Chapter 541: You Killed Them? She Killed Them

Yun Jian played with the butterfly knife with a smile, flicking it a few times with the twist of the wrist, before easily pocketing the weapon.

It stirred a bout of fear within everyone who watched, but what terrified them the most was not Yun Jian's practiced ease in flicking the butterfly knife about. It was... what the butterfly knife in Yun Jian's hold signified!

The dozen of criminals who got slit in their throats and were currently dead on the floor were all killed by Yun Jian!—Without an exception!

Yu Luo and the rest of the majority were quivering in the corner while Chu Xiangnan and her team, who had no weapons, stood close by.

These criminals died from a blade injury. Other than Hertz who had an eyeball busted and a gunshot to his heart, the rest were all killed with a blade!

As Yun Jian flashed her butterfly knife and toyed with it twirling and flicking, she was declaring something to the crowd—she killed them.

It was not like she was flaunting. She killed these criminals. There was no doubt about it. Moreover, so many of them had watched her do it. The truth would not be concealed. Even if she kept quiet about it, would the hundred over hostages not breathe a word?

In that case, Yun Jian would rather admit to it on her own. It was not like this was the end of the matter!

In the beginning. Hertz had called the headquarters of Inferno Ring. The phone call went through.

The man was probably someone ranked relatively high in the organization despite not being charted. Yun Jian was certain that Inferno Ring would send people here to save Hertz and the other men.

Now that the latter were killed, Inferno Ring had no knowledge of it yet.

When Hertz spoke to the headquarters through the phone, the majority of them in the martial club did not understand it. While some had learned English, conversational English was still different compared to what the teachers taught in school.

Even if someone had figured out the conversation between Hertz and Inferno Ring's headquarters, Yun Jian was not worried either. What she wanted to do now was to wipe out those people the headquarters were sending to save Hertz and others!

To achieve it, she had to collaborate with the police only because it would be more convenient to take care of the matter.

Yun Jian disliked hassle, so she had planned to expose her skill once she stepped out.

"You killed them?" Officer Bao stared at Yun Jian in disbelief as he pushed the words out of his mouth with much difficulty. There was simply too much shock in his system right now.

Others did not know it but Officer Bao was very well aware of how hard it was to pursue these criminals. He had tried so personally!

When Hertz and his gang failed to assassinate the deputy mayor of F Province and were discovered by the police, Office Bao had chased after them with his colleagues, only for Hertz and the gang to be trapped in the martial club.

While the criminals were unscathed, not even having anyone wounded, Officer Bao had several casualties on his side. Not that they died, but Officer Bao's colleagues had sustained severe injuries during the pursuit of the criminals.

Faced with a formidable threat like this, Officer Bao had already decided to bring it up to his superior to request the support of Advanced Special Forces. When Ai Guoxun and Ge Junjian made their way here, the deployed ASF was arriving as well.

Who would expect these professional criminals to be killed by Yun Jian? A teenage girl had annihilated all of them!

"You don't believe me?" Yun Jian crossed her arms in front of her chest and tilted to the police with a squint.

Her relaxed stance shuddered them instead.

"She killed them." It was then a firm voice rang.

Chapter 542: This Isn't Done. Snagging More Limelight

The statement startled everyone, even Yun Jian raised a brow.

Turning to the side, Coach Xu was seen slowly making his way over. He was the instructor of the martial club and was Yongchun Martial Club's fifth generation successor at the same time.

Yongchun Martial Club was famed in F Province. It taught martial arts and had been around in F Province for centuries. As the master of the club and the fifth generation heir, Coach Xu was also known locally.

At the very least, most people in F Province cared enough to do him a favor, the police included. Hence, when Coach Xu stepped out to tell them, who could stay unbelieving?

"I saw it with my own eyes," Coach Xu said assertively as he came to Officer Bao and looked at him with his inky eyes.

"Officer, I'm Yongchun Martial Club's current master, Xu Mo. She killed these people. I can guarantee that!" Knowing that Yun Jian had the intention to disclose the truth, Coach Xu stepped up to announce.

