did she fall asleep in the middle?

The fut

Didn't she sleep on one side?

Olive's eyelashes trembled, and she quickly wanted to get up.

With her movement, Elvis quickly woke up.

The man opened his sleepy eyes wide, his voice a little hoarse when he woke up: "Wake up? Get some more sleep."

He naturally tightened his grip on her slender waist and hugged her even tighter.

This was the best sleep he had had in three years.

He didn't want to wake up. He just wanted to hug her and sleep for a while.

His casual and intimate act made Olive blush. She said, "President Augustine, let me go."

President Augustine...

This address made Elvis open his eyes again, looking at the charming little face in his lap.

"President Augustine? Early in the morning, you found yourself sleeping in the boss's arms. Miss Hart, do you have the illusion of being controlled by an unwritten law?" He smirked.

Olive glanced at him, "So this is Boss Augustine's unwritten rule. You only sleep and don't exercise, no wonder the other bosses suspect your body has problems."

As she spoke, she pushed him away, trying to lower her voice: "Let go of me!"

The little boy was still sleeping inside, holding a cotton ball in his hands.

The little boy slept soundly, thinking the blanket was Miss Fairy.

Mocked by Olive, Elvis raised his heroic eyebrows, "Miss Hart, are you using... aggressive methods? Well, congrats. You succeeded. And now I'll prove to you if there is something wrong with my body."

After saying that, he leaned over and kissed Olive's red lips.

He endured all night.

"Hmm."

Being kissed suddenly, Olive's clear black pupils instantly widened. He forcefully kissed her.

His thin, flexible lips pressed hard against her red lips.

Olive didn't want to. She put her slender hands on his broad chest, trying to push him away.

But she couldn't push him away. The man's heavy body was like a wall,

motionless.

Olive angrily opened her mouth and bit the corner of his lips.

Elvis snorted painfully, but he didn't let go, his strong hand gripping the nape of her neck, deepening the kiss.

The sweet sinell of fresh blood quickly spread in their mouths.

Soon, Olive felt that her tongue began to tingle.

"Huh... let go!" Olive used her hands and feet to kick him over and over again.

Elvis didn't dodge, just kept kissing her. She only had a little bit of strength, her two small pink fists that were clenched tightly hit his solid chest and strong shoulders. Even those two small snow-white feet kicked his thighs hard but to no avail, he just kept taking over her.

He hadn't kissed her in a long time, and she was still so sweet and delicious, like a piece of candy. "Hmm... Elvis, my son... My son is here. Don't... It's not good to be seen..." Olive evaded.

Chapter 601 She took birth control pills

At this moment, the little boy next to them moved, and Olive was so scared that she held her breath. and dared not move.

Elvis looked up, only to see that Lil' Nathan sleeping on the bed had woken up, and now he was looking at them with his shining eyes.

Perhaps aware of what shame his parents were doing, the boy hurriedly covered his eyes with his small hands.

"Elvis, ... is my son awake?" Olive asked in a low voice.

Elvis quickly glanced at the little boy, and the little boy immediately closed his eyes.

When Olive turned her head, Lil' Nathan hadn't woken up yet and was fast asleep.

"My son hasn't woken up yet. Please lower your voice. Let's go to the bathroom." Elvis quickly got off the bed, carrying Olive away.

In the bathroom.

Elvis put Olive on the sink. His thin lips fell to her face, and his large hands began to tear her pajamas.

Men have very strong desires in the morning, and he hasn't been intimate with her for a long time, so he can't stand it anymore.

Olive couldn't push him away. Her son was still outside, so she didn't dare to provoke him. Almost feeling like she couldn't escape, she hurriedly said,

"Elvis, wait a minute. Let me get the medicine first."

Elvis let go of her, and he asked, "What medicine?"

"Like last time. Birth control pill."

Birth control pill.

Hearing these words, Elvis's eyes darkened. He glared at her harshly. After a while, he continued to tear her pajamas, saying, "This time you don't need to take medicine. I will use protection, so you won't get pregnant."

Chapter 602 Elvis strangled her

What did he say?

Olive now has to take that medicine. Because if she doesn't take it, she will die in pain.

"Elvis, let go of me. Well... using protection isn't one hundred percent. To be safe, I have to take a birth control pill"

Her attitude was so persistent. Elvis glanced at her. Even when he accepted that, he still kissed her cheek.

But he soon became sensitive to the changes in her body because her body grew colder and colder, as stiff as a rock.

Elvis opened his eyes. There was a flash of light in his deep narrow eyes. Just like after she returned from Visionary, every time he touched her, she would become stiff.

Before, in Imperial, he spoke harshly to her too. He said he didn't want to rape a corpse.

He had noticed this then. But on her last night in Imperial, she was so enthusiastic, so different from her stiff expression, which dispelled his suspicions.

Now, she is as stiff as a rock.

Elvis slowly let go of her.

Olive hastily pushed him away, jumping off the sink. She said, "The pills are in the drawer in the room. I'll go get one."

Elvis' deep narrow eyes darkened. He stared at her but said nothing.

Olive feels that he is dangerous now, and Elvis, a man of few words, seems profound, which is difficult to predict.

He wouldn't suspect the pills, would he?

He wouldn't.

Olive went into the room, opened a drawer, and took out a pill, intending to put it in her mouth and swallow it down.

But at this moment, a large, clearly articulated hand reached out, grasping her slender wrist. Olive turned her head, meeting Elvis's narrow, dangerous eyes. He followed and didn't let her drink the pill.

“Elvis, what are you doing? Let me take the pill first.” Olive said, wanting to pull out her wrist.

Elvis looked at her, then at the pill. He pursed his thin lips and asked coldly, “What is this medicine?”

Olive’s heart missed a beat. The bad bunch just now was almost confirmed. He really doubted this pill

Three years later, Elvis is like a lithe leopard in the jungle. Just smelling a little scent, he will become alert. She tricked him once but couldn’t fool him a second time.

She was about to be exposed.

If he knows that she has to rely on this pill to have sex with him, he will be extremely angry, and the consequences will be terrible.

Olive tried to keep herself calm, saying. “This is the birth control pill. What’s wrong? Let go, you’re hurting me.”

Elvis’s narrow eyes were as sharp as a falcon when he stared at her, like an X-ray about to through her head. He said, “Olive, I give you a chance to say. What is this medicine?”

pierce

“Elvis, even if you give me a hundred chances, I only have one answer, which is birth control pills!” Elvis looked at her deeply, and then a deep, sinister laugh escaped from his throat, “Haha.”

He smiled, revealing perfectly white teeth.

What did he mean?

What was he thinking about?

“Elvis. I...”

Olive couldn’t finish her sentence, because Elvis stretched out his long slender fingers and took the pill from her fingertips.

He said, “If you won’t tell the truth, I’ll have someone test this pill right now. Then, Olive, if I find out that you fooled me, you’re dead!”

