

The Schoolgirl Secret Agent - Chapter 2515 - 2546

2515 Chapter 2515 left her name and repeated it

As soon as Yun Jian finished speaking, Shenji hung up the phone with a “Beep”.

Yun Jian knew Shenji’s personality. With her personality, she should have just left the internal and external forces of the Soul Eater organization alone and rushed over from abroad without stopping.

After all, to Shenji, defeating Yun Jian and surpassing his achievements was her only dream.

Yun Jian lightly tossed his phone onto the bed. She stood up and lightly stretched herself. Then, she turned around and went to the bathroom to take a shower.

There was nothing else to call Shen Ji to Liao Province. She just wanted to scam her into spending 1.8 million US dollars.

They had been rivals for so many years. It was only right for Shen Ji to treat them to a meal.

...

Reality proved that Yun Jian knew Shen Ji very well.

After Shen Ji Hung up the phone, she ran to Liao province without even putting on her clothes properly.

Shen Ji was Yun Jian’s rival. The two of them had known each other since they entered the dark soul organization.

This was different from the friendship between Yun Jian and Mu Ying in the Dark Soul Organization.

Yun Jian had never treated Shen Ji as a friend.

The two of them were rivals who fought each other.

However, after so many years, the two of them had gone from insignificant specks who could die at any time when they entered the dark soul organization to the top figures in the world.

The only thing that remained unchanged was that the two of them still treated each other as rivals.

This was a completely different way of dealing with Yun Jian, the snake lizard, Qing Yan, and Lan Su.

The snake lizard, Qing Yan, and Lan Su followed Yun Jian's orders.

As for Shen Ji, she only treated Yun Jian as her opponent, someone she wanted to surpass.

The reason why the two of them were able to climb to this height was because they were competing with each other.

...

The next day.

The national martial arts competition officially began broadcasting live around the world at 6 pm.

It was still 5 am. Yun Jian went to bed early and woke up early the next morning. He went to the nearby gym with Mo Bufan and the others to exercise for the whole morning and followed them to the competition venue at noon.

Mo Bufan and the others had to rehearse for the entrance of the arena in the evening.

Yun Jian sat at the side and watched, giving them some pointers from time to time.

Mo Bufan and the others were thirsty midway, but they couldn't leave the arena because of the rehearsal, so Yun Jian wasn't pretentious. She helped Mo Bufan and the others to buy mineral water outside the arena.

There was no big supermarket near the arena, only a small shop.

After buying a bag of mineral water, Yun Jian almost habitually threw her bank card to the owner of the small shop to swipe.

The owner of the store had been eagerly waiting for Yun Jian to give him cash so that he could find the money. However, he received a bank card instead. After being stunned for a moment, he said, "This is a small business. I only accept cash."

In this era, there were very few places where one could directly swipe a card to pay.

When Yun Jian heard this, he asked, "Is there a bank nearby?"

"There is no bank nearby. If you want to withdraw money, you have to run twenty kilometers away!" The owner of the store immediately replied.

Yun Jian accepted the card and was about to withdraw the money.

“You are here to buy water for the members of the Martial Arts Club, right? We are here to buy water for the members of the martial arts club on behalf of the organizer. Why don't I use the money given by the organizer to pay for the water first? You can take it first.”

An elegant male voice sounded.

Yun Jian turned his head to the side and happened to see a handsome boy with an extremely high degree of recognition. He was about 1.84 meters tall.

“Thank you.” Yun Jian glanced at the boy. After saying this, he walked over, picked up the mineral water he had picked up just now, and walked towards the arena.

Was he planning to let him stay to settle the bill?

This handsome boy with a high degree of recognition touched his hair. He could not help but call out to Yun Jian, who was about to leave:

“Wait, can I ask what your name is?”

Perhaps he felt that it was a little too abrupt to ask, the boy laughed dryly and continued:

“My name is Tang shaoming. Ha, what I mean is... can I leave your name and the mineral water that you took for the martial arts club to drink? When the time comes, we will distribute the mineral water together and won't distribute it again.”

2516 Chapter 2516, if you lose one move to me, remember to invite me

Tang shaoming's words were not inappropriate.

This water was not taken from Tang shaoming for free. The organizers had originally planned to give out mineral water to every member of the martial arts club, but they had only taken the water earlier.

Taking it earlier meant that when the group distributed the mineral water later, Mo Bufan and the others would not be able to distribute it anymore, so they had to register.

“Yun Jian, Shinto shrine.” She didn't stop moving forward. She didn't even turn around. Her indifferent words came out of Yun Jian's mouth.

With one hand in her pocket, even if she was holding a white plastic bag that looked cheap, it didn't reduce the aura of Yun Jian at all.

Tang shaoming took a few more glances.

“Brother, are you dumbfounded? Don’t forget that you have a delicate fiancée at home! The One your parents gave you!”

The boy standing next to Tang shaoming waved his hand in front of Tang shaoming’s eyes a few times before he managed to attract Tang shaoming’s attention back.

Tang shaoming came back to his senses and scratched his head out of habit. “Don’t mention her to me. Whenever I mention her, my whole body gets tired.”

...

Mo Bufan and the others waited until the start of the rehearsal in the afternoon.

Yun Jian had gone out for a lot of rounds before returning.

Yun Jian had already expected that the national martial arts competition, which was broadcasted live around the world, would require continuous rehearsals before the competition.

It was simply unrealistic for Yun Jian to be obedient and wait in line to rehearse.

Therefore, she had refused to participate in the beginning.

At that time, Yun Jian had just returned to the competition grounds.

The competition ground was very big, and Mo Bufan and the others were currently rehearsing at the competition ground.

Yun Jian had just entered the competition ground, so there were not many people lingering around the entrance of the competition ground.

Suddenly, a coquettish female voice sounded from outside the other door of the competition ground, “Shao Ming, wait for me! Shao Ming, don’t walk so fast! I’m going to miss you!”

Coincidentally, not long after this voice sounded, the handsome and well-recognized Tang Shao Ming, who was 1.84 meters tall, walked over quickly as if he was avoiding a plague.

There was also a girl following behind Tang shaoming. The girl was speaking to Tang shaoming in a coquettish voice.

“Xingxing, can you stop following me? !” Tang shaoming stopped halfway as he walked and looked at the girl helplessly.

“Why? ! She’s your fiancée! Why Can’t she follow you? ! Shaoming, could it be that you’ve got another girlfriend behind my back? !”

This seventeen-year-old girl called “Xingxing” looked at Tang shaoming with a bitter expression. She looked like a resentful wife.

The girl’s full name was Zhang Zexing.

Tang shaoming heard this and patted his own head.

Just as Tang shaoming patted his own head and didn’t know how to get rid of this fiancée of his parents’orders, he suddenly saw a cloud of paper walking past him.

The next second, Tang shaoming walked over and pointed at Yun Jian. He said to Zhang zexing, “That’s right. I have a girlfriend. She’s my new girlfriend! Are you satisfied now?”

“You’re lying!”Zhang zexing retorted after hearing Tang shaoming’s words.

Although Zhang Zexing had a childish look on his face, she was not that stupid.

“Shaoming, you’re lying to me. You Don’t even know her name and you’re saying she’s your girlfriend. You’re doing this on purpose...”

Before Zhang Zexing could finish his sentence, he was interrupted by Tang Shao Ming. “I didn’t lie to you. Her name is Yun Jian.”

Zhang Zexing:” ...”he squeezed his tears and suddenly snorted at Yun Jian and Tang Shao Ming. Then, he turned around and ran away.

Only when he saw Zhang zexing disappear from his sight did Tang Shao Ming heave a sigh of relief. Then, he smiled at Yun Jian. “I’m sorry for using you to chase my parents away and force my fiancée away.”

Tang shaoming was not the kind of person who liked to get to know each other. Although he used a small handful of Yun Jian, he did not touch it. He did not even touch it.

“There’s no need.”Yun Jian was indifferent.

Just as Yun Jian finished his sentence, Tang shaoming wanted to say a word of thanks, but Yun Jian suddenly dodged to the side and dodged a flying kick from a 20-year-old woman who rushed in from the door.

Then, in front of Tang shaoming, Yun Jian raised her leg high and kicked the abdomen of the woman in her twenties who had suddenly attacked her.

The woman took two steps back and stood steadily.

This sudden scene stunned Tang shaoming, who had wanted to say another word of thanks to Yun Jian, to the point where he was dumbstruck.

However, Yun Jian coldly curved her lips and looked at the woman who had launched a sneak attack on her. She spoke to the woman in front of the crowd and Tang shaoming, who had been shocked by the sudden action:

“The moment you come, you will exchange blows with me. You have agreed in advance that you will exchange one blow with me, and if you lose one blow, you will treat me as a guest.

“You have lost one blow with me. Coincidentally, I have my eyes on a pastry from country F that is worth 500,000 yuan. Next time, remember to treat me to it on your account.”

2517 Chapter 2517 received a phone call with bad news

The pastry master from F nation not only made pastries that others could not imitate, but also tasted mellow and mellow. He guaranteed that the first time you ate it, you would not be able to resist eating it a second time.

Unfortunately, this pastry master was a person who loved money like his life.

The pastries that he sold were not expensive, but he asked for tens or even hundreds of times more.

Of course, for the international elites, 500,000 rmb worth of pastries was not that expensive.

After all, the most expensive pastries in the world could be sold for tens of millions of RMB.

Of course, tens of millions of pastries were not only varied but also large in size. The pastry chef also needed to spend nearly half a year to make them.

Moreover, Yun Jian and Shen Ji could not eat so much.

Naturally, since Yun Jian told Shen Ji to come to country Z, he did not plan to let her go back so easily.

At the very least, he had to eat tens of millions of her before he could let her go.

“F * CK, 006, you’re lying to me! 500,000 worth of pastries, not invited! I Can’t afford it!”

Shen Ji's sneak attack failed again. She steadied herself. After listening to Yun Jian's words, she was the first to retort unhappily.

Tang shaoming, who was standing next to her, was a typical campus beauty. He also spoke to girls in the same way as he did in school.

Tang shaoming had seen many kinds of girls. Some were flirtatious, some were charming, some were enchanting, and some were pure.

Usually in school, boys like Tang shaoming, who was tall, good-looking, and could play basketball, with a good family background, were very popular.

There would always be girls surrounding him.

However, Tang shaoming had never seen a girl like Yun Jian.

Moreover, when Yun Jian's friend came to look for her, he did not rush up to hug her normally, but directly kicked her?

What made people feel even more surprised was that Yun Jian actually avoided her friend's kick, and even said such words?

Opening his mouth for a pastry, and asking for 500,000 yuan?

Even Tang shaoming, who was born with a silver spoon in his mouth, couldn't say such a thing.

Because he didn't have the capital to say such a thing.

What was even more bizarre was that Yun Jian's friend actually called her... ? ... 006?

"It doesn't matter if you can't afford it." At this moment, Yun Jian pursed her red lips and spoke again.

After Yun Jian's words sounded, Tang shaoming heaved a sigh of relief.

She must have been joking just now.

However, before Tang shaoming could finish thinking about this sentence, the words that stood out from Yun Jian's words in the next second shocked Tang shaoming once again. "As long as I snatch a few more missions from you, I'll be able to make up for it."

When she said this, Shen Ji panicked.

"F * ck, please, it's my treat!" Shen Ji squeezed out these words from between her teeth.

The former would cost 500,000 RMB to buy a piece of pastry.

The latter would directly lose tens of millions of dollars.

Shen Ji was a fool, and she knew what to choose.

“That’s a good girl.” Yun Jian narrowed his eyes and smiled faintly.

Shen Ji:”...”why did she feel that she had been set up by someone?

Just as Yun Jian narrowed his eyes and saw that Shen Ji looked like she had been set up by him, a phone call interrupted the conversation between Yun Jian and Shen Ji.

Not long after she received the call, Yun Jian’s smile completely disappeared. She said to the person on the other end of the line, “I’ll be right back.” Then, she hung up the phone.

“What...”before Shen Ji could speak, Yun Jian grabbed her shoulder and walked out.

Before he left, Yun Jian turned his head slightly and said to Tang shaoming, who was already dumbfounded, “Help me tell Mo Bufan, the leader of the shrine, that I have something urgent to attend to. Tell him to leave first and let them have a good competition.”

After that, before Tang shaoming could react, Yun Jian grabbed Shen Ji by the shoulder and walked out.

...

At the Military Office of Longmen City, Country Z.

Chu Ning and the other three could not believe what they had just heard.

Chu Ning shook her head. She looked at Liu Cheng and stared at him. “Impossible... absolutely impossible! How... how could instructor Yu... be... already... dead...”

2518 Chapter 2518, the King of Asura, went to provide support

Yu Shaoluo! How could he be dead? !

Ever since GE Junjian led them to become special forces, GE Junjian arranged for them to go to Min City Military Academy. Yu Shaoluo was an officer at Min City Military Academy.

Although three years of high school was neither long nor short, Yu Shaoluo was definitely a very outstanding soldier after three years of being together! He also took good care of them.

Furthermore, he was only in his thirties. He still had a lot of years to live, and he had yet to get married and have children...

At this moment, the six members of the king's squad almost fainted when they heard such bad news.

The members of the Tyrannosaurus squad and the strongest squad had never interacted with Yu Shaoluo, so they didn't know what kind of person Yu Shaoluo was. However, when they heard such bad news, the members of the two squads all lowered their heads without exception.

As an officer who had returned from overseas, Liu Cheng was proud of the special forces that had returned from overseas.

Although he looked down on Yun Jian and had even done some disgusting things, at this moment, the corners of his eyes were bloodshot. He stood on the spot in a respectful military posture to show his respect.

However, as an officer, Liu Cheng fiercely wiped his tears. He looked at the crowd and was silent for two seconds before he spoke:

"I've met Yu Shaoluo a few times before. A few months ago, he was sent to rescue the z nation's citizens who were trapped in n nation. Unfortunately, he was attacked by the enemy and was hacked to death.

"And now, his body, his head was hung on n nation's flag by the N Nation's people. His body is not cold yet. This time, I, Liu Cheng, will participate in the mission to rescue the Z nation's citizens in N Nation. I must bring his body back!"