Officer Bao who was then informed of Coach Xu's identity nodded and had to believe in what Yun Jian said. The famous Youngchun Martial Club master had come to speak for Yun Jian—could the matter be false?

"Coach Xu of Yongchun Martial Club, is it? Nice to meet you!" Officer Bao stretched his hand immediately to greet said man.

Simultaneously, Ai Guoxun who heard what Coach Xu said was flustered in embarrassment. However vehement he was in putting Yun Jian down and doubting her, even pointing a gun at her to accuse her of being manipulated by the criminals, the deeper in shame and mortification he was in right now.

Nonetheless, no one cared what he felt.

Officer Bao moved to direct the cohort of people away and cleaned up the crime scene. He had also asked Coach Xu to send his students home. As for the teenagers who were unfortunately killed, the policeman was regretful. However, there was nothing he could do aside from sending his colleague to the victims' families for follow-up procedures. After all, one could not be revived. No one had expected an unfortunate event like this.

When the students in Yongchun Martial Club were dispersed, Officer Bao and his colleagues, Yun Jian and Team Monarch, Battling Dragons, Coach Xu, Ge Junjian, and Ai Guoxun were the ones left.

Other than Coach Xu, the rest of them here were either from the military or the police force. It was then Yun Jian went to stop Ge Junjian.

"Yun Jian, what's the matter?" Ge Junjian who had been helping the police clean up the scene stopped with a start and asked in doubt.

"This isn't done," said Yun Jian. Her tone did not sound like she was joking.

"Why isn't it done? Yun Jian, do you think you need to snag more limelight? Three people are dead! Xiao Bing, Xiao Wu, Xiao Lei..." Yu Luo loathed Yun Jian from the bottom of her heart. When she saw how impressive Yun Jian had been, rage crackled within her. Unintentionally overhearing her now, she feigned sympathy toward the three teenage victims to reflect how ruthless Yun Jian was.

In fact, Yu Luo only knew about the victims' names. Yet, she was trying her best to show others that she was sorrowful about what happened to the three teenagers.

Yu Luo was jealous of Yun Jian's ability. She knew that she could not compare to her, so she might as well paint Yun Jian to be someone bloodthirsty to others.

Chapter 543: Organized, Not Looking Good

It was just that no one regarded what Yu Luo said.

After all, Yun Jian's ability had spoken for her. Her competence was not what Yu Luo could diminish with mere words. How could Yun Jian who was able to wipe out a gang of criminals be a weakling?

"Go on." Ge Junjian stared straight at Yun Jian with his dark eyes. Before Yun Jian could finish just now, he was already leveling a frowning serious gaze at her.

Yun Jian must have her reason for saying so!

Ge Junjian's disregard made Yu Luo hate Yun Jian even more.

Similarly, Yun Jian ignored Yu Luo and told Ge Junjian meeting his eyes, "The police must've guessed it too. Those criminals are from an organization."

“Mm, I’ve expected that much,” Officer Bao replied to her as he was just standing on the side before continuing rather disappointedly, “It’s too bad that we don’t know the identity of these men. Otherwise, they’d be put behind bars for attempting to assassinate F Province’s deputy mayor and harming the innocent!”

“Pft,” Yu Luo who stood on the side scoffed again but the target of her ridicule was Yun Jian.

Yun Jian must have done it on purpose. Disclosing what she did and acting like she was superior, talking to Officer Bao and others—did she think she was some international big wheel? Who did she think she was!

Just as Yu Luo was thinking so and scoffing rudely, Yun Jian’s crisp voice sounded once more, “Inferno Ring.”

“What?!” It was not just Officer Bao now. Even Ai Guoxun cried in surprise.

Inferno Ring... Those criminals were from the Inferno Ring?

Things were not looking good in that case!

Perhaps ordinary people did not know what Inferno Ring was but as police and militants, Officer Bao, Ai Guoxun, and Ge Junjian were well aware of it.

Inferno Ring was an assassin organization ranked just after An Hun Group and Gu Sha Mercenaries internationally! If a named assassin organization could stay wanted globally but not uprooted by the international police, it meant that said organization was capable of surviving in this world!

