

## Schoolgirl 981

### Chapter 981: The Return of The Six Of Chu Ning And Team

When Qin Yirou brought up Mrs. Yang to Yun Jian, she said with a smile, "Actually, Xiao Ruan's the one who introduced Mrs. Yang to me. She said that she's worried about me being bored at home alone, so she introduced Mrs. Yang to me."

"Mrs. Yang's a housewife. Her husband makes pretty good money, so she usually stays home and takes care of their children. It's quite a simple life."

"The last time Xiao Ruan introduced Mrs. Yang to me, we got to know each other after a short chat. Now that you're so good in earning too, Xiao Jian, and I don't have to go out and work, it's kinda boring to stay home, so I often chat with Mrs. Yang," Qin Yirou said with a smile.

Dong Ruan had introduced Mrs. Yang to Qin Yirou as she was acquainted with Mrs. Yang as well. Furthermore, Qin Yirou had already resigned now. Back when Qin Yirou worked as a cleaner in New Cruise, she thought that her monthly salary of 1,500 yuan was incredibly high; when she knew about her daughter being New Cruise's director after that, she resigned some time later.

Part of the reason was due to Yun Jian and Ge Junjian. Both of them offered to take care of her and they took a long time persuading her. In the end, Qin Yirou decided to stop working.

"Mn." Yun Jian beamed as well looking at Qin Yirou who obviously looked happy with all smiles,

With her daughter looking at her, Qin Yirou grinned and told her, "We can ask Mrs. Yang and family out after you're done with Senior High School Entrance Examination!"

"Mn." Yun Jian smiled.

They arrived at the door of their house then.

For the next one month that Yun Jian spent in school, the students had gone into the last toiling phase. Senior High School Entrance Examination was arriving after all. It was impossible that they were not nervous.

On the contrary, Yun Jian looked indifferent to it.

During this period of time, Xu Zetian and Ya Dang's injuries had significantly improved.

Xu Zetian had now gotten back the managing authority of Falcon Hall from Duan Lei and he had merged the then top gang in Zhe Province, Panthers Pack, to Falcon Hall within a short time. Nonetheless, the boss of Panthers Pack, Han Biao, continued overseeing the gang's original territories; it was just that his gang had now become Falcon Hall's.

Han Biao and Xu Zetian's boss was now Yun Jian, too, but everything else remained the same. After taking over Panthers Pack, Yun Jian was currently, rightfully, the boss of Zhe Province's top gang.

Everything happened gradually as days passed. The boss of Zhe Province's top gang, the terrifying woman people spoke tales about—Slaying Luo, was currently sitting in class and listening to the lesson, prim and proper.

A peaceful month went by. It was another Saturday today. However, Yun Jian was seated in the classroom waiting for class to be dismissed on this Saturday.

The next Tuesday was Labor Day and that would be another short break of three days, so they had class until Saturday this week—they would be dismissed like usual Fridays.

When the bell for dismissal rang, Yun Jian carried her backpack.

In another week, Chen Xinyi would be back to school but not this week, not yet.

Just as Yun Jian picked up her backpack after school was dismissed, Zhang Shaofeng came over to her pointing at the backdoor of their classroom. "Master, someone's looking for you!"

Yun Jian turned with his words and caught a glimpse of six people standing by the door with her sharp gaze. These six people were Chu Ning and team who came back from the military school!

### **Chapter 982: That's Everyone From Team Monarch**

It had been a long time since Yun Jian met Chu Ning and others saved for the time they came back during the Qingming Festival break. Even then, they came and left quickly, not having much time to stay and talk to Yun Jian. Yun Jian also knew that life in the military school was hard.

Yun Jian had just picked up her bag as she was usually the fastest one to react once school was dismissed, the other students were still in class. They also paid more attention to her since she was Slashing God from Team Monarch.

Now that the class heard Zhang Shaofeng telling Yun Jian that someone was looking for her, they turned around in unison to look at the six people who stood by the backdoor of the classroom.

