

Sacred King 2991

Chapter 2991

"Who's there!" The moment the green-robed man approached the Blood Ape World, two True Spirit experts of the Blood Ape World appeared and blocked his path, hollering. The green-robed man smiled and cupped his fists. "I'm Su Zimo and I'm here to visit an old friend." Su Zimo did not intend to continue hiding after leaving Sword World and relinquishing his position as the peak master of Ninth Sword Peak. Instead, he wanted to revert to his true name. On one hand, it was because his cultivation was growing and he had the strength to protect himself. On the other hand, it was also because of the strength of Wu Dao's True Body! "Old friend?" The two Blood Ape True Spirits frowned and sized up Su Zimo with a scrutinizing gaze. The green-robed man looked travel-worn and should have come from afar. True Spirit experts would encounter many unexpected dangers if they traveled long distances through the cosmos – it could be said that they would most likely die! This human True Spirit looked frail – to think that he would have such guts and methods. "What's the name of your old friend?" The Blood Ape True Spirit on the left asked. "I don't know," Su Zimo shook his head gently. The expressions of the two Blood Ape True Spirits darkened. They thought that Su Zimo was toying with them and were about to fly into a rage. Su Zimo spoke once more, "That old friend came from Tianhuang Mainland in the lower world. When he was in the lower world, he did not have a name. Therefore, I'm not sure if he has a name after ascending." "Tianhuang Mainland?" The Blood Ape True Spirit on the right frowned slightly and whispered, "Could it be Senior Brother Yuan Huang?" "That's possible," The one on the left replied, "Master asked Senior Brother Yuan Huang and he seemed to have mentioned that he came from some Tianhuang Mainland. That's why he used that name." When the two Blood Ape True Spirits saw that Su Zimo had a friendly expression and sounded sincere without any pretense, they let down their guard. "Follow me," The Blood Ape True Spirit on the left turned and led the way towards the blood-colored mountain peak while saying, "The True Spirit Battle is being held in our race recently and Senior Brother Yuan Huang is also a popular candidate for the number one True Spirit." "Oh?" Su Zimo's eyes lit up.

It seemed that not only was the monkey living a good life in the Blood Ape Realm, but he was also successful in his cultivation. He actually had a chance of contending for the title of the number one true spirit in the clan! "May I know your name, fellow daoist?" Su Zimo asked. "My name is Yuan An." The True Spirit of the Blood Ape Clan replied. The two of them sped along, and it didn't take long for them to arrive near the blood-colored mountain peak. As soon as he approached, Su Zimo heard the cries of Sanguine Apes reverberating between the numerous mountains and ancient trees. It was extremely lively. Su Zimo looked over and saw numerous Blood Apes gathered near the blood colored mountain, and numerous figures stood on the ancient trees. They were densely packed and innumerable, causing it to be an unprecedentedly grand scene. From the looks of it, this True Spirit Battle was a rare event for the Blood Ape Realm! At the foot of the mountain, there were ten huge stone platforms. On each platform, there were two Blood Apes fighting each other. There was even a gigantic empty ranking board pasted on the blood-colored mountain peak. Yuan An explained, "Those ten stone platforms are the battle platforms of our race and that ranking board is the Combat Ranking. In every True Spirit Battle, only the top ten clansmen will be able to leave their names on the Combat Ranking." Su Zimo nodded and scanned his surroundings, searching for traces of monkey. "Senior Brother Yuan Huang is over there." Yuan An pointed into the distance. Su Zimo looked over and could not help but chuckle. The Blood

Ape in the distance was seated in a lotus position with his eyes closed. Although his side profile was facing them, Su Zimo recognized him immediately! That Blood Ape named Yuan Huang was none other than monkey! After so many years, monkey's body had changed tremendously. His body was clearly much taller and more muscular while his arms were longer and abnormally thick. "Senior Brother Yuan Huang just fought a huge battle and is recuperating. Don't disturb him for now." Yuan An did not continue to lead Su Zimo forward. Instead, he descended on the periphery and said in a low voice, "The top ten of the True Spirit Battle have been decided. There's still the final ranking battle. It won't be too late for you to visit him after the ranking battle." "Alright." Seeing that monkey was fine, Su Zimo was not in a hurry to meet him. He could observe monkey's abilities from the side.

Su Zimo took a quick look. In this True Spirit Battle of the Blood Apes, apart from the many spectators and participating True Spirits, there were also six Kings presiding over the True Spirit Battle. Not long after, the battle for the top ten began. Su Zimo noticed that two of the top ten Blood Apes were only at the Kongming stage. Monkey was one of them. The remaining eight were all at the Dongxu stage. Monkey was able to enter the Combat Ranking at the Kongming stage and even had the chance to compete for the title of number one True Spirit. It seemed that he was indeed capable. "Who's that?" Su Zimo's gaze landed on one of the top ten Blood Apes as he asked softly. That Blood Ape had a dark face and an unusually ferocious gaze. He was covered in thick fur and his blood qi was extremely vigorous. Even from afar, Su Zimo could sense the strength of his bloodline! The bloodline of that Blood Ape was clearly superior to the other nine and was definitely monkey's greatest opponent. When Yuan An heard Su Zimo asking about that person, he frowned instinctively and dodged his gaze. His expression was a little strange, as though he was fearful and disgusted at the same time ... "He's Ma Xuan." Yuan An replied. Su Zimo asked again, "Why is his surname Ma?" He could understand why the Blood Apes chose the surname Yuan. But where did the surname Ma come from? Yuan An pursed his lips slightly. "His background is different. His status and bloodline are much nobler than ours. Naturally, we can't compare." Su Zimo could tell that there was a hidden meaning in Yuan An's words. Indeed, there were some Blood Apes gathered together in the surroundings and they looked different from monkey, Yuan An and the other Blood Apes. The most obvious difference was that those Blood Apes had dark faces and were taller and stronger. Before he could continue asking, the battle on the fighting platform had already broken out. The ten Blood Apes fought in pairs. Monkey was up against a Paradise Void Realm True Spirit. Both parties clashed the moment the battle started and the melee combat was exceptionally intense! Although monkey's cultivation realm was lower, he was not weak in melee combat. Furthermore, monkey's battle intent was clearly suppressing the other party and he fought even more valiantly!

Su Zimo nodded to himself. If nothing unexpected happened, monkey should be the victor of this battle. Right at this moment, an unexpected event occurred abruptly on another combat arena! A Blood Ape was severely injured and defeated. It turned to flee from the fighting platform. However, the tall, dark-faced Blood Ape caught up to him and smashed down with its cudgel, shattering the top of his head. His soul was scattered, and his body and Dao vanished! Su Zimo's heart skipped a beat and he narrowed his gaze. That was way too ruthless! This time, it was completely aiming to kill! He had long heard that the Blood Apes were ferocious and belligerent. Could they be that ruthless against their own race as well? The victor was clearly decided earlier on and there was truly no need for them to be so ruthless. Or could there be other reasons behind this? Before Su Zimo could figure it out, the victor was

decided on the other battlefield as well. To be precise, it was a life and death battle! Ma Xuan pounded his chest and howled in excitement. Gripping his spear tightly with his other hand, he pierced the head of the Blood Ape opposite him and smashed it into pieces! The Headless Blood Ape's corpse fell into a pool of blood and twitched unconsciously in a tragic manner.

Chapter 2992

Su Zimo glanced sideways at Yuan An beside him. Yuan An's eyes flashed with rage towards the gruesome and bloody scene on the fighting platform. However, he did not say anything. It was the same for the rest of the Sanguine Apes. The Sanguine Apes seemed to be used to such a scene. Although they were furious, they did not reveal much fighting spirit. Even the six Sanguine Ape World Kings presiding over did not stop them. Su Zimo noticed that among the six Sanguine Ape World Kings, two of them were Sanguine Apes with dark faces and taller figures. "Life and death are allowed in the True Spirit Battle of the Sanguine Apes?" Su Zimo asked. Yuan An was silent for a moment before replying, "In theory, there are no rules or restrictions. Life and death are allowed." It was clear that Yuan An did not finish his sentence. Su Zimo said in a deep voice, "I think the two True Spirits of the Sanguine Ape World who attacked earlier on seem to be different from you guys. They should have different bloodlines, right?" This was an extremely common situation among the ten thousand races. For example, among the Dragons, there were the Horned Dragon, Blue Dragon and Illumination Dragon. Although they were Dragons, their bloodlines were completely different. Yuan An nodded and did not hide anything. "Fellow Daoist, you're right. Those two guys earlier on belong to the Horse Monkey lineage." "There are four lineages in the Ape Monkey lineage. Right now, the two most common lineages in the Sanguine Ape World are the Sanguine Ape lineage and the Horse Monkey lineage." Su Zimo nodded. However, although they were both of the Horse Monkey lineage, Ma Xuan on the fighting platform had a unique bloodline that was clearly superior to the other members of his race! As the two of them conversed, the outcome of the remaining three fighting platforms was decided as well. For the three True Spirit Battles, the six True Spirits, including monkey, were all of the Sanguine Ape lineage. Although both sides fought fiercely, it did not escalate to a life and death battle. The moment the outcome was decided, they stopped immediately and walked down the fighting platform respectively. "Seems like the Sanguine Ape lineage and the Horse Monkey lineage have some grudges." Su Zimo pondered in deep thought. After the first round of battles ended, five people emerged victorious and monkey was one of them. In the second round of the True Spirit Battle, the five contestants drew lots first, and there were a total of five tokens. The True Spirits with the number four token and the number five token would battle first, and the winner would become the fourth seed. Then, Number One against Number Four, and Number Two against Number Three. The drawing order came out quickly. Number one was Monkey, number two was Ma Xuan, number three was Yuan Cheng, number four was Ma Xiao, and number five was Yuan Ci. Number Four and Number Five were the two bloodlines from the Blood Ape Realm! In the True Spirit Battle, Ma Xiao had killed another True Spirit of the Blood Ape Clan. Ma Xiao grinned at Yuan Ci and crooked his finger. Yuan Ci didn't utter a word. She carried her staff and stepped onto the fighting platform. A great battle instantly broke out! Those able to charge into the top five of the Battle List were naturally not easy to deal with. Ma Xiao's attacks were fierce and aggressive. Yuan Ci was extremely calm. She was neither panicked nor anxious. She was on the defensive while attacking. Not a single drop of water leaked out. Both sides were in a stalemate for a long time. Ma Xiao's attacks gradually weakened, while Yuan Ci began to counterattack and gradually gained the upper hand! After fighting for a while more, Yuan Ci's bloodline surged and her aura suddenly soared. With a long howl, she broke through Ma

