

Schoolgirl 1541

Chapter 1541: was for the Queen, Supreme

Si Yi didn't stay for long because the cloud note was already far away.

He believed that it wouldn't be long before his family's little note's stomach would be stuffed with a little si yi.

HMM...

It was time for his heir to be born.

If the cloud note knew Si Yi's thoughts at this moment, it would probably glare at him and lower its head in disappointment.

...

Yao Lili and Lin Wan didn't know what happened on the pirate ship.

Joy Island amusement park was indeed a well-known amusement park in the world. After Yao Lili and Lin Wan walked around the place, they could barely grab the food and dolls in their hands.

Lin Wan had a great time today. The most important thing was that she was actually playing with the Big Star Yao Lili!

God! This was something that Lin Wan never dared to imagine in the past.

After meeting up with Yun Jian, the group returned to the H Nation's imperial palace.

Yun Jian and Lin Wan came out to play during the weekend. When it was Monday, they still had to go back to school.

Therefore, the two of them had dinner at the h nation's imperial palace and planned to take a plane back to the country.

"You're leaving? ! Why? ! Is it because we didn't treat you well enough? !" Upon hearing the news that Yun Jian was leaving, Richard straightened his body and asked loudly in shock.

The cloud tablet was leaving?

She was leaving so soon?

Then how could he leave her in H Nation?

Richard thought of his mother, Marcia, who had promised to help him keep the cloud tablet, so he turned his head to look at Marcia.

However, he saw Queen Marcia nodding at Richard, hinting that he should not be impatient.

Only then did Richard Calm down.

At this time, everyone was eating at the long table. Queen Marcia was sitting in the most noble position.

Hearing Richard's exclamation, Yun Jian's eyes darkened, but she ignored it.

Instead, it was Yao Lili who answered Richard's words for Yun Jian:

"They still have to go back to school."

Yao Lili's words made Richard's eyes darken again and again. Richard almost said to Yun Jian, "Our country H is so good, why do you have to think about returning to country Z?"

But after thinking for a while, Richard still held back.

"What happened with Liu Yan was my fault. Don't mind it. Stay here for a few more days." Queen Marcia looked at the cloud note nobly and said softly.

Even Marcia's apology was full of nobleness. It was obvious that she was the queen, and the people sitting below her had a lower status than her.

"I will go back to country Z soon." After hearing Marcia's apology, Yun Jian did not compromise. She had never changed her initial thoughts for anyone.

"Isn't our country H Good? Why are you in a hurry to Leave?" Queen Marcia asked again.

When she said this, Marcia's voice rose twice.

When Marcia said this, it was as if she did not hear it at all. Yun Jian and Lin Wan were going back to school, so they went back to Country Z.

"Queen, they are really going back to school..." even Yao Lili was a little helpless against Marcia's dictatorship, so Yao Lili spoke again.

"Since everyone is sitting here, I might as well say it directly. Yun Jian, I misunderstood you before. Now the misunderstanding is resolved. If you stay, I will let you become the future Queen of Country H! I will marry my son Richard in three days!"

Marcia's words were rather dictatorial. She did not even consider whether Yun Zhi would agree with her decision.

Si Yi listened to Marcia's words. His eyes that were as deep as an eagle's raised sharply. His eyes instantly reflected a strong murderous intent. Just as Si Yi was about to speak, Yun Zhi grabbed Si Yi's hand and hinted him to keep quiet.

Then, Yun Jian stood up on his own.

"I think I must have let you guys misunderstand something before. What Queen of King H? I don't care. It seems that there's no need to eat this meal anymore, so we'll never see each other again."

When Yun Jian said this, she gestured for them to stand up.

Lin Wan was suspicious for a moment.

What... was going on?

However, Lin Wan stood up with the others.

“How dare you!” Just as they were about to turn around and walk out of the door, Marcia slammed the table and stood up.

“I’m giving you the future queen of H Nation. You Don’t want such a great honor? To be honest, I don’t like a woman like you. If it weren’t for My Son’s love for You, H Nation would never accept a woman like you!”

Marcia’s every word was filled with a strong sense of charity.

It was as if it was a supreme honor to be the future queen of her country.

Chapter 1542: does not exist in this world

Marcia felt that the words she said were like an imperial edict, and Yunjian was supposed to accept what she said.

But in fact, even Yao Lili could not accept Marcia’s tone of voice.

That was why Yao Lili had told Yunjian that although Su Li was Marcia’s child, Su Li was completely different from her own mother, Marcia.

Su Li was a good child, not like Marcia, who was dictatorial and overbearing.

Marcia’s words would be unacceptable to anyone.

What was even more ridiculous was that Marcia felt that her words were like an imperial edict. There was nothing wrong or wrong with them.

“I don’t care about the position of King H’s queen. This position is a treasure to you, but to me, it is a useless position! Only a useless person would sit in this position forever!”

Only a woman who did not have her own power and strength would guard her position as a treasure.

Without a doubt, if one day H Kingdom was destroyed, then Marcia, the Queen, would probably be even worse than a commoner!

Because she would only rely on men! She only knew how to please men to exchange for this position!

To be honest, Marcia now lost the throne of Queen and had nothing!

“How dare you!” Marcia was so angry that she slammed the table again.

Yun Jian actually said that she was a waste! ?

