

Sacred King 3031

Chapter 3031

The Tomb Keeper acted as if he hadn't heard the Martial Dao Body's question. He continued, "The two of you are indeed at the peak of the Martial Emperor realm. However, there is only one Great Emperor in the Middle World." "Other than you, the other peak Martial Emperors have the chance to prove their Dao. If they don't become Martial Emperors, they won't be able to fight against the Heavenly Court." The tomb keeper was obviously avoiding the question of the Lord of the Underworld. With the Tomb Keeper's identity and background, if he didn't want to answer, no matter how the Martial Dao True Body asked, it would be useless. Moreover, the Martial Dao Body had already sensed that the tomb keeper had the intention to leave. He ignored the Lord of the Underworld and asked again, "Where does the River Styx come from? Even if it is the Six Paths of Reincarnation, where are the Heavenly Dao and Human Dao?" The tomb keeper ignored Wu Dao's question and continued, "Today's battle should have attracted the attention of those in the Heavenly Court." "Of course, you haven't become a Martial Emperor, so they might not take you seriously. This is your chance. Be careful in the future. Before you become a Martial Emperor, try not to make such a big scene ... " "See you again." Without waiting for the Martial Dao Body to ask anything, the Tomb Keeper's figure had already disappeared into the darkness. The world formed around the Tomb Keeper was also dispersing at any moment. The surrounding battlefield was a mess. Martial Emperors' blood dyed the sky red, and many Martial Emperors' corpses floated in the sky. While Wu Dao and the other two were talking, the Divine Elephant Demon Emperor, the Nine-Tailed Demon Emperor, and the other Martial Emperors of the Eastern Wilderness had already led the people of the Eastern Wilderness to clean up the battlefield and collect the treasures. Although their world was broken and their combat power was greatly reduced, they could still do some cleaning up work with ease. When Wu Dao and Die Yue reappeared in the sky, the Divine Elephant Demon Emperor and the Nine-Tailed Demon Emperor went to greet them and handed over the many storage bags and treasures they had obtained from the battlefield. Wu Dao picked a few storage bags and was about to give them to the tiger, little fox, and the others, when he gave the rest to Die Yue. Die Yue shook her head slightly and took out a storage pouch. "I need some Origin Stones to repair the world. The rest is of no use to me." At Die Yue's level, whether one could prove their Dao as a Great Emperor or not, one needed to have a deeper understanding of the Dao and some hidden opportunities.

Wu Dao's real body took out a few storage pouches and gave them to the Divine Elephant Demon Monarch, Nine-Tailed Demon Monarch, and the other five demon monarchs of the East Barren before keeping the rest. The Divine Elephant Demon Monarch, the Nine-Tailed Demon Monarch, and the others were overjoyed when they received the storage pouch. One had to know that in each pouch, there were not only the treasures of the Emperor realm cultivator, but also the World Fragment of the Emperor realm cultivator! The Imperial Lords of the Heavenly Courts had even more treasures in their storage bags. There were even some Origin Stones in the storage pouches that Wu Dao's main body had given them! With the help of these cultivation resources and treasures, not only could their worlds be repaired smoothly, but they could also improve their cultivation realms! With the end of this battle, the Great Wilderness finally regained its long-lost peace. In Butterfly Valley, Wu Dao's main body and Die Yue returned hand in hand. "What do you think of the Demon Lord's words?" Wu Dao's main body asked. Die Yue pondered for a moment and said, "He must have held back and didn't tell us everything. He even

deliberately avoided some questions." "That's right." Wu Dao's main body nodded. The tomb keeper's appearance had indeed solved many of his doubts. However, there were still too many unknowns about the tomb keeper's origin, the four dao's origin, and the Underworld. The only thing that could be confirmed was that the Demon Lord, the Evil Monarch, and the Nine Great Emperors of the Heavenly Courts all came from the Great Thousand Domains and were above the Great Emperor realm. That was why he dared to claim that he had an endless lifespan and would never die. As for why the Demon Lord and the others fell from the Great Thousand Domains, he had no idea. As for what Die Yue said about the tomb keeper holding back, Wu Dao's main body could also feel it. At least in the War of the Heavens, the Demon Lord's side might not be doing it for the tens of thousands of living beings in the Middle World. They might have their own motives and selfish motives. Die Yue continued, "Although he held back and even hid some things, his words are trustworthy." Wu Dao's main body nodded.

After this interaction, he felt that the tomb keeper was rather magnanimous. There were some things that the tomb keeper did not want to answer and would avoid talking about. At least, he did not choose to lie. Moreover, many of the information that the tomb keeper said could be corroborated with the information that Wu Dao's main body had received. After returning from Hell, Wu Dao's main body knew about the situation with Qinglian's main body. He also knew that Qinglian's main body had entered the tomb of the Great Battle Emperor and obtained the inheritance of the Battle Catalog. The last move of the Battle Catalog was called Battle of the Nine Heavens. When Qinglian's main body first saw the name, she did not think much of it. It was only when the tomb keeper said those words that she understood that the Nine Heavens of the Battle of the Nine Heavens really had nine heavens! The Battle Soul, Battle of the Ten Thousand Races, Battle of the Universe, Battle of the Past and Present. This last move was used by the Great Battle Emperor against the Heavenly Court! And those 'Jun' tokens that were left behind on the Path to Heaven belonged to the powerhouses of the Great Sky of the Nine Heavens. Wu Dao's main body recalled the figures of those Great Emperors during the Ten Tribulations of the True Martial Realm and could not help but sigh softly. "These ancient Great Emperors sacrificed their lives to conquer the Nine Heavens just to break the cage and give all living beings a chance to ascend." "But in exchange, they were slandered for countless years. Some of the descendants of the Great Emperors were even imprisoned in the Sinful Grounds of the Evil Demons. They were cursed and scolded for all eternity, slaughtered by tens of thousands of races, never to see the light of day again ..." Wu Dao's main body was sorrowful. "Even if the matter of the Nine Heavens was made public now, how many people would believe it? How many people would believe the Demon Lord's words?" Die Yue was silent. To her, it was very easy to distinguish whose words were more trustworthy. Because one side had been trying to cover up the truth for countless years, erasing all traces of the past. To Wu Dao's main body, there was another reason why he was more willing to believe the Demon Lord. It was because of those ancient Great Emperors! Even if the Demon Lord and the others failed to conquer the Heavens, they could still be reborn. And once the ancient Great Emperors of the Middle World died, it meant that their bodies and Dao were gone.

They knew that this path was very dangerous, and they might not even be able to return. But they still did not hesitate to conquer the Nine Heavens! "These ancient Great Emperors were the top geniuses that emerged in the long river of time." Wu Dao's main body said, "They might not have been unable to see that the Demon Lord and the Evil Emperor had other motives. But they still made this choice." Die Yue said, "Because the Heavenly Court should not exist. The existence of the Heavenly Court is the

greatest evil! "The two of them looked at each other and understood each other's thoughts. At this moment, the two of them made the same decision as those ancient Great Emperors! Conquering the Nine Heavens! For themselves and for all living beings!

Chapter 3032

"What are you thinking about?" Die Yue could not help but ask when she saw that Wu Dao's main body would occasionally fall into deep thought. Wu Dao's main body said, "Something happened on Qinglian's side." The two main bodies were communicating with their Divine Wills. Die Yue also knew about the existence of Qinglian's main body, so she asked, "Danger? Where?" "Wu Dao's main body said, "Over at the Blood Ape Realm." Die Yue frowned and said, "Then I'm afraid it's too late. Even a peak Imperial Emperor would need nearly a day to rush there." "It's fine. Qinglian should be able to handle it herself." Wu Dao's main body smiled faintly and said, "Even if there's danger, I can rush over in time. I can arrive in a flash." "You can rush over to the Blood Ape Realm in a flash?" Die Yue was rather surprised when she heard that. "Yes." Wu Dao's main body nodded. Die Yue said, "Normally, this is the method of a Great Emperor." "Only a Great Emperor who has proven their Dao and left their Dao Seal in a Middle World can their Divine Wills envelop every corner of the Three Thousand Realms and arrive in a flash." Even a peak Imperial Emperor would need at least a day to cross countless realms and billions of galaxies. However, once a Great Emperor became one, their Divine Wills would increase exponentially and envelop the Three Thousand Realms. With their Dao Seal, they could descend to any place in the Three Thousand Realms in a flash. This was the terrifying strength of a Great Emperor! The difference and difference between the two was like the abyss. Therefore, Die Yue found it hard to believe. "This is the method of a Great Emperor?" Wu Dao's main body was slightly startled and said, "I cultivated ten Gates of Hell in my Martial Cultivation Universe. If ten gates are opened at the same time, they can indeed break through the spatial barrier and descend to any place in the Three Thousand Realms. "It was also because of this that Wu Dao's main body could return to the Great Wasteland World directly from Hell. Ten Gates of Hell! Die Yue had seen the power of the Ten Gates of Hell. Even the Constellation Imperial Emperor could not withstand it and was shattered into pieces. However, she did not expect the Ten Gates of Hell to have such a use.

