

## **She Shocks 591**

### **Chapter 591: The Final Assessment (1)**

Seeing that Yu Huang was silent, Estelle realized that he was still holding Yu Huang's hand.

He hurriedly let go of Yu Huang's hand and thanked her sincerely. "I will work hard to pass the test. Thank you for telling me this." With that said, he turned around and shook the small wings on his back before leaving.

Yu Huang stared at the pair of small wings on the kid's back and thought of the scene she had just seen. The corners of her lips curled up slightly. If Donor knew that this kid would become a true Elven King, she wondered how he would feel.

... After another three hours, the aircraft finally entered the airspace of Rakshasa Empire.

The Rakshasa Empire had always been the most chaotic region in the Holy Spirit Continent. This was a paradise for A-rank wanted fugitives, a stage for mercenaries to showcase their skills, and also a country that gamblers loved to visit the most. Ten years ago, even Beast Tamers did not dare to step foot here easily.

However, under the leadership of the Night Hunt, Rakshasa Empire gradually became a country that combined gambling, sex, and employment systems. The Rakshasa Empire was still very chaotic, but there was order amidst the chaos.

Later, with the death of Su Xuanye, the owner of the Night Hunt organization, the Night Hunt organization was also disintegrated.

The current Rakshasa Empire had returned to its former state of chaos.

No one expected Mo Xiao to choose Rakshasa Empire as the location of the Holy Spirit Academy.

The Rakshasa Empire was only double the size of the Prosperous Capital. The houses in the main city area looked very low, and there were no skyscrapers like in the Prosperous Capital.

This was because the people here always bombed things whenever there was a disagreement. If the tall buildings collapsed, it would crush a large group of people. If the low buildings collapsed, at most, a small group of people would die.

In that case, the short buildings were more in line with Rakshasa Empire's conditions.

The aircraft landed at Rakshasa Empire's only airport.

The dean, Lin Feng, led the 500 students out of the aircraft. Then, he raised the sign with the words "Holy Spirit Academy" and walked to the front. Sheng Xiao and the other beast tamers followed behind Lin Feng obediently.

They passed through the tattered airport lobby of Rakshasa Empire and walked out of the airport.

The temperature in Rakshasa Empire was hot, and the heatwave that assaulted their faces made them very uncomfortable.

They all left their coats and stood by the roadside to wait for the bus. Lin Feng unbuttoned the top two buttons of his shirt and turned on the loudspeaker. He shouted, "Students, the bus will be here soon. Please get on the bus in time."

As soon as he finished speaking, a huge outdoor tour bus drove over from afar. The body of the tour bus was painted green, and one could vaguely see the words "Holy Spirit Academy Bus" on it.

The driver was a tall and beautiful woman who looked like a supermodel. The woman's light blue hair was tied into a low ponytail, and she was wearing a black cap and a black bra that revealed her slender waist.

After stopping the car, the woman stood up, revealing the sexy red low-waisted leather skirt under her waist. The leather skirt had just wrapped around her perky buttocks, and under the skirt, her legs were extremely sexy and seductive.

There was a big snake tattooed on her leg. The snake's tongue was facing up and under her skirt.

She looked like a feisty woman.

The woman crossed her arms and winked at them from the driver's seat. She shouted gently, "Little babies, get in the car!"

Both men and women blushed when they heard her call them 'little babies'.

Those who didn't know better would think that they were going to look for call girls.

Everyone got into the car and found their seats. The woman whistled, put down the hand brake, and stepped on the accelerator. The tour bus rushed out like a rocket.

Soon, the tour bus drove into the city.

The female driver pressed the horn on the control panel. As she drove, she introduced the Rakshasa Empire to the students.

"This long pink street is called Spring Night Street. There are the most beautiful, most attentive, and best gigolo shops and hostess shops in the world. Girls, babies, if you want to spend, tell them my name. You can get a 20% discount."

The students were speechless.

Could such a thing be openly said in such a place?

The car continued along the city and passed by a long street covered in golden wall paint. The female driver introduced again, "This street is called Endless Street. The sea of bitterness is boundless. Fulfill your bet in time! The casino at the end of the road is the most famous, but those who can't afford to lose must not go. Be careful of losing your head!"

**Chapter 592: The Final Assessment (2)**

When they passed by another street, she said, "This street is called Bounty Street. If you have anyone you can't kill personally, you can go there to find bounty hunters. As long as the amount of money is enough, you can kill whoever you want."

Everyone was speechless.

Lin Feng, who was sitting behind the female driver, couldn't stand it anymore. He reminded her softly, "Senior She Ying, pay attention to your words. These are all students."

The female driver raised her eyebrows and stopped babbling nonsense.

The car passed through the city and drove to the suburbs. Finally, it stopped at the bottom of a lonely mountain. "Babies, we've reached the destination. Help me say goodbye to your handsome and charming principal!" With that, She Ying pressed a button and all the students were shaken off by the tour bus.

Everyone landed on the ground. Before they could stabilize themselves, the tour bus drove away.

Yu Huang watched as the car left before raising her head to size up the mountain in front of her. The soil in front of her was pitch-black, and the mountain was barren. This was actually

"Black Dome!"

Yu Huang recognized the mountain in front of her at a glance.

A few years ago, she and Feng Si met at the foot of this mountain.

She didn't expect Mo Xiao to build the Holy Spirit Academy on the Black Dome.

The Black Dome was surrounded by poisonous gas all year round, so not a single blade of grass grew here. This place was very close to the chaotic Rakshasa City, and not far from the dangerous Abyssal Origin Forest. This was really the best place for students to suffer!

At this moment, Yu Huang heard messy footsteps. She turned around and saw a group of people wearing dark blue Beast Tamer badges walking over. They were all Beast Tamers with the cultivation level of Supreme Masters. Yu Huang saw Beatrice and Feng Tang.

The group of Supreme Masters looked at Yu Huang and the others from afar, and the battle intent in their eyes was undisguised.

The so-called ultimate test was the ultimate challenge between Yu Huang and the six Masters and the group of Supreme Masters opposite them. Those who passed the challenge would stay, and those who failed would scam.

Thus, the expressions of the people from both camps were very serious.

Right at this moment, a black stone tablet suddenly descended from the sky. With a bang, it sank into the foot of the Black Dome and stood between Yu Huang's group of six and Beatrice's group of Supreme Masters. Then, a black nine-tailed fox appeared on the stone.

When they saw Mo Xiao, everyone stood up straight and composed themselves.

The nine-tailed fox opened its mouth and spoke in human language. He said, "The black stone tablet in front of you is called the Spirit Testing Stone. It can accurately test your true strength. I have already injected a portion of my spiritual power into it. Later, it will release a Prime Master's pressure."