N country was a country with imperfect laws.

A few months ago, there was a sudden riot in N country. Many people from Z country who went to N country to work and earn money were trapped in N country.

One had to know that in a country with imperfect laws, when there was a riot, it was very terrifying.

Massacring the people of Z country on the streets, fighting each other, and so on. These things that ordinary people thought were far away and impossible to happen were real in a country with riots.

And the reality was always more cruel than you could imagine.

What Street Rape of women, gang rape of women, was still a small matter.

During the internal riots in N country, N country people even chopped off Z people's heads and kicked them like a ball, skewered women like animals and barbecued them with sharp objects.

Don't feel disgusted, these were all facts!

And Yu Shaoluo had received a mission a few months ago to go to N country to rescue those z people trapped in n country, and unfortunately died.

What was even more shameful was that the enemies of n country had actually hung Yu Shaoluo's head up high! This was an insult!

If this kind of thing happened to anyone, as long as it was an individual, when they saw their own people being insulted like this, they would definitely be incomparably furious.

And Now, Liu Cheng would go to N country to support the rescue operation.

"Sir, our King's team will also participate in this operation! Even if we die, we will still bring instructor Yu's body back to our country!"

Liu Shiyun clenched his teeth and clenched his fists. His entire body trembled as he spoke these words that resonated with others.

"Six members of the King's squad, request for reinforcements!"

A firm voice resounded through the sky.

"Nonsense! With your skills, you're not special forces soldiers from overseas. What are you going to do? Are you going to die? You're not allowed to go!" Liu Cheng shouted.

Although this shout sounded like it was from the past, it sounded like he looked down on the six members of the King's Party.

However, everyone present could tell that Liu Cheng's words were to protect the six members of the King's Party and not let them take any risks.

After all, country N was currently in a period of chaos. One had to know that going to country n was equivalent to entering a battlefield filled with gunpowder.

Tanks, planes, and cannons were places where one could lose their lives if they were to stand in the wrong position!

How could Liu Cheng Dare to let the six members of the king's team head to such a dangerous place.

This was something that mature adults should do, and they should be the ones to do it!

Brat! What are you trying to do! !

The Tyrannosaurus team and the most powerful team were well aware of their own strength. They were completely unable to help and might even be a hindrance, so they didn't say anything.

However, just as the atmosphere reached its lowest point, a female voice that was always arrogant but ignited everyone's hope suddenly sounded like thunder:

"King Squad Asura, take the initiative to go to N country to provide support. Make sure to bring instructor Yu back to the country!"

2519 Chapter 2519 and I once again headed to the battlefield

Yun Jian's words were like a grenade that exploded on the spot, giving everyone hope for survival and the future.

If everyone's emotions had fallen to the lowest point at this moment, and the future that everyone was looking forward to had been replaced by the word 'despair'.

Then Yun Jian's words ignited everyone's fighting spirit and the sound of Hope!

"Yun Jian 'er..." Chu Ning's tears fell down the moment she saw Yun Jian. She forced herself to calm down, but when she thought about it, she could not help but shed tears that could not be controlled.

"Retired veteran, GE Junjian, request to return to the team to provide support!" Right after Yun Jian's words were spoken, a strong voice that could not be refuted immediately followed by Yun Jian's voice.

Perhaps there would be deserters on the battlefield, perhaps Liu Cheng would look down on Yun Jian and the others in the past, and he had also done something that made people hate him. However, he would definitely not be like the deserters on the battlefield, fleeing in a panic at a critical moment.

Because this was his duty as a soldier!

When he saw Yun Jian and Ge Junjian, Liu Cheng clenched his fists once again. He pursed his lips, and a trace of tears flowed from the corners of his eyes. However, he could feel that he was welcoming Yun Jian and Ge Junjian at this moment.

"Prepare to gather with the main force. Let's Go!" Liu Cheng tacitly agreed to Yun Jian and GE Junjian's addition.

The six members of the King's squad didn't force them to go together, because they knew that their strength wasn't enough to go to such a real battlefield.

If they went, they might just be a burden.

At this moment, the six members of the King's squad once again felt the difference in strength.

As members of the King's squad, Yun Jian would definitely not drag them down!

And their strength was far from enough!

They still needed to continue working hard!

...

Yu Shaoluo was once a comrade of GE Junjian, and he was also GE Junjian's best friend.

Yun Jian could see that although GE Junjian didn't say it, the moment he heard Yu Shaoluo's sacrifice, his heart was bleeding.

You would never know how many great people had to sacrifice their lives in order to live in a peaceful, peaceful, and law-governed society.

It was said that they only had one life, but they would rather sacrifice themselves in order to give you a lifetime of peace.

There were still many countries in this world that were still at war.

Someone had once calculated that since the history of mankind, there had only been a short period of more than 100 years without war and chaos.

This was a very shocking number.

...

The troops gathered at the main gate and set off. They did not even need to prepare their luggage to go home.

This was because it was still unknown whether they would be able to return safely from this trip to country N, let alone bring their luggage with them.

Yun Jian, Liu Cheng, and Ge Junjian had just walked to the entrance of the troops when they saw that Shen Ji, who was standing at the entrance, had not left yet.

Seeing Yun Jian, Shenji walked over.

Seeing Shenji, Liu Cheng was still rational. He said to Yun Jian, "Quickly tell your friends to go back. We need to prepare to leave."

Liu Cheng was doing this for Shenji's sake. After all, a battlefield like this wasn't suitable for Shenji to go to.

Because in Liu Cheng's heart, he thought that Shenji was just an ordinary girl who had nothing to do with this matter. That was all.

After saying this, Yun Zhi's eyes only narrowed.

In the next second, Yun Zhi suddenly put his hand on Shen Ji's shoulder. In front of Liu Cheng, GE Junjian, the T-rex squad, the most powerful squad, and everyone from the King squad who followed behind her.., he said something to Shen Ji that shocked everyone present:

"It has been almost ten years since we were sent to the battlefield together.

"Are you interested in going to the battlefield with me again and killing all sides?"

2520 Chapter 2520 who is a friend, a mortal enemy

When Yun Jian, Shen Ji, and Mad Dragon were in the dark soul organization, they stood out among a group of secret agents who were trained by the dark soul organization.

After a few years of training, only Yun Jian, Shen Ji, and Mad Dragon survived out of thousands of people.

As a secret agent and an assassin, they had to be proficient in all kinds of cold weapons, light weapons, and heavy weapons. They had to learn to adapt to all kinds of situations.

Because they had to travel through all kinds of missions, they had to come into contact with many things. If they wanted to successfully complete the mission, they had to learn all kinds of weapons.

Not only did they have to understand how to use such weapons, but they also had to use them flexibly.

To put it bluntly, they had to be very skilled in using these weapons.

And the best place to train and use all kinds of weapons in the world was on the battlefield.

In this world, there were many countries that were in the midst of war. Back then, Yun Jian, Shen Ji, and Mad Dragon were thrown onto the battlefield of a country and forced to learn all their combat skills.

Planes, cannons, tanks, all of them were proficient.

This was because only by learning how to use all their weapons skillfully would they have a chance of surviving!

That was why Yun Jian said something like, "It has been almost ten years since we were sent to the battlefield together."

This sentence might sound incredible to the people around them, but it no longer existed.

But to Yun Jian and Shen Ji, it was as simple as eating and sleeping.

Commander Liu Cheng, who was standing beside them, as well as the members of the Tyrannosaurus squad, the most powerful squad, and the King Squad, who had come out to send them off, were all stunned when they heard this.

"Asura, you guys have been on the battlefield together before! ?" Dong Lijie from the most powerful squad looked at Yun Jian and Shen Ji and asked in a daze.

Dong Lijie was deeply grateful to Yun Jian. When she heard Yun Jian's words, she was only stunned and didn't mean anything else.

At this moment, Dong Lijie was tightly holding the hand of their most powerful squad's captain, Zhu Yao.

Fortunately, Zhu Yao wasn't a heartless person. The last time Dong Lijie gave her innocence to him, she was saved by Yun Jian.

Now, they were dating.

"Not only did we go to the battlefield together, but we also went through the Amazon forest and swept through the Sahara desert together. We went to many places!"

Hearing Dong Lijie's words, Shen Ji laughed and put her hand on the cloud tablet's shoulder, looking at Dong Lijie innocently.

It was not until the cloud tablet's sharp eyes swept over that Shen Ji withdrew her chicken claw hand.

"So, are you interested?" At this moment, Yun Jian's repeated words sounded again.

“Yes, yes, yes! I’ll Go Wherever You Go!” Shen Ji immediately said.

As soon as she said this, everyone around felt that the friendship between Shen Ji and Yun Jian was beyond words.

Although Liu Cheng was a little worried about Shen Ji, she was Yun Jian’s friend, so her strength was naturally not weak.

“Since you guys are friends, remember to look out for each other when you enter the battlefield. The battlefield is no child’s Play!”

Liu Cheng sounded very serious when he said that.

Chu Ning, Chu Xiangnan and the others also turned their expectant gazes to Yun Jian.

But just when everyone thought that Yun Jian and Shen Ji were so close, they must be very close friends.

Shen Ji suddenly clicked her tongue and mercilessly ridiculed in front of everyone:

“Friends? Who’s friends with her? 006 and I will always be mortal enemies.

“006, you have to be careful. Don’t get killed by my Sneak Attack! Haha!”

2521 Chapter 2521 follows me, I guarantee you won’t die

Hearing Shen Ji’s words, everyone was stunned.

“You’re not friends? Then why do you know each other so well! ? You’re lying!”

When everyone heard Shen Ji’s words, they were stunned for a moment before they exclaimed in surprise.

“That’s right. If this is a mortal enemy, why do you know each other so well? If this is a mortal enemy, then wouldn’t you want to cut each other into a thousand pieces?” After the previous mission, Zhu Yao had already become much more mature, after hearing Shen Ji’s words, he was stunned for a moment before speaking up.

“I see that you’re not a bad girl. She really has bad intentions. She wouldn’t directly tell her that I’m going to sneak attack you.” Liu Cheng was a little confused about Shen Ji. He pinched his temples and spoke up.

Not a friend? She actually knew her so well?

She was really a strange girl.

At that time, Yun Jian pursed his red lips in front of everyone present. Just when everyone thought that Yun Jian would refute or at least stand up and say that she and Shen Ji were indeed friends, they just loved to argue with each other.

Yun Jian suddenly said to Shen Ji in front of everyone, "I'll wait. Just don't be killed by my counter-attack. Don't blame me for not collecting your corpse."

After Yun Jian said this, everyone present was completely shocked.

This, this...

How was this the way a normal friend would speak! ?

What was the relationship between the two of them! ?

"Let's set off!" At this moment, a van drove to the entrance of the troops. A staff member dressed in clothes poked his head out and shouted at Liu Cheng and the others.

"Let's Go!" Liu Cheng gave a deep military salute to the members of the three squads and the entrance of the army. With slightly red eyes, he turned around and took the lead to enter the van and climb up to the back of the van.

This van was originally used to haul goods. The van was very big. Once the back door was closed, the surrounding walls were airtight.

Yun Jian and Shen Ji were the second to easily jump into the back door of the van.

GE Junjian followed closely behind.

After the group got on the van, the door was closed by a man dressed like a worker in the van.

This man dressed like a worker was actually a special forces soldier who was sent to provide support.

It was not an easy task to enter through the border troops of Country N.

Of course, there had already been riots in country N, so it was impossible to care so much.

Therefore, all the special forces soldiers who were sent to provide support sat in the back of the van, planning to sneak into country N.

There were already many people sitting in the van, all dressed in ordinary clothes.

As soon as Yun Jian entered the dark van, someone lit a lighter to light up the new recruits.

Yun Jian and Shen Ji's night vision was very good. They could already see the people inside the van clearly.

As soon as the lighter lit up, the environment inside the van became even more eye-catching.

There were more than a dozen special forces soldiers in the van. They were all wearing ordinary clothes and holding rifles in their hands. It seemed that they were resting with their eyes closed.

The Special Forces soldier who turned on the lighter glanced at Yun Jian and Shen Ji, then said to the four new recruits,

"Go to the side and choose a weapon that you can use. Our carriage hasn't reached the border of country N yet. When we reach the border of country N, the real battlefield will begin at any time."

As he said this, the special forces soldier even deliberately looked at Yun Jian and Shen Ji. "Little girl, remember to follow behind us. Don't fight with those people yourself!"

Shen Ji was not satisfied with his words. She immediately replied to the special forces soldier:

"Remember to follow behind me. I guarantee that you won't Die!"

2522 Chapter 2522: I heard the sound of a gun being pulled

Shen Ji was a more casual person. She never forced herself to not say what she wanted to say.

Therefore, these words that were extremely arrogant in the ears of outsiders came out of her mouth just like that.

Yun Jian only glanced at Shen Ji. She did not take the guns that were piled up next to her. Instead, she leaned on the side and closed her eyes to rest.

"Little girl, you have some guts!" The special forces soldier laughed when he heard that.

In fact, for everyone on this trip to country N, life and death were decided by heaven.

Perhaps they would never be able to return to their beloved motherland.

But at this moment, no one was afraid.

After the special forces soldier laughed, he looked at Shen Ji and introduced himself with interest:

“My name is Zheng Ning. I will not change my surname. My surname is Dan.”

His full name was Dan Zheng Ning.

Seeing Yun Jian sitting down on the ground, Shen Ji also sat down and ignored Dan Zheng Ning.

Dan Zheng Ning was not angry. He smiled happily. He looked like an old man in his forties. He had originally been determined to give up on this operation and had lost confidence in the future. However, he suddenly had a trace of joy on his face.

Of the two girls, one was very arrogant, while the other directly ignored him.

Perhaps the arrival of these two girls would bring him a trace of joy in the final journey of his life.

...

The van sailed all the way. After a day and a night, it finally arrived at the border of N country.

There were people guarding the border of N country.

They should be the troops of the civil war in N country.

The driver of the Van had obviously forged the pass.

At the entrance of the border of N country, after showing the troops the pass, he drove the van into the border of N country.

But after the van was let through and drove into the border of N country.

Everyone in the van was on full alert at the moment.

If they were discovered by the group of people outside, they would face a bloody battle at any time.

