

Sacred King 3311

Chapter 3311

Su Zimo did not have the intention to return to Canagai State. He merely headed in the direction of the four lotus seeds and passed by this place. Not long after he set foot in Canagai State, he had already sensed that someone was spying on him. He knew that Canagai State was filled with poisonous bugs and the feeling of being spied on most likely came from the many poisonous bugs hidden in the corners. The news of his arrival would spread to Five Venoms Palace very quickly! Su Zimo sneered internally. Five Venoms Palace was the one that spread the news of him possessing the Creation Qinglian bloodline. If Five Venoms Palace dared to come looking for him, he did not mind removing them from Canagai State! Although the hundreds of Dao Venerables in the Universe Creation Diagram could not fight against the four sacred grounds, destroying Five Venoms Palace was a piece of cake for them! To be precise, he could do whatever he wanted in the entire Southeast Territory with this strength! Su Zimo had no intention of covering up his tracks at all as he traveled openly. True enough! Not long after, he sensed a trace of faintly discernible hostility from afar. If not for his sharp spirit perception, he would not have been able to detect it with his spirit consciousness alone. Su Zimo continued forward without batting an eyelid. More and more hostile auras gathered around him. They followed him all the way, but never showed themselves. Su Zimo sneered internally. He wanted to see how long these people could endure! In reality, the experts of Five Venoms Palace were more cautious and patient than Su Zimo had imagined. Just as he was about to leave the vicinity of Canagai State, the Dao Venerables of Five Venoms Palace appeared under the lead of the four Palace Masters and surrounded Su Zimo. "Fufu." The Sky Centipede Palace Master chuckled and raised his voice. "This must be the Primal Chaos Palace's Palace Master Su, who has risen to fame recently." Su Zimo did not reply and merely looked around. Apart from the four Palace Masters of Five Venoms Palace, there were more than 30 Dao Venerables, including a few Great Venerables and three Supremes. "Palace Master Su, don't be nervous." The Sky Snake Palace Master saw that Su Zimo was silent and thought that he was scared speechless. He could not help but grin and say, "We also heard that Palace Master Su made a name for himself in the Ancestral Fire Sacred Land and wanted to invite you to the Five Poisons Palace as a guest."

"Of course, you killed a Dao Sovereign of my Five Poison Palace, and a Palace Lord also died because of you. This debt is just right for me to settle with you." "Have all the Dao Sovereigns of your Five Venoms Palace come?" Su Zimo suddenly asked. The Scorpio Palace Master laughed heartily and asked, "What? Do you think that our Five Venoms Temple is not ostentatious enough?" "There's a big difference." Su Zimo said indifferently, "These few people are not enough to move me." "Hahahaha!" The Dao Masters of the Five Venoms Palace burst into laughter. If they hadn't followed Su Zimo for a few days and nights, they might have really been intimidated by him! These days, Su Zimo had always been alone. They had already scouted the surroundings and made sure that nothing went wrong! The Sky Centipede Palace Master smiled faintly and said, "Su Zimo, you don't have to put on airs. Since we've shown up, we're fully confident." "Supreme Xie Mie can save you once, but he can't save you a second time!" "I can tell you clearly that unless a Saint expert descends from the sky, today will be the day you die!" Su Zimo raised his eyebrows and asked, "Are you all planning to bully me with numbers?" "Hahahaha!" "Too naive!" The surrounding Dao Masters roared with laughter again. "There's no need to mobilize so many people to deal with a mere Great Heavenly Venerable like you. I alone am enough." The Sky Centipede Palace Master changed the topic and smiled sinisterly. "However, since you're called a Supreme

Heavenly Venerable, our Five Venoms Palace has to show you some respect." "That's right! Let's bully him with numbers today and let him know why he died! "The Dao Masters of Five Venoms Palace were eager to give it a try. Su Zimo's expression was calm as he took out the Universe Creation Diagram and opened it slowly. "I know a little about bullying with numbers." Before he finished his sentence, figures flew out of the Universe Creation Diagram one after another. There were hundreds of them and they descended around Su Zimo. All of them had powerful auras and the weakest among them was a Dao Master! Among them, there were close to a hundred Great Venerables and more than 20 Supremes!

Psst! The expressions of the Five Venoms Palace experts changed as they gasped. Indeed, there were no Saints. However, the formation of hundreds of Dao Masters descending from the sky was truly terrifying. There were more than ten times their number! Furthermore, there were more than 20 Supremes! Even the Five Venoms Palace experts were not enough to deal with those 20 Supremes! "Y-Y-You ..." The Sky Toad Palace Master's face was pale and his voice trembled. "What are you trying to do?" The Sky Centipede Palace Master was shocked as well. He took a few deep breaths to calm himself down. Gulping, he cupped his fists slightly and said in a deep voice, "Fellow Daoists, you look unfamiliar. May I know which faction you are from?" "Chaos Palace, of course," Su Zimo smiled and asked, "Can't you tell that they're all Dao Masters of the Plant race?" The Dao Masters of Five Venoms Palace were shocked by the formation before them and could not be bothered to check out the race of those people. They only checked after Su Zimo's reminder. True enough! All of them were experts of the Plant race! Furthermore, all of them seemed extremely excited after descending from the sky. Their eyes shone as they sensed the aura around them, sending chills down the spines of everyone from Five Venoms Palace. Supreme Lin Meng and the other hundreds of Dao Masters were almost driven crazy after being trapped in the Universe Creation Diagram for more than six billion years. How could they not be excited now that they had returned to the Vast Thousand World? They could not wait to find two people to kill! "Fellow Daoists, I'm afraid there's been some misunderstanding about what happened today ..." The Sky Centipede Palace Master pretended to be calm and forced a chuckle. Supreme Lin Meng did not even look at him. He merely turned to Su Zimo and bowed slightly, asking, "Master, what's going on?" Master! Everyone from Five Venoms Palace shuddered when they heard that name. Su Zimo said, "These are the cultivators of Five Venoms Palace. Previously, they were hunted down and fled to the Southern Region. Now, they're here to bully me with their numbers ..." "Understood," Supreme Lin Meng nodded and looked at the Dao Masters around him, saying in a deep voice, "Everyone, don't hold back anymore. Attack and leave no one alive!"

Boom! Boom! Boom! A series of loud sounds echoed from the bodies of Supreme Lin Meng and the other hundreds of Dao Masters. Their blood qi surged as they controlled their Great Daos to form weapons and charged towards everyone from Five Venoms Palace! The eyes of those from the Chaos Sacred Land were bloodshot. There were only slightly more than 30 Dao Masters in Five Venoms Palace. Even if 10 of them ganged up on one of them, there were too many wolves and too little meat – there was not enough for them to split! The group of Dao Masters stayed in the Universe Creation Diagram all day long and sparred with each other, but they did not stop until they reached a certain point. After so many years of not seeing blood, it was rare for them to be able to attack without restraint – all of them seemed to have gone mad.