"Under the Prime Master's power, the six Beast Tamers who can last until the end are qualified to become students of the Holy Spirit Academy." At this point, Mo Xiao's charming eyes suddenly swept towards Yu Huang and the other four Masters. Mo Xiao asked, "Do you have any objections?"

Yu Huang and the others knew that the rules of the Doomsday Battlefield were unfair to Supreme Masters like Beatrice. Therefore, when Beatrice and the others requested to hold a new assessment, they couldn't have any objections.

Yu Huang shook her head. "No objections."

Yin Rong, Estelle, and the others shook their heads as well.

Seeing this, the black nine-tailed fox let out a cold roar, and the black stone tablet beneath him suddenly erupted with a terrifying energy. That pressure enveloped Yu Huang and the others, as well as Beatrice and the 103 Supreme Masters, and began to attack them with the same intensity.

In the pressure, thousands of sharp wind blades appeared and pierced into the bodies of the Beast Tamers.

The wind blade entered their bodies. There was no blood or broken skin on the Beast Tamers' bodies, but the pain was real.

Three seconds later, the first Supreme Master Beast Tamer knelt on the ground!

Soon, there was a second, a third, a fourthâ€¦

In less than a minute, more than 90 of the 109 Beast Tamers fell.

There were only 12 Beast Tamers left standing.

The six Masters, including Yu Huang, were still gritting their teeth.

At this moment, traces of blood flowed out of the corner of Beatrice's mouth uncontrollably. She stared at Yu Huang, Yin Rong, and the others opposite the stone tablet with an extremely stubborn expression.

The humiliation she had suffered in the Beast Clan when she was young flashed across Beatrice's mind. She gritted her teeth.

This was her only chance to turn things around.

She couldn't give up.

Yin Rong looked at the six Supreme Masters opposite her. The figures of her parents and sister appeared in her mind. Blood flowed from the corner of her mouth, but like Beatrice, she endured the pain and gritted her teeth.

They, who had vendettas, had no right to give up!

As for Yu Huang, Zhan Manxue's figure appeared in her mind.

She couldn't fall. She had to enter the Holy Spirit Academy and go to the Great World.

She wanted to kill Zhan Manxue with her own hands!

In everyone's hearts, there was hatred that supported them. The 12 Beast Tamers all showed unexpected endurance.

Seeing this, Mo Xiao slapped the Spirit Testing Stone with his claw and increased the pressure again.

"Ah!"

On the Master camp's side, the Light Elf, Ash, was the first to vomit blood and fall to the ground. Her fall was like touching a mechanism. Two Beast Tamers from the Supreme Master camp also fell.

Three of the 12 Beast Tamers fell, leaving only nine. And of the remaining nine, no one wanted to be the last three to be eliminated.

Yin Rong's beautiful face was already pale, and her forehead was covered in sweat. Blood could be seen oozing from her nostrils. Xiao Shu was in relatively better condition, but his expression was also filled with pain.

Yu Huang, on the other hand, endured it more easily than the two of them. After all, she had a late-stage Master cultivation and had awakened a super beast form.

Among the Master Beast Tamers, Yu Huang could be considered the strongest.

The most surprising thing was the Night Elf, Estelle, seemed to be in a similar situation as Yu Huang. It was just that the pair of small wings on his back no longer had the strength to spread out, and they drooped weakly behind him.

However, the situation of the Snake Clan girl standing beside Estelle was very bad. Blood flowed out of her seven orifices, and soon, her body reached its limit. She lost consciousness and fell to the ground. After she fell, Feng Tang, who was behind Beatrice, also fell to the ground.

At this moment, there were still four people in the Master camp and three people in the Supreme Master camp.

As long as one more fell, the final result would be confirmed.

In the Supreme Master camp, although Beatrice and the others had pained expressions, their eyes were clear. Clearly, they could still hold on for a while longer. Among Yu Huang and the others, Yu Huang and Estelle were the most relaxed.

Xiao Shu was also relatively better, but Yin Rong was clearly at the end of her rope.

Yin Rong's body tensed up, and blood flowed out of her ears, mouth, and nose. Her legs kept trembling, and she could collapse at any moment.

However, the hatred and obsession in her heart supported her and she refused to fall.

If she continued to forcefully hold on, it was very likely that her meridians would be destroyed!

Xiao Shu noticed that Yin Rong's breathing had become heavy. He turned his head slightly to look at Yin Rong and noticed that Yin Rong's ears were bleeding and her legs were trembling non-stop. Xiao Shu sighed helplessly, then closed his eyes and retracted the spiritual energy in his body.

The moment he retracted his spirit energy, countless spirit energy wind blades entered his body at the same time, instantly causing his consciousness to dissipate and he fell to the ground.

### **Chapter 593: Young Man, You're Really Bold (1)**

Yin Rong had already reached her limit.

The Prime Master's pressure continuously attacked her. At the same time that she was bleeding from her seven orifices, the Spiritual Abode world was also thrown into chaos by this force. Even her mind was buzzing.

Realizing that she really couldn't hold on any longer, Yin Rong closed her eyes and was about to give up.

Right at this moment, a muffled bang sounded from Yin Rong's right.

It was the sound of Xiao Shu's body falling to the ground.

To Beatrice and the others, this muffled sound was simply heavenly music.

Because Xiao Shu's fall represented their victory.

Yin Rong realized that the sound of someone falling to the ground came from her right. She blinked slowly and realized that Xiao Shu had fallen. Yin Rong knew Xiao Shu's true strength better than anyone. Although they were both late-stage Masters, Xiao Shu was much stronger than her.

How could Xiao Shu fall before her?

Yin Rong guessed a possibility, and her eyes widened uncontrollably.

He had given her this precious opportunity!

Yin Rong slowly turned her head and looked at the person on the ground.

Xiao Shu was lying on the ground on his back. His wild red hair covered his face. He had already fainted. The usually happy-go-lucky man looked weak and fragile as he laid on the ground.

Yin Rong knelt beside Xiao Shu and lowered her head to press her cheek against his chest.

Her eyes turned red as she listened to Xiao Shu's weak heartbeat.

"... Idiot."

Yu Huang lowered her eyes to look at the two of them and sighed.

At this moment, the fox on the Spirit Testing Stone turned into Mo Xiao. Mo Xiao said to Lin Feng, "Call the medical staff over and send the injured and unconscious children to the treatment center." After saying that, he glanced at Beatrice, Yu Huang, and the others before saying, "The other students, report to school immediately!"

Lin Feng brought a group of people over to treat the eliminated Beast Tamers. Yu Huang helped Yin Rong up from Xiao Shu.