In reality, the mystical abilities of the Ten Gates of Hell did not stop there. When Wu Dao first formed the Frost Hell Gate, his true body hadn't entered the Great God Realm yet. Therefore, he couldn't control the entire Frost Hell Realm through the Frost Hell Gate and sense the situation inside. And now, the Ten Gates of Hell were connected to the Nine Hells and the Avici Hell! Wu Dao's true body could even sense the consciousness of the two great emperors trapped in the deepest part of the Avici Hell through the Door of Avici. Of course, it was impossible for Wu Dao's true body to release these two consciousnesses. He would not choose to erase these two consciousnesses. This was because if he 'killed' the consciousnesses of the Flame Heaven Emperor and the Lord of Hell, it would be equivalent to saving them and allowing them to be reborn! He wouldn't act rashly before he had a way to kill the Flame Heaven Emperor and the Lord of Hell. However, he could use the Ten Gates of Hell to make some other arrangements. Wu Dao's true body had once said that he would provide greater opportunities to the people of Hell. He could even guarantee that Hell Master Ku Quan would not die. He was referring to this arrangement. He could use the Nine Gates of Hell to send the Grotto-Heaven experts of the Nine Hells into the Middle World! These Grotto-Heaven Kings had been stuck at the Grotto-Heaven Realm for many years. It was only because of Hell that they were unable to break through. If these Grotto-Heaven

Kings and Quasi-emperors were brought into the Middle World, most of them would step into the Emperor Realm as long as they were given some time! Hell Master Ku Quan's lifespan would also increase dramatically because of this. At that time, the overall strength of this army of Hell would be raised to a whole new level! In fact, the gap between the two true bodies had been getting bigger and bigger since they started cultivating. Qinglian's true body seemed useless, but in Su Zimo's heart, Qinglian's true body had an irreplaceable position and function. Qinglian's true body was his escape route. Wu Dao's true body was an Anomaly. It was too special. Even the Dao that he cultivated was unprecedented. Wu Dao's true body had once flashed with an extremely terrifying sense of danger. Su Zimo didn't know when that kind of danger would descend!

Even without this kind of danger, the expedition to the Heavenly Court was still a narrow escape. After all, in the past few epochs, none of the Emperors had succeeded. If this expedition to the Nine Heavens failed again, with Wu Dao's true body around, he could at least protect Die Yue if he risked his life. Even if Wu Dao's true body died, he and Die Yue would still have a chance to be together. Of course, this was also his own selfishness. These were just preparations for a rainy day. Everything was still unknown. At this moment, another matter flashed through the mind of Wu Dao's true body. In the previous battle with Emperor Azure Flame and the others, he had casually killed many Celestial Realm Emperors. Among them, when two monkey kings died, a wisp of dark green light had appeared. At that time, the battle was in full swing, so he didn't think too much about it. Now that he thought about it, that power should have originated from some kind of Witch Curse! Why would the two Celestial Realm Emperors have the Witch Curse on them?... That day, Elder Tie Guan and the others couldn't bear to see the Blood Butterfly Demon Empress being ganged up on and bullied, so they returned to the Sword Realm early. A few days later, the eight Peak Lords of the Sword Peaks arrived together. They barged in recklessly without any notice, and all of them looked shocked. "Something big has happened in the Great Wilderness Domain!" Lu Yun said with a pale face. "Calm down!" The skinny elder frowned and glared at Lu Yun and the others. "You're all Peak Lords of the Sword Peaks. Look at you, what are you doing?" "We've known about this for a long time." The old man with the iron crown sighed softly and said, "I don't know why that Demon Monarch Xue Die offended the power behind the Celestial Tribute World. She fought against a hundred Imperial Emperors alone and even managed to kill five of them before she died. It wasn't easy at all and she died with honor." "Since ancient times, none of the realms that fought against the Celestial Realm were spared. What a pity for the great wilderness." The fat elder also sighed. The eight Peak Lords were stunned as they looked at the three Celestial Realm Emperors. "Uh ..." Lu Yun muttered. Lu Yun mused, "Of the three realm lords, the Blood Butterfly Empress is still alive..."

"Hmm?" Elder Tie Guan frowned. "What did you say? She's not dead? Did she escape from a hundred Celestial Realm Emperors?" "She didn't escape ..." Lu Yun gulped. "I heard that her dao partner, the one with the dao name 'Araki Takeshi', is back." "What's the use of Araki Takeshi coming back?" The skinny old man snorted coldly before Lu Yun could finish. Lu Yun continued, "Araki Takeshi came back and killed dozens of Celestial Realm Emperors single-handedly. The Celestial Realm suffered heavy casualties and returned in defeat. I heard that the blood of emperors dyed the galaxy red in that battle. It was extremely tragic!" Elder Tie Guan and the others jumped to their feet. "What?!" Elder Tie Guan's eyes widened in disbelief as he exclaimed. "Calm down, Realm Lord ..." Lu Yun coughed softly. Elder Tie Guan and the others blushed. They knew that Lu Yun wouldn't lie about something so important. "Has Araki Takeshi already proven his dao as a great emperor?" Elder Tie Guan immediately thought of a

possibility. But soon, he shook his head. "No, if he has proven his dao as a great emperor, everyone in the three thousand realms should have sensed it." "Tell us, what's going on!" The three elders took a step forward and pulled him over, asking in a low voice. Almost at the same time, all the major realms received the news, causing an uproar. All the emperors and races were shocked!

Chapter 3033

Sword World. Lu Yun and the others recounted the various rumors they'd heard in detail, but the three old men were still unsatisfied and sighed wryly. "Why did we come back? If I had known, I would have stayed a little longer." The fat old man grumbled. The many scenes of the battle had been spread by countless people. Even so, everyone was still shocked and excited when they heard it! One person single-handedly defeated nearly a hundred Imperial Emperors! What kind of combat strength was this? The skinny old man was speechless and said, "This Araki Takeshi is really fearless. He even killed many of the Celestial Court's experts behind the Celestial World." Before Qinglian's true body left the Sword World, she had talked a lot with the three old men and mentioned the existence of the Celestial Court. The fat old man analyzed, "This Araki Takeshi is fearless. It's very likely that he has the support of an expert like the Demon Lord." Lu Yun said, "Emperor Araki Takeshi became famous in one battle and shocked thousands of races. I'm afraid that he's the most likely expert to become a Great Emperor in this era." "Not necessarily." The old man shook his head and said, "It's not that simple to become a Great Emperor." "This Araki Takeshi is the strongest, but he might not be able to become a Great Emperor. To be more precise, any peak Imperial Emperor in the Three Thousand Worlds can take that step." "At least that Demon Empress Xue Die has a very high chance of becoming a Great Emperor." The fat old man sighed, "If the two of them become Dao companions, as long as the Great Emperors don't come out, they can probably do whatever they want in the Three Thousand Worlds." "I really didn't expect this." The skinny old man sighed, "I thought that Demon Empress Xue Die was already a ruthless person. Who would have thought that there's someone even more ruthless behind her!" Yu Lan asked, "Both of them are so powerful. Do they have a chance to become Great Emperors at the same time?" "Absolutely not!" The old man shook his head and said, "You haven't stepped into the Great Emperor Realm, so you don't understand the reason. Since ancient times, only one Great Emperor can be born in each era. There has never been a situation where two Great Emperors exist side by side!" "As long as this Great Emperor doesn't die and his Dao seal doesn't vanish, no one else will ever be able to become a Great Emperor."

The fat old man seemed to have thought of something. He looked at the eight Peak Leaders of the Sword Peaks and asked, "Any news about Su Zimo recently?" Lu Yun and the others shook their heads sadly. The old man with the iron crown had a conflicted expression. "Su Zimo possesses the Grade 12 Creation Green Lotus bloodline and has comprehended nine supreme divine powers at the True Self realm. That's unprecedented." "If he's given enough time, he'll definitely have the chance to become a Great Emperor in the future ..." "It's just that in this generation, experts like Araki Takeshi and Die Yue are too dazzling. I'm afraid a Great Emperor will be born before he grows up." ... There was a strange black hole floating in the boundless starry sky. The battle of the Great Wilderness had caused a huge commotion in the Three Thousand Realms. Only this strange black hole was completely silent, isolated from the rest of the world. Inside the black hole, there was a path to heaven. At the end of the path, there was a huge pitch-black stone pillar. Around the stone pillar were eighteen Grotto-Heavenly Kings. Three of them sat at the very front. They were all peak Kings and were taking turns to refine the

pitch-black stone pillar. Two hundred and eighty years had passed. The Red Sea Monkey King had long made up his mind. Even if he had to spend thousands or even tens of thousands of years here, he wouldn't hesitate! This Great Emperor Divine Weapon was secondary. Most importantly, it was very likely that the Great Emperor Divine Weapon contained the inheritance left behind by the Douzhan Emperor. The taboo secret manual, the Battle Catalog! Among the people trapped inside, one of them had the bloodline of the Grade Twelve Green Lotus of Creation, which was also a rare treasure. Inside the pitch-black stone pillar. More than a hundred years ago, Su Zimo and the monkey had already obtained the inheritance of the Battle Catalog. The monkey had entered the blood pool containing the Long-armed Blood Ape to receive the baptism and inheritance. Su Zimo sat before the Douzhan Emperor's grave and comprehended the secrets of the Grotto-Heaven. In fact, back in the Day-Night Land, when he had just entered the Dongxu Realm, he had the chance to take another step and enter the Grotto-Heaven Realm! However, after weighing the pros and cons for a long time, Su Zimo did not take that step.