Elvis took the pill and strode out.

He even wanted someone to check the ingredients of the medicine. The composition of birth control pills and aphrodisiacs are completely different. If they check it, it will be revealed.

“Elvis, don’t do that!” Olive chased after him and spread her arms wide to block his way.

Elvis paused, his handsome brows covered with a layer of frost, “Olive, it’s about time and you still won’t tell the truth?”

Olive’s slender eyelashes trembled violently. She knew this would definitely not be a secret. It was better for her to confess now than to let him find out.

“Elvis, okay... I’m sorry. I lied to you. It’s not a birth control pill, but it’s... but...” Olive was speechless. “But what?” Elvis’s patience had reached its limit and he growled at her.

Olive’s face was pale in fear, stammering: “This is... an aphrodisiac...”

As soon as he heard these words, Elvis’s eyes shrank slightly, his heart was filled with surprise. He exclaimed, “What did you just say?”

“Elvis, let me explain. After giving birth, my body still hasn’t recovered. Every time you do it to me, it hurts a lot, so... that’s why I took this pill... Ah!”

Elvis strode forward, using his big hands to press on her shiny shoulders, pushing her against the wall. His long narrow eyes were tinted with a scarlet layer and his handsome face was ferocious. He stammered each word: “Olive, you’re counting on this when you’re with me now?... Aphrodisiacs? What do you think of me?”

Olive felt a lot of pain. His big hands were so strong that they almost crushed her shoulder blades. Moreover, he is very scary now. His gloomy and ruthless aura was all released. He was like a beast about to devour her.

Olive can understand him. He has manhood in his bones. She is definitely humiliating him by taking this pill. His self-esteem, and his pride, were all crushed by her.

However, she couldn’t comfort him.

There is no result between them. If he keeps pestering her like this, it will be awkward for both of them.

Long-term pain is worse than short-term pain. She could take this opportunity to quickly cut through the mess.

Olive took a deep breath, then raised her clear eyes to look at him, not letting herself back down, “That’s right, Elvis. Now I just rely on this pill to be with you. Every time I sleep with you, I feel pain. Last time you hurt me, I went to the hospital for stitches and it took a long time to recover, do you know? No, you don’t. You only care about your own satisfaction!”

“Elvis, three years no see, your bed skills are terrible. I’ve wanted to tell you for a long time. Haven’t you met countless women in the past three years? Why haven’t your skills improved?”

“Also, Elvis, you have so many women. Your body is dirty. Your heart is dirty, too. I don’t like you. I don’t want to be with you at all. Just think that you’ve slept with so many women, I feel sick!”

Olive had just finished speaking when Elvis suddenly grabbed her by the neck.

Chapter 603 Nathan, do you choose mom or dad?

Olive, who was suddenly strangled, immediately felt short of breath, and her pretty little face began to turn red.

Elvis' long, narrow eye sockets were covered with a layer of bloody hostility, and a fierce storm swept under his eyes, and this storm wanted to swallow Olive.

This woman!

She really needs to take aphrodisiacs when she's with him.

She said he was so terrible in bed. She said she hated his filth. She said every moment with him made her sick.

These words pierced his heart like a knife. The scar in his heart that never healed, now she stabs it again, making it bloody.

Elvis glared at her with his bright red eyes. Now her neck was in the palm of his hand, he just needed a little force to break her delicate neck.

At this point, he really wanted to kill her.

He wishes he could strangle this woman to death!

"Olive, do you want to die?" From the inside of his throat, every rough syllable came out, making the hairs on the back of people's neck stand up.

Olive's slender back pressed against the cold wall. She clearly felt his five slender fingers tighten little by little, the air she could breathe was also getting less and less.

Is she going to die?

Is this the feeling of death?

No.

She doesn't want to die.

She still has a lot of work to do.

Olive reached out her small hand and began to push him, "Elvis... Elvis, let go... Let go!"

Elvis' current form was hideous and terrifying, like a harbinger of an out-of-control attack. At this moment, a demonic voice suddenly sounded in his ear,

"Elvis, squeeze harder. Harder. As long as the woman in front of you disappears, you will no longer suffer. And you can be free!"

Elvis narrowed his handsome eyes. He felt his head hurt like being hit by a hammer, and his body seemed to split in two.

"Olive, I shouldn't spoil you. You've used my love for you to torture me many times. I'll make you disappear now!" Elvis suddenly clenched his palm.

Olive's clear pupils slowly contracted and then widened. She grabbed his strong arm with all her strength, and soon her fingernails scratched his arm with blood stains.

She could barely breathe.

She is literally dying.

At this moment, a cold childish voice suddenly sounded in their ears: “Dad, let go of Mom!”

Lil’ Nathan has arrived!

regained consciousness and reason.

“Dad, Mom can’t breathe. Let go of her!” Lil’ Nathan said, looking up at Elvis with bright eyes. handsome and cold face seemed to say, “Stop! Now!”

Elvis looked at Olive. Her face was so red it was about to bleed, and her pupils were about to lose focus.

What was he doing?

Elvis hastily let go of his large hand.

Olive’s slender body was like a kite falling onto the carpet. Exposure to the fresh air, she began to greedily breathe.

Perhaps breathing too fast, a tear fell from her eyes chokingly.

“Mom! Mom, are you okay?” Lil’ Nathan hastily reached out his small hand and patted Olive’s back.

Olive felt like she had narrowly escaped death. Just now she actually stepped one foot into the gates of hell, almost dying because of Elvis.

Now she is alive.

At this moment, Lil’ Nathan’s voice reached her ears, “Mom Mom-

The little boy was calling his mother!

Olive’s slender eyelashes trembled, and she looked at the little boy in amazement, “Nathan, you... What did you just call me?”

At this point. Lil’ Nathan realized that he had made a mistake. He was too stressed and worried about his mother. Now that she knows about it, he doesn’t need to act anymore.

“Mom, I already know you’re not Miss Fairy at all, but you’re my mom!” Lil’ Nathan said.

Olive gasped. She didn’t expect... She really didn’t expect the little boy to know that she was his mother!

Now that Lil’ Nathan called her mother loudly, Olive felt her whole heart soften.

“Yes, Nathan. I’m your mom!” Olive quickly reached out and pulled Lil’ Nathan into her lap.

Mother and son hug each other. Elvis’ handsome face grew even darker.

Olive was a little embarrassed now, her small face pale and red, and her delicate neck was imprinted with marks by him. Her appearance was horribly devastated.

Elvis's large hands that hung at his side trembled slightly. This is the woman he loves most in his life, the only woman, but he hurts her.

But thinking about what she had done, his heart quickly hardened. She asked for it!

Elvis pursed his thin lips and said in a deep voice, "Nathan, come here. She's not your mom. She doesn't love you!"