Seeing Yin Rong's face covered in tears, Yu Huang hugged Yin Rong and told her, "He gave you this opportunity, so you can't let him down. Pull yourself together and report to school with me."

Yin Rong grabbed Yu Huang's arm helplessly and said guiltily, "He's stronger than me. He's the one who should stay. I was too stubborn. If I hadn't been so stubborn, he wouldn't have been eliminated."

Yu Huang didn't refute Yin Rong's words.

Because Yin Rong was telling the truth.

"Yin Rong, Xiao Shu chose to forfeit not because of your stubbornness, but because he loves you." After a pause, Yu Huang pointed out almost mercilessly, "You have to admit that his love for you is deeper than your love for him in this relationship."

Yin Rong's face turned slightly pale.

Yu Huang believed that Yin Rong understood what she meant. She patted Yin Rong's arm and nodded at Estelle. She led Estelle and the other students towards the Black Dome.

Yin Rong wiped her tears and looked at Xiao Shu deeply. Then, she suddenly took off the necklace around her neck and put it on Xiao Shu's neck.

The necklace contained Yin Rong's baby hair.

In the cultivation world, the act of giving away one's baby hair was equivalent to committing to someone for a lifetime.

In the past, Xiao Shu's actions of giving up his freedom and choosing to stay in the Yin Clan had moved Yin Rong's heart, but his actions today had completely stolen Yin Rong's heart.

Yin Rong realized that no one in this world loved her more than Xiao Shu.

In the past, Yin Rong only had vengeance in her heart. In the future, other than hatred, Xiao Shu would also have a place in her heart.

"Idiot, take good care of yourself. See you in the future."

Yin Rong kissed Xiao Shu's forehead before dragging her weak body towards the top of the Black Dome.

\* \*

The Black Dome was more than six thousand meters above sea level. The mountain was surrounded by black poisonous gas, and the road was rugged. Without permission, no one dared to fly on their swords, so they obediently climbed the mountain.

Beatrice quickened her pace and walked to Yu Huang's side. She handed an unopened bottle of lemon grapefruit water to Yu Huang. "Yu Huang, do you want some water?"

Yu Huang stopped and turned to stare at Beatrice's charming face for a moment before reaching out to take the lemonade.

Seeing that Yu Huang had accepted her water, Beatrice secretly heaved a sigh of relief.

Yu Huang took a sip of water and saw that Beatrice looked like she wanted to say something but hesitated. She could guess what this woman was thinking, so she said, "Your Highness, you don't have to feel guilty. The competition at the Doomsday Battle Ground was unfair to you all. It's reasonable for you all to ask for a fair ultimate assessment. Besides, it's due to your own ability that you passed the assessment. Xiao Shu's elimination is also his own fault."

## **Chapter 594: Young Man, You're Really Bold (2)**

She wouldn't blame Beatrice for such a small matter.

When she heard Yu Huang's words, a sincere and moving smile suddenly appeared on Beatrice's face. "Thank you."

Beatrice continued, "From today onwards, we're classmates. You don't have to call me Her Highness anymore."

Nodding her head, Yu Huang also said, "Then just call me Yu Huang."

"Okay."

Yu Huang saw that Sheng Xiao had stopped and turned around to look at her. She smiled and patted Beatrice's arm. "I'll leave with my husband." Then, she quickened her pace and chased after Sheng Xiao.

Beatrice was frustrated by the word "hubby".

When Estelle saw Yu Huang suddenly quicken her pace, he followed suit.

Seeing that Yu Huang was chasing after Sheng Xiao and Estelle was still charging over foolishly, Donor hurriedly grabbed the small black wings on Estelle's back. He glared at Estelle and said angrily, "She's going to be with her husband. Why are you chasing after her?"

Estelle widened his eyes in shock and exclaimed, "They're married?" He stared at Yu Huang's young face and couldn't believe that such a young girl like her was actually married. Estelle muttered dejectedly, "I even wanted to bring her back to the village to be my wife."

When Donor heard him mutter, in his daze, he tripped over a small stone on the ground and almost fell.

Estelle quickly grabbed the belt on Donor's pants and pulled him back. "Watch the road."

After Donor stabilized himself, he looked at Estelle with a strange expression. He asked with an ambivalent tone, "You want to bring Yu Huang back to the village to be your wife?" Young man, you're really bold.

Estelle nodded and said, "I promised the village chief that when I go back next time, I would install a landline for every family in the village and marry a girl more beautiful than Carson's wife from the neighboring village. Yu Huang is really beautiful. I've never seen a girl as beautiful as her."

Donor shook his head and sighed with emotion. "People from small places are so bold."

He even dared to covet Sheng Xiao's woman.

In front, Yu Huang and Sheng Xiao heard Estelle's bold words. They didn't know how to react.

Sheng Xiao suddenly stopped and looked back at Estelle.

Donor saw that Sheng Xiao had noticed Estelle. Estelle was walking with his head lowered and didn't notice Sheng Xiao's gaze. Donor rolled his eyes and poked Estelle's arm with his index finger.

Estelle looked up in confusion and met Sheng Xiao's gaze.

Sheng Xiao said to Estelle, "There's only one scenario of you bringing Yu Huang back to your village to be your wife. It's if I die."

Hearing Sheng Xiao's words, Estelle blushed with embarrassment. He quickly waved his hand and said, "The village chief said that you will be put into a pig cage if you seduce a married woman. Don't worry, I will not seduce your wife."

"Yes, your village chief is right."

Sheng Xiao stopped Estelle from dreaming. He turned around and said to Yu Huang, "Although this kid doesn't look very smart, he has good taste. He knows you're the best."

"So you admit that I'm the best-looking one?"

Sheng Xiao said righteously, "Your appearance is just surface level."

Yu Huang would scoff if anyone else said that, but she believed Sheng Xiao. After all, when he fell in love with her, she was an ugly girl who had been disfigured.

...

It was only when night fell that the students finally arrived at the Holy Spirit Academy.

The more majestic the Divine Realm Academy was, the more shabby the Holy Spirit Academy was in comparison.

A black wall about ten meters tall surrounded the peak of the Black Dome. It was the wall of the Holy Spirit Academy.

The entrance of the Holy Spirit Academy was even more shabby. The entrance was located south of the Black Dome. There was a six-meter-wide aisle between the two black iron walls. On the aisle, there was an arched iron door with the words "Holy Spirit Academy" welded on it.

In the night, the small lights above the words "Holy Spirit Academy" were shining.

Sheng Xiao and the others stared at the exaggerated words above their heads. They were speechless.

How was this like the number one Beast Tamer Academy on the Holy Spirit Continent? It might be more suitable to change the words 'Holy Spirit Academy' to 'pig farm'.

