The sweet pursuit Chapter 29-She stands in front of the computer, and the computer and the display screen opposite it turn on automatically.

Su Xi opened a hawk-headed Peugeot desktop icon, after entering, jumped out of the password box, she entered six digits extremely quickly, and a three-dimensional file with a diagram immediately jumped out.

Su Xi glanced at ten lines and opened his mouth lightly, "Half a month ago, the Song family photographed a bronze with a human head and a bird's body in London, England, and when it was transported back, the plane fell on the border of Outer Mongolia, and now the whereabouts of the bronze are unknown, the Song family asked us to find this bronze, with a bounty of 12 million!"

After Su Xi finished reading, he asked, "Can't pick it up?"
A baby voice that changed its voice came from the white display, "Pick up, I'm around here, there's a little clue."

Su Xi nodded, and the light of the computer shone on her face, emitting a cold light, "I will send you the pictures of the bronze and the files of the relevant personnel."

"Blue Eagle." Su Xi ordered, "You assist the goshawk."

"Yes!" Qingying's voice was calm and low.

The three discussed the details again, and when it was almost eleven o'clock, Su Xi left the study.

.....

On Saturday morning, when Su Xi arrived at Ling's house, Ling Yinuo didn't go out.

Knowing that she was coming, Ling Yinuo pulled her into his room.

"The results of this monthly exam have improved a lot, and my second uncle is also very satisfied with you, Su Xi, thank you so much, you have solved a big trouble for our family!" Ling Yinuo said excitedly.

Su Xi smiled lightly, "I took your family's salary, this is what should be done, no thanks!" Ling

Yinuo had already changed his clothes and was about to go out, and when he was talking to Su Xi, he took out a few necklaces and compared them around his neck and asked Su Xi which one looked better.

They are all expensive brands, and a few are limited editions.

"And this one!" Ling Yinuo opened the box to Su Xi with extra care, and there was joy hidden in his voice, "This is what Zhou Yang just sent me, does it look good?"

Su Xi looked at the necklace in the velvet box and did not speak, the necklace was GK's, leaf-shaped pendant.

She designed this necklace.

The leaves have seven veins, which are set on gold leaf with seven different colors of broken diamonds in a special process, and when the sun shines, the diamonds shimmer brightly, and the veins are like water, which is very gorgeous.

Ling Yinuo's necklace has eight veins, and the veins are also cheap moissan.

Seeing that Su Xi did not speak, Ling Yinuo put the necklace on his neck, and his smile was still pure, "I know that the necklace is fake, Zhou Yang, his parents are ordinary people, he doesn't have so much money to buy real GK."

Su Xi said, "If you can't afford it, you don't have to buy it, and you don't have to buy a fake one."

"I haven't told him about my family, our relationship is pure, he just wants to make me happy." Ling Yinuo explained.

Su Xi couldn't agree, "He is a student, it's normal to have no money to buy luxury goods, but he bought a fake one, either because he thought you were material, or he thought you were stupid and could cheat you." Ling

Yinuo immediately shook his head, "It's not like this. I know him, he doesn't mean to lie to me, maybe he himself was deceived, or he doesn't know the GK brand at all, after all, he never cares about these things.

Su Xi could see that Ling Yinuo was very protective of Zhou Yang, and she really didn't know about Zhou Yang, so she didn't speak again.

Ling Yinuo still put on that necklace, didn't care at all, smiled clearly and innocently, "I'll go first, I'll ask you for a voyage, I'll treat you another day!"

"Stay safe." Su Xi said.

Ling Yinuo gave her a reassuring gesture, and then flew out the door like a happy bird.

"Love makes people mentally retarded!"

There was a sudden mocking sound behind him, and Su Xi turned around and saw that it was Ling Yihang standing in front of the wooden fence with a disdainful expression.