Olive quickly hugged the little boy tightly in her arms, afraid that Elvis would forcefully pull him away like last time. She asked, "Elvis, can we not talk about the things between us in front of Nathan...?"

"What, are you afraid? Olive, what are you afraid of? Are you afraid I'll tell Nathan all the heartless things you did three years ago?" Elvis cut her off cruelly.

Olive shook her head. Thinking of the torment she had endured for the past three years, and the difficulties of giving birth to triplets after narrowly escaping death, her red eyes were quickly covered with a layer of crystal mist. She said, "No, that's not it. Elvis, what do you know about it? You

don't know anything!"

Elvis coldly looked at her: "I know enough. Stop pretending to be pitiful to deceive Nathan!"

"I don't, Elvis. Did you know that for the past three years, L..." Olive now wanted to tell him everything, and she was ready.

But Elvis didn't give her this chance at all because he didn't want to hear it.

Elvis looked at the little boy and said, "Nathan, now I give you a chance. Do you choose to be with Dad or Mom?"

Hearing that, Olive's pupils constricted. She looked at Elvis in surprise. She didn't expect him to give. Lil' Nathan a choice.

Seeing Olive's expression, Elvis slowly curled his thin lips into a cold, sarcastic curve, "Olive, did you want to have a son with me for a long time?

Am I making your dream come true now?"

He saw through her thoughts.

Olive took a deep breath. She didn't want to hide anything. She needed to talk to him about Lil' Nathan, "Elvis, you're still young now, and you're going to have a wife in the future. I don't want Nathan to live with his stepmother."

Chapter 604 He only has her

Before Olive could finish speaking. Elvis reached out and knocked the vase on the table to the ground.

With a crashing sound, the vase fell to the ground and shattered in an instant.

Olive was startled, and she immediately fell silent.

She didn't even know what she said just now. Why won't he get another wife in the future?

Elvis' large chest rose and fell. If it weren't for Lil' Nathan, he would have strangled her again. She can't wait to push him to another woman. She can't wait to see him marry another woman. Does she really have a heart?

Besides, for the past three years, he hasn't had any other women!

He only has her!

But right now, he doesn't want to tell her about it. Anyway, his love for so many years was ultimately a mistake!

"Nathan, hurry up and make a choice. My time is limited!" After saying that.

Elvis turned to leave his long legs. The place made him suffocated and depressed, and he felt like he was going to lose control if he stayed any longer.

He stepped outside.

Elvis' tall and handsome body quickly disappeared from view, making Olive's many words that she wanted to say stuck in her throat. She could only look at the little boy and said softly. "Nathan, Mom and Dad's story is a bit complicated. I'll explain it to you when I have time. Just remember that both mom and dad love you. No matter what happens, mom and dad will always be with YOLL

"Yes, I understand." Lil' Nathan nodded obediently.

Olive loves this son the most. Nathan is the eldest son, but he left her at birth.

Olive reached out and cupped the little boy's small face, kissing his forehead.

She said, "Nathan, now you can choose. Do you want to follow mom or dad?

You don't have to bear any psychological burden, just listen to your inner voice."

Lil' Nathan thought for a moment and replied, "Mom, I still want to be with Dad."

He chose Elvis.

In fact, Olive was already mentally prepared. Elvis has been raising the kid for the past three years, and the father and son have been through the hardest time.

So Lil' Nathan still chose his father.

"Mom, I love you so much. Even though Dad is old and has a volatile temper and sometimes hits my ass, I still can't bear to leave him. Because if I go, no

one will be with Dad and take care of him.”

Olive’s clear eyes filled with tears. She nodded vigorously: “Okay, Nathan, you can choose your dad. It also proves that he takes good care of you. Mom is very reassured.”

Elvis has left the sea of clouds. Currently, he is sitting in the Rolls-Royce business class luxury car. The car didn’t leave because he was waiting for Nathan.

Very quickly, two figures, one big and one small came forward. It was Olive taking the little boy’s small hand out.

Chapter 40 He only has her

Elvis didn’t know what they were talking about. A smile appeared on Olive’s face, and the little boy was a little happy.

He watched the scene through the polished glass window, arching his heroic brows tightly. He snorted coldly, turning his face away without looking at them. Soon, the back door opened. The little boy climbed into the car and said, “Mom, goodbye.”

Olive stood outside the car and waved, “Goodbye, Nathan.”

Elvis hastily ordered: “Go.”

“Yes, sir.” The driver immediately started the car, and the luxury business car sped away.

Olive didn’t leave. She stood there watching the luxurious business car go a little further and then disappear from sight, her heart was a little lost.

In the luxury business car.

Elvis and Lil’ Nathan were looking at Olive behind in the rearview mirror, too. Lil’ Nathan said hastily. “Dad, this is the last time.”

What?

Elvis withdrew his gaze and looked at the small boy beside him.

Lil Nathan is now sitting opposite Elvis in the back seats, their aura solemn and dignified, as if two CEOs having a meeting. Lil Nathan crossed his arms over his chest, coldly looking at his father, “Next time I don’t want to see you strangling mom. Let’s not make an exception.”

H

Elvis, “Da mn boy, you really are a stubborn white-eyed wolf.”

He has worked hard, being both the father and the mother to raise the boy to grow up, but now his heart only goes to his mother!

Elvis didn’t like Olive’s hypocritical appearance. She has shown that she loves Nathan, but what has she been doing all this time?

Elvis will never forget the fact that she personally aborted their first child and that Nathan was born by a surrogate from her eggs!

Why did she have to jump out and take Nathan away from him?

Elvis is in a bad mood right now. He and Lil' Nathan ignored each other, entering a state of cold war.

Olive returned home, and a sweet voice quickly said, "Mom-Levi ran over.

Olive knelt down and hugged him, saying, "Levi, where have you been playing lately? Now your whereabouts are unknown and I can't find you."

Levi stuck out his tongue: "Mom, I didn't do anything bad."

"Where's Ivy?"

"Ivy was taken out by Grandma."

"Then Levi, you can play by yourself for a while. I'm a bit tired, so I'll go to bed."

"Okay."

Olive entered the room.

Levi watched her disappear into the room, turned around, sat on the sofa in the living room. crossed

his legs, grabbed a bag of chips, and started eating.

Levi ate his fries while sighing.

Aunty Cora in the kitchen just brought out a plate of fruit, and curiously asked: "Young master, what are you sighing for?"

Levi pouted his small pink mouth, feeling extremely helpless, "Looks like this trip to the sea of clouds is messed up. Mom and Dad are really stupid. I'm so worried about them."

Aunty Cora. "..."

After a while, Aunty Cora pursed her lips. Forget it. She was used to her little master saying these strange things,

"Young master, what do you want to do next?"

Levi put a piece of potato chips into his small mouth, loudly biting: "What can I do? They are both my parents, can I not care about them? I can only help until the end. Looks like I have to take action." Aunty Cora said:""

Olive was a little depressed. Her engagement party with Liam was approaching, so for the past two days, she'd been at home resting, quickly adjusting her mood to prepare for it.

