

## She Shocks 611

### Chapter 611: Sheng Xiao, the Wife Beater (1)

Fang Peipei raised the two-headed snake on her right arm to release the poison. At that moment, Estelle suddenly rushed over from the side and punched Fang Peipei.

Estelle looked thin, but his arms were filled with strength. When he swung his fist, the wind from his fist instantly transformed into a Night Elf waving a scythe. The Night Elf swung his scythe at Fang Peipei and actually sent her flying!

Fang Peipei quickly got up. The two-headed snake on her arm turned into a black sickle and started fighting Estelle.

Fang Peipei's team had ten people, while Yu Huang's team only had six. No matter how hard Estelle fought, he was still defeated by everyone. However, at this moment, She Ying had already been sent to Yin Rong by Beatrice. Yin Rong carried She Ying with her unicorn and chased after Yu Huang.

When they got closer, Yin Rong picked up She Ying again and shouted at Yu Huang, "Yu Huang, catch!" After saying that, Yin Rong passed the snake tassel to Yu Huang without hesitation.

Yu Huang suddenly turned around and opened her arms to catch She Ying.

She hugged She Ying and flew across the sky arrogantly. In the blink of an eye, she flew out of the primitive forest and ran towards the Holy Spirit Academy.

Seeing that Yu Huang and the others had taken She Ying away, Fang Peipei stomped her feet indignantly and cursed angrily, "Despicable young people!"

Estelle wiped the blood from the corner of his mouth and revealed a smug smile at Fang Peipei. He said in heavily-accented Divine Moon Empire language, "Hehe, Yu Huang said that this is called the mantis stalking the cicada while unaware of the oriole behind."

Fang Peipei glared at Estelle. "Shut up!"

...

Yu Huang hugged She Ying and rushed to the Holy Spirit Academy. Seeing that the Holy Spirit Academy was right in front of her, Yu Huang was about to heave a sigh of relief when she heard a dragon roar.

"Roar!"

A black dragon suddenly rose from the middle of the Black Dome and blocked Yu Huang's path.

Yu Huang stared at the Black Qing Sky Dragon that suddenly appeared and frowned. She hugged Snake Ying's waist tightly and looked at the dragon warily and irritably. "Sheng Xiao, are you going to snatch it from me too?" Didn't he say that he would love her forever?

Black Qing Sky Dragon turned into Sheng Xiao.

Sheng Xiao held the Dragon Sword and pointed it at Yu Huang. He said, "I advise you to be sensible and give her to me!"

How could Yu Huang take the initiative to give in?

"What if I don't?"

There was suddenly a black spiritual energy on Sheng Xiao's Dragon Sword. He smiled and said, "Then, we'll rely on our own abilities!"

Yu Huang couldn't help but threaten him. "Sheng Xiao, from today onwards, you can forget about sleeping with me!"

Sheng Xiao laughed. "It's okay. There's no husband and wife room in school anyway. We can't sleep together!" Then, he raised the Dragon Sword and quickly drew a galaxy array in front of him. He sent his spiritual power into the array and shouted in a low voice, "Galaxy Slash!"

Yu Huang didn't dare to lower her guard when she saw Sheng Xiao use Galaxy Slash without hesitation.

She first passed She Ying to Yin Rong, who was behind her. "Yin Rong, catch it!"

Yin Rong hurriedly caught She Ying, then turned around and flew towards Holy Spirit Academy.

Seeing that, Sheng Xiao, who was about to attack Yu Huang, pointed his sword at Yin Rong. Then, the overwhelming starlight surged towards Yin Rong. Yin Rong sensed the terrifying destructive power in Sheng Xiao's technique. She widened her eyes and subconsciously condensed a protective shield.

However, Sheng Xiao didn't hold back at all. He shattered Yin Rong's protective shield immediately.

Yin Rong grunted as blood flowed from the corner of her mouth. The unicorn under her also became illusory.

As a late-stage Master, Yin Rong was not Sheng Xiao's match at all.

Seeing that Sheng Xiao had defeated Yin Rong in one move, Yu Huang muttered, "How ruthless!" After cursing, Yu Huang summoned the Psychic Sphere with her right hand and Xuan Yu with her left. She fused Xuan Yu with the Psychic Sphere and her aura became murderous.

"Blazing Moon Art!"

The Psychic Sphere and Xuan Yu fused into one and turned into a fan-shaped arrow. The arrow whistled and smashed into Sheng Xiao. It was so powerful that the corner of Sheng Xiao's shirt was blown away.

Sheng Xiao stared at the fan-shaped arrow that was flying towards him. He smiled when he felt the power in the arrow. "Very good, but..."

"It's not enough!" Then, Sheng Xiao raised the Dragon Sword again and slashed out.

"One Sword Sever the Sky!"

A dazzling rainbow sword beam split the sky into two. It quickly arrived from the distant sky and collided with Yu Huang's Blazing Moon Art.

## Chapter 612: Sheng Xiao, the Wife Beater (2)

When the red fan-shaped arrow entered the torn and shattered space, an earth-shattering bang instantly erupted on the plain!

When they heard the commotion, be it the students who had been brought back to the Holy Spirit Academy by the old dean or Fang Peipei and the others who were standing in the primitive forest, their attention was attracted by the sudden change. Everyone looked up at the battle in the sky and recognized that it was Sheng Xiao fighting Yu Huang. Their expressions became interesting.

Good lord, Sheng Xiao was fighting with Yu Huang!

Everyone was excited. They wanted to see if Sheng Xiao would be punished after he won against Yu Huang.

At that moment, a black dragon flew out from the shattered space. It opened its huge mouth and arrogantly swallowed the red arrow.

The long arrow entered its mouth and suddenly turned into the appearance of a Divine Feather Phoenix. The Phoenix's abdomen was tightly bitten by the dragon's teeth.

When Donor heard the sound of battle, he quickly ran to the city wall to watch the battle. When he saw this scene from the side, he raised his eyebrows and muttered softly, "Damn, these two people are really ruthless when they fight."

"Swish!" The phoenix struggled frantically after being bitten again. Its entire body was burning with flames. It raised its long neck and pecked the dragon's eyes.

The dragon was enraged when its eyes were burned. It opened its mouth again and bit the Divine Feather Phoenix's neck.

"Swish!" The Divine Feather Phoenix struggled frantically while crying bitterly.