Other small-time assassin organizations had all ended up being annihilated by the international police with their dens wiped out! Meanwhile, it was not that the Interpol did not want to take down organizations like An Hun, Gu Sha, and Inferno Ring, they were unable to!

Some police forces had even seen these top-ranking assassin groups as an untouchable cancerous growth—hide if they could, run while they’re able to! The maxim was implicitly recognized by partial police forces or international tycoons and politicians.

When they heard the Inferno Ring was only third to the top two assassin organizations, An Hun and top mercenaries Gu Sha, how could they not be stupefied?

“Hah, what Inferno Ring?” Yu Luo had never heard of it, snorting after hearing what Yun Jian said, but could not help asking curiously.

“Inferno Ring is an assassin organization and ranks after the global top assassin groups, An Hun, and the best mercenaries, Gu Sha! It’s a group even the Interpol can’t wipe out and it’s a force we can’t afford to provoke!” Officer Bao frowned when he realized that he was already drenched in sweat from the terror by the time he finished explaining shakily.

“Wha-what? The-those criminals just now are... are assassins? Th-then... what do we do? Will they come to us for revenge?” Yu Luo paled instantly from her flippant attitude just moments earlier.

Chapter 544: Staying Out And Finishing Off

In spite of it, Yu Luo was being overlooked once again. Even Ai Guoxun had glared at her darkly when she spoke up. How did he end up with a foolish subordinate who had no sense of priority such as Yu Luo! Inferno Ring was not an organization for them to comment on!

The man's death glare to shut the girl up, unfortunately, went unnoticed by the latter.

Ai Guoxun had been simmering in fury because Battling Dragons had failed to win against Yun Jian. Right now, he was suppressing his impulse to throw a slap on Yu Luo as he pulled back his glare.

"What's the situation? Tell us in detail, Yun Jian." Ge Junjian was much calmer in comparison to Ai Guoxun and Officer Bao.

There was a stark contrast from Ai Guoxun's horror, when he first heard from Yun Jian that these men in black led by Hertz were from Inferno Ring. Ge Junjian was far more composed.

"These people are from Inferno Ring," Yun Jian spoke. As everyone's eyes were glued to her, she moved toward the corpses without a hint of fear.

While the police had sent people to take care of these criminals' dead bodies, it was a work in progress. The corpses were still laying in the same place that they were killed.

As Yun Jian went over, she grasped her butterfly knife with a flick of her hand and used it to hook Hertz's sleeve up lightly. On the back of the dead man's hand where his black clothes had been covering, there was a golden rose imprinted.

The golden rose dazzled with demand for attention but it dampened the expression on Ge Junjian and others.

"This is..." Unlike his initial composure, Ge Junjian was startled as well.

"It's the emblem of the Inferno Ring. Anyone there will be marked with this logo." When Yun Jian stood up after exposing the golden rose on Hertz's hand, she wiped her butterfly knife again with a tissue before pocketing the weapon and spoke as she walked.

"This isn't exactly a secret. You'll know when you investigate it if you don't believe me." Yun Jian kept the knife and stabbed both her hands into her pants pockets while she squinted at Officer Bao and the rest of the men.

What she mentioned last was meant for them. She knew that Ge Junjian would believe her without a doubt.

Said man stepped out to speak with a frown, "That's indeed Inferno Ring's emblem. I've seen it during a mission ten years ago."

Ge Junjian's affirmation shuddered the police.

They were really from the Inferno Ring! Yun Jian was not lying!

"Th-then what should we do?" Officer Bao asked shakily, already intimidated by the sound of the situation.

Both the police and the Special Forces had heard of Inferno Ring's reputation. That was an organization that resorted to any means to achieve their goals!

Assassin and secret agent organizations like this could sacrifice their own people to accomplish an objective!

They would all be dead if they were taken revenge, would they not?

"We're militants! When our people in Country Z are being killed, are we retreating just because we're scared of them?" Ge Junjian retorted with a furrow of brows.

He was also filled with a mix of emotions at finding out that there were three innocent teenagers who were shot dead. When it sounded like Officer Bao was trying to stay out of the matter because they were terrified of Inferno Ring, Ge Junjian was immediately enraged.