Xiao's defenses and her metal staff went straight for the top of his head. If that staff hit, Ma Xiao's head would definitely be smashed into pieces and he would die on the spot! When Ma Xiao could not defend against it and was about to die on the spot, Yuan Ci's metal staff suddenly stopped hovering above Ma Xiao's head! Su Zimo frowned slightly. The relationship between the two lineages seemed to be different from what he had initially expected. If there was some sort of grudge between the two lineages, why would the Blood Ape lineage leave any leeway when the Horse Monkey lineage was so cold-blooded and had just killed a bloodline clansman? When he saw Yuan Ci stop on the fighting platform, Yuan An was not enraged. Instead, he heaved a sigh of relief. The other members of the Blood Ape tribe were not surprised by this scene. "Since it's life and death, what are the Blood Ape lineage worried about?" Suddenly, Su Zimo asked. Yuan An was stunned, as though he had not expected that Su Zimo would notice the abnormality so quickly. He had a troubled expression and stuttered without saying anything.

Right then, something happened on the battlefield! Initially, the outcome of this battle was already decided. However, just as Yuan Ci retracted his staff and was about to turn and leave, Ma Xiao suddenly attacked and released killing moves and secret skills consecutively! Yuan Ci was caught off guard and was heavily injured before she could even defend herself. However, Ma Xiao did not give him any chance to live and killed him with a single staff strike, destroying his Essence Spirit! This unforeseen event caused an uproar! The entire process took less than two to three breaths. By the time everyone reacted to it, Yuan Ci was already dead on the spot. "What are you doing?!" "Despicable and shameless!" A series of curses burst forth from the Blood Apes and they were all agitated. "Hahaha!" Ma Xiao laughed arrogantly and pointed his staff at the many Blood Apes below, shouting, "Anyone who's indignant can come up and fight me!" Although the Blood Apes were furious, none of them stepped forward when they heard that. Su Zimo looked at the six Kings who were presiding over the True Spirit Battle high above. If none of the six Kings stood up to uphold justice in such a situation, then the problem of the Blood Ape Realm was more serious than he had imagined! Among the six Kings, a Blood Ape King slowly stood up and gestured with his hands. He waited for the surrounding curses to die down before looking at the two Horse Monkey Kings sitting beside him. "The outcome of the battle just now was clearly decided. Yuan Ci showed mercy, but Ma Xiao ambushed him from behind and killed him. Isn't he too vicious?" "Haha!" One of the Horse Monkey Kings sneered. "The outcome was already decided? Life and death are not determined on the battle stage. There is no such thing as victory or defeat! ""He was careless and was killed by someone else. He can't blame anyone else. ""You!" The Blood Ape King's face flushed red with anger when he heard those words. Among the remaining three Blood Ape Kings, some were silent and some sighed. The last one reached out and pulled the Blood Ape King, persuading in a low voice, "Potian, forget it." The Sky Breaking Ape King clenched his fists and didn't say a word. He still looked coldly at the two Horse Monkey Kings beside him. Su Zimo's Divine Sense moved.

The Sky Breaking Ape King's cultivation was at the greater success stage of the Grotto-Heaven Realm, while the two Horse Monkey Kings were only at the initial success stage. However, the Sky Breaking Ape King and the other three Blood Ape Kings were clearly wary of the two Horse Monkey Kings! "What?" The Horse Monkey King's expression darkened when he saw the Sky Breaking Ape King standing still and staring coldly at him. He slowly stood up and asked coldly, "Do you want to overturn the heavens?" Su Zimo's gaze moved and landed on a token at the Horse Monkey King's waist. His pupils constricted and flashed coldly. He narrowed his eyes and said, "By the will of the heavens." This medallion represented the origin of this monkey king. The Sky Offering World! Su Zimo didn't expect to meet someone from the Sky Offering World in the Blood Ape Realm, and a King at that! Perhaps there was more than one!

Chapter 2993

"You know about the Heavenly Order?" Yuan An looked at Su Zimo in surprise. Su Zimo nodded and did not say anything. Yuan An revealed a sad expression and laughed mockingly. "Since you know about the Heavenly Order, you should know that they belong to the Heavenly Order. Who dares to challenge them?" Faced with the questioning of the Horse Monkey King, the Heaven-Breaking Ape King seemed to be unable to withstand the pressure. Gritting his teeth, he sat back down slowly. The Sanguine Apes gradually quietened down. The laughter from the Horse Monkey Tribe was unusually ear-piercing. Su Zimo could clearly sense that the Sanguine Apes no longer had the spirit that they should have. Their willpower was low. Su Zimo asked, "Since the True Spirit Battle doesn't concern life and death, what's wrong with killing the other party?" "Pay with your life." Yuan An said, "Furthermore, it's not just the person who kills them that will pay with his life. His parents, brothers, children and anyone related to him will be implicated and buried with him!" "Let me ask you, under such circumstances, would you dare to kill the other party?" Su Zimo was silent. Yuan An clenched his fists slightly and became agitated. He said softly, "It's not that the Sanguine Apes don't have guts. It's just that we've been through way too much over the years!" "I told you earlier that the Ape Monkey Tribe originally had four tribes. Among them, the Stone Monkey Tribe went extinct at the end of the War Era!" "The Macaque Tribe went extinct in the Calamity of the Sanguine Apes in this era! What did our guts get us in the end?" "The Horse Monkey Tribe submitted and became the lackeys of the Heavenly Order. At least the Sanguine Apes didn't submit!" Su Zimo sighed softly in his heart. He knew about the hardships and pressure the Sanguine Apes faced in the past. He also understood the choice they made. If they continued to resist, the Sanguine Apes would follow in the footsteps of the Stone Monkey and Macaque Tribes. As Yuan An said, it was already rare that the Sanguine Apes did not submit to the Heavenly Order. Furthermore, in this era, only the Sanguine Apes dared to question the Heavenly Order and even went to the extent of clashing head-on. In the end, it led to the Calamity of the Sanguine Apes that almost wiped out their tribe! Among the 3,000 in the Upper Realm, only the Blood Ape Clan had the guts and courage to do so!

However, under the pressure of the traitors and the Celestial Bestowment World, the bloodiness of the Blood Apes had gradually been wiped out. They no longer had the spirit to fight against the heavens. Yuan An gradually calmed down and realized that he had lost his composure. Only then did he say, "Fellow Daoist, I've made a fool of myself by saying so much." There was no contempt in Su Zimo's eyes. His expression was solemn as he cupped his hands in respect. The second round of the True Spirit Battle was not over yet. The remaining four people fought in pairs. Monkey No.1 fought against Ma Xiao, who had just killed the Blood Ape Clan's True Spirit. Number two, Ma Xuan, was fighting against number three, the Blood Ape Race's true spirit. Seeing this, Yuan An turned his head and said, "Senior Brother Yuan Huang is quite lucky. He has a higher chance of winning against Ma Xiao." "If I meet Ma Xuan in this round, I'm afraid I'll be eliminated early." Su Zimo had long noticed that Ma Xuan's Qi and blood were clearly stronger than the other members of the Horseshoe Monkey Clan! "That Ma Xuan's bloodline seems to be somewhat special. What's his background?" Su Zimo asked. Yuan An looked at Su Zimo in surprise and praised, "Fellow Daoist, you have sharp eyes." Pausing for a moment, Yuan An said, "There's an extremely rare and supreme bloodline of the Horseshoe Monkey lineage known as the Redbone Horseshoe Monkey." "The Redbone Horseshoe Monkey understands Yin and Yang, understands human affairs and is adept at entering and exiting, avoiding death and prolonging life. Ma Xuan belongs to that bloodline." As the two of them conversed, the battle had already begun on the battle platform! Su Zimo pondered and asked again, "Since the Horseshoe Monkey lineage has such a supreme bloodline, do the

other three lineages have it as well?" "Of course." Yuan An nodded. "The supreme bloodline of the Stone Monkey lineage is known as the Intelligent Stone Monkey. It's capable of transformations, knows the weather and geography, and can shift the stars." "The supreme bloodline of the Macaque lineage is known as the Six Eared Macaque. It's adept at hearing and can discern reason, understanding everything." "As for the supreme bloodline of the Sanguine Ape lineage, it's known as the Long-armed Blood Ape. It can grasp the sun and moon, shrink the mountains, discern right and wrong, and manipulate the universe!" At that point, Yuan An turned to monkey on the battle platform and hesitated. "Actually, Senior Brother Yuan Huang has already awakened the Long-armed Blood Ape. However ..."

