

# 《Sweet Daily Life With Rich Fool Husband》

## Chapter 60

"What did you say?" An hour later, Jiang Chengzhan took the doctor's arm and couldn't believe it.

The doctor has said it three times. He suspects that Jiang Chengzhan is stupid again. "Mr. Jiang, I suggest you have another examination."

"No," Jiang Chengzhan flatly refused, his brain is very clear now, "you say my wife is pregnant?"

"And is there a band of separation in the capsule that means twins?"

"Mr. Jiang," the doctor explained to him again: "because the time is too short, now it's like this. As for whether it's twins or not, it will take several days to be sure."

Jiang Chengzhan felt that if he didn't let go of the doctor, he would be injected with sedative drugs.

As Jiang Chengzhan walks into the ward, he calculates in his heart that it has been 46 days since the doctor said, isn't that the time when he finally had a relationship with Su wanwan?

He's got kids, and they're two.

Su wanwan was stunned when she heard that it might be twins, but her joy was soon diluted by Jiang Chengzhan's vision of the future.

Half an hour after he entered the house, he did not stop saying, "well, I want them to start the east city project quickly. At that time, I will build a large swimming pool at home, and build a playground. By the way, how many floors do you like in the building? Is the style Chinese or European? Or do you want to get a cloakroom, gym, dressing room and chef? Do you like western food, I can invite more... "

"... I don't know if it's a boy or a girl, wife. Do you think it's a phoenix or a dragon?"

"Also, how do you feel now? The doctor said that you were scared and asked you to

stay in bed for a few days. Otherwise, you should stay in the hospital until you have a baby. It's safe and convenient for the hospital to have something to do..."

Su wanwan gives him a big white eye, and the man continues to murmur.

She pressed the brow with a headache and interrupted him unhappily: "who gave you the courage to do this, I can forgive you, but did you say I would accept you?"

"That's right," Jiang Chengzhan said, immersing himself in his joy. "It doesn't matter. Don't accept me so quickly, like you, chase you, and then marry you back home. You can't be a normal couple. I know, don't worry."

Su wanwan can't help but give him a big white eye. When is she worried?

"Don't you have a headache?"

"Would you like a rest?"

"Don't be silly. I don't know how to manage the children. Do you want me to manage them by myself?"

I don't know if I've heard her. Su sees Jiang Chengzhan sitting next to her in the evening. He laughs, worries and laughs. One night, his expression has been tossed and turned. I don't know how many times. Who knows what he is thinking.

Forget it. I'm too lazy to bother with him.

Su wanwan has some signs of threatened abortion. The doctor told her to stay in bed for two days and have a good observation.

She didn't dare to go out again. She had to lie down in the hospital.

Jiang Chengzhan's head still needs to be observed again, because he has people who miss and want to take care of him. Now he especially listens to the doctor's words, and even ten calls in his work are ignored by him. Let Qin Mingyang watch and deal with them.

Cui read these days, but she was very idle. She remained in the hospital to take care of sue late. She was so unnatural that she was what she had done.

On the third day, Cui Lingyue brought her porridge again. He sat by the bed and cleaned it up for her. He said, "you don't have to be angry with me. You want to kill your best friend. In fact, I don't care about you. If you don't have a clear head, you'll get angry foolishly."

Su wanwan sipped porridge while listening to her grin. These two days, her ears almost heard the paste. "I know, I know, my dead friend, my dead friend. You see, when I'm ready, I'll go to shake in front of Cen Xirui. Don't hurry with me then."

Cui Lingyue said with a smile: "you dare, when you are born, I will steal your family treasure. Anyway, there are two."

"Well, are you curious that it's a boy or a girl?"

Su wanwan is not afraid of Cui lingyuezen stealing the child. As a person, the eldest lady has a heavy temper. It's good for her to keep herself well.

But when it comes to boys and girls, I can't see that they are so small, but I'm always curious. Su wanwan said, "it's better to have a man and a woman

"I think it's beautiful," Cui Lingyue said, waiting for her to finish eating and put away the dishes. "I won't come tomorrow. We'll go out the day after tomorrow."

Su wanwan nodded: "well, I'm bored every day in the room these days. I'm almost out of my mind."

Five days later, the doctor finally drove Jiang Chengzhan and Su wanwan out in the name of occupying medical resources.

Jiang Chengzhan still didn't feel enough, so he took the doctor and refused to leave: "Dr. Zhao, you must ensure my wife's safety. Money is not a problem..."

Su wanwan wants to block Jiang Chengzhan's mouth. She looks at the doctor and laughs awkwardly. "Please Dr. Zhao. We'll go now."