She carefully studied the topographic map of the royal ancestral line and deduced the approximate location of The Ambassadors's sword. When The Ambassadors's sword was drawn, that was the day when the ancient Visionary kingdom reappeared.

Chapter 605 Pregnant with twins

Two days later, at the engagement party.

This time, the engagement party between Liam, king of Gold City, and Princess of Visionary, Olive, was grand, and it was held in the royal family. Even though Logan didn't like this marriage, always prevented it, but after he was frustrated again and again, this marriage still came and he couldn't stop it.

Also, he really wants to meet Joyce, who he's been thinking about all these years. So this engagement party is very well organized, and all the nobles in Greenland are gathered tonight.

At the wedding party, Molly and Luana both appeared, the two most beloved concubines by Logan. Lots of people around them, flattered them.

"Concubine Molly, I never thought after so many years, you still have the same beauty. We really want to learn your art of preserving beauty."

"Molly was born so beautiful, no wonder so many years of being loved by the king."

"Concubine Luana, you are currently six months pregnant. The king takes this baby very seriously. In the future, you will be more expensive than his son, so don't forget us."

Luana smiled gracefully and nodded in response to these compliments. After all, she was someone who had seen big scenes, and Luana was a little proud. Originally, in front of Molly, everyone had to avoid praising Luana, but Molly and Luana were on the same side, so they didn't need to worry.

At this time, suddenly someone said: "Oh, Luana is six months pregnant, why is her belly so big? It looks like eight or nine months old. Could it be twins?"

Actually, Luana's belly has grown since she was pregnant, but the doctor never said it was twins, so people didn't think of twins.

Now suddenly someone said it, even Luana was skeptical. Was she... really pregnant with twins? In Greenland, twins are a good omen.

Luana immediately got excited, a smile appeared on her face, and she looked at Molly beside her, saying. "Molly, you should go find a doctor to check for me. Maybe I really am pregnant with twins." Molly's heart is like a mirror, she knows everything. Luana is pregnant with twins!

The doctor in the palace told her about the twins early, but she kept it a secret until today.

Later, she will use Olive's hand to remove the twins in Luana's belly. When Logan loses his beloved sons, he will be extremely angry.

Olive, the main culprit, who actually attacks two innocent little lives, will be hated by Greenland. When that happens, the princess of Visionary will be a

rat that is chased and beaten by everyone, and she can defeat Olive with no effort at all.

“Luana, you can rest assured. The pregnancy is a big thing, we must report it to the king. The king must be here.” Molly temporarily stabilized the agitated Luana and prepared to go.

At this moment, someone shouted: “Look, the king, the king of Gold City and the Princess of Visionary are all here.”

Logan is here. As the king of Greenland, today he wears a black suit inlaid with a real goldon silk

dragon, with a fresh look.

The King of Gold City, Liam, as the future groom of today, wears a white shirt and black trousers. He is tall, handsome, and elegant.

The last to appear was Olive. She wore a white tulle mermaid dress. The mermaid dress perfectly accentuated her delicate and beautiful figure. She looked like a fairy descending from the sky.

“Wow.”

There was a burst of praise in the hall. “The Princess of Visionary is beautiful. As soon as she appears, the audience will immediately be overwhelmed.”

“I can see that the Princess of Visionary has a heroine’s aura.”

Clara was in the lobby, too, but with Logan and Concubine Molly’s warnings, she was modest today. Anyway, the royal gold medal public relations team cracked down on her sex video. As soon as she appeared, she felt the unfriendly and sarcastic looks from everyone.

She was sure that the story about this video must have something to do with Olive. Even though she had no proof, seeing Olive’s grandeur now and her receiving so many compliments, Clara was so angry that she gritted her teeth and bled.

“Mom, look at Olive!” Clara lamented Concubine Molly in a low voice.

Molly glanced at Olive nonchalantly, saying, “Clara, let Olive have a moment, and then the fun will begin.”

Clara’s eyes lit up and she couldn’t help but urge: “Mom, hurry up. Right now I don’t want to see Olive bragging!”

Molly patted Clara’s hand, then stepped forward, smiled and said to Logan: “My lord, I want to tell you some great news. Today, I’m afraid there will be even more happiness at the engagement party of the King of Gold City and the Princess of Visionary.”

Logan was still waiting for Joyce to appear but she hadn’t arrived yet. He looked over at Molly and asked, “Molly, where does the good news come from?”

Molly pulled Luana forward, pushing her to Logan's side, "My lord, can you feel how big Luana's belly is? She's probably... pregnant with twins!"

"What?" Logan hurriedly looked at Luana's big belly, surprised: "Luana, are you really pregnant with twins?"

In this engagement party, Luana immediately became the focus of attention with her bulging belly. She felt even more proud, smiled shyly and said: "My lord, I don't know either. Why don't you call the doctor here to diagnose me?"

"Call the doctor! Quickly call the doctor!" Logan gave the order and immediately grabbed Luana's hand, "Luana, you should sit down first. Now you can't stand. You are my treasure. If you really are pregnant with twins, you will be my heroine, and the great heroine of Greenland!"

The corner of Luana's lips almost lifted to the sky. She sneaked a glance at Olive beside her. Olive said nothing. She was just a quiet and cooperative bystander. When Luana looked at her provocatively and smugly, she just lightly licked her red lips. Tonight is really exciting.

At this moment, Olive felt two people staring at her. She raised her clear eyes, seeing Molly and Clara looking at her. They were laughing. It was so weird.

Olive's gaze left the two of them and fell again on tonight's guest, Aaron.

Compared to his mother, the concubines and sisters, Aaron seemed more worried.

Hearing that Luana was pregnant with twins, Aaron instinctively backed away, as if wanting to stay

away.

Chapter 606 Drink this medicine

Olive smiled but didn't say anything

At this point, Liam said in a deep voice: "Trincess of Visionary, I feel Luana is aiming at you. Molly is keeping an eye on you, too. You have to be careful."

Olive raised her eyebrow, which was like the delicate willow leaf, and replied, "What to fear? If one comes, I will deal with one. If two come, I'll deal with two!"

Seeing the calm in Olive's eyes, Liam nodded. It seems that the princess of Visionary beside him has already prepared, and tonight must be very exciting.

At this time, the doctor of the royal family rushed over. "Concubine Luana, please follow me to the B ultrasound room in the side hall At a glance, I can

tell it's twins."

Luana very cooperatively replied, "Okay, doctor. I'll go with you, but you'll have to check it out carefully."

"Okay."

Luana followed the doctor into the side hall Logan anxiously waited outside. He had many children, but Luana was about to give birth to him when he was old, which was a good omen for twins, so this was extremely important to him. Seeing that Logan valued Luana's belly so much, everyone became nervous. Looks like in the future, Luana will be very successful.