"However what?" Su Zimo asked. Yuan An said regretfully, "After the calamity of the Sanguine Ape, the Horseshoe Monkey lineage submitted to the Heaven Tribute World and controlled the Sanguine Ape World, forbidding us from leaving." "With that, Senior Brother Yuan Huang is lacking in opportunities and has only awakened 10% to 20% of his bloodline. He's far from reaching the peak of the Long-armed Blood Ape." As the two of them conversed, the outcome of the two battles on the battle platform was about to be decided. Ma Xuan relied on the immense blood qi of the Redbone Horseshoe Monkey and did not use his full strength. He toyed with his opponent like a cat toying with a mouse and controlled the situation. On the other side, monkey's cultivation realm was lower. However, he relied on a powerful secret skill to raise his combat strength to the level of a Paradise Void Realm. Su Zimo had witnessed that secret skill personally before. Back when the True Martial's 10th Heavenly Tribulation descended on Wu Dao's true body, the Emperor of Combat released a similar method. According to Yuan An's description, the Long-armed Blood Ape could grab the sun and moon and shrink mountains – it was clear that it possessed immense strength and was most proficient in melee combat. Furthermore, Su Zimo could sense a strong will to battle from monkey. It was unyielding and fearless! Against that aura, Ma Xiao was forced to retreat. "Die!" Right then, as though he was unwilling to continue toying with his opponent, Ma Xuan's blood qi surged and he waved his dagger-ax, breaking through the defenses of the Sanguine Ape True Spirit and piercing the other party's head! On the other side, the outcome was decided as well. After a series of head-on clashes, Ma Xiao's arms were numb and he could no longer grip his rod – he was sent flying by monkey's rod! However, monkey did not stop against the bare-handed Ma Xiao. A ferocious glint shone in his eyes as he swung his rod and smashed it towards Ma Xiao's head! "Hmm?" Ma Xiao's expression changed. The aura and killing intent released by that rod was completely different from the previous situation! "Not good, he wants to kill me!" That thought flashed through Ma Xiao's mind and he was alarmed. Without time to think, he reached out instinctively and grabbed monkey's rod. Bang! The rod smashed down and was gripped tightly by Ma Xiao's hands!

Crack! Crack! The sound of bones cracking could be heard! Under the immense pain, Ma Xiao glared at monkey with widened eyes and hollered, "How dare you kill me!" "That's right, I'm going to kill you!" Monkey smirked and let go of the rod with a sinister gaze. He strode forward and bent his knees slightly, propping his hands in the air as though he was offering a fruit. Ma Xiao gripped monkey's rod with both hands. He could not defend in time and could only retreat instinctively. However, monkey was even faster. With a leap, he stood up and grabbed Ma Xiao's chin with both hands! Snap! Ma Xiao's head was flung back at a frightening angle and his cervical vertebra was snapped! Monkey had no intention of stopping and punched in reverse, smashing down towards Ma Xiao's face like a gigantic seal! Ma Xiao's reaction was extremely fast as well. Although his body was severely injured, his Essence Spirit broke out of his body and fled into the distance. Just as his Essence Spirit was about to escape monkey's attack

range, monkey's arm suddenly expanded by dozens of feet and tore through the air. The gigantic seal descended from the skies and destroyed Ma Xiao's Essence Spirit!

Chapter 2994

In a cave abode deep in the Sanguine Ape World, an old ape seemed to have sensed something and opened his eyes slowly. The old ape's fur was already white and his eyes were turbid. It was as though he could see through the layers of space and see the situation on the fighting platform. "How rare, how rare ..." The old ape murmured softly, "After the calamity of the Sanguine Ape, our clansmen's will to fight gradually dissipated and are no longer as strong as they were in the past. To think that I would be able to see a junior with such a fighting spirit." "It's just ... a pity," The old ape sighed, feeling both pity and guilt. He knew clearly what consequences this junior was going to face but he was powerless to change it. Even if he was the lord of a world. Not far away from the old ape, a Sanguine Ape Emperor Lord said, "The two Horse Monkey Emperor Lords are monitoring our every move under the will of the heavens." "If we make a move, we'll definitely give them a handle. If the Celestial Tribute world invades en masse, all of us will die." "Douzhan, our Sanguine Ape World can't withstand a second calamity," When the old ape heard that, he waved it off. "Don't call me Douzhan anymore. I'm no longer worthy of that title. The reason why our clansmen are reduced to their current state is directly related to me lowering my head to the Celestial Tribute world back then." The Sanguine Ape Emperor Lord said, "We all know that you had no choice but to lower your head to the Celestial Tribute world back then because you wanted to protect the bloodline of our clansmen! If not for that, the Sanguine Ape World would have been gone." "Furthermore, although we lowered our heads, we straightened our backs and did not submit. At the very least, we did not kneel down to the Celestial Tribute world and become their lackeys like the Horse Monkey Emperor Lords!" The old ape looked deeply at monkey on the fighting platform and lamented, "What a great junior. It's been a long time since I've felt such a fighting spirit, sigh." "... Ma Xiao was dead. The vicinity of the blood-colored mountain peak was dead silent! Be it the Sanguine Ape or Horse Monkey lineage, all of them looked at the figure on the fighting platform in disbelief with widened eyes and shocked expressions. Everyone knew the consequences of killing Ma Xiao. Monkey naturally knew as well. However, he still killed Ma Xiao!

Upon seeing that, many Sanguine Ape clansmen felt their emotions that they had suppressed for a long time being released! They could sense a will that they had not felt in a long time from monkey! It was a fearless, indomitable spirit that wanted to fight against the heavens! This kind of emotion quietly spread through the crowd. The eyes of many Blood Apes flashed with a bloody light. The battle intent in their bodies that they hadn't felt for a long time was gradually awakened. "How dare you!" "You're courting death!" The horseshoe monkeys came to their senses and cursed loudly. "Hahahaha!" Monkey reared his head in laughter and stood in a pool of blood on the fighting platform with his head held high. His eyes were bloodshot as he surveyed his surroundings with a prideful expression without any hint of regret or fear! Wu! The sound of a sharp blade slicing through the air was extremely ear-piercing! It was Ma Xuan who had come to the fighting platform where the monkey was. Without even giving a greeting, he raised his dagger-axe and stabbed it toward the monkey's chest! "Hmph!" Monkey sensed danger and snorted coldly. He swung his long staff and deflected the incoming dagger-axe before engaging in battle with Ma Xian. This battle was the final round of the True Spirit Battle. The outcome of the battle between the two was still unknown. Su Zimo was not in a position to intervene. Yuan An said softly, "Their cultivation realms are a level apart and their bloodlines are different as well. Senior Brother Yuan Huang

is bound to lose."Another Blood Ape sighed. "Senior Brother Yuan Huang has no intention of living. Even if he can defeat Ma Xuan, he'll pay with his life."On the fighting platform, Ma Xuan no longer held back. His blood qi surged as he danced with his dagger-ax, suppressing monkey completely.However, monkey relied on an indomitable battle intent to take on Ma Xuan's ferocious attacks head-on. Instead, the more he fought, the braver he became, as though he had endless strength!A look of impatience flashed through Ma Xuan's face. His blood qi surged once more and he released his Bloodline phenomenon. A tall and burly figure of a horseshoe monkey appeared behind him and controlled a torrential current that drowned monkey instantly!This was a complete suppression in terms of strength!Monkey could not defend against it in the end and was engulfed by the current, falling to the ground.