Chapter 3312

There was no need for Su Zimo to take action in this battle. The Dao Masters in the Universe Creation Diagram alone were enough to suppress all the thirty-odd Dao Masters of the Five Poison Palace. The Sky Centipede Palace Master and the others initially wanted to restrain Su Zimo and reverse the situation. However, they could not break through the attacks of Supreme Master Lin Meng and the others at all. Instead, they fell deeper and deeper, and in the end, they did not even have a chance to escape. The hundreds of Dao Masters in the Universe Creation Diagram joined forces to form an encirclement. Great Dao intertwined in the Void, forming an inescapable net. Su Zimo carefully observed the battle between the Dao Masters from the side. Although he had fought with Dao Masters before, the battle was brief and he did not know much about the fighting style of Dao Masters. However, this battle gave him a new understanding of the battle between Dao Masters. A Dao Comprehending Realm Celestial Master could use a world and the traces of Great Dao in it to evolve many Great Dao visions. However, after stepping into the Dao Controlling Realm, there was no difference between world and Dao. The Dao World was one, the world was Dao, and Dao was the world. Great Dao was formless. However, in the hands of a Dao Controlling Realm Dao Master, it could be manifested. It was not a vision, but condensed into substance and turned into many divine weapons. In short, after stepping into the Dao Controlling Realm, the Great Dao cultivated was no longer illusory. It would turn into a group of sharp weapons in the hands of a Dao Master. Great Dao was like a weapon! What a Dao Master needed to cultivate was how to better control the Great Dao, master it, and use it like an extension of his arm. It was like tempering a treasure sword. A treasure sword was sharp, but how to use it and exert the greatest power of the treasure sword required continuous practice. Perhaps the initial success of the Dao Controlling Realm was still a little unfamiliar with controlling the Great Dao. As one's understanding of the Great Dao deepened, one would become more proficient in controlling the Great Dao until it reached the peak of perfection! In this regard, Wu Dao's original body had an incomparable innate advantage. Because he was the one who created the Martial Dao. No matter if it was Dao Comprehension or Dao Control, Wu Dao's main body would be able to grasp them very quickly. He didn't need to spend a lot of time accumulating them, and his cultivation base would also rise very quickly!

This was also why Wu Dao's true body had already stepped into the Dao Manipulation Realm when he entered the four flame mountain ranges. After absorbing and refining the three Heavenly Fires, the number of flames that Wu Dao's original body could control had reached twelve. And every one of them was one of the strongest flames in the world! Each type of flame could be cultivated into a Great Dao on its own. However, even though Wu Dao's cultivation base had increased rapidly, he was still unable to leave the Nether Blood Sea and was unable to help Qinglian's true body. Furthermore, Wu Dao's true body still hadn't found a solution for Dao Integration. The so-called Dao Unification to become a Saint was the fusion of the cultivator's body and the Great Dao into one! Once one stepped into the Saint Realm, the Saint Realm would become the Great Dao itself, and one would gain eternal life! No matter how proficient a Dao Controlling Realm cultivator was in controlling the Great Path, it was still child's play in front of a Saint of the Great Path. The process of Dao Unification was also the most dangerous. The slightest carelessness could lead to death! In this great battle, Su Zimo stayed out of it. As he watched the battle, he recalled his trip to the Ancestral Fire Sacred Ground. The Black Lotus of Destruction shouldn't be in the Ancestral Fire Sacred Ground. And Yao Xue had given him a hint that the Black Lotus of Destruction was related to the sacred ground's secrets. In other words, the Black Lotus of Destruction should be in the Yin Yang Sacred Ground, Tian Fa Sacred Ground, Void Sacred Ground, and

Spacetime Sacred Ground.No matter which sacred ground it was, it was probably as difficult as ascending to the heavens to obtain the Black Lotus of Destruction.And after fighting with the Sacred Clan of the Yin Yang Sacred Ground, Su Zimo increasingly felt that the Candlelight and Nether Fluorescent Divine Stone in his eyes were extraordinary.These two Divine Stones had even begun to awaken some kind of consciousness!Fortunately, the two Divine Stones didn't have any resistance or hostility towards him.Yao Xue had once mentioned that the Dreamlike Token was given to him by one person. She and Ah Xie each had a token. Who was this person?Su Zimo's thoughts were in a whirl as the battle gradually came to an end.More than thirty Dao Venerables of the Five Venoms Palace were all dead. None of them escaped!

The poisonous insects hidden in every corner had long fled in fear.After today, the Five Venoms Palace would be removed from the Canopy State!The surrounding vegetation swayed gently, transmitting bursts of joyful emotions.Supreme Lin Meng and the others cleaned up the battlefield, sorted out the many spoils of war, and handed them over to Su Zimo."You can keep these."Su Zimo was quite generous and simply waved his hand.After all, he didn't participate in this battle.Moreover, most of the treasures weren't very useful to him at the moment."Thank you, my lord."Supreme Lin Meng and the others thanked him.Some Dao Venerables just nodded symbolically. In their opinion, this was only natural.This time, Su Zimo didn't let Supreme Lin Meng and the others return to the Universe Fortune Diagram.After so many years, these Dao Venerables were finally free. Even if Su Zimo asked them to return, they might not be willing.After all, they were always under the control of others in the Universe Fortune Diagram."My lord, where do you plan to go from now on?"Supreme Huai An said, "If the experts of the Four Sacred Clans come, I'm afraid we won't be able to protect you."Su Zimo didn't explain. He just pointed in a general direction.Supreme Huai An and the others frowned slightly, still wanting to say something.Autarch Lin Meng shook his head slightly. He steered the spirit boat and sped off in that direction.Hundreds of Dao Venerables gathered together. With such a lineup, they traveled through the Great Thousand Domains without any obstacles. No experts from other factions dared to show themselves.About half a month later.Su Zimo and the others finally arrived at the destination.They could see a mountain towering into the clouds in front of them. It stood majestically and majestically. Just a glance from afar was enough to make Supreme Lin Meng and the others feel awe!However, Su Zimo had a different feeling when he sensed this mountain peak.There seemed to be some kind of connection between him and the mountain."This position ..."Supreme Lin Meng murmured with a puzzled expression.Like the other Dao Venerables, he was also bewildered."What's wrong?"

Su Zimo asked.Supreme Lin Meng explained, "This position should be where the Chaos Sacred Land used to be, but it didn't exist more than six billion years ago."The group continued forward to get a clearer view.Around that mountain, there were four shorter mountain peaks in the shape of lotus flowers.The four lotus peaks were of different colors. One of the lotus peaks was lush and verdant, and one was emerald green. The other lotus peak was covered with large amounts of fiery red vegetation. From afar, it looked like a flaming mountain.On the third lotus peak, there were many golden-yellow plants growing.The fourth peak was pitch-black and almost disappeared into the night."These four peaks weren't here before."Supreme Lin Meng shook his head slightly.Su Zimo thought back to his inherited memories. He already had a guess based on the scene in front of him.The surrounding four lotus peaks were most likely formed from the four lotus seeds from back then!As for the towering mountain in the middle, he didn't know how it had appeared.

Chapter 3313

Su Zimo walked toward the golden lotus peak opposite him. As he approached, his bloodline resonated with the golden lotus peak. Su Zimo paused for a long time. Through the golden lotus peak, an ancient memory entered his mind. Between the four lotus peaks and the one in the center, there were several dilapidated ancient buildings. Supreme Lin Meng and the others were astounded when they saw the scene. More than six billion years had passed, and things had changed. Through these dilapidated buildings, one could still vaguely see the shadow of the Primal Chaos Sacred Land. Su Zimo didn't stop walking. He walked toward the towering mountain in the center surrounded by the four lotus peaks. However, as soon as he got close, he felt a strong resistance. He couldn't move forward! Su Zimo didn't force his way in. Instead, he stopped at each of the four lotus peaks before closing his eyes to cultivate. Su Zimo passed by the four lotus peaks and obtained three pieces of inherited memories. Because he didn't obtain the Black Lotus of Destruction, he didn't inherit the memories of the black lotus peak. However, even these three pieces of inherited memories were extremely important to him! Apart from helping him comprehend the Great Dao of Chaos faster, these three pieces of inherited memories also recorded a formation. Four lotus seeds fell here, each transforming into a mountain peak. Between the four lotus peaks, a Primal Chaos Formation was formed! As long as he digested these three pieces of inherited memories, he could try to activate this Primal Chaos Formation! According to the inherited memories, once the Primal Chaos Formation was activated, even a Saint would find it difficult to break through! Unfortunately, these inherited memories weren't complete. Moreover, they didn't record the origins of the mountain in the center. Supreme Lin Meng and the others didn't disturb Su Zimo when they saw him closing his eyes to cultivate. Instead, they cleaned up the dilapidated buildings and tried their best to restore them to their former appearance.... Three days later. Four giant ships appeared in the southeastern region of the Greater Thousand World. The four ships were clearly imprinted with the insignia of the four Sacred Tribes. Everywhere they passed, all living beings avoided them and kept quiet out of fear! At this moment, there were several Supreme experts standing on the ships. They were all from the Sacred Tribes of the four Sacred Lands! "I heard that Su Zimo has quite a few surviving members of the Primal Chaos Holy Land by his side. They even destroyed the Five Venoms Temple."