Everyone passed through the door and entered the Holy Spirit Academy.

When they saw the facilities inside the Holy Spirit Academy, everyone was speechless.

There was no field here. The field was just bumpy black soil. The soil was even emitting poisonous gas. On the wide mountaintop, there were only three buildings. The leftmost administrative building was only two stories high. In the middle was a level canteen, and on the right was a six-story dormitory.

Yu Huang stared at the three buildings and took a closer look. She realized that there was no school building inside the academy.

Everyone stood on the mountaintop field and looked up at the sky speechlessly while suspecting that they had come to the wrong place.

This couldn't be the number one academy on the continent. It should be a prison.

Suddenly, a sharp whistle was heard. Then, Lin Feng's gentle but clear voice came from the radio. "Students, please choose your own dormitory rooms. Men and women aren't allowed to stay together!" After a pause, Lin Feng continued, "There are no husband and wife dormitory rooms in the school."

He was obviously talking to Sheng Xiao and Yu Huang.

At that moment, all the students looked at Yu Huang and Sheng Xiao. They were gloating.

Without a couple's dormitory, how could the two show off PDA?!

### **Chapter 595: Warning, The Beast Tide Is Here! (1)**

Yu Huang and Sheng Xiao looked at each other. Then, they let go of each other's hands and entered the dormitory with the other students.

The 123rd floor of the dormitory was the male dormitory, and the 456th floor was the female dormitory. Each dormitory had three single beds. Yu Huang, Yin Rong, and Beatrice lived in the same room. The three of them entered the dormitory and realized that they needed to accumulate points to use the bathroom and shower.

"Damn!" Beatrice stared at the watertight tap and complained, "I thought this place was different from the Divine Realm Academy. I thought I could enjoy the freedom of showering and going to the bathroom. It turns out that I went out of the dragon's pool and into the tiger's den."

Unable to wash up, the three of them could only sleep in their clothes.

Yu Huang was in a daze when she suddenly heard an ear-piercing alarm.

"Warning!"

"Warning!"

"The beast tide is here!"

"Warning! Warning! The beast tide is attacking!"

Yu Huang sat up from the bed. At the same time, Yin Rong and Beatrice woke up.

Beast tide?

The so-called beast tide referred to thousands of demon beasts attacking humans together.

And such a scene had not happened for hundreds of years.

The three of them looked at each other and hurriedly walked barefoot to the window. They looked at the plain at the foot of the Black Dome Mountain and saw a large black mass of demon beasts running out of the primitive forest. Their huge bodies ran quickly in a neat formation, shaking the ground.

Staring at the endless group of demon beasts, Yu Huang and the others were shocked.

Yin Rong's beautiful face turned slightly pale. She clenched the window frame beneath her tightly with both hands and said in extreme shock, "Why would demon beasts run out of the primeval forest for no reason?"

Yu Huang stared at the distant primitive forest and said thoughtfully, "Just like how the masses need the country's commanders, high-level demon beasts also command low-level demon beasts. Without the orders of high-level demon beasts, how could these demon beasts dare to take the initiative to attack humans?"

Therefore, this was high-level demon beasts provoking Beast Tamers.

Yin Rong found it unbelievable. "Are the demon beasts so arrogant now? Are they declaring war on humans?" After the demon beasts were forced into the primeval forest ten thousand years ago, they no longer dared to rashly attack humans.

In the Holy Spirit Academy, there was a Prime Emperor, three Prime Masters, and a Purifying Spirit God. How could the demon beasts dare to offend them?

The experienced Beatrice suddenly said, "Why do you think the Grand State Master specifically built the Holy Spirit Academy between the primitive forest and Rakshasa City?"

Yin Rong's gaze shifted slightly. She had a vague guess, but she didn't dare to confirm it.

Yu Huang crossed her arms and smiled. "Of course it's because it's more convenient for us to suffer here."

Upon hearing Yu Huang's answer, Beatrice knew that Yu Huang was thinking the same thing as her.

When Yin Rong heard Yu Huang and Beatrice's riddles, she pondered for a moment and boldly guessed, "You're saying that this beast tide was the Grand State Master's idea?"

Beatrice only smiled and did not explain. Yu Huang nodded.

Yu Huang said, "There's no cultivation method that can increase one's cultivation and strength faster than battle. The most suitable place to fight in the Holy Spirit Continent is the primitive forest, and the time when the spiritual energy is the densest is the few hours before dawn."

"Do you know why the Holy Spirit Academy doesn't have a school building?" Yu Huang pointed at the demon beasts that were getting closer and closer to the Black Dome. She said, "Because that primitive forest is our school building!"

Yin Rong's heart skipped a beat.

The demon beasts ran wildly, and the ground trembled violently. The trembling sensation spread from the soles of their feet to every student's body. They were both afraid and excited.

At this moment, the alarm in the school stopped. Following that, Mo Xiao's cold voice spread through the loudspeaker."

"All students, prepare for battle immediately and prepare to face the beast tide!" After saying that, he paused for a moment and continued, "Attention, no spiritual weapons are allowed in battle. Cultivation techniques are strictly prohibited. You can only use your spiritual beast form to attack! Violators will be expelled!"

All the students were stunned.

"What?! We can't use weapons and cultivation techniques?"

"If we can only attack with spiritual power, wouldn't we be tortured by demon beasts?"

After Yu Huang heard the Grand State Master's request, she instantly understood his intentions.

The deeper the spiritual power of a Beast Tamer, the higher their cultivation level. Naturally, the damage the cultivation technique could unleash would be greater.

The Grand State Master forbade them from using spiritual weapons and cultivation techniques in order to help them increase their cultivation faster in actual combat. At the same time, it could reduce the damage to demon beasts.

### **Chapter 596: Warning, The Beast Tide Is Here! (2)**

Beatrice sighed and said, "Super demon beasts are all ferocious and unapproachable fellows. I wonder what deal the Grand State Master made with them to convince them to agree to this cooperation." Demon beasts had always hated humans. It was indeed difficult for Mo Xiao to convince those super demon beasts to fight and train with the students.

Others couldn't guess the reason, but Yu Huang could.

Only she knew that the Grand State Master wasn't a real human, but a member of the Divine Beast Nine-Tailed Fox Clan. Instead of calling him a human, it would be better to say that he was a Divine Beast Clan member.

Super demon beasts hated humans like them, but their attitude towards Mo Xiao was different.

However, Yu Huang couldn't guess what deal they had made.

Click!"

The dormitory door opened and 500 students ran out of the dormitory unarmed. Then, they flew to the black iron wall and prepared to face the enemy.