Chu Ning was almost shy from the pairs of eyes staring at them while Yun Jian could clearly see how the team had gotten much tanner compared to the last time they met.

"Heh heh, Yun Jianjian'er! I haven't seen you in so long, I miss you so much!" Chu Ning waved at Yun Jian when she saw her looking over to them.

Yun Jian squinted for a bit before making her way to Chu Ning.

"You guys are finally free to come back?" Yun Jian raised a brow, asking Chu Ning while the rest of her class stared curiously.

"Right? Yun Jian, you wouldn't know since you haven't experienced it. That hellhole isn't fit for the living. Look at how my fair skin got burnt like a coal. Tsk tsk, it's crazy!" Chu Xiangnan rushed to speak.

As Yun Jian turned to him, it was true. Chu Xiangnan's face looked like it was smeared with charcoal. After months of rain, wind and hot sun, Chu Xiangnan's face was dark from how tanned it was.

The corners of Yun Jian's lips raised in delight.

Chu Ning jumped up like usual to knock Chu Xiangnan's head. "Stupid Xiangnan, you're ugly anyway. You're just uglier now, hahaha!"

Chu Ning did not feel like she said anything wrong despite the tease.

"Off you go!" Chu Xiangnan hissed at her.

Both of them still liked bantering like they did in the past.

"Right, Yun Jian, we met a group of snobs there. I wish you know how stuck-up they are—they're annoying! And they wanna compete with us every day!" Chu Ning thought of it and told Yun Jian after the jovial banter.

"Yes, those guys! I really want to beat all of them up!" Chu Xiangnan grumbled as well.

As for Liu Shiyun, Jiang Weiwei, Fang Xiaoran, and Hong Fan, they stayed quiet. It was obvious that Chu Ning and Chu Xiangnan were the chatterboxes.

Before Yun Jian could reply, a guy in her class looked at Chu Ning and team then at Yun Jian in shock before asking in surprise, "Are you guys... the members of the legendary Team Monarch?"

Yun Jian was Team Monarch's Slashing God. As for the team itself, her classmates knew that it was formed up by people around their age—and the team was already in the Advanced Special Forces!

Such achievement was legendary even in Country Z's military.

Today, the other six members of Team Monarch were actually here in school for Yun Jian. All seven people in Team Monarch were here!

Once the guy's question was verbalized, the other students were stunned.

### **Chapter 983: Can't Beat Her Even If Six Of Them Team Up**

The students in class were baffled by what the guys said. These six people standing at the door were Team Monarch's members?

"Haha, you know about us?" Chu Xiangnan was still fooling around with Chu Ning when he was surprised by the guy's question.

People were usually blinded when they were involved while onlookers were likely to get the whole picture. Chu Xiangnan did not even know that Team Monarch that he was in was already so popular. The guy had even called them "legendary".

"You guys are really—really Team Monarch?" the guy did not reply Chu Xiangnan but asked again in both shock and disbelief.

"Heh!" Chu Xiangnan flicked his hair and put on a cool expression. "Of course. You've got to remember that I'm the coolest in Team Monarch..."

"Cool my \*ss! One more word and it's the washboard you're kneeling on when we get back!" Chu Ning gave a light shove and pushed Chu Xiangnan away.

Yun Jian was standing in the classroom and majority of those around looked at her.

“The military school should be quite busy huh?” Yun Jian looked at her teammates and managed to say that after a long time.

“It’s quite hectic. We initially thought that we could come back once every two to three weeks but we didn’t expect to only return for the second time after so long,” Liu Shiyun who stood next to Chu Ning and Chu Xiangnan replied Yun Jian. He was always the more reliable one.

“But if it were you, Yun Jian, it’s surely no problem for you to go home once every week. Those who are skilled to a certain level can make applications to the school. They can do whatever they want, even skipping classes!” Fang Xiaoran added from the back.

The students were only more baffled listening to their conversation. Was Yun Jian actually that skilled?

