

## She Shocks The Whole World After Retirement

Chapter 19: Purifying Spirit Academy, what a handsome guy!

Yu Huang was going to take the test tomorrow, and Yu Donghai urged her to go to sleep quickly. "Rest early tonight. You can only perform well tomorrow if you rest well."

"Daddy, sleep early too."

It was impossible for Yu Donghai to sleep early. He had to prepare the alms bowl and chicken ingredients that he needed for tomorrow. The busy pace of life was the norm for Yu Donghai. As Yu Huang listened to the commotion caused by Yu Donghai in the living room, she gradually fell asleep.

The next morning, just as Yu Huang walked out of her room, she was pulled to the dining table by Yu Donghai. He had slept late last night, but this morning, he was full of energy and had a smile on his face.

Yu Donghai passed the three joss sticks to Yu Huang and said, "Come. Before we set off, let's pay our respects to Master Sheng together."

Yu Huang said, "Who?" She was confused.

"Master Sheng! The number one genius of the Sheng Clan, Master Sheng Xiao! Didn't we meet at the restaurant last time?" Yu Donghai lit the incense as he said to her, "You don't know about this, right? Among us commoners, Master Sheng is a legend. Before the children participate in the Awakening Ceremony, they must pay their respects to Master Sheng."

"Come, kowtow three times to Master Sheng." He also reminded Yu Huang, "You must be sincere. Only when you are sincere will it work."

Yu Huang was so shocked that she could not speak. She stared at the little girl that Yu Donghai had created with his glutinous rice balls. She could not associate this white glutinous rice ball with Sheng Xiao.

1

"Why are you in a daze? Hurry up and pay your respects!" Seeing Yu Huang's dazed expression, Yu Donghai pressed down on her head and respectfully bowed three times to Master Sheng.

The Purifying Spirit Academy was quite far away, so Yu Huang and the others had to gather at the school's entrance before taking the school bus to the academy.

There was no time to make breakfast. Yu Donghai placed the glutinous rice ball into a plastic bag and stuffed it into Yu Huang's arms. He reminded her, "This is a steamed glutinous rice ball. Time is a bit tight, so let's eat this this morning."

Yu Huang, a strange expression on her face, held the tiny glutinous rice ball in her hands. They were eating Master Sheng, who she had just sincerely paid her respects to, in the blink of an eye?

7

Would Master Sheng blame them if he found out?

Sitting on the tricycle, Yu Huang had a strange look on her face as she took a bite of Master Sheng. Needless to say, the taste was soft and had a bit of sweetness to it. It was quite delicious. Yu Huang took one bite after another and very quickly finished the glutinous rice balls.

2

After Yu Donghai placed Yu Huang at the gathering point, he drove his tricycle away to do business.

Yong Hui High School had prepared a double-storey electric bus for Yu Huang and the rest. Each class had one car, and each grade had twelve classes. Yong Hui High School had a total of 36 cars.

Yu Huang and Anna Tao sat together. Li Shi got into the car and counted the number of people. After confirming that everyone was there, he walked to the empty seat behind the driver and sat down while waiting for the bus to arrive.

At this moment, Anna Tao, who was beside Yu Huang, sneakily opened her backpack and took out a red rectangular plaque. Yu Huang was curious about her secretive behavior.

Yu Huang glanced at the signboard and saw two lines of golden words printed on it—

Master Sheng's Good Luck Card (Blessing).

1

Yu Huang : "..."

It seemed like her father wasn't lying.

It was a tradition among the common people to pay respects to Master Sheng before attending the awakening ceremony.

Anna Tao held the signboard with both hands and closed her eyes. She stammered as she prayed sincerely, "M-Master Sheng, please, bless me. I must awaken successfully this time!"

It was simply toxic!

—

The Awakening Ceremony was going to be held for three days, and the people participating in the test today were all high school students and teenagers who weren't even 20 years old yet. The densely packed crowd squeezed into the plaza outside the Purifying Spirit Academy. It was so packed that it gave people a suffocating feeling.

