

I have, however, one advantage over the Elizabethans. I write in full view of the Middle Ages, which may be said to have been rediscovered in the middle of the nineteenth century after an eclipse of about four hundred and fifty years. The Renaissance of antique literature and art in the sixteenth century, and the lusty growth of Capitalism, between them buried the Middle Ages; and their resurrection is a second Renaissance. Now there is not a breath of medieval atmosphere in Shakespear's histories. His John of Gaunt is like a study of the old age of Drake. Although he was a Catholic by family tradition, his figures are all intensely Protestant, individualist, sceptical, self-centred in everything but their love affairs, and completely personal and selfish even in them. His kings are not statesmen: his cardinals have no religion: a novice can read his plays from one end

to the other without learning that the world is finally governed by forces expressing themselves in religions and laws which make epochs rather than by vulgarly ambitious individuals who make rows. The divinity which shapes our ends, rough hew them how we will, is mentioned fatalistically only to be forgotten immediately like a passing vague apprehension. To Shakespear as to Mark Twain, Cauchon would have been a tyrant and a bully instead of a Catholic, and the Inquisitor Lemaître would have been a Sadist instead of a lawyer. Warwick would have had no more feudal quality than his successor the King Maker has in the play of Henry VI. We should have seen them all completely satisfied that if they would only to their own selves be true they could not then be false to any man (a precept which represents the reaction against medievalism at its intensest) as if they were beings in the air, without public responsibilities of any kind. All Shakespear's characters are so: that is why they seem natural to our middle classes, who are

comfortable and irresponsible at other people's expense, and are neither ashamed of that condition nor even conscious of it. Nature abhors this vacuum in Shakespear; and I have taken care to let the medieval atmosphere blow through my play freely. Those who see it performed will not mistake the startling event it records for a mere personal accident. They will have before them not only the visible and human puppets, but the Church, the Inquisition, the Feudal System, with divine inspiration always beating against their too inelastic limits: all more terrible in their dramatic force than any of the little mortal figures clanking about in plate armor or moving silently in the frocks and hoods of the order of St Dominic.

Chapter 37 TRAGEDY, NOT MELODRAMA

There are no villains in the piece. Crime, like disease, is not interesting: it is something to be done away with by general consent, and that is all about it. It is what men do at their best, with good intentions, and what normal

they are not committed by murderers. They are judicial murders, pious murders; and this contradiction at once brings an element of comedy into the tragedy: the angels may weep at the murder, but the gods laugh at the murderers.

Chapter 38 THE INEVITABLE FLATTERIES OF TRAGEDY

Here then we have a reason why my drama of Saint Joan's career, though it may give the essential truth of it, gives an inexact picture of some accidental facts. It goes almost without saying that the old Jeanne d'Arc melodramas, reducing everything to a conflict of villain and hero, or in Joan's case villain and heroine, not only miss the point entirely, but falsify the characters, making Cauchon a scoundrel, Joan a prima donna, and Dunois a lover. But the writer of high tragedy and comedy, aiming at the innermost attainable truth, must needs flatter Cauchon nearly as much as the melo-dramatist vilifies him. Although there is, as far as I have been able to discover, nothing against Cauchon that convicts him of bad faith or exceptional severity in his judicial relations with Joan, or of as much anti-prisoner, pro-police, class and sectarian bias as we now take for granted in our own courts, yet there is hardly more warrant for classing him as a great Catholic churchman,

completely proof against the passions roused by the temporal situation. Neither does the inquisitor Lemaître, in such scanty accounts of him as are now recoverable, appear quite so able a master of his duties and of the case before him as I have given him credit for being. But it is the business of the stage to make its figures more intelligible to themselves than they would be in real life; for by no other means can they be made intelligible to the audience. And in this case Cauchon and Lemaître have to make intelligible not only themselves but the Church and the Inquisition, just as Warwick has to make the feudal system intelligible, the three between them having thus to make a twentieth-century audience conscious of an epoch fundamentally different from its own. Obviously the real Cauchon, Lemaître, and Warwick could not have done this: they were part of the Middle Ages themselves, and therefore as unconscious of its peculiarities as of the atomic formula of the air they breathed. But the play would be unintelligible if I had

not endowed them with enough of this consciousness to enable them to explain their attitude to the twentieth century. All I claim is that by this inevitable sacrifice of verisimilitude I have secured in the only possible way sufficient veracity to justify me in claiming that as far as I can gather from the available documentation, and from such powers of divination as I possess, the things I represent these three exponents of the drama as saying are the things they actually would have said if they had known what they were really doing. And beyond this neither drama nor history can go in my hands.

Chapter 39 SOME WELL-MEANT PROPOSALS FOR THE IMPROVEMENT
OF THE PLAY

I have to thank several critics on both sides of the Atlantic, including some whose admiration for my play is most generously enthusiastic, for their heartfelt instructions as to how it can be improved. They point out that by the excision of the epilogue and all the references to such undramatic and tedious matters as the Church, the feudal system, the Inquisition, the theory of heresy and so forth, all of which, they point out, would be ruthlessly blue pencilled by any experienced manager, the play could be considerably shortened. I think they are mistaken. The experienced knights of the blue pencil, having saved an hour and a half by disembowelling the play, would at once proceed to waste two hours in building elaborate scenery, having real water in the river Loire and a real bridge across it, and staging an obviously sham fight for possession of it, with the victorious French led by Joan on a real horse. The coronation would eclipse all previous theatrical displays, shewing, first, the

procession through the streets of Rheims, and then the service in the cathedral, with special music written for both. Joan would be burnt on the stage, as Mr Matheson Lang always is in *The Wandering Jew*, on the principle that it does not matter in the least why a woman is burnt provided she is burnt, and people can pay to see it done. The intervals between the acts whilst these splendors were being built up and then demolished by the stage carpenters would seem eternal, to the great profit of the refreshment bars. And the weary and demoralized audience would lose their last trains and curse me for writing such inordinately long and intolerably dreary and meaningless plays. But the applause of the press would be unanimous. Nobody who knows the stage history of Shakespeare will doubt that this is what would happen if I knew my business so little as to listen to these well intentioned but disastrous counsellors: indeed it probably will happen when I am no longer in control of the performing rights. So

perhaps it will be as well for the public to see the play while I am still alive.

Chapter 40 THE EPILOGUE

As to the epilogue, I could hardly be expected to stultify myself by imply

ter, and a more important one. So I am afraid the epilogue must stand.