She actually said that the position she was sitting in was a waste!

“My Son is the prince of H Kingdom and will be the king of H Kingdom in the future! How dare you say such words! Fine! You Don’t deserve to be the future queen of H Kingdom! But don’t even think about leaving today!”!

“Even if I want you to be my son’s concubine, I still want you to stay! Men! Surround them for me! Today, you won’t be able to escape even if you have wings!”

Marcia slammed the table and shouted a few words. At this moment, she even threw away the cultivation that she had maintained for so many years. Her carefully dressed face was extremely ferocious at this moment.

Marcia originally planned to let Yunjian be the woman of her son Richard, the future queen of H Kingdom!

But now Marcia had changed her mind. A woman like cloud note was not worthy of her son Richard!

But her son Richard was already 25 years old. Up until now, he had not taken a fancy to a woman and had not given birth to an heir!

It was rare for Richard to take a fancy to cloud note, so Marcia wanted to force cloud note to stay first, so that cloud note could give birth to a child for Richard, and first stabilize her son Richard's position in the H Nation.

After a long time, she would give Richard a wife and then let Richard's first wife give birth to an heir for him.

When that time came, the cloud note would go wherever it wanted to go. She would not care at all!

Marcia's wishful thinking was very good. She was also sure that her H Nation Royal Army could stop the cloud note.

Moreover, for Marcia, she felt that giving the cloud note the status of a concubine would make the cloud note extremely moved.

As soon as Marcia finished speaking, a large group of guards rushed in from outside the palace.

These guards all held submachine guns and pistols in their hands. The scene was so grand that it made people scared.

Marcia raised her head high with confidence.

Yun Jian held Si Yi's hand and comforted him so that he would not make a move.

Otherwise, if Si Yi made a move, H Nation would become history.

The people of H Nation were innocent. Only Marcia was at fault.

Yun Zhi glanced around and smiled coldly. She met Marcia's eyes and said, "Do you think these people can keep me here?"

"Why not? Are You a God? The Royal Army of H Nation is not something you can deal with!" Marcia said confidently.

The Royal Army of H Nation was a powerful army that reverberated around the world!

Marcia did not believe that the cloud note could escape?

However, just as Marcia finished speaking, Richard also felt that his mother's action would definitely keep the cloud note.

The cloud note smiled contemptuously. Her smile was slightly sweet, but in the eyes of everyone present, it was creepy.

“Your H Nation’s royal army is indeed powerful. You’ve even wiped out a group of international criminal organizations,” Yun Zhi said indifferently.

Hearing Yun Zhi’s words, Marcia knew how powerful her H Nation’s royal army was. She raised her head confidently.

However, before Yun Zhi could finish speaking, Yun Zhi’s words were heard again in the next moment. Her words resounded throughout the entire place. It made Marcia, Richard, and all the soldiers around who belonged to the H Nation’s royal army.., their expressions changed drastically.

The cloud note was clear and loud. The arrogant words that did not have any low-key tone were heard throughout the entire place:

“Although your royal army of H Nation is powerful, I believe that my ancient killing mercenary group of Sha God will not be any weaker than your royal army of H Nation! An army that can stop me, Sha God, does not exist in this world yet!”

Chapter 1543: the grass on the grave is already taller than you

The crisp voice of the Yun Jian spread to every corner of the scene.

When they first heard the sound of the Yun Jian, everyone around was stunned for a moment. Other than Si Yi, no one reacted immediately.

Si Yi stood beside Yun Jian. If it wasn’t for Yun Jian grabbing his hand, he would have made his move long ago.

Why would he wait until now?

However, it was because Yun Jian’s tender hand was holding him and feeling the warmth of her tender hand that Si Yi did not attack immediately.

Based on today’s situation, he would definitely let Prince Richard and Queen Marcia know how close they were to death!

Si Yi’s expression was calm and at ease, but the people around him who knew what Yun Jian meant quickly reacted.

Yun Jian just now...

What did she just say?

She said that Queen Marcia and the H country’s royal army were indeed powerful, but her sha God’s ancient kill mercenary group would not be any weaker than queen Marcia’s H country’s royal army?

She also said that an army that could stop her Sha God did not exist in this world?

Sha God?

Ancient kill mercenary group?

What!

Sha God...

The Sha God that Yun Jian spoke of, could it be that he was the number one spy in the international spy rankings, the King of spies that no one had ever been able to surpass, the king that made people tremble in fear, the king that made countless business politicians in the world shy away? Sha God? !

After Queen Marcia, Richard, and all the people from the H Nation's royal army heard Yun Jian's words, their expressions changed drastically.

Yao Lili was also shocked.

Yao Lili only knew about Yun Jian's strength and the fact that Yun Jian could come and go freely in the dark soul organization. Therefore, she judged that Yun Jian was definitely an existence comparable to the four leaders of the dark soul organization.

However, she had never thought that Yun Jian was actually the number one on the international ranking list of agents! ?

"SS.....you... No Wonder, no wonder! No wonder your name is SS, so you are the number one on the international ranking list of agents!"

Yao Lili cried out in fear as she looked at Yun Jian.

Yao Lili had never asked Yun Jian about his identity before, but that did not mean that she was not curious.

However, Yao Lili knew that the less she knew about this kind of thing, the better.