After alighting from the bus, Yu Huang raised her head and sized up the legendary Purifying Spirit Academy. In front of her was a black wall that was so wide that the edges couldn't be seen, and it towered into the clouds. As Yu Huang stared at the wall, she felt awed.

Jiang Shangfeng told Yu Huang, "The outside of this wall is coated with poison. There are 100,000 voltages hidden inside. Anyone who dares to sneak in will be attacked by poison and electricity. It is the toughest wall in Prosperous Capital."

There were soldiers guarding outside the Purifying Spirit Academy all year round, so it was impossible for anyone to accidentally enter and be injured by accident. Whoever dared to approach had ulterior motives.

Yu Huang nodded. She heard Li Shi shouting from the front, "Class 7, gather here!"

They had group activities today, and the students were all wearing their school uniforms. Yong Hui High School's uniform was grayish-blue sportswear, and the words "Yong Hui High School" were written on the left breastplate. There was nothing special about it.

Shengdu High School's uniform was a navy blue jacket. It was tailored to fit the body and looked much more cute than Yonghui High School's.

The uniform of Munden Private Academy was a navy blue and white pleated skirt. They looked like princes and princesses. They stood out from the students of public schools.

Yong Hui High School's students and the students from the other high schools were standing on the left side of the grounds of the Purifying Spirit Academy. Shengdu High School and Munden Private Academy were standing on the right side of Purifying Spirit Academy. They were separated by two rows of soldiers in the middle. The students on

the left and the top students on the right were clearly separated by academic performance.

At 8: 40 PM, the black metal doors of Purifying Spirit Academy rumbled as they opened. The principals of the various academies led their students into the academy in order.

Everyone had respect in their hearts for a sacred place like Purifying Spirit Academy. Being loud was disrespectful to the Purifying Spirit Masters. Apart from the sound of footsteps, there wasn't a single sound.

After walking through the metal door, Yu Huang finally saw the true face of the Purifying Spirit Academy.

The Purifying Spirit Academy was a nine-storey building with three flags on top of it. On the left was the flag of the Purifying Spirit Alliance, in the middle was the flag of the Divine Moon Empire, and on the right was the flag of the Beast Tamer Alliance.

There was a circular stone platform in front of the hall. A translucent crystal ball floated above it. In a while, Purifying Spirit Masters would use it to awaken the beast forms within the children.

In front of the circular platform was a square shaped like a fan. Yu Huang and the others stood there while waiting for the ritual to begin.

Dong!

Dong!

Dong!

The bell in the distant bell tower rang three times, indicating that the Beast Tamer Awakening Ceremony had officially begun!

At this moment, there was a piercing sound in the sky. Everyone looked up and saw a black figure flying across the sky. In the blink of an eye, he stopped on the high platform.

It was a handsome young man. He was wearing a long black suit with a black belt around his waist. There was a strange-looking school badge on his left chest and a black fountain pen in his pocket.

1

Upon seeing the school badge, the students surrounding Yu Huang gasped. Then, fanatical expressions appeared on their faces as they exclaimed, "It's the overseer sent by the Divine Realm Academy!"

Every year, during the Beast Tamer Awakening Ceremony, the royal family would earnestly request Divine Realm Academy to send a portion of powerful mentors to various places as supervisors. Not only would they prevent people from playing favorites, but they would also prevent evil forces from taking the opportunity to kill young Beast Tamers.

Anna Tao was stunned. She pinched her arm and exclaimed, "What a handsome man!"

Yu Huang stared at the man's face and couldn't help but touch her stomach guiltily.

5

It was because the supervisor sent by Divine Realm Academy today was her old friend, Sheng Xiao! She had just kowtowed to the supervisory officer in the morning and ate him up.

6

Sheng Xiao gave off an oppressive feeling just by standing there.

The young men below the stage looked at him with admiration. In their eyes, every strand of Sheng Xiao's hair exuded the aura of a powerful person.

Sheng Xiao could not ignore their burning gazes.

Sheng Xiao tilted his head and looked down the stage. He glanced at the energetic teenagers calmly. He sincerely hoped that he could awaken more beast tamers today.