“Get Down!” Just as everyone let their guard down, a crisp sound that only the people in the van could hear was suddenly heard.

The words came directly from Yun Jian’s mouth.

The people in the van didn't have time to understand the meaning of Yun Jian's words, but the group of people were all martial artists. Their bodies were already one step ahead of their heads. After hearing Yun Jian's words, they silently lay on the floor of the van.

"Tut, Tut, Tut, Tut, Tut!"

Just then, a burst of machine-gun fire came from outside.

Several large holes were shot through the thin walls on both sides of the van.

If everyone had been standing just now, they would all be dead by now.

This burst of machine-gun fire, no one made any greeting, almost all of a sudden sounded.

Even in the driver's seat dressed as staff special forces, eyelid jump.

However, he could not speak. If he revealed even the slightest flaw, the group of soldiers would have discovered the dozen or so people in the van.

"The shooting is complete. There is no sound inside. It is definitely a cargo!"

A soldier from country n walked up to his leader and reported.

"Release," the leader said.

At this moment, the Special Forces soldier who was disguised as a staff member drove the van and smoothly entered country N's territory.

When they stopped at a safe area, the Special Forces soldier who pretended to be a staff member opened the back door. When he saw that everyone was fine, he heaved a sigh of relief.

At that time, the veteran who called himself Shan Zhengyu looked at the cloud note and asked on behalf of the crowd with a shocked expression, "Little girl, how did you find out that those people would shoot bullets at our van!"

If Yun Jian hadn't found out, everyone in the van would have died!

Even if they didn't die from the bullets, they would have been killed by the people outside.

When everyone looked at Yun Jian, Yun Jian pursed her lips and said something that shocked everyone present:

“I heard the sound of their guns pulling.”

2523 Chapter 2523. practice. Go get the tank

As soon as Yun Jian said this, everyone was shocked again.

The sound of the gun being pulled and ready to be fired was very subtle.

Just now, there was a group of N country soldiers talking loudly in N country’s language outside the carriage.

Yun Jian could actually hear the people outside pulling the gun under such interference. He planned to shoot a circle inside the carriage to check if there was anyone’s voice in the fastest way.

How sensitive were Yun Jian’s ears!

“You can even hear that! ?”Shan zhengyu widened his eyes and looked at Yun Jian in horror.

“Yes.”Yun Jian nodded.

“Alright, let’s go meet our own people and discuss the plan!”At this time, the Special Forces soldier who pretended to be a staff member wiped off his sweat and closed the back door of the van. He walked back to the driver’s seat and continued driving.

...

They had never encountered such a terrifying incident in the future. At that time, they had already been sent to an extremely remote place.

This was the hiding place of the Z Nation people who had come to N country to provide support.

At the same time, there were many ordinary z nation refugees who were hiding here.

They were unable to return to their motherland now. They were here to work and earn money.

A few months ago, there was a riot in N Nation, and N Nation forces began to massacre the Z Nation people.

Some z nation people were even beaten by N Nation people until their heads were bleeding, and even blood gushed out of their brains on the spot.

Among the Z Nation people hiding here, some had unfortunately lost their parents, and some were chased by n nation people at that time. They were slashed a few times, but they stubbornly found a place to hide, in the end, they were saved by the Z Nation people who came to support them.

Yun Jian had just walked in when he saw many wounded people.

A few female military doctors from z nation were treating their wounds.

Among these female military doctors from Z Nation, one of them had very shiny skin and a very beautiful appearance, however, the female military doctor who was wearing an extremely simple and crude rough coat walked toward the Special Forces soldier who pretended to be a staff member and brought everyone into N Nation.

“Zhang Hang, you know that we don’t have enough staff members, so you brought back two new military doctors for us?”

The beautiful female military doctor glanced at Yun Jian and Shen Ji, nodded at Yun Jian and Shen Ji, and then spoke to the staff member who was pretending to be a special forces soldier.

The Special Forces soldier who was asked, who was called Zhang Hang, heard the female military doctor’s words and reached out to scratch his short hair.

Zhang hang shook his head and said to the female doctor, “No, no, no, they are here to support our combat work.”

It meant that Yun Jian and Shen Ji were not military doctors.

“Ah?”The female doctor was stunned.

After all, people who could go to the battlefield were usually boys.

It was unheard of for a girl to go to the battlefield.

“Can they really go to the battlefield with thin arms and legs?”At this moment, another female doctor who had just checked the wounds of a patient walked over and stood next to the pretty female doctor, she looked at Yun Jian and Shen Ji with a questioning gaze.

“It was this little girl who saved our car full of people just now!”Dan Zhengyu couldn’t help but say.

Upon hearing this, the few female military doctors and the group of injured people at the scene blinked in shock.

“We don’t have enough weapons. Now, we need to go out and get some guns from the hands of the N Nation people,”Zhang Hang said at this moment.

As he said this, Zhang Hang wanted to tell Yun Jian and Shen Ji to stay here for now.

However, before Zhang Hang could finish his words, Shen Ji heard Zhang Hang’s words and suddenly became energized. She turned her head to look at Yun Jian. Suddenly, in front of the few female military doctors and the group of injured people, including all the Special Forces soldiers present, the cloud note insolently motioned:

“006, how about it? Do you want to go out with me and snatch the tanks from the hands of the N Nation people to practice your skills?”.

“Let’s see who can snatch the most tanks within ten minutes. Even if we win, the winner will treat us to a feast!”

2524 Chapter 2524: A Showdown. Just you wait

As soon as Shen Ji finished speaking, everyone present was shocked.

Especially the female military doctor who had walked over and questioned whether Yun Jian and Shen Ji’s skinny arms and legs could go onto the battlefield.

This female military doctor was called Wang Xuefei, a female military doctor on the battlefield.

The other female military doctor who was very beautiful and even greeted Zhang Hang first was called Zhang Meili.

Zhang Meili was just like her name. She was indeed very beautiful.

When she heard the conversation between Yun Jian and Shen Ji, Wang Xuefei’s eyes froze. She was completely stunned.

Dan Zhengyu, Zhang Hang, Zhang Meili, and the others who were standing next to them, as well as some of the injured people lying on the ground, were completely stunned by the conversation between Yun Jian and Shen Ji.

One had to know that Zhang Hang and the others had secretly gone out to steal some guns from the hands of the N Nation people during the N Nation’s riots. Returning with guns was a very dangerous thing, and it could cost their lives at any time.

And this woman who came with Yun Jian actually told Yun Jian to go out and steal the tanks from the hands of the N Nation people for fun! ?

The two of them were even competing to see who would snatch the most tanks! ?

What about them?

Was this a daydream! !

Even Liu Cheng was so frightened that his face turned pale.

Yun Jian and the godly concubine were brought here by Liu Cheng after all. GE Junjian had already retired, and Liu Cheng was now the superior of Yun Jian and the godly concubine. Therefore, before Yun Jian could reply, Liu Cheng frowned and scolded Yun Jian and the godly concubine softly:

“Don’t mess around!”

After saying that, Liu Cheng turned to look at Zhang Hang. “I will take good care of the two of them!”

Zhang Hang seemed to be the person with the highest position in the temporary hiding place in the ruins, so everyone listened to him.

He was the person who had brought everyone into country n not long ago and pretended to be a staff member.

At that time, after Zhang Hang heard Liu Cheng’s words, he nodded slightly at Liu Cheng. He did not pay attention to what Shen Ji said to Yun Jian. He waved at a group of people who were resting on the ground with rifles in their hands, then, he led the group out of the hidden place.

Shen Ji had always been a person of her word. She did not take Liu Cheng’s words to heart at all. Instead, she walked over and placed her hand on Yun Jian’s shoulder, intending to walk out with Yun Jian.

“Then let’s make a deal. Whoever wins will treat!” Shen Ji did not care about the opinions of the people around her.

Who knew that after Shen Ji said this, everyone looked at the situation and thought that Yun Jian would agree.

With a “PA” sound, Yun Jian slapped Shen Ji’s hand off his shoulder. She crossed her arms and looked at Shen Ji with a contemptuous expression. Then, she said in public,

“Are you trying to trick me? Are you looking for death?”

Whoever won would be treated. If Yun Jian didn’t win, Shen Ji would win and everyone would know about it.

If Yun Jian won, he would have to treat her.

Shen Ji really had a good plan.

However, she discovered it.

“Ha! Then I won’t go.” Seeing that her plot was discovered, Shenji turned around and walked out.

Yun Jian didn’t stop her.

“Where is your friend going? It’s very dangerous outside. Your Friend is so beautiful. If she meets n people, then...” Zhang Meili was kind-hearted. She quickly walked over and asked Yun Jian.

Shen Ji was the kind of person who showed her fierce look on her face, while Yun Jian was the kind of person who hid a knife in his smile.

Zhang Meili didn’t dare to ask Shen Ji directly because her expression looked too fierce, so she turned to Yun Jian and asked.

After Yun Jian heard it, he pursed his red lips.

Yun Jian didn’t say anything. When Shen Ji heard Zhang Meili’s words, she turned around and said in front of everyone who thought that she and Yun Jian were good friends:

“Friends? 006 and I will always be mortal enemies!

“006, I agreed to come to the battlefield to compete with you! Just you wait!”

2525 If chapter 2525 wants to die, then so be it. Die in my hands

Liu Cheng, GE Junjian, and the others already knew that there was something wrong between Shen Ji and Yun Jian, but Wang Xuefei, Zhang Meili, Zhang Hang, and the others thought that Shen Ji and Yun Jian were friends.

After all, only friends would say things like who won and who treated them, right?

However, after hearing Shen Ji’s arrogant and arrogant words, everyone present was stunned.

Before they could finish, Yun Jian stretched out her big finger and gently touched her red lips, revealing a playful smile.

Then, in front of everyone present, she suddenly spoke to Shen Ji, who was walking away from the hiding place, and used words that were several times more arrogant than Shen Ji’s to counter her:

“095, I accept your challenge, but before that, don’t die on this battlefield, or I won’t collect your corpse!”

095 was the serial number of Shen Ji.

The two had always used the serial number of the dark soul organization to address each other.

Hearing Yun Jian’s words, everyone was stunned again.

After all, Yun Jian and Shen Ji’s words and actions, as well as the way they talked, made people sound very unusual.

Not only did the two use numbers to address each other, but they also refused to admit that they were friends.

Between friends, how could it be like this?

Moreover, Shen Ji was full of murderous intent, as if she was determined to go against Yun Jian.

It was as if she would never be satisfied if she did not go against Yun Jian.

“Hey, I love hearing your words!”

Shen Ji suddenly revealed a creepy smile. In the next second, she left the hiding place in a flash. Before Liu Cheng, Zhang Meili, and the others could call out to Shen Ji, she had already left the place.

When Zhang Meili reacted, her expression changed drastically. She immediately shouted at the cloud message:

“Your friend has gone out! You, aren’t you going to stop her? ! This morning, not far from here, there was a gang rape of a woman on the street. Right now, N country is full of riots. It’s definitely not as simple as you think!”

“Quickly go and find your friend!”

Zhang Meili did not dare to go out herself.

This hidden hiding place was very hidden, at least for now. The people of N country wouldn’t find this place at the moment.

But recently, Zhang Hang also found out that the forces of N country were moving here.

In a few more days, this hiding place would become unsafe. They had to find a new hiding place and move it in time. Otherwise, if the forces of N country found out, their group., they would probably die without a burial place!

Zhang Meili was beautiful, and there were n nation people walking around outside. She did not dare to directly chase after them, so she could only say this to Yun Jian.

Zhang Meili had good intentions. After all, at this juncture, ordinary people would not say this to Yun Jian.

When everyone saw Zhang Meili make a sound, Yun Jian should go out and find Shen Ji.

However, what everyone present miscalculated was that Yun Jian only pursed her lips. She had no intention of going out to find Shen Ji at all. Instead, she walked to the stairs at the side and sat down in front of everyone. She closed her eyes and said,

“Just let her leave. She Won’t die anyway.”

What she said...

When everyone heard this, they were even more stunned.

“You, how can you be so vicious! Even if she’s not your friend, she should be from the same place, right? How can you be like this...”

Initially, Wang Xuefei did not think much of Yun Jian and the godly concubine as they were actually here to support the battle.

At this moment, when she heard Yun Jian’s words, she felt even more displeased.

However, before Wang Xuefei could finish her words, Yun Jian spoke before Wang Xuefei did. His words caused everyone present to feel a wave of fear:

“Don’t worry. With her strength, she won’t die.

“She won’t die on the battlefield. Even if she dies, she will only die by my hands.”

2526 Chapter 2526 Medical Certificate, Please Make Way

After hearing Yun Jian’s first sentence, everyone thought that Yun Jian and Shen Ji must have a sharp tongue. In fact, their relationship was very good.

They were the kind of people who had a sharp tongue, but both of them regarded each other as their bosom friends.

However, after hearing Yun Jian's next sentence, everyone could not remain calm.

What did he mean by 'even if I die, I'll only die in My Hands'?

After everyone heard Yun Jian's words, they were all dumbfounded.

Especially Wang Xuefei, she was blocked by Yun Jian's words and couldn't say a single word to refute.

Actually, Yun Jian's words weren't false.

Shen Ji almost had no opponent in this world, except for her Yun Jian.

Only her, Yun Jian, had the ability to send Shen Ji to her death.

"I know that girl. She's very powerful, so don't worry about her," Ge Junjian said at this moment.

Ge Junjian didn't actually know Shen Ji.

But he knew that he already knew Yun Jian's identity. He was the No. 1 spy on the international list, Sha Shen.

This also meant that Shen Ji, who was beside Yun Jian, definitely had a great background.

People like Yun Jian and Shen Ji would not easily die here.

Especially people like Yun Jian and Shen Ji. The treatment they received in the past was probably much crueler than on the battlefield.

In addition, Yun Jian naturally knew Shen Ji. Therefore, Ge Junjian's words were purely to help Yun Jian cover up his lie.

Hearing Ge Junjian's words, everyone tacitly agreed and no longer spoke.

After all, everyone did not forget their original intention of coming here.

Those on the scene continued to do what they were supposed to do. Those who had nothing to do all closed their eyes to recuperate, because it could be a fierce battle at any time.