Ma Xuan took a step forward and stomped heavily on monkey's chest. The sound of bones cracking could be heard – that stomp almost crushed monkey's chest!"Aren't you arrogant?!"Ma Xuan stepped on monkey with an arrogant expression and burst into laughter.Monkey was already exhausted and could not move at all under Ma Xuan's stomp.Even so, the ferocious glint in his eyes did not diminish and there was no hint of submission!"Dog, how dare you kill my clansmen! Do you submit?!"Ma Xuan exerted strength in his stomp and hollered once more."F * ck your mother!"Monkey cursed and spat at Ma Xuan.Ma Xuan tilted his head slightly and dodged it easily. Turning around, he looked at the many Blood Apes around him and asked with a menacing smile, "Why? I saw that you guys were eager to try earlier on. If there's anyone who's indignant, you can come up. I'll give you guys a chance! "When the Blood Apes saw that, they felt immense pressure and their battle intent that had just been awakened was extinguished once more.Indeed, none of them were a match for Ma Xuan.It was said that Ma Xuan had already comprehended a supreme divine power and they would only be courting death if they went forward.In fact, they might even implicate their kin and brothers!Ma Xuan's gaze was sharp as he surveyed his surroundings. Many Blood Apes lowered their heads and avoided his gaze, not daring to meet his gaze."Hahahaha!"Ma Xuan laughed with a disdainful expression and curled his lips. "A bunch of cowards!"Monkey sneered and said, "No matter how weak the Blood Apes are, we have never bowed to the Celestial Worship World and become their lackeys!""You're courting death!"Ma Xuan's face darkened.Even the two Horse Monkey tribe Immortal Kings who were overseeing the situation frowned and their eyes turned cold.Monkey's words had really hit them where it hurt."So what if I die? What's there to be afraid of?"Monkey laughed and said, "I've killed one today. It's enough!""Do you think that you're the only one who has to pay with your life for killing a member of the Horse Monkey tribe?"Ma Xuan said coldly, "Your parents, brothers, children, master, and all the clansmen who are related to you will die with you!"

"Hahahaha!"Monkey laughed even more wildly when he heard that and said loudly, "I came from the lower world and have no parents. After I ascended, I didn't have a master and I don't have any children or brothers! I'm the only one left. Kill me if you want! ""You!"Ma Xuan was stunned.Yuan An seemed to have thought of something when he heard that and his body shook. He gradually clenched his fists and said, "After Senior Brother Yuan Huang ascended, he didn't have a master or interact with anyone. He was extremely cold to everyone. I thought that he was a loner ...""So, so he was doing this for this day!"The other Blood Apes gradually understood as well.After Monkey ascended and heard about what happened to his clansmen, he had long thought of this day!Exchanging a life for a life and not implicating his clansmen!Monkey was using his own choice and method to adhere to the Dao of Battle in his heart!The four Blood Ape tribe Immortal Kings who were watching the battle sighed when they

saw this scene. They couldn't bear to see it and turned their heads away. Some of the young Blood Ape clansmen were crying softly. "Senior Brother Yuan Huang ..." Yuan An's eyes were red as he looked at the figure on the battle stage who was still cursing under Ma Xuan's feet. His vision was blurry. At this moment, a soft murmur came from beside him. "Monkey is indeed an orphan, but he still has a few sworn brothers." Yuan An instinctively looked over and saw that the green-robed man who came with him had already walked forward.

Chapter 2995

On the fighting platform, Ma Xuan stepped on monkey with a dark gaze and could not make up his mind for a moment. Against such a provocative Sanguine Ape, killing the latter casually would not be enough to vent his anger or intimidate the Sanguine Ape race. However, he could not find a suitable excuse to implicate others. "Who said that he has no brothers?" Suddenly, a voice sounded from the crowd. Ma Xuan was delighted when he heard that and turned towards the voice hurriedly. When monkey heard that voice, his eyes widened in disbelief and he turned his head with difficulty, wanting to see the person who spoke. A black-haired, green-robed man was exceptionally eye-catching among the many Sanguine Apes and was walking over. When monkey caught sight of that person, his eyes reddened instantly and his breathing turned heavy. Instinctively, he opened his mouth, wanting to call out 'big brother'. However, he immediately realized something and swallowed the words that were about to come out of his mouth! If he shouted, he would definitely implicate Su Zimo. Why was big brother here? What was he doing here? Monkey's mind was in a mess. Initially, he was rather calm because he was prepared to die. Now that he caught sight of Su Zimo, he was surprised, delighted and could not contain his excitement! When Ma Xuan saw who it was, he frowned slightly. It was clear that this person did not belong to the Sanguine Ape Realm and had an unknown background. However, he did not ask about the identity of the person. As long as the person could provide information about Yuan Huang's brothers, he could put aside the identity of the person for the time being. "You said that he has brothers?" Ma Xuan looked at Su Zimo and asked in a deep voice. Su Zimo had already arrived before the fighting platform and nodded. "From what I know, this monkey does not have any blood brothers. However, he has six sworn brothers." "Oh?" Ma Xuan's eyes lit up. Judging from the way this person spoke with certainty and could even name the exact number of sworn brothers, he should not be spouting nonsense. Furthermore, Yuan Huang was beneath his feet. After this person appeared, Yuan Huang's emotions turned extremely agitated – it could be deduced that this person was not lying! "Tell me, who are the six brothers and where are they?"

Ma Xuan waved his hand with a smile. "As long as you can tell me, feel free to ask for any treasure you want!" Ma Xuan was thinking about something else. After this person spoke, this person would be of no use to him, so he could just kill him! Su Zimo said indifferently, "The other five brothers are not in the Blood Ape Realm, only one is here." "Who?" Ma Xuan asked. "Me." Su Zimo replied. Ma Xuan was stunned. The surrounding Blood Ape Tribe and Horse Monkey Tribe were also dumbfounded. Yuan An, who had brought Su Zimo here, was even more confused when he heard this. He knew that Su Zimo was here to look for his Senior Brother Yuan Huang, but he didn't know that they were sworn brothers. Moreover, even if the two of them were sworn brothers, wouldn't it be suicide to stand out in this situation? "You?" Ma Xuan sized up Su Zimo and his face gradually darkened. He narrowed his eyes and said coldly, "Are you playing with me?" He also couldn't believe that someone would actually jump out and seek their own death. "Aren't you looking for his brother?" Su Zimo leaped onto the battle

platform and pointed to monkey beneath Ma Xuan's feet with a calm expression. "I'm his big brother." Ma Xuan frowned, unable to figure out Su Zimo's intentions. After Su Zimo got onto the battle platform, he no longer looked at Ma Xuan. Instead, he looked at monkey and scolded jokingly, "Monkey, you don't even acknowledge me as your big brother after ascending?" At that point, monkey knew that Su Zimo had already made up his mind and could not hide it any longer. In his agitation, he could not help but shout, "Big brother!" Ma Xuan was finally certain when he heard monkey's shout. "Good, good, good!" Ma Xuan clapped and mocked with a smile, "You're a good big brother. You're rather loyal to your friends and took the initiative to stand out. Your courage is commendable." The many Horse Monkey Tribe members below roared with laughter. "You don't recognize me?" Su Zimo turned and looked at Ma Xuan with raised brows. "Hahahaha!" Ma Xuan was stunned for a moment before bursting into laughter as though he had heard the funniest joke in the world. "What's your name? Tell us how famous you are!"

The many Horse Monkey Tribe members below cheered as well. Su Zimo initially thought that after he appeared, there would definitely be people from the Blood Ape World who would recognize him. After all, the True Spirit experts and kings of the 3,000 worlds were gathered in the Celestial Tribute World back then. In the Fiend Battlefield, he killed more than 20 supreme True Spirits singlehandedly and became famous in a single battle, shocking the upper worlds! However, given the current situation, it was clear that no one recognized him. "No wonder, no wonder ..." Instantly, Su Zimo understood what was going on. Back then, there were no True Spirits of the Blood Ape World in the Celestial Tribute World. The Horse Monkey lineage had always stayed in the Blood Ape World to monitor the Blood Ape race and did not head to the Celestial Tribute World to enter the Fiend Battlefield. Naturally, no one had seen Su Zimo before. "My name is Su Zimo." Su Zimo smiled as well. "Wow!" Ma Xuan pretended to exaggerate and exclaimed, "What a resounding name!" Thereafter, he surveyed the surroundings and asked loudly, "This person is called Su Zimo. Has anyone heard of him before?" Even the Blood Ape lineage exchanged glances, let alone the Horse Monkey lineage. The six Kings sitting high up in the sky looked at each other. They were all at a loss. That name was indeed unfamiliar. Even with their knowledge, they had not heard of it before, let alone the other members of their race. "Fufu!" Ma Xuan looked around and sneered. "What a pity that no one has heard of your name." Pausing for a moment, Ma Xuan retracted his smile and glared at Su Zimo with killing intent. "Also, you might not have understood the situation." "Hmm ... to put it simply, you're going to die." Before he finished, Ma Xuan suddenly waved his dagger-ax and stabbed towards Su Zimo's face at an extremely fast speed! *Piak!* Just as the dagger-ax was about to pierce Su Zimo's face, Su Zimo suddenly reached out and grabbed the dagger-ax! "Hmm?" Instinctively, Ma Xuan wanted to twist his dagger-ax and crush Su Zimo's palm. However, he realized that his Destiny Numinous Treasure was in Su Zimo's hands and could not move at all!