The beast tide had already approached the foot of the Black Dome. They had completely surrounded the Black Dome, not giving them any way to escape. Yu Huang stood high up. With her extraordinary

eyesight, she could clearly see that at the back of the beast tide, there were a few super demon beasts with imposing auras following behind.

One of the demon beasts had the body of a pig and three human brains on its huge body.

Who else could it be but that Pixiu Demon?

From the looks of it, those super demon beasts were the commanders of this group of low-level demon beasts.

This wasn't a simple beast tide riot, but an organized and purposeful attack by the demon beasts.

"Sheng Xiao!" Yu Huang suddenly landed beside Sheng Xiao. She pointed at the high-level demon beasts in the distance and said loudly, "The demon beasts' attack is organized and premeditated. We have to choose a Beast Tamer who is good at commanding and fighting!"

Without a leader, they were like scattered sand.

Only by accumulating sand could one unleash their true strength.

Hearing that, a few Beast Tamers said, "Then, please be our leader, Grand Master Sheng!" Sheng Xiao had the highest cultivation level and the strongest combat power among the 500 students. It was everyone's wish for him to be the leader.

However, Sheng Xiao didn't agree immediately.

He knew very well that the strongest person might not be the best leader.

Sheng Xiao suddenly turned to the right of the city wall. His gaze landed on Mo Yuelou and Beatrice.

When they saw Sheng Xiao looking at them, Mo Yuelou and Beatrice guessed what he was thinking. Beatrice said, "My brother is better at leading battles than me."

Sheng Xiao said to Mo Yuelou, "Your Highness, you've been fighting bravely on the battlefield and rarely lost. In terms of leadership and command, you're the best. Please be our combat strategist."

Mo Yuelou looked at Sheng Xiao with respect and admiration.

Sheng Xiao was born into a noble family and was admired by everyone. For him to give up his position as the leader to someone like him, who was only a Supreme Master, it could be seen that Sheng Xiao was indeed a magnanimous and strategic person.

His excellence wasn't only reflected in his cultivation and strength, but also in his conduct.

Mo Yuelou thought for a few seconds and accepted the mission. "It's my honor to be trusted by Young Master Sheng and everyone. I'll try my best not to disappoint you all." With that, Mo Yuelou looked at the beast tide calmly.

Noticing that there were flying and land demon beasts in the beast tide, he said decisively, "All students who are good at flying in the sky, please stand at the outermost edge of the city wall. Students who are good at land combat, please stand in the second row. Students who are good at controlling natural

power, please stand in the third row. Finally, all Beast Tamers who are good at supporting, please leave the city wall and retreat to the field. Act according to the situation.”

After a pause, Mo Yuelou raised his voice again and said sincerely, “Auxiliary Beast Tamers are our most reliable backer. Please protect everyone!”

Upon hearing this, some of the support-type Beast Tamers who were originally dissatisfied with Mo Yuelou’s battle arrangements revealed ambitious expressions. It turned out that they weren’t the weakest Beast Tamers. They were the support of all the students. They were their guardians!

Sheng Xiao stood in the crowd and noticed that Mo Yuelou had changed the minds of the assistant Beast Tamers with just one sentence. He knew that his decision to refuse to be the commander was right.

Perhaps his combat strength and power far exceeded that of Mo Yuelou, but in terms of leadership and control, he was really inferior to Mo Yuelou.

As expected of the War God of the Divine Moon Empire.

\* \*

In the administrative building, Mo Xiao and Lin Jiansheng stood in the same office.

The lights in the office weren’t switched on. They stood in the dark room and quietly watched the students’ reactions when facing the beast tide.

The old dean and the others were relieved when they saw Sheng Xiao reject the leadership position and give it to Mo Yuelou. They were even more relieved when they saw that Mo Yuelou easily won them over and all the students were willing to listen to his orders.

They had originally thought that when they faced the beast tide for the first time, these proud geniuses would rush into the battlefield like a pile of loose sand and fight separately.

But they showed a side that surprised them.

“Grand State Master.” The old dean’s eyes were a little teary. He looked at the young people on the city wall with tears in his eyes and said sincerely, “These children are even more outstanding than we think. Perhaps they are all proud, but in terms of right and wrong, they are all good children who can put away their pride and put their collective interests first.”

Lin Jiansheng agreed with the old dean’s opinion very much. He sighed and said, “It’s difficult for one person to carry the burden. Everyone has to work together. I believe that even if this group of children go to the outside world, they can unite and fight against the outside world together.”

Mo Xiao placed his hand on the window frame and a gratified smile slowly appeared on his lips.

This was a group of children that made them proud.

## **Chapter 597: Destroy That Ghost (1)**

At the back of the beast tide, a blue peacock suddenly flew up and stood in the void.

The peacock demon beast circled in the sky and let out a sharp cry. The beast tide stopped moving forward.

Thousands of demon beasts stood rooted to the ground.

The blue peacock landed on the back of the Pixiu demon. The Pixiu demon raised its four thick hooves and stomped hard on the ground. In an instant, the plains near the Black Dome shook. The Pixiu demon spoke in human language and shouted, "Flying beasts, attack!"

Under the command of the Pixiu demon, the flying demon beasts suddenly spread their wings and let out loud bird cries as they flew towards the peak of the Black Dome.

At the same time, the blue peacock standing on the back of the Pixiu Demon also flew into the sky.

The blue peacock stood on the back of the flying beast. It let out a long cry, and the flying demon beasts flapped their gorgeous wings at the same time.

Wings were the most important part of a flying demon beast's body. Most of them had to flap their wings to launch demonic power attacks. It could be said that if a flying demon beast's wings were cut off, it would lose its combat strength.

Therefore, when the flying demon beasts flapped their powerful wings in unison, hundreds of tornadoes suddenly appeared in the calm sky. Those tornadoes were formed by demonic power that were domineering and filled with danger.

Tornadoes quickly gathered and formed an unstoppable super hurricane.

The hurricane circled towards the location of the Holy Spirit Academy.

Seeing this, Mo Yuelou raised his head and shouted to the Beast Tamers standing in the innermost area, "Team three, ten people per team, quickly form an umbrella formation to resist the hurricane!"

The so-called team three was the Beast Tamers standing in the third row of the city wall. This batch of Beast Tamers had all awakened beast forms that were good at controlling natural elements, such as sea beast forms and fire beast forms.

Upon hearing Mo Yuelou's command, the Beast Tamers of the third team formed an umbrella-shaped array with ten people in a group.

Nine water-attribute Beast Tamers surrounded a Beast Tamer who was good at lightning-attribute in the middle. They placed their hands on the person in the middle and tacitly and quickly transferred the spirit energy in their bodies into the body of the Beast Tamer in the array.