The person who spoke had his hands clasped behind his back. He was the Sovereign of the Yin Yang Sacred Land, Chang Tian. On the next ship, a middle-aged man in a green robe said faintly, "It is said that there are hundreds of Tao Masters among these survivors. No one knows where they have been hiding all these years. Until now, they have shown themselves." This was the Sovereign of the Tian Fa Holy Land, Qing Yong. "If that wasn't the case, we wouldn't have personally come to resolve this matter," said Nine Shadows, a sovereign of the Void Sacred Land. His voice was like a baby's cry, extremely ear-piercing. Around his body, faint shadows appeared. The sovereign of the Spacetime Sacred Land, Mu Qi, sternly said, "In front of everyone, four members of the Sacred Race of our Four Sacred Lands perished. This debt of blood must be paid with blood!" The Supreme-Being experts chatted casually with relaxed expressions. Everyone's heart was as clear as a mirror. The surviving members of the Primal Chaos Holy Land and the debt of blood were only secondary. Their primary goal was to seize Qinglian and the Red Lotus of Karmic Fire. They didn't know that the Golden Lotus of Karmic Virtue had become one with Su Zimo. Chang Tian said, "For our five sacred lands, the greatest threat is the demons and ghosts of the Sacred Land of Samsara in the northwest." "This can't be a coincidence, can it?" Qing Yong frowned slightly. "The northwest has yet to be pacified, and now the surviving members of the Primal Chaos Holy

Land have appeared. Will the humans from the Life Sacred Land cause trouble in a few days? ""They should be fine," said Nine Shadows."The humans have been suppressed for the past few years. Their fortunes have waned and they have lost their edge. They no longer dare to contend with our five sacred lands."As they chatted, they arrived in front of the Primal Chaos Holy Land.The four fortress ships drew the attention of countless Dao Sovereigns as they sailed through the skies of the southeastern domain. Every faction realized that something big was about to happen!"The experts of the four sacred lands have appeared. Heh heh, the Primal Chaos Holy Land has just recovered. It will probably be destroyed again.""It's said that there are hundreds of Dao Sovereigns in the Primal Chaos Holy Land.""So what? They won't be able to withstand the combined attack of the four sacred lands."The Dao Sovereigns of the various factions appeared one after another and headed toward the Primal Chaos Holy Land, ready to witness this moment from afar.

When the four fortress ships arrived, Lin Meng and the others in the Primal Chaos Holy Land were startled awake!They're here!"Is the master still in seclusion?"Huai An asked with a frown.Lin Meng said, "The master's realm isn't high enough. He can't help in this battle. We can only rely on ourselves."Evergreen Sovereign said in a low voice, "We can't fight to the death. If the situation turns bad, we must take the master and flee."Hua Ruo said, "Let's talk to them first. It'll be best if we can avoid a battle."The four sacred clans of the Primal Chaos Holy Land discussed for a while, then stood up and walked to the four lotus peaks.The other Dao Sovereigns also looked solemn, ready to fight at any time!Lin Meng cupped his fists and said, "My name is Lin Meng. May I know the purpose of your visit?""Heh"Qing Yong sneered. "You already know the answer."Evergreen Sovereign raised his voice. "More than six billion years have passed since that battle. There's no need for you to kill us all, is there?""If you want to live, hand over Su Zimo."Mu Qi said calmly.Lin Meng frowned. "The man you speak of is our master, the master of the Primal Chaos Holy Land."Jiu Ying shrieked. "Hand him over and you'll be the masters of the Primal Chaos Holy Land from now on. There's no need for you to lose your lives for a mere Emphyrean."His words caused a stir among the Dao Sovereigns of the Primal Chaos Holy Land.Lin Meng shook his head. "You jest, fellow daoist. We'll do our best to protect him since he's our master.""The master has no grudge against the four sacred lands. Although the four sacred clans died at the master's hands during the Ancestral Fire Holy Land's Celestial Venerate Gathering, that was because they were fighting for the title of Supreme Celestial Venerate. Everyone fought with their own abilities and can't blame others for their deaths.""You'll be the laughingstock of the world if you ask for him because of this."The faces of the four sacred lands' Dao Sovereigns darkened when they heard this."There's no need to argue with him."Skyfall waved his hand. "Attack!"Swoosh swoosh swoosh!

Figures flew out of the four ships. The weakest among them were Dao Sovereigns, and there were even Great Sovereigns and Supremes!There were nearly a thousand Dao Sovereigns of the four sacred lands combined, which was twice as many as the Primal Chaos Holy Land!Skyfall, Qing Yong, Jiu Ying, and Mu Qi all attacked. Their Qi and blood surged as they transformed into their true forms and charged forward with the Great Dao!

Chapter 3314

At this moment, one of the lotus peaks behind Supreme Lin Meng and the others rumbled and emitted a dazzling golden light that illuminated the heavens!The golden lotus peak was like a blooming golden lotus, dazzling and eye-catching!Then, the second lotus peak shook as well. Azure light filled the air and

endless vitality surged. As the two lotus peaks shook, a large formation vaguely appeared around the Chaotic Sacred Land. With the two lotus peaks as the eye of the formation, countless mysterious runes shone on the formation! All the Dao Masters frowned in bewilderment at the sight of this. "Everyone, retreat to the sacred land and use this formation to defend yourselves." At the same time, Su Zimo's voice sounded. Supreme Lin Meng hesitated for a moment, then led everyone back to the Chaotic Sacred Land. If they fought against Chui Tian, Qing Yong, and the others, they might be able to hold on for a while, but there would be casualties among them. If they had a large formation to defend themselves, they would be able to adapt to the situation and advance or retreat. When Supreme Lin Meng and the others returned to the Chaotic Sacred Land, the attacks of the Dao Sovereigns of the four sacred clans descended. Divine weapons condensed from Great Daos fell from the sky like rain! Boom! Boom! Boom! However, these divine weapons couldn't penetrate the Chaotic Formation at all. When they fell, they exploded with earth-shattering sounds, causing the azure and golden lotus peaks to shake. Supreme Lin Meng and the others stood in the Chaotic Sacred Land. They sighed in relief when they saw that the four sacred lands couldn't break through the formation. "It seems that this formation was left behind by the Sacred Leader." "The Sacred Leader really put in a lot of effort to protect our master. Not only did he have the Universe Creation Diagram, but he also has this formation." "I wonder how long this formation can last." While everyone was discussing, Su Zimo was still cultivating in one of the lotus peaks. Over the years, he had only controlled two of the Chaotic Formation's eye points. Apart from the black lotus peak, which he couldn't comprehend due to the lack of inheritance memories, there was another lotus peak that he hadn't fully comprehended yet. Once he controlled this eye, the Chaotic Formation's power would increase again. This time, it wouldn't just be a passive defense. He could even try to launch a counterattack! Outside the Chaotic Sacred Land.