Fang Peipei's heart skipped a beat when she heard the phoenix's cry. However, Sheng Xiao was unyielding. Not only was he not soft-hearted, but he also opened his dragon mouth again and swallowed the Divine Feather Phoenix. An indignant cry sounded. Then, the power of the Blazing Moon Art was completely disintegrated.

"Ah!" Yu Huang let out a painful groan. She knelt in the void on the spot.

Sheng Xiao smiled at Yu Huang. He asked gently, "Are you convinced?"

Yu Huang raised her head and looked at Sheng Xiao resentfully. She acted tough and said, "Just you wait. I will deal with you sooner or later."

Sheng Xiao was relieved to hear Yu Huang's confident voice. He smiled. Not only was he not angry, but he also looked expectant. "I look forward to that day." Then, he turned around and flew to Yin Rong's side. He hugged She Ying with one hand and left arrogantly.

After watching the battle, the students had complicated expressions.

Sheng Xiao was indeed a ruthless person. He even hit his wife.

Yin Rong quickly helped Yu Huang up. She comforted Yu Huang worriedly. "Yu Huang, Sheng Xiao went overboard, but don't blame him. After all, he's on a mission." Yin Rong was really worried that Yu Huang and Sheng Xiao would fall out because of this battle.

Yu Huang stared at Sheng Xiao's back. She wiped the corner of her mouth and muttered to herself, "This kid is so charming when he's ruthless."

Yin Rong was speechless.

She observed Yu Huang carefully. She saw that Yu Huang's eyes were shining with fighting spirit and appreciation. She wasn't angry. For a moment, she couldn't understand Sheng Xiao and Yu Huang's relationship.

...

Sheng Xiao's team won the mission to save Miss Weng.

After getting the 1,000 points, Sheng Xiao's team gave Yu Huang's team 500 points.

When he was charging the card, Sheng Xiao called Yu Huang's team over.

Yu Huang had already collected the cards of the students in the group. When she saw Sheng Xiao, she gave the charge card to him. Sheng Xiao handed the charge card to the staff and said, "Donor's point card is 140 points. The other students' point cards are 40 points each."

The staff didn't ask further and quickly charged their cards.

After obtaining their charge cards, Yu Huang turned to leave.

Sheng Xiao grabbed Yu Huang's hand. "Don't go."

Seeing that Sheng Xiao and Yu Huang had something to say, Donor and the others left. After they left, Yu Huang looked up at Sheng Xiao and asked angrily, "What? Haven't you had enough?"

Sheng Xiao smiled and tapped her eyebrows. Then, he said, "Don't forget to make breakfast for me since you failed the mission." He paused and added, "For a month."

Yu Huang almost choked from anger.

Listen!

How could he say that?

He had beaten her up and even reminded her to make him breakfast after he was done. Was he even human?

Yu Huang regretted it. She regretted being blind and finding a dog to be her husband.

Seeing that Yu Huang was angry, Sheng Xiao suppressed his laughter and stuffed his point card into Yu Huang's hand. Yu Huang played with his point card and frowned. "Why are you giving it to me? Are you showing off how many points you have in your card?"

Sheng Xiao said, "It's for you."

Yu Huang suspected that she had heard wrongly. "Really?"

"Yes."

The anger in Yu Huang's heart suddenly dissipated. "Why are you giving it to me?"

Sheng Xiao said, "Other than the points needed for living expenses, you can keep the other points. Buy whatever you want and do whatever you want." He picked up Yu Huang's ring finger and shook it. He said gently, "I'm in charge of earning points. You're in charge of spending points for me."

Yu Huang tried her best not to smile. She said stubbornly, "Who cares?" With that said, she put away the point card.

She took the point card and turned to enter the small supermarket in the administrative building.

Sheng Xiao saw that she was going to the supermarket and followed her in.

Although the supermarket was small, it had everything. There were daily necessities and snacks. Yu Huang walked to a shelf with birth control supplies and picked out a box of condoms from the shelf in front of Sheng Xiao. The students were all adults. This was a necessity.

Sheng Xiao noticed Yu Huang's actions. His gaze darkened. "Why did you buy this?" There was no room for couples. They didn't need this.

Yu Huang deliberately moved closer to him and drew circles on his chest with the box. She lowered her voice and said, "What are you afraid of? As long as I want to, everywhere is a battlefield." She deliberately patted Sheng Xiao's beating heart and tempted him. "Let's meet at the back of the mountain at ten o'clock tonight." She paused and said, "I'll wait for you in the car."

Then, Yu Huang took Sheng Xiao's point card and went to settle the bill.

Sheng Xiao stood there in silence for a long time. Then, he looked down at his watch.

It was 6 PM, four hours away from 10 PM.

### **Chapter 613: It Would Be Good If There Was A Painkiller (1)**

At nine o'clock in the night, Sheng Zhou and Sheng Xiao sat cross-legged on the balcony and meditated. The entire dormitory was silent.

Sheng Xiao, who had been focused on meditating, suddenly opened his eyes. He looked up and said, "Where are the other students?" The entire building was too quiet. That wasn't normal.

Sheng Zhou didn't open his eyes, but he replied, "I think they went to receive punishment."

There was punishment for teams that didn't successfully complete the mission.

"Oh really?" Sheng Xiao asked curiously, "What punishment?" He had never heard Yu Huang mention it.

"I don't know. I saw them walking down the mountain after dinner."

Walking down the mountain?

Thinking of the promise Yu Huang made with him in the afternoon, Sheng Xiao realized that Yu Huang was playing with him.

Naughty.

Sheng Xiao couldn't help but laugh.

Sheng Zhou finally opened his eyes when he heard the laughter. He caught the smile on Sheng Xiao's lips. "What are you laughing at?"

Sheng Xiao said sternly, "I miss my wife."

Sheng Zhou was speechless.

Sheng Zhou thought about how ruthless Sheng Xiao was when he fought with Yu Huang this afternoon. He couldn't resist his curiosity and asked, "Sheng Xiao, didn't you panic when you fought with Young Madam today? She's your wife."

Sheng Xiao usually treated Yu Huang like a treasure. When it came to fighting, he was ruthless.

Sheng Xiao looked mysterious. "What do you know? Hitting is kissing and scolding is love."

"Then you guys are really in love."

Sheng Xiao couldn't sit still anymore. He said, "I'll go and see what they're doing." He got up and looked down at Sheng Zhou. "Are you coming with me?"

Sheng Zhou shook his head. "I won't go."

"Okay."

Sheng Xiao left the dormitory building alone. He pricked up his ears and listened carefully. After confirming that Yu Huang and the others were being punished at the back of the mountain, he walked briskly towards the back of the mountain.