After leaving the hospital, Jiang Chengzhan sat in the back seat of the car and said nothing. Su wanwan didn't bother to talk to him. He was brushing his circle of friends with his mobile phone.

About ten minutes later, Jiang Chengzhan suddenly said: "I think I should open a hospital."

Su wanwan's hand holding the mobile phone was stiff. She turned her head and looked askance at Jiang Chengzhan. She frowned and said, "you have a high fever, don't you?"

Jiang Chengzhan nodded thoughtfully, as if he didn't understand what Su wanwan asked him. He said to himself, "I think it's OK. I'll stay in my own hospital whenever I

want."

Su wanwan gave him a thumbs up next to him. "You're very powerful. For the convenience of hospitalization, you build a hospital."

At the same time, the feeling in my heart is endless. This is the boss of a big family. As expected, his style is extraordinary.

Later, Jiang Chengzhan really built a hospital of his own, which was comparable to the top three Class-A hospitals, until he finally spread all over the country. Of course, this is the Afterword.

Su wanwan doesn't show any affectation now. If she has to go back to her villa, Jiang Chengzhan will follow her and won't say anything. It's not convenient.

Therefore, she also let Jiang Chengzhan take her to Xinshang international.

Su wanwan didn't understand. When she wanted to get off the bus, she asked, "why do you want to live here? Why don't you go back to Jiang's old house?"

Jiang Chengzhan's eyes were deep and implied a smile: "where do you like?"

Su wanwan shook her head. She only lived there for a few days. She was not emotional, but just curious. "No, it's strange. Why don't you go back?"

"I'll take you to have a look in two days, and you'll understand," he got out of the car first, ran to the side where Su wanwan was sitting faster than the bodyguard, opened the door, reached out to help her, and reminded her nervously, "slow down, wife."

Su wanwan looks down at her small stomach. It's flat as usual. She's even thinner than before. After all, she's been in the hospital for five days and can't eat.

"I'm fine. I don't need you. Just take care of yourself."

She pushes away Jiang Chengzhan's hand. What's wrong with people who are pregnant and going to work?

She's going to be helped in 50 days?

Jiang Chengzhan was rejected and watched her get out of the car. She wanted to reach out and was afraid that she was not happy, so she could only look at her wrongly.

This seems to be angry like expression, Su wanwan helplessly hissed, put his arm to his side handed, "OK, give you help, give you help."

Jiang Chengzhan was happy and helped her to go upstairs.

A group of bodyguards in the back: "I'm not sure."

I haven't heard that Mrs. Jiang is suffering from something that can't be cured?

Oh, yes, I'm pregnant.

Is pregnancy so careful?

Oh, they are pregnant with twins.

Jiang Chengzhan has already asked people to rearrange the room. As soon as Su Wan enters the room, she seems to have entered some princess's boudoir. She slightly frowns and scans the whole room.

The last time she came here, she saw that the decoration style was very grand. At first glance, it was the style of high-end luxury that only the rich could live in. Now what's this?

"Mr. Jiang, this is..."

Jiang Chengzhan didn't find Su wanwan's strange. As he took her to the house, he introduced her, "wife, look..."

As soon as he started talking, he suddenly realized what Su wanwan had called him, and his face immediately collapsed, "what do you call me?"

Even if my husband doesn't call me, Zhan Bao won't call me. Can I call him by his name?

What the hell is ginger?

Su wanwan ignored him and continued to walk into the room. The room was full of underage pink Kawai wind. She was too lazy to investigate, but she didn't find her bedroom at last: "where do I live?"

Jiang Chengzhan hasn't come back from his dissatisfaction just now. He falls into another dissatisfaction: "where do you want to live?"

Su wanwan pointed to a pile of dolls in his bedroom and a layer of pink petals on the bed. She couldn't describe her expression in silence. "Where do you think it's suitable to live?"

She wants luxury and extravagance, luxury and extravagance, luxury and extravagance, important things to say three times.

This kind of thing that a little kid would be moved by is not rare to her. If possible, she would rather sleep in a bed made of a pile of money.

Forgive her for being so vulgar!

"What's more," she said, pinching her waist and looking back at Jiang Chengzhan, "you said it yourself. From pursuit to love, you have to go through all the procedures. What's the matter now?"

In fact, she began to think that it was not so much trouble.

Since he put her in his arms, without hesitation for her to block the bad guy that baseball bat, she decided to gamble.

Bet that he will treat her well for a lifetime, love her forever, accompany her and grow old with her.

No matter what she gambled on, she never lost. I believe Jiang Chengzhan will not let her down this time.