His Dao Fruit had yet to reach the Great Circle. However, he had a bold and even crazy idea! Su Zimo had been cultivating for so long with the help of the Creation Qinglian Bloodline. He was able to cultivate the Immortal, Buddhist, Fiend, and Demon Daos. These four Daos did not conflict with each other at all. They all became his creations. For the Immortal Dao, he had the taboo secret manuals, the Three Pure Jade Manual and the Daluo Sword Manual. He also had the Supreme Profound Spirit Big Dipper Sutra and the Void Thunder Manual. For the Buddhist Dao, he had the taboo secret manual, the Prajna Nirvana Sutra. He also had the Great Vajra Chakra Seal and the Great Mount Meru Seal. For the Fiend Dao, he had the taboo secret manual, the Sky Burying Sutra. For the Demon Dao, he had the Mystic Classic of the Twelve Demon Kings of the Great Wilderness that Die Yue had imparted to him. He also had the Battle Catalog that he had just cultivated. He also had the secret manuals of the Azure Dragon, Vermilion Bird, White Tiger, Black Tortoise, and other sacred beasts. He had fused nine supreme divine powers into his Dao Fruit! At the very least, at the True Self realm, he was incomparably strong and shocked the past and present! Su Zimo was prepared to enter the Grotto-Heaven realm. However, he did not intend to form a single Grotto-Heaven, but five! The immortal, Buddhist, Demon, Daluo Sword Tomb and Yin Yang Grotto-Heaven! In the Fiend Dao, he only cultivated a single taboo secret manual that was slightly weaker. Coupled with the Daluo Sword Manual, he would be able to form the Daluo Sword Tomb that represented the Fiend Dao! This was a thought that he already had when he was in the Land of Day and Night. If he could successfully form five Grotto-Heavens right after entering the Grotto-Heaven realm, his combat strength would definitely increase exponentially and reach an extremely terrifying realm! Since ancient times, no one had ever done such a thing. That was because it was impossible. The amount of power required to form five Grotto-Heavens was way too immense. Even if his Dao Fruit fused nine supreme divine powers and cultivated to the perfected state, the power he could release would only be able to help him form two Grotto-Heavens at most. It was practically impossible for him to form five Grotto-Heavens. When Su Zimo found out that this was the tomb of the Douzhan Emperor, he thought of a solution.

Now that he had accumulated for more than a hundred years, the time was ripe and he had once again grasped the opportunity to enter a Grotto-Heaven! Boom! This time round, Su Zimo no longer hesitated. The Dao Fruit flew out of his glabella and exploded under the control of his spirit consciousness. An extremely terrifying power burst forth and tore the void apart instantly, creating a

gigantic black hole that reached the heavens! Su Zimo's eyes widened and were bloodshot. Using his spirit consciousness, he tried his best to control the massive power and split the black hole in the void into five! Apart from the terrifying power that burst forth from the Dao Fruit, all the Dao arts that were initially fused into the Dao Fruit were released at this moment. Su Zimo split those Dao arts rapidly and sent the Dao arts that represented the immortal sects into the first Grotto-Heaven. He fused the Dao arts that represented the Buddhist sects into the second Grotto-Heaven. The first two Grotto-Heavens absorbed almost all the power released by the Dao Fruit and gradually stabilized. However, the remaining three Grotto-Heavens did not have enough power to support them and were already showing signs of collapse!

Chapter 3034

Su Zimo channeled the Heaven Burial Sutra hurriedly and absorbed energy from the tomb of the Great Emperor endlessly, surging it into the third and fourth Grotto-Heavens. At the same time, he fused the Demon Sect's Dao technique and thousands of resplendent runes into the third Grotto-Heaven. The tomb of the Great Emperor was where demons were buried. There was no resistance towards the formation of the Demon Sect's Grotto-Heavens. The fourth Grotto-Heaven was the Zenith Sword Tomb that represented the fiend Dao. The Zenith Sword Tomb contained the intent of burial to begin with and was similar to the Dao technique of the Great Emperor's tomb. Hence, it was only a matter of time before he made use of the power of the tomb to support the fourth Grotto-Heaven! However, the fifth Grotto-Heaven was the Yin Yang Grotto-Heaven. It was difficult for the power of the Great Emperor's tomb to be fused into it. Su Zimo was long prepared and channeled the two divine stones, Illumination and Nether Glow, in his eyes. Two divine lights, one black and one white, were injected into the fifth Grotto-Heaven that was about to collapse and fused with the Yin Yang Dao technique within. He made use of the two divine stones to support the fifth Grotto-Heaven! The five Grotto-Heavens had just been formed and were initially unstable, as though they could dissipate at any moment. However, as time passed by, the five Grotto-Heavens stabilized. If monkey were to open his eyes right now, he would definitely see an extremely shocking scene! Su Zimo assumed a lotus position with his eyes closed and his black hair fluttered without any wind. Around him were five terrifying Grotto-Heavens! The first Grotto-Heaven was surrounded by the Three Pure Qis. Stars shone brightly and thunder rumbled, revealing all sorts of shocking phenomena. The second Grotto-Heaven had many Buddhas standing in the void and chanting loudly. Divine dragons and divine elephants coiled around them as companions. Within the Grotto-Heaven, Buddhist light shone brightly and Sanskrit reverberated. Flowers fell from the sky and golden lotuses bloomed from the ground! The third Grotto-Heaven had bulls plowing through the skies, stone bears leaning against trees, anacondas plucking grass, sanguine apes flipping mountains, divine steeds galloping, tigers and leopards roaring, dragon kings trampling the seas, great rocs soaring and divine elephants crossing rivers ... The twelve Demon Kings had all appeared! Apart from the twelve Demon Kings, there was an Azure Dragon, a Vermilion Bird bathed in flames, a White Tiger devoured a corpse and a Black Tortoise treading on waves! The fourth Grotto-Heaven was silent and silent.

One after another, swords pierced the tombs like tombstones that buried the nine Heavens! In the fifth Grotto-Heaven, day and night alternated. The sun rose and the moon set. There was a black and a white fish chasing each other in the sky ... Su Zimo was situated in the middle of the five Heavenly Grottoes. Receiving the nourishment from the five Heavenly Grottoes, his aura was rising rapidly! Be it his physique, bloodline or Essence Spirit realm, everything was improving rapidly! The reason why Grotto-

Heaven Kings were powerful was not only because of their Grotto-Heaven, but also because their physical body, bloodline, and primordial spirit had been tempered by their Grotto-Heaven. But now, Su Zimo's body, bloodline and Essence Spirit were being tempered by five Grotto-Heavens at the same time! Although Qinglian of Good Fortune was still at the twelfth grade, after being nourished by the five Heavenly Caves, her strength was rapidly increasing, as if she had been reborn. Within his consciousness, Su Zimo's Essence Spirit sat cross-legged on the Creation Lotus Platform. His body shone with brilliance and his aura rose continuously! When he was at the Dongxu Stage, Su Zimo's Primordial Spirit had already reached the Grotto-Heaven Stage. Now that he was at the Grotto-Heaven Stage and had formed five Grotto-Heavens, his Essence Spirit had skipped two stages and reached the perfected Grotto-Heaven Stage! Su Zimo even had a feeling that he could fight against Wu Dao's original body, who had just entered the Martial Domain Stage. If he were to release the secret technique of fighting the ancient and modern times, with the support of the River of Time and his lifespan depleted, it was still unknown who would win! At that moment, Su Zimo seemed to have sensed something and opened his eyes. Perhaps it was because he had made use of the Heaven Burial Scripture to absorb the power of the Emperor's tomb to support his Grotto-Heaven, causing the surrounding tomb to shake continuously. Originally, there were four blood pools in the middle of the tomb. However, at that moment, other than the monkey's pool, the blood in the other three pools had all leaked out. The strange thing was that the blood seemed to be guided by something and surged towards the blood pool of the Long Armed Blood Ape! The blood in the three pools came from the Spiritual Stone Monkey, the Six-Eared Macaque and the Redbone Horsemonkey. Although they were of the same race, the three bloodlines were incompatible with the monkey's Long Armed Blood Ape bloodline and rejected each other. "This ..."