After receiving their spiritual power input, the lightning-type Beast Tamer's spiritual power instantly became powerful and domineering. It went from the intermediate-stage of the Supreme Master Realm to the peak of the late-stage of the Supreme Master Realm!

Bang!

He suddenly raised his right fist with his fist and thumb facing the sky. A destructive and dazzling silver-white lightning force quickly rushed out of his fist towards the spiraling hurricane. At the same time, a majestic and terrifying lightning force surged out from several other directions.

About 10 bolts of lightning rushed into the hurricane at the same time. As soon as they entered the hurricane, they completely released their lightning pressure in the wind.

The lightning power destroyed the hurricane. The two forces collided and emitted muffled thunder.

Soon, those hurricanes gradually weakened. The energy in the hurricanes was converted into rain by the lightning power and turned into heavy rain that fell on the Black Dome.

Under the command of Mo Yuelou and the selfless cooperation of the third team of Beast Tamers, the Holy Spirit Academy dissolved the first wave of attacks of the flying demon beasts with an overwhelming advantage.

Seeing that the first wave of hurricane attacks had been deflected, the blue peacock in the sky suddenly let out an angry roar. "Swish!" It quickly flew to the top of the flying demon beast and roared in a low voice, "Thousand Beast Sacrifice!"

Upon hearing the call, the flying demon beasts floating in the sky suddenly stopped flapping their wings. They raised their heads, opened their mouths, and screamed as they sacrificed the demonic power in their bodies to the blue peacock.

In front of the blue peacock's claws, a fist-sized colorful energy ball appeared out of thin air.

That ball was very small, but it completely absorbed the energy sacrificed by those flying demon beasts. It was like a sea that could accommodate hundreds of rivers.

After the flying demon beast was sacrificed, the colorful ball was still only the size of a fist, but the light emitted from its body was incomparably dazzling. Yu Huang even sensed a destructive power that wasn't inferior to that of a late-stage Grand Master's from the demonic energy ball!

The pillow crown and tail feathers on the peacock's head suddenly extended completely.

The peacock was spreading its tail!

At this moment, the more beautiful this peacock was, the stronger the killing intent in its eyes.

## **Chapter 598: Destroy That Ghost (2)**

"Thousand Beasts Sacrifice, Human Soul Cry!"

The peacock was surrounded by a thick layer of demonic power. The demonic power supported the demonic power ball and mercilessly smashed it towards the Holy Spirit Academy.

Looking up at the demonic energy ball that was whistling towards him, Mo Yuelou could sense that the destructive power released by the demonic energy ball wasn't inferior to that of a Prime Master. His pupils dilated slightly. He immediately turned around and shouted at the top of his lungs, "All students, use Sheng Xiao as the center of the formation and form a divine formation!"

The so-called divine formation was to gather the energy of all the warriors and create the strongest god. As the strongest person among the students, Sheng Xiao was the most suitable person to be the center of the formation.

Yu Huang was the first to put her hand on Sheng Xiao. Then, the other students imitated Yu Huang and placed their hands on the shoulder of the person in front of them. They transferred their spiritual power to Sheng Xiao.

Nearly 500 students transferred their energy to Sheng Xiao at the same time. The spiritual power in Sheng Xiao's body became thicker and more powerful.

When the ball of demonic energy landed above the Holy Spirit Academy, Sheng Xiao, who was standing in the middle of the array core, disappeared.

Instead, a huge dragon appeared.

"Roar!"

Black Qing Sky Dragon swayed upwards and used the hard dragon horn on his head to ruthlessly collide with the demonic energy ball!

When the dragon horn and the ball of demonic energy collided, a powerful energy fluctuation was produced. The entire world seemed to have stopped in an instant. In the next second, a thunderclap suddenly sounded in the sky. It was so loud that it was deafening.

Then, a dazzling colorful light quickly shot out from the center of the explosion.

Instantly, the entire area around the Black Dome was as bright as day.

However, the light beam only existed for two to three seconds before the world instantly returned to darkness. Black Qing Sky Dragon let out a muffled roar, and the peacock demon beast standing opposite him was also in a sorry state.

The blue peacock's beautiful feathers were burned and covered in some blood. Even its tail feathers were burned.

Sheng Xiao was in a bad state too. The shocking explosion had injured the soft flesh on his abdomen. At that moment, the dragon scales on his abdomen were upside down. Blood fell from his wound and dripped on Yu Huang and the other students.

The blue peacock turned to look at its burnt tail feathers. It chuckled and said viciously, "You guys are quite capable to be able to successfully resolve the power of the Thousand Beast Sacrifice."

However, Sheng Xiao didn't feel happy about winning.

They seemed to have won, but they had actually lost.

The students used all their strength, but only diminished the combat power of the beast tide's flying demon beasts. One had to know that under this black dome, there were countless land battle demon beasts!

If the beast tide really attacked, the Holy Spirit Academy would fall!

Hence, Sheng Xiao couldn't smile.

He realized once again how weak they were.

Below, Yu Huang and the others heard the powerful roars of the demon beasts below the Black Dome and realized this. For a moment, everyone's expressions were somewhat solemn.

At this moment, the large searchlight on the top floor of the dormitory building of the Holy Spirit Academy lit up. The searchlight shone in the direction of the primitive forest.

Soon, a furious roar filled with pressure sounded from the Abyssal Origin Forest.

Hearing the roar, the blue peacock turned to look at the primitive forest. Then, it glared at Sheng Xiao and said, "Let's fight again next month!" Then, it led its followers to the primitive forest.

Similarly, the beast tide that surrounded the bottom of the Black Dome also ran towards the primitive forest in an orderly manner.

This beast tide crisis was temporarily resolved.

Black Qing Sky Dragon turned into Sheng Xiao and returned to the field.

Mo Yuelou and Yu Huang hurried over to support Sheng Xiao's swaying body. Sheng Xiao leaned on Yu Huang's shoulder and said to all the students, "I'm fine. I'll be fine after a night of rest."

At that moment, Sheng Zhou squeezed out of the crowd and fed Sheng Xiao a Blood Replenishing Pill. "Young Master, I'll help you get back to rest." As the eldest disciple of the Sheng family and Sheng Lingfeng's personal disciple, Sheng Zhou was outstanding. He entered the Holy Spirit Academy with a good score of 32nd place.

Sheng Zhou and Yu Huang helped Sheng Xiao to a clean rock and he sat down to rest. Mo Yuelou noticed that someone was walking down from the administrative building. He lowered his voice and said, "The Grand State Master is out."

Everyone looked up at the administrative building and saw Mo Xiao leading Di Ruofeng and the others out. The principal, Mo Xiao, walked at the front while the vice-principal, Di Ruofeng, and Pupu An followed behind him. They didn't see Lin Jiansheng.