Hearing the question that she had been puzzled about for many years from Yun Jian today, Yao Lili was really shocked.

So the person who had saved her back then was the number one spy on the international spy rankings, the god of detection!

Queen Marcia and Richard were still in a daze. They stood there in a daze, unable to react for a long time.

It was not until Yao Lili's scream that Marcia and Richard finally reacted.

Marcia and Richard Naturally knew what the No. 1 spy on the International Spy List, Sha Shen, represented.

When Marcia and Richard first heard the words of the cloud note, they were completely stunned on the spot.

It was not until they heard Yao Lili's voice that they recovered from their shock.

When Marcia heard the cloud note claiming to be the number one spy on the international spy rankings, she was about to retort in a cold tone when she heard Yao Lili's voice.

Yao Lili had called the cloud note SS from the very beginning, and it was true.

At the beginning, no one knew what Yao Lili meant by calling the cloud note SS.

But now, after hearing cloud note call himself SS...SS, they recalled how Yao Lili had always called cloud note SS...SS.

Sha God? SS?

“You... you really are? Could it be that you really are the number one sha God on the international ranking list of agents? The BOSS of the current ancient killing mercenary group?” The Queen’s noble posture collapsed again and again, her pupils constricted, and she suddenly stared at cloud note and let out a crazy cry.

The cloud note, the woman her son Richard had taken a fancy to, was actually the No. 1 spy on the international spy rankings, the god of the moment?

The king of the spies who made the whole world tremble with fear! ?

Queen Marcia had just finished asking this question to the cloud note when the cloud note opposite her took two steps towards her.

Seeing this, Marcia’s heart jumped violently, and her face froze in fear.

The next second, she saw the cloud note slowly walk two steps towards Marcia. She curled her lips coldly, and her cold voice rang out, causing Marcia to be so scared that even the crown on her head fell off:

“In this world, the people who dare to impersonate my sha God are already taller than you. Those who dream of dealing with me have already gone to the eighteenth level of hell, and they are your escape Route!”

Chapter 1544: 100 shots, lock onto the palace

Sha Shen, who was ranked number one on the international spy rankings, was a world-class existence!

Not only that, she was also the BOSS of the Gu Sha mercenary group!

Just one Gu Sha mercenary group was enough to compare to the H Nation’s royal army.

No! The strength of the Gu Sha mercenary group was not on the same level as the H Nation’s royal army!

The Gu Sha mercenary group’s strength was many times more powerful than the H Nation’s royal army!

In other words, if the GU sha mercenary group wanted to, it even had the strength to destroy a country!

At least the H Nation’s power, the Gu Sha mercenary group could fight against it!

Therefore, Marcia’s face completely darkened.

Especially after hearing what Yun Jian said, Marcia was even more horrified.

What kind of cultivation as a queen? To Marcia at this moment, it did not exist at all!

Marcia’s face turned pale.

Fortunately, Lin Wan was not here at this moment. Otherwise, she would definitely be scared out of her wits. It would be difficult for Yun Jian to explain.

“Even if, even if you are the number one sha God on the international spy rankings... .. So What ! Don’t forget, your brother and sister are still here ! Our H Nation’s royal army may not be able to trap you, but don’t forget, your brother and sister will also die!”

Marcia was so scared by the words of the cloud note that the crown on her head fell off. At this moment, she hurriedly squatted on the ground and picked up her crown and put it back on her head. From the corner of her eyes, she saw Little Yunzhu and the other two.

So Marcia used this threatening cloud note.

Of course, the moment Marcia heard the cloud note say that she was the Sha God, she was completely terrified.

The Sha God, who was ranked number one on the international spy list! How would she dare to leave the cloud note behind! Unless she, Marcia, really did not want to live anymore!

However, the situation now was that the cloud note meant that she was not going to let her go.

Marcia’s entire body trembled violently, but as the queen of King H, Marcia forced herself to calm down.

Compared to Marcia’s reaction, Richard looked at the cloud note with infatuation and despair.

She was the No. 1 spy on the International List, Sha Shen!

Did this mean that there was no hope for him!

Marcia’s words sounded quite right to the people around her.

Yes, Sha Shen was indeed powerful, and no one dared to refute this statement. But as powerful as he was, the cloud note now had a family with it!

She was not alone. She had brought along Xiao Yunzhu and the other two.

As the number one spy in the international ranking, Sha Shen was naturally able to escape easily from the guns of the H Nation’s royal army.

However, it was different now. Yun Jian was not alone.

She had brought along Xiao Yunzhu and the other two! It was not difficult for her to escape alone. However, what about bringing along Xiao Yunzhu and the other two?

Marcia was full of confidence this time.

She could not afford to provoke the god of shapeshift! Then she would threaten the god of shapeshift. The God of shapeshift would definitely compromise if he was threatened.

Then, she would ask Yun Jian to take Xiao Yunzhu and the others and leave as soon as possible.

Sending the god of plagues away and not causing a great disaster because of her actions was Marcia’s only thought at the moment.

However, just as Marcia finished speaking, Yao Lili interjected. Yao Lili's words caused Marcia's expression to change drastically:

"SS once led dozens of people to rush out of the attack of hundreds of gold-medal assassins! Not to mention three or four people to escape the attack of the Royal Army of H Nation!