Su Zimo hesitated for a moment. Much of the blood in the three pools had already surged into the blood pool of the monkey. Originally, there was only one bloodline in the blood pool and it came from the same source as the monkey. With the help of the blood in the blood pool, the monkey had completely awakened the Long Armed Blood Ape bloodline and its combat strength had increased tremendously! With the power contained in the blood, the monkey even had a chance of breaking through to the Paradise Stage! However, the other three bloodlines that flowed in brought about a huge crisis for the monkey who was in the midst of cultivation. "Ah!" The monkey cried out in pain and its body suddenly convulsed, as if it was in extreme pain. In fact, even without Su Zimo, the bloodlines in the other three blood pools would have taken the initiative to find the monkey. They had waited here for too long and there was no successor. Now that someone from the ape race had barged in, it did not matter if it was the Long Armed Blood Ape or the Six-Eared Macaque. The inheritance of the Dao techniques in the other three bloodlines could not be severed just like that. Therefore, the three bloodlines took the initiative to find the monkey, wanting to charge into his body and become a part of his bloodline! Instantly, an intense conflict broke out when the four bloodlines entered the monkey's body. The battlefield of the four bloodlines was the monkey's body! It was obvious how much pain the monkey was in right now. "Poof! Poof! Poof!" The surface of the monkey's body exploded and a blood mist spewed out. Those four bloodlines were the rarest and strongest bloodlines of the ape race. Not to mention mixing four of them together, even if two of them were combined into one, it would still take the monkey's life! Those bloodlines did not have any sentience and were merely searching for a successor – why would they care about the monkey's life or death? That was the reason for the current situation. The monkey's body expanded gradually with a pained expression that was close to madness. The veins on its neck popped and more blood gushed out from its wounds! However, its lifeforce was

weakening continuously. When Su Zimo saw that the situation was bad, he hurried forward and released his Lotus Finger to help stabilize the monkey's injuries.

It was also a freak combination of factors. Under normal circumstances, it was extremely difficult to fuse the four strongest bloodlines of the ape race. However, Su Zimo's Lotus Finger contained the bloodline of the Grade 12 Creation Qinglian! Only the bloodline of the Grade 12 Creation Qinglian had a chance of stabilizing the four bloodlines in the monkey's body and resolving the crisis. Of course, this freak combination of factors allowed the monkey to receive the greatest opportunity of its life! Be it the Long Armed Blood Ape, Smart Stone Monkey, Six-Eared Macaque or Redbone Horse Monkey, they were all the rarest and strongest bloodlines of the ape race. However, legend has it that there was an ape race above the four rare and strong bloodlines. There was only one of them even in the greater world, let alone a middle world! The first ape that was born at the beginning of creation had this bloodline and was known as the ... Chaos Fiend Ape!

Chapter 3035

After a while, Su Zimo heaved a sigh of relief when he saw that the monkey's condition had stabilized. At this moment, the ground started to shake. The surrounding space seemed to be on the verge of collapsing, as if it was experiencing a huge impact. "Hmm?" Su Zimo frowned and looked at the excited monkey kings outside. This Battle Imperial Armament had already shattered. The reason why it could last for more than two hundred years without being refined by the three pinnacle Kings was because of the remnant consciousness in the four blood pools. Now, the four powerful bloodlines had all merged into the monkey's body. The remnant consciousness and memories in the bloodlines were also slowly merging with the monkey. Without the support of the remnant consciousness, this Battle Imperial Armament was like an ownerless item. This gave the Red Sea Monkey King and the others a chance! At the end of the Path to Heaven. The Red Sea Monkey King and the other kings looked at the swaying Battle Monarch Weapon in front of them. Their eyes flickered with excitement, and their spirits were lifted! Success! The refinement of this Battle Imperial Armament was much smoother than they had imagined. The Battle Imperial Armament was slowly being pulled out of the abyss. As it shook violently, countless dust fell. The two words on the body of the Battle Imperial Armament glowed with golden light again. The Red Sea Monkey King and the other two Peak-tier Kings took turns refining this Battle Imperial Armament. Today, Ma Dan Monkey King, one of the three pinnacle Kings, was refining it. This refinement had almost exhausted all of his Yuan Spirit and Grotto-Heaven energy. He didn't expect to see the light at the last moment. "Brother Ma Dan, if you can't hold on, why don't I do it?" another pinnacle King couldn't help but ask. "Haha, thank you for your kind intentions, Brother Ma De. I can still hold on." Ma Dan Monkey King laughed. He was about to succeed, and this Ma De wanted to reap the benefits. How could he give it to someone else? The Red Sea Monkey King remained calm and didn't say anything. This Battle Imperial Armament was already broken. It would take countless treasures to repair it. It was as difficult as ascending to the heavens. To him, the true treasures were the inheritances within the Battle Imperial Armament. Ma Dan Monkey King couldn't take them all by himself.

If the Ma Dan Monkey King did not know what was good for him and wanted to take it all for himself, then he did not mind making a move and sending him to heaven! "Those two little bastards think they can escape by hiding inside. They are too naive." Monkey King Ma Dan was in a good mood as he saw that he was about to refine the Battle Imperial Weapon. Although he looked relaxed, most of his attention was focused on the Red Sea Monkey King and Ma De Monkey King behind him. He was afraid

that the two of them would attack him secretly for the Battle Monarch Weapon!Ma Dan Monkey King chuckled and said, "I'd like to see how scared these two little beasts will be after I succeed."At this moment, Ma Dan Monkey King suddenly felt a strong sense of danger and was shocked.With a nervous expression, he subconsciously protected the peak Grotto-Heaven behind him and looked back.He thought that the Red Sea Monkey King and Ma De Monkey King had attacked him.However, the Red Sea Monkey King and the Ma De Monkey King did not move at all. The other Horse Monkey Kings also stood where they were."Hmm?"Ma Dan Monkey King seemed to have sensed something, and his heart skipped a beat!No!This sense of danger did not come from behind, but from in front of him!However, he only had one Battle Imperial Weapon in front of him. How could there be danger?At this moment, a green figure seemed to flash in front of him.It was too fast!Ma Dan Monkey King's attention was partially focused on refining the Battle Imperial Weapon and partially focused on the Red Sea Monkey King and Ma De Monkey King.By the time he reacted, it was already too late.Most importantly, refining the Battle Imperial Weapon consumed too much of his Primordial Spirit and Grotto-Heaven Power.Not only was his reaction slightly slower, but even his dodging movements were much slower!When experts fought, they usually fought for an instant.Pa!Ma Dan Monkey King wanted to retreat, but Su Zimo rushed out of the Battle Imperial Weapon and was even faster. His attack was as fast as lightning!The Horse Monkey Kings saw a green figure descend from the sky. The palm landed directly on Ma Dan Monkey King's head, instantly shattering his head into pieces. His Primordial Spirit was destroyed, and he died on the spot!

The Horse Monkey Kings could not react for a moment. They were stunned and shocked.This was a peak King.He was killed by a palm just like that. He did not even have the chance to dodge or counterattack!"It's him!"The moment the green figure appeared, the Red Sea Monkey King and Ma De Monkey King sensed it and immediately recognized Su Zimo.After all, the two of them had been conserving their energy and were in peak condition. Therefore, they could sense the abnormality immediately.Moreover, the two of them were very close to Ma Dan Monkey King.If the two of them wanted to save him, they might have a chance.However, another thought flashed through their minds at the same time.Borrow a knife to kill!If Su Zimo killed Ma Dan Monkey King, there would be one less person to share the treasures inside. The Battle Imperial Weapon would also fall into their hands.The two of them had a tacit understanding. While they hesitated, Ma Dan Monkey King had already died.Right in front of them, Su Zimo killed him with a single palm strike!Seeing Ma Dan Monkey King die, the two of them were secretly delighted, but they did not reveal anything on the surface."Oh?"The Red Sea Monkey King sized up Su Zimo and raised his eyebrows in surprise. "He actually entered the Grotto-Heaven realm?"In just over 200 years, he had found an opportunity to become a King. Of course, his speed was very fast.However, this was not what surprised the Red Sea Monkey King.Instead, it was in this special environment where there was no Heaven Earth Yuan Qi. How did Su Zimo obtain enough strength to break through to the Grotto-Heaven realm?Yes, it must be the inheritance and treasures left behind by the Battle Emperor!Thinking of this, the Red Sea Monkey King's heart burned with passion. However, he still did not feel any danger.In his opinion, so what if Su Zimo entered the Grotto-Heaven realm?He was only at the initial success stage of the Grotto-Heaven realm. He was just an ordinary King. He could casually stomp him to death!"How dare you kill my tribesmen? Little bastard, you're courting death!"An ordinary King of the Horse Monkey Race wanted to show off. He shouted loudly and held up a long staff. He held up a Grotto-Heaven and charged aggressively toward Su Zimo!The monkey's transformation was not over yet.

If the Battle Imperial Armament was refined by the Horse Monkey Race's King outside, Su Zimo was worried that something else would happen. He had stepped into the Grotto-Heaven realm and wanted to try out the methods of the Grotto-Heaven realm. He did not hesitate and charged out of the Battle Imperial Armament to kill the nearest King! Su Zimo was about to charge toward the Red Sea Monkey King and Ma De Monkey King when he saw a figure charge out from the side. The other Horse Monkey King stared at him and cursed as he charged over. This Horse Monkey King held a long staff and descended from the sky. He smashed down with the force of a mountain, and the Grotto-Heaven behind him suppressed him with an imposing aura!