Snap! Before he could react, he heard a crisp sound beside his ear. Su Zimo's palm suddenly exerted strength and snapped his Destiny Numinous Treasure! That dagger-ax was a Pure Yang Numinous Treasure of the nine tribulations. But now, it was snapped into two by this seemingly frail man barehanded! "You ..." Ma Xuan's expression changed starkly. Su Zimo tossed in reverse and the broken dagger-ax in his hands shot out! "Limitless Yin Yang!" Ma Xuan's reaction was extremely fast as he channeled his bloodline and released a supreme divine power! The Redbone Horse Monkey lineage had a saying that they understood Yin and Yang and were innately close to Yin and Yang Dao techniques. Su

Zimo did not dodge or evade. His left eye was pitch-black and his right eye was pure white as he devoured the power of Yin and Yang in a frenzy. With the two divine stones, Illumination and Nether Glow in his eyes, Su Zimo dispelled the Limitless Yin Yang into nothingness. When he saw that, Ma Xuan was scared out of his wits with a horrified expression. He had never seen such ghostly methods before. Poof! After the Limitless Yin Yang was dispelled, the broken dagger-ax penetrated his chest instantly! Fresh blood spewed out! A tremendous force sent his body flying. All of a sudden! A huge shadow shrouded over! It was the figure of the green-robed man! Su Zimo was even faster and caught up in half a step. With a momentum that could plow the heavens, he stomped heavily on Ma Xuan's face. "Pfft!" With a single kick, Ma Xuan's head exploded into pieces and his Essence Spirit was destroyed!

Chapter 2996

Ma Xuan's tragic death caused an uproar! No matter what, Ma Xuan had the bloodline of the Redbone Horsemonkey and had comprehended a supreme ability. He was a true supreme spirit. But against Su Zimo, Ma Xuan could not resist at all and was killed almost instantly! The entire process was too fast. By the time the six Blood Ape Realm Kings reacted, Ma Xuan was already dead on the spot. If the people present knew Su Zimo's background, they would not be surprised. Why did Ma Xuan die so easily? After the battle on the Fiend Battlefield, Su Zimo was already recognized as the number one True Spirit in the three thousand worlds! More than 20 supreme true spirits were all killed by him alone. After so many years, Su Zimo's combat strength had improved. To him, killing a supreme True Spirit like Ma Xuan was no different from killing a chicken. What was even more unexpected was that this seemingly frail and delicate looking outsider would dare to kill a True Spirit of the Blood Ape Realm in front of everyone from the Blood Ape Realm! Yuan An, who had brought Su Zimo here, was shocked as he murmured, "Who did I bring with me ...?" "No matter what his background is, he can't leave the Blood Ape Realm after killing Ma Xuan." "He probably doesn't know that behind Ma Xuan is the Celestial Tribute World, a terrifying force that transcends the world and surpasses the upper worlds!" "The ignorant are fearless." Seeing Ma Xuan die, the Blood Apes felt relieved. But they also knew that the green-robed man on the battle platform had caused a disaster. They felt pity and lamented. Notwithstanding the two macaque kings that were overseeing the area, just the murderous gazes of the macaque race alone were enough to rip this green-robed cultivator to shreds! Su Zimo naturally knew that once he attacked, he would definitely become enemies with the Celestial Tribute World. He also knew the consequences of becoming enemies with the Celestial Tribute World. But seeing the monkeys in trouble, he had no other choice. Taking ten thousand steps back, even if the Celestial Realm mobilized a large force to deal with him, it was not as if he did not have the strength to fight. In the Great Wasteland World, Wu Dao's true body was already fighting with the Heavenly Court behind the Celestial Tribute World. So what if he offended the Celestial Tribute World? Even if Wu Dao's original body couldn't escape, he could still escape with the monkey and head to the inheritance ground of the Nine Underworlds to lay low.

Long before he made his move, he had already gone through all the consequences and possible scenarios in his mind. "How dare you!" The two monkey kings were enraged. They slammed the table and stood up, staring at Su Zimo as they shouted. "Please calm down." The Heaven-breaking Ape King stood up quickly as well. He stopped the two monkey kings and said in a deep voice, "Ask him about his background first." When the two monkey kings heard this, their lungs were about to explode from anger! One of them glared at the Heaven-Piercing Ape King and said through gritted teeth, "I don't care where he came from. He killed Ma Xuan, so he has to pay with his life!" The Heaven-breaking Ape King's

actions seemed like he was trying to calm the two monkey kings down, but he was actually trying to stop them and give Su Zimo a chance to escape. He couldn't help Su Zimo on the surface. However, he did not want to stand on the side of the Horse Monkey lineage either. The other monkey king seemed to have realized something and turned to look at the Heaven-breaking Ape King with narrowed eyes. "Why? You want to help this outsider?" With Su Zimo's support, monkey had already stood up. When he saw that the two monkey kings were about to make a move, he could not help but burst into laughter. "That's all you monkeys are capable of? To think that you need kings to deal with a True Spirit." The Horse Monkey True Spirits below could no longer hold themselves back and roared when they heard that. "There's no need for the two monkey kings to attack. We'll take revenge for Senior Brother Ma Xuan and eat his flesh and drink his blood!" "How dare an outsider behave atrociously in the Blood Ape World and kill our tribesmen? Tear him apart alive!" "AWOO! AWO!" Thousands of Horse Monkeys charged towards the battle platform, causing dust to billow. Hundreds of True Spirits of the Horse Monkey lineage channeled their blood qi and charged towards Su Zimo and monkey with menacing expressions! Instantly, the ground quaked and the weather changed! When the Sanguine Apes saw that, they were secretly speechless and could not bear to watch. With so many Horse Monkeys swarming forward, they did not even need to release their mystic skills. Their brute strength alone was enough to tear Su Zimo and monkey into pieces! Monkey clutched the wound on his chest and leaned on his rod, leaning back against Su Zimo. Looking at the overwhelming number of figures around him, there was no fear on his face as he grinned. "Bro, we can fight side by side again!"

At that moment, many images of Cang Lang Mountain Range flashed through monkey's mind. At that time, it was also the two of them who fought side by side against the endless amount of Ash Wolves. They supported each other and escaped from the jaws of death. The only difference was that this time round ... they could not escape. Su Zimo did not know what monkey was thinking. He glanced at the horseshoe monkeys that were surging with killing intent and shook his head slightly. He smiled and said, "A bunch of True Spirits want to kill me?" Back in the Celestial Tribute world, what kind of experts did he fight? In the Fiend Battlefield, the strongest True Spirits of the 3,000 worlds and the True Spirits of the Ten Sinners were gathered! Even with such a terrifying formation, Su Zimo was able to crush them with countless casualties. Right now, the hundreds of Horse Monkeys did not even have a supreme True Spirit. Coupled with the Earth and Heavenly Essence Horse Monkeys, he did not care about them at all! "You guys know nothing about my strength ..." Su Zimo murmured with a calm expression. Activating his Essence Spirit, he pointed at the void and said indifferently, "Six Paths of Reincarnation!" Before he finished his sentence, a gigantic abyss vortex appeared where his fingertip touched. It spread rapidly and filled the entire world! The world spun and spacetime was in chaos! Bloodlines, mystic skills, mystic skills and divine weapons were all forcefully pulled into the cycle of reincarnation. Even the Horse Monkeys that charged forward were devoured by the abyss vortex amidst their struggles and roars. Their True Spirits were destroyed! Neither the Heavenly Being True Spirits nor the Dongxu True Spirits could withstand the power of reincarnation! Back in the Fiend Battlefield, Su Zimo was only at the Kongming Stage. When he released the Six Paths of Reincarnation, even the first True Spirit, Xia Yin, could not withstand it. Now that Su Zimo had reached the peak of the Dongxu Stage, the power of the Six Paths of Reincarnation was even stronger than before. The Horse Monkeys charged forward like moths to a flame ... All the Blood Apes present were dumbfounded by this scene. They were scared silly and their minds went blank. This kind of power was released by a True Spirit expert? Tens of thousands of Horse Monkeys charged forward, but they could not even touch the corner of the green-robed cultivator's

robe, let alone tear him apart!

Large numbers of Horse Monkeys were devoured by the Six Paths of Reincarnation and buried in it. This scene was too terrifying! Even the eyes of the Sky-breaking Ape King and the other Blood Ape Kings twitched as their facial muscles twitched uncontrollably. Even if they attacked, they might not be able to cause such terrifying damage!

Chapter 2997

Ever since the calamity of the Sanguine Ape, the Sanguine Ape World suffered a great loss and was no longer as strong as it was in the past. The betrayal of the Horse Monkey lineage caused the Sanguine Ape World's situation to worsen. All these years, the Sanguine Ape lineage had been suppressed because they had too many reservations. Even in the battle arena, they did not dare to kill a single Horse Monkey. But now, apart from the fact that an outsider like Su Zimo had killed the supreme True Spirits of the Horse Monkey lineage, the supreme divine powers he released were like the scythe of the Grim Reaper that reaped the lives of the Horse Monkey lineage wantonly. It was not just one or two deaths – they were dying in droves! While the Sanguine Apes were shocked, they felt an indescribable joy in their hearts! "Good kill!" "Those spineless cowards! We should have killed them long ago!" Many Sanguine Apes hollered excitedly. To the Sanguine Apes, Su Zimo was an outsider and even if the Horse Monkey lineage wanted revenge, they could not take it out on them. The Heaven Breaking Ape King revealed a worried expression. Initially, Su Zimo had a chance to escape. But now that he had killed so many Horse Monkeys, the two Horse Monkey Kings beside him would definitely kill him! "How dare you!" The two Horse Monkey Kings were enraged as they roared and released two Grotto-Heavens to suppress the Six Paths of Reincarnation in the void. Boom! Boom! Boom! Boom! The two Grotto-Heavens suppressed the Six Paths of Reincarnation consecutively before they managed to defeat it and rescue some Horse Monkeys. As for the hundreds of Horse Monkey True Spirits that charged at the front, they were almost completely wiped out! Su Zimo's Six Paths of Reincarnation had killed all the Horse Monkey lineage's True Spirits! At the very least, it would be difficult for any True Spirit experts to rise from the Horse Monkey lineage for the next 100,000 years. When the Heaven Breaking Ape King saw the two Horse Monkey Kings attack, he could not bear to see Su Zimo die here. After pondering for a moment, he took a deep breath of air and stood in front of the two Horse Monkey Kings, saying in a deep voice, "Please calm down. This person is so arrogant and fearless. I'm afraid his background ..." "Scram!" How could the two monkey kings listen to this? They roared angrily at the Heaven-Breaking Ape King. The Heaven-breaking Ape King took advantage of the delay and hurriedly sent a voice transmission to Su Zimo, "Young friend, you have to leave now before it's too late!"