"We finish them off." Yun Jian's light voice drifted again after Ge Junjian.

Chapter 545: Uproot It, Past Tense

"Finish them off!" Yun Jian's words roused another bout of terror.

"Wipe out who? Inferno Ring? You mean you want us to fight against the Inferno Ring?" Ai Guoxun cried before Ge Junjian said a thing. There was even a slight tremor in his vehement pitch.

"Inferno Ring's an international assassin organization. Even the Interpol can't do anything about them. You want F Province's troop to fight them so you guys could sit and reap the benefits, don't you? Ge Junjian, watch your subordinate. My word is final—F Province's troop will have no part in this!"

Ai Guoxun fired his words like a cannon going from Yun Jian to Ge Junjian. It was obvious that he was holding Ge Junjian accountable for Yun Jian's suggestion because he had assumed that the man had asked her to say it.

The truth was the incident happened in F Province and F Province's military force was under Ai Guoxun's command. If they were to battle the Inferno Ring, the troops would suffer from casualties. In that case, it undoubtedly did not affect Ge Junjian who was Zhe Province's leader of the Advanced Special Forces.

Ai Guoxun even went so far as to think that Ge Junjian was planning for Ai Guoxun's troop to battle Inferno Ring and suffer from casualties, so he could reap the convenient benefit for Zhe Province's troop to emerge stronger than F Province's!

When the time came, Ge Junjian would be the recipient of Chief Yuan's laud!

"Ai Guoxun, could you be more shameless!" Ge Junjian growled with a finger pointed at Ai Guoxun's head the moment he heard that.

Calming himself down, his finger was still aimed at Ai Guoxun when Ge Junjian used the coolest tone that was on the brink of exploding to tell the man, "Can we leave our personal grudge aside first? You're the leader of F Province's ASF. How could you think like that! I, Ge Junjian, swear that everything I do is for the sake of the people!"

“Why did we enlist in the military? Isn’t it so that the country is safe and the people can live and work in peace? Shouldn’t we be working together to drive those criminals who wanted to invade Country Z out of our nation?”

“Wake up! Ai Guoxun, have you forgotten about the very intention we joined the army for? The people we’re protecting are being killed now! They’re only so young! These criminals are killing mere teenagers and you think about shirking your responsibilities?”

“Are you allowing those criminals to ride up our head?”

“I, Ge Junjian, can’t do it!”

By the time Ge Junjian was done declaring, he was seething.

Ai Guoxun who was at the receiving end of Ge Junjian’s chiding fell into a two-second silence.

During his moment of consideration, Yun Jian had come up to the rest of them with a small raise of lips. She looked at Ai Guoxun and told him after Ge Junjian, “You can choose to run but I can also tell you that Inferno Ring won’t sit and watch when its men had died in F Province.”

“They’ll make their way here soon. You can choose to back down but don’t say I didn’t warn you. It’ll get rid of you even if you don’t get rid of it!”

Inferno Ring was a vengeful organization. When its members died out there, it would certainly send its people to assassinate the party responsible.

There was no way they could hide the fact that Yun Jian had killed Hertz and his gang. So many people had witnessed it and Inferno Ring would come to them without a doubt. By then, even Ai Guoxun and his subordinates would not be able to escape!

“What do you want to do?” After pondering, Ai Guoxun finally gritted his teeth and asked Yun Jian, putting his grudges with Ge Junjian aside.

Receiving the question, Yun Jian narrowed her eyes. A gleam of murderous air flashed in her eyes. “Uproot Inferno Ring and make it a thing of the past!”

Chapter 546: You Know Them, We Add Them

Uproot Inferno Ring and make it a thing of the past!

It befitted Yun Jian’s character to say something so brazen. Everyone gulped.

Brazen as she was, could all of them combined really be able to fight the Inferno Ring? Was it possible?

“It’s not that we didn’t want to eradicate the Inferno Ring—we can’t even rival them!” Officer Bao mentioned in frustration, expressing what everyone was thinking.

Now that they got involved with the Inferno Ring, there was no way anyone could escape! The only solution was to battle it out with them.