“Haha, Yun Jian’er, all I’m waiting for is for you to attend military school now! Us Team Monarch will finally be complete again!” Chu Ning quipped.

Some students in class could not help being envious of Yun Jian and the team’s friendship when they heard them.

“Why are all of you still here when school’s dismissed?” Madam Yu who passed by the classroom asked while entering as she found it strange when she saw that the students had yet to leave.

There were frequent cases of group fights in school, so teachers usually kept an eye out.

When Madam Yu entered the class, a student who was relatively noisy spoke up at once, “Madam Yu, they’re members of Team Monarch! They’re here to look for Yun Jian!”

Given how Team Monarch was relatively popular now, their homeroom teacher, Madam Yu, had naturally heard of it.

“They’re actually back from the military school to visit Yun Jian! They’re awesome!” another person cheered telling the teacher.

Madam Yun turned to Yun Jian. She did not like the fact that Yun Jian had brought the others from Team Monarch to the school, that Chu Ning and team had come to class to look for her, so she frowned at her.

“Yun Jian, since your current goal is to enroll in the military school, you ought to study well. You can only attend the military school based on your ability. Other than studying, you need to strengthen your physical! Otherwise, the strict requirements of the school might not allow you to go there if you’re too weak especially when you’re a girl!”

All in all, the teacher was warning Yun Jian from resorting to tricks and crooked means.

“Too weak? Hahaha, this is the best joke I’ve heard all year long! It’s impossible to beat Yun Jian even if the six of us team up—how could she possibly be weak?” Chu Xiangnan laughed asking when he heard the teacher.

#### **Chapter 984: Drillmasters Are Fighting For Her**

Chu Xiangnan had always spoken what was on his mind without much of a care to filter his words. However, everyone else was completely dumbstruck when he blurted such honest words so forwardly.

Wh-what? The other six members from Team Monarch would not be able to beat Yun Jian even when they grouped up? It was already known that the members of Team Monarch were several times more skilled than their regular peers; otherwise, Ge Junjian would not have selected them to join the military back then. The army was not where any Tom, Dick or Harry could go.

Moreover, the other six people in Team Monarch were already under the Advanced Special Forces as well. Countless Special Forces soldiers dreamed of joining ASF but some could not even qualify their entire life.

Basically, every member of Team Monarch was an indomitable presence who could tackle a group alone to the students in class. What Chu Xiangnan said just now astonished them.

Madam Yu, especially, was appalled the moment Chu Xiangnan spoke about Yun Jian. What the young man said was like a slap to her face, making the teacher feel like her words just now—what she said about Yun Jian failing to go to the military school for being too weak as a girl—sounded incredibly foolish.

It was as if Fang Xiaoran thought what Chu Xiangnan disclosed was inadequate as he laughed subsequently and said, “Yup, we wouldn’t dare deny this. Forget about the six of us being unable to fight Yun Jian. Even if it’s the drillmasters in our military school, I don’t think anyone there is Yun Jian’s match.”

“What do you mean you don’t think? It’s a fact!” Chu Xiangnan quipped with a chuckle.

If the students and Madam Yu’s impression of Yun Jian’s ability had been limited to rumors previously, all of them received a clear verification now.

What were the drillmasters in military schools like? One who qualified as a drillmaster in military schools were undeniably and significantly skilled. Yet they could not compare to Yun Jian?

The students were dumbfounded, Madam Yu, too.

“Haha, as expected of my master! She’s just that good!” Zhang Shaofeng chorused proudly since he had gotten to witness Yun Jian killing the assassin ranked tenth internationally back then.

“Let’s go, come on, Yun Jian, we’ll talk in the restaurant. We rushed back this afternoon and we’re starving!” Chu Xiangnan patted his stomach that was completely flat and led the way with a chortle.

Yun Jian picked up her bag and followed without hesitation, blatantly ignoring the teacher behind her.

Zhang Shaofeng did not go after her. He let Yun Jian know that he planned to head home first to visit Chen Xinyi.