Chapter 3036

Su Zimo stood on the spot and looked at the incoming monkey king. At that moment, he had countless methods to release. Melee combat, Essence Spirit, bloodline, Dharma treasures, puppets ... However, Su Zimo still chose to release his grotto-heavens! Although he had successfully condensed five grotto-heavens, he had no idea how much combat strength each grotto-heavens could unleash or what the situation would be like against other grotto-heavens. Out of curiosity, Su Zimo propped up a small grotto-heaven behind him. The small grotto-heaven was filled with scarlet, green, and purple lights. There were also stars that were bedazzling, lightning flashing, thunder rumbling and torrential rain! An immortal grotto-heaven! Rumble! What shocked everyone present was that the moment Su Zimo's grotto-heaven appeared, the grotto-heaven of the monkey king in midair began to collapse! It was completely unstoppable and in the blink of an eye, it turned into countless grotto-heavens. Without the protection of the grotto-heaven, the monkey king was riddled with holes by the starlight that burst forth from the grotto-heaven before he could land and blood gushed out. Before he could escape, another bolt of lightning flashed and landed on his body. The Horse Monkey King was instantly reduced to ashes, not even leaving behind a corpse! "This ..." All the monkey kings subconsciously opened their mouths wide as they stared at the scene with shock on their faces. The difference was way too great! That clansman did not even manage to touch the corner of Su Zimo's robes and was destroyed in both body and spirit while he was still in midair! If they had not seen it with their own eyes, the monkey kings would have thought that Su Zimo had condensed a gigantic grotto-heaven! Although they were both small grotto-heavens, the grotto-heaven of the monkey king could not even withstand a single blow from Su Zimo's immortal grotto-heaven and was as fragile as a piece of paper! They were not the only ones. Even Su Zimo himself was taken aback. However, he composed himself before long. After all, the immortal grotto-heavens had a forbidden mystic manual like the Three Pure Jade Manual as their foundation and were fused with many top-tier cultivation techniques. Within the grotto-heavens, countless powerful Dao runes were nurtured. The grotto-heaven released by the monkey king was merely a small grotto-heaven. How could it compare to the immortal grotto-heaven?

The Red Sea Monkey King frowned and could vaguely sense that Su Zimo was a little troublesome. "Kill!" The remaining 11 ordinary monkey kings reacted quickly and were enraged. They roared and attacked at the same time, releasing their own grotto-heavens! Boom! Boom! Boom! The 11 grotto-heavens enveloped the immortal grotto-heaven, wanting to crush it. However, the immortal sect's grotto-heaven did not budge and Su Zimo was unscathed under its protection as well. Not only that, the grotto-heaven, the grotto-heavens, but the grotto-heavens, of the 11 grotto-heavens, were on the verge of collapse! "What!" The hearts of the four Monkey Race's Kings trembled as their

expressions turned solemn. Even the 11 grotto-heavens, the immortal grotto-heaven, the immortal grotto-heaven! The Red, the, The Heavens Heavens' Heavens, Heavens, Heavens, Su! It seemed like this lad had obtained many benefits from the War Imperial Weapon and there should be a forbidden secret manual among them. If not for that, the immortal grotto-heaven would not be this strong! Crack! Crack! Crack! Crack! Cracks began to appear on the grotto-heavens of the 11 ordinary monkey kings. The eyes of the monkey kings widened in shock. Even though it was the combination of 11 grotto-heavens, it seemed like Su Zimo's grotto-heaven was suppressing the 11 of them! Boom! Boom! Boom! Boom! Seeing that the situation was bad, the four supreme kings hurriedly raised their grotto-heavens to suppress it. If they still did not make a move, a few of the ordinary monkey kings would die. The four grotto-heavens appeared at the same time and released an extremely terrifying grotto-heaven power that battered the immortal grotto-heaven. The Dao runes within the immortal grotto-heaven gradually dimmed as it was suppressed. Even so, the foundation of the immortal grotto-heaven was still there and it did not crumble! "It can still hold on?" The four supreme's Heavens's hearts skipped a beat as the killing intent in their eyes intensified. This human had just entered the Grotto-Heaven realm and his grotto-heaven was already so terrifying. If he was allowed to continue cultivating and develop, how terrifying would he be when he reached the next level and formed a grotto-heaven?

The four supreme's and 11 ordinary's grotto-heavens made a total of 15 grotto-heavens of various sizes. At the same time, they tried to destroy the Dao runes of the immortal grotto-heaven and kill Su Zimo. Right from the beginning, Su Zimo's expression was calm. In fact, he did not even try to counterattack. Instead, he carefully sensed the powers within the immortal grotto-heaven and compared them. "You guys are too weak." Right at this moment, Su Zimo shook his head gently and said indifferently. Immediately after, on the other side of the immortal grotto-heaven, the void collapsed eerily in front of everyone and another grotto-heaven was formed! The second grotto-heaven had appeared! Psst! At the sight of this, even the Red Sea Monkey King and Ma De Monkey King were shocked! This human had actually cultivated two grotto-heavens after entering the Grotto-Heaven realm! In the second grotto-heaven, majestic Buddhas appeared one after another. They placed their palms together and looked down at the 15 monkey kings while chanting majestic Sanskrit. Green lotus flowers descended from the sky one after another. On the ground, golden lotus flowers that did not decay surged! "Roar!" "Roar!" Beside the Buddhas, divine dragons and divine elephants circled and roared into the sky! Even the Red Sea Monkey King and Ma De Monkey King were shocked by such a phenomenon, let alone the ordinary's and the supreme's! What kind of grotto-heaven was this? Although their peak grotto-heavens were extremely powerful, they did not have such a phenomenon! As the Buddhas appeared, Sanskrit chants reverberated, dragons and elephants roared, flowers fell from the sky and golden lotuses surged from the ground. The Buddhist grotto-heavens had descended! The Sanskrit chants of the Buddhas and the roars of the dragons and elephants echoed throughout the Path to Heaven. The 15 monkey kings around Su Zimo were the most affected! The eleven ordinary kings at the beginning were already unable to hold on under the impact of the Dao runes of the grotto-heaven. They were struggling to make ends meet. As the second Buddhist grotto-heaven descended, the 11 smaller grotto-heavens collapsed as soon as the Sanskrit chants were heard! Not only them, even the grotto-heavens of the four supreme's were shaking continuously. Their glow dimmed and they were on the verge of collapsing at any moment! Just two smaller grotto-heavens were already so powerful!

"We can't let him live!" The Red Sea Monkey King grunted. Without hesitation, he stepped forward and

propped up his perfection-stage grotto-heaven. Behind him, a crimson sea of blood appeared with a majestic aura and an unparalleled aura. The power of the grotto-heavens was overwhelming! "Luckily, the two of us are here." The Ma De Monkey King also felt fortunate. He said in a deep voice, "We have to kill him today!" However, at the next moment... They saw the most unforgettable and shocking scene in their lives!

Chapter 3037

The remaining 17 Horse Monkey Kings attacked at the same time. The Red Sea Monkey King and Ma De Monkey King propped up a perfected grotto-heaven at the same time and surrounded Su Zimo. The might of the two perfected grotto-heavens was extremely ferocious as blood seas surged with torrential waves! Among the living beings of the ten thousand races, there were many that were proficient in fire Dao techniques. However, the strongest were the Divine Phoenixes, the Divine Phoenixes and the Illumination Dragon lineage of Dragons. There were also many that were proficient in water Dao techniques. The strongest belonged to the Kun race. However, as the strongest bloodline of the Horse Monkey lineage, the Red Sea Monkey King was not only proficient in Yin and Yang, but also innately close to water Dao techniques. In terms of controlling water, they were not weaker than the Kun race! Around Su Zimo, mist filled the air and covered the skies. It pressed down on the two small grotto-heavens of the immortal and Buddhist sects! After all, the difference in strength between a perfected grotto-heaven and a small grotto-heaven was too great. Even though the immortal and Buddhist grotto-heavens were formed with taboo secret manuals as their foundations, they could not withstand the impact of a perfected grotto-heaven. Furthermore, there were more than ten ordinary and peerless kings attacking together. Creak! Creak! Creak! A series of strange sounds came from the immortal and Buddhist grotto-heavens. The runes of Dao techniques flickered and even the Three Pure Qis gradually dissipated as the stars dimmed. The Buddhas were shrouded in a layer of water vapor as Sanskrit chants were intermittent. Qinglian and Golden Lotus were tainted by the power of the Red Sea Monkey King's grotto-heavens and their strength was greatly reduced! The red sea that surged in the perfected grotto-heaven formed by the Red Sea Monkey King was filthy and evil. It was easy for it to destroy Numinous Treasures and grotto-heavens. The immortal and Buddhist grotto-heavens shook violently, as though they would collapse at any moment! The Red Sea Monkey King only relaxed when he saw that the situation was settled. He looked at Su Zimo who was trapped in the middle and sneered, "To be able to form two grotto-heavens, you're indeed impressive and can be said to be unprecedented. Hehe, but in my eyes, you're still too weak!" The Red Sea Monkey King returned that sentence to Su Zimo. Ma De Monkey King also sneered and said, "There is a huge difference between a small success Grotto-Heaven and a complete Grotto-Heaven. Do you think forming two small Grotto-Heavens can make up for this difference?" Facing the mockery of the two peak Kings, Su Zimo's expression was calm as he said indifferently, "Oh, three then."