Nonetheless, was victory theirs when they were put up against the Inferno Ring? That was a presence even the international police could not overpower! Moreover, the latter had to think twice before doing anything when they encountered the Inferno Ring—what was more, this was them...

Whether it was Officer Bao or even Ge Junjian and Ai Guoxun together, they made up to a minute influence. How could that parry Inferno Ring?

“I’ll request backup support from Chief Yuan.” Ge Junjian pressed his lips together. This was the only way he could think to contribute.

Ai Guoxun stopped attacking Ge Junjian for the sake of standing up against him now. He knew the severity of the issue. To fight a terrifying organization like the Inferno Ring, everyone needed to work hand in hand.

“Even then, we still don’t have the upper hand. Inferno Ring’s force is spread all over the world...” Officer Bao voiced out hesitantly.

Officer Bao’s status in F Province was not exactly low, so he had a place to voice his opinion. Rather, it was Chu Ning and others from Team Monarch, as well as Yu Luo and the gang from Battling Dragons, who could only stay quiet and watch.

As for Coach Xu, he was unable to interfere with these.

“If we add Gu Sha Mercenaries into this?” The abrupt female voice astonished the police and militants.

“Huh?” Officer Bao was still shocked by Yun Jian’s words and asked shakily with a disbelieving stare.

“Gu Sha Mercenaries? Isn’t that the mercenary parallel to the top assassin organization, An Hun? You—How could you possibly know Gu Sha Mercenaries...” Ai Guoxun’s legs nearly gave out.

Yu Luo who stood beside them currently felt her heart stutter. Her instinct told her that Yun Jian was increasingly mysterious.

It was perhaps reasonable if those around did not know about Inferno Ring. The organization was formidable but words about it did not put it on a pedestal.

Gu Sha Mercenaries was different. It rivaled An Hun Group! It was a presence that terrified tycoons and politicians worldwide!

Simply put, there was a certain chance for the international police to weed out Inferno Ring but it would be a fantasy if they wished to extirpate Gu Sha or An Hun—it was completely impossible!

“Hmm, skeptical?” Yun Jian arched a brow and asked faintly.

“So what if you know Gu Sha then? That’s the world’s top mercenaries! Will they help you? Besides, if we’re going against the Inferno Ring, it’s not enough to confront them even if a portion of Gu Sha members helps,” Ai Guoxun voiced out.

It put a slight frown on Yun Jian before she raised her brows again to ask, “If we add An Hun too?”

Nothing was stopping her from uprooting the Inferno Ring this time!

“What? You know people from An Hun too?”

Yun Jian’s words flabbergasted everyone.

Chapter 547: Never A Bluff And Her One-Sided Account

Yun Jian diverted her eyes down, a silent acknowledgment to the group’s curiosity.

She could not wait any longer. She was destroying Inferno Ring once and for all!

Xiao Zhu had died tragically in his past life because of them. Wolf.Kill who caused the boy’s death was from Inferno Ring. This was the truth Yun Jian had revealed after a thorough investigation much later.

As long as justice was not served to Inferno Ring, Yun Jian would never have her peace. She wanted Inferno Ring to pay for what they had done! She wanted them gone! She wanted the organization to have a taste of Slaying God’s wrath!

Since they dared get up her nose, they should withstand her fury.

As to why she wanted to work with Ge Junjian and Ai Guoxun, the military force, it was not without reason. Country Z was densely populated. There was a great number of soldiers in the two provinces whose overall ability was substantially formidable.

Yun Jian knew that Gu Sha was unable to deploy everyone to annihilate Inferno Ring. After all, they had just eliminated the old folks internally and were now going through a tender patch, needing time to recover and reorganize.

If Ge Junjian and Ai Guoxun’s help did not come as a coincidence at this moment, Yun Jian would not be making the move to take out Inferno Ring either. After all, the latter was an assassin organization; to eliminate it, the current watered down Gu Sha Mercenaries was not adequate.

Meanwhile, Ai Guoxun and Ge Junjian’s troops were not exactly weak. Pulling them in then contacting Si Yi to borrow some men from An Hun, Yun Jian vowed to have her name read backward if Inferno Ring could escape their fate of being annihilated this time!