A monkey king stared at the ape king with a dark expression and said, "Potian, why are you protecting this person? Could it be that you ordered him to do this?" This crime was too serious! The Heaven Piercing Ape King couldn't bear it at all. If the Sky Piercing Ape King continued to obstruct the two of them, he would definitely draw trouble to himself. Apart from him, who knew how many clansmen of the Blood Ape Clan would suffer because of this! "Potian, come back!" The remaining three Blood Ape Kings hurriedly went up and dragged the Heaven-piercing Ape King back. The two Monkey Kings did not want to waste their energy on the Sky-Breaking Ape King. Their first target was the green-robed cultivator below! The Heaven Piercing Ape King glanced back and saw that Su Zimo still hadn't left. He couldn't help but shake his head. "That person's combat strength is indeed terrifying. However, his

reaction is a little slow and there's even less chance for him to escape now."Just as the Heaven Piercing Ape King lamented, the green-robed cultivator on the battle platform did not leave. Instead, he charged towards the two Monkey Kings!The Heaven Piercing Ape King was stunned.What was this person trying to do?Was he trying to die because he knew that he couldn't escape?"Die, you ant!"The two Monkey Kings were even more enraged when they saw Su Zimo charging towards them. They could not help but holler and release their own grotto-heavens to suppress him."You guys are not strong enough to kill me!"Su Zimo's eyes shone brightly as he released his innate mystic power, the Eight Fangs Divine Power, to raise his strength while channeling his Essence Spirit at the same time.Boom!The void behind Su Zimo collapsed and a faintly discernible grotto-heaven appeared.The sun and moon hung in the grotto-heaven while light and darkness coexisted. Day and night alternated and Yin and Yang fused together!Although it was only a phantom of a grotto-heaven, the power it released was not weaker than the two Monkey Kings' grotto-heavens!"A phantom of a grotto-heaven possesses such power?"The two Monkey Kings' hearts skipped a beat.No matter what, they were two Monkey Kings that joined forces to form two Grotto-Heavens – they were still able to gain the upper hand.

Boom!Before the two of them could react, the void behind Su Zimo collapsed once more and a gigantic tomb appeared. It was filled with a deathly aura and was filled with graves as though it wanted to bury everything.Every single grave had a sword stabbed into it!Within the deathly aura of the tomb was a sharp sword intent that could tear through everything!"What's this?"The two Monkey Kings widened their eyes.Another phantom of a grotto-heaven?Even a supreme Monkey King like the Heaven Piercing Ape King shuddered in disbelief, let alone two ordinary Monkey Kings like them.Su Zimo was only a True Spirit?What sort of methods were those?After leaving the Day and Night Land and entering seclusion in the flower world, Wu Dao's true body discussed the Dao with Die Yue.The two true bodies were connected mentally, and with the help of the Spirit Potency Art, Qinglian's true body had also benefited greatly.This Daluo Sword Tomb was the second phantom of a grotto-heaven that Qinglian's true body had comprehended while in seclusion in the flower world!The phantom of a grotto-heaven wasn't anything impressive.Half-step Kings could control the phantom of a grotto-heaven.However, the phantom of a half-step King only contained a wisp of grotto-heaven power and couldn't fight against a real grotto-heaven.None of the Kings present had heard of a phantom of a grotto-heaven that could fight against a real grotto-heaven like Su Zimo!The two Grotto-Heaven phantoms that Su Zimo had cultivated were simply too terrifying.There was no need to talk about the Yin Yang Grotto-Heaven. It contained the Yin Yang Talisman Scripture's Dao, the Candle Illumination, and the Dark Fluorescent Divine Stone.And the Daluo Sword Tomb contained the essence of two forbidden manuals, the Daluo Sword Manual and the Heaven Burying Scripture!Rumble!When the Daluo Sword Tomb descended, the two Horse Monkey Kings' grotto-heavens couldn't hold on and were on the verge of collapse!The two Horse Monkey Kings' grotto-heavens had consumed a lot of power to destroy Su Zimo's Six Paths of Reincarnation.Now that Su Zimo had brought out the phantom of the Yin Yang Grotto-Heaven and the Daluo Sword Tomb, the two Horse Monkey Kings couldn't resist at all!After holding on for a few breaths, the two Horse Monkey Kings' grotto-heavens completely collapsed.

The two Horse Monkey Kings were shocked and didn't dare to continue fighting with Su Zimo. They turned around and fled.But without the protection of their grotto-heavens, the two Horse Monkey Kings couldn't resist the power of the Yin Yang Grotto-Heaven and the Daluo Sword Tomb!The Yin Yang Grotto-Heaven spun and emitted a powerful suction force that slowly dragged one of the Horse Monkey

Kings into it. On the other side, the Daluo Sword Tomb descended. The soil that contained a deathly aura churned and instantly wrapped around one of the Horse Monkey Kings and buried him, forming a grave that was half the height of a person. The grave trembled. The Horse Monkey King was still struggling inside, trying to escape. At this moment, the phantom of a huge sword descended from the sky and landed on the grave! Splurt! Blood gushed out of the grave and dyed the soil red. There was no sound inside. The phantom of the huge sword was like a tombstone that was stabbed into the soil. The Daluo Sword Tomb didn't change much. It was just that there was an inconspicuous grave inside. It was the grave of a King.

Chapter 2998

Even the King of the Horseshoe Monkeys had been killed! More importantly, this Horseshoe Monkey King had the Heavenly Token and was the King of the Heavenly Token. No matter how many Horseshoe Monkeys Su Zimo had killed, they didn't have the Heavenly Token and weren't part of the Heavenly Token. But now, killing these two Horseshoe Monkey Kings was tantamount to starting a direct conflict with the Heavenly Token! In the eyes of the Ape King and the others, Su Zimo wasn't just causing a huge disaster, but directly piercing through the sky! "What is Yuan Huang's sworn brother's background? He's just a True Spirit, but he's able to cross a major realm and kill a King!" "This kid probably doesn't know the background of these two Horseshoe Monkey Kings. That's why he was so ruthless." "No matter what his background is, he won't be able to escape the Blood Ape Realm." "That's right. The Red Sea Monkey King must have sensed Ma Xian's death and probably already came out of seclusion. Not to mention, a Horseshoe Monkey King died!" The four Blood Ape Kings communicated with their Divine Wills. The battle wasn't over yet. The Daluo Sword Tomb buried one Horseshoe Monkey King, while the other Horseshoe Monkey King used all his trump cards and secret techniques to struggle against the Yin Yang Grotto-Heaven! But even after using all his methods, he could only delay for a moment. He couldn't stop the Yin Yang power at all. More than half of this Horseshoe Monkey King's body was devoured by the Yin Yang Grotto-Heaven. Seeing that he was about to die, he took the Heavenly Token from his waist. This Horseshoe Monkey King raised the Heavenly Token and reached out of the grotto-heaven with a terrified expression. "I-I'm the King of the Heavenly Token!" "Even the King of the Heavenly Token must die!" Su Zimo shouted and had no intention of stopping. He activated his Primordial Spirit and the power of Yin and Yang erupted, instantly killing this Horseshoe Monkey King! This Horseshoe Monkey King wanted to use the Heavenly Token to suppress Su Zimo and save his life before plotting revenge. He didn't expect Su Zimo to be so fearless after hearing about the Heavenly Token! Since he decided to attack, he naturally wouldn't show mercy. Even if he spared the Horseshoe Monkey King, he wouldn't let him go after it escaped! Even the four Kings of the Blood Ape Clan were shocked. "This brat knows that the other party is from the Celestial Tribute World, yet he still dares to kill?"