The cultivators of the Four Great Holy Lands unleashed their Qi and blood. They controlled hundreds and thousands of Great Daos to continuously attack the Great Chaos Array. However, they were still unable to break through the array's defense. Everyone looked at Su Zimo and the others who were inside, but they couldn't take them down even after a long time. They couldn't help feeling irritated. Jiu Ying shrieked, "This can't go on. We have to think of a way to break this formation." "Difficult." Qing Yong shook his head and said, "The vital points of this formation are on the two lotus peaks. However, these peaks are indestructible. Not to mention us, even the Saints of our clan who came here in the past couldn't take away these four lotus peaks." At that moment, the pair of eyes in the sky transformed into Yin and Yang. Two beams of divine light shot out and landed on the array of the Chaotic Sacred Land, searching for flaws. After a short while, Sky Fall suddenly said, "This grand formation hasn't been activated completely. We have to change directions and attack the other two formation cores of this formation!" Among the four lotus peaks, two of them seemed to have awakened. The other two were completely silent. Sky Fall was right. Su Zimo hadn't controlled the formation cores of these two lotus peaks yet. They were indeed the weak points of the Chaotic Grand Formation. When the experts of the Four Sacred Lands heard this, they immediately circled around the green and gold lotus peaks in front of them and headed towards the red and black lotus peaks. As expected! Everyone's attacks landed on the junction between these two peaks, causing the Chaotic Grand Formation to shake continuously. The runes on the grand formation also gradually peeled off, and the light flickered. Eternal Green Supreme frowned slightly and said in a low voice, "Not good. That seems to be the weak point of this grand formation. If they break through it, this grand formation probably won't be able to hold on." Rumble! A loud explosion suddenly erupted! The red lotus peak seemed to be burning. The fire burned brightly. The

third formation core was activated! Su Zimo suddenly opened his eyes. With a thought, the aura of the Chaotic Grand Formation suddenly changed! The runes on the grand formation suddenly fell off. As if they had a mind of their own, they transformed into divine weapons and charged into the crowd of the Four Sacred Lands! Every formation pattern on the Chaotic Grand Formation was a trace of the Great Dao. These divine weapons were also equivalent to Great Dao weapons!

Poof! Poof! Poof! The Dao Masters of the Four Sacred Lands were caught off guard. Blood mist instantly spread out from the crowd as they were thrown into chaos by the counterattack of the Chaotic Grand Formation. Clang! One of the divine weapons that blocked the Chaotic Grand Formation roared, "Everyone, be careful!" The activation of the third formation core of the Chaotic Grand Formation raised the defense of the grand formation to another level. Although the black lotus peak was still a weakness, the connection established by the three lotus peaks was enough to make up for this weakness. Moreover, under the control of Su Zimo, the Chaotic Grand Formation constantly counterattacked and broke the formation of the Four Sacred Lands into chaos. Lin Meng, Eternal Green Supreme, and the others were secretly shocked when they saw this scene. Many Dao Venerables looked at Su Zimo with less disdain in their eyes. With this Chaotic Grand Formation alone, Su Zimo was invincible in the Dao Manipulation Realm. Even the Sacred Race Supremes couldn't get close to him, let alone threaten his life. Only the Four Sacred Race Supremes were able to withstand the counterattack of the Chaotic Grand Formation. The rest had already been defeated and fled into the distance. The Dao Masters of the Four Sacred Lands did have some tricks up their sleeves. Apart from the Chaotic Grand Formation's first counterattack, which killed three Dao Masters and one supreme sovereign, the rest had been prepared and managed to survive. Now, only the Four Sacred Race Supremes were left standing in front of the Chaotic Grand Formation! "Su Zimo!" Jiu Ying screamed, "Come out if you have the guts. What's the point of hiding in there?!" When Su Zimo heard that, he could not be bothered with him. Lin Meng laughed loudly. "You Supremes gathered here to deal with a mere Great Heavenly Venerate. Is this what you call a capable person?" "The way I see it, the Four Sacred Lands don't even care about your reputation!" Autarch Huai An chuckled coldly. The Four Sacred Race Supremes' faces darkened, but they couldn't do anything to Su Zimo in the Chaotic Sacred Land. Unwilling to give up, the Four Sacred Race Supremes struggled with the Chaotic Grand Formation for a while longer. In the end, they had no choice but to retreat into the distance and discuss countermeasures. If this continued, they wouldn't be able to hold on before the formation was breached.

"Su Zimo, I don't believe you'll just hide in there and not come out!" Mu Qi clenched his fists and growled. "It's fine. Let's continue like this. I'm not in a hurry." Su Zimo's voice sounded nonchalant, but it only made the Four Sacred Race Supremes gnash their teeth in anger. Su Zimo wasn't in a hurry. At the very least, he wouldn't be leaving the Chaotic Sacred Land for a while. He still needed to absorb the insights of the Great Dao of Chaos from the three lotus peaks. Then, his cultivation would rise another level!

Chapter 3315

With the protection of the Chaos Array, Su Zimo wasn't worried about the experts of the four sacred grounds attacking. He began to cultivate in seclusion, absorbing the insights of the Chaos Great Dao from the three lotus seeds. Before entering seclusion, Su Zimo released all the cultivators in the Universe Creation Diagram. Xu Rui, Meng Shi, and the others were filled with emotions when they returned to the

Chaos Sacred Land in their lifetime. Supreme Lin Meng, Supreme Evergreen, and the other experts also entered seclusion. Some were even preparing to break through to the Sage Realm. In the blink of an eye, a thousand years passed. The experts of the four sacred grounds waited outside the Chaos Sacred Land for a thousand years. Later, they couldn't take it anymore and retreated. They couldn't keep waiting outside. In the eyes of Heaven Chilling and the others, Su Zimo would appear one day, and they would definitely have a chance in the future! In a thousand years, Su Zimo had already absorbed and refined all the insights of the Chaos Great Dao from the three lotus seeds. In the Chaos World, the traces of the Great Dao continued to spread, covering every corner and fusing with the world. His cultivation steadily increased. Finally, on this day, he advanced another level and broke through to the perfected Dao Comprehension realm, becoming a Supreme Heavenly Venerable! The power of his Essence Spirit also increased, reaching greater mastery of the Dao Manipulation realm, comparable to a Supreme Heavenly Venerable! In the ruins of the Netherworld Blood Sea. In a thousand years, Wu Dao's cultivation realm had already risen to the perfected Dao Manipulation realm. Qinglian's true body had the inheritance memories of Qinglian in the Chaos World, so her cultivation speed was extremely fast. Wu Dao was a Dao technique created by Wu Dao's true body. In terms of cultivation, the speed of his true body was even faster than Qinglian's true body! One more step and he would become a Sage. However, just as Wu Dao's true body had expected, as his cultivation realm continued to increase, the repulsive force between the Martial Universe formed by the Three Realms and the Origin Martial World formed by his physical body had reached the limit. His physical body and Essence Spirit were the Origin Martial World. If he wanted to merge the Dao, he would have to merge the two worlds. But now, the two worlds were like fire and water. Forcefully merging the Dao would only result in death! When he was in the Dao Comprehending Realm, he could still fuse temporarily.

After attaining perfection in the Dao Manipulation Realm, Wu Dao's main body had attempted to fuse once. However, as soon as the two worlds came into contact, he was heavily injured and almost collapsed. His body and soul were destroyed! After recuperating for several months, he finally recovered. The black-robed man watched the entire process, but he did not say a word, as if he did not see anything. The existence of Wu Dao's true body was an anomaly. The path of Dao Unification and becoming a Saint was impossible! The road to the Great Dao was long, and the future was uncertain. He had to carve out his own path! Wu Dao's true body had been pondering for many years, and his two true bodies were also communicating with each other. Above the Virtuous Golden Lotus, within the inherited memories of the Virtuous Lotus Seed, Wu Dao's true body smelled a trace of an opportunity. The confusion in front of him had begun to see the light! When Su Zimo fused with the Virtuous Golden Lotus, he noticed that there were traces of some kind of fire on it. Within the golden lotus peak of the Chaos Formation, there was also an extremely ancient aura of fire that was different from the flames he had seen in his cultivation. Even the 12 flames cultivated by Wu Dao's true body could not compare to it! Wu Dao's true body attempted to comprehend the flame. Another thousand years passed. Wu Dao's true body did not make any progress towards the mysterious flame. The power contained in the depths of the flame seemed to have far surpassed his current cultivation realm! Wu Dao's true body began to change his train of thought. Furthermore, he borrowed the aura of the mysterious flame to fuse the 12 flames he controlled into one! Finally, on the 3,000th year, he borrowed a wisp of power from the mysterious flame to fuse the 12 flames into one and condense them into a single flame! At that moment, there was only a single flame left in the Martial Cultivation Universe! His cultivation realm was still at the perfected Dao Manipulation Realm. However, the existence of the flame had already surpassed the Dao

Manipulation Realm and possessed the power of a Saint! Wu Dao's true body called it the Saint Flame of the Great Dao! There were many skeletons of Saints buried in the ruins. Wu Dao's true body came to the side of a Saint's skeleton and looked at it intently.