It was not like Yun Jian was using Ai Guoxun and Ge Junjian.

As Supreme Commands of Advanced Special Forces, Ai Guoxun and Ge Junjian yearned to contribute merits. If they could exterminate Inferno Ring that the international police could not even do, both their titles and statuses would shoot up the ranks.

If there had not been any chance of winning, both men were probably never accepting a tempting offer like this. Hence, Yun Jian pulled Gu Sha Mercenaries and the An Hun Group into it.

She knew that it was possible for Si Yi to send everyone in An Hun and deploy them to take out the Inferno Ring instead if she asked for it. However, considering the fact that other assassins or secret agent organizations could take advantage of the opportunity when An Hun and Gu Sha sent out a portion of their manpower, Yun Jian extended her invitation to Ge Junjian and Ai Guoxun just to be safe.

“Yun Jian, you really know people from Gu Sha Mercenaries and An Hun Group? And you’re capable of asking them to back us up?” It was not that Ge Junjian did not believe Yun Jian but the news itself was just unreal.

Those were internationally famous organizations. Any one of them could compare to a whole country’s combat strength!

Did Yun Jian really have the capability to ask for assistance from these organizations?

Ge Junjian was well aware of Yun Jian’s background. Her biological parents were average workers of Xinjiang Town. Be it Qin Yirou or her ex-husband, Yun Gang, they were ordinary citizens.

As their child, how could Yun Jian possibly know two of the most globally terrifying presences?

“I’ve never bluffed about what I can’t do.” Yun Jian’s eyes at Ge Junjian were shining, looking nothing like she was making up a lie.

“Alright, I trust you!” Ge Junjian spoke decisively.

“Ge Junjian, have you gone dumb? You really believe her one-sided account?” Ai Guoxun gritted. There was no way he believed that Yun Jian knew anyone from the organizations!

Chapter 548: See Yourself Out. Delusional

“I believe her!” Ge Junjian turned to look at Ai Guoxun and repeated himself resolutely, his tone brimming with the prideful flair of a soldier.

It made one look at Ge Junjian with renewed eyes. It was an unprecedented military charm—confidence that only soldiers had.

“Because she works under me. If I can’t even trust my subordinates, who else can I trust?” Ge Junjian uttered each word with intention looking at Ai Guoxun.

Coming from Ge Junjian, what he said had a deeper meaning. Back when Ai Guoxun pulled Ge Junjian’s other best friend to shield him from the bullet, Ai Guoxun had once told Ge Junjian that he did not trust their comrade.

Their best friend was usually petty. Although three of them were sworn brothers, Ai Guoxun was incredibly delicate and meticulous in his thinking, like a woman, and could always uncover some things that were different. Their petty best friend would usually be instantly annoyed if anyone were to borrow something from him, and that peeved Ai Guoxun to no end.

Ge Junjian also knew that there was already a crack in the brotherhood between Ai Guoxun and their best friend before he used the latter as his shield. Nonetheless, it infuriated Ge Junjian because it was their best friend who insisted both of them go back and save Ai Guoxun during the critical moment despite their superior’s retreat order. Yet Ai Guoxun had used the man to take a fatal bullet for him.

Their best friend had gone back for Ai Guoxun, but the latter had burned the bridge and taken him for granted to shield himself from a bullet!

How could Ge Junjian not be enraged by the situation?

It was also after that Ge Junjian parted ways with Ai Guoxun. Since then, both of them went from the best brothers to their current stalemate.

All of it started when Ai Guoxun used their best friend to take a gunshot for him. To be honest, it happened because Ai Guoxun did not believe in their best friend. If there was no barrier between them, Ai Guoxun would never do something like that.

Therefore, there was a part of Ge Junjian that was saying “if I can’t even trust my subordinates who else can I trust?” targeted Ai Guoxun specifically.

This time, surprisingly, Ai Guoxun did not retort.

“Fine, then go on believing what you believe in! Humph, my troop is not taking this risk!” Ai Guoxun, who had been convinced earlier, rejected straightforwardly with a scoff.