The group of youths left the classroom with merry laughter and did not spare Madam Yu a glance. It caused the teacher to stand there awkwardly, more so when the giggly conversation among Chu Xiangnan and a few others drifted from outside of the classroom shortly after they left.

“Yun Jian, you had no idea. Our drillmasters in school are starting to fight for you when they found out that you’re coming the next semester. They swore that they’re getting you to their team!”

"I know, right? Hahaha. The few of them started dueling in school previously just to fight over which drillmaster you'll go to the next semester! Say, your reputation is too great!"

### **Chapter 985: Ganging Up And Calling Themselves The Indomitable**

Since Madam Yu was quite skeptical about Yun Jian just now, Chu Xiangnan and others purposely raised their voices when they talked while they were still nearby after leaving the classroom. It was like they were scared that Madam Yu who was standing in the classroom did not hear them.

Needless to say, what they mentioned was indeed the truth.

The drillmasters in the military school had begun fighting for Yun Jian when they heard about the achievements of Team Monarch's Slashing God, including the news that she would transfer to their school in the next semester.

They had even had a physical fight previously that was fortunately stopped by the chief drillmaster, so nothing bad happened.

Without a doubt, Chu Xiangnan's loud voice alone would already have reached Madam Yu's ears clear and crisp. The teacher's astonishment was indescribable. The students were equally baffled as they froze.

Yun Jian had not even attended the military school yet and the drillmasters there were already in a fight to recruit her? Madam Yu had just nagged her about studying seriously and training physically because it would be a challenge for her to get into the school given its high requirements and she was a girl.

What now? Yun Jian had not even made it in but she was already popular among the drillmasters. It was pretty obvious that she was already an internally decided candidate.

Madam Yu knew that Yun Jian was Team Monarch's Slashing God but she thought that they ought to select and admit her the conventional way even with her identity. What it seemed like right now was that it was only a matter of time before Yun Jian enrolled in the military school!

It also explained why Yun Jian had just written down Min City's military school when she put down her goals and was reluctant to write her target score. It was already an unofficial decision!

Madam Yu was ashen-faced as she stood rooted listening to the voices of the youths who were going away. Her earlier words, in contrary to what Chu Xiangnan and others said, was a slap to her own face.

...

"Hahaha, Yun Jian, your teacher's so... y'know? How did I do just now? Haha!" Chu Xiangnan guffawed as soon as he stepped out of the school gate.

"No words needed. You deserve a thumbs up!" Fang Xiaoran stuck a big thumbs up to Chu Xiangnan as he laughed.

"Very domineering," Yun Jian smiled and commented in two words.

The group made their way to the restaurant chattering and laughing. As the group mentioned life in the military school after they got seated in the restaurant, Chu Ning gritted her teeth.

“The most annoying thing in the military school is that arrogant group of people. They even formed up some sort of group—what’s it called? Uh... The Indomitable, claiming they’re the top in school and stuff.”

“Then they keep coming to challenge us, calling us Team Monarch newbies! It’s infuriating.”

“But they have someone really good. The six of us fought him alone once and all of us, except Weiwei, got beaten up. Weiwei nearly got hurt too!”

“So we bear with it for now!”

Chu Ning huffed and scooped a spoonful of rice into her mouth before chewing furiously. It was like the rice in her mouth was that group of people and she was chowing them down.

“That’s right!” Chu Xiangnan chorused in similar sentiment.

Even then, the few of them did not mention anything close to asking Yun Jian to help beat those people up for them.

Yun Jian smiled and asked, “So you guys keep training to fight them and even got yourselves burned like charcoal?”

Her words exposed their thoughts like an arrow through their heart.

Chapter 986: Come Visit Us After Senior High School Entrance Examination

Comparing them to charcoal forged an effective imagery. Before Chu Ning and team attended the military school—even though they had already trained in the military, their complexion was fair and supple.