The surrounding monkey kings were stunned for a moment, not understanding the meaning behind Su Zimo's words. However, there was still a trace of doubt in their hearts. He could not understand how this human could still be so calm and composed under such a situation. There was no hint of panic on his face at all. Boom! Right at this moment, the space around Su Zimo collapsed again, and a loud bang sounded! "This is ..." The Red Sea Monkey King's pupils suddenly contracted as it stared at the collapsed space. A terrifying thought flashed through its mind! Could it be the third Grotto-Heaven? How was this possible? It was already unheard of for all living beings of the myriad races to step into a Grotto-Heaven

and condense two Grotto-Heavens. Could it be that someone could condense three Grotto-Heavens? Since ancient times, no one had ever heard of such a situation! The Red Sea Monkey King could not believe it. However, the next moment, under the gazes of the monkey kings, Su Zimo's third Grotto-Heaven was formed while enduring the suppression of more than ten Grotto-Heavens of various sizes and perfected Grotto-Heavens! The 12 demon kings reared their heads and roared into the skies with torrential demonic qi and battle intent! There were also the four sacred beasts that exuded supreme might as they glared at the surrounding monkey kings with cold gazes. The Demon Sect Grotto-Heaven had appeared! The moment the third Grotto-Heaven was released, the pressure on the immortal and Buddhist Grotto-Heavens was greatly reduced and they gradually stabilized as well. Of course, the Dao techniques and runes of the three Grotto-Heavens were still suppressed against the impact of more than ten Grotto-Heavens of various sizes and two perfected Grotto-Heavens and could not retaliate. Furthermore, the Red Sea Monkey King had the bloodline of the Redbone Horse Monkey. A perfected Grotto-Heaven that he condensed was far stronger than others of the same cultivation realm and was definitely not easy to deal with. However, this scene was way too shocking! The Red Sea Monkey King, Ma De Monkey King and the others were shocked and could not conceal the shock in their eyes. This human had actually condensed three Grotto-Heavens after entering the Grotto-Heaven realm! Not just them, if this matter were to spread, it would cause a huge commotion among all the living beings in the three thousand worlds and cause an uproar!

He had just entered the Grotto-Heaven realm and had already condensed three Grotto-Heavens to fight against 18 Kings, including four supreme Kings and two peak-stage Kings. This kind of combat strength could not be described as 'weak'. Even the Red Sea Monkey King did not have the confidence to mock him at this moment. Fortunately, the three Grotto-Heavens did not pose much of a threat to them. The Red Sea Monkey King heaved a sigh of relief and thought to himself that he was lucky. Fortunately, he had brought more people with him this time. If he had chased after him alone, the outcome would have been hard to predict. The battle intent emanating from Su Zimo's third Grotto-Heaven was familiar to the other monkey kings. This battle intent was even stronger than the battle intent on their bodies! More importantly, the demonic qi in this Grotto-Heaven was too dense. Apart from the Redbone Horse Monkey King who could resist the bloodline suppression of the four sacred beasts, the ordinary monkey kings all felt a sense of trepidation and found it difficult to circulate their bloodline. This was what it felt like when one's bloodline was suppressed! Some of the ordinary kings of the Horse Monkey race looked at Su Zimo with a hint of fear in their eyes. Even the four supreme Kings had a trace of fear on their faces. Seeing that they were still in control of the situation and had the upper hand, the Ma De Monkey King's expression relaxed a little. However, he saw that many monkey kings around him were intimidated by the aura of Su Zimo's three Grotto-Heavens and couldn't help but feel annoyed. He shouted, "Three Grotto-Heavens are just so-so! Can a human King with an initial success Grotto-Heaven overturn the heavens? What was weak? Their aura could not be weak!" Is that so? Su Zimo raised his eyebrows and said indifferently, "Then four Grotto-Heavens will do." As soon as he finished speaking, the space around him collapsed again! "What!?" The remaining monkey kings were shocked as they looked at this scene in disbelief. They were so frightened that they exclaimed! The fourth Grotto-Heaven appeared. Compared to the previous three Grotto-Heavens, this Grotto-Heaven didn't make much noise. Instead, it was extremely quiet and lifeless. There were only tombs with swords inserted into the tombs. However, after this Grotto-Heaven appeared, the monkey kings present all smelled a strong aura of death.

It was as if the tombs in this Grotto-Heaven were prepared for them. There seemed to be a mysterious power that wanted to drag them into the tombs of the Grotto-Heaven and bury them! The Daluo Sword Tomb descended and the four Grotto-Heavens appeared at the same time. The situation immediately reversed! The Grotto-Heavens of the ordinary and supreme Kings of the Horse Monkey Race started to shake violently, as if they couldn't bear the pressure and would collapse at any time. Only the Red Sea Monkey King and the Ma De Monkey King could still hold on! "Four, four ..." The Ma De Monkey King was so scared that his face turned pale. His lips trembled and his voice trembled. "Motherf*cker, shut up!" When the Red Sea Monkey King heard the Ma De Monkey King speak, he was so scared that his entire body trembled. He cursed and glared at the Ma De Monkey King, wanting nothing more than to go up and cover his mouth! Every time the Ma De Monkey King mocked, this Su Zimo would create another Grotto-Heaven. If this continued, they would all die here! Unfortunately, the Red Sea Monkey King was still one step too slow. "Four Grotto-Heavens won't do. Five is the best." Su Zimo's voice sounded again.

Chapter 3038

The space around the four Grotto-Heavens collapsed again. The fifth Grotto-Heaven appeared! Yin Yang Grotto-Heaven! The fifth Grotto-Heaven had just appeared when the normal Kings could no longer hold on. The Grotto-Heaven started to collapse. When the Yin Yang Grotto-Heaven appeared, the Grotto-Heavens of the four Kings also collapsed! If it weren't for the Red Sea Monkey King and Ma De Monkey King's perfected Grotto-Heavens, which blocked most of the power of the five Grotto-Heavens, the normal and peerless Kings of the Horse Monkey Tribe would have been killed by Su Zimo's Grotto-Heavens! The five Grotto-Heavens around Su Zimo showed all kinds of strange phenomena. Dao runes shone brightly, and his aura was overwhelming. He was like a god! The battle intent of the 11 normal Kings of the Horse Monkey Tribe also collapsed with the collapse of the Grotto-Heavens. They didn't want to fight anymore. The longer they stayed here, the more serious their injuries would be! The 11 normal Kings of the Horse Monkey Tribe screamed in panic. They dragged their heavily injured bodies and ran back the way they came. "Don't run!" The Red Sea Monkey King roared. However, their lives were at stake. They couldn't care less about others. In fact, it wasn't just the 11 normal Kings. Even he wanted to retreat. The five Grotto-Heavens appeared. Ma De Monkey King's perfected Grotto-Heaven was showing signs of collapse. His Red Sea Grotto-Heaven wouldn't be able to hold on for long! The four peerless Kings of the Horse Monkey Tribe were also shaken by the situation. They were ready to retreat. "Fight!" At this moment, a deafening roar came from the end of the Path to Heaven. It exuded an overwhelming battle intent that soared into the sky! Su Zimo finally smiled when he heard this voice. The monkey had come out of seclusion! A tall and burly figure flew out from the thick and huge Divine Battle Weapon. His arms were extremely long, and his eyes were red. He strode past Su Zimo and the others and chased after the 11 Kings of the Horse Monkey Tribe. The monkey was very smart. After receiving the inheritance of the Emperor of Battle and the fusion of the four bloodlines, his cultivation had reached the peak of the Dongxu Stage! He was only a step away from the Grotto-Heaven realm. However, it was still a True Spirit Realm cultivator. Against a peerless King or a Peak King, there was almost no chance of victory.

Moreover, Su Zimo had the upper hand right now. What he needed to do was to stop the eleven ordinary Kings from escaping! Actually, Su Zimo was planning to go all out and kill the Red Sea Monkey King and the others. At the same time, he would release the Six Ding and Six Armor Gods to chase after

the remaining eleven monkey kings. However, when he saw that the monkey had broken out of seclusion, he did not bring out any other means. It wasn't that he held back on purpose, but that the monkey had been suppressing too much anger in his heart for many years. He had only killed a Horseshoe Monkey Tribe member in the Blood Ape Tribe and hadn't been able to vent his anger. Now that the monkey had obtained the complete inheritance of the Warring Emperor and had fused with four different bloodlines, his battle prowess had skyrocketed. It was a good opportunity for him to vent his frustrations on the eleven monkey kings that had escaped and test his own battle prowess. If the monkey was in danger, he would still be able to make it in time to help.... Although the Path to Heaven was wide, there were no other directions or forks in the road. There was also no place to hide. The monkey descended from the skies with widened eyes. Suddenly, a 10,000 feet tall War Soul appeared behind him and stomped down viciously with the exact same movements as the monkey! The two Horseshoe Monkey Kings that were escaping suddenly felt their vision darken. Instinctively, they raised their heads and saw a huge shadow that covered the skies! Shocked, the two of them raised their arms to block the attack. Bang! Bang! Two deafening sounds rang out! The two Horseshoe Monkey Kings paused for a moment. The next moment, the sounds of bones cracking could be heard from their bodies as the monkey stomped on them. Their Essence Spirits were destroyed and they died! As for the monkey, it raised its arms high and its hairy hands that covered the skies seemed to be holding onto something as it smashed towards the few fleeing Horseshoe Monkey Kings! It was a strange scene. There was clearly nothing in the monkey's hands. There was still a distance between him and the fleeing Horseshoe Monkey Kings. If he smashed down like that, he wouldn't be able to injure anyone. However, right then, a violent tremor came from the end of the Path to Heaven! Rumble!