“Don’t help if you don’t want to. See yourself out.” Yun Jian glanced at the man coldly.

It did not make much of a difference having Ai Guoxun’s support or not. An Hun and Gu Sha’s members were enough to triumph over Inferno Ring. Yun Jian was just making careful consideration in inviting both the militants.

Ai Guoxun was actually driven away by Yun Jian’s provocation, asking Yu Luo and the team to leave with him as well. Before he stepped out of the arched door, he turned to look at Yun Jian, his chin tipped up defiantly as he talked, “I’d love to see how you get Gu Sha Mercenaries and An Hun Group to your side! Humph! I’m waiting to watch!”

With that, he gestured at his eyes before leading Yu Luo and the team away angrily.

Yu Luo copied Ai Guoxun, turning around before she left and glaring at Yun Jian with her less pretty eyes before finally saying, “Yun Jian, I’d love to watch how you’re failing too! Hah! Delusional. How could An Hun Group and Gu Sha Mercenaries possibly ever help you?”

Chapter 549: Making Plans And Walking Right Into The Trap

“Mm, open your despicable eyes and watch,” Yun Jian replied immediately as she looked away in disdain at what Yu Luo said.

“Yun Jian, you! ...” Assuming that Yun Jian would not counter her, Yu Luo did not expect her to make such a barbed repartee once she spoke. Yu Luo choked in rage from Yun Jian’s words at once.

Just as she was about to snap back, the butterfly knife had gone back to Yun Jian’s grip as the latter toyed with it, flicking it up and down.

Yu Luo gulped. She did not forget how Yun Jian had stabbed Hertz’s eyeball using said weapon nor would she ever forget how she had killed Jay and the other men in black!

Yun Jian’s eerily well-practiced skills ran shudders down one’s back just thinking about it—what was more, when one watched her flock the butterfly knife.

As Yun Jian toyed with the weapon with ease and looked at Yu Luo with a side-eye, it gave Yu Luo shivers.

“O-Officer Ai, let’s go right now!” Yu Luo fled. The risible sight tickled everyone watching with a hint of contempt.

Where did the cool and valiant Miss Yu go? The current Yu Luo was like a small rat running for its life. She did not even greet her uncle, Coach Xu, all this while.

Coach Xu could only sigh with a dip of the head. This was one of the reasons he did not have high hopes for his niece. She was too arrogant, too conceited, and too selfish.

The world seemed to quieten down after Ai Guoxun and Yu Luo left.

“I-I can do my part too!” Officer Bao who stood beside them said suddenly when Yun Jian decided to discuss their following plan with Ge Junjian.

“Hmm?” Yun Jian had unknowingly taken the command of the scene.

“I don’t have a high position but I can still do my part as long as it’s within F Province’s area of jurisdiction!” Officer Bao spoke through clenched jaws, determined to go big or go home.

“Thank you.” Yun Jian smiled looking at Officer Bao.

For some reason, the policeman was delightfully surprised when he was thanked by Yun Jian.

“You’re welcome!” he replied promptly.

“Hmm, okay, I’ll make the plans then.” It had just been a short while but Yun Jian had already figured out the cause and effect of the entire incident, as well as her following strategy.

Yun Jian had Officer Bao send the majority of the police force out of the building, saving a few who could be trusted. Coach Xu stayed as well.

Yun Jian then began to elaborate on her plan. “Hertz asked Inferno Ring for help before he died, saying that they got trapped in a martial club, so what you have to do next, Officer Bao, is to make everyone who knows what happened today seal their lips. Not one word should be spread.”

“Inferno Ring members wouldn’t know what happened here now that Hertz and gang have already died. Officer Bao, you keep surrounding the martial club with your men, like Hertz and his group of people are still alive. I’ll get Gu Sha’s people here to back you guys up right now.”

“No matter how much support Inferno Ring sends from now, when they come, capture them all!”

“Let me know once you’ve caught them. Officer Ge, when those people are caught, bring your squad to come with me. We’ll gather with Gu Sha and An Hun’s members then go right into Inferno Ring’s den to take them by surprise.”

“As for Gu Sha and An Hun’s members, I’ll arrange for them to help.”