Now? Yun Jian was not exaggerating when she said all of them turned several shades darker. They almost looked like charcoal now and their faces looked like they had painted them with coal.

“Huh, no, Yun Jianjian’er. We’re not as dark as what you said, haha! But it’s true that we’ve gotten tanner in recent months. My sunscreen can’t even block the scorching sun!” Chu Ning lamented.

She rubbed her face furiously after that, like the action would allow her to rub her tanned skin off her face.

“Haha, you’re the one who’s got tanned the most visibly among all of us here!” Chu Xiangnan pinched Chu Ning’s cheek and quickly retracted his hand before teasing her with a grin.

“Out of my way! Are you trying to pick a fight? I’m talking to Yun Jian’er!” Chu Ning swung her clenched fists at Chu Xiangnan right after she got pinched.

“Alright, quit it, you two,” Jiang Weiwei spoke up to stop the banter between Chu Ning and Chu Xiangnan.

“Sigh, we have to go back to the military school again when the Labor Day break ends. Hmph, Yun Jian’er, don’t worry. We’ll make sure we train ourselves well before you come!” Chu Ning then pumped her fists at Yun Jian as she told her confidently.

“Mn,” Yun Jian hummed with a nod and crescent eyes.

The six of them exuded a new vigor that felt like they were working hard. Yun Jian admired that. Some people might already be waiting for Yun Jian to do something for them seeing how capable she was but not Chu Ning and team. Even when they could not fight who they called The Indomitable, they did not back down.

No one was born a victor. Every ace got up to their invincible level through endless grinding and experiences.

Chu Ning and team took the time to visit Yun Jian together before they returned home respectively after dinner. They did not have a lot of holiday; other than visiting Yun Jian, they were going to Ge Junjian to let him know that they were doing well and then returning home to spend a few days with their families. They would then have to rush back to the military school after that.

When they bid goodbye to Yun Jian, Chu Ning hugged her for some time. As they took their leave, Chu Ning turned back after a few steps, suddenly recalling something and telling Yun Jian, “Right, Yun Jian’er, you have two more months till Senior High School Entrance Examination. Don’t you have two weeks of break in advance from students in other grades? Why don’t you come visit us during the break? We’re about to die from boredom in school!”

Chu Ning stuck out her tongue as she spoke.

“Yeah, summer break starts two weeks earlier for you because you’re sitting for Senior High School Entrance Examination. You can come visit us in Min City,” Jiang Weiwei invited Yun Jian in a blink of eyes after Chu Ning spoke.

The girl rarely extended any invitation, so Yun Jian looked at her once she spoke. Although Jiang Weiwei was a pain in the beginning, she was now incredibly amiable.

As Chu Ning, Chu Xiangnan, Jiang Weiwei and others looked back at Yun Jian in anticipation, she nodded in reply, “Alright, I’ll visit you guys in Min City after the exam.”

### **Chapter 987: Ge Xuan’s Invitation, To His School**

Chu Ning and others were delighted at Yun Jian’s promise and then they went home.

Yun Jian had a relatively comfortable life recently. Crossing her arms in front of her chest, she watched Chu Ning and team leave before pressing her lips together and cracking a grin.

It was only then she turned to go back home.

Since Gu Nian’s assassination attempt the last time, Yun Jian had been thinking. There was 90% truth in what she said but there was still 10% left for observation. Regardless, Yun Jian believed one thing that Gu Nian mentioned—that she was already put on the notice board in Yulong Mainland.

The board had nothing positive about it. It was a bounty notice board. Yun Jian had also told Si Yi about it and the latter had carried out an intense investigation about it together with the assassination that happened previously. Nonetheless, there was no conclusive information from what they had gathered now.

If it were something on earth, they would most probably be able to come up with a result swiftly given how influential An Hun Group was. If it were in Yulong Mainland, however, a continent that was unrelated to earth, it was hard to achieve the same efficiency.

Anyway, based on Si Yi's capability, he would be able to figure it out even if it were Yulong Mainland. He would just need a bit longer.