The south side of the Black Dome was steep, but the back mountain in the north was a gentle slope. However, the road on the slope was still rugged. Under the night sky, the Black Dome looked even darker and sinister. The students who had failed the mission carried shoulder poles and lined up while walking on the rugged mountain path with difficulty.

Sheng Xiao couldn't see what was in the dustpan. He walked closer and realized that the dustpan was filled with black stones the size of bricks. They looked similar to the pressure stones that Gold Ingot used to train him and Yu Huang with.

However, the surface of the pressure stone was covered in luster, and the surface of this stone was even more matte. This was a Black Spirit Stone, a very precious ore. It was both an ore medicinal ingredient and a treasure that aided cultivation.

Because it contained an extremely clean and majestic spiritual energy in its body, it was ridiculously expensive. At the same time, its weight was also ridiculously heavy.

A Black Spirit Stone the size of a brick weighed five hundred kilograms.

Each dustpan contained a Black Spirit Stone. In other words, each of them carried a weight of 1,000 kilograms. Even if a Beast Tamer wanted to carry a 2,000 kilograms Black Spirit Stone from the bottom of the Black Dome Mountain to the top, it would be very difficult.

Therefore, they had to mobilize all the spiritual power in their bodies to carry them up the mountain.

This method of punishment sounded inhumane, but when they consumed the spiritual power in their bodies, they were also absorbing the spiritual power contained in the Black Spirit Stone. Therefore, although the academy seemed to be punishing them, it was actually motivating them to cultivate.

Professor Pupu An of the Beast Clan was once the principal of the Beast Clan Academy. He was a Grand Master with a human body and a snake tail. After the establishment of the Holy Spirit Academy, Professor Pupu An became the vice principal of the Holy Spirit Academy.

Tonight, it was Professor Pupu An's turn to be on duty.

When Professor Pupu An saw Sheng Xiao, he waved his tail and landed in front of him. He raised his eyebrows and said, "Sheng Xiao, your team won, so you don't need to be punished. What are you doing here?" He paused and smiled teasingly. "Are you here to accompany your wife?"

Before Sheng Xiao could say anything, Professor Pupu An reached out his right hand and grabbed the shoulder pole on the ground. He placed the shoulder pole in Sheng Xiao's hand and said domineeringly, "Husband and wife should share blessings and hardships together. Since you're here, join your wife!"

Sheng Xiao smiled and took the pole.

His original intention was to accompany Yu Huang in her punishment anyway.

Sheng Xiao carried the pole and walked down the mountain.

## **Chapter 614: It Would Be Good If There Was A Painkiller (2)**

He was wearing a gray shirt and black slim-fit suit pants today. The marble cloud collar pin that Yu Huang had given him was at the collar of his shirt. He looked handsome and noble.

But no matter how handsome a person was, as long as they carried a pole on their shoulders, they would seem like a bunch of losers.

Sheng Xiao arrived at the foot of the mountain and bumped into Yu Huang.

Lin Feng stood beside the pile of Black Spirit Stones. His job was to distribute Black Spirit Stones to this group of students. Regardless of gender, each person would get two. It was very fair.

He picked two bricks for Yu Huang. When he looked up and saw Sheng Xiao, he said, "Sheng Xiao is here."

Yu Huang turned around and looked behind her.

Seeing that Sheng Xiao was really here, she blinked at him and turned to Lin Feng. "Director, my husband is a Grand Master. It's only fair that he carries four bricks."

Sheng Xiao raised his eyebrows and glanced at Yu Huang. He was about to say something when Yu Huang said, "If you're a man, you can't say no."

What else could Sheng Xiao say?

Under Lin Feng's playful gaze, he said in a low voice, "Give me four bricks."

Lin Feng laughed and specially chose four of the largest bricks to place into the pair of dustpans woven from special materials.

Sheng Xiao's straight back bent under the weight of the Black Spirit Stone.

The couple climbed up the mountain one after another. Yu Huang walked in front while Sheng Xiao followed behind. The rugged mountain path was not easy to walk on. They were wearing military boots and had to take every step steadily to move forward.

Pupu An stood in the void with a whip in his hand. Anyone who was walking slowly or falling behind would be whipped.

Therefore, even though everyone was so tired that they could not move their feet and their spiritual power was almost exhausted, they had to grit their teeth and continue to hold on. Sheng Xiao carried four thousand pounds. Every muscle in his body was exerting strength. His body looked even more muscular and attractive.

He noticed that Yu Huang was deliberately a few steps behind the team, so he asked her, "Can you walk faster?" If she walked faster, he could end the torture earlier.

Yu Huang seemed not to hear him and walked even slower.

Sheng Xiao realized that Yu Huang was taking revenge. He sighed but was not angry.

When they successfully reached the top of the mountain, the sky was already bright.

Everyone laid on the mountain peak in exhaustion as they received the morning light.

Di Ruofeng floated in front of them like a gust of wind. He chuckled and threw a cloth bag in front of them. "Stand up. You're not dead yet, but you already want to lie down and enjoy life?"

The students groaned when they heard this, but they could only resign themselves to fate and get up.

Di Ruofeng pointed at the cloth bag and said loudly, "Everyone, line up and get your tools!"

The students lined up and received a... sharp hammer, an interspatial bag, and some water and dry food from the bag.

Yu Huang stared at the hammer in her hand with a rare confused expression.

What was this?

A hammer?

Di Ruofeng continued, "From today onwards, all students will mine ores. You will come out when the bags in your hands are full!" He extended two more fingers and said, "The maximum duration of the mission is two months! Those who fail to complete the mission will be expelled!"

Everyone's expressions changed drastically when they heard this.

So the Holy Spirit Academy could also expel students.

It seemed that this mining mission was very important. The academy had even canceled the once-a-month beast tide training competition.

Donor turned the small hammer in his hand and asked in confusion, "Principal, where is the mine?"

Di Ruofeng pointed at the mountain north of the Black Dome and said mysteriously, "The entire back mountain is a mine!"

A look of surprise flashed across Yu Huang's eyes when she heard this.

There was a mine under their feet?

After distributing the mission, Di Ruofeng left. Yu Huang and the others squatted on the ground with small hammers and dug deep. The soil on the top of the mountain was very easy to dig. However, when they dug a meter underground, the stones under the soil became indestructible.

Yu Huang struck it with her hammer. Not only did the gray stone not shatter, but there was not even a crack.