"I know her. With her strength, even if she left with her people safe and sound, she still has the strength to wipe out the entire royal army of H Nation!"

Yao Lili's words were very firm, because she had seen the strength of the cloud note back then!

"You, what nonsense are you talking about? She... how is this possible..." Yao Lili's words made Marcia flabbergasted.

Just when Marcia was flabbergasted and could no longer express the fear in her heart with panic.

Si Yi, who was standing not far away, strode forward. He took two steps towards the cloud paper, stretched out his arm, and pulled the cloud paper into his arms.

Si Yi pulled the cloud paper into his arms in front of everyone. His thin lips curled up as he said coldly to Marcia and Richard,

"I, the dark soul organization, have 100 missiles locked onto the inside and outside of the H Nation's imperial palace. You will pay the price for your foolish actions."

The women who wanted to lay their hands on him, with just them? were they worthy?

Chapter 1545: the terrifying incident, Si Yi had done it

Si Yi had made a move, and the H Nation still wanted to live?

At this moment, the words 'dark soul organization' deeply stimulated everyone present, and everyone's expressions changed at this moment.

Especially Marcia and Richard.

One ancient massacre mercenary group and one God of destruction was enough for Marcia and Richard to be terrified.

Marcia had completely given up on the idea of leaving the cloud note.

However, the problem now was that Marcia had given up on this ridiculous idea, but the cloud note and Si Yi didn't agree to it.

After causing such a mess, they wanted to stop?

There was no such thing as an easy solution in this world!

"Dark soul organization! Didn't the dark soul organization not participate in any countries or disputes? Why..." Marcia's expression changed again and again, and her face couldn't be described as dumbfounded anymore.

An ancient assassin mercenary group from before, and now dark soul organization.

These two organizations were the assassin organizations that caused an uproar in the world today!

Marcia was so scared that she almost had a heart attack. Her reserved and elegant posture in her life had completely collapsed at this moment.

“You... What do you want to do to my country H? !” Richard finally realized the meaning of the word ‘fear’ at this time. He raised his head and looked at Si Yi in horror. The expression in his eyes was endless fear.

“H nation will be destroyed because of you!” Si Yi did not even look at Richard. He did not let the cloud tablet speak. Instead, he held the cloud tablet in his arms and said these seven words to Richard in despair.

H Nation will be destroyed?

No! This was a fact that was harder to accept than death for Richard.

“I don’t want the cloud tablet! Don’t want the cloud tablet to stay and be my woman! Let Us Go! Let Us Go!”

Richard ran towards Si Yi. Richard was not short, but at this moment, he looked like a defeated captive. It was hilarious.

When Si Yi heard Richard say, “Don’t want the cloud paper to stay and be my woman,” his eyes suddenly flashed sharply.

The next second, when Richard ran to Si Yi and begged for mercy, Si Yi raised his foot and kicked Richard to the ground. He held the cloud paper tightly with one hand. When his other foot kicked Richard to the ground beside him, he stepped on Richard’s abdomen.

Then, Si Yi used his foot to step on Richard’s abdomen. He tossed and turned, and the internal organs in Richard’s abdomen, which was so strong, made a “Gulp” sound.

“My woman can only be defiled by me. Who do you think you are to plagiarize my woman? Prince of H? Even if you are the king of H, you are still a waste to me!”

As Si Yi spoke, his long and slender leg stepped on Richard’s abdomen even more violently.

Richard’s face turned green from being stepped on.

The surrounding H royal army had long been frightened by Yun Jian and Si Yi. At this moment, no one dared to move.

“De’er! De’er! No, no, no! This is all my fault! Let Us Go! I am kneeling down for you! Please let De’er go! De’er is innocent! He is not wrong! Please let De’er Go!”

Marcia looked at her son Richard who was being stepped on by Si Yi. She really regretted it this time.

Seeing that Richard was almost suffocated by Si Yi, Marcia directly gave up her dignity as a queen. She actually knelt down in front of Si Yi in front of everyone.

But who was Si Yi? Why would he care about Marcia?

Just when Marcia thought that things had reached the point of no return, something even more desperate came.

At this time, a guard rushed in from outside the gate.

When she saw this guard, Marcia was stunned for a moment.

This guard was Marcia's husband, the closest confidant of the king of H Nation.

Before Marcia could wonder why the closest confidant of the King would appear here.

The guard exclaimed in an exaggerated tone:

"Queen! Prince! "Oh no, I don't know what's going on. The technical department of the country H that controls the country has been completely hacked by a large group of hackers. All the money in the banks has been frozen, and all the weapons and equipment have been completely hacked. The king is in a hurry to head to the front hall. You should go and take a look too!"

Just as the Guard finished speaking, Marcia and Richard suddenly looked up at Si Yi with narrowed eyes.

For some reason, they had a terrible feeling. Their instincts told them that such a terrifying hacking incident had never happened in the history of country H. It was this terrifying man in front of them who had done it!

Chapter 1546: Si Yi possess, she is his

He can actually do this!

At this moment, Marcia and Richard even wanted to die.

If Marcia and Richard were not sure Si Yi was from the dark soul organization just now, then Marcia and Richard were sure now.

Because in today's world, other than some powerful countries, only the dark soul organization could completely disrupt the H Nation's technical department in just a few minutes!