"He looks so young. Even if he has heard of the Celestial Tribute Realm, he probably doesn't know how terrifying it is." "What should we do? Are we just going to watch him kill, or ...?" The four Kings of the Blood Ape Clan communicated with their Divine Wills and hesitated. Naturally, they didn't want to be enemies with Su Zimo. However, if they allowed Su Zimo to go on a killing spree in front of everyone, it would be difficult for them to explain themselves when the Macaque lineage pursued the matter. "Roar!" At this moment, a furious roar came from behind the bloody mountain! "The Red Sea Monkey King has come out of seclusion!" The Sky-breaking Ape King's heart skipped a beat when he heard the howl. This Red Sea Monkey King was a peak King, Ma Xuan's father. He was also a Red

Bottomless Horse Monkey, but his body and bloodline were far superior to his son's. Amongst the kings of the Blood Ape Realm, this Crimson Sea Monkey King's combat strength was ranked number one! The Sky-breaking Ape King looked at Su Zimo, who wasn't far away, and said with a sigh, "I tried to persuade you to leave, but you didn't. Now, it's too late to leave." No matter how fast a True Spirit Movement Technique was, it couldn't escape the pursuit of a King. A Grotto-Heaven King could tear through the void and escape into a spatial tunnel. In the Sky-breaking Ape King's eyes, even if Su Zimo escaped now, he would be caught by the Red Sea Monkey King before he could leave the Blood Ape Realm! Su Zimo's expression was calm. He nodded slightly at the Sky-breaking Ape King before releasing a secret art. His left eye glowed, and his right eye shone with a black and white divine light. They formed a Yin Yang Twin Fish Diagram that spun continuously. Su Zimo took out the Taiyi Horsetail Whisk. With the jade handle as the shaft, the silver thread as the hair, and the True Yuan as the ink, he wrote a few strange runes on the Yin Yang Twin Fish Diagram. Then, he threw the Taiyi Horsetail Whisk into the black and white boundary of the Yin Yang Twin Fish Diagram. It merged perfectly with the diagram and disappeared. The void cracked open, and a spatial tunnel appeared. Taiyi Yin Yang Escape! Su Zimo grabbed the monkey and was about to step into the spatial tunnel to leave the Blood Ape Realm.

"Wait!" At that moment, a Blood Ape King frowned and shouted, "Leave Yuan Huang behind!" This Blood Ape King didn't have any ill intentions. However, in his eyes, Su Zimo had already offended the Celestial Tribute World. If he followed him, the monkey would most likely die. Therefore, his first reaction was to ask Su Zimo to leave the monkey behind. Su Zimo stood at the entrance of the spatial tunnel. He paused and glanced sideways. "Can you protect him?" The Blood Ape King fell silent and lowered his head. If today's matter was investigated, the monkey would definitely die if he stayed in the Blood Ape Realm! They didn't even dare to kill a Horse Monkey True Spirit, let alone protect the monkey's life. "Go!" The Sky Piercing Ape King urged with his Divine Sense. At the same time, he charged toward Su Zimo and shouted, "Where do you think you're going?!" Although the Sky Piercing Ape King charged over, he didn't actually use any techniques. He was just putting on an act. Su Zimo didn't stay any longer. He brought the monkey into the spatial tunnel and disappeared. Not long after he left, the void above the battle stage cracked open. A Horse Monkey King with a thick bloody aura walked out and looked around with a malicious gaze. It was the Red Sea Monkey King! "What happened?" The Red Sea Monkey King looked at the corpses and rivers of blood around him. Moreover, they were all from the Horse Monkey bloodline. His face couldn't help but turn gloomy. The Horse Monkey race's losses were too great! After seeing Ma Xuan's corpse on the battle stage, the Red Sea Monkey King's bloody aura became even stronger. His expression was cold, and his aura became much more violent. He slowly asked, "Who did this?!" Some of the horseshoe monkeys who were lucky enough to survive hurriedly ran over and recounted the scene that had just happened in detail. "Yuan Huang, Su Zimo?" The Red Sea Monkey King narrowed his eyes and murmured. Then, he glanced at the Sky Piercing Ape King and the other three Beast Kings and said coldly, "The four of you just stood by and watched, allowing an outsider to slaughter our Horse Monkey race. In my opinion, this Su Zimo or whatever was brought here by you!" "If you want to condemn someone, you can always find a pretext." The Sky Piercing Ape King sneered and said, "The entire process happened too quickly. Those two Beast Kings were killed before they could even last a single round."

"Moreover, that Su Zimo wanted to escape. We even tried to stop him, but we couldn't." Although the Red Sea Monkey King didn't see it with his own eyes, he could guess that the Sky Piercing Ape King and

the others wouldn't try their best to stop him!"Whether you want to condemn someone or not, I'll find out after I capture those two bastards and search their souls!"The Red Sea Monkey King sneered and said, "If this has anything to do with you, I'll bury ten times, no, a hundred times your Blood Apes!"

Chapter 2999

Hearing the Red Sea Monkey King's threat, the Sky-breaking Ape King sneered inwardly, but his expression did not change. Su Zimo had nothing to do with the Blood Ape race. Even if he did, that person had already escaped into the spatial tunnel. Even if the Red Sea Monkey King chased after him, he would not be able to catch up. "Roar!" The Red Sea Monkey King roared at the sky, summoning all the Horse Monkey Kings to gather here. Many Horse Monkey Kings came out of seclusion. Soon, seventeen Horse Monkey Kings arrived. Apart from the Red Sea Monkey King, there were two other Peak-tier Kings! The Sky-breaking Ape King looked on coldly. The cosmos was vast and boundless – it was possible for Su Zimo to escape in any direction. But in the universe, even the slightest deviation would cause the gap between them to widen. Even if the Red Sea Monkey King gathered 180 Kings, it would still be hard for them to catch up to Su Zimo, let alone eighteen Kings. The Red Sea Monkey King gave a simple description of what had just happened. When the seventeen Horse Monkey Kings saw what had happened, their faces turned green. They were furious and filled with killing intent! "Red Sea, those two have already escaped for a long time. How do we chase after them?" A Horse Monkey King frowned. "The universe is vast. If we scatter and search, it will be like searching for a needle in a haystack." The Red Sea Monkey King said, "Everyone, don't worry. If you follow me, we will be able to catch up to those two ants!" "Although that brat has already escaped, the escape technique he used involves Yin and Yang. There will be traces of Yin and Yang left behind in this place." "Traces of Yin and Yang?" The other Horse Monkey Kings frowned. They naturally could not see any traces of Yin and Yang with their Divine Senses. The Sky-breaking Ape King also revealed a confused expression. But soon, he realized that something was wrong. The Red Sea Monkey King had already awakened the complete Redbone Horse Monkey bloodline. It was said that it understood Yin and Yang, understood human affairs, and avoided death. Others might not be able to see any traces of Yin and Yang, but it could not escape the Red Sea Monkey King's eyes! At this moment, the Red Sea Monkey King's eyes started to change. His left eye turned black and his right eye white. It turned into a pair of Yin and Yang eyes that could see through the void and capture traces of Yin and Yang.

"Everyone, follow me!" The Red Sea Monkey King said in a deep voice. The Sky-breaking Ape King's eyes flickered. Just as he was about to step forward, a Blood Ape King stopped him and shook his head. "Potian, we can't do anything about this!" The Blood Ape King said telepathically. The Heaven Breaking Ape King frowned and said, "If Chi Hai and the others chase after them, Yuan Huang and Yuan Huang will definitely die. Are we just going to sit by and do nothing?" "That Su Zimo's identity and background are unknown. Let's not act rashly," another Blood Ape King said. The Heaven-Piercing Ape King said, "Even so, that Su Zimo did help us vent our anger, and Yuan Huang is also one of our clansmen ..." "Potian, you have to understand that Su Zimo killed the king of the Celestial Tribute World. He's already committed a heinous crime." The first Blood Ape King said in a serious tone, "If we interfere, we'll definitely be used against us. Chi Hai and the others will definitely use this chance to accuse us of being sinners." "When that time comes, we'll probably be locked up in the War Sin Land and never see the light of day again!" The other Blood Ape King said, "Back then, the Sector Lord suffered great humiliation and bowed to the Celestial Tribute World in order to protect us. We can't let him down." The

Sky-breaking Ape King clenched his fists and didn't say a word. He slowly lowered his head. Deep within the Blood Ape World. An old ape slowly stood up. A hint of hesitation flashed through his muddy eyes. "Sector Lord?" The Blood Ape King below him realized what the old ape was thinking and hurriedly said with his Divine Sense, "Don't be rash!" Just as the old ape was about to move, he suddenly sensed two powerful Divine Consciousness pressures enveloping him. The old ape closed his eyes and stood still for a long time. Finally, he sighed and sat back down. "Those two juniors ... What a pity." The old ape said in his heart.... Su Zimo led monkey through the dimensional tunnel and changed direction multiple times. They only stopped after three days. The two of them chatted a lot during the three days. Both of them talked about their experiences after ascending. Su Zimo talked about the tiger, Qing Qing, the Golden Lion, Little Fox and the others. He also mentioned the Night Spirit.