The thick and gigantic pitch-black stone pillar rose from the starry abyss and transformed into a beam of black light. In an instant, it arrived between the monkey's hands. Battle Emperor Weapon! This Battle Emperor Weapon was originally incomparably thick like a stone pillar that reached the heavens. However, when it landed in the monkey's hands, it had already shrunk and fit perfectly into the space that the monkey's hands were holding! Just as the monkey descended from the skies and smashed down with both hands, the Battle Emperor Weapon landed in his palms. The word 'Battle' appeared on the body of the staff and released a dazzling golden light! When the fleeing Horseshoe Monkey Kings turned back and saw this scene, they were scared out of their wits. They hurriedly took out their respective Divine Weapons and Numinous Treasures to block this attack. However, even if the Battle Emperor Weapon was shattered, it was still indestructible! Coupled with the monkey's bloodline and War Soul, the Battle Emperor Weapon's combat strength was increased by eight times in the Battle Emperor Universe. It was simply unstoppable and could destroy everything! Bang! There was a deafening sound! Six ordinary Horseshoe Monkey Kings were smashed into meat paste by the monkey's staff. Blood splattered everywhere and they died! If the two sides fought normally, the outcome would be unpredictable and the situation wouldn't have reached such a state. Even if the monkey could win, it would take a lot of effort. However, the group of Horseshoe Monkey Kings' small grotto-heavens were shattered by Su Zimo and they lost their strongest weapon. All of them were severely injured and their combat strength was greatly reduced. They couldn't defend against the monkey who had broken out of seclusion with the Battle Emperor Weapon and was in peak condition. The monkey came out of seclusion and descended from the skies, trampling two ordinary Horseshoe Monkey Kings to death and smashing six Horseshoe Monkey Kings to death! In just one move, he killed eight ordinary Horseshoe Monkey Kings! After landing, Su Zimo glanced over and his expression changed as he discovered something

strange. Compared to before, the monkey's cultivation realm had increased after this fortuitous encounter. However, this wasn't the greatest change. The greatest change came from his body and appearance! The monkey's figure looked much stronger than before and his arms were longer as well. If one observed carefully, they would be able to see that there was an additional pair of ears on both sides of the monkey's face!

There were a total of four ears that moved slightly and were extremely agile! Furthermore, the surface of the monkey's body seemed to have turned rough where there was no fur, as though it had turned into stone. The monkey's eyes shone with a scarlet light. However, under the scarlet light, his left and right eyes shone with a black and white brilliance respectively! "Are those ... Yin Yang Eyes?" Su Zimo's heart skipped a beat and he could vaguely guess the reason for the monkey's change. There were a total of 11 ordinary Horseshoe Monkey Kings that escaped. Although the monkey killed eight of them, there were still three left. However, the three of them were proficient in certain concealment techniques and made use of spirit treasures and Dharmic weapons to retract their auras and cover their tracks.

Chapter 3039

Although the tracks of the three monkey kings were concealed, they could not escape Su Zimo's senses. Just as he was about to warn monkey, he saw monkey's eyes shining brightly. One of his eyes was black and the other was white, as though he could see through the void and destroy all obstacles! The figure of one of the Horseshoe Monkey Clan Kings immediately appeared in his line of sight. "Fight!" Monkey hollered and raised the Combat Imperial Weapon, smashing it down towards the monkey king with a terrifying aura! The monkey king used a secret skill to conceal his tracks and was slowly moving into the distance silently. He did not expect that he would be exposed so quickly. A thunderous roar sounded in his ears and the monkey king could not help but feel shocked. If he reacted too slowly, he was smashed to death by monkey's cudgel! Just as the monkey attacked the Horseshoe Monkey King, another figure appeared behind him. It was another Horseshoe Monkey King. When that person saw that his tribesmen could not escape monkey's pursuit even if they hid their tracks, he decided to take a risk and risk it all! As long as he could kill this monkey, he would have a chance of survival! Monkey smashed his cudgel towards the monkey king in front. Behind him, another monkey king appeared and raised his cudgel as well, smashing it towards monkey's head! The two of them attacked at almost the same time. Although the monkey king lost his grotto-heaven and was severely injured with his body on the verge of collapse, his eyesight was still present. The timing of his attack was impeccable and could be said to be perfect! By the time monkey smashed the monkey king in front to death, it was already too late to dodge and could only tilt its head slightly. Clang! The cudgel smashed heavily on monkey's shoulder with a deafening sound! The sound was a little strange – it did not sound like it had struck flesh. Instead, it sounded like it had struck an incomparably tough rock! The monkey king's arms trembled and his cudgel bounced high into the air. He could not hold on to it and his hands turned numb with a shocked expression. Monkey staggered from the impact and grimaced in pain. However, his eyes were filled with excitement! A tuft of hair on his shoulder was knocked off, revealing his coarse skin that was almost petrified. Although that cudgel caused him great pain, it did not injure his tendons and bones. The Yin Yang Eyes released earlier on were the inheritance of the Redbone Horse Monkey bloodline.

The secret skill that petrified flesh earlier on was inherited from the Intelligent Stone Monkey! Of course,

the main reason was that the Horse Monkey King had lost his Grotto-Heaven. His vitality was severely depleted, and his battle prowess was greatly weakened. Otherwise, the monkey wouldn't have dared to take the blow with his body. He had indeed received the memories of the four strongest bloodlines of the Ape Clan, but he had yet to fully digest them and cultivate them to the Great Accomplishment stage. "Hehe!" The monkey turned his head and grinned at the horseshoe monkey king. He rushed forward, his blood and qi surging as he swung his cudgel and attacked! With just a few strikes, the Horse Monkey King could no longer hold on and was smashed into pieces, turning into a corpse on the spot! There was only one monkey king left. Monkey activated his Yin-Yang Eye and surveyed the surroundings, but he did not discover anything unusual. However, his four ears twitched slightly, as if he had caught something. He tapped the ground with the tip of his foot, and his figure was extremely agile. In the blink of an eye, he had arrived beside a pile of bones. The monkey stretched out his hand, and with a loud boom, he pierced through the pile of bones and directly grabbed the last ordinary monkey king! "Caw, caw!" Monkey roared in laughter and grabbed the person by the throat with one hand while swinging his cudgel with the other. He smashed the head of the monkey king and his Essence Spirit was destroyed, killing him on the spot! This pursuit took an extremely short period of time and could be said to be clean and efficient without any hesitation. However, a battle of a higher cultivation realm could not prove anything. After all, more than half of the combat strength of the 11 monkey kings had been crippled by Su Zimo. However, the methods that monkey had revealed Just Now were truly shocking! At the end of the Path to Ascension, the Red Sea Monkey King and the others who were suppressed by Su Zimo's five Grotto-Heavens were shocked when they realized what had happened! What had they just seen? The Sanguine Ape had released the legacy secret skills of the Long-armed Blood Ape, Redbone Horse Monkey, Six Eared Macaque and Wise Stone Monkey consecutively in a short span of ten breaths! How was that possible? What made their hearts skip a beat was that their cultivation realms were clearly far above that of the True Self Realm monkey.

However, when the monkey released his Qi and blood, they had an urge to submit and worship him! It was as though it was an imprint that came from the depths of their souls and bloodlines and was difficult to resist. When they met monkey's gaze, they felt as though they were facing a superior being! "Something big has happened!" The Red Sea Monkey King was no longer shocked. Instead, he felt a sense of fear and trepidation! The five Grotto-Heavens before him were already enough to make his scalp tingle. What was up with this monkey that had just appeared? "Run!" The Red Sea Monkey King could no longer care about his dignity as he growled and channeled his bloodline to its limits, releasing his Bloodline phenomenon and cooperating with the Red Sea Grotto-Heavens in an attempt to escape this place. "Do you think you can escape?" Su Zimo said indifferently when he sensed the Red Sea Monkey King's intentions. Just Now, he was mostly focused on monkey and did not use his strength because he was worried that something would happen to the latter. Now that he saw that the Red Sea Monkey King wanted to escape, he channeled his Essence Spirit and the five Grotto-Heavens spewed out endless Dao techniques and runes in a bedazzling manner that surged down like a tsunami! Boom! The perfected Grotto-Heaven of the Mad Monkey King could not withstand it and collapsed instantly. The figures of the four peerless kings were also drowned by the Dao techniques and runes released by the five Grotto-Heavens. Accompanied by tragic cries, their flesh and bones were destroyed and turned into dust! The Mad Monkey King was a peak-tier king after all and had a strong bloodline and physique. However, he did not last long when the five Grotto-Heavens exploded at the same time and he died within. A few new graves were added to the Zenith Sword Tomb. The Red Sea

Monkey King was already trapped by the five Grotto-Heavens and the power of the Grotto-Heavens spread and destroyed everything. It would be extremely fortunate if he could last more than ten breaths, let alone escape! After breaking out of seclusion, Su Zimo had just entered his Grotto-Heavens and had not used them to fight against kings. Therefore, he did not release the five Grotto-Heavens right away. Instead, he released them one by one and slowly sensed the improvements and changes that each Grotto-Heaven brought to him. Now that monkey had obtained an opportunity and escaped danger, he did not intend to tangle with the Red Sea Monkey King.