Soon, the doctor rushed out again, saying. "My lord, this is good news. Good news. Luana is really pregnant with twins. They are... two boys!"

What?

Logan was overjoyed and said: "Doctor, are you sure that Luana is pregnant with two boys?"

"Yes, I'm." The doctor confirmed.

At this moment, Luana's soft voice resounded, "My lord-"

Logan rushed over, hugged Luana to his chest, and said: "Luana, you are not only pregnant with twins, but also have two boys. It's really amazing. To me, this is like a dream."

Everyone shouted in unison,

"G od, congratulations. Today is a good day, and the joy is doubled."

"Our Greenland royal family hasn't had twins for a hundred years. This is a good omen"

"I didn't expect my lord at this age to be able to make Luana conceive twins. My lord is a true dragon incarnation Let me pay homage to you."

"It looks like our Greenland will continue to prosper under the king's leadership."

In the past few hundred years, the Greenland royal family hasn't had twins, and now Luana is pregnant with twins. In a place that values heirs like royalty, she was pregnant with only two sons, and everyone was amazed, praising Logan.

Logan is a person who values his image, so being praised and flattered like that by everyone, he laughed hard and hugged Luana. His life is really interesting

"Luana, you are the jewel now, there must be no mistake. Your se rvants must serve you well. If something happens to Luana, I won't let you go, understand?" Logan immediately reprimanded her

serv ants.

The serv ants trembled and nodded: "Yes, my lord."

At that time, Molly took a step forward, saying, "My lord, don't worry. Currently

in Luana's belly is our treasure, we will all be careful. My lord, don't forget today is the engagement party of the king of Gold City with the Princess of Visionary. For now, let's all pay attention and bless this couple. Don't overwhelm the host."

Logan was in a very good mood, forgot all the unpleasant things of the past few days, nodded and said: "Okay."

At this moment, Luana said softly: 'My lord, I feel a bit tired. I want to rest before.'

"Go ahead."

In the study upstairs, Luana left her delicate appearance, proudly entered with her big belly held high, and on her face were clearly written the words "I am pregnant with twins, who am I afraid of?" Luana put her hand on her big belly, extremely pleased with the pregnancy of twins. Now that Logan and the whole country are taking her pregnant belly very seriously, her good days have just begun.

Luana currently remembers one person, that is... Aaron!

She can't wait to share this good news with Aaron. After all, the biological father of the twins is Aaron!

Luana turned around to go out.

But then the door of the room suddenly opened and a person entered.

Luana was shocked and rebuked: "Which slave has no eyes? You burst in without knocking, trying to scare me to death? If something happens to the two sons in my womb, your life will be lost too!"

The one who came wasn't a servant, but... Molly..

Molly came in, looked at Luana, saying, "Luana, you're pregnant with twins so you're so arrogant."

"Sis Molly," Luana's face changed. The arrogance quickly disappeared. She said, "I, I didn't know you were coming. I thought it was a blind servant. I dare not blame you, Sis Molly. Without you, I wouldn't be where I am now...."

Luana wanted to flatter her but Molly didn't have the patience to listen, interrupting her, "Luana, let's get to the point. Drink this medicine."

Molly waved her hand, and the trusted maid immediately brought a bowl of black medicine.

As soon as Lana saw the medicine bowl, she froze, her face pale, "Sis Molly, I...

"What's wrong, Luana? Have you forgotten our plan? You can only keep the babies in your belly until now because its greatest value is to take down Olive at this engagement party!"

"But, but I'm pregnant with twins..."

"Because you are pregnant with twins, the effect will be great. At that time, Olive and Visionary will become Greenland's greatest enemies. The hatred

and war between the two countries will be planted because of this!”

Luana looked at Molly now. Molly’s eyes were filled with hatred, and this kind of hatred made her face contort, looking very scary.

Luana had known of this plan from the very beginning and approved of it. Now she regrets it. She is pregnant with twins, how can she be willing?

This is her glory and her wealth.

Feeling Luana’s hesitation, Molly quickly glanced, saying: “Luana, don’t say you don’t want to drink this medicine anymore!”

Luana’s scalp went numb. She said, “No, no. I’ll drink. I’ll drink.”

Molly snorted coldly, “That’s for the best. I won’t have to take action.”

After saying that, Molly and her confidant went out.

The black medicine bowl was placed on the table. Luana mechanically stepped forward, reaching out a trembling hand to take it.

She closed her eyes, wanting to drink the medicine.

At this moment, a hand suddenly reached out, knocking over the medicine bowl

Who?

Luana hastily turned her head, only to see Willow, her confidant, come over, conveniently flipping her medicine bowl upside down.

“Willow, what’s wrong?” Luana asked.

Willow took Luana’s hand and said, “Concubine Luana, you can’t drink this bowl of medicine. You have twins in your belly, that’s very precious. As long as you give birth to twins safely, your status will definitely surpass Molly!”

Luana was shocked and looked at Willow suspiciously, “Willow, how did you know this? I haven’t told you yet.”

“Concubine Luana, just now I heard Molly and the maid outside talking. Molly said you are a pawn in her hands, and the reason she spoiled you until now is all because of your pregnancy. Once your fetus is gone, even the last value is gone, so Molly will order someone to kill you because the mouth of the dead is

the most secret!”

What?

Luana was shocked, terrified and said: “Willow, didn’t you hear wrong? Did Molly really say that?” Willow nodded vigorously, “Concubine Luana, that’s absolutely true. Just now I heard it myself. Don’t you see that the king values the twins in your belly so much? If the twins are born safely, you will definitely threaten the status of Molly, His Highness Aaron, and Princess Clara. How can Concubine Molly accept that?”

Luana wobbled her legs and fell onto the chair. Molly is truly evil.

But what can she do?

Now the har em is held by Molly. She is a weak woman with no background. Without Molly’s support, she wouldn’t be favored by Logan.

Now that Molly wanted to kill her, she was momentarily frightened.

“Willow, what to do now?”

“Concubine Luana, don’t panic. Think about it. You are pregnant with twins, and this is your biggest support!”

Luana looked down at her big belly, slowly calming down. Right. How could she panic? What is she afraid of? Now she is very precious. As long as she had this big belly, Molly wouldn’t be able to touch a strand of her hair.

“Willow, you’re right. I couldn’t kill the twin in my stomach, but what about Molly now? I don’t want to confront her unless it’s really necessary.”

Willow hastily said, “Concubine Luana, don’t drink this medicine. Let’s pretend to cooperate with Concubine Molly first and pretend to have a miscarriage.”

Luana feels this idea is very good. First, she will team up with Molly to get rid of Olive. At that time, Molly’s purpose is achieved, the twin in her womb will also be protected by the king. It’s really the best solution.

At this point, Willow pulled out a red potion, saying, “Concubine Lanna, you can use this later to fake a miscarriage and bleeding.”