...

Zhang Hang and the others only returned at night.

The group that followed Zhang Hang had some guns in their hands.

Obviously, these guns were taken from the hands of the N Nation people.

At that time, after Zhang Hang and the others entered the hiding place, a few people at the back helped a severely injured person into the hiding place.

The people who went out were more or less bruised. The people who were quickly helped in were the most seriously injured.

Both of his legs were shot by bullets.

“Quick! Quick! Look at his injuries!” Zhang hang shouted at the female military doctors in a sorry state.

Hearing this, Wang Xuefei was the first to rush up.

Although Wang Xuefei was extremely suspicious of Yun Jian and Shen Ji’s strength, she was still quite dutiful.

However, just as Wang Xuefei wanted to directly disinfect the wound and prepare to remove the bullet, a crisp female voice came one step ahead of her:

“Clean the wound directly. It’s easy to get infected.”

After the crisp female voice sounded, Wang Xuefei was stunned. When she saw that it was Yun Jian who spoke, she glanced sideways:

“You know medicine. Aren’t you here to support the battle?”

If Yun Jian was also a female military doctor, Wang Xuefei would not doubt it.

However, Yun Jian was a special forces soldier. He was here to support the battle. Did he know about medical matters?

However, just as Wang Xuefei was stunned, Yun Jian had already taken out a certificate from his pocket and threw it in front of Wang Xuefei. She looked ahead indifferently. She did not even glance at Wang Xuefei as she walked towards the injured patient, at the same time, a sentence that caused everyone’s eyes to widen suddenly rang out:

“International top-notch Medical Expert Certificate. There is a stamp on it for testing.

“His wound must be treated immediately. Otherwise, there’s a risk of amputation. Please make way!”

2527 Chapter 2527. She had really snatched the enemy tank

The cloud note did not reveal its identity as the hand of death.

She did not want to stir up trouble.

And this international top-notch medical expert certificate was specially prepared by the cloud note just in case.

As expected, when they heard the cloud note's words, everyone who had originally planned to scold the cloud note for causing trouble widened their eyes.

An international top-notch medical certificate! ?

This thing was not that easy to obtain!

To obtain this thing, one had to be an international top-notch medical expert!

Wasn't she here to support the battle! ! How could she have such a thing in her hands! !

After hearing Yun Jian's words, everyone present was dumbfounded!

When everyone regained their senses, Yun Jian had already replaced Wang Xuefei and walked in front of the injured team member. She held a scalpel and cleaned the scalpel in the fastest way possible. According to a very standard and skilled method, she took out a bullet for the injured team member and cleaned the wound.

Ten minutes later.

The surgery that was supposed to take a few hours was successfully completed just like that.

At the same time, Yun Jian tied two bows on the wounds on the legs of the team member.

At that time, everyone still hadn't recovered from their shock.

"Change the dressing on time. I'm going to rest."

At this time, Yun Jian stepped on the edge of the certificate that she had just thrown on the ground. That kick caused the certificate to bounce back and fly into the air.

She gently stretched out her hand. Without even looking at it, she grabbed the document with her hand.

She did not even bend her waist.

She stuffed the document back into her trouser pocket. After saying this, she walked away.

When Zhang Hang saw this, he let out a heavy sigh of relief. At the same time, he looked in the direction where Yun Jian had gone for a few seconds.

He had already cursed in his heart several times.

Damn it, where did this talent come from! He actually met him! But Zhang Hang did not say anything else.

...

The next day, Yun Jian was woken up by the noise of the crowd.

She did not fall asleep, so she woke up very quickly.

She stood up and went downstairs.

Zhang Hang spoke to everyone with a pale face:

“Everyone follow GE Junjian and evacuate quickly! We have to move quickly! Our hiding place has been discovered! It’s The N Nation people. They are currently driving their tanks and attacking us! If we are a step later, all of us will die here!”

Zhang Hang’s words made everyone’s faces turn pale with fear.

Everyone’s faces changed drastically due to their nervousness. A few Z nation ordinary people were so scared that they started crying in public.

After Zhang Hang said that, he led a group of special forces soldiers who had come to support the battle towards the direction where the n nation’s tanks were coming from.

They had to find a good location and stop that group of people. They had to fight for a chance for everyone to escape this place!

When Zhang Hang and the others arrived at the scene, the N Nation’s people were already driving their tanks and firing at them as they drove over.

Guns were completely ineffective against the tanks!

“Captain, what should we do!” Someone looked at Zhang Hang and asked.

“At this point, we can only use hand grenades to bombard them with human flesh...” Zhang Hang clenched his fists and gritted his teeth.

The bottom of the tank was the fatal point.

If they wanted to blow up a tank, they had to rush to the bottom of the tank with a bag of explosives on their back. They would use their own deaths to exchange for the destruction of another tank.

But now, there was no other way!

Just as everyone had lost their hope of survival and was only trying to buy some time for the people at the back to escape quickly...

They saw an enemy tank suddenly change direction..

Then, with a "Boom", this tank suddenly helped them and turned around to bombard the tanks of country n..

This was definitely a shocking scene.

However, everyone present was shocked by the scene in front of them. They could not believe why the enemy's tanks would suddenly bombard the enemy's own tanks.

Zhang Hang suddenly looked into the distance. He recalled that when he came out, he seemed to have seen Yun Jian not leaving with the main group but following them here. However, he looked around and saw that there was no trace of him. He suddenly widened his eyes. In front of everyone, he was shocked:

"That tank, it's her! It's her! She really snatched the N Nation's Tank! !!"

2528 Chapter 2528, this woman was too terrifying

Zhang Hang's expression flashed with many colors, but from the color in his eyes, it could be seen that he was deeply shocked by the scene in front of him.

"Captain, you're talking about..."

Even the group of special forces soldiers who were dressed like ordinary refugees with guns in their hands came from Z country far away to support Zhang Hang, when they saw the enemy tank in the distance suddenly help them fight against the enemy's own tank, their eyes widened in surprise.

GE Junjian led everyone to retreat from the rear while Liu Cheng followed Zhang Hang and the others to defend against the N country's attack.

This was the initial arrangement.

At that time, after Liu Cheng heard Zhang Hang's words, his eyes suddenly widened to the maximum. He stared at the tank that suddenly helped them bomb the N country people, he exclaimed, "Could it be her! It's really her! It's Asura! !!"

"Boom! Boom! Boom Boom Boom!"

Liu Cheng's words were buried in the sound of the explosions of the tanks that had suddenly counterattacked them.

If a tank wanted to turn, it would be a little clumsy. Of course, it would vary from person to person.

It was like driving a small car. Some people could drive a small car nimbly and easily. They could even pass through a distance of one millimeter. Some people drove a small car clumsily. The rear of the car might even be a few meters away from the wall behind them, they would crash into it directly because their estimates were not accurate.

Driving a plane, a ship, a tank. These were the same principles as driving a car.

Of course, most people driving a tank could not be as nimble as some cars.

After all, the lightest tank weighed a few tons or dozens of tons.

Of course, this was only for most people.

For Zhang Hang, Shan Zhengyu, Liu Cheng, and the others who had just laid down in their hiding spots and prepared their guns to fight to the death with the N Nation people who had tanks, they were not only shocked at how the tank was robbed by the cloud tablet.

What was even more terrifying and shocking was the operating skills of the tank in front of them!

The N Nation people sent seven tanks to attack them.

One of them was hijacked, and six tanks were fighting against one.

However, this tank that was hijacked by the cloud tablet moved both sides of the tank in the opposite direction. When the tank spun half a circle, it stopped and killed one of the tanks with a single shot.

Then, this tank that was hijacked by the cloud tablet moved forward rapidly. Taking advantage of the few other tanks that had yet to react to why their own tanks would suddenly attack them, they hesitated for a few seconds to counterattack.

"Boom, Boom, Boom" a series of explosions sounded.

The remaining five tanks were directly blown up in front of the enemy commander.

“What! What! What! What! What’s going on! Are you crazy! Are you crazy! Quickly, quickly bomb this tank! He’s crazy! Helping the enemy bomb us! He’s Crazy!”

At this time, the enemy commander’s face was filled with shock as he stepped back. He was trembling as he shouted out these words.

He thought that there was something wrong with the tank driver of his side.

However, just as the enemy commander thought that there was something wrong with the tank driver of his side.

The enemy troops all carried their explosive packs on their backs. They were waiting to rush under the tank at any moment and blow up the tracks of the tank, completely blowing up the tank.

The top door of the tank opened.

A petite figure lightly jumped out of the top door of the tank in front of the enemy commander.

The enemy commander, who originally thought that his pilot was in trouble, saw this petite figure and his expression changed abruptly. He spoke with a trembling voice that even Zhang Hang and the others who were far away could hear:

“It’s a woman! What’s going on! How can it be a woman! When did she replace our pilot and sneak into the tank! ?”!

“It’s too scary! This Woman! It’s too scary! ! !”

2529 It was time for chapter 2529. Farewell, everyone

He had personally seen the tank driver on his side enter the top door of the tank and drive the tank.

Along the way, he did not discover any abnormalities.

When did this woman sneak in! !

“Commander, we...”when one of the enemy commander’s subordinates saw this, he came to this commander’s ear and asked for instructions on what to do next.

“Retreat! We retreat! ! !”

The enemy commander was shocked by the cloud tablet that was standing above the tanks and staring at the entire scene.

Even though he was leading thousands of people and the original seven tanks, he was completely shocked by the cloud tablet's methods.

The group of people quickly turned around and wanted to retreat.

Zhang Hang and the others who were standing far away saw this and were stunned on the spot.

"Haha! Liu Cheng, I didn't expect you to have such a talented person under you!" After recovering from his shock, Zhang Hang patted Liu Cheng's shoulder and laughed out loud.

Although Zhang Hang and the others didn't understand what the N Nation people were talking about, Zhang Hang and the others could tell that the n nation people were probably planning to retreat.

They didn't even want to kill Yun Jian, who was standing on the tank and looked so easy to deal with.

"Sir, you flatter me!" When Liu Cheng heard his superior praise him, he naturally felt an indescribable joy in his heart.

Moreover, the deadlock just now had been turned around by Yun Zhi.

If the seven tanks were to fight against them, they would definitely die!

But at this moment, the N Nation people were planning to retreat!

However, just as the leader of the N Nation was about to lead his troops to retreat, a light and indifferent voice that could make people's hair stand on end suddenly rang out:

"Do you still think that you can leave this place alive?"

Yun Jian's words were spoken in an extremely authentic n nation language in public.

His voice was ice-cold, and there was no emotion in his words.

When they heard this, not only the N Nation commander and the thousands of people who followed him turned their heads in shock and stared at Yun Jian. Even Zhang Hang and the others in the distance felt that Yun Jian was crazy.

Zhang Hang had a subordinate who knew n nation's language. He translated the words that the cloud tablet had just said to the group of people who were about to leave.

“Crazy! Does she know that N Nation is currently in a Riot! A Riot! N nation’s internal forces are divided into several factions. They kill our Z Nation people as they wish! Many innocent women have been killed! Some have even been gang-raped on the street!

“Now that we’ve met this group of Country N’s people, it’s already a blessing in disguise for them to leave without doing anything!

“But what on Earth is she doing! Does she know that she’s also a woman! ?”

If she was caught by the country N’s people, she would be begging for death!

Not only was it physically humiliating, but it was also mentally devastating!

It would be worse than death!

“All of you stay here, I’ll go and bring her back!”Zhang Hang threw the rifle in his arms to one of his subordinates, held a dagger in his hand, and jumped out of his hiding place.

However, just as Zhang Hang jumped out of his hiding place and was about to walk towards the cloud paper.

“F * ck! This woman doesn’t know death! Brothers, Let’s fight with her!”One of the subordinates of the N Country Commander was the first to be unhappy and shouted.

“Don’t kill her, capture her alive and kill our six tanks. Everyone take turns to F * ck her to death!”

These kinds of words rang out loudly.

After that, the troops of the N Nation suddenly rushed towards the cloud tablet that was standing on top of the tanks.

F * ck! They didn’t believe that they couldn’t even capture a woman alive with their thousands of men!

However, under the subordinates of the enemy commander, thousands of men rushed towards the cloud tablet, exposing the evilness of human nature to the highest point.

Yun Jian did not wait for the crowd to arrive before her. In front of Zhang Hang and the others in the distance, she flashed an extremely strange smile at the enemy commander and the thousands of people. In the next second, she smoothed out the corner of her mouth, it was like a harmless little girl grinning. Suddenly, she waved her hand gently at the enemy commander and the thousands of people. Suddenly, she said something that made people tremble in fear:

“Time’s up. Farewell, everyone.”

2530 Chapter 2520 I am even more satisfied with this collaboration

If not for Yun Jian’s feat of destroying six tanks at the same level, everyone would have thought that she was just a harmless young lady the moment they saw her smile.

Naive, simple, and unworldly.

Even Zhang Hang, Liu Cheng, Dan Zhengyu, and the others in the distance had the same misconception.

Yun Jian, perhaps she really was just a harmless young lady.

That faint smile made everyone pause in their steps.

“Don’t just stand there! Quickly follow me to save her! It’s completely impossible for her to deal with thousands of people alone!” Zhang Hang pinned his dagger on his waist and dashed towards Yun Jian.

When the rest of the people heard Zhang Hang’s words, they also quickly followed Zhang Hang and approached Yun Jian.

However, just as Zhang Hang and the others were about to go all out to save Yun Jian, they were less than three meters away.

“Boom! Boom! Boom! Boom! Boom! Boom! Boom! Boom!”

A series of explosions sounded.

The moment the explosions sounded, Yun Jian jumped off the tank and walked towards Zhang Hang and the others.

Before Zhang Hang and the others could react to where the series of explosions came from.

In the distance, the N Nation commander and his nearly 1,000 subordinates were already shouting:

“Land mines! It’s a land mine! Everyone, run! That woman planted a land mine! It’s all a trap! We’ve been tricked!”

“Run! Run!”

“I don’t want to Die! ahhhhhhh! ! !”

...

All kinds of screams rang out.

At this moment, behind the cloud tablet, the battlefield had turned into the entrance to hell.