Huh?

Yu Huang poured her spirit energy into the hammer and struck it again. This time, a thin crack finally appeared on the stone. When the crack appeared, black poisonous gas also seeped out through the crack.

From the looks of it, this ore could only be taken with spiritual power.

### **Chapter 615: It Would Be Good If There Was A Painkiller (3)**

Yu Huang hurriedly released a protective shield to resist the poisonous gas.

When most of the spiritual power was used as a protective shield to resist the poisonous gas, the spiritual power that Yu Huang could freely mobilize was very limited. Under such circumstances, it was very difficult for her to pick ores and fill her interspatial bag.

Not to mention two months, it would probably take more than two years.

However, no one wanted to be expelled. Thus, a group of privileged people turned into farmers and obediently squatted on the ground to mine.

They were not geniuses of the Holy Spirit Continent. They were just miners of nature.

...

On the other side, Xiao Shu and Feng Yuncheng had already entered the depths of the primitive forest's middle circle. When they arrived at this place, they would encounter mid to high-level demon beasts.

"Roar!" A demon beast with a body as large as an elephant and four muscular wings on its back rampaged through the primitive forest. As it ran, it roared at the two humans who were frantically fleeing in front. "Shameless human, you actually dare to steal my Marrow Cleansing Divine Fruit!"

The Wind Fire Elephant was a level 7 demon beast, and its ability was equivalent to a Grand Master's. Xiao Shu was a Supreme Master, and Feng Yuncheng was a support-type Master. Their combat strength combined wasn't enough to fight against the Wind Fire Elephant.

Therefore, when he discovered that they had angered the Wind Fire Elephant and were attacked by it, Xiao Shu pulled Feng Yuncheng away without a word.

The two of them dodged in the messy grass. As they dodged, Xiao Shu shouted, "Don't you know illusion techniques? Quickly become the natural enemy of this Wind Fire Elephant and scare it away!"

Feng Yuncheng's pants were cut by the thorny forest. The fabric was stuck to his body in a strip shape, revealing his two fair legs. As he ran, he explained loudly, "My spiritual power is exhausted. I can't use illusions anymore!" He and Xiao Shu had been in the primitive forest for five to six days without any rest. His spiritual power had long been exhausted.

Xiao Shu cursed, "Why are you so useless?!"

"If you're useful, why don't you kill it instead?!" At this moment, Feng Yuncheng had lost all respect for Xiao Shu, this powerful senior. "Why can't you keep your hands to yourself? Of all things, why did you have to pick the fruit it planted?"

Feng Yuncheng had also seen the Marrow Cleansing Fruit in books.

Marrow Cleansing Fruit was an extremely precious medicinal herb and a natural treasure. Marrow Cleansing Fruit Trees were very rare to begin with, and only among almost ten thousand Marrow Cleansing Fruit Trees could such a Marrow Cleansing Fruit be produced. Moreover, it would take ten years for it to ripen.

The power of this Marrow Cleansing Fruit was extremely powerful. If a Beast Tamer ate the Marrow Cleansing Fruit, they could clear the impurities in the beast form's meridians and body, perfect the beast form's shortcomings, and achieve the effect of raising the beast form's grade.

It was even purer and stronger than the power of the Purifying Spirit God.

On the other hand, if a demon beast ate this ripe Marrow Cleansing Fruit, it would be able to surpass the level restriction of the demon beast and make a huge breakthrough. If a low-level demon beast ate the Marrow Cleansing Fruit, there was an 80% chance of raising its demon bone and it becoming a mid-level demon beast.

On the other hand, when intermediate-level demon beasts ate the Marrow Cleansing Fruit, there was a 70% chance of their demon bones becoming high-level demon beasts.

The Wind Fire Elephant was a mid-level demon beast. It dreamed of becoming a high-level demon beast.

It had searched for more than a hundred years in this primitive forest before it found the existence of this Marrow Cleansing Fruit. It had guarded this Marrow Cleansing Fruit for nine years.

The Marrow Cleansing Fruit would ripen this month, and in order to fully unleash the effect of the Marrow Cleansing Fruit, the Wind Fire Elephant was unwilling to pluck it in advance. It had been guarding the Marrow Cleansing Fruit for the past few days, waiting for it to completely ripen and land so that it could eat it.

Today, the Wind Fire Elephant had the intention to relieve itself at the last minute. It had only gone to the feces pit for a while. When it returned, the Marrow Cleansing Fruit was picked by these two damn humans. How could it not be angry?!

It was so angry that it wished it could swallow Xiao Shu and Feng Yuncheng!

The two of them had just eaten the Marrow Cleansing Fruit. It seemed that the effect of the Marrow Cleansing Fruit had yet to take effect. If it could swallow Xiao Shu and Feng Yuncheng at this time, it might even be able to absorb the energy of the Marrow Cleansing Fruit.

Thus, the Wind Fire Elephant had no intention of letting Feng Yuncheng and the others off.

After making up its mind, the Wind Fire Elephant suddenly stopped.

When he realized that the earth-shattering footsteps behind him had suddenly disappeared, Feng Yuncheng's expression lit up. "Senior Xiao Shu, the Wind Fire Elephant seems to be tired and has given up chasing."

Xiao Shu felt that something was wrong.

Demonic beasts had always been ferocious. A second ago, the Wind Fire Elephant looked like it wanted to trample them to death and bury them with that fruit. Why did it suddenly quieten down?

#### **Chapter 616: It Would Be Good If There Was A Painkiller (4)**

Xiao Shu turned around and saw that the size of the Wind Fire Elephant had changed.

Its body, which was as large as a hill, actually shrank to the size of a small boar. The four wings on its back actually turned translucent.

It had become smaller, but it gave Xiao Shu stronger fear.

Although he didn't know what the Wind Fire Elephant was thinking, his intuition told him that they were doomed.

"Run!" Xiao Shu shouted instinctively.

After shouting, he grabbed Feng Yuncheng's clothes and ran.

Feng Yuncheng followed behind him. In the end, he exhausted the last bit of his spiritual power and summoned the charming butterfly.

The charming butterfly extended its tentacles and grabbed Feng Yuncheng with one hand and Xiao Shu with the other while trying its best to carry them away.

At that moment, the miniature Wind Fire Elephant suddenly let out a deep roar that shook the sky.  
“Roar!”

Its sound waves contained boundless demonic power.

Soon, a flame was ignited with Xiao Shu and the others as the center. The surrounding towering ancient trees were all ignited in an instant.