Dao Integration to become a Saint. Even if a Saint died, there would still be some Great Dao imprints left on his skeleton. This Saint cultivated the Rain Great Dao, which was a branch of the Great Dao of Water. Wu Dao's true body tried to use the Saint Flame of the Great Dao to burn and refine the Great Dao imprints on the Saint's skeleton. As time passed, the Rain Great Dao was gradually refined by the Saint Flame of the Great Dao. The birth of the Yuanwu World was an anomaly. It did not enter the cycle of reincarnation, was not in the Three Realms, and did not have any Great Dao. It was originally empty and silent. However, after the Saint Flame of the Great Dao refined the Rain Great Dao, another Great Dao appeared in the Yuanwu World. Wu Dao's true body pondered for a moment and continued to look at another Saint's skeleton. What remained of this Saint's skeleton was the Five Elements Great Dao. With the help of the Saint Flame of the Great Dao, Wu Dao's true body continued to refine the Five Elements Great Dao. Compared to the Rain Great Dao, it took much longer to refine the Five Elements Great Dao. After he refined the Five Elements Great Dao, another Five Elements Great Dao would appear in the Yuanwu World! "Refining so many Great Daos is equivalent to completely giving up on the hope of becoming a Saint." Sensing the actions of Wu Dao's true body, the black-robed man suddenly spoke. Just fusing the physical body and Primordial Spirit with a Great Dao was as difficult as ascending to the heavens. It was extremely dangerous. The more Great Daos one refined, the harder it was to fuse them. It was like the Great Dao of Water and the Great Dao of Fire. The two Great Daos opposed each other, and water and fire were incompatible. There was an innate rejection! Wu Dao's true body did not explain anything. Fusing the Dao to become a Saint was simply impossible for him. Until now, he still had not thought of the future path. He only vaguely had a general direction and embryonic form in his heart. Wu Dao's true body continued to search for Great Daos to refine in the Saint's skeleton.... Chaos Sacred Land. After Su Zimo cultivated to the peak of the Dao Comprehending realm, he sensed that the people of the four sacred lands had retreated. He was not in a hurry to leave and continued to cultivate.

Time flew. It had been more than 10,000 years since everyone entered the Chaos Sacred Land. Su Zimo had already cultivated to the peak of the Dao Comprehending realm, but he was unable to take another step forward and step into the Dao Controlling realm. After all, this was a major realm. Unless he obtained the Black Lotus of Destruction or some kind of opportunity, it was very difficult to break through just by cultivating in seclusion. During this period of time, in the Chaos Sacred Land, there was a Supreme-Being who tried to fuse the Dao to become a Saint, but it ended in failure. Su Zimo watched as the body of a Supreme-Being dissipated bit by bit, turning into powder, fusing into the Great Dao and dying! He had long known the dangers of fusing the Dao to become a Saint. But it was far less shocking than seeing it with his own eyes! A Supreme-Being died in such a way. Once this step was taken, there was no way out. Once the Dao fused failed, it meant that the body and Dao would disappear, and one would die! Since ancient times, many people wanted to fuse the Dao to become a Saint and reach eternal life, but in the end, they fell in front of eternal life. And this Supreme-Being's failure to break through to the Saint realm made the other Dao Venerables more cautious. For 10,000 years, no one tried to fuse the Dao.

Chapter 3316

Ten thousand years ago, news of Su Zimo leading his people into the Chaos Sacred Land and fending off the experts of the four sacred lands with the help of the grand formation had gradually spread throughout the Greater Thousand Domains. Over the years, more and more plant and vegetation cultivators and living beings had returned to the continent. The living conditions of the plant race in the southeastern territory were far better than before. The various forces of the one hundred and eight states were wary of the Chaos Sacred Land's strength, so they restrained their bullying of the plant race. Some of the more far-sighted races had even predicted that the Chaos Sacred Land would lead an all-encompassing purge and revenge in the southeastern territory! These forces had begun to withdraw from the southeastern territory. In fact, this was exactly what had happened. Over the years, since the experts of the four sacred lands had long since retreated, Lin Meng and the others had begun to discuss how to take back all the one hundred and eight states that had been occupied by the alien races. One day, Lin Meng and the others gathered in the Chaos Hall and roughly explained their plan to Su Zimo. Su Zimo smiled and said, "I don't think I have anything to do with this." Lin Meng smiled and said, "My lord, your cultivation isn't high enough. There's no need for you to put yourself in danger. You can just guard the Chaos Sacred Land." If they wanted to expel the alien races from the southeastern territory, they would have to face the top forces of the one hundred and eight states. A battle between Dao Sovereigns would break out. Su Zimo was only in the perfected Dao Comprehending realm, so he naturally couldn't change the situation in front of the Dao Sovereigns. Su Zimo smiled and said, "Then I'll leave the matters here to you. I'm going out to find an old friend." "Where are you going, my lord?" Lin Meng asked. "Xuanpin Mountain in the southwestern territory." Su Zimo didn't hide anything. He asked, "Have you heard of this place?" "The southwestern territory?" Evergreen pondered and said, "This place is far from the southwestern territory and the southern region. It's a long journey. Don't run into any danger." "It's fine. I can protect myself now." Su Zimo said, "There are still flaws in the Chaos Formation. I'll leave the Universe Fortune Diagram on the black lotus mountain to temporarily replace the formation core." If the Four Great Holy Lands make a comeback, even without me presiding over it, it would be difficult for them to break through the Great Primal Chaos Array."

Supreme Huai An frowned slightly. He was about to speak when Supreme Lin Meng suddenly said, "The Profound Valley Mountain that master mentioned seems to be a force established by the human race." "It's not just Profound Valley Mountain. The entire southwest region is occupied by humans." The speaker was Mei Liang, a Dao Master who had just joined the Chaotic Sacred Land a few years ago. "Oh?" Hearing this, Supreme Lin Meng, Supreme Evergreen, and the others were surprised. Supreme Evergreen said, "According to what I know, the human race is a race that was born later on, and their numbers are few. More than six billion years ago, although there were many powerful Saints in the Human Clan, most of them died in that turmoil." The Mei Liang Holy Man shook his head and said, "I don't know either. The human race now rules the southwestern region. There are 36 Paradises and 72 Blessed Lands, all of which are occupied by human Holy Masters." That said, even though the human race is spread throughout the Great Chiliocosm, their status and strength are much worse than before. They're about the same as our Plant Wood Clan." Su Zimo seemed to be deep in thought. According to Supreme Evergreen and Supreme Mei Liang, the human race wasn't considered a large race more than six billion years ago. However, after that turmoil, the human race spread throughout the Great Chiliocosm. Their status was also much lower than before. Supreme Mei Liang said, "Maybe it's because the human race has no Saints." "The human race has no Saints?" Su Zimo asked. Supreme Mei Liang nodded and said, "All these years, the human race hasn't produced any Saints." For more than six billion

years, the human race had no Saints! This was too unusual. No matter how difficult it was to merge with the Dao and become a Saint, Su Zimo didn't believe that the human race hadn't produced a single Saint in more than six billion years. He had similar doubts in the Great Chilocosm. The human race seemed weak, but more than half of the beings who eventually became Great Emperors were humans! Moreover, the human race was inextricably linked to many other races. For example, although the Heavenly Eye Race, the Protoss, and many other races were born with powerful bloodlines and all kinds of innate abilities, they were all in human form.

