

Superman Delta's Life Diary

Chapter 16 Remember to make up the review after saving the world

This battle gave Xingguang a sense of separation.

Originally, he had traveled here inexplicably and had been an ordinary person for two or three years, but now he has rejoined the battle as Ultraman, which made Xingguang, who was accustomed to it, unable to adapt to it for a while.

This battle gave Xingguang a little understanding of his own combat power, but his own strength was still insufficient, and he had to make additional props to make up for it.

It happened that there were ready-made materials on hand—natural control machines “Heaven” and “White Mist”. Xingguang Yi had completely disassembled the two machines. As for which props to make, Xingguang Yi had no clue for the time being.

On the other hand, when you fight in the future, there is a high possibility that there will be human beings who are too late to take refuge and stay near the battlefield.

You must try your best to avoid human casualties.

Although Xingguang didn't have the kind of skills similar to Ultraman Nexus' “Meta Field”, but fortunately the transforming device in his hand came with a laboratory space.

You can guide the laboratory space to overlap with the real space, forming a mirror battlefield where you can see each other inside and outside the space, but cannot influence each other.

Just before Xia Luzhen and the others came back, Xingguang Yi had completed the transformation of the laboratory space.

The current laboratory space is divided into four areas, “storage space”, “experimental space”, “temporary space” and “mirror battlefield space”.

In the future, it will be left to slowly expand and strengthen the laboratory space.

“Ultraman warriors are really hard work. By the way, are you ready to make any equipment?”

Xia Luzhen opened the curtains to let in the sunlight.

“I don't know, I want to borrow the strength of the seniors, but I don't have their light here, I can't do it out of thin air.”

After he was full, Xingguang first moved all the mechanical parts on the floor of the dormitory back into the laboratory space.

“Or you make a sword, and I can teach you swordsmanship.”

Xia Luzhen suddenly saw his Zanpakutō in his hand, he patted the scabbard and said to Xingguangyi.

As soon as Xingguang, who was packing, put down the things in his hand, he took out a small notepad from inside his clothes, and wrote this note on it.

“Old Star, didn’t you say you wanted to analyze the video equipment in the heaven, why did you dismantle it? Did you analyze it?” Malco asked back.

“Well, it’s been parsed out. There is a monitoring probe on “Bai Wu”, which just happened to be recorded. ”

As soon as Xingguang tapped on the blue light screen a few times, the large and small blue light screens in the dormitory disappeared one after another, leaving only the largest light screen with a video playing on it.

In the video, it can be seen that this is a huge hangar, and there is a whole row of natural control machines beside Bai Wu.

Because the viewing angle of this monitoring probe is fixed, there is no way to see the situation on the other side.

Suddenly, from a distance, these natural control machines disappeared one after another out of thin air.

Seeing that the “white fog” was about to arrive, the next second “white fog” appeared in another place, where it was covered with snow, and there was a campus not far away.

Immediately afterwards, a light flew from the sky and hit the body of “White Mist”. After that, the screen entered a gray screen. Obviously, this impact damaged the monitoring probe.

The light that flew over was naturally Xingguang Yi, and everything after that was known, Xingguang Yi had a fight with “White Mist”.

When I first watched this video, Xingguang was under a lot of pressure, and I didn’t know how many models of natural control machines were waiting in line.

I hope they get lost in time travel for a while, and it is best to wash away a few when they encounter time and space turbulence.

Although Xingguangyi didn't know whether there was time-space turbulence in the real world, he still hoped so.

"Oh, by the way, Brother Da Zhe asked you to write an eight-hundred-character Yingwen review and bring it to him in the next class, otherwise you will be considered absent from class."

Xia Luzhen finally remembered this matter, and quickly told Xingguangyi.

"What? Didn't I ask you to ask for leave for me?"

Xingguang was shocked, are you three so unreliable?

"Then what... I asked for you, but Big Zhe, you know, it's very strict, so..." Xia Luzhen said vaguely, trying to leave the operation problems of the three of them to Big Zhe.

"Yes yes yes." "Yes yes yes, Big Brother is too strict." The other two also agreed.

"Ugh!"

Xingguang sighed and accepted his fate.

Think about the Ultramans in the time travel novels, who are either accompanied by beautiful women or invincible in the world.

Why do I have to write a review when I save the world and come back?

Thinking like this, Xingguang deleted "The Invincible Dadijia of Time Travel" on a certain reading software bookshelf in his mobile phone. He didn't read it and looked uncomfortable.

Then I started to write the Yingwen review book wholeheartedly.

You said why don't you continue to research equipment and props, which one is more urgent and unclear?

Of course, writing a review is more urgent.

And this is only 800-character eagle text. Back then, in the Land of Light, Xingguang had written a 10,000-character review.

Finish writing it early and submit it early, so as not to be troubled by Big Zhe again.

"How to find a reason?" Xingguang thought while biting the pen.

While thinking about it, Malco spoke from behind.

“Old star, the official video about you has been released.”

“You go outside, I’ll just listen to the voice.”

In fact, China’s attitude towards Ultraman is quite ambiguous. When Ultraman first appeared, the official neither admitted nor concealed it.

When Ultraman appeared for the second time, the official decision was made.

“...Thank you very much for our alien friend who defeated the monster and protected the safety of our people. We always open the door of communication, welcome and look forward to friendly exchanges with this alien.

Because the image of this alien friend is very similar to a special drama hero, we temporarily gave this alien friend a friendly nickname – Triangle Ultraman.”

The last sentence made Xingguang’s mouth twitch. He really wanted to slap himself and make you draw a triangle when you fly away.

He made up his mind to write “Delta” in the sky the next time he flew away.