This was too terrifying!

In the high-tech world, if a hacker was powerful enough, he could accomplish many incredible things!

And the dark soul organization was a place with countless elites and talents.

After the Guard finished his words, he was also shocked by the atmosphere at the scene.

Why did their h nation's queen kneel down to a strange man!

The Prince of the H Kingdom was actually stepped on by this strange man!

The guard who did not know the situation shouted and rushed towards Si Yi.

At the same time, the guard took out a pistol from his waist and tried to point the muzzle at Si Yi. he shouted, "Let go of our prince"and rushed towards Si Yi.

However, just as the guard was about to shoot, Si Yi picked up Richard on the ground and used Richard to block the guard's gun.

The guard reacted quickly. Seeing Si Yi use the prince to block the gun, he immediately put away the pistol and did not shoot.

However, at the same time, Si Yi's long legs took two steps forward and kicked the guard away. The speed was so fast that the surrounding people could not see clearly.

At the same time, his hand was tightly wrapped around the thin waist of the cloud paper. He was reluctant to let go of the cloud paper.

After kicking the guard away, Si Yi stepped on Richard's body again.

However, this time, Si Yi did not step on Richard's abdomen, but directly stepped on Richard's head.

Richard's face was completely lost when Si Yi stepped on his head.

As a prince of a country, as a superstar who was famous all over the world, he did not even have the ability to resist when a man stepped on his head like this.

Richard was both ashamed and desperate.

"Ah! Ah! Kill me! Ah!" Richard was unwilling to continue being humiliated.

However, this was not the end.

Si Yi stepped on Richard's head, and Richard could not turn over at all.

The strength of his feet was astonishing, and Richard, who was so strong, could not turn over even if he wanted to.

The pain on his body and the humiliation in his heart made Richard almost collapse.

But this was not the end. Si Yi held the cloud paper in one hand and stepped on Richard's head. He said to Richard Word by word,

"She is my woman. You are not allowed to even dream about it. Her whole body belongs to me! Even if she is defiled, it can only be me! Because she belongs to me!"

Si Yi's possessiveness was shocking. After he said the last word to Richard, he raised the foot that stepped on Richard's head. But at the same time, he raised his foot and kicked Richard's face, he directly knocked Richard unconscious.

Si Yi was not angry. He just dealt with a matter very calmly.

His little note could only be his! Even if he fantasized about it, it could only be him! Her inside and out, big to every part of her skin, small to every cell, could only be his!

His private property!

Even if it was defiled, it could only be done by him!

"Ah! Del! Del! My del!"

Marcia completely lost her dignity as a queen this time. She saw that Richard had fainted. She was kneeling on the ground, but now she was so scared that she crawled toward Richard like a dog.

The crown on her head also fell off. Marcia did not look like a queen at all.

Richard and Marcia were completely scared out of their minds.

Si Yi was already holding the little hand of the cloud paper and walking out. Before he left, he also took the chance to bring the three of them along.

He carefully held the little hand of the cloud paper with one hand and grabbed the collars of the three of them with the other hand. He directly dragged the three of them outside.

Seeing this, Yao Lili also followed him out. She planned to find Lin Wan, who had just gone to the toilet with a stomachache.

Si Yi held Xiao Yunzhu San's collar with one hand and held onto the cloud tablet with the other hand as if it was a treasure. They left the H Nation's imperial palace.

The H Nation's imperial army in the Imperial Palace did not dare to make a sound from the beginning until the end. They could only watch as Si Yi left with the cloud tablet.

Not long after Si Yi pulled the cloud tablet out of the Imperial Palace, Molson flew a helicopter over.

Mo Sen was summoned by Si Yi.

Si Yi carried the cloud tablet into the helicopter and returned to country Z immediately.

Si Yi had asked Mo Sen to send someone back to the country. On the helicopter, the cloud tablet took up a large space. The helicopter was only this big, so Si Yi let the cloud tablet sit on his lap.

Chapter 1547: the mysterious man was about to make his move

Si Yi directly took the cloud note back to Country Z. of course, the matter of country H was not over yet.

He would handle the matter of Marcia and Richard, but because Little Yunzhu and the other two were present, Si Yi's actions just now had already stunned Little Yunzhu and the other two. Si Yi originally wanted to directly stomp on Richard's head.

If that bloody scene was seen by Little Yunzhu three, it would definitely turn into the shadow of his childhood.

That was why Richard was able to survive this time because Little Yunzhu San was present.

What happened after that was very simple, and Si Yi did not start a war with H nation.

Although H Nation was not weak, and it was easy for Si Yi's dark soul organization to destroy H Nation, after destroying H Nation, the internal forces of the dark soul organization would definitely be greatly reduced.

The power of the dark soul organization would even decline to the point that it was inferior to the ancient massacre mercenary group.

Of course, if Yun Jian had the intention to destroy the H Nation, Si Yi would take action.

He did not care about anything else. Even if the dark soul organization was gone, it would not be as important as his little piece of paper.

His little piece of paper was all he had.

The necessary persecution was still necessary. Richard and Marcia would pay a painful price for their actions!

The cloud tablet did not know what the price was.

At this moment, the cloud tablet was sitting on Si Yi's lap.

She could not move even if she wanted to. Little Yunzhu San had already occupied more than half of the space in the helicopter, so she could only sit on Si Yi's lap obediently.