To Si Yi, he was going to find out whoever dared assassinate his woman even if they hid themselves in outer space and make them pay for it!

...

Just as Yun Jian entered her house, she saw a tall figure standing inside. Without a second look, she could recognize that it was Ge Xuan.

Losing the colorful hair that did not fit him, Ge Xuan who had colored his hair black looked more charming than he used to. The short black hair kind of made him look like a fresh schoolboy.

Ge Xuan got up from the chair and made his way to Yun Jian in a large stride once he saw her coming in through the door, asking in delight, "Meimei, you're back?"

"Mn." Yun Jian nodded at him and dropped her schoolbag on the stool.

"Xiao Jian, you just got home? Have you had dinner?" Qin Yirou exited the kitchen, still wearing an apron with suds on her hands; it seemed that she was doing the dishes.

"I've eaten," Yun Jian answered Qin Yirou and turned to Ge Xuan, waiting for him to speak.

Yun Jian knew from Ge Xuan's gaze at her just now that he must have something to tell her. As expected, after Qin Yirou made her way into the kitchen again, Ge Xuan chuckled giddily at Yun Jian before rubbing his head and telling her, "I'm going back to school tomorrow, meimei. Do you want to come with me?"

"It's just nice that you're on a short three-day break for Labor Day and there'll be an international race tomorrow night near our school. It's a rare chance. Do you want to go with me?"

This was Ge Xuan officially inviting Yun Jian to join him at the race together. From what he said, he was inviting her to travel abroad and watch the international race together.

Yun Jian had gone out of the country previously, so she had a passport ready for traveling anytime. Ge Xuan probably invited her knowing about it.

"Hmm? Where is it?" Yun Jian looked up at him and asked softly with a press of lips.

"Maryland in Country M," Ge Xuan replied promptly.

Yun Jian squinted at his answer. That was where Dime And Prime Company that Alluring Demon ran was located. Yun Jian wore a pretty smile and stayed quiet for a bit before pressing her lips together again to answer, "Okay."

She had agreed to go.

#### Chapter 988: His Bro Is Participating In The Race

Qin Yirou was not that worried about Yun Jian traveling now. Although going abroad was riskier, she could still accept it since Ge Xuan would be accompanying the girl.

Having decided to go, Ge Xuan purchased their flight tickets the next morning and boarded the plane with Yun Jian during noon to depart to Maryland in Country M.

The three friends who Ge Xuan had come back with, two of them aside from Shen Jie had returned to Country M some time ago. As for Shen Jie, he was still in the hospital recovering from being beaten by Yun Jian and Si Yi, so it would be impossible for him to go to school for the time being. Nevertheless, it was a favor to Ge Xuan that Yun Jian did not kill Shen Jie when he had kicked Qin Yirou.

Therefore, Yun Jian and Ge Xuan were the only ones in the plane for this trip.

Si Yi had gone back to An Hun Group. Yun Jian's classmates were most probably staying home doing homework and revision during the three-day break for Labor Day. After all, Senior High School Entrance Examination was around the corner. Most people were doing their best buried nose deep in stacks of simulation test papers under such tense atmosphere.

The only exception was Yun Jian.

Not only was she not home to study, she went overseas. If her classmates found out about it, they would definitely feel a blow of exasperation. It was just that the whole school knew about Yun Jian not doing any homework, even their homeroom teacher was powerless about it.

"Meimei, are you thirsty? I'll get you a drink if you are," Ge Xuan told Yun Jian, worried that she would be thirsty after so long in the flight.

"I'm not." Yun Jian smiled and pressed her lips together.

"Alright," Ge Xuan answered with a nod.

Flying from Longmen City to Maryland of Country M, Yun Jian and Ge Xuan departed in noon and arrived there around 3pm in the afternoon. There was a time difference between Country Z and Country M; it was supposed to be 3pm in Country Z but it was around 8pm in Maryland, Country M. The time difference between Longmen City and Maryland was not a lot because both places were not too far apart.

