The Secret Heir Return To Wealth And Love Chapter 1584

Chapter 1584

Pauline was having one hell of a day, her emotional turmoil was so bad she couldn't even eat properly.

And out of the blue, the usually cold and detached President Silverman showed a hint of sympathy. He actually wanted to help Pauline.

They were originally on their way to a mental hospital.

But the car suddenly veered off course, heading to a steak house instead.

Once they got there.

Pauline saw her husband, Curtis, arm in arm with a young and pretty woman, walking out of the restaurant.

She couldn't remember the last time Curtis had smiled at her like that.

His arm was wrapped tightly around the woman's waist, they would stop every few steps to make out on the street, totally oblivious of the people passing by.

Meanwhile, whenever she and Curtis went out, he would always brush off her attempts to hold hands.

His excuse was always the same: "We're in public, we need to behave."

But now, he was openly fondling a flashy woman, weren't they supposed to behave in public too?

Pauline snapped, she was about to rush out of the car.

“What are you trying to do? You want to start a fight with them in the middle of the street? Curtis is just looking for an excuse to lock you up.” “It’s not him!” Pauline cut Morgan off, “It’s Wayne, you guys forced him!”

Morgan was speechless.

President Silverman, who was usually cold, had finally shown some empathy.

But it seemed like his sympathy was misplaced....

“Curtis having a mistress, is that our fault too?” Morgan asked coldly.

“I know he has a mistress! So what? I don’t care!”

Pauline’s words really took Morgan aback.

“What do you know? My husband is seeing other women because I can’t bear him children, he wants other women to give birth to his child. Once we have a child, his mother and sister would stop bullying me. You think he’s seeing other women because he likes them? It’s because he loves me! He feels sorry for me!”

At this moment, Morgan was shocked and confused!

“Your logic is seriously something else!” After a long while, he finally said to Pauline.

At this moment, Curtis walked past the car, arm in arm with the woman.

Suddenly, Pauline mustered up the strength, pushed open the car door and bolted out.

Morgan let out a string of expletives.

Curtis and the woman were startled by the sudden appearance.

Pauline ran up to the woman and slapped her across the face.

“What the hell are you doing!” Curtis came to his senses, he retaliated with a slap to Pauline’s face

Pauline was frail, and Curtis's slap was too strong, it made her dizzy, she could barely stand upright

In her daze, she saw Curtis, full of concern, comforting the woman.

Pauline felt like her heart was shattering.

Chapter 1585

"Honey why are you doing this?"

"Why? If you didn't act so weird all the time, I would've divorced you ages ago!" Curtis defended his mistress, "I'm the only child in my family. You really think I'd spend the rest of my life with you and that little nuisance?"

"I get it! I get it!"

The moment the word divorce came out, Pauline's face changed completely.

"You can be with her. I won't cause any trouble, and I won't hit her again. I know you want a son. You can have one with her, have as many babies as you want!" Pauline's hands clenched tightly, tears filled her eyes, "As long as we don't divorce, you can do whatever you want. I'll take care of Alison and make her better..."

"You guys aren't getting a divorce?" The mistress covered her cheek, instantly getting angry.

"My darling... Curtis tried to soothe her.

"Curtis, I'm carrying a boy in my belly, you promised me that before the baby is five months old, you'll divorce and marry me, you can't have a wife at home and a mistress outside, living a polygamous life! If you don't promise to divorce her, I'll make sure you can't find me tomorrow!" The mistress interrupted him without hesitation, let go of Curtis's hand, and stormed off.

Pauline stood frozen, her mind blank.

His mistress was pregnant...with a boy....

Even though she said those words earlier, the moment she heard his mistress was pregnant, Pauline felt an unbearable pain.

"Weren't you going to send her to a mental hospital? I've already signed the papers, but why are you still running around with her?" Curtis noticed the emotionless Morgan in the car.

“Curtis!” Pauline snapped back to reality, grabbing his arm, “You’ve spent all my savings. I gave birth to your child, and my body is damaged, now you’re sick of me and want to send me to the mental hospital! Are you even human? You’re a monster!”

“Shut up!”

Curtis raised his hand and slapped Pauline again.

Luckily, there weren’t many people around, although some looked over, the car blocked most of the view.

Otherwise, he’d feel so embarrassed!

Pauline hadn’t eaten much all day. Curtis’s slaps swelled her cheeks

If it wasn’t for Morgan’s quick reaction, reaching out from the car to support her, Pauline would’ve fallen to the ground.

“Curtis, you have an affair with other woman, now you hit your wife in public, you’re really a man, huh!” Morgan sneered.

Curtis knew Morgan was Wayne’s underling.

Even though he was uncomfortable, he tried to appear cheerful, “Bro, this woman is crazy, when she was pregnant she urged me to get married, I’m the only child in my family, she lied to my parents saying she was carrying a boy. We didn’t find out we were fooled until after the baby was born! I’m actually a responsible man, I wanted to have a good life with her after marriage, but now she can’t have children anymore…

Curtis blabbed out a bunch of reasons he thought all men would understand.

Morgan looked at him as if he was looking at a pile of trash.

Curtis began to feel uneasy.

“The doctor did say it was a boy. I didn’t lie!” Pauline protested loudly. “It was your mother who warned me not to have a C-section before giving birth, that’s why I hurt my womb and can’t have children anymore! How come it’s all my fault now!!!”

“Enough, I don’t want to argue about this. If you think we’ve wronged you, just sign the divorce paper. Why do you still want to be with me?” Curtis said, checked his phone, and told Morgan, “Okay, take her where she needs to go, I have to leave now!”

As soon as Curtis finished speaking, he hurriedly made a phone call and left.

Seeing this, Pauline was anxious to follow

But as soon as she took a step, she felt dizzy and fell to the ground.

She looked up in despair at Curtis who was hurriedly leaving

She called out to him, but she didn't know if Curtis heard her.

Either way, he never looked back.

Pauline felt heartbroken and spit out a mouthful of blood.