This time, he was going to the southwest territory to look for Die Yue. On the other hand, he might be able to find some answers there. Su Zimo gave a few more instructions before leaving the Chaos Sacred Land and speeding toward the southwest. After reaching perfection in the Dao Comprehending realm, Su Zimo's speed had increased by a lot. In less than a month, he had returned to the border between the southeast and the south. At this moment, Su Zimo stopped in his tracks. Not far away, he saw a person. Supreme Lin Meng. Su Zimo squinted slightly, a complicated emotion flashing through the depths of his eyes. Then, he smiled and asked, "Supreme Lin Meng, are you here to see me off?" Supreme Lin Meng remained silent. Su Zimo laughed again and said, "Then you're here to kill me." Hearing this, Supreme Lin Meng's expression changed slightly. He said indifferently, "You don't seem surprised?" "Not really." Su Zimo said. "Oh?" Supreme Lin Meng was a bit confused. He asked, "When did I reveal any flaws?" "No." Su Zimo shook his head and said, "You didn't reveal any flaws from the beginning to the end. You were also very respectful to me." "Then why did you guess that I was here to kill you?" Supreme Lin Meng asked. Su Zimo smiled faintly and said, "In the middle realm, there was someone who treated me better than you. He even saved my life. However, his ultimate goal was to refine me." Supreme Lin Meng asked, "Is that why you were on guard?" "Of course not." Su Zimo said, "When I was young, I read some history books. My situation is similar to the situation of a young emperor. The young emperor had just ascended the throne and couldn't suppress the various factions. The generals and ministers under his command were too powerful, and they didn't have much affection for the young emperor. It was easy for them to betray him." "That's why I thought that some of you would want to make a move on me and take my place." Supreme Lin Meng nodded and said, "Actually, the Sacred Master had expected this to happen. That's why he left you the Universe Fortune Diagram and the Chaos Formation to suppress us." "Unfortunately, you left the Chaos Sacred Land and the protection of the Chaos Formation. You even left the Universe Fortune Diagram in the sacred land."

After a short pause, Supreme Lin Meng said, "I don't understand. If you knew that someone would make a move on you, why did you leave the Chaos Sacred Land?" Su Zimo smiled and said, "Of course I did it on purpose." "On purpose?" Supreme Lin Meng raised his brows slightly. Su Zimo said, "I knew that someone would make a move on me, but I didn't know who it was. If I stayed in the Chaos Sacred Land, you wouldn't have a chance." "Since that's the case, I'll create a chance for you."

Chapter 3317

Compared to his experiences in the Dimensional Realm, Su Zimo's journey to the Greater Thousand Realms had been much smoother. Of course, the Demon Lord, Saint Gu Yao, and even the Primal Chaos Sacred Leader had taken care of him, but Su Zimo didn't dare to be careless. The experts in the Qian Kun Fortune Diagram were far more powerful than him. Even some Heavenly Venerables weren't willing to submit to him back then. These Dao Venerables and Supremes had lived for countless years and

experienced countless bloodshed. It didn't make sense for them to willingly submit to him just because of his bloodline. Su Zimo turned to look at the nearby forest and said loudly, "You've been following me for so long. It's time for you to show yourselves." He had sensed that someone had been following him ever since he left the Primal Chaos Sacred Ground. And it wasn't just one! Three figures appeared in a flash. They were the Primal Chaos Sacred Ground's Supremes Evergreen, Hua Ruo, and Huai An! Including Lin Meng, these four were all Sacred Clan members of the Primal Chaos Sacred Ground! Only the Sacred Clan would have such ambition and courage. "Are you three also here to kill me?" Su Zimo asked. Evergreen, Hua Ruo, and Huai An exchanged glances and shook their heads. Lin Meng's expression darkened. "Fellow Daoists, are you going to protect him?" Huai An frowned. "No matter what, he is the Sacred Leader's successor. It's not appropriate for you to attack him." If Su Zimo could think of this, these three old fellows who had lived for hundreds of millions of years could naturally guess as well. When Su Zimo had decided to leave the Primal Chaos Sacred Ground, Evergreen had hinted to him once. When Su Zimo wanted to leave the Universe Fortune Diagram in the Primal Chaos Sacred Ground, Huai An had wanted to remind him as well, but Lin Meng had interrupted him. Therefore, when Su Zimo and Lin Meng left the Primal Chaos Sacred Ground, the three Supremes realized something and followed them. Lin Meng said in a low voice, "Are the three of you counting on him to lead the Primal Chaos Sacred Ground to prominence? He's only in the Dao Comprehending realm, and his cultivation is too weak. We're only one step away from becoming a Saint!" Supremacy Evergreen said, "Master ... his cultivation base isn't slow either." "How long do we have to wait?" Supreme Lin Meng said, "Are the three of you willing to be ordered around by a mere Heavenly Venerable? You want to suppress us with just a bloodline?"

Paragon Hua Ruo suddenly said, "Big brother Lin Meng, you want to make a move against him because of your own selfishness, right?" "Not bad!" There was no way this matter could be hidden from Supremacy Evergreen and the others. Supremacy Lin Meng didn't try to hide it either, and directly admitted it. Lin Meng said, "Do you know how dangerous it is to become a Saint? We watched as Pu Ying died, but we couldn't do anything about it. I didn't have the confidence to complete the Dao Fusing, so I didn't have the courage to take that step. "I cultivate the Creation Great Dao. If I can obtain his creation, Qinglian, my chances of reaching the Dao Integration Stage will increase!" Supremacy Lin Meng took a deep breath and said in a low voice, "Fellow Daoists, I only have one question. Our friendship over so many years can't compare to an outsider who came out of nowhere?" Supremacy Evergreen and the others had complicated expressions on their faces as they remained silent. They had cultivated together back in the Primal Chaos Sacred Land and experienced countless dangers together. Later on, they had been trapped in the Universe Creation Diagram for more than six billion years. They had sat down and discussed the Dao, drank to their hearts' content, and chatted happily. No one else could compare to this kind of relationship. Supremacy Lin Meng said, "If you don't care about our friendship over the years and come to kill me, I won't fight back. I won't fight back!" Since Supremacy Lin Meng had said this, Supremacy Evergreen and the others instantly fell into a dilemma. They naturally couldn't attack Supremacy Lin Meng, let alone kill him. However, Su Zimo was the successor of the Sacred Leader. Although they didn't have a deep relationship with him, he was still their master in name ... They were indeed unconvinced by Su Zimo and even looked down on him. However, they had never thought of killing their master and replacing him. Right at that moment, Su Zimo spoke. "The three of you don't have to be troubled. Since Supremacy Lin Meng wants to kill me, this is a matter between us. The three of you can choose not to help either side and stay out of it." "No matter who lives or dies, it has nothing

to do with the three of you."Supremacy Evergreen and the others heaved a sigh of relief when they heard that.Su Zimo's magnanimity relieved the three of them, but they also felt guilty.

If the three of them chose to stay out of it, it would seem like they were not helping either side. However, in reality, it was equivalent to watching Su Zimo die in the hands of Supremacy Lin Meng!After all, the difference between them was too great.They were an entire major cultivation realm apart!No amount of talent or bloodline could make up for such a huge difference."Master, you can turn around and run later."Supreme Hua Ruo couldn't bear it in his heart and sent a voice transmission with his spirit consciousness, "I can help you stall them for a moment. As for the future ..."Su Zimo did not reply and merely shook his head.Supremacy Evergreen and the others sighed and took a step back one after another.At the sight of that, Supremacy Lin Meng finally relaxed and turned to Su Zimo. "Don't worry, after you die, I'll definitely lead the Chaos Sacred Land to rise again and return to its former glory!""Even if you die, you can rest in peace."Su Zimo chuckled. "The reason why you followed me here before making a move is because this place is deserted. After killing me, you can push my death to other factions.""You can use this as a reason to rise to the top and gather reputation and people's hearts in the name of revenge to lead the Chaos Sacred Land.""That's right."Supremacy Lin Meng nodded.Naturally, he had already deduced all the subsequent plans in his heart countless times."Very good."Su Zimo clapped and smiled. "Now, there's only one problem left.""What?""I don't want to die.""That's not up to you."The two's gazes clashed in the air. Their swords were already drawn in just a few words!Even now, Su Zimo remained calm and asked with a smile, "Do you know why I've never made a move in front of you?"Supremacy Lin Meng smiled and said, "Since you're prepared, you must be hiding your trump cards."Then, Supremacy Lin Meng changed the topic and said, "But before today, I've already asked around carefully.""You have the strength to kill those above your level with Qinglian's bloodline. Your nascent spirit has even reached the level of supreme monarchs. Your strongest trump card is the two divine swords that kill upon contact with blood! ""How did you know that?"