"Beep Beep Beep! Turn the helicopter on!" However, the scary thing was that the moment Little Yunzhu San sat on the helicopter, they began to play with each other.

The helicopter was only a small space, so Little Yunzhu San started to play with each other. Yun Jian, who was sitting on Si Yi's lap, could clearly feel that Little Yunzhu San had accidentally bumped into Si Yi, it made her, who was sitting on Si Yi's lap, tremble up and down.

It was as if...

At this moment, Yun Jian could clearly feel that Si Yi's spot was expanding and expanding at a fiery speed.

Yun Jian hurriedly looked out of the window and pretended not to notice any changes in Si Yi's area.

Little Yun Zhusan was still making a ruckus. At this moment, Yun Jian suddenly felt Si Yi move closer to her right ear and speak to Yun Jian in a voice that only the two of them could hear:

"Little Jian, I want you..."

As soon as Si Yi said this, Yun Jian almost slipped off Si Yi's thigh.

But in the end, the cloud note's face still moistened. Under Si Yi's "Harassment", it returned to Longmen City.

Just as Ge Jun set up his house, he saw Xue Ying sitting in the main hall of GE Jun's house. He was bare-chested. His robust chest had been injured by a blade and was still bleeding.

Si Luo, who was sitting beside Xue Ying, was holding back his tears as he applied medicine on Xue Ying.

Seeing this scene, Yun Zhi and Si Yi frowned slightly.

Qin Yi Rou was definitely not at home right now, and Ge Jun Jian was not here either. That was why Xue Ying was here.

“You Woman, why are you crying? I’m not dead yet! I’m just injured!”Xue Ying looked at Si Luo who was wiping his tears while applying medicine to himself. He did not feel any pain. He was already annoyed to death by her.

“Wu Wu Wu, you are injured. It hurts...”Si Luo was no longer as afraid of the long scar on Xue Ying’s neck as before, she was applying medicine to Xue Ying while trembling. At the same time, she was sobbing so hard that she could not stop her tears.

“Young master, you are from the Imperial Dragon Continent.”After Yun Zhi and Si Yi saw this scene, Mo Sen, who was standing beside the two of them, lowered his eyes. He spoke with a profound tone.

“Something happened to the witch clan on the Imperial Dragon Continent. Not long ago, when Adam sent this news back, we lost contact with him.”Mosen’s face darkened. At that time, when he heard that Adam had lost contact with them.., mosen almost rushed to the imperial dragon continent to look for him.

“The Imperial Dragon Continent.”Yun Jian pursed her lips and raised her eyebrows slightly.

For some reason, her instincts told her something.

The mysterious person behind the scenes who killed Little Yun Zhu in her previous life was going to act!

Chapter 1548: was about to go to the Imperial Dragon Continent

“Tell me the details.”

Si Yi’s eyes darkened. He looked at Mosen and said these three words.

Yun Zhi’s eyes also darkened.

Adam had disappeared?

Did this mean that Adam had disappeared from the Imperial Dragon Continent?

Adam and Lan Su were together. Since Adam had disappeared, it meant that something must have happened to Lan Su as well.

Something must have happened to the shaman clan as well!

“It’s like this. Someone escaped from the shaman clan with his life, bringing us news that something happened to the shaman clan. The number one aristocratic family in the imperial dragon continent, the Hu Yan clan, has attacked the shaman clan!

“At that time, that person was chased by a group of peak experts from the Hu Yan clan to the organization. That group of peak experts from the Hu Yan clan was killed by Xue Ying... Cough Cough, but in order to save Si Luo, Xue Ying was slightly injured.”

Every time Mo Sen said something, his brows would furrow.

All in all, it meant that the shaman clan was in danger. As for whether Adam, who was currently in the Shaman Clan, was in danger or not, it was still unknown for the time being.

“Imperial Dragon Great Land, the number one aristocratic family, Hu Yan clan.” Yun Zhi lightly and slowly spat out these 12 words. Her deep eyes flashed sharply, and a sharp killing intent flashed across an unknown corner.

“Young master, are you heading to Imperial Dragon Continent?” Mo Sen suddenly frowned. He turned his head to Si Yi and asked solemnly.

“Pack up. We’ll set off in three days.” Si Yi relaxed his brows slightly, but the solemnity on his face did not diminish.

“I’m going too.” For some reason, it was related to the witch clan, so Yun Jian could not put it down.

“Mm.” Si Yi did not have any objections to Yun Jian going together.

Because he had enough strength to protect her!

“Send a helicopter to min city military academy to pick us up in three days.” Si Yi looked at the cloud tablet and said to Morson.

He didn’t return to the Dark Soul Organization for the next three days. He wanted to accompany the cloud tablet to Min City Military Academy to attend school.

“Yes!” Morson immediately replied solemnly when he heard that Si Yi was planning to go to the Imperial Dragon Continent.

Si Yi didn’t believe that Adam had an accident on the imperial dragon continent.

Even if something happened, it would not threaten his life.

In other words, as one of his four great protectors, how could Adam be persecuted by a mere aristocratic family on the Imperial Dragon Great Land?

Of course, the reason why he went to the imperial dragon great land was purely because he understood her.

The Cloud Talisman would definitely go to the imperial dragon great land.