However, ever since he received some news about the Night Spirit in the Celestial Tribute World, there was no news. There was no other reason for him to stop temporarily, other than the fact that the monkey's injuries were very serious. Monkey's bloodline was only in its initial awakening. Coupled with the fact that Ma Xuan was extremely heavy-handed, monkey's bloodline and elixirs did not show any signs of recovery for the past three days. After all, his physique did not have the recovery capabilities of a rank-12 Creation like Qinglian. Monkey was excited to be reunited with Su Zimo but was unwilling to rest. Instead, monkey's condition worsened over the past three days. Monkey's injuries could not be dragged on any longer. Furthermore, the two of them were already far away from the Blood Ape World and should be out of danger. Su Zimo found a lifeless star nearby and landed there. He opened up a cave abode to treat monkey's injuries. Although monkey's injuries were severe, they were not troublesome for Su Zimo. Making use of the Qinglian bloodline, Su Zimo released his lotus finger and sent streams of rich and pure lifeforce into monkey's body. Monkey's injuries healed gradually at a faster speed. Around the ghastly bloody hole in his chest, tender granulation was also growing crazily, entangling and connecting together. At this rate, monkey would be able to recover more or less in less than a day. Monkey recuperated in the cave abode while Su Zimo guarded at the side and rested with his eyes closed. About four hours later, Su Zimo sensed something and suddenly opened his eyes, frowning! Just a moment ago, a sense of danger suddenly rose in his heart, but it quickly disappeared. It was like a sudden impulse, or maybe it was just an illusion. At his cultivation realm, a sense of danger as such would definitely not appear out of nowhere, especially with the help of his spirit perception! Monkey's injuries had yet to recover. Su Zimo pondered for a moment before waking monkey up and sending a voice transmission, "We can't stay here for long. Let's leave immediately." When monkey saw Su Zimo's grim expression, it realized that something was wrong and bounced up from the ground. After the two of them left the cave abode, Su Zimo raised his head and his pupils constricted slightly!

According to his senses, there were at least ten Kings hiding around this star! Su Zimo channeled his spirit consciousness and released the phantom of the Yin Yang Paradise, preparing to tear through the void and escape with monkey. "How dare you think of escaping, you two little beasts!" Suddenly, a roar reverberated through the world. Immediately after, a huge hand covered in long hair descended from the sky, emitting a destructive aura that enveloped the two of them!

Chapter 3000

Rumble! The hairy hand exploded with a suffocating aura. It was thick and vigorous, and before it truly descended, the mountain range beside Su Zimo had already begun to collapse! The huge star beneath

their feet began to tremble continuously, and huge cracks appeared on the ground. The earth quaked and the mountains swayed! The place where the two of them were slowly collapsing, and a huge five-fingered palm print appeared! Too strong! This power could even destroy this star. It had completely exceeded the range that Su Zimo could withstand! The person who attacked was definitely a pinnacle King, even stronger than the Earth Roc King he had killed before! After all, the Earth Roc King was a King past his prime, and the one who attacked was clearly in his prime. Outside the Day-Night Land, Su Zimo had personally killed two pinnacle Kings. However, this did not mean that he could fight against a pinnacle King head-on. The difference between the two was too great, an entire realm! Back then, the main reason why he could succeed was because Immortal King You Lan was restraining him. Now, the hairy hand had descended and sealed all the space between Su Zimo and the Earth Roc King. The spatial tunnel that he had just opened was crushed by the hairy hand, and he could not escape. Su Zimo activated his Essence Spirit and released another Grotto-Heaven phantom. Behind him, two Grotto-Heaven phantoms, the Yin Yang Grotto-Heaven and the Zenith Heaven Sword Tomb, appeared! Even so, they were still unable to resist the power of the hairy hand. The two Grotto-Heaven phantoms had just appeared when they collapsed! However, Su Zimo was still not done with his technique. Eight Fangs Divine Power, Four Heads, Eight Arms, Immortal Slaying Sword, Dragon Elephant, Six Paths of Reincarnation, Instant Youth, Spacetime Imprisonment, Vermillion Bird Skyfire, Limitless Yin and Yang ... Nine supreme divine abilities instantly burst forth! The person who attacked just now was the Red Sea Monkey King who was chasing after Su Zimo. The Red Sea Monkey King sensed Su Zimo's counterattack, and a hint of shock appeared in his eyes, followed by mockery and contempt. A single True Spirit comprehended nine unmatched divine abilities, and could even release them at the same time. This was simply unprecedented, and it truly left him shocked. However, no matter how strong the supreme divine abilities were, they could not threaten him. Even when the nine supreme divine abilities were stacked together, it was of no use.

He didn't even need to use his Scarlet Sea Cave to crush this ant to death! In his opinion, Su Zimo's counterattack was nothing more than the desperate struggle of a trapped beast, a mantis trying to stop a chariot. As expected. The Red Sea Monkey King only felt a slight resistance and pain when the nine supreme abilities combined with the two Grotto-Heaven phantoms clashed against his giant palm. He channeled his Qi and blood slightly, and the discomfort disappeared without a trace. The giant palm continued to press down! Suddenly! The Red Sea Monkey King seemed to have sensed something, and its expression changed. Its huge palm trembled, and it subconsciously withdrew! His lifespan was decreasing at an alarming rate! He was now three hundred and seventy thousand years old. He still had more than six hundred thousand years of lifespan left before reaching a million years old. But in that instant, he had already lost a hundred thousand years of his lifespan! Just as he was retracting his hand in shock, he lost another 100,000 years of his lifespan! In the blink of an eye, two hundred thousand years of lifespan had disappeared without any signs of recovery! The Red Sea Monkey King couldn't care less about Su Zimo below. With a furious roar, he instantly released his perfected Grotto-Heaven, and a sea of blood appeared behind him. With the arrival of the perfected Grotto-Heaven, the loss of lifespan finally stopped, and the crisis was resolved. But even so, he had lost a total of two hundred thousand years of lifespan! Furthermore, the Red Sea Monkey King was completely baffled and didn't know how he had fallen for it. Su Zimo, who was below, lamented internally when he saw that. In fact, he also knew that even if the nine supreme divine abilities were stacked together, they would not be able to injure a pinnacle King. The reason why he released all of them was because he wanted to hide the Fleeting Youth

within so that no one would notice. Only this supreme divine ability could pose a threat to a pinnacle King! The Red Sea Monkey King was indeed hit, but he reacted extremely quickly. He held up his perfected Grotto-Heaven and used an even stronger Dao technique to erase the Fleeting Youth, escaping from the crisis. Most of the time, Su Zimo would choose opponents who didn't have much lifespan left to release the Fleeting Youth. Only then would he have a higher chance of killing them in one strike.

For a pinnacle King like the Red Sea Monkey King, even if he lost two hundred thousand years of his lifespan, he would still be in peak condition and his battle prowess would not decrease! "Let's go!" Su Zimo shouted softly, and two divine stones appeared in his eyes. He released the Taiyi Yin-Yang Escape Art and prepared to escape. In such a battle, the surrounding space would be distorted and shattered. Even a Grotto-Heaven King would find it difficult to build a spatial tunnel and leave at will. However, the Taiyi Yin-Yang Escape Art was not restricted. "Hmph!" "You want to leave?" Just as the Taiyi Yin-Yang Escape Art was released, two reprimands came from both sides. The next moment, a pitch-black staff descended from the sky, emitting an ear-piercing sound. It was powerful and heavy as it smashed toward the top of the monkey's head! The corners of Su Zimo's eyes twitched violently. The power of this staff had clearly reached the level of a pinnacle King! The second pinnacle King had arrived! He was already unable to resist a single peak king, let alone two peak kings. Moreover, there were at least ten Kings eyeing this star covetously! Before he could react, he suddenly felt his heart palpitate! A large spear pierced out from the side, piercing through the air, heading straight for his chest. Before the spear arrived, he could already smell a strong aura of death! The third pinnacle King! The two pinnacle Kings targeted Su Zimo and the monkey respectively. Their attacks were sharp and filled with killing intent! If they could not withstand this attack, both of them would die on the spot, let alone escape! In the blink of an eye, the two of them were on the verge of death! The monkey had yet to recover from its injuries and was completely helpless against the attacks of the pinnacle Kings. Even so, it still released its bloodline and its eyes were filled with battle intent. Against the pinnacle Kings, the monkey was still fearless and roared loudly! However, the difference in strength between the two parties was too great. Before the staff of the pinnacle King descended, the wind created by the staff alone was enough to shatter the Thousand Ton Staff in the monkey's hands! An Eighth Tribulation Numinous Treasure was completely useless against a Grotto-Heaven Numinous Treasure.

Swoosh! Right then, a tsunami surged within Su Zimo's body as he channeled his bloodline to its limits. A gigantic jade green Qinglian burst forth from behind him and soared into the skies in an insufferably domineering manner! The 12 circles of lotus leaves bloomed continuously and the Qinglian swayed, causing the cosmos to tremble. Su Zimo's Bloodline phenomenon, the Grade 12 Creation Qinglian! "Eh?" The descent of this bloodline phenomenon instantly drew a few exclamations of bewilderment. The gigantic lotus leaves shielded the monkey's head and protected him beneath them. At the same time, Su Zimo channeled his Essence Spirit and released his secret skill once more. His left eye was pitch-black and his right eye was pure white, releasing two beams of light, one black and one white, that landed on the Primordial Unity Horsetail Whisk in his hands. Su Zimo wrote 12 mysterious runes in the void rapidly. "Six Ding Six Jia Shu, Deities and Ghosts shall disperse!" Su Zimo hollered. The 12 runes transformed into 12 Heavenly Gods with terrifying auras around him. There were six men and six women – it was the Primordial Unity secret skill, Six Ding Six Jia Gods!