"Principal! Vice principals!"

The students stood up. Even Sheng Xiao stood up slowly with Yu Huang's help.

Mo Xiao's blue eyes swept across the faces of these young students. Seeing everyone's exhausted state, he said, "I think you've all guessed it. I did arrange this beast tide crisis for you."

After Mo Xiao confirmed their guesses, everyone only smiled bitterly and didn't dare to say anything.

Mo Xiao continued, "From today onwards, a beast tide battle will be held every half a month. The day you defeat the beast tide will be the day you graduate. It will also be the day you go to the Central Pagoda to undergo the test and go to the Great World to further your studies!"

The students were shocked when they heard this.

To the Upper World?

Sheng Zhou suddenly raised his hand.

Mo Xiao glanced at him. "Speak."

Sheng Zhou lowered his eyes and asked, "Principal, ever since the chaos in the Central Pagoda 22 years ago, the passageway to the Time Gate has been sealed. Now, can we still go to the outside world?" There was no clear explanation for the chaos in the Central Pagoda.

The young people in the past yearned for the Central Pagoda, but now, they were afraid of it. Under such circumstances, could they still go to the Upper World through the Time Gate of the Central Pagoda?

Sheng Zhou's question was also what many people were wondering.

Mo Xiao didn't explain further and only said nonchalantly, "Why can't we go? If there's someone haunting the tower, then... we'll just kill that ghost."

Hearing this, the students felt invigorated.

### **Chapter 599: The Most Ridiculous Recruitment (1)**

There was still more than an hour before dawn. After the beast tide battle ended, everyone returned to the dormitory to rest.

Sheng Xiao's dormitory also had three people. He shared a room with Sheng Zhou and the other bed was still empty.

Yu Huang and Sheng Zhou sent Sheng Xiao back to his room. She saw that it was almost dawn and was worried about Sheng Xiao's injury. She said, "I'll lie on the empty bed for a while. Is that okay?"

Sheng Xiao glanced at Sheng Zhou.

Sheng Zhou immediately closed his eyes and held back his laughter. "I'll sleep soon." Then, he turned around and pretended to be asleep.

Sheng Xiao grabbed Yu Huang's hand and pressed her onto his bed. "You sleep on my bed. I'll sleep on the other bed."

"Okay."

Sheng Xiao was exhausted after taking the blood tonic. He almost fell asleep.

Yu Huang laid on the bed that Sheng Xiao had slept on. She smelled the fragrance of Sheng Xiao's shampoo. She turned over and laid on the bed. She hid her face in his pillow and fell asleep quickly.

At dawn, the bell rang.

Yu Huang woke up immediately. Seeing that Sheng Xiao was not awake, she did not greet him and opened the dormitory door stealthily.

Seeing that there was no one in the corridor, Yu Huang was relieved.

She quickly walked out and planned to go upstairs to her dormitory. However, when she turned around, she met the dean, Lin Feng, at the corner of the corridor.

Without waiting for Yu Huang to explain, Lin Feng gave Yu Huang a polite and cold smile. "Yu Huang." Lin Feng drew a line on the roster and said sternly, "You've violated the school rules by staying in the male dormitory. Go to the canteen to do volunteer work today."

Yu Huang was speechless.

Lin Feng was Mo Xiao's attendant and had a close relationship with Yu Huang. Yu Huang gave Lin Feng a fawning smile. "Brother Lin Feng, since this is my first offense, please let me off this time."

Lin Feng smiled formally and tilted his head. "You don't want to be a volunteer? Then write a self-reflection letter and reflect on your mistake in public."

Yu Huang turned around and walked towards the canteen.

If she wrote a self-reflection letter, wouldn't that be publicly revealing that she had stayed overnight in Sheng Xiao's dormitory last night?

She was embarrassed.

Thus, when the other students finished washing up and took their point cards to the canteen for breakfast, they saw Yu Huang, who was wearing a chef's hat and a white chef's robe. Her right arm, which was broken, could not be used for the time being, so she used her left hand to hold a spoon to get food for everyone.

She looked like an emotionless robot.

The Holy Spirit Academy was the same as the Divine Realm Academy. They used the points system. When eating, showering, and going to the bathroom, they had to use points to exchange.

On the first day of school, everyone had yet to earn any points, so they took a loan from the academy. They would earn the points during the day and return them at night.

Beatrice swiped her point card and walked into the window with the plate of food. When she saw Yu Huang, who was the chef, she was first stunned before asking in surprise, "What mistake did you make?"

Yu Huang rolled her eyes. "Nothing. I want to be a volunteer."

Beatrice almost believed her.

At that moment, Donor walked over. He smiled and said to Beatrice, "Yu Huang stayed in the male dormitory last night to hang out with Sheng Xiao. The dean caught her!"

Donor's voice was very loud. Under his deliberate hollering, everyone eating in the canteen knew the reason Yu Huang was punished.

For a moment, everyone looked at Yu Huang with mixed feelings.

Sheng Xiao was injured last night, but he still messed around with Yu Huang. It seemed that his physique was really good.

After knowing the truth, Beatrice felt a little awkward. She rubbed her nose and left with her plate. After she left, Donor also brought his plate to the food window. "Please give me a plate of egg fried rice with sausages and two pumpkin pancakes."

Yu Huang scooped up a spoonful of sausage egg fried rice and waved her left hand. There was only half a spoonful left in the pile of fried rice. Yu Huang placed the half spoonful of fried rice on Donor's plate. Then, she picked up two fried pumpkin pancakes and placed them on Donor's plate.

Donor stared at the food on the plate. The corners of his mouth twitched, and he couldn't help but ridicule Yu Huang. "Are you deliberately messing with me?"

Yu Huang couldn't be bothered with him. "Next!"

This time, it was Estelle, who had two plates. "Get me a double serving."

Yu Huang generously gave Estelle two piles of fried rice.

Donor was dumbfounded.

Before long, Sheng Xiao arrived.

When they saw Sheng Xiao, everyone looked at him with admiration, especially the men.

## **Chapter 600: The Most Ridiculous Recruitment (2)**

Sheng Xiao was confused by their gazes.

Sheng Xiao saw that Yu Huang was working in the canteen. He, who didn't know about it, found it strange. "Are you helping out here?" Yu Huang sneered. She was too lazy to explain. She placed a can of stew and a cup of steamed egg on Sheng Xiao's plate.

Sheng Xiao didn't see any stew or steamed eggs on the food display table. He guessed that Yu Huang had made it for him. He felt touched.

He carried the stew and steamed egg to the window.

As soon as he sat down, the male student at the opposite table gave him a thumbs up and winked at him. "Young Master Sheng, you have good stamina." His physical fitness was enviable.