This was a primitive forest. Once this place caught fire, a large area of the forest would suffer. As for the low-level demon beasts living in the forest, they couldn't escape the speed at which the flames spread. They would all die!

In order to capture the two of them, the Wind Fire Elephant actually wanted to burn its home!

Feng Yuncheng and Xiao Shu looked at the fire that was quickly burning in a circle. Their handsome faces looked gloomy and desperate.

Feng Yuncheng bit his lip and said, “Xiao Shu, we can't escape.”

The flames were spreading in all directions and shrinking towards them. There was no way for them to escape. The fire was burning quickly, and in less than a minute, they would be burned into two fireballs.

At this moment, the Wind Fire Elephant roared again. Then, a chaotic wind blew from all directions, gathering the spreading fire towards Feng Yuncheng and the others.

The flames gathered towards them at a visible speed. The waves of fire grew higher and higher, and soon swallowed Feng Yuncheng and Xiao Shu.

At this moment, even if they wanted to seek help from the academy, they wouldn't be able to wait for help to arrive in time.

Feng Yuncheng closed his eyes and accepted his fate.

But just as the flames were about to swallow them, Feng Yuncheng suddenly heard a strange and dignified beast roar that seemed to come from ancient times

“Buzz”

That voice seemed to be far away, but also seemed to be right in front of him.

Feng Yuncheng opened his eyes in surprise. What reflected in his eyes along with the waves of fire was a majestic beast!

It was a terrifying ferocious beast covered in flames and covered in horse hooves. Its long red hair covered its neck from its forehead, making it look unrestrained and dignified.

Feng Yuncheng gasped in shock.

This was...

...a Fire Unicorn!

The unicorn raised its hooves, and a fiery red protective shield appeared on its body. The protective shield directly enveloped Feng Yuncheng. At the same time, Feng Yuncheng immediately sensed that the fire waves in the forest had lost their effect on him.

He couldn't even feel the heat of the flames.

The next second, Feng Yuncheng fainted.

At this moment, the Fire Unicorn suddenly opened its beast eyes. Its pair of beast eyes, which were as red as blood, stared coldly at the Wind Fire Elephant outside the fire wave. It opened its mouth and said in a dignified and cold tone, "Low-grade demon beast, you dare to be impudent in front of the lord?!"

Upon hearing the word "lord" and seeing the Fire Unicorn's appearance clearly, the Wind Fire Elephant recalled some legends. It suddenly knelt on the ground.

"My Lord!" The Wind Fire Elephant was so frightened that it lost control on the spot, and the flames in the forest were all extinguished in an instant.

At the same time, the super demon beasts living in the center of the hinterland felt the familiar aura of an expert that only existed in distant memories.

For a moment, all the super demon beasts looked up at the Wind Fire Elephant in surprise and excitement. They muttered in disbelief, "Master?"

By the time they arrived at the territory where the Wind Fire Elephant was, the expert's aura was already very faint. The Wind Fire Elephant had long been frightened to the point of paralysis. There was a urine stain under its body, while its consciousness was already in a blur.

The super demon beasts were very disappointed that they didn't see their old friend. However, when they thought about how he was still alive, they became excited again.

The Lord is still alive!

The demon beasts still had hope of reclaiming the Holy Spirit Continent!

\* \*

A breeze blew on the mountaintop, and a strand of hair entered Feng Yuncheng's nostrils.

Feng Yuncheng sneezed and woke up. When he saw him and Xiao Shu sitting on a small black mountain while enjoying the cold wind, he sat up in shock and shouted, "Where is the Wind Fire Elephant?!" Feng Yuncheng only remembered the shocking wave of fire he saw before he fainted, but he didn't remember the scene of the Fire Unicorn appearing.

Xiao Shu looked at him with a complicated expression before saying, "We were very lucky to encounter the Wind Fire Elephant's nemesis. They fought, so I took advantage of the chaos to run away with you." With that said, Xiao Shu picked up a plant that looked like a cabbage from the side. However, the plant's stem and leaves were red. "I also saw a few plants like this at the border of the territory where the Wind Fire Elephant lives. Take a look and see if they are Ghost-Wrapping Flowers."

Feng Yuncheng was stunned. “Were we that lucky?”

“Yes. Perhaps we were lucky.”

“Impressive.” Feng Yuncheng picked up the ghost flower and compared it to the photo on his phone. He realized that it was really the ghost flower and a relieved smile appeared on his face. “Senior Xiao Shu, we can go to the Holy Spirit Academy.”

Xiao Shu nodded and stood up. He grabbed the red hair with one hand and looked up in the direction of the primitive forest. Then, he said in a low voice, “Let’s go. We should go to the back mountain to plant vegetables.” They had to successfully plant the Ghost-Wrapping Flower before they could complete the interview.

Feng Yuncheng jogged to keep up with Xiao Shu. He muttered, “Hey, Senior Xiao Shu, why do I feel that you’ve become much more level headed after entering the primitive forest?”

Xiao Shu stopped in his tracks.

Those distant memories from ten thousand years ago flashed through his mind.

At that time, he was the master of the Demon Beast Realm.

In the battle of ten thousand years, the demon beasts were chased by the Beast Tamers. Some died, and some were injured. They paid a painful price. In order to find a place for the demon beasts to stay, he knelt in front of many big shots in the cultivation world and personally dug out the Monster Core in his body. He offered the Monster Core to the number one person in the cultivation world, Prime Master Goldfeather.

He, who had lost his Monster Core, died on the spot.

The demon beasts weren’t like humans. They didn’t have the chance to reincarnate. But for some reason, as a demon beast, he had the chance to reincarnate as a human.

He returned to the Holy Spirit Continent as Xiao Shu, but he had lost his memories of his previous life. It was only today, under the threat of death, that his memories awakened.

Xiao Shu was still Xiao Shu, but in a sense, he wasn’t really Xiao Shu.

Xiao Shu turned around and stared at Feng Yuncheng’s dirty face. He said, “I feel pain.” He couldn’t forget the pain of digging out the Monster Core.

Hearing this, Feng Yuncheng thought that Xiao Shu had been injured in the primitive forest. He hurriedly took out a painkiller pill from his interspatial ring and handed it to Xiao Shu. “This is for you. The painkiller developed by the Blazing Realm Continent’s Blazing Pharmacy is malt candy-flavored.”

Xiao Shu stared at the painkiller and was silent for a few seconds before reaching out to take the candy.