Whether it was the former sorcerer God or the current her, Si Yi believed that she would go to the imperial dragon great land.

Because the sorcerer clan was once her hope of survival!

This time, returning to the Imperial Dragon Continent was a sudden decision. Si Yi planned to let Mo Sen and Xue Ying Go together with him.

The last time they went together was Adam and Mo Sen.

The dark soul organization could not be without people. Now, Ling Wei was left alone in the dark soul organization. It was enough.

“I... I live together with sister Qing Yan in Dragon Gate City...” Si Luo said weakly at this moment. She turned her gaze towards the cloud paper, as if wanting the cloud paper gang to say something.

Because Xue Ying refused.

Sure enough, just as Si Luo finished speaking, Xue Ying grabbed Si Luo's hand. He smelled the peppermint fragrance from Si Luo's body and said firmly,

"No, you have to come with me."

"But if it weren't for me, you wouldn't have suffered such a serious injury. I Can't harm you anymore. I Won't go. I'll just stay in Longmen City and live with sister Qing Yan."

Si Luo blamed herself. This time, Xue Ying's injury was because of her.

Si Luo tried to break free from Xue Ying's grip. The moment she thought of Xue Ying's injury, her tears fell.

"Let her stay in Dragon Gate City with Qing Yan. I Won't abduct her." Seeing this, Yun Jian softly said.

It wasn't safe to head to the Imperial Dragon continent this time. Si Luo was just an ordinary girl. If she went with him, Xue Ying would have to divert his attention to protect her.

Si Luo was also aware of this point. Hence, she did not want to go. She did not want to drag him down. She would rather the one who was injured be herself.

"Alright." Xue Ying was persuaded by the Cloud Talisman. He immediately let out a sigh of relief.

After that, Xue Ying turned to look at Si Luo. He said to Si Luo very seriously: "You stay in Dragon Gate City. Wait for me to come back and pick you up!"

Chapter 1549: "Don't be late" (1600 + words)

Si Luo looked up at Xue Ying. Actually, she really wanted to ask if she could always stay with sister Qing Yan.

But when she opened her mouth, Si Luo recalled that she had mentioned this before. In the end, which one of them had not been forcefully dragged away by Xue Ying.

Si Luo swallowed her saliva. In the end, she still nodded and did not ask what she was thinking.

She felt that as long as time passed, when Xue Ying returned, she and Qing Yan had already lived for so long. She had to explain to him clearly that she did not want to live with him anymore.

She was a woman. It was not good for her to live with a man like him.

MN. When Xue Ying returned, she would definitely explain to him clearly.

Early the next morning, Si Yi and Yun Jian headed to Min City Military Academy to attend school.

They didn't head straight to the imperial dragon continent because they wanted to catch the Huyan family off guard.

Ever since school started, this was Si Yi's first time coming to Min City Military Academy to attend school.

However, given Si Yi's age, the school could only arrange for him to be promoted to a senior year student.

"I'll look for you at noon." When he walked to the teaching building, Si Yi turned his head and said softly to Yun Jian.

"Mm." Yun Jian nodded.

Then Si Yi turned around and walked towards the classroom of grade 12 with his hands in his pockets.

Only then did Yun Jian walk towards the classroom of his own class.

Yun Jian had revealed his identity in the Imperial Palace of Country H and Lin Wan had gone to the toilet, so she did not know.

Seeing Yun Jian walk in from the classroom door, Lin Wan had no idea what had happened in country H at that time. She quickly waved her hand at Yun Jian and smiled brightly:

"Yun Jian, you're here for school! I told Mu Ying that we went to H Nation to play two days ago. It was fun, wasn't it?"

Lin Wan was not in H Nation's royal palace at that time. Because she went to the toilet, she did not see King H's queen, Marcia's face at that time.

Therefore, in Lin Wan's eyes, she thought King H's queen, Marcia, and Richard were very friendly.

"Okay." Yun Jian didn't explain much and she nodded lightly according to Lin Wan's meaning.

No matter what King H's queen Marcia and Richard did, since Lin Wan wasn't there at that time, it wasn't bad to leave a good impression on her.

People who didn't know the truth didn't have to let her know the truth, because sometimes, there was no benefit in knowing the truth.

Mu Ying had already returned to Min City Military Academy. Because MAD Dragon had already returned to the Gu Sha mercenary group, there was no point for her to continue staying at home.

"Yun Jian, come to the office." Just as the classmates were making a racket and the class had not officially started, the form teacher, teacher Chu, stood at the front door of the classroom and waved at Yun Jian.

After the form teacher, teacher Chu, shouted at Yun Jian, she went back to the office on her own.

When the surrounding students saw that the homeroom teacher had come to the classroom to personally call for the cloud note to go to the office, they were all in an uproar.

"Oh my God, the homeroom teacher actually came to the classroom to personally call for the cloud note. Cloud note, did you do something that the homeroom teacher dislikes?"

"Hurry up and go to the office. Don't get scolded if you're late!"

Usually, nothing good would happen in the office, so the students naturally thought the same.

Lin Wan also looked at Yun Jian in confusion. In the end, for Yun Jian's sake, she also said to Yun Jian, "Yun Jian, hurry up and go to the office."

Yun Jian nodded. Under the gaze of the entire class, she turned around and left the classroom.