Luana quickly took the red potion. She discovered that ser vant Willow was quite intelligent Going into the palace alone, she really wanted to draw the ser vants to her side.

“Willow, you did a great job this time. As long as you’re loyal to me, waiting for me and my sons to be more expensive, you will be promoted to the head of the maids!”

Willow was overjoyed: “Then thank you first, my madam!”

Luana went downstairs and showed up at the engagement party again. Molly walked over to her side and asked in a low voice, “Have you taken that bowl of medicine?”

Luana nodded, “Yes, I have, Sis Molly.”

Molly just nodded with satisfaction. Based on medicinal properties, this bowl of medicine will soon take effect.

Molly glanced at Luana. Luana understood, walked up to Olive's side and said, "Princess of Visionary, you and the king of Gold City are engaged today. Let's toast."

Olive raised her clear eyes to Luana, then picked up a glass of red wine, pursed her red lips, "Thank you first, Concubine Luana."

Luana also had a glass of red wine in her hand. She clinked the glass with the wine glass in Olive's hand. Seeing Olive gracefully sipping red wine without noticing, Luana lifted the corner of her lips triumphantly, thinking. "Olive, you're so stupid!"

Luana glanced at Molly in front of her, meaning "Molly, it's all right. I will take care of it. Rest assured."

Molly smiled seeing that everything was going according to her plan.

At this moment, "bang", the red wine glass in Luana's hand fell to the ground. She held her protruding belly with her hand, exclaiming: "Oh! My stomach hurts. My stomach hurts!"

What was going on?

This sudden change immediately attracted the attention of everyone in the hall. Logan rushed over, "Luana! Luana, what's wrong with you?"

Luana weakly fell into Logan's chest, "My lord, save me. Save my babies... My stomach hurts..."

At this moment, Molly appeared, pointing while saying: "My lord, look. There is blood, a lot of blood. Luana is bleeding!"

"Whoosh," Everyone's eyes fell on Luana's skirt. Right now, the bright red blood that had dyed Luana's skirt red was still flowing.

Luana was really bleeding!

Luana was recently diagnosed with twins, which was a good omen in Greenland, now this auspicious omen has gone up in smoke, everyone is surprised.

Logan saw the blood, his face changed greatly, and quickly shouted: "Come on, hurry up and call the doctor here! I want to see the doctor now. Hurry up!"

The royal doctor quickly appeared, examined Luana's body and said: "My lord, it's not okay. Concubine Luana... Laiana had a miscarriage!"

This doctor had always been Molly's, that's why he said so.

"What, miscarriage?" Logan didn't know anything, so at this moment he was surprised, "How can she miscarry? Let's check and find the cause!"

“Master, I found the abortion medicine in Luana’s pulse just now. Luana accidentally took the abortion medicine and miscarried.”

“Abortion medicine? Where’s the abortion medicine?” Logan asked.

At this moment, Luana clutched Logan’s sleeve, tearfully saying, “My lord, you must help me. Who gave me the abortion medicine? This person is evil. They killed the twins in my stomach!”

Molly also said: “My lord, this is very strange. Luana was healthy just now, why suddenly took the wrong abortion medicine?”

Everyone in the hall was extremely angry.

“My lord, this matter must be thoroughly investigated to the end. Killing the heir of the royal family is a felony!” One person said.

“These twins bode well for our Greenland, but now the twins are miscarried for very unknown reasons. I always felt there was a big conspiracy in this.”

Chapter 608 Joyce is back with a gorgeous look

The twins in Luana’s stomach miscarried, sparking the outrage of everyone.

Everyone wanted to thoroughly investigate the killer.

At this time, the guards in the royal family ran over and surrounded this place. Logan angrily said, “I want to investigate this murderer thoroughly now. Before the killer appears, you mustn’t leave this place.”

“Luana.” Molly took Luana’s hand with great concern. Think about it. Before your stomach aches, what did you eat?”

Luana thought for a moment, then replied, “I haven’t eaten anything. Ah, I remember. I took a sip of red wine just now when I went to bless the Princess of Visionary. I toasted with her.”

What?

The Princess of Visionary?

Luana successfully changed the topic to Olive. Everyone who heard the mention of Olive was surprised.

Logan’s face darkened. He quickly ordered: “Where is the doctor? Hurry up to check if the red wine glass Luana and the Princess of Visionary have collided with is okay?”

“Yes, my lord.”

The doctor took a step forward, took the piece of red wine glass that Luana

had just broken, brought it to his nose and smelled it. Very quickly, his face changed greatly: "My lord, the wine on the rim of this red wine glass contains an abortifacient ingredient. It's exactly the same as the abortion medicine that caused Concubine Luana to miscarry."

"Oh my G od."

The audience yelled, and the doctor's hammer must have landed on Olive. It was Olive who killed the twins in Luana's stomach.

*Princess of Visionary, it's you!" Molly now said, heartbroken, "Luana came over to bless and toast with you, but you already put the abortion medicine on the rim of the glass, then transferred the abortion medicine to Luana's glass while she toasts with you. Princess of Visionary, what were your intentions when you killed the twins in Luana's belly?"

Now Olive is surrounded. Everyone was staring at her, and Molly was still aggressively questioning her. Olive's beautiful little face was devoid of any emotion. She looked at Molly with shining eyes, pursing her red lips as if it were funny, "Molly, what do you think my intention is?"

Olive didn't answer the question, instead she didn't panic at all when faced with the unexpected situation. Her calm aura exuded a hint of elegance. She was still as strong as ever, needless to say a word, surprising even Molly. Concubine Molly quickly returned to her senses. The situation is now clear, how can Olive escape?

"Princess of Visionary, I know what your intentions are. The twins in Luana's womb are the heirs of Greenland, which is a good omen. Now you bring us a bad omen. Do you want to spark the conflict between the two countries?"

As soon as Molly finished speaking, everyone immediately understood. They whispered,

"Oh my g od, is there any plot when the Princess of Visionary comes to our Greenland this time?"

"You have all forgotten the enmity between Greenland and Visionary.

Visionary has always hated Greenland to the core."

"My G od, now that there's convincing evidence, let's quickly capture the Princess of Visionary and don't let her return to Visionary again."

"Yes, if you dare harm the king's heir, we will let you die. This can be taken as a warning to Visionary!TM

Everyone wanted to catch Olive.

Logan looked at Olive, asking. "Princess of Visionary, you're so insolent! What do you think Greenland and I are? You dare to harm Luana on my territory?"

Olive pursed her red lips and looked at Logan, her tone neither modest nor overbearing, her voice clear and powerful. "Mr. Theodore, if I'd say what

happened to Luana has nothing to do with me, would you believe it?"

At this point, Liam stepped forward, stood beside Olive, and said, "Dad, I trust the Princess of Visionary. She definitely wouldn't do that."