The five Grotto-Heavens unleashed their power at the same time and Dao techniques and runes surged out endlessly! There were thousands of streaks of multicolored light and thousands of streaks of auspicious colors. Lightning flashed and thunder rumbled. Buddhas and dragons appeared. Sanskrit chants reverberated and demons roared. Four sages covered the sky and sword tombs stood in great numbers. Yin and Yang fused ... The power of the five Grotto-Heavens erupted at the same time and the phenomena were too terrifying! The Red Sea Monkey King's bloodline phenomenon collapsed the moment it was released. No matter how filthy and evil the sea of blood in the perfected Grotto-Heaven behind him was, it could not withstand it at this moment and rapidly dried up, destroyed by countless Dao techniques and runes! "You ..." The Red Sea Monkey King's face was pale and he seemed to want to say something. However, as his Red Sea Grotto-Heaven collapsed, his body was also torn apart by the five Grotto-Heavens. His soul dissipated and he died! The 18 Horse Monkey Kings chased after him from the Blood Ape World. After more than 280 years, they were all wiped out and not a single one of them survived! These Horse Monkey Kings who had submitted to the Heaven Reverence World died on the path to heaven. It was as if everything was predestined. There is only one update today. Everyone, sleep early.

Chapter 3040

"The four bloodlines have already fused?" Su Zimo asked. Monkey scratched his head. "They should have. Furthermore, I seem to have awakened something in the depths of my mind and obtained some even more ancient inheritance memories." Su Zimo nodded to himself. In other words, apart from the Wise Stone Monkey, Long Armed Blood Ape, Six Eared Macaque and Redbone Horsemonkey, monkey had obtained some other inheritances as well! Monkey's situation should not be limited to just the fusion of four bloodlines. The fusion of four bloodlines seemed to have caused an even more mysterious change in monkey! The bloodline aura emanating from monkey gave Su Zimo a sense of déjà vu. Back then, his second disciple, Carefree, released a similar might when his bloodline erupted in the Land of Yin Yang and released the Kun Peng Diagram. Even the rank-12 Creation Qinglian trembled. According to the Earth Kun King, this seemed to be a sign of bloodline reverting. Of course, monkey's bloodline was clearly not completely fused. At the very least, he only had four ears. If it was completely fused, he should be able to conjure six ears that could listen to everything in the world! With a single thought from the monkey, the shattered Battle Monarch Weapon instantly shrunk to the size of a needle. He tossed it into his ear and it disappeared without a trace. Although the Battle Imperial Weapon was shattered, it was a treasure left behind by the Battle Emperor after all. If it was nurtured in monkey's grotto-heaven in the future and refined, it might be able to recover to its peak! Both of them gained a lot from this battle and cleaned up the battlefield briefly before heading in the direction of the Path to Heaven. They arrived before the black hole in the cosmos. As long as they left this place, the two of them would return to the Middle World. Suddenly, monkey stopped in his tracks and turned around, looking at the corpses on the Path to

Heaven in silence. Those corpses belonged to the ancestors of the Blood Ape World. Monkey had always been carefree and unrestrained. However, at this moment, there was a hint of sadness in his eyes. A moment later, monkey suddenly said, "I saw some fragmented images in the bloodline inheritance that I obtained. They were related to the battle back then." Su Zimo did not say anything and merely listened quietly. The Fiend Master mentioned many things about the War of the Heavens that lasted for several eras. However, there was no mention of the Emperor of Douzhan. Wu Dao's original body didn't have time to ask.

The monkey said, "Back then, Senior Douzhan used the Douzhan Dao Art to forcefully open up this path to the heavens. He wanted to reach the heavens and slaughter his way into the heavens." "On the path to the heavens, he encountered many obstacles. He led his clansmen through bloody battles. Not only did they pass through the Celestial Tribute World, but even the Monarchs from Great Sky couldn't stop them." "Later on, the great emperor of Great Sky took action. Great Emperor Jun Tian! According to the Devil Lord, he was one of the Nine Great Emperors of the Heavenly Court! Monkey revealed a look of reminiscence and said slowly, "The two of them were fighting on the Heavenly Road. Senior Douzhan was always at a disadvantage, but in the end, Senior Douzhan released the final move of the Douzhan Catalog ... "At this point, the monkey paused and his tone gradually became serious. He said word by word, "With this move, Senior Douzhan defeated the Great Emperor of the Great Sky Continent and the path to heaven was broken because of this!" Su Zimo's mind was shaken, and he couldn't hide the shock in his eyes. The path to heaven was broken, and the Emperor of Douzhan had died and left behind his inheritance. He had seen all of this with his own eyes. However, he had never expected that the Emperor of Douzhan would actually defeat a great emperor of the Nine Heavens in the War of the Heavens! According to the Demon Lord, the nine great emperors of the heavens came from the Great Thousand Domains and were all above great emperors. Even in the Middle World, they were restricted by the laws of heaven and earth and their cultivation was greatly weakened. However, their combat strength was still extraordinary. Otherwise, they wouldn't have been able to rely on the nine great emperors to seal and suppress the three thousand domains for several epochs and win the War of the Heavens time and time again. Even so, the Emperor of Douzhan had still defeated a great emperor! Su Zimo suddenly thought of another matter. According to the scene the monkey saw, the Great Sky Emperor had already died in the War of Douzhan Era. However, in the next epoch, which was the Allheaven Epoch, the heavens still had nine great emperors. This point also confirmed what the Devil Lord had said. He and the nine great emperors of the heavens all had endless lifespans and would never die! In other words, the Great Sky Emperor had indeed been killed by the Emperor of Douzhan. However, the Great Sky Emperor would still come back to life and recover his great emperor cultivation. He would then enter the Great Sky Emperor and oversee the heavens!

It was also because of this that the Emperor of Avici didn't kill the Great Sky Emperor and the Lord of Hell. This was because he knew that he couldn't completely kill the two of them with his own strength. Killing the two of them would instead give them a chance to come back to life. If he imprisoned the two of them in the Avici Hell and made them suffer endless pain, in a sense, he would have 'killed' the two of them. The Demon Lord didn't tell him the secret of eternal life. Perhaps the answer could only be found in the Great Thousand Domains. Su Zimo gradually gathered his thoughts and looked at the end of the path to heaven. He sighed in his heart. Although the Emperor of Douzhan had killed the Great Sky Emperor, he couldn't ascend to the heavens. He could only leave his inheritance on the path to heaven

and wait for his descendants. The last move of the Battle Catalog was indeed terrifying. However, Su Zimo's cultivation realm wasn't high enough and he couldn't comprehend its mysteries. The two of them stood solemnly and silently looked at the path to heaven that was covered with corpses and blood. It was as if they could see countless Blood Apes roaring and roaring. The two of them had respectful expressions on their faces as they bowed deeply before cupping their fists in farewell.... In the vast starry sky. "Big Brother, where are we going next?" The monkey asked. After leaving the Blood Ape Realm this time, he didn't plan to return for the time being. He had killed the Horseshoe Monkeys in the Blood Ape Realm. If he returned to the Blood Ape Realm, he might bring trouble to the Blood Ape Realm. Su Zimo did have a place in mind. This time, he left the Sword Realm and his first stop was the Blood Ape Realm. He wanted to check on the monkey's situation. His second stop was this place. Su Zimo was about to speak when his expression suddenly changed. He seemed to have sensed something and looked at the starry sky on the other side. There was nothing there, but Su Zimo's eyes were fixed on it with a solemn expression. A moment later, the starry sky suddenly split open and an old ape walked out!

An Emperor realm expert! The moment the old ape appeared, Su Zimo felt a tremendous pressure. This was clearly the aura and might of an Emperor realm expert! Thankfully, Su Zimo did not sense any hostility from the old ape nor did he sense any danger. The monkey had never seen this old ape before. However, he could tell that the old ape should be from the Blood Ape Realm and had the bloodline of the Long Armed Blood Ape. Given his original cultivation, he did not have much of a chance to come into contact with the old ape. "The two of you are truly lucky to be able to escape the pursuit of more than ten Kings," The old ape heaved a sigh of relief when he saw that the two of them were fine. The black hole in the starry sky isolated everything and the old ape clearly did not know about the situation on the path to heaven. Ever since the two Horseshoe Monkey Emperor Lords of the Blood Ape Realm left, the old ape set off immediately to search for monkey and the monkey. A long time later, he sensed an abnormal spatial fluctuation and descended, bumping into Su Zimo and the monkey. For some unknown reason, the old ape clearly felt something amiss when he saw monkey. It was as though his bloodline was suppressed and he felt uncomfortable. "Strange," The old ape was puzzled. There was a huge difference in cultivation between the two of them. Even if there was a suppression, it was the monkey opposite him. The old ape swept his gaze and suddenly fixed his gaze on monkey's ears. Immediately after, his eyes widened in disbelief!