If only there was such a candy ten thousand years ago.

Then he wouldn’t have had to suffer so much.

## **Chapter 617: Slant-Eyed Monster (1)**

After Xiao Shu and Feng Yuncheng returned to the Holy Spirit Academy with the Ghost-Wrapping Flower and found Lin Feng, they found out from Lin Feng that they were the only group of interviewees who had successfully picked the Ghost-Wrapping Flower. As for the other interviewees, be it the beastmen, elves, Xuanyuan Jing, Zhong Luoxue, or the others, they had all forfeited for various reasons three days ago.

Lin Feng stared at the bag of Ghost-Wrapping Flowers in their hands with a faint smile on his face. He said, "You have to successfully plant the vegetable garden before you can pass the interview test."

"We understand."

Xiao Shu didn't say anything else and pulled Feng Yuncheng to the back mountain.

The two of them carefully studied the growth habits of the Ghost-Wrapping Flower. After confirming that the best time to plant the Ghost-Wrapping Flower was at its peak at dawn, when the temperature was the lowest, they decided to plant it tonight.

The back mountain wasn't in the school of the Holy Spirit Academy, but outside the city wall.

The back door of the academy was even more shabby than the front door. There was only a three-meter-wide passageway there, and the middle of the passageway was blocked by a thick iron door. Behind the iron door, there was the Holy Spirit Academy, and outside the iron door, there was the back mountain.

When he was about to reach the back gate, Feng Yuncheng heard a clanging sound, like a hammer hitting a rock. "What's that sound?" He frowned and looked at the closed back door in confusion.

Xiao Shu also found it strange.

The two of them worked together to open the heavy iron door. As far as the eye could see, there were students mining everywhere. Those geniuses who were usually arrogant were squatting on the ground with their faces covered in dust and trying their best to wave the hammers in their hands to dig ores.

It was already dark, and everyone was wearing a mining lamp on their heads.

The scene was shocking and made them speechless.

Feng Yuncheng never expected that the cultivation method of the Holy Spirit Academy was like this.

Noticing that the back door had opened and someone had walked out, the students thought that it was the principal who was on duty to supervise their mining. They moved their hammers even faster.

"Cough."

Xiao Shu deliberately coughed.

This cough sounded like it was from someone very young. It wasn't the old dean or Pupu An, nor was it Lin Feng, nor was it the principal.

Finally, someone put down the hammer in his hand and looked up at the back gate.

Yu Huang had the best eyesight. Even in the dark, she could clearly see Xiao Shu and Feng Yuncheng's faces. Seeing these two people at the back of the mountain of the Holy Spirit Academy, Yu Huang was indescribably surprised. "Fourth Brother, Xiao Shu, why are you guys here?"

Upon hearing the familiar name, Yin Rong suddenly stopped mining.

Xiao Shu?

Yin Rong raised her head in shock and looked in the direction of the back gate of the Holy Spirit Academy.

When she saw the familiar tall figure standing under the night sky, Yin Rong actually felt as if she had been separated from him for years.

It had only been a week since the start of school, and it had only been a week since she and Xiao Shu separated.

Yin Rong belatedly realized that the reason she had such feelings for Xiao Shu was because she missed him too much.

A few days ago, they were busy with the mission to save Miss Weng and she had no time to let herself miss Xiao Shu.

For the past two days, she had been squatting here and repeating the mechanical mining actions. She gradually lost control of her thoughts.

For the past two days, she would always think of Xiao Shu.

Did he recover? Was he neglected when he returned to the Yin Clan? Did he cultivate properly? Did he... miss her?

All kinds of thoughts piled up in her mind. Yin Rong missed Xiao Shu terribly, but she didn't dare to call him. She was afraid that she would be tortured by her longing if she heard his voice.

Xiao Shu saw that Yin Rong was staring at him in a daze and didn't react at all. He inserted a hand into his red hair and stroked it coolly while revealing the same flippant smile as before. "Rong'er."

When she heard Xiao Shu call her Rong'er, before Yin Rong could give her body an order, she had already let go of the hammer and ran towards Xiao Shu.

In front of everyone, Yin Rong quickly bumped into Xiao Shu.

Surprise flashed across Xiao Shu's eyes.

But soon, that surprise was replaced by joy and relief.

The person he yearned for had finally taken the initiative to run into his arms.

Xiao Shu opened his arms and hugged the person who was charging at him tightly.

Yin Rong ran too fast. When she bumped into Xiao Shu's arms, Xiao Shu even carried her as he took two steps back before stabilizing himself.

Yin Rong buried her face in Xiao Shu's arms. When she heard Xiao Shu's strong heartbeat and his painful grunt, she realized what she had done.

### **Chapter 618: Slant-Eyed Monster (2)**

Yin Rong was instantly extremely embarrassed and was too ashamed to raise her head.

Her slender fingers grabbed Xiao Shu's clothes tightly as she asked in surprise, "Why are you here?"

Xiao Shu explained, "The academy is recruiting cleaners. Fourth Brother and I are here to apply for a job."

There was such a thing?

Yin Rong and the others were busy doing missions and mining, so they didn't know about this at all.

Yin Rong hid in Xiao Shu's arms, but she could sense that those people were watching them. She was extremely embarrassed. She wanted to look up, but she was too embarrassed to.

Xiao Shu reached out and grabbed Yin Rong's chin, forcing her to look up.

Xiao Shu lowered his eyes and stared at Yin Rong. His gaze became gentle.

Yin Rong's face was clearly covered in dust, but the blush on her face was impossible to hide.

Xiao Shu suddenly lowered his head and kissed Yin Rong's pink lips. Yin Rong's eyes widened and her heart raced, but she did not push Xiao Shu away.

"Yo!"

The miners cooed and hollered after watching their PDA.

After kissing her, Xiao Shu pressed Yin Rong's face into his broad arms. He looked at the students with a smile in his eyes and raised his eyebrows. He said proudly, "Yin Rong is shy. Everyone, for my sake, please stop looking."

"Tsk!"

The students collectively clicked their tongues but lowered their heads to continue mining.

Xiao Shu and Yin Rong chatted for a while longer. When they saw Pupu An and Di Ruofeng walking over with tables and stools, the two of them separated.

Yin Rong continued to mine while Xiao Shu called Fourth Brother to plant the ghost flowers.

Feng Yuncheng had not seen Beatrice in the crowd just now, and he had also seen Xiao Shu and Yin Rong's PDA. Now, he was filled with resentment.