Logan immediately waved his sleeve, "Liam, now that the evidence is clear and you still want to protect this evil minded Princess of Visionary? Although today is your engagement party, you want to kill your family?"

Aaron was just waiting for Liam to jump out. If Olive can't escape tonight, he will definitely tie Liam and Olive into the same boat and drown them together!

Aaron immediately said: "King of Gold City, you were mesmerized by the beauty of the Princess of Visionary. Or are you on her side?"

Hearing his words, everyone looked at Liam with sharp eyes.

Liam whispered in Olive's ear, "Princess of Visionary, I've laid all my treasures on you, and it's up you."

Olive raised an eyebrow but didn't rush to say anything.

At this time, a soft voice like a silver bell rang, "Logan, I am willing to give my daughter to your son but you treat my daughter like this, it seems you don't want this daughter in law anymore, right?"

Who was that?

Logan was shocked, immediately turned his head and saw. Joyce!

Joyce is finally here!

Today, Joyce wore a bright red tulle dress that accentuated her snow white skin, her long, wavy chestnut hair hanging loosely over her shoulders, revealing her seductive face.

Logan's eyes twitched violently. After all these years, the woman he had thought and expected for so many years was almost identical to the one in his memory.

The years had been very fond of Joyce, leaving no trace on her.

Logan always refuses to admit he's old, but when he sees Joyce, he realizes he's old, but Joyce hasn't changed.

In fact, Molly is also well maintained, there are no wrinkles on her face, but she and Joyce are completely different. Molly's face isn't old, but she has lost her femininity, and Joyce is different from her like heaven and earth. Joyce's body is still young and pure. She doesn't look much older than Olive.

"Thump! Thump!"

Logan Immediately felt his heart beat faster. His heart hadn't beat this fast in years.

"Whoosh." all eyes in the hall turned to Joyce, all amazed by her defiant face. Is this Joyce, the current queen of the Ancient Visionary Kingdom?

Molly, Clara and Aaron saw Joyce, too. Despite their hostility, the three of

them were shocked. After more than 20 years, Joyce is back with such a glamorous look.

"Mom, you're her

Olive went to Joyce's side.

Logan also stepped forward quickly. He had forgotten about Luana and the twins, just staring at Joyce with fascination and admiration.

Chapter 609 Pretending to have a miscarriage

"Joyce... Joyce, listen to me. This isn't what you think..." Logan flattered Joyce.

Joyce glanced at Logan with her beautiful eyes, "Logan, we're not close, who do you call Joyce?" "I..." Logan was a little embarrassed.

More than 20 years ago, Joyce, the princess of Visionary, broke into Greenland and Imperial, and had a large group of fanatics and rabid fans of hers. Logan was one of them, and he always swore that Joyce was his own Goddess. But she never asked for it.

Seeing Logan infatuated with Joyce like a treasure, Molly's face turned ugly. After all these years, she used a demon necklace and fragrance to seduce Logan's heart, but he was about to leave her behind. Molly looked at Joyce's charming face, a glint of deep jealousy in her eyes. There is an incomprehensible hatred between Visionary and the mermaids. That year, the ancestors of Visionary stepped on the mermaids, causing them all to live in darkness and dampness, seeing no light, and Visionary mysteriously disappeared. Joyce and Olive, mother and daughter, look gorgeous, and they're so different from mermaids. How can one not be jealous?

Molly immediately stepped forward, "Queen of Visionary, is this the good daughter you raised? Your daughter used the abortion medicine to kill the twins in Luana's belly. She has a cruel heart. What do you think about this?" Everyone agreed,

"Queen of Visionary, your princess poisoned Luana's twin, we all witnessed. You must give us an explanation for this."

Joyce's beautiful eyes fell on Luana. She glanced briefly, then raised an eyebrow at Logan beside her, "Logan, are you sure that the twin in Luana's belly is yours?"

Logan was shocked, "Joyce, what do you mean?"

"Oh, it's not very interesting. I just looked at your face. You've been infatuated

with women these past few years, your body has been hollowed out by beauty, every time you sleep with them, you still need medicine, don't you? Tsk tsk, based on your physical strength, I'm afraid you can't make a woman give birth to twins."

Joyce shook her head and said it was a pity.

What?

Joyce's words surprised everyone. As soon as these words fell out, the gazes of the officials who were looking at Logan immediately changed.

Everyone knows that Logan's harem is full and that he likes beautiful women, but they don't know that Logan has reached the point of having to... take drugs....

As for the specific medicine, everyone has already guessed it, it must be... a great nutritional supplement or something.

Being told on the spot by his goddess to take the medicine, Logan was dumbfounded, "Joyce, 1... Molly's face was so gloomy that she could shed water, and immediately said: "Queen of Visionary, please be careful in your words and actions. How can you criticize the king's private life?"

Joyce glared at Molly, "Logan, is this barking concubine your beloved one? She tricked you into taking that potion, your body was almost pierced by her."

12:31

Everyone's eyes turned to Molly. They argued tumultuously,

"My God, Concubine Molly gave the king the potion!"

"Molly has been favored by the king for years. It is said that when the king stayed with her, there was a melodious voice from her."

"Concubine Molly... is so old that she still considers herself a little lady!"

"Princess Clara is really like her mother, very bohemian."

"The mother, daughter, and His Highness Aaron are all from abroad. I heard that there are people who are good at seducing men, they are despicable. Let's stay away from them in the future."

Hearing these arguments and the discriminatory gazes of those people, Molly almost got angry and twisted her face. How did she know Joyce's firepower was so great? She exposed the inside and the truth about her being favored. Everyone likes to gossip. There's a lot of people here, and the news of her giving Logan drugs will soon be available to the general public.

Some time ago, her daughter, Clara, was exposed to pornography, now inevitably dragged out and vilified.

"Queen of Visionary, you!" Molly wanted to say.

But Joyce's beautiful eyes flashed with a sharp glint, and she looked up at Molly scornfully, "Molly, I'm talking to the king right now, what right do you

have to interfere? Take a step back!"

Molly choked, a mouthful of blood almost spat out. Sure enough, the king of Greenland and the Queen of Visionary were talking, how did she get in the way?

Logan's expression was bad. No matter what he suspected, he would never doubt Joyce's medical skills. Joyce said the drug emptied his body, and he broke out in a cold sweat.

Logan gave Molly a stern look, meaning "Let's talk about the drugs later!"

On the side, Luana was worried. She could see that when Joyce, the Queen of Visionary, appeared, she had completely crushed Molly, making her so angry that she bared her teeth.

Now that she was alone, no one cared about her anymore, she felt the blood on her body about to dry up.

"Oh my

lord, my stomach hurts... Hurry up and help me." Luana exclaimed hastily, attracting the attention of Logan and the others.