This group of people had used knives, sticks, and weapons to kill the Z Nation people in the street. They had raped the Z nation women in public. This was an unpardonable crime of the N Nation team. Just like that, they were buried under the continuous bombardment of land mines behind the cloud tablet.

The land mines at the scene were very well laid. The tank that the cloud tablet had driven just now had led all of them to the center of the minefield.

None of them had the ability to survive!

The N Nation people bullied the Z nation people, so they should pay such a price!

Yun Jian was clearly a teenage girl. Behind her, there were countless smoke battlefields. She had clearly looked at the thousands of enemies just now.

However, she was fearless in the face of danger. She displayed a threatening aura that others would never be able to reach in their entire lives. She laid out a strategy that did not require her to personally take action to destroy the thousands of enemies.

Looking at the incessant sounds of land mines exploding behind the cloud paper, the cloud paper did not seem to be affected by the tremor caused by the land mines or the deafening explosions at all.

On the contrary, she put her hands in her pockets lightly as if nothing had happened and walked towards Zhang Hang and the others.

Seeing this scene, Zhang Hang and the others seemed to see the arrival of a ruler.

It was as if she had the power to dominate this world!

Here, she was the King!

...

After an unknown amount of time, the explosion of the land mines finally stopped.

Yun Zhi had already met up with Zhang Hang and the others.

At this moment, Zhang Hang opened his mouth, but in the end, he couldn't say anything.

Just as everyone was thinking of asking Yun Zhi to stand out, Yun Zhi suddenly looked behind them and said, "Thank you for your hard work."

After saying that, Zhang Hang and the others were stunned.

Hard Work?

What hard work?

Zhang Hang and the others were slightly stunned. They turned around and saw that Shen Ji, who had left yesterday, was already standing in front of them.

Without waiting for everyone's reaction, Yun Jian lightly pursed his red lips and ignored the people in front of him. He spoke to Shen Ji, who was behind him, again:

"Compared to the battle where we cooperated to blow up 100,000 enemies in country L ten years ago, I'm more satisfied with this cooperation."

2531 Chapter 2521 my men have arrived

Ten years ago?

100,000 people killed on the battlefield of Country L?

Yun Jian's words completely stunned Zhang Hang and the others.

What was the 100,000 people killed on the battlefield of Country L ten years ago? ?

Could it be that they had been on the battlefield before? !

Liu Cheng suddenly recalled that Yun Jian had told Shen Ji that it had been almost ten years since they had been sent to the battlefield together.

Liu Cheng suddenly raised his head and looked at Yun Jian with his eyes wide open.

Could it be...

That matter really existed!

Yun Jian did not see everyone's reaction. At this moment, she directly ignored Zhang Hang and the others and looked at Shen Ji.

“Well, compared to the battle in Country L ten years ago, I also like the cooperation today.” Shen Ji suddenly revealed a strange smile.

The next second, Shenji raised her head, looked at the cloud note with her chin, and repeated again:

“But that’s it for today! 006, next time, we’ll have to rely on our own abilities!

“I will definitely surpass you! Just you wait!”

Shenji had never changed her belief.

Or it could be said that the idea of surpassing the cloud note had become the motivation for Shenji to survive.

It was an indispensable source of driving force for Shen Ji.

Yun Jian narrowed his eyes as a tacit agreement.

...

When the group of people found the new hiding place of the Z country refugees led by GE Junjian, it was already early morning the next day.

“Are you guys injured?” Seeing Yun Jian and the others coming back, GE Junjian and his people surrounded them and asked worriedly.

“Brother, you are lucky to have this daughter!” The first thing Zhang Hang said when he came back was to praise Yun Jian.

GE Junjian was stunned and confused.

“She didn’t drag you guys back, did she?” Wang Xuefei was full of doubts when she heard Zhang Hang’s words. She looked at Yun Jian and couldn’t help but ask.

“Haha!” After Zhang Hang heard Wang Xuefei’s words, he pursed his lips and laughed. Then, he said to Wang Xuefei in front of everyone,

“If it wasn’t for her yesterday, our group would have lost their lives on the battlefield!”

Because everyone had nothing to do, Zhang Hang deliberately kept them in suspense.

Hearing this, everyone became even more interested in the cloud note.

“Captain Zhang, tell us quickly, what happened to you guys? And that group of N Nation people, will they still come over? Will it be very dangerous for us to stay here?”

After listening to Zhang Hang's words, someone hurriedly asked.

"Is it really that powerful?" Wang Xuefei pouted her lips unwillingly.

After Wang Xuefei said this, Zhang Hang said again, "The N Nation team they encountered this time, they sent seven tanks over."

When a person fought a tank head-on, he or she should know who had the advantage.

"AH? Then, Captain Zhang, Are You Alright?" After hearing Zhang Hang's words, an ordinary refugee in the crowd asked nervously.

"Of course I'm Fine! Hey, I have to tell you about the capabilities of the cloud tablet! They worked together with that person and killed the enemy commander and thousands of people. At that time, they really scared me..."

Zhang Hang was also a person who liked to brag in his free time. Since everyone had nothing to do here anyway, they listened to Zhang Hang's bragging.

However, just as everyone was bragging the most, the cloud note, who had been quietly fiddling with his phone, suddenly stood up and flipped the phone upside down. The screen was facing everyone, and it said something that made everyone's pupils shrink:

"My people are about to reach the border of N Nation. If you want to leave, you can take advantage of the chaos to leave when my people are charging into the border of N Nation and there are no n nation's troops guarding the border."

2532 Chapter 2522 the uprising of the masses, the evil of human nature

This time, Zhang Hang, Shan Zhengyu, and the others brought Liu Cheng, GE Junjian, and the other special forces soldiers who came to N country to support N country, not to start a war with N country people.

Their goal was simple to say, but it was quite difficult to do.

It was to bring back all the Z country refugees scattered all over N country safely.

No matter where you went in the world, the country would never give up on you.

That was why Zhang Hang, Dan Zhengyu, and the others had risked their lives to come to N Country!

Of course, out of selfishness, they still wanted to bring back the bodies of their comrades who had come to N country to provide support, but had unfortunately died here!

Just this current hiding place alone had over a hundred z country refugees hiding.

Zhang Hang dared to take the risk of bringing Yun Jian and his group into N country because even if something unexpected happened, Yun Jian and his group would definitely have the ability to protect themselves.

However, this group of refugees was different. They were just ordinary people. Once something happened, they would not be able to fight back and would definitely die!

Moreover, with over a hundred people traveling together, it was very likely that they would attract attention.

Therefore, Zhang Hang and the others had been waiting for the right time to send this group of refugees back to their countries.

However, Yun Jian suddenly stood up and told him that there was a chance to send this group of refugees who were innocently affected by the riots in country N and luckily survived back to their countries.

This was a great piece of good news for Zhang Hang and the others.

Just now, Zhang Hang was still bragging about Yun Jian's ability on the battlefield. At this moment, Zhang Hang had already jumped down the stairs and rushed to the front of Yun Jian. He asked in surprise,

“Really? Yun Jian, is the information you gave accurate? How much risk is there?”

Yun Jian's words also gave the refugees lying around a glimmer of hope to survive.

“50% .”However, just as everyone's hearts lit up with a glimmer of hope, Yun Zhi suddenly spoke.

After she finished speaking, she emphasized once again, “Only half of your people will be able to leave country N alive. When my people charge into country N's borders, you must take advantage of the time when both sides are fighting to rush out of country N's borders.

“Because the battle is completely won, country N will immediately send their troops over. If you don't take advantage of the chaos to leave quickly, you will be killed on the spot by the troops of country n rushing over from behind. At that time, no one will be able to escape!”

The implication was that if they wanted to take advantage of this opportunity to leave the N country, they had to rush out of the N country in the rain of bullets while Yun Jian's people were fighting with the N country's troops stationed at the border.

If they were careless and were hit in the vital parts, then they could only blame themselves for being careless.

After Yun Jian's words fell, all the refugees who had ignited hope, as well as Zhang Hang and all the Special Forces soldiers, fell silent again.

Yun Jian's words implied that if the hundreds of people present were willing to leave, only half of them would be able to leave country N alive.

A 50% chance of survival.

"Why! Why did you let us encounter such a thing! I was only going to country N for a vacation! Why did such a thing happen! Aren't you soldiers very powerful? !!"

"We barely survived until now, yet you tell us that only half of us will be able to leave Alive!!"

"I don't want to stay in this damn place anymore! You have to take us away! You are soldiers, you have to protect us unconditionally!"

Not long after Yun Jian's words, a shivering male voice that had endured for a long time was heard.

The person who spoke was an unremarkable middle-aged man who was squatting in a corner.

This middle-aged man wore square-rimmed glasses and had a scholarly look on his face.

"My wife died a few days ago! She was killed by those inhumane people from n nation!"

"I don't want to stay here anymore! Aren't you soldiers who serve the people? Then think of a way to send us out! Why are there still sacrifices? Shouldn't you be protecting our lives!"

"If you can't even protect our lives, then what's the point of having you here? !"

Perhaps it was because of fear, this middle-aged man who wore glasses and looked very refined gradually became agitated.

When people were in extreme panic and fear, they would expose the ugliness of human nature to the highest point.

As soon as the middle-aged man finished speaking, the refugees who had been helped by Zhang Hang, Wang Xuefei, Zhang Meili, and the others could no longer hold

themselves back. Because they were afraid of death, their shouts and shouts were endless.

“That’s right! Didn’t you come to N country just to protect us? If you can’t even guarantee our safety, then what’s the point of having you? !”

“You still call yourselves soldiers? I think you’re just a bunch of cowards!”

“Take us home! We agreed to take us home! We don’t want to Die! Why Can’t you soldiers rush in front of us to protect us? !”

...

2533 Chapter 2533 will blow it up for you

Only when forced into a helpless situation will one expose the darkness of one’s humanity to the public.

The reason why the N people killed the z people and raped the women on the street for no reason was because of the internal strife in the N country. There were two factions fighting for the throne in the country, and the ordinary people in the N country were left with no way out.

When a person reached the end of his or her life, there was no restriction of the national law. The immoral things that he or she could do were definitely many times more disgusting than one could imagine.

The national law of Country Z was perfected, so the incidents of robbery, murder, and rape would be greatly reduced.

As for Country N, it was currently in a state where there was no master, not to mention the national law.

In a society ruled by law, rape, robbery, and murder would still happen. Imagine what would happen in a country where there was no rule of law and ordinary people were not restrained.

The middle-aged bespectacled man, who was usually known to be a cultured person, was the leader of the group. He was the one who had brought the ugliness of human nature to the top. Everyone started to protest loudly.

“Bring us home safely! Bring US home safely! Bring US home safely!”

...

The middle-aged bespectacled man took the lead. All the refugees raised one hand, shouting and shouting at the same time.

In fact, when they were first rescued by Zhang Hang and the others, this group of refugees had just escaped death.

At that time, for this group of refugees, it was already very good that they could meet the people sent by the country to rescue them.

That was already a blessing from heaven!

Because if they hadn't met the people sent by Zhang Hang and the other countries to protect them, they would have long been hacked to death by the N Nation people outside, just like the others.

The woman was killed after being physically mutilated.

However, as time passed, everyone was already dissatisfied.

It had been so long, why hadn't anyone sent them back to their country!

In the end, Yun Jian announced publicly that they would be sent back to their country.

However, the survival rate was only half!

They didn't want to die!

After seeing their relatives and friends being killed by the N Nation people in various ways, their fear of death deepened.

Therefore, they could not die even if they did not want to!

"Everyone! Quiet down! We will protect you from the back and do our best to send each of you out of the N Nation safely. So please calm down and wait for me to finish speaking, okay?"

Zhang hang saw that all the refugees who were sitting on the ground stood up. They were so angry that they looked like they were going to kill someone. He tried his best to calm himself down.

However, he could not help but clench his fists.

How could he not want to send everyone safely back to country Z!

His responsibility was to bring everyone here safely back to country Z!

However, every day here represented a deeper layer of danger for them.

Just like yesterday, if it was not for Yun Jian and Shen Ji, Zhang Hang and the others would have died first. After that, it would definitely be this group of refugees who were protected by Zhang Hang and the others.

No one could survive!

Zhang hang originally wanted to calmly communicate with the refugees, but what he got in return was an even louder refutation from the refugees.

“If you don’t let us leave country n safely, don’t think that we can calm down! You said that when the time is right, you would bring us out safely! Isn’t that right?”

The middle-aged bespectacled man took the lead.

“That’s right!”

“That’s right!”

“You soldiers must bring us out safely! Otherwise, we won’t listen to you! We just won’t calm down!”

...

Zhang Hang’s amiable words attracted even more furious counterattacks.

However, at the moment when the situation was completely out of control, from the mouth of the cloud note, which had unknowingly stood at the highest point that everyone could see, a cold and icy voice came out:

“I still have ten explosives in my hands. If you don’t control that annoying mouth of yours in three seconds, I’ll blow it up for you.”

2534 Chapter 2534 took back his chance and waited for his death

This cold and emotionless voice resounded throughout the hall.

As soon as the voice rang out, everyone’s gaze shifted from Zhang Hang to the pile of debris that was five to six meters tall.

They didn’t know when, but Yun Jian had already carried everyone on his back and easily stood on the pile of debris that was five to six meters tall.

Just looking at this pile of debris that was five to six meters tall gave people a feeling that it was on the verge of collapse.

If one stood on it, there was a possibility that one might fall off this pile of tall and unstable debris at any time.

However, Yun Jian, who was the focus of everyone's attention, stood on the pile of tall debris like a light feather. She was so stable that no one could find a single flaw in her.

As soon as these frightening words left her mouth, everyone saw that she seemed to agree with what she had just said. At this moment, she was playing with a few explosives in her hands.

She played with the explosives in her hands without any fear. It was as if she was going to ignite the explosives at any moment. Everyone present was so frightened that they twitched violently.

In less than three seconds, this group of refugees who were dissatisfied with the uprising had all shut their mouths.

At this moment, Zhang Hang, Dan Zhengyu, Liu Cheng, a few female military doctors, Wang Xuefei, Zhang Meili, and the others were all completely shocked by Yun Jian's threatening aura.