If she really loses the bet this time, she will accept her life, and there will be no worse result.

Unfortunately, Jiang Chengzhan is quicker than her. Before she agrees, he denies it and wants to start from scratch.

Su wanwan is very happy. She has never enjoyed love before. She also wants to feel what it's like to be chased.

Jiang Chengzhan frowned and took out his previous coquettish attitude in front of Su wanwan. He just wanted to muddle through, "then we should go through the normal procedure during the day and live together at night, OK?"

Su wanwan refused without hesitation: "no, if you don't think it's suitable, I'll go back to my villa..."

She said, turning to go, Jiang Chengzhan quickly seized her: "no, then you live in the master bedroom, I live opposite you, this head office?"

Su Wan nodded later: "also, take away all these fancy things, and return to the way I

came last time."

"Well, I'll let someone do it." Jiang Chengzhan made a phone call and began to arrange people to work.

It's too comfortable to stay in the hospital these days, and the company has left a mess. Jiang Chengzhan arranges Su to go to the company later.

Su wanwan was lying on the big bed which was restored to its original shape, and carefully recalled what happened more than a year ago.

When Jiang Chengzhan was silly before, she had no scruples with him. They had a relationship on the first night.

But now I feel very embarrassed and embarrassed when I think of the previous affair.

She remembers one time when she tied his wrists and asked him to call himself Lord queen. She didn't know whether he was sober or stupid at that time?

He said that he was sometimes sober and sometimes silly. At that time, was he stupid?

Su wanwan did not dare to imagine that if he was sober at that time, how would he face him in the future, especially if he wanted to kill people?

Ah, ah

Sue rolled on the bed several times at night. She felt that she was really shameless.

I still remember one time when two people went shopping together. It seemed that they had just moved to a villa.

He wanted to put toys in the balcony and she wanted to put sofas. They didn't agree, so she told him that he could buy a sofa that he could kiss. At that time, he foolishly told the salesman that he wanted a sofa that he could kiss

Up to now, she still remembers that her face was red and bleeding.

Will he be sober at that time?

Sue can't imagine.

When she first put them on, she remembered that she had bought two pairs of clothes for lovers. At that time, Jiang Chengzhan didn't want to wear them. She lied to him that they were wearing the same clothes, and people could immediately confirm that

she was his wife.

After that, he liked that dress very much and wore it every time he went out.

But he would not take off his pants, and he would take her to the men's room.

Su wanwan still remembers that time when he went to KFC, he wanted to drink coke. She told him that coke killed semen. Then he turned to a middle-aged Guangming Ding and said that coke killed semen. At that time, the man's eyes wanted to kill him.

Later, he couldn't go to the toilet himself

Think of this, Su Wan Wan frowned, so at that time he was pretending, right?

She can't help grinding her teeth. Sue thinks that she should not let her know when he woke up, otherwise she has to make a good deal with him.

But on second thought, she had done so many shameful things before. She didn't know that he was sober. She could pretend to be confused. If she knew, how could she face him?

Thinking of the way she kisses each time, she covers her hot cheek and shakes her head. Wuwuwuwu, don't know. She's dead.

Jiang Chengzhan naturally doesn't know what Su wanwan is thinking. Although the woman won't go to the same room with him, it's a big progress to go home with him. Everything else can be done slowly.

He was sitting in the office, dealing with the documents. His personal assistant came to report: "Mr. Jiang, Mrs. Jiang... It's Xu Hongmei. Now she's in a very abnormal state of mind. Do you think it's better to send her to a mental hospital, or continue to let her stay in the old house?"

Jiang Chengzhan closed his pupils and frowned. His face was cold and indifferent. After a long time, he said, "let her live in the old house and find a good doctor for her."

"OK, I see," the PA left after reporting.

Jiang Chengzhan looked at the document and fell into a deep meditation.

After Jiang Yushen's accident, Xu Hongmei's mental state went from bad to worse. He didn't want to take care of her in his heart. However, she had been married to the Jiang family for nearly 40 years, so because of her grandfather's feelings, he had to deal with it symbolically.

In the past, when her father was still there, Xu Hongmei was very hard on her. But after all, her father was born to her grandfather and loved him so much that she didn't dare to do anything.

However, after her father was seriously ill, she used to gossip. Naturally, a man can't care with a woman like a shrew, so he warned her twice to stop.

But she and Jiang Yushen are more and more excessive. They even buy and kill people.