By the time they arrived in Maryland at 8pm, the race was already starting.

Car racing was commonly popular in Ge Xuan's school and races were usually held at night. Basically, Yun Jian and Ge Xuan had arrived just in time.

In spite of it, Ge Xuan did not take Yun Jian to the venue of the international race directly but had taken her to his school. The university Ge Xuan was studying at was a famous school with a long history coming.

Ge Xuan was not participating in the international race today and his current skill was inadequate to qualify him in one either. The reason he was eagerly rushing back from Country Z to watch the race today, other than he was incredibly interested in it, was because his friend was participating.

It was an immense honor for Ge Xuan's friend to be able to join an international race like this which only top global racers were qualified to take part. Although Ge Xuan's friend did not go to Country Z with him, he was his best bro.

"Meimei, I'll introduce a few of my bros to you later," Ge Xuan turned to tell Yun Jian.

They arrived at Ge Xuan's school right after he said that.

Ge Xuan's friends were Country Z locals. Although they studied abroad, they were used to hanging out with their countrymen.

When Ge Xuan saw the group, he made his way over waving and taking Yun Jian along.

"Hi! My Xiao Xuanxuan, you're back?" Among those standing at the school entrance, a muscly guy walked over to Ge Xuan with his arms spread for a hug.

He spotted Yun Jian as he came over and froze before whistling at Ge Xuan. "Ge Xuan, where the heck did you get this little girl from? Don't tell me she's your new girlfriend!"

### **Chapter 989: Getting To Know Them. Participating In The Race**

The muscly guy was Ge Xuan's best friend—the one who was joining the international race tonight. Hence, he was considerably noticeable in the group; even in Ge Xuan's school, his presence was prominent.

The guy was an exemplar for Country Z nationals. There were people in campus who intentionally bullied Ge Xuan and friends just because they were from Country Z, while this friend of Ge Xuan looked relatively mature. His name was Shan Tiansheng and he was an advanced racer.

Ge Xuan, to his friends, was still a greenhorn who had never had any intimate experience with a girl, but he had brought along Yun Jian to meet up with them today.

That was why Shan Tiansheng thought it strange and asked that just now.

"Piss off, this is my sister!" Ge Xuan went up and knocked Shan Tiansheng's head swiftly, not that it was a real hit as they were just friends fooling around.

"Sister? Sh\*t, Xiao Xuanxuan, why do I feel like you've changed somehow? Tell me, what have you gone through after going back? And you've colored your hair black!" Shan Tiansheng was suddenly struck with realization and circled Ge Xuan as he asked aloud.

He then looked at Yun Jian's lean silhouette and asked Ge Xuan in surprise, "And you have a sister?"

“What do you think? I look cooler with this hairstyle, right? Haha! And why can’t I have a sister? I got a sister, so? Ask your mom for one if you can!” Ge Xuan teased.

He then turned to look at Yun Jian and introduced Shan Tiansheng to her. “Meimei, he’s a clown. Don’t get offended! He’s got nothing to boast about except being good in racing, haha!”

Ge Xuan’s words caused Yun Jian’s eyes to turn into crescents as she smiled.

“Hahaha!” Shan Tiansheng scratched his head and stuck a hand out at Yun Jian. “Nice to meet you, Xiao Xuanxuan’s sister!”

Yun Jian did not shake his hand but nodded. “Mn, nice to meet you.”

Ge Xuan continued to introduce his other friends to Yun Jian one by one.

“He’s Wu Dazhuang..”

“He’s Zhu Zilin...”

...

Ge Xuan’s friends were more of the playful type and they were mostly from Country Z. Even when Ge Xuan was studying overseas, he made friends with those who were from the same country. It was basically a principle.

After they got to know each other, Shan Tiansheng spoke up, “Alright, let’s get going to the tracks. My race is about to begin.”