Zhang Hang's good words and persuasion just now were completely useless.

She, a young girl in her teens, actually forced all the refugees at the scene to shut their mouths by herself!

"Captain, this little girl is really talented! If we have the chance to return to the country, we must report this matter to our superiors!"

A special forces soldier standing next to Zhang Hang saw this and whispered these words into Zhang Hang's ear.

Although Zhang Hang did not reply, he knew in his heart.

This group of refugees finally completely quieted down.

At this moment, Yun Jian suddenly threw the explosives in his hands onto the second floor.

Beside the fence on the second floor, which could be seen from the first floor, a hand suddenly reached out from the originally empty dark area.

Shen Ji, who didn't live with the group, had unknowingly already stood on the second floor.

She conveniently caught the explosives thrown by Yun Jian.

Seeing this scene, this group of refugees, who were originally unconvinced, fiercely shut their mouths.

No one dared to say a single word in such a situation.

“I’ve put it here. The lives and deaths of everyone present have nothing to do with us!

“It’s our responsibility to save all of you.

“But, what right do we have to save all of you again and again by putting you at the bottom to defend against the enemy?

“If we save all of you, will you be able to retire for us?

“If we save you, can you contribute your lives to us

“If we save you, can you do anything for us?”

Yun Zhi suddenly spoke.

With these words, the group of refugees standing on the flat ground was completely silenced.

Yun Zhi suddenly raised a red arc. Her indifferent and cold expression made the group of refugees at the scene panic for no reason.

Just as the refugees did not say anything, Yun Zhi’s words rang out once again, causing the refugees to turn pale with fear:

“I’m the one who gave you the 50% chance of survival this time.

“Since I gave you the 50% chance of survival to leave Country N, you still have the right to take back the 50% chance of survival.

“You, wait for your death in country n!”

2535 Chapter 2535. I’m the expert on assassinations

Every word spoken by the cloud-paper pierced into people’s hearts word by word.

If the bespectacled man who led the revolt just now is still leading the revolt, he is not satisfied with Yunjian’s statement that there is only a 50% chance of survival to return to Z country alive.

Then this time, she cloud paper even give them this 50% chance of survival, have to take back!

After all, staying in country n meant that they would die without a doubt.

“You bunch of inhumane fellows, just wait to die in country n!” At this moment, a refugee who had not spoken since the beginning, an old man who was over 50 years old and about 70 years old, suddenly spoke.

As the old man spoke, he held his chest and breathed heavily. Just as he said this, the old man leaned against a corner and sat down.

After he sat down, he used the tone of an elder to scold everyone present:

“Captain Zhang was able to bring people to N country to save us. Could it be that his own situation isn’t dangerous right now? !

“Could it be that their soldiers aren’t in danger right now? !

“Why would they take such a risk to come to N country to save us? ! They can just stay in the country and don’t need to be involved in any danger.

“Are you their family or friends?”?

“Let me ask you people who have lost their sanity, have your conscience been eaten by dogs?”!

“Die! Now, even your last chance has been destroyed by yourselves. Anyway, this old man is already half-dead. Just wait for your death!”

Although this old man was old, every word he said was the truth.

After he said that, the group of refugees shut their mouths.

Most of the refugees, including the bespectacled middle-aged man, lowered their heads.

After a while, someone said to Yun Jian, Zhang Hang, and the others, “Sorry, we were wrong. We shouldn’t have done this.”

With one person taking the lead, everyone followed suit and apologized.

However, Yun Jian did not react at all.

She jumped down from the six-meter-tall pile of junk and walked to the side.

“Everyone, listen to me. We are hiding in N country, and N country’s army is already targeting us. It’s impossible for us to hide every time, and it’s also impossible for us to defeat N country’s army every time!

“Because we only have so few people.

“This might really be your last chance. Whether you choose or not, it’s up to you. However, this Zhang says that we soldiers will do our best to bring you back to the country!”

After everyone quieted down, Zhang Hang said.

If Yun Jian and Zhang Hang’s words just now had attracted the ridicule of all the refugees, then at this moment, all the refugees were filled with gratitude.

...

In the end, it was GE Junjian who stepped in. Yun Jian only agreed to tell the specific time when her people fought with the N Nation people.

And when Yun Jian’s people fought with the n nation’s border army, they had to send one person to directly kill the leader of the army. Only then would there be a 100% chance of victory.

“I’m the best at infiltrating and killing the leader of a place. After all, I’ve been a secret agent before, so let me go!”Zhang Hang said to a female special forces soldier beside him.

However, when everyone heard the female special forces soldier’s words and decided to let the Female Special Forces soldier infiltrate and try it out.

Everyone’s eyes suddenly flashed.

They saw that Yun Jian was already dressed in tights and tights. There was a pistol on her thigh and two butterfly knives on both sides of her waist. It was a standard female special forces outfit.

When everyone was stunned, she said something that shocked everyone present, including Zhang Hang, Zhang Meili, and all the refugees:

“Damn, no one is better at assassination than me.”

2536 Chapter 2536: Mama Baba, Kiss Kiss Kiss kiss

A moment of carelessness, and Yun Jian had already changed into his mission attire. This scene made everyone present stunned.

The next second, everyone regained their senses.

“Can you really go? Assassinating the target leader is something that can only be done once. Otherwise, if you send someone else to assassinate him, there’s no chance of victory.”

“Miss Yin Yue is a proper female spy. She even participated in the mission of eliminating a smuggling group in the country eight years ago. She infiltrated this group of smuggling groups as a female spy and hid for five years. In the end, she gained the trust of the other party and uprooted the entire smuggling group!”

“In terms of assassination, it’s not a competition of brute force. Although I heard that you can drive a tank, Miss Yin Yue is still the best at assassination, right?”

The middle-aged man who was the leader of the protest, who was wearing glasses and usually looked refined, stood up and said.

The middle-aged man who was the leader of the protest, who looked refined, was called He Wen. He was a very honest and honest name.

He was born as a farmer and had studied for a few years. His academic results were so good that he was always the first in the city in every exam. Because he was too focused on his studies, he wore glasses.

However, when he was in his second year of high school, he wen dropped out of school because of a family crisis. After wandering around the Society for a while, he wen came to n country to work.

He was once a genius in studies. Without the nurture, he was no different from an ordinary person now.

Now, in order to survive, he refuted Yun Jian’s words.

Yin Yue was the female special forces soldier who had once been a secret agent.

Her full name was Liu Yin Yue.

Liu Yin Yue had already stayed with the refugees a few months ago.

In N country, where life and death were at stake, the refugees did not know if there would be a tomorrow or not. The refugees’ only pleasure was to listen to Liu Yin Yue and the others tell the story of being a special forces soldier.

Everyone took turns to tell the story to pass the time.

He Wen had heard a group of Special Forces soldiers tell the story of Liu Yin Yue being a female secret agent, so she quickly opened her mouth.

In fact, this group of refugees had most likely apologized after hearing the old man's words because they were afraid that because of this, Yun Jian would really take back their last chance to return to the country.

And this time, the assassination of the leader of the army guarding the border of Country N was to allow Yun Jian's people to easily subdue this army.

To put it bluntly, it was to create more chances for them to escape.

Therefore, he wen and all the refugees present naturally hoped that the strongest one would assassinate the leader of the other party.

"That's right, let Miss Yin Yue go! Miss Yin Yue's strength is obvious to all!"

After he wen finished speaking, someone immediately spoke up.

"Support Miss Yin Yue to go! Support Miss Yin Yue to go!"

The crowd started to make a ruckus again.

Yun Jian did not respond this time. She bent down and picked out a dagger from the pile of weapons at the side. She held the hilt of the dagger and walked out.

She did not explain, but she also did not follow the instructions of this group of people.

"Why don't the two of Us Go Together?" Liu Yin Yue was a very reasonable person. Seeing that the people around her were not willing to stop talking, after she finished speaking, she equipped her weapon in public and trotted in the direction that Yun Jian had left in.

...

At this moment, in Longmen City, Zhejiang province, Z country.

Qin Yirou was organizing her photo album.

There were a bunch of photos on the ground.

"Ding Dong Ding Dong –"

At this moment, the doorbell rang.

Qin Yirou glanced at the two guys and her son. Seeing that they were sitting on the sponge mat and playing with it, she walked to open the door.

It was the neighbor next door.

After chatting for a while, Qin Yirou walked back here.

She just happened to see the little girl calling out “Mummy Daddy”. The little girl was holding a photo of a family of four in her hand.

The little girl suddenly folded the photo. She giggled and laughed. However, she only saw the thin lips in the photo and the pink lips in the photo. Because of this folding, they were stuck together...

“Mummy... Daddy Daddy Daddy... hehehe, Kiss Kiss Kiss Kiss Kiss Kiss...”

2537 Chapter 2537 arrived at the military camp

Even if it was just this photo, it was enough for Qin Yirou’s imagination to run wild.

Seeing this, even Qin Yirou’s old and spicy face turned red.

“Kite, you can’t fold the photo randomly.”

Seeing the little guy frowning and looking at the family photo on the photo, Si Yi and Yun Jian’s lips just happened to kiss each other as if they understood what this scene meant.

Qin Yirou was afraid that these children would mature too early, so she quickly walked over and tried to snatch the photo from the little girl’s hands.

“Po Po, Mummy Daddi! Mummy Daddi! Po Po! Yiya!”The little girl pouted. Her two small palms, which were the size of a finger of a mature adult, firmly held onto the photo, refusing to let go.

Po Po was the meaning of a mother-in-law whose pronunciation was not standard. She was calling Qin Yirou.

The little girl seemed to be trying to express something, and the little girl’s hands were small and tender. Qin Yirou did not dare to use too much strength, so she could not pull the photo out of the little girl’s hands. She gave up helplessly.

Fortunately, there were no sensible children or adults around. Otherwise, she would be so shy that she would die.

“Kiss Kiss... Kiss Kiss Kiss...”the little girl folded the photo and played with it happily.

Finally, she felt sleepy. When the little girl fell asleep, she was still holding the photo that was folded into Si Yi’s thin lips and kissed Yun Jian’s red lips. She fell asleep.

Qin Yirou took this opportunity and quickly took the photo out of the little girl's hand. Then, she put it together with the stack of photos on the ground and hid it first.

When the little guy saw Qin Yirou walk away, he looked left and right. Suddenly, he crawled in front of the little girl and lowered his head. Imitating the usual si yi kissing yun jian, he kissed the little girl's forehead and giggled secretly.

...

Returning to the scene of country N, the group planned to break through the Border Army of Country N.

"Yun Jian, wait for me! Let's plan how to sneak in and assassinate them!" Liu yinyue caught up with Yun Jian's footsteps and asked.

When she said this, Liu yinyue's voice was extremely soft.

This area was full of people from country N. during the riot, the people from country N to country Z could not be described by the word "Reckless."

If the two of them were found out, they could even predict what would happen to them.

They would become the playthings of thousands of men. They would be tortured physically and mentally before they died.

"The military camp is right in front of us. Wait for me outside. Don't come in."

Yun Zhi only left Liu yinyue with these words before he walked forward.

"Hey, you..."

Liu yinyue heard this and walked over to grab Yun Jian. "It's too dangerous for you to be alone. Let's Go Together!"

Yun Jian blinked. She was about to refuse, but after thinking for a moment, she said,

"The barracks stationed here are very big. They can be divided into the East Barracks and the West Barracks. The leader of the barracks lives in the East Barracks. If you want to help, think of a way to attract most of the people from the East Barracks and the West Barracks to the West Barracks.

"Ten minutes will do."

After saying that, Yun Jian did not wait for Liu Yinyue's reply and left in a few flashes.

...

The technology of Country N was not advanced, and the military camps generally did not have cameras.

It was already very impressive to have a camera here.

Yun Jian had already found the leader of the military camp.

This was an extremely large open space.

There were countless stars in the sky, and in this open space, there were many naked women and women lying.

“Scream! Why aren’t you screaming! Bitch! F * ck!”

This was simply a chaotic scene.

The N Nation people were doing extremely disgusting things to the z nation women and women who had been captured and brought here.

One of the N Nation people rammed into a woman whose mouth was full of blood.

The woman did not listen. The man pulled out his blade and stabbed the woman who had no desire to live. He clicked his tongue and said,

“Bitch, if you don’t listen, I’ll kill you!”

2538 Chapter 2538 first go to Hell and be sent to accompany you

There was no despair, only more despair.

Whether it was the group of women or the women present, they were all motionless and had lost all hope for life.

Some of them had seen their husbands killed by the N Nation people a few months ago, and their loved ones killed by the entire family.

This was the result of staying in a country where the rule of law was not sound and a sudden riot occurred.

Men and women, men had already been killed on the spot.

As for women, after experiencing physical despair, they were tortured to death by this group of people.

There were some courageous women who had committed suicide long before they were humiliated.

When Yun Jian arrived at the scene, he saw this scene.

The disobedient woman who was stabbed to death by the N Nation people let out a muffled groan and died with her eyes wide open.

She died with her eyes wide open!

“Damn Bitch! F * ck, how Dare You Stare at me! Stare at me! I’ll kill you!”

When the N Nation people saw that the woman did not close her eyes even after she died, he panicked. However, he stabbed the woman’s eyes with the blade and pulled her eyes out in front of everyone!

You could never imagine what kind of cruel things a citizen of a country without rule of law could do.

Dozens of women and women at the scene were suffering from a life worse than death.

Some were even tied up and couldn’t even commit suicide.

Yun Jian narrowed her eyes. At this moment, she was standing at the top of the eaves, looking forward.

In her hands were two butterfly knives that could be seen in the light.

Yun Jian didn’t think that Liu yinyue would help, so she held the butterfly knives. When she found the target and rode on a woman like the N Nation people, she was about to make a move.

“There’s an invasion on the west side! Requesting backup! Requesting backup!”

A loud voice sounded.

A N nation person rushed in and shouted loudly.

Hearing this, the surrounding n nation people put on their clothes as fast as they could and ran out.

Only the leader was still riding on a woman.

The other women and women were lying on the ground as if they were paralyzed. They had lost all hope of survival.

“Roar — Roar Roar Roar...”the leader was as fat as a pig.