Su Zimo asked.Supremacy Lin Meng said, "You're very smart, but you're still too young. Know yourself and know your enemy, and plan before you act. I haven't lived my life for nothing. I won't underestimate anyone, even someone as weak as you. ""With my capabilities, your divine swords won't be able to touch me at all."Su Zimo nodded.As a matter of fact, Supremacy Lin Meng was right. With Su Zimo's current capabilities, he wouldn't stand a chance in a fair fight.Today was the 14th of February. It would be a little difficult for him to run all the way to Xuan Mi Mountain to celebrate the festival with Die Yue. Sigh, I can only hope that my fellow cultivators won't be able to celebrate Valentine's Day...

Chapter 3318

The two of them faced each other.The blood qi in Su Zimo's body surged, supporting a world. Two sword lights tore through the chaos and landed in his palms. They were the Avici and Netherworld swords!Supremacy Lin Meng watched this scene calmly with a calm expression.He knew all of Su Zimo's methods.Right then, two balls of purple flames suddenly rose in Su Zimo's eyes and his aura changed drastically as well!"Eh?"Supreme Lin Meng frowned.Su Zimo was still at the perfected Dao Comprehension realm.However, for some reason, he felt his hair stand on end when he was stared at by the two purple flames in Su Zimo's eyes. It was as though there were no secrets on him at all!What was going on?The Su Zimo in front of him seemed to have changed into a different person!Supreme Lin Meng took a deep breath and calmed himself down.No matter what, there was still a huge difference in

their cultivation realms. He did not believe that a Dao Comprehension realm Supreme could hurt him! Supreme Lin Meng waved his hand gently and the Creation Great Dao rapidly condensed into a long saber that slashed down towards Su Zimo's head. At the perfected Dao Manipulation realm, one had already mastered the Great Dao. Su Zimo's eyes burned with purple flames as he stared at the Great Dao saber that was slashing down. He waved his sword and slashed at the saber in a seemingly casual manner. Clang! There was a crisp sound. The Great Dao saber broke with the sound! "Hmm?" Supreme Lin Meng's expression changed. How was that possible? No matter how sharp the two divine swords in Su Zimo's hands were, it was impossible for them to break his Great Dao weapon without sufficient strength! Even Supreme Evergreen and the other two revealed looks of bewilderment when they saw this scene. Supreme Lin Meng was a Sacred Race cultivator at the perfected Dao Manipulation realm. Su Zimo was only relying on the strength of a Supreme Heavenly Venerable. Even if he had a divine weapon, it was impossible for him to shake the Great Dao of a Supreme! Su Zimo wielded two swords and walked towards Supreme Lin Meng with a cold expression. Supreme Lin Meng hurriedly waved his hands and conjured the Great Dao. Many divine weapons condensed in midair and slashed towards Su Zimo.

Clang clang clang! A series of metallic sounds rang out. Su Zimo waved his Avici and Netherworld swords. He didn't use any techniques, but he managed to slice apart all the Great Dao divine weapons, turning them into nothingness! A hint of panic flashed across Supreme Lin Meng's eyes for the first time. Such a situation had completely exceeded his expectations and imagination. Supreme Evergreen and the other two were also watching with rapt attention. "Master, it seems that you didn't use brute force to break the divine weapon of the Great Path." As a bystander, Eternal Green Supreme Martial Artist could see everything clearly and he could vaguely see a trace of something. He said, "Look carefully, the places where my lord's sword strikes seem to be the weakest parts of the Great Dao divine weapon!" Supreme Hua Ruo and Supreme Huai An nodded as well. But in next to no time, Autarch Huai An frowned and said, "How is that possible? Unless you've already completely comprehended the Great Dao of Creation, otherwise, how could you find the flaw of a Great Dao weapon in an instant?" There was only one possibility for such a strange situation to occur. Su Zimo's mastery and comprehension of the Great Dao of Creation was above Supreme Lin Meng's! But in reality, Su Zimo cultivated the Great Dao of Chaos and not the Great Dao of Creation. Moreover, he was only at the perfected Dao Comprehension realm and had yet to reach the Dao Manipulation realm. It was even more impossible for him to control the Great Dao of Creation. The distance between the two of them was constantly closing. Su Zimo walked over confidently with his Avici and Netherworld swords in hand and easily dispelled Supreme Lin Meng's attack. "That's impossible!" Supreme Lin Meng's mind was in a mess as he exclaimed. "Do you know why I cultivated in the Chaos Sacred Land for 10,000 years?" Su Zimo asked indifferently. This sentence made Supreme Lin Meng even more confused. Cultivating in seclusion was obviously for cultivation. Could there be other reasons? In reality, Su Zimo had already cultivated to the perfected Dao Comprehension realm long ago. However, he wasn't in a hurry to leave. Instead, he continued to stay in the Chaos Sacred Land. His main goal wasn't Qinglian's true body, but Wu Dao's true body! He wanted to find Die Yue as soon as possible. He couldn't stay in the Chaos Sacred Land forever.

However, as long as he left, he might encounter danger. Even if he had the Universe Creation Diagram with him, he could only preserve his life. If Supreme Lin Meng found him, he would be trapped in there forever. Therefore, in the past 10,000 years, Wu Dao's true body had been refining several Great Daos

with the help of the Great Dao Sacred Fire in the Nether Blood Sea. Not only was there the Great Dao of Creation, but there were also the Great Daos that Supreme Evergreen and the others cultivated. When the Spirit Potency Art was released, with the help of Wu Dao's true body's purple eyes burning with the Great Dao Sacred Fire, the Great Dao weapons released by Supreme Lin Meng had no secrets at all! At this moment, Su Zimo could clearly see the veins of the Great Dao of Creation and find the weakest point. With the help of the Avici and Netherworld swords, he broke it in one strike! If Wu Dao's true body didn't successfully refine the Great Dao, Qinglian's true body wouldn't be able to break it even with the help of the Avici and Netherworld swords. Naturally, Su Zimo wouldn't explain this to Supreme Lin Meng. Supreme Lin Meng watched as his attacks were neutralized one by one, and Su Zimo was getting closer and closer. He became more and more flustered. When he looked into the eyes burning with purple flames, he even felt a burning pain in his eyes! Supreme Lin Meng didn't dare to release his Blood Qi to take on the Avici and Netherworld swords head-on. He hurriedly retreated and put some distance between them. "You've lost." Su Zimo stood where he was and didn't chase after him. He only said this calmly. Supreme Lin Meng's body shook when he heard this. His face suddenly turned pale, as if he had suffered a huge blow. Even his expression became a little dazed. Su Zimo put away his swords and stood there, quietly looking at Supreme Lin Meng in the distance. Right now, he wasn't able to kill Lin Meng for good. If Supreme Lin Meng turned around and fled, he wouldn't be able to catch up at all. However, this exchange was enough to intimidate Supreme Lin Meng so that he wouldn't dare to act recklessly in the future! "I've lost, I've lost ..." Supreme Lin Meng looked at Su Zimo and murmured softly. Countless thoughts flashed across his mind. How could this be? Could it be that the Sacred Leader had possessed me and was giving me a warning?