At this moment, Di Ruofeng and Pupu An were still setting up a barbecue stove in an empty space at the back of the mountain.

Their loud conversation spread throughout the back mountain—

Di Ruofeng said, "It's a little cold tonight, so barbecue is the most suitable. Roast some pork belly, wrap it in lettuce, and take a bite. The taste will be delicious!"

Pupu An replied, "Now that you mention it, I'm addicted to alcohol again. I'll get God Ling Xiao to bring some beer."

Di Ruofeng did not forget to remind her, "There must be cold beer."

"That's right."

...

While Xiao Shu and Feng Yuncheng were busy picking feces and planting vegetables, and while all the students were busy digging ores, the old monsters of the Holy Spirit Academy were leisurely barbecuing at the side. They had bought a lot of ingredients, and the condiments were even better. The condiments were brushed on those ingredients and roasted. The fragrance immediately wafted into the noses of every student.

However, all they could eat was dry food, the kind of fasting pill that was like a sugar pill. One pill could fill them for three days.

Feng Yuncheng carefully placed the bag of Ghost-Wrapping Flowers into the black soil. He stared at the poisonous gas and said worriedly, "The soil here is too poisonous. I'm afraid even this bag of Ghost-Wrapping Flowers will find it difficult to survive."

"If these flowers die because of us, then we can only return home."

Xiao Shu narrowed his dark eyes. He picked up a handful of black soil with both hands and carefully sprinkled it on the roots of the Ghost-Wrapping Flower. As he sprinkled, he whispered, "Little fellow, grow well. The roots will sprout more..."

"If you fail and accidentally die..." A gentle smile appeared on Xiao Shu's lips. "Then I'll uproot your entire clan."

Feng Yuncheng turned around to look for Beatrice. He did not notice that the flower was trembling slightly after hearing Xiao Shu's words.

Xiao Shu picked up the ladle again and poured some feces beside the roots of the Ghost-Wrapping Flower.

The Ghost-Wrapping Flower's body swayed even more.

As it used its demonic power to break down the poisonous gas in the black soil, it struggled to dig its weak roots deeper into the soil.

Its desire to survive was very strong.

Lin Jiansheng was eating a handful of roasted beef. He suddenly sensed a weak demonic power emitting a strong will to live. He turned around and looked at Xiao Shu and Feng Yuncheng.

Lin Jiansheng, who had become a Purifying Spirit God, knew every fluctuation of power in the world like the back of his hand. When he realized that the will to survive was coming from the Ghost-Wrapping Flower in front of Xiao Shu, he was shocked.

According to what he knew, although plants like the Ghost-Wrapping Flower could grow in the worst and most barren soil, they were extremely proud and aloof creatures.

They had always grown only where they liked.

Could it be that this Ghost-Wrapping Flower liked the feces pit of the Holy Spirit Academy?

“What are you slacking off for?! Have you finished digging the ores?! Do you all want to be expelled?!” Pupu An shouted in the direction of the mining students at the back of the mountain and interrupted Lin Jiansheng’s thoughts.

Lin Jiansheng turned around and Di Ruofeng handed him another lamb skewer. “Try this lamb skewer. It will leave a delicious taste in your mouth.”

Lin Jiansheng took a bite and couldn’t help but give Pupu An a thumbs up. “Professor Pupu An, your barbecuing skills are not bad.”

Pupu An smiled proudly and said, “My ancestors started out by setting up barbecue stalls. The most famous barbecue chain store of the Beast Clan is our family business. When I was young, my parents nurtured me as the heir of the barbecue shop. Who knew that I would awaken my beast form when I was 14 years old?”

Pupu An shrugged and said regretfully, “I actually want to do barbecue more, but my parents said that being a Beast Tamer is more promising. Otherwise, our family’s barbecue chain would definitely have spread across the entire continent.”

“Hahaha!”

Speaking of their childhood, this group of old people had something to chat about.

Pupu An asked Di Ruofeng, “Slant-Eyed Monster, what did your family do when you were young?”

### **Chapter 619: Shady Trick (1)**

Di Ruofeng wasn’t angry when he heard the nickname ‘Slant-Eyed Monster’. He took a sip of cold beer and recalled carefully for a moment before saying, “I was an abandoned baby. Later, I was adopted by an old man who lived alone. That old man relied on selling medicinal herbs for a living. We often went into the mountains to dig for medicinal herbs and lived wherever we went. I lived with him for six years. When I was six years old, he was unlucky and met a low-level tiger demon beast in the mountains...”

Di Ruofeng spun the beer can in his hand, and his wrinkled brows seemed to frown even more. “He carried me and ran for a long time, very far. Finally, we encountered a spacious river. The old man threw me forcefully towards the other side. I was lying on this side of the river, and he was standing on the other side...”

Di Ruofeng didn't elaborate on what happened after that.

When Yu Huang and the others heard Di Ruofeng's recount, they subconsciously slowed down.

They then heard Di Ruofeng say, "Later on, I became a street child and started to wander around the world. Later, I passed by a county city that had suffered a flood and a plague erupted. I met Su Xuanye. That year, I was 10 years old and had yet to awaken my beast form. Su Xuanye took care of me for two years and taught me many ways to survive..."

Di Ruofeng blinked his heavy eyelids and said, "Because of my childhood, I've always respected Su Xuanye. His life has actually been very difficult."

Pupu An had also participated in the battle against Su Xuanye. Thinking of Su Xuanye, Pupu An sighed. "I heard that he had also traveled the continent and helped everyone."

"Yes," Lin Jiansheng added. "He has indeed helped many people. When I was very young, he was already a famous Purifying Spirit Master on the continent. At that time, he was still very benevolent. Wherever there was trouble, he would be there. In my heart, Su Xuanye has always been a benevolent Bodhisattva. He was a saint in my heart. To be honest, when I discovered what Su Xuanye had done behind people's backs, I really found it unbelievable."

"He's a benevolent Bodhisattva and a murderous demon."

Nodding, Di Ruofeng said, "Yes, I find it unbelievable, just like you."

Pupu An turned the duck leg on the grill over and suddenly sighed with emotion. "If not for the change in the Prosperous Capital, I wouldn't have known that there was such an evil spell like the Death Curse in this world."

Pupu An's casual remark caused Lin Jiansheng to fall into deep thought.

Lin Jiansheng suddenly put down the mutton skewer in his hand and lowered his head to look at Di Ruofeng, who was much shorter than him. He asked in a low voice, "Dean Di, do you know the casting process of the Death Curse?"