Just as the leader was about to finish, he suddenly heard a cold voice behind him:

“Are you ready to pay the price for what you’ve done?”

The voice that suddenly sounded stunned the leader. He turned around like a robot. He thought that the woman lying on the ground was delusional and wanted to attack him. Just as he was about to shout for the remaining men to protect him, he saw a strange face, he saw an unfamiliar face.

Yun Jian Jiao’s figure was wrapped in black tights and tights. The butterfly blades in her hands were facing down. There was eye-catching blood dripping from the blades. Her cold and indifferent expression.., she looked like a killer.

The leader saw that the group of men who were supposed to stay behind to protect him were lying in a pool of blood without making a sound.

“You? ... You, you, you! ! ! Who Are You! ! !”

When the leader heard Yun Jian’s words, he was about to get up and flee in all directions.

In an instant, the blade in Yun Jian’s hand had already cut his throat. At the same time, a sentence that made the leader completely lose himself suddenly rang out:

“Don’t worry, you go to Hell first. Soon, I will send all your men to accompany you.”

2539 Chapter 2539. The two figures were so similar

After these words were said, the leader’s eyes widened and he fell to the ground.

His eyes did not close for a long time. Obviously, Yun Jian’s words made him die with regret.

This was his military camp. To him, without the military camp, there was nothing.

Even his battle achievements after death would be reduced to nothingness!

“Mission completed.” Yun Jian took out a handkerchief and gently wiped the blood stains on the two butterfly knives. She calmly said this sentence to someone she did not know.

In the next second, she swept her gaze across the entire scene and calmly said to the dozens of women and women lying on the ground,

“You still have five minutes. Leave from the rear and you can directly escape from country N and cross the border of country N. there are national teams outside to rescue you.”

Yun Zhi’s words made the dozens of women lying on the ground turn to look at her.

Yun Zhi's eyes were fixed on her two butterfly knives from the beginning to the end. She curved her red lips and added,

"The people here have been killed by me. Don't worry, you won't run into the people of Country N again when you escape."

As soon as she said this, the group of women and women lying on the ground all got up from the ground and swarmed in the direction that Yun Zhi pointed.

Yun Jian suddenly curled her lips. The next second, she took out the dagger that she had picked up from the hiding place not long ago. The moment she turned around, the dagger in her hand was one step faster than her as it flew towards the only surveillance camera in the dark.

With a "Pu" sound, the surveillance camera was destroyed.

Her red arc rose as she sneered, "What an eyesore."

...

After meeting with Liu yinyue outside the military camp, the two of them returned to the hiding place.

After returning to the hiding place, everyone greeted Yun Jian and Liu yinyue. When they heard that the leader of the target military camp had been killed and that the military camp had no owner and was in chaos, everyone let out a sigh of relief.

When the military camp was in chaos the next day, Yun Jian's people would break through from outside the border and enter the encirclement. Taking advantage of this opportunity, everyone could escape.

...

After falling asleep in the early morning, Yun Zhi opened his eyes a few hours later.

It was daybreak.

"Big News! I sneaked out just now and heard about something big on the streets of N Nation!"

At this moment, a special forces soldier ran back as if he was flying. He was holding a black and white printed newspaper in his hand.

"This is the newspaper I took from another country. It says that yesterday, Liu yinyue and Yun Zhi sneaked into the military camp for a sneak attack. A woman who is

suspected to be the legendary number one on the international spy rankings, Sha Shen, appeared!

“This is the back view of the woman recorded by the surveillance camera. After this back view was spread out, I heard that the only thing that was unintentionally captured in the hands of a world-renowned photographer who loved photography in Western countries was the figure of the No. 1 on the international spy rankings, Sha Shen, in person. It was as if she had retreated!

“So now, I further speculate that the woman who appeared in the military camp yesterday could be the No. 1 on the international spy rankings, Sha Shen!”

The Special Forces soldier held the newspaper in his hand and shouted in panic.

As he spoke, he even printed an ambiguous picture on the newspaper. It was hard to tell whether this person was a man or a woman. He showed it to everyone.

“Yin Yue, Yun Jian, have you two ever seen another person appear in the military camp last night? That person is probably the No. 1 spy on the international spy rankings, Sha Shen!”

The special forces soldier exclaimed in surprise.

Hearing this, everyone turned their eyes to Yun Zhi and Liu Yin Yue.

Just as everyone turned their eyes to Yun Zhi and Liu Yin Yue, someone suddenly looked at the back of the person in the newspaper and pointed at Yun Zhi. He said in a shocked tone in front of everyone,

“This back... why do I remember that it’s exactly the same as Yun Zhi’s outfit Yesterday!”

2540 Chapter 2540. The two sides were engaged in a war, and the military forces were involved

When the person spoke and finished speaking, everyone’s eyes shifted to Yun Jian.

Yun Jian, who was not far away, was only wearing casual clothes. Her clothes were neither loose nor tight, just right.

“HMM?” Seeing that everyone’s attention had shifted to her, Yun Jian responded softly. She did not panic as everyone had imagined, nor did she explain herself after hearing these words.

Instead, she reached out and wiped the two butterfly knives in her hands. She swung the two butterfly knives back to her waist.

“Yun Jian, which outfit were you wearing yesterday?” Someone asked Yun Jian in an excited tone, as if they had discovered a secret.

If Yun Jian was really the number one assassin on the international spy rankings, she should have had some reaction after being asked, right?

However, everyone saw that after Yun Jian put the two butterfly knives back to her waist, she was the first to walk out of the hiding place.

Halfway there, she looked sideways and suddenly said to everyone,

“The clothes I wore yesterday are over there. I’ll give you ten minutes to gather at the door. If you’re late, you won’t wait for anyone.”

As soon as she finished speaking, Yun Jian walked out of the hiding place.

Everyone knew that the phrase ‘If you’re late, you won’t wait for anyone’ from Yun Jian meant that if they were late, they wouldn’t be included in the escape plan.

Therefore, everyone didn’t dare to be careless.

However, before they left, the middle-aged man wearing glasses, who was he wen, was the first to rush up and lift up the tights that Yun Jian wore yesterday.

After comparing the tights that Yun Jian wore yesterday with the back view in the news daily.

Everyone’s eyes widened at this moment...

...

Yun Jian waited in the hiding place for three minutes before the people in the hiding place came out one after another.

“So it’s a misunderstanding. You’re not the number one assassin on the international spy rankings.” A middle-aged man who came out from the first few people smiled silently at Yun Jian, feeling a little awkward.

“I almost got scared, but the style of the clothes is completely different. I also remembered yesterday that Yun Jian was wearing a dress with no decorations on the back.” Zhang Meili walked over and said.

The farce was over.

Yun Jian stood in front of everyone. She pursed her red lips and didn’t make a sound.

She seemed to have known this result. There was no joy or worry on her face.

The clothes are assembled and the pendants can be taken off at any time.

Otherwise, cloud note will not let the security cameras to capture their own back.

...

“Boom, Boom, Boom, Boom, Boom, Boom, Boom, Boom, Boom, Boom, Boom, Boom, Boom!”

In the distance, there was the sound of explosives, gunfire, machine guns and a series of gunshots.

It is obvious that the people of Yunjian are at war with the side of the leader who was assassinated yesterday.

Yun Jian led a group of people to hide in the tall grass.

“Listen to my orders and wait for an opportunity. When I say run, no one is allowed to turn back. Charge forward with all your might. I will call out to you when the damage rate is at its lowest.”

Yun Jian’s gentle exhortation was quickly covered by the sound of explosions and gunfire.

Hearing this, everyone nodded in unison.

If one observed carefully, one could see that the hands of these z country refugees were fiercely interlocked.

Everyone knew that this was the key to life and death.

If one could escape the entrance to hell, then one could survive. If one could not, then one would die.

At the moment when everyone’s hearts were tightly clenched and they could not breathe, Captain Zhang Hang Glanced at the distant cloud tablet’s people who were bombarding the enemy’s artillery. Then, he looked at the cloud tablet. Under everyone’s gaze, he asked the cloud tablet,

“How did your men possess such a powerful arsenal? The battle has been going on for nearly thirty minutes. This standard is almost comparable to an underdeveloped country...”

“As far as I know, only those underground organizations in the world possess such a terrifying Arsenal...”

2541 Chapter 2541 there was a problem with Mu Ying’s body

There was nothing wrong with what Zhang Hang said.

Some small countries that were not developed and lived under someone else’s roof did not even have such weapons.

To make weapons, they needed talents.

Some countries did not even have talents. Their own countries could not make all kinds of guns and ammunition, so they had to buy them from other countries.

How could such a country be powerful?

On the contrary, the people of Yun Jian actually had so many firearms. This was not something that ordinary people could have!

“Have you heard of a saying?”Yun Jian did not reply Zhang Hang directly.

“What saying?”Zhang Hang was currently holding a weed in his mouth and wearing a hat made of weeds on his head. He asked in return.

“The less you know, the longer you live. Or do you choose to die now?”Yun Jian’s words came right after the sky-shaking cannon. His voice was neither loud nor soft, and it reached the ears of everyone present.

“I want to live a few more years.”Zhang hang spat out the weed in his mouth and laughed. He did not press any further.

Everyone around was anxious about their own lives. At this juncture, although Yun Jian and Zhang Hang’s conversation was very attractive, their own lives were more precious.

“In a while, bring some people to cover them. Now, give me all the sniper rifles in your hands,”yun Jian said again after Zhang Hang joked.

“What do you want to Do?”Zhang Hang asked again. When he asked, he also asked his brothers to give all the sniper rifles on their backs to Yun Jian.

Zhang Hang felt that he was not talking to Yun Jian like he was talking to a nineteen-year-old rookie special forces soldier. Instead, he felt like he was talking to a veteran general who had been on the battlefield for many years and had astonishing strength.

Yun Jian did not reply to Zhang Hang’s question.

After all, this army stationed at the border had been stationed here for so many years and was quite familiar with the terrain. It would not be easy to kill them in such a short period of time.

...

What happened here was already two different worlds to Mu Ying who was far away in Country Z.

Perhaps from the moment Mu Ying died in the dark soul organization for Yun Jian, she and Yun Jian were destined not to return to the past.

Mu Ying's physical body had actually disappeared from this world. Her consciousness was taken away by a perverted doctor and forced into this body.

When Yun Jian found her and brought the mad dragon to her side, Mu Ying had already accepted the mad dragon once again.

But recently, Mu Ying found that she would often faint suddenly.

That feeling was the same as when she died.

In the past two days, she had fainted five times. and recently, it seemed that the frequency of her fainting was increasing.

Mu Ying suddenly realized that before the abnormal doctor died, he said that if she did not have the unique medicine that he invented to maintain her condition, her current body could squeeze out her soul at any time.

Once the body completely squeezed out her soul, she would die again in a certain sense.

Before the abnormal doctor died, he said that such a situation would usually appear twenty years after she fused with the body.

But now, could it be that it happened earlier?

That was why Mu Ying had been closed to visitors for the past two days. Even the mad dragon had used various reasons to avoid meeting her.

Finally, Mu Ying pinched her knuckles until they turned white. Only then did she finish typing a message on her phone.

'Don't come looking for me anymore.'

There was no reason.

But less than ten minutes after this message was sent.

“Bang!”The French window in Mu Ying’s room suddenly let out a crisp sound.

In an instant, a tall man dressed in black directly broke through the window and jumped in...

2542 Chapter 2542: you can only have one man

She had no choice but to write down that message and send it to Mad Dragon.

However, Mu Ying did not expect mad dragon to wander around her house. She did not expect him to not reply to her message and directly break through the glass from the French window of her bedroom.

Mu Ying did not doubt Mad Dragon’s strength.

However, she clearly did not want to see him. Why did he come to find her?

Mu Ying was sitting on her bed. When she saw mad dragon walking towards her with a vicious expression, she instinctively got up from the bed and ran towards the door.

She tried to break through the door.

She could not let him know that she might not be able to live much longer, and she could not drag him down...

However, just as Mu Ying’s hand reached out to open the door, her hand was tightly gripped by a large hand.

Like Yun Jian and Shen Ji, the Mad Dragon was always at the top of the world. His entire body exuded a violent and bloody aura.

It was as if he could kill anyone at any time.

Although Mu Ying knew that the mad dragon would not do anything to her, she became even more flustered when she thought of her physical condition and felt his violent aura.

“Let me go, let me go! Otherwise, I will never speak to You Again!”

Mu Ying desperately wanted to withdraw her hand from Mad Dragon’s hand.

“My Little Fool, where are you going?”Mad Dragon revealed a gentle smile as usual.

However, under this gentle smile, there was a killing intent that outsiders could not feel.

It was not that he wanted to kill Mu Ying.

It was that Mad Dragon was an assassin. His words and actions could not be separated from the killer's killing intent.

This uncontrollable violent aura made Mu Ying even more flustered.

"Darling, you came looking for me? I've been thinking about you for a long time!"

Mu Ying knew that Mad Dragon would definitely not let this go. She rolled her eyes and immediately hugged mad dragon. She pressed the side of her face against Mad Dragon's chest and pretended that nothing had happened.

However, after Mad Dragon heard Mu Ying's words, he grabbed her wrist and stopped pretending. "You want to get rid of me?"

When Mu Ying heard Mad Dragon's words, she could not help but suck in a breath. Her heart felt like it was being cut by a knife. She swallowed hard and held back the tears in her eyes.

Then, Mu Ying raised her head and looked at him with a look of disdain:

"Yes, my parents have already arranged a blind date for me. Don't come looking for me in the future."

"You are an assassin. Although you are powerful, an assassin like you can face death at any time."

"If you die, won't I become a widow? So, I thought about it and decided that you shouldn't come looking for me in the future."

Then, Mu Ying glanced to the side and added, "I was just playing with you before. Moreover, I need someone to protect me. Did you take it seriously?"

After saying that, Mu Ying caught a glimpse of Fury in Mad Dragon's eyes.

And ruthlessness.

It was not the first time that Mu Ying had seen mad dragon show such an expression. However, when she saw mad dragon's expression, she gasped.

Just as Mu Ying's eyes were rolling back and forth, Mad Dragon suddenly stared at her.

