

SENSATIONAL! FAKE NOBLE VS REAL GENIUS

24: Chapter 24: Do You Have Any Thoughts of Entering the Entertainment Industry?

24: Chapter 24: Do You Have Any Thoughts of Entering the Entertainment Industry?

Over there, Su Luo caught up with Gu Zhiqi's pace a minute ago, "Little Fairy, wait for me, just wait a moment."

Gu Zhiqi heard the noise, stopped, and turned her head to take a look.

This glance revealed that Tang Yichen and his group lagged far behind.

She was feeling a bit disdainful of their speed.

However, since she promised to lead them out, Gu Zhiqi slowed down her pace.

Then, looking towards Su Luo with an inquiring gaze.

The moment the girl turned her head, their eyes met directly, which left Su Luo slightly stunned.

What beautiful eyes.

Deep and hazy, her eyes seemed to have a kind of magical power, exuding a slight but inadvertent mysterious charm, making people feel as if they could fall into them.

For a moment, Su Luo forgot to react.

"What do you want?" Seeing Su Luo silent for so long, Gu Zhiqi asked lazily.

"No...

nothing." The girl's voice brought Su Luo back to her senses, and Su Luo waved her hand reflexively.

Gu Zhiqi, "?"

Only after the girl turned her head did Su Luo fully come to his senses.

He remembered he had something to say!

"Hey!

Wait, I actually have something to tell you.” Su Luo followed closely next to Gu Zhiqi, speaking again, “Hello, I am Su Luo, an agent under the Su Corporation.

Do you have any thoughts on entering the entertainment industry?”

“No.”

“Don’t be so quick to refuse, with your looks, you’re made for the entertainment industry.”

Such a beautiful face, it would be a pity not to enter the entertainment industry.

“Not interested.”

“Come on, let me tell you, if you sign with me...” Su Luo hadn’t given up yet, continuing to follow Gu Zhiqi, painting a grand picture of the entertainment world, but Gu Zhiqi remained unmoved.

If she really entered the entertainment industry, how would she retire peacefully?

Su Luo pestered Gu Zhiqi for a long time, initially, Gu Zhiqi still replied perfunctorily, but later she directly ignored him.

Su Luo couldn’t persuade Gu Zhiqi, so he had to give up for now.

However, he didn’t give up completely.

He planned to first understand the little girl’s preferences, and then tailor his approach accordingly.

**

Despite Gu Zhiqi slowing down her pace, the crew still had a hard time keeping up with her.

Eventually, they were so exhausted they couldn’t move anymore.

Tang Yichen, feeling helpless, had to jog to catch up with Gu Zhiqi, “Xiao Qi, everyone is worn out, can we take a break?”

Hearing this, Gu Zhiqi lifted her eyelids and glanced back, her eyes filled with obvious disdain.

“Okay.”

After giving a quick glance at the crew, who looked dog-tired, Gu Zhiqi responded lightly.

Tang Yichen, hearing this, breathed a sigh of relief.

Thinking to himself, Although this girl looks unapproachable, she is quite reasonable.

Thinking this, he started to walk back to notify the director to organize a break for everyone.

Unaware of Tang Yichen's thoughts, Gu Zhiqi had already found a clean slate and sat down.

She placed the bamboo basket on her knees, lowered her eyes slightly, and seriously began sorting through the flowers and grasses in the basket.

When she reached the plant with pink flowers, Gu Zhiqi's hand paused slightly.

After staring at the pink flower for a few seconds, she took it out and examined it closely.

This flower was called Crushed Ice Rain Mist, a medicinal flower containing special substances.

The White Flower in the Gu Family's courtyard flower bed was what Crushed Ice Rain Mist looked like on regular days.

When the Crushed Ice Rain Mist encounters rain, it turns pink, and from a distance, it looks like red mist, hence the name.

What made Crushed Ice Rain Mist so valuable was that, when it turned pink in the rain, the special substances it contained reached their peak, making it most effective for medicinal use.

Gu Zhiqi ventured into the mountain today precisely to find Crushed Ice Rain Mist.

Crushed Ice Rain Mist was easier to find in the rain because, during rainy days, those familiar with its habits could catch its scent from miles away.