Sheng Xiao was stunned by his praise.

He thought that they were praising him for being injured last night but being able to walk today. So, Sheng Xiao hesitated for two seconds before nodding humbly.

Seeing that Sheng Xiao had admitted it, the male students' smiles became perverted. The female students even blushed.

After breakfast, the students gathered at the field under the urging of the broadcast speaker.

The old dean stood at the front of the team. He narrowed his eyes and said gloatingly, "It's dawn. It's another exciting day. Today, the academy has arranged a mission for everyone. The team that successfully completes the mission will be rewarded with 1,000 points. The team that fails to complete the mission will be punished accordingly."

As for what the punishment was, the old dean refused to explain.

With a shake of his right hand, a mission book appeared in his hand.

The old dean opened the mission book and read with a smile, "Five days later, the daughter of the Weng family, Weng Qian, and the son of the Cheng family, Cheng Mo, will get married. However, the daughter of the Weng family is too beautiful. Her beauty attracted the attention of the wolf demons. Poor Miss Weng was kidnapped by the wolf demons on the way home from watching a movie with her fiancé last night. Now, the groom, Cheng Mo, has issued a reward of 1,000 points in hopes that someone can help save the daughter of the Weng family before the wedding!"

After saying that, the old dean blew on the mission book and narrowed his eyes at the students on the field. He said, "Now, please divide yourselves into groups of ten and move according to your group. Go to the primitive forest to save Miss Weng!"

After a pause, the old dean deliberately said, "Everyone, remember to act according to the situation. Even if your team doesn't successfully save Miss Weng, you can still snatch her from another team! In short, the team that successfully brings Miss Weng to the Cheng family will be the final winner."

All the students were speechless.

Wasn't this encouraging them to use dirty tricks?

After the old dean issued the mission, he left the field like a gust of wind, leaving a group of students looking at each other.

The mission to save the young lady of the Weng family was five days. The demon beast that kidnapped the young lady of the Weng family was a lecherous Pixiu demon. It wasn't easy for everyone to enter the primitive forest and successfully save her from the Pixiu demon within five days.

Moreover, the Pixiu Demon was lecherous, and most of the female students of the Holy Spirit Academy were beautiful and young. They were afraid that they would fail to rescue the Weng family's young lady and even endanger themselves.

Some female students subconsciously wanted to team up with male students.

Sheng Xiao asked Yu Huang, "Do you want to team up with me?" Sheng Xiao was the strongest among the students. She had the highest chance of winning if she teamed up with him.

However, Yu Huang liked challenges.

"No." Yu Huang shook her head. Battle intent burned in her eyes. "Brother Xiao, let's compete and see who can successfully complete the mission. The loser has to make breakfast for the winner for a month."

Sheng Xiao liked Yu Huang's unpredictable ways. "Okay."

Sheng Xiao turned around and teamed up with Sheng Zhou.

Yu Huang walked straight to the handsome Donor. "Donor, can we form a team?"

Although Donor despised Yu Huang's low cultivation level, he still agreed on account of Yu Huang's beauty. Yu Huang then pulled Beatrice, Yin Rong, Estelle, Sheng Wuyang, and the others into her team.

After forming a team, the students set off towards the primitive forest.

...

At the same time, a new recruitment advertisement appeared on the Beast Tamer Alliance's website—

Recruitment: Holy Spirit Academy.

Recruitment position: two cleaners;

Job requirements: 1. Master cultivation level and above; 2. Good appearance and integrity; 3. Age 20 to 50; 4. Must be able to endure hardships.

Salary: 10,000 spirit stones must be paid to the academy every month.

Seeing this recruitment advertisement, the Beast Tamers cursed—

First post: "It's ridiculous. This is the first time I've seen a recruitment company not paying their employees, but instead asking them for a salary! Damn it, I'm going to register!" If they could work at the Holy Spirit Academy, not to mention paying them a salary instead, but even if they had to work like cows and horses, it would be a great thing!

Second post: "Can those who are 55 years old still sign up? Although I'm old, I look young."

Third post: "I give the academy 100,000 spirit stones every month. Can I get a pass?"

After Feng Yuncheng was eliminated by the Holy Spirit Academy, he was already a little depressed. A few days ago, he heard from his elder brother, Feng Tang, that Her Highness Beatrice had successfully entered the Holy Spirit Academy. When he thought about how he would have fewer and fewer chances to see Her Highness in the future, and the gap between him and Her Highness was getting bigger and bigger, he felt depressed.

Realizing that he would never be able to catch up to Her Highness, Feng Yuncheng felt dejected and locked himself at home every day to drink away his worries.

That morning, his second brother, Feng Zhen, suddenly knocked on his door with a notebook in his hand. "Look, the Holy Spirit Academy is hiring cleaners!"

Feng Yuncheng thought to himself: What does hiring a cleaner have to do with me?! I'm so handsome. How can I lower myself to run to the Holy Spirit Academy to clean with a broom?

Feng Zhen kicked open his fourth brother's door and rushed in with his notebook.

He pulled Feng Yuncheng, who was lying on the sofa like a good-for-nothing, up and pressed his head in front of the laptop. He said resentfully, "Do you still want to become stronger? Do you still want to pursue her? Don't look down on the cleaners. Many people are fighting to get this position!"

“Even if the Holy Spirit Academy will recruit a second batch of students in the future, can you guarantee that you will be able to enter? Every generation has a genius, and each wave is stronger than the last! Perhaps a few years later, even more powerful Beast Tamers will appear. At that time, there will still be no share for you!”

“Besides, even if you could get in at that time, Her Highness, whom you miss so much, would have already stood at the peak! She would have been with those outstanding people in the Holy Spirit Academy for a long time already. Would she still fancy a weakling like you?”

Although Feng Zhen’s words were cruel and heartless, they woke the muddle-headed Feng Yuncheng up.

Feng Yuncheng realized that he could not continue to be depressed. He suddenly stood up from the sofa. “You’re right. When I enter the Holy Spirit Academy, it will be too late. Her Highness will already be with someone else!” Wasn’t it just sweeping the floor? He would go!

Even with a broom, he was still the most handsome man in the Holy Spirit Academy.

Feng Yuncheng said that he would go, so that day, he sent a recruitment notice to the Holy Spirit Academy. Then, he took a plane and set off for Rakshasa Empire.

At the same time, Xiao Shu, who had just taken a plane back to the Divine Moon Empire, immediately bought a return ticket and rushed back to the Rakshasa Empire.

As long as he could enter the Holy Spirit Academy and grow up with Yin Rong,

So what if he was a cleaner? He didn’t even mind being a dung picker.