In the next second, his hand suddenly grabbed Mu Ying's neck and lifted her up from the ground. Then, he revealed a bloody look and said,

"I won't allow you to betray me. You've become my woman and you're going to betray my feelings. Then, I can only kill you and go to Hell with you.

"Even if I die, I want to be with you. You can only have me as a man in your life!"

2543 Chapter 2543 Wild Dragon, Wild Dragon, the prelude to death

Wild Dragon's words carried a hint of blood, and he kept saying that he was going to die.

Wild Dragon was not the same person as Xue Ying, Adam, Molson, and Ling Wei. He was the same as Yun Jian and Shen Ji. He was an assassin who had been caught by the organization to undergo life and death training.

Later on, when they became assassins, they were instilled with a concept.

If they could not get it, they would destroy it.

Even if they destroyed their own things, they could not let others take it away.

As for Mu Ying, Mad Dragon knew that she was very special.

So special that he wanted to keep her in his embrace, not letting her leave his side.

Previously, when the two of them were dating, mad dragon would sneak to the open-air balcony outside Mu Ying's bedroom at night to see her.

If he was not afraid that Mu Ying would be frightened by him, mad dragon would have kept Mu Ying within his reach and would not allow anyone to touch her.

Today, Mad Dragon did not go on an assassination mission. When he saw that Mu Ying had rejected him several times, he lingered around Mu Ying's house.

When he saw the message that Mu Ying sent him, Mad Dragon was on the verge of breaking down. Therefore, he did not even think about it. He did not even have the patience to open the floor-to-ceiling window. He used brute force to use his body to charge in from the outside.

After listening to Mu Ying's words, Mad Dragon could not accept it even more.

He could not accept the fact that the woman he loved was with another man.

If there was such a day, he would definitely kill her before all of this happened. He would also die with her.

“Cough... cough cough cough...”Mu Ying was strangled by Mad Dragon’s neck. She coughed desperately and her face turned red.

This scene reminded mad dragon of that ignorant little girl when he was in dark soul organization.

Although Mu Ying was completely different from when she was in dark soul organization because Mu Ying’s physical body was already dead.

But to MAD Dragon, no matter what Mu Ying became, he loved her from the bottom of his heart.

He still remembered that when he first entered dark soul organization, he was bullied by a group of boys who were considered strong and powerful among the children.

At that time, Mad Dragon was beaten until his body was covered in wounds, but he did not say a word of pain.

He had already given up on surviving.

It was a rainy day. In the cement ground, he was beaten until his body was covered in wounds. He fell into the cement ditch and gave up on surviving.

“Why are you lying here? You’ll catch a cold. Hurry up and get up!”At that time, Mu Ying was still young, but she was very smart. When she saw mad dragon lying in the cement ditch, she rushed out and helped him up.

At that time, the MAD Dragon was beaten because the children wanted to steal his food, but he refused.

When Mu Ying heard that he had not eaten for three days, she ran back and served him his dinner, little by little, with millet porridge.

This was the first time the mad dragon felt the warmth of others.

From that time on, the mad dragon swore that he must grow up and be strong enough to protect her!

However, Mu Ying still died.

Ever since then, Mad Dragon was completely crippled into a killing machine. He began to kill again and again.

Until he met Mu Ying again.

It could be said that to Mad Dragon, Mu Ying was his spiritual pillar. Without her, his existence was meaningless.

Therefore, when he heard that Mu Ying was going to stay away from him, mad dragon completely lost control.

Mad Dragon only let go when Mu Ying was almost out of breath. He blinked his sharp eyes and in the next second, he threw Mu Ying onto the bed and pressed her down..

“Since you have chosen to die, I will let you experience the feeling of being a woman before you die.”

2544 Chapter 2544-using a sniper rifle as a machine gun

The Mad Dragon’s bloodthirsty and sinister tone was heard. It was as if if the person under him had the slightest bit of resistance, he would transform into a vampire and bite her neck.

Mu Ying was thrown onto the bed by the MAD Dragon. Her hands that had been struggling slightly stopped struggling after hearing the mad dragon’s words.

She was already on the verge of death anyway. If he could feel more at ease in this body, he would give it to him.

...

At the border of N Nation, near the battle between the two sides.

Yun Zhi and a group of people were still hiding here.

Everyone was focused at this moment, staring at the battlefield in front of them.

Everyone knew that this time, it would be the key to their survival.

Once Yun Jian gave the order, they would run away without looking back.

At this moment, they were waiting for the right time.

“Captain Zhang, are you ready?”Yun Jian squatted in the grass and glanced at Zhang hang from the corner of his eye.

“My men and I are always ready. After I send them safely away from the border, I will rush back with my men. Yun Jian, sorry for the trouble!”Zhang hang replied to Yun Jian.

Hearing this, Yun Zhi curled his lips.

When the surrounding people heard Yun Zhi and Zhang Hang's conversation, they already had a premonition that Yun Zhi was about to give the order for them to run.

As expected, in less than three minutes, a melodious female voice suddenly sounded, "Run!"

At this moment, everyone rushed towards the route that they had previously agreed on, afraid that they would lose their lives if they were one step slower.

The troops of N country stationed at the border had already been wiped out by Yun Jian's men.

However, no matter how small they were, there were still over a hundred of them.

Seeing that a group of Z country refugees were about to escape, the group of N country refugees carried their guns like crazy to stop them.

All of their plans were as Yun Jian had expected.

When the number of refugees stationed at the border was the smallest, they rushed towards the periphery of the border. In less than three minutes, n country's reinforcements arrived at the scene.

At this time, the refugees were still in danger.

"Fire the cannons! Kill them! Z country's people, not a single one of them is allowed to escape our N country's borders! ! ! Kill them! !"

Seeing that most of their n country's troops had been eliminated, the leader of the reinforcements roared furiously.

Then, more than ten cannons moved forward!

One more minute! In just one minute, the Z country's refugees who had escaped the danger zone would be able to escape!

The N country's reinforcements who had rushed over from behind could no longer catch up to the hundreds of refugees who were about to escape from the N country.

However, if more than ten cannons bombarded them side by side, the refugees would still die!

"Oh no! Everyone, run! Run! Don't turn back!" Zhang Hang had already realized that something was wrong.

Just as everyone was running and turning their heads in bewilderment, they saw more than a dozen sniper rifles that Zhang Hang had asked for in front of Yun Jian in the distance.

She did not even focus on the sniper point. With both hands, she lifted the two sniper rifles on her left and right. With one shot, she killed the n nation people who were about to go forward and fire.

One shot, one shot, one accuracy!

After a few shots from the sniper rifle, she picked up another one.

Her movement was so fast that there was no flaw!

She fired the sniper rifle at the sniper point and unleashed the continuous firing of the machine guns.

Who in the world could do that!

She was probably the first person in the world to use a gun!

2545 Chapter 2545 had never been exceeded. It was completed in five days

“Run! Run! You’ll be safe once you run out of N country’s borders! You can go home! Go back to your motherland! Run! ! !”

Zhang Hang turned his head as he ran and saw this scene. His face revealed a look of joy.

In order to encourage the refugees to evacuate faster, he roared on the battlefield. His voice was so loud that it almost pierced his throat.

However, Zhang Hang’s face was filled with a smile.

Because they had already sent the refugees out of N country safely.

Over a hundred refugees could go home!

“If you walk another hundred meters, someone will come to pick you up. The people of N country are not stupid enough to chase you out of their own country. Farewell!”

After Zhang Hang said this to the refugees, he raised the rifle in his hand and turned to speak to the special forces soldiers standing beside him:

“Brothers, it’s time for us to fight our way back together!”

To Zhang Hang and the others, they were most worried about the refugees. The refugees did not have the ability to protect themselves, which was equivalent to giving Zhang Hang and the others a burden.

And now, they no longer had anyone to protect behind them.

This meant that they could go all out!

Let this group of N Nation people see the strength of their Z Nation Special Forces!

“Go!”

“Charge, let’s fight it out with these N Nation people!”

...

Wang Xuefei, Zhang Meili, and the group of female military doctors were not arranged to return to their country. They were currently on a mountain, surveying the entire scene.

The few of them had completely taken in the shocking scene that Yun Jian had just witnessed. At this moment, other than shock, it was still shock to Wang Xuefei, Zhang Xueli, and the others.

Yun Jian was actually so skilled with a sniper rifle and used it like a machine gun!

She had even saved the refugees, Zhang Hang, and everyone else by herself!

After recovering from their shock, Zhang Hang and the group of Special Forces soldiers had already rushed back here.

The army that N country had come to rescue had suffered great losses and gave up on the chase.

Only after Zhang Hang met up with Zhang Meili, Wang Xuefei, and the others did Yun Jian easily carry more than a dozen sniper rifles that he had just borrowed from Zhang Hang and come to this place along the way.

“Your Guns.” Yun Jian threw the dozen sniper rifles on the ground and said calmly.

At this moment., zhang Meili could not help but ask Yun Jian, “Yun Jian, didn’t you say that there was a 50% chance of survival when you brought them away this time? This time, not a single person was sacrificed. Could it be that your previous estimate was...”

“The survival rate is too high. They don’t have any sense of danger. Then, there might not even be a 50% chance of survival now.” Yun Jian raised his red arc and said.

After that, she turned around and glanced at Zhang Hang and the others. "Thank you for the guns. The quality of the guns still needs to be improved, but they are still suitable for use."

If it were a normal person, they would definitely be grateful after borrowing the things from Zhang Hang and the others and returning them.

But who would be like Yun Jian, saying that the quality of the guns of Zhang Hang and the others needed to be improved after thanking them?

What a strange and mysterious girl!

Zhang Hang shook his head and was slightly stunned. Then he remembered that Yun Jian's people had not entered N Country yet?

"Yun Jian, where are your people? Why haven't I seen them enter N Country?" Zhang Hang asked quickly.

"They have already gone to the final battlefield." Yun Jian stopped and said indifferently.

After sending away this batch of refugees, there was still the last batch of refugees. The habitat of that batch of refugees was the place where Yu Shaolu died.

That was the real scene of the massacre.

After breaking through them and saving the last batch of refugees from country Z who were still alive, this mission would be considered completed.

However, to break through that place at the same time was more than twenty times more difficult than sending away this batch of refugees today!

After Yun Jian finished speaking, Zhang Hang, Dan Zhengyu, Wang Xuefei, Zhang Meili, and the others were stunned.

Yun Jian took out a pair of gloves from nowhere and put them into her hands. She turned around, and under her bangs, her slightly raised eyes were as sharp as a blade. She curled her lips and turned to the side in front of everyone, she said something that made everyone's hearts tremble:

"Get Ready. Follow me to the final battlefield. I have never completed any mission in more than five days. This time is no exception!"

2546 Chapter 2546 was neither too much nor too little. There were a total of 109 people

This sentence was crazy!

Any mission!

One had to know that when a mission was given, sometimes it might be a spy mission.

For example, Yun Jian and his group disguised themselves as ordinary people and hid around the target as spies. A normal spy would need a few years of incubation period.

They also needed to gain the trust of the target. In the end, when the target completely relaxed his vigilance and treated him as someone that the other party trusted, he would take the opportunity to catch the other party's weakness and wipe out the other party's lair.

Assassination was not the only type of mission in this world.

Some missions could see success or failure in a few days, but some missions had incubation periods like AIDS. It would take years or even decades to complete this mission.

However, whether it was a few days, a few years, or even decades, it was considered a normal mission. In the cloud tablet, there had never been a mission that was completed in more than five days!

After saying this, Zhang Hang, Shan Zhengyu, Zhang Meili, Wang Xuefei, and the others were all stunned.

By the time they were done, the cloud tablet had already gone far away.

"Why aren't you following us?"

Hearing Yun Jian's words, everyone reacted and ran up to him.

...

"AHA, I slept so F * cking well. 006, where did you go? I couldn't find you after searching for a long time." Seeing Yun Jian come back with Zhang Hang and the others, Shenji yawned and said to Yun Jian.

GE Junjian didn't participate in the previous cover. He was called by Yun Jian to scout the location of the final battlefield.

At this moment, GE Junjian also returned to this place.

Seeing Yun Jian, GE Junjian hurriedly walked over. "Xiao Jian, your people have already gone ahead of us. We are going to..."

"Let's go together." Yun Jian pushed aside the yawning Shen Ji and spoke with an indifferent expression.

In the end, they still arrived at the final battlefield.

There, 10,000 Z country refugees were trapped. Previously, more than 1,000 special forces soldiers had already been sent as ordinary people to rescue them.

Yu Shaolu was reported to have been killed there.

Right now, GE Junjian and the others could not contact the 10,000 Z refugees and the 1,000 special forces soldiers who were sent to rescue them.

"The battlefield is ahead. It is said that the enemy has 30,000 people! This is the last report we received from the people trapped inside. Take a look." Zhang Hang took out a draft map and handed it to Yun Jian and the others.

Zhang Hang and the others did not know how many people Yun Zhi had and how their weapons and equipment were.

They only had a few dozen people here. It would be unrealistic for them to rescue the 10,000 people trapped inside and fight against the 30,000 people from N country.

Now, they had to see how many people Yun Zhi had.

The draft map that Zhang Hang gave gave a simple description of the current situation.

To put it simply, the refugees and the special forces that had come to support them were trapped in a few rows of empty buildings.

The periphery was surrounded by the 30,000 troops of the N Nation!

Fortunately, the 30,000 people of the N Nation were all ordinary people and were not soldiers. They held iron rods and wooden sticks in their hands. Occasionally, they also had guns, however, in terms of usage, they were definitely not as good as the special forces that were trained formally.

Therefore, the 30,000 people from country N surrounded the 10,000 refugees from country Z and the 1,000 special forces in a large circle. They did not have the ability to directly charge in.

"Yun Jian, how many people do you have?" Zhang Hang asked a crucial question at this time.

From the scene of the battle between the two sides at the border just now, Yun Jian's people should have at least 10,000 people.

Otherwise, they would not have such a powerful ability.

Although they did not know where the cloud tablet summoned these people, it was not the time to think about this.

However, when Zhang Hang asked this question, everyone thought that the cloud tablet would count her people by the tens of thousands. However, in front of everyone, she said something that made everyone speechless on the spot:

“No More, no less, a total of 109 people.”