Before he had a car accident, Jiang Yushen bought a Mafia who was also involved in the drug trade. Xu Hongmei not only didn't object to it, but also helped to hide it,

The man ran out of the country after he hit him. Another reason why he continued to be stupid was to cooperate with the police investigation. If the man didn't relax his vigilance and run back, the truth of his collision would never be investigated.

.....

Therefore, for Xu Hongmei, Jiang Chengzhan has 11000 reasons to ignore her.

But he was in charge of her after all.

Since she likes being the hostess of the Jiang family so much, she will give her the compound of the Jiang family to see if she can take it away after she dies.

That's why he didn't go back to his old house, and he didn't want Su to take part in it.

Anyway, he promised Su Wan to give her a bigger house than the old house, which is under construction.

He didn't think that a yard would be the foundation, where people were, where heart was.

Now he felt that the place where Su was late was their home.

Su wanwan thought Jiang Chengzhan would be back very early. As a result, after dinner, he didn't see him until dark, so he believed that he was really busy.

I can understand why he didn't go back for seven days.

The dinner was cooked by Cai ma. After hearing that she was pregnant, Cai Ma couldn't close her mouth with laughter. She specially asked her sister, who is also a housekeeper, what's the best meal for pregnant women.

Su wanwan looked at the food on the table and frowned, "vegetable mom, I really don't need such special treatment. People say that nutrition is enough for a normal meal. How much do I have to gain if I eat according to your recipe?"

"Besides, it's hard to have a big baby."

The key is that she has twins.

Vegetable mother obviously can't be the master, "it's all Chengzhan's orders. You know, the Jiang family hasn't added population for a long time. Chengzhan is full of hope for you and tells me again and again that if I can't do it well, he will be angry with me."

Su wanwan sighs silently and thinks that it's better to tell Jiang Chengzhan about it.

After dinner, Su sat on the sofa at night, watching TV and eating grapes. The vegetable mother sat beside her and accompanied her. The two chatted casually about their daily life.

When it comes to the meager population of the Jiang family, the vegetable mother sighed: "Chengmin got such a disease at a young age. Now I don't know what happened?"

"I really grew up looking at their sister and brother, just like my own children."

"Cheng Min?" Sue looked at her in surprise.

Vegetable mother soon realized that Su had never seen her sister-in-law in the evening. It was inappropriate to mention it like this. She said unnaturally, "it's Cheng Zhan's sister."

"Sister?" Su came to think of it later. It seems that the book has explained that Jiang Chengzhan still has a sister. It seems that he committed suicide for love and didn't die. He suffered from depression and has been in a sanatorium all the time.

I haven't seen her for more than a year, so she forgot this person.

She even has an aunt?

Su stayed up until she couldn't open her eyes and didn't see Jiang Chengzhan come back. She couldn't stand it, so she went back to her bedroom and went to bed.

When she got up the next morning, she saw a man lying beside the bed in a daze. She

didn't respond and her brain soon woke up. After she realized something, she went to Jiang Chengzhan hard: "you bastard, who let you in?"

"Dare to come to my bed..." Su Wan said that he didn't respond and kicked in the past.

Jiang Chengzhan got up from the ground and was still dizzy. "Wife, what are you kicking me for?"

"You don't know what you've done?" Su wanwan stares at him with both hands pinching his waist. Jiang Chengzhan reacts for a few seconds and understands. He stands up without any displeasure and comes out of the room honestly.

He didn't come back until dawn, and naturally went into his bedroom.

Of course, before he went to bed, he realized that the bedroom belonged to Su wanwan, but he only hesitated for a few seconds and then lay by the bed.

When I smell her sweet smell, I can go to sleep very quickly.

Until he was kicked to the ground, he felt that he had a big advantage.

After breakfast, Jiang Chengzhan takes Su to the sanatorium late at night. His grandfather is arranged in the sanatorium by him. His condition is getting worse and worse, and now he has reached the point of not recognizing people.

Even Jiang Chengzhan called his grandfather, his eyes are particularly turbid, no surprise appearance.

Su wanwan looks at the old man and feels sad for a while. She thinks that when she first stood up for Jiang Chengzhan in the Jiang family, she asked the old man for justice. At that time, he must have been strong.

I sighed silently in my heart. Birth, aging, illness and death are natural things in nature, but after all, we are all mortals. We can't control our emotions. It's very sad to think of parting.

Jiang Chengzhan takes a towel and cleans the old man's body carefully. His sad appearance makes Su feel sad again.

Su wanwan stood beside him and said in a comforting tone, "don't be sad. My grandfather is old and his health is not good. It's very normal. It's important for you to take good care of your body."

Jiang Chengzhan didn't respond to her. Instead, he held the old man's thin fingers and