He went to Yun Jian and grinned. “Xiao Xuanxuan’s sister, you’ve got to cheer for me later!”

There were usually plenty of girls cheering on the racetracks or any other competitions, so Shan Tiansheng wanted Yun Jian to be one of them and cheer for him.

Yun Jian was a pretty girl. He thought that a pretty girl like her cheering for him would definitely boost his popularity. As he thought about it, however, Ge Xuan asked suddenly, “Right, Tiansheng, do you know if they would allow someone to join the race on the spot for this competition tonight?”

Ge Xuan wanted Yun Jian to join the race. It was just that the possibility did not occur to Shan Tiansheng and the other friends as they asked, “Everything’s possible if you’ve got the skill. Why, Xiao Xuanxuan? You wanna join too?”

### **Chapter 990: She Races And Saved Him**

To be honest, if Ge Xuan wanted to participate in tonight’s international race, it would be a far reach based on his ability. As for Shan Tiansheng being able to take part in it, he got in with his connection.

There was nothing a little connection could not do nowadays.

Shan Tiansheng himself was quite skilled as well. With both his connection and decent capability, it was not mind-boggling how he got to participate.

Listening to Ge Xuan, Shan Tiansheng thought that he wanted to take part in the race as well, so he spoke up after a moment of silence, "Xiao Xuanxuan, it's not a hard no if you want to join the race tonight. I can see if I can pull some strings and get you in..."

He had yet to finish his sentence when Ge Xuan took over and said, pointing at Yun Jian, "No, not me. It's my sis. If you can get her in, put her in a race."

Back when Ge Xuan drove Yun Jian's Ferrari sports car and nearly died due to the brake failure, she was the one who hijacked someone else's sports car and saved him. Yun Jian's driving skill wowed the crowd during then, and her skill was not just limited to simply racing.

Ge Xuan was a hundred percent confident that Yun Jian's skill was above his best friend, Shan Tiansheng's. It would be a pity if she did not participate in this international race with what she had, so he thought of fighting for a spot for her.

However, what Ge Xuan said bewildered Shan Tiansheng and their other friends.

"W-what? My dear Xiao Xuanxuan, have you lost your mind? You haven't gone cuckoo, have you? Do you know how dangerous racing is? And you want your little sister to join? You—" Shan Tiansheng told Ge Xuan but his eyes were on Yun Jian by the time he snapped out of his surprise.

It was just that Ge Xuan cut him off again before he could complete his sentence.

"Tiansheng, do you think I'm dumb? Do I look like I'd throw my sister in harm's way?" Ge Xuan heightened the suspense.

"Meimei, right? Haha!" Ge Xuan prompted Yun Jian looking at her before continuing to say, "Besides, you must want to join too, right? This race today is an international one!"

Yun Jian's eyes turned smiley as she answered casually, "Anything goes."

Participating in the race or not posed no attraction or temptation to her. Yun Jian was not even here for the race. She came purely with the intention to check out Dime And Prime Company.

After all, this was her company in her past life. Although Alluring Demon was fully in charge of it now, the company still had her name. Yun Jian could not just leave it.

"See, my sis says she's joining! Get me a spot!" Ge Xuan told Shan Tiansheng with a bark of laughter after he made up the story of Yun Jian wanting to participate in the race.

"Xiao Xuanxuan, it's not that I don't trust you but... you're asking me to believe that your little sis races? I really can't!"

"You're a racer too. You know how important it is being physically fit as a racer. It's not like I'm looking down on your sister but... Can she really drive a race car? She seems to be very skinny..." Shan Tiansheng said with a frown.

Ge Xuan interrupted him once more at that. "Hah! I knew you'd say this! Haha, remember what you said!"

“The last time I raced someone, my brakes failed from a collision. Do you know who saved me? My sister! I can guarantee that there’s no racer in this world who could’ve done that...” Ge Xuan recounted in exaggeration but Shan Tiansheng and others now looked at Yun Jian in respect as Ge Xuan spoke about the previous horrific experience.