Leading the other police officers, Officer Bao continued barricading the martial club, like Hertz and the gang did not die, in anticipation for Inferno Ring’s people to walk right into the trap. Once Inferno Ring’s backup came, Yun Jian would deploy Gu Sha’s members to capture them on the spot.

As they waited, she planned to go to An Hun directly to Si Yi.

Chapter 550: The Start Of Operation And The Trigger Of Suspicion

Time waits for no man. Once Yun Jian planned out her scheme, Officer Bao led the police force in surrounding the martial club with gusto. The man had a certain influence in F Province.

As for Coach Xu, he gave full cooperation to Yun Jian's plan. He had even promised Yun Jian that he would not step out of the club during these days to ensure the plan looked even more flawless.

Yun Jian had a good impression of the instructor. He was relative to Yu Luo but his character was entirely different from the girl. Coach Xu was virtuous, a stark contrast against Yu Luo's self-centered nature.

"Officer Ge, we'll work separately now. Go back to Zhe Province to request manpower from the superiors. We'll meet at Country S' Bridge Bay Pier," Yun Jian told Ge Junjian looking at him.

Bridge Bay Pier in Country S was the only route to Inferno Ring's headquarters.

The headquarters of assassin or secret agent organizations were usually built in islands, obscure and hidden to the world.

Yun Jian was able to know these because—one must remember—the intelligence department in her Gu Sha Mercenaries was the best in the world. She could receive intel about anything in the world, big or small, instantaneously.

Inferno Ring's headquarters had been built for years now. The intelligence department of Gu Sha had long found out about their location. Yun Jian had even already known in detail about the direction it faced and the surface area it took up.

"Okay..." Ge Junjian looked at Yun Jian skeptically before finally agreeing with a nod.

Hesitant, he asked her, "Yun Jian, is Bridge Bay Pier in Country S Inferno Ring's... headquarters?"

Ge Junjian wanted to scream his question, even Officer Bao who stood beside them was equally baffled.

Inferno Ring had appeared for so many years but not even the international police could track it down—forget finding its headquarters!

Now, Yun Jian was stating the location like it was obvious... Throw in the fact that Yun Jian wanted to extirpate Inferno Ring once it was mentioned and her killing all the criminals from said organization, Ge Junjian was suddenly filled with a petrifying thought—did Yun Jian have a grudge against Inferno Ring?

Otherwise, why would a young girl like her pay attention to the Inferno Ring that came after An Hun Group and Gu Sha Mercenaries? This should not be!

It was not Yun Jian's plan to keep the address of Inferno Ring's headquarters confidential, so she nodded to Ge Junjian and Officer Bao. "Yes."

Chu Ning and the rest of Team Monarch who did not manage to say much from the sideline were already shocked beyond words by Yun Jian's course of action. They had thought that they knew Yun Jian well enough but it did not even cross their mind that she actually knew people from An Hun Group and Gu Sha Mercenaries.—She knew where the headquarters of Inferno Ring was too!

“Alright. We depart now.”

Ge Junjian nodded and called his superior to make the request for manpower. Yun Jian texted Snake.Lizard, asking her to do the same and send forces to F Province to back Officer Bao up. This would happen while they waited for Inferno Ring’s men who were coming to save Hertz to land in their trap.

When Ge Junjian and Yun Jian were done with their preoccupied tasks, a male voice that could be heard with a frown rang. “Yun Jian, I have something to ask you.”

It was Liu Shiyun who stood nearby. It surprised Chu Ning and others.

“What do you want to ask, leader? You sound so mysterious, haha!” Chu Xiangnan teased airily but he was quickly pulled aside by Chu Ning.

“What is it?” Yun Jian asked with a press of lips.

“Your pseudonym is Slashing God and you know people in Gu Sha Mercenaries. From what I gather, the pseudonym of Gu Sha Mercenaries’ boss is Slaying God. It’s so similar to yours. She’s the Slaying God ranked first in the international secret agent chart... I’d really like to know if you two are related?”

Why else would it be such a coincidence? Why would Gu Sha Mercenaries listen to you and take out the Inferno Ring?