Di Ruofeng shook his head. "How would I know? The Death Curse is a forbidden curse even in the Great World. Very few Beast Tamers in the Great World know about this curse. How would I know?"

Lin Jiansheng crossed his arms and said thoughtfully, "According to what you're saying, most people only know the existence of the Death Curse and the price needed to create it, but very few people know the specific process of setting up the Death Curse, right?"

"That's right. If everyone knows it, can it be called a forbidden technique? Even in the Great World, such a forbidden technique will never be circulated. Once it is circulated, it will be denounced by the entire continent."

Upon hearing this, Lin Jiansheng remained silent for a long time.

Di Ruofeng had yet to notice anything wrong.

Lin Jiansheng stared at the dancing sparks in the grill and suddenly asked, "As someone who has never traveled to the outside world, how did Su Xuanye know the details of the Death Curse?"

Di Ruofeng's eyes narrowed.

He suddenly looked up at Lin Jiansheng with a rare cold expression.

Pupu An was shocked by their reaction. "What's wrong?"

Di Ruofeng suddenly threw down the skewer in his hand and said, "I'm not eating anymore. I'm going to find the Grand State Master!"

"I'll go too!" Lin Jiansheng strode after him.

Pupu An stared at the fragrant meat on the grill and turned to look at the two people's backs and blinked. He didn't understand what they were doing.

Barbecue only tasted good when there were many people. After Di Ruofeng and the others left, it was boring for Pupu An to eat alone. He turned around and left.

As soon as they left, Xiao Shu walked to the grill and became the chef. "What do you guys want to eat? Tell me. I'll roast it for everyone." There were still so many ingredients left. They couldn't be wasted.

...

The top floor of the administrative building was the resting area for the principals.

## **Chapter 620: Shady Trick (2)**

Lin Jiansheng and Di Ruofeng teleported to Mo Xiao's door. Seeing that Lin Feng was guarding Mo Xiao's door, Lin Jiansheng hurriedly pointed at the tightly shut door and said, "Lin Feng, is the Grand State Master around? We have something to discuss with him."

Lin Feng said, "The Grand State Master is doing divination and needs quiet."

Upon hearing this, Lin Jiansheng and Di Ruofeng didn't dare to make a sound.

Every time the Grand State Master performed a divination, he had to exchange his cultivation level for it. During the divination process, the surroundings had to be absolutely quiet. Lin Jiansheng and Di Ruofeng stood outside the door for half an hour.

"Come in." The Grand State Master's voice was filled with fatigue.

Only then did Lin Feng turn around and push open the door before letting Lin Jiansheng and Di Ruofeng in.

The moment they entered the room, they saw Mo Xiao lying on the bamboo chair in his pajamas. There was a turtle shell fortune-teller on the small table in front of Mo Xiao. The back of the turtle shell was filled with cracks.

Mo Xiao didn't even look at them. His gaze was fixed on the crack on the turtle shell.

Di Ruofeng had always respected and loved the Grand State Master. Seeing that the Grand State Master didn't speak, he also dared to speak. Although Di Ruofeng was a Prime Master like Mo Xiao, Mo Xiao was older. In front of Mo Xiao, Di Ruofeng was just an old child.

However, Lin Jiansheng was an insensitive person. Seeing that Di Ruofeng was staring at the turtle shell carefully like the Grand State Master, he also took a look.

However, Lin Jiansheng didn't know how to divine. In his eyes, a turtle shell was a turtle shell. No matter how long he looked at it, it would just be a turtle shell.

Lin Jiansheng lost his patience. He clicked his tongue and turned to look at Mo Xiao. He asked anxiously, "Grand State Master, what did this turtle shell say?"

Di Ruofeng glanced at Lin Jiansheng and then looked down at Mo Xiao.

Mo Xiao didn't mind Lin Jiansheng's bluntness. He pointed at the turtle shell on the table and said, "I was testing the children's Central Pagoda challenge." He gently pressed his finger in the air, and the turtle shell turned into a pile of dust.

Mo Xiao then asked Di Ruofeng, "Why are you looking for me so late at night?"

Di Ruofeng told Mo Xiao about Lin Jiansheng's question.

After hearing their question, Mo Xiao laughed. He said to Lin Jiansheng in surprise, "I didn't expect that an oblivious person like you would be the first to discover the problem."

Lin Jiansheng thought, "How rude."

It was unknown if Mo Xiao was praising or mocking him, but Lin Jiansheng blushed.

Di Ruofeng also showed a look of shame. "I'm ashamed that I didn't think of this." Previously, they had only been focused on dealing with Su Xuanye, so they hadn't thought about the details behind this. If Lin Jiansheng hadn't thought of this, probably no one would have noticed it.

Seeing the Grand State Master's reaction, it seemed that he had long discovered the suspiciousness behind Su Xuanye's creation of the Death Curse. Di Ruofeng hurriedly asked him, "Grand State Master, do you know how Su Xuanye obtained the instructions on how to create the Death Curse?"

Mo Xiao stood up from the wall.

He walked to the observation platform outside the resting room and looked at the endless primitive forest in the distance. He said in a low voice, "If I say that there's a person with extraordinary strength hidden in this world, but we've never seen him before, that he's hiding in the dark and stirring up trouble in an attempt to destroy everything we currently have, will you believe me?"

Upon hearing this, Di Ruofeng and Lin Jiansheng suddenly stood up from the table.

The two of them looked at Mo Xiao's back in shock. Lin Jiansheng exclaimed, "There's really such a person?"

Di Ruofeng narrowed his eyes and opened them completely. Mo Xiao's thin and tall figure was reflected in his golden eyes. He clenched his fists. Because of shock, when he spoke, his voice was quivering. "Grand State Master, are you sure there's such a person?"

Mo Xiao nodded. "He exists."

Di Ruofeng shook his head and muttered in disbelief, "Who is it? Who was actually able to control Su Xuanye and Caro Zhengyang?!" One had to know that Caro Zhengyang and Su Xuanye had lived for hundreds of years!

But among the people they knew, who was older than Su Xuanye and Caro Zhengyang and had a higher cultivation level than them?

Di Ruofeng thought of a possibility. His pupils suddenly dilated as he looked at Mo Xiao with curiosity and suspicion.

Wasn't Mo Xiao older than those two?

Moreover, in the early days of Caro Zhengyang and Su Xuanye's lives, Mo Xiao's cultivation could be said to be the strongest.
