

62 Five Great Families

Five Great Families Meeting, at the center of the eastern continent. 1

The Five Great Families consisting of the Su Family, Gao Family, Xie Family, Yu Family, and Xiao Family, were having a meeting pertaining to plenty of different problems.

The agenda? Remove anything that threatens the authority of the five families. But even with one another's problems, they needed to work together since their ancestors in upper heaven didn't hold authority over the Mortal Heaven anymore.

It was as if no one took them seriously, that even bandits tried to challenge them.

They all had a frown on their faces as the first problem on the table was addressed.

Man Gao, the patriarch of the Gao family, spoke. He was a cultivator in the General Spirit Realm and also had the appearance of a man who had just gotten into his 60s.

However, despite his appearance and age, he still had a vigorous body.

"Take Su, what happened to the two sects? Why are they now not fighting with each other?"

Take Su, the patriarch of the Su Family was also a cultivator in the same realm. However, his appearance didn't look like Man Gao's. His body was skinnier than his and he also had long-tied white hair as well as a long white beard.

He frowned while looking at Man Gao, who was talking as if they weren't equal and was talking to his subordinate. And as his actions raked up tension between them, someone intervened.

"Easy you two. Gao of the East, and also Su of the North. I hope you don't fight about things that have been threatening your region. We must work together." It was Anton Xie who intervened.

Anton Xie was the patriarch of the Xie Family, but different from the two. He was younger than both of them and also had a physically fit-looking body.

The two patriarchs of their respective families just looked at Anton Xie as if they didn't care

about him. There was also a hint of disdain in their eyes, ignoring what Anton Xie said.

Anton Xie could only shrug as if it was just a joke, then snickered afterward.

"I guess you both are at the edge."

"Stop with this stupidity. Men will always be men. Always keeping their emotions instead of their heads." One said, a female cultivator to be precise, but in the middle of the General Spirit Realm.

She was a cultivator with a great aura. Despite some wrinkles appearing, she was still so beautiful that her fierce eyes could make any man surrender.

Kyla Yu, the matriarch of the Yu Family and also the Great Family of the Western Region.

The argument between Take Su and Man Gao was still going on despite a tremendous aura coming from the end of the table they were using.

"You are not going to stop it?"

And in an instant, the room was covered with

silence.

It was a domineering aura coming from one person in the room, and despite being surrounded by four strong cultivators, she didn't become bothered by it and just acted the way she wanted.

In fact, she didn't need to think of it as she was the strongest of them all. She might even be able to match the four and still come out on top in the end.

The Matriarch of the Xiao family and also the overseer of the Five Great Families, Yuna Xiao. She was in the middle of the King Spirit Realm but also had mysterious power behind her aura. And not just the most beautiful of the five, she was the one who had the youngest appearance of all, but her age begged to differ. But in this room, she was covered with shadows as the room was lit limitedly.

"You are all making a fuss over this? What happened to the three idiots? You still haven't found them?" Yuna Xiao asked in a slightly irritated tone.

"Please forgive us, Your Grace, but we didn't find

the Three Siblings. They are too slippery that they even used all of the bandits in the eastern region. Right? Man Gao?" Take Su responded, and that made Man Gao click his tongue in annoyance.

"Please forgive us, Your Grace. But after someone appeared in the eastern region and suddenly wiped out everyone from the Red Moon Castle, they weren't able to be found." Man Gao followed with words to clean himself.

However, Yuna Xiao didn't reply and was just in deep thought. Her eyes were just closed.

"How about one in the Morning Sun City, Man Gao? The shop that suddenly appeared out of nowhere in the underworld? How about her? Do you think we can control her?" Yuna Xiao asked.

Man Gao just grumbled inwardly as he cringed from the pain he was feeling right now.

"I beg to apologize once again. She was a bit slippery, just like the Three Siblings." Man Gao answered respectfully.

Then, after hearing it, Kyla Yu just smiled in amusement at how irresponsible the other great

family was.

Inside her mind, she was grateful that no one was playing in her region.

"You don't have to worry anymore. I'll just step out to finish all these things. It's my job as an overseer anyway. In this way, the ancestors won't be hateful towards us and might even send us assistance. If they were still interested."

With just those words, the tide of the meeting changed into a more organized one. The eyes of the other four cultivators looked at Yuna Xiao with admiration. There was nothing more, and nothing less. They were thankful that their Grace was someone capable of fixing things.

In the past, when there were situations they couldn't easily handle, the overseer of the Five Great Families stepped up, it was surely fixed and managed.

"Thank you, Your Grace."

"Then, about this cultivator that wiped out three cities? What's his identity?" Yuna Xiao asked.

"It was still unknown. But we do have exact

information about his appearance. He had red hair and also wore a weird outfit that was some sort of a type of robe." Kyla Xie reported.

"The same style was also seen in the north." Take Su added.

"And also in the east. Someone who was a different individual was sighted wearing the same style, but it was 3 months ago." Man Gao added.

And thus, the discussion continued. Without wasting any seconds, with the guidance of Yuna Xiao, all business and problems were settled. She was like a treasure that records everything, but without literal recording, she just remembered and memorized it.

After having a meeting, Yuna Xiao stood up with a sigh.

"I will look for the cultivator that terrorizes the eastern region. After that, I will look for the individual that made the two dark sects fix their relationship. Also, the three idiots." Then another sighed, followed by her face being revealed from being covered by a shadow.

Her seemingly platinum for a moment but black hair brushed against her shoulders as her long eyelashes followed the blink of her eyes. The deep eyes that seemed to be uninterested in things just complimented her lips and body proportions.

"Let's make the eastern continent become the most organized continent in the whole Mortal Heaven... again."