Logan then realized that there was still someone named Luana and immediately said: "Joyce, stop talking about this. Let's talk about the twins in Luana's belly. Right now, all the evidence points to her daughter..."

Before Logan finished speaking, Joyce quickly covered her nose with her hand, "The smell is so strong, can't you guys smell it?"

What smell?

Everyone used their strength to smell, and there seemed to be a strong smell,

"What is this smell? Why is it like... the smell of chicken blood?"

"Yes, it smells like chicken blood. This chicken blood seems to come from... Concubine Luana."

"No way, Luana is human, why does a miscarriage smell like chicken blood?"

Everyone immediately looked suspiciously at Luana.

Luana's heart tightened. Just now, she hid the blood bag in her clothes, then quietly squeezed it This

bag of blood was given to her by the servant Willow. At the time, Luana didn't ask what kind of blood it was.

Was there chicken blood in the blood bag?

Luana suddenly panicked.

At this point, Joyce pursed her red lips, "Logan, your harem is interesting. A concubine who had a miscarriage gave off chicken blood. The thing is, we stood talking for almost half an hour, and one who was six months pregnant

had a miscarriage and was still lying there unharmed. Let me tell you, Luana can't be faking a miscarriage!"

Chapter 610 Cuckold

Pretend to have a miscarriage?

These words echoed like lightning hitting everyone's ears.

How could it be?

Someone quickly asked a question,

"Queen of Visionary, you can't lie about this. Do you have any proof?"

Molly's gaze quickly fell on Luana. Just now Joyce had gotten her full attention so she hadn't noticed anything unusual in Luana. Currently, all the blood on Luana's body has dried, and there is no more blood on her body. It was all out, which was kind of weird.

"Luana, what happened here? Doctor, you should check her out." Logan said in a deep voice.

"Wait a minute!" Joyce hurriedly stopped Logan, "Logan, if my daughter is involved in this matter and she has some medical skills, why not let her treat Luana herself? Who knows if this doctor of yours is good or bad? It's only chicken blood but he can't tell the difference, maybe he was bribed long ago to harm my daughter!"

Logan immediately glanced at the doctor, who was frightened and quickly averted his gaze.

At this point, Olive took a step forward, "Mr. Theodore, then I'll check. If Concubine Luana didn't miscarry and the twins were still alive, everyone would be happy."

"Princess of Visionary, thank you." Logan nodded.

Olive stretched out her legs step by step closer to Luana, her shining gaze fell on Luana's face, her red lips slowly curved up, "Concubine Luana, don't be afraid. I'm here to heal you now."

Olive spoke each word so strongly that Concubine Luana felt that she was a demon, and this demon was walking towards her step by step.

Luana was a little scared. If Olive diagnoses her, her business will be ruined.

She quickly jumped up, "No. Don't come here. Don't touch me. Save me!"

Luana quickly ran to Logan's side.

When she ran like that, everyone's eyes changed. A woman who suffered a miscarriage for more than six months walking like flying is unscientific.

Olive coldly watched Luana run away, suddenly reaching out and grabbing Luana's skirt. "Flash". the clothes under Luana's body were torn, and her white thighs were immediately exposed.

At the same time, another thing fell out, which was... an empty bag of blood. Luana didn't even have time to throw the blood bag away. At this moment, the blood bag fell to the ground.

Luana's heart pounded, knowing something was wrong. She turned to pick up the bag of blood.

But it was too late, a thin white hand reached out to take the blood bag. Olive dubiously pinched the bag of blood and showed it to everyone, "Hey, what's this? Why did it fall out of Luana's clothes?"

At this point, Olive sniffed the blood bag in her hand, then raised her eyebrows in disgust, "There's chicken blood in this bag, it must have come from Concubine Luana. Ah, Luana, so you didn't miscarry, but you squeezed this bag of blood to blame me."

Chapter 610 C uckold

Everyone's face changed. They discussed,

"Luana, how could you do such a thing? Are you toying with the royal family or do you think we're fools?"

"Luana, what do you really want to do? Why intentionally harm the Visionary's princess? Do you want to cause hatred and war between the two countries?"

Luana was terrified. How did she know this would be revealed so easily? She shook her head in panic, "No, it's not like that."

Olive looked at Luana, her clear eyes rippled with laughter, "Looks like Luana had a miscarriage. The six-month-old twins were stillborn. If necessary, they should be removed immediately. Then let mer me cut open Luana's belly and take out the babies!"

Speaking of which, Olive held a sharp knife in her small hand. She held the knife and tended to stab Luana in the stomach.

Luana was so scared that her pupils constricted. She rushed into Logan's chest and cried: "My lord, save me. Save the babies. The twins are still in my womb. Please don't let the Visionary's princess harm us!"

Olive's hand movements stopped. She raised her red lips and said slowly:

"Luana, you finally confessed!"

Luana was shocked, and hurriedly raised her head, directly meeting Logan's cruel gaze.

"My lord, I..."

Logan got angry and pushed Luana away, "Luana, it turns out this is all you

acting. What's your purpose?"

"Mr. Theodore," said Olive, "Now that Luana is pregnant with twins, she doesn't need to risk her life. Unless... someone instigated her. You should ask who the mastermind is behind it."

"Luana, now I give you a chance. Tell me the mastermind behind it!" Logan scolded loudly.

"I, I..." Luana glanced warily at Molly beside her.

Molly's hands hung loosely at her sides, clenched into fists, her nails dug deep into her palms. Now she wants to kill Luana.

Luana didn't take the abortion medicine but tricked her with chicken blood, ruining her plans.

Damn it!

Now that the lie has been exposed, Molly doesn't allow herself to be exposed.

She immediately said, "My lord, I think Luana and the Princess of Visionary are a little different, so Luana was just joking. It's better to forget about it."

Logan takes Luana's belly very seriously. He was a little hesitant, but inside, he wanted to protect

Luana.

At this time, Olive faintly smiled and said: "When Molly reminded me, I remembered that we had a good fight with Luana. That day Prince Aaron disturbed me and was seen by Luana. She seemed.... jealous. At that time, she called me a slut. Those who don't know will think that Luana is Prince Aaron's concubine."

What?

Olive dropped another heavy bomb with a clear voice. These onlookers were overwhelmed, and everyone's eyes were on Aaron and Concubine Luana. Luana is Logan's favorite concubine, but now she is in a relationship with Aaron. Is this... incest?

Chapter 610 Cuckold

The royal family is really messed up.

Molly was terrified, too. She didn't know that her son and Luana cheated, so whose these twins are in the end...?

Logan likes to save face the most. Any man can't stand being cuckolded, the point is that his cuckold is his son. It's so unbearable.

"Aaron, Luana, what is going on?" Logan asked angrily.

Aaron always wanted to appear modest, but reluctantly, all the spotlight was on him. Unable to maintain a modest appearance, he stammered: "Dad, don't listen to Princess of Visionary's bullshit. Does she have proof?"