Just as she walked along the corridor and arrived at the office door, Yun Jian saw a dozen or so students standing in the office. However, Yun Jian had never seen these ten or so students before, so he guessed that they must be students from the second or third year of high school.

Moreover, these ten or so students were all boys.

This row of male students stood in the office with their heads slightly lowered. They looked very similar to the boys who were punished for their mistakes.

Yun Jian had just walked into the office when teacher Chu waved at Yun Jian:

"Yun Jian, come, come, everyone is here. Come quickly!"

Although Yun Jian had doubts in her heart, she still followed her.

At this moment, teacher Chu cleared her throat and said,

"Ahem, it's like this. All over Z country, there are more than ten high school military academies like our Min City Military Academy.

"The new semester has just started this year. All the high school military academies in the country plan to send more than ten of their strongest students from each school to participate in the friendly competition.

"This friendly competition is about strength. Ahem, ahem. Of course, more than ten military academies will send more than ten of their strongest students to participate in the competition. We definitely have to show some rankings, right.

"As for you guys, you are the strongest students selected by our school. Because the notice for this competition is a little rushed, we will ask you to pack your luggage and participate in the competition this afternoon. This... .. If you guys don't have any objections, then it's decided."

As soon as teacher Chu finished speaking, the dozen or so male students standing around expressed that they had no objections.

These dozen or so male students were all seniors from the second and third years of high school. They had never seen Yun Jian before.

In the past, every year, there would be a friendly match between a dozen or so high school military schools across the country. However, those who were qualified to go were usually male students. Moreover, they were definitely not new students entering the first year of high school.

Therefore, one of the male students took a few glances at Yun Jian. In the end, he could not help but look at Yun Jian with a questioning gaze. He said to teacher Chu,

“Teacher, I don’t have any other opinions. This girl is a freshman, right? Our School has never sent a girl to participate in such a large-scale friendly match, and she’s a freshman!”!

“She hasn’t even received formal long-term training, right? Can We really arrange for her to go with us? Don’t drag us down when the time comes...”

Chapter 1550: Bodyguard Company, participating in training

There were about a dozen high school-age military academies across the country.

There were not many high school-age military academies, but there were many military academies for college students.

Min City Military Academy was a military academy for high school students. There were only a dozen high school-age military academies like Min City Military Academy across the country.

Generally, these dozen high school-age military academies would send out their strongest students to participate in the friendly competition between the dozen high school-age military academies every year.

This matter had already become a well-known matter in Min City Military Academy.

However, among the dozen or so strongest students who could participate in the friendly competition in the past, there had never been a female student. Moreover, the school usually would not choose a freshman to participate in such a friendly competition.

This was because the freshman was a student who had just entered high school and had not participated in the school’s training. To put it bluntly, the freshman had not been trained before and was no different from the students of an ordinary high school.

Unless the school was stupid, they would definitely not send a first-year high school student to participate in such a friendly match.

Therefore, just as this boy finished speaking, the other boys started to protest.

“That’s right, teacher, we have no objections to the rest. You said to let a girl participate in the friendly match, and this girl is still a first-year high school student! If she drags us down when the time comes, we won’t even have a place to cry!”

“That’s right! Teacher, you can’t trick us like this!”

It was true that these dozen or so male students were all from the second and third years of high school. More importantly, among these dozen or so male students, the third years of high school boys had all participated in the same friendly match as this one.

Therefore, they were very concerned about whether they won the friendly match or not.

“Stop messing around! Why are you guys messing around!”Teacher Chu first knocked the heads of these dozen or so male students one by one, and then lightly chuckled.

After that, teacher Chu cleared his throat and said to the male students,

“It’s still not certain who is stronger than Yun Jian!” “Moreover, the friendly competition will last for three days. On the first and second day of these three days, the organizers will bring all of your students from the military academies to a bodyguard company for training.

“That bodyguard company is a big company that is famous all over the world. There are many experienced bodyguards in it! The bodyguards of their bodyguard company will point out your weaknesses one-on-one and then correct them.

“The last day of the three days is the time for the friendly competition.”

After teacher Chu said this, he successfully attracted the attention of the ten male students to another place.

“Two days before the competition, they will send us to the Bodyguard Company for training? Teacher, the bodyguard company you mentioned, is it the cheetah bodyguard company that is famous all over the world?”

As soon as teacher Chu finished speaking, a male student immediately asked in a surprised and crazed voice.

After this male student finished asking, another male student used a shocked voice to reply:

“Cheetah Bodyguard Company? Isn’t that a large bodyguard company that reverberates around the world? I heard that the bodyguards of Cheetah Bodyguard Company are all bodyguards formed by the top special forces of various countries after they retire.

“Moreover, the bodyguards of Cheetah Bodyguard Company are all experts who have faced off against some of the top international assassin agents! It’s just like what is shown in the movie, it’s really amazing!”

After this male student finished speaking, he immediately received the exclamations of more than ten other male students.

“That’s right, the bodyguard company that you are going to train with is Cheetah Bodyguard Company.” In the end, under the expectant gazes of more than ten male students, teacher Chu nodded his head.

At the corner, Yun Jian, who had been ignored by the crowd after changing the topic, curled the corners of his lips. He smiled coldly, but did not say anything.