Supreme Lin Meng glanced at Supreme Evergreen and the other two not far away. Meanwhile, the three Nine Heavens Supremes were looking at him with complicated looks. Their gazes were a little dazzling. Supreme Lin Meng subconsciously avoided them. After today's incident, Supreme Lin Meng had even used their friendship of many years to stop them from attacking. However, he was still defeated by Su Zimo. How were they going to get along with each other in the future? How was he going to stay in the Chaos Sacred Land in the future? How was he going to face Su Zimo in the future? Shame, regret, fear, confusion ... In that instant, all sorts of emotions welled up in Lin Meng's heart, and the thought of committing suicide flashed through his mind! After a moment of silence, his eyes flickered with a hint of determination. He had decided to take that step! Dao Merging! A terrifying force suddenly burst out from Supreme Lin Meng's body! "Don't!" "Big Brother Lin Meng!" Supreme Evergreen and the others blurted out. They tried to stop him. Trying to merge with the Dao under such circumstances was no different from committing suicide after suffering such a great blow! However, they soon saw a relieved and apologetic look in Supreme Lin Meng's eyes. It was Supreme Lin Meng's choice. This was the only path left for him. Following a great shudder, Supreme Lin Meng's body calmed down once again. Under the crowd's gaze, his flesh and blood turned into dust as he died.

Chapter 3319

Supreme Evergreen and the other two couldn't help but sigh deeply upon seeing this. Even though they had lived for billions of years and were used to seeing death, they still felt a little sad when they saw Supreme Lin Meng reach this stage. Supreme Evergreen and the other two turned to look at Su Zimo. At this moment, the purple flames in Su Zimo's eyes had gradually faded and returned to normal. The oppressive feeling that he gave the three Supreme Martial Artists seemed to have disappeared as

well. The three Supreme Martial Artists looked at each other and went forward one after another. They knelt down and said in a deep voice, "My Lord, we have sinned ...""Rise." Before the three Supremes could finish, Su Zimo waved his sleeves and gestured for them to rise. Although the three Supremes chose not to help either side, they were actually on Supreme Lin Meng's side and tacitly agreed that he would kill Su Zimo and replace him. However, he didn't succeed in the end. Su Zimo said, "It's difficult to be loyal and righteous at the same time. This matter is difficult to choose. You are all people who value friendship and righteousness. What are you guilty of?" Supreme Evergreen and the other two stood up and thanked him. Su Zimo gave them a few more words of advice before leaving. He sped toward the southwest, riding the wind and drinking the dew. He encountered some obstacles along the way, but they were all daunting but not dangerous. After crossing the Southern Region, Su Zimo finally set foot in the Southwestern Region. There was an extremely obvious border between the two regions. In the Southern Domain, it was scorching hot. Scorched earth was everywhere, and even vegetation was rare. However, in the southwest territory, it was lush green and full of vitality. Between the lingering immortal mist, rainbows flew, and it was like a fairyland. Su Zimo came to a small town and bought a map of the Southwestern Region from a cultivator. He found the direction of Xuan Mi Mountain and set off again. About half a month later, Su Zimo finally arrived at his destination. As soon as he arrived near Xuan Mi Mountain, Su Zimo could feel that this place was different from the others. Along the way, he passed by thirty-six Heavenly Caves and seventy-two Blessed Lands. The Heavenly Caves and Blessed Lands here were similar to the 108 prefectures in the southeastern region and the 49 Blessed Lands in the Southern Domain. They were all occupied by powerful cultivators. These experts were high and mighty. They resided at the peak of immortal mountains, far away from the mortal world.

But in the vicinity of Xuan Mi Mountain, Su Zimo unexpectedly saw villages after villages. The houses were upright, the roads were crisscrossed, chickens and dogs were chirping, men plowing and women weaving, happy and contented. Su Zimo stood there in silence for a long time. Suddenly, he felt as if he had returned to the mortal world and was looking at scenes he had not seen in a long time. The men and women among them had different levels of cultivation. Some of them did not even cultivate and looked like mortals. But even powerful cultivators didn't act arrogantly when facing cultivators of lower cultivation. They didn't act arrogantly and bossily, and they didn't use their strength to bully the weak. In this village, there was no bloodshed. Instead, there was a sense of peace. Surrounded by the immortal mountains and cave abodes of the thirty-six Heavenly Caves and seventy-two Blessed Lands, this village seemed like a paradise that was far away from the hustle and bustle of the world. 'This is Xuan Mi Mountain?' If not for the fact that he knew that he was in the Great Thousand World, Su Zimo would have thought that he had returned to a village under Ping Yang Town. Su Zimo took a deep breath and walked towards the village ahead. In the distance, someone was sitting quietly like a rock in a straw raincoat. He was fishing by the stream without moving at all. In the forest, a woodcutter was waving his axe and chopping down trees. He was sweating profusely and there were already many branches piled up under his feet. In fact, Su Zimo did not even want to break the peace and tranquility. He merely walked along the path in the fields with much lighter footsteps. A few children were playing and chasing each other. One of the children did not look where he was going and ran in front of Su Zimo. He bumped into him and was a little dizzy. "Are you alright?" Su Zimo asked. "I-It's fine." The child bowed hurriedly. "Sorry, sorry." Su Zimo smiled. When the child saw Su Zimo's smile, he turned around and played with the other children. In the fields beside the path, a middle-aged farmer who was farming saw this scene and nodded to Su Zimo with an apologetic smile. The child who bumped into Su Zimo earlier had a similar

appearance to the middle-aged farmer. Su Zimo nodded as well.

Along the way, the people in the village did not show any hostility or wariness when they saw him as an outsider. Instead, they smiled kindly. Smoke curled above a house and the door was wide open. Through the window, one could see the smoke lingering inside. A burly man with bare arms could be seen vaguely. Su Zimo smelled a fragrance. It was not the fragrance of elixirs, but a delicacy cooked with the simplest ingredients in the world. The smell of smoke and fire that came from the mortal world made him feel inexplicably touched. "It's time to eat!" "Brat, come back and eat!" The burly man's rough voice came from the house. This voice also made Su Zimo come to his senses. Not far away, a child who was playing left his friends and skipped over. His stomach was growling, and his face was full of joy. "Excuse me, is this Xuan Mi Mountain?" The child ran past Su Zimo and asked subconsciously. The child turned around and asked, "Are you also here to learn from the mountain elder?" "Mountain elder?" Su Zimo was stunned. The child stretched out two fingers and pulled down the corners of his eyes. He made a funny face and said, "The mountain elder lives at the foot of the mountain over there. He's an old grandpa with a long face. You can recognize him at a glance." "Hey!" The burly man in the house had just finished cooking. When he heard the commotion outside, he wiped the grease off his hands with a rag and shouted, "Little brother, do you want to come in and eat together?" Su Zimo was stunned for a moment before smiling. "Thank you for your kind intentions, brother. I'm Su Zimo and I'm busy so I can't disturb you." "You're here to look for someone, right?" The burly man asked. Before Su Zimo could reply, the burly man pointed in a direction into the distance. "Go over there and look for her." Su Zimo was surprised and delighted. The burly man knew of his intentions. However, he did not know if the burly man was pointing in the direction of the mountain elder or Die Yue. Before Su Zimo could continue asking, the burly man had already brought the child into the house and was chowing down at the table. Su Zimo was a little uneasy but he still headed in that direction.

He had only taken a few steps when his heart skipped a beat and he snapped back to his senses! Along the way, there were a few people whose cultivation realms should have already reached the perfected Dao Manipulation realm and were Supreme Venerables! There were fishermen fishing by the stream, woodcutters cutting wood in the forest, farmers farming in the fields and even that burly man earlier on ... However, those people had already blended into their surroundings. At first glance, one would only think of them as ordinary fishermen and woodcutters. In deep thought, Su Zimo did not stop in his tracks. Before long, a faint fragrance drifted over from the front that was familiar. It was the fragrance of peach blossoms. Su Zimo raised his head. Not far away, there were peach blossom trees at the foot of the mountain. At that moment, the peach blossoms were in full bloom and countless butterflies were dancing between the flowers. A blood-robed woman leaned against the peach blossom tree with her body hanging in the air. Her slender legs were casually draped over the branches and she was resting with her eyes closed. Her black hair was like a waterfall that scattered over her shoulders and her expression was lazy and beautiful. The human-faced peach blossoms were surrounded by butterflies. Everyone, happy Lantern Festival and reunited ~