For some unknown reason, in the past twenty years, the number of Beast Tamers awakened on the Holy Spirit Continent was gradually decreasing. If this continued, in less than two hundred years, no one in this world would be able to successfully awaken their beast form.

In recent years, a hidden force had been secretly killing talented young Beast Tamers. It was as if someone wanted to kill the future of this world.

1

This was a despairing truth that could not be underestimated.

Sheng Xiao came to the branch of the Purifying Spirit Academy in the Prosperous Capital today to prevent evil forces from hiding in the dark and waiting for an opportunity.

At this time, a group of people walked out from the main hall. The leader was an old man in a dark red robe, and behind him was a group of young men in dark green robes.

This old man was Dean Lin of the Purifying Spirit Academy's branch in the Prosperous Capital. He was also one of the few rank 8 Purifying Spirit Masters in the Divine Moon Empire!

Similar to Beast Tamers, there was a strict hierarchy among the Purifying Spirit Masters. Level 1 to 3 were Beginner Purifying Spirit Masters, Level 4 to 6 were Intermediate Purifying Spirit Masters, Level 7 to 9 were Advanced Purifying Spirit Masters, and Level 10 Purifying Spirit Masters were just like Divine Masters. They only existed in legends.

It was a mystery whether there had ever been a Level 10 Purifying Spirit Master or a Divine Master in the past. In short, there had never been such an expert in the history of the Holy Spirit Continent.

After Dean Lin walked onto the stage, he raised the aqua blue scepter in his hand with his lips slowly opening and closing. A low murmur seemed to come from the distant horizon, but also seemed to linger in everyone's ears.

Upon hearing that deep and distant voice, Yu Huang suddenly trembled. Her left eye burned, and immediately after, her eyeballs began to tremble violently.

Yu Huang pressed her left eye with her hand and heard the people from the class next door reminding their companions in a low voice, "The dean is purifying our spirit. Everyone, quickly close your eyes!"

Level 8 Purifying Spirit Masters could purify the impurities in the souls of tens of thousands of people at the same time. They could help them awaken the beast in their bodies and successfully awaken their beast form.

This was a rare opportunity.

Yu Huang, hoping that Dean Lin could help her erase the evil thing hidden in her eyes, quickly closed her eyes.

She endured the pain in her eyes and carefully felt the changes in her body. She didn't know if it was an illusion or not, but she felt as if there was a cool breeze gently flowing through her meridians and bones. The wind swept up and removed the impurities covering her bones.

While everyone was immersed in the purification effect brought by the Purifying Spirit Master, only Yu Huang was sweating from the pain. She clenched her fists tightly and allowed the purification power to fight against the thing in her left eye.

During this entire process, Yu Huang's face turned pale from the pain, and her forehead was covered in a dense layer of sweat.

On the stage, Dean Lin sensed that his purification spell was being resisted by some kind of energy. He paused and raised his eyebrows as he looked at the grayish-blue formation below the stage.

It was where Yong Hui High School was located. Thousands of students stood together. He could not figure out who was resisting his purification power.

Dean Lin frowned and increased the power of purification.

Yu Huang could feel that the purifying power had become even stronger. The mole hidden in her body had also become more intense and tenacious.

Her eyes were trembling violently, and her body felt like it was being torn into countless bloody holes by the sharp claws of a ferocious beast. The sharp and intense pain tortured Yu Huang's spiritual power and body.

Yu Huang could no longer hold on and a mouthful of blood flowed down from the corner of her mouth.

At this time, the purification spell finally ended. The purification power in her body dissipated, and her left eye returned to normal.

After experiencing the cleansing of the power of purification, all the students revealed satisfied and light-hearted expressions. Only Yu Huang wiped the blood from the corner of her mouth with a pained expression while panting heavily with exhaustion.

After the purification ceremony, the evaluation of awakening officially began. Dean Lin walked to his seat and sat down. Next, his disciples were in charge of the evaluation ceremony.

"Number 1, Shengdu High School, the Kong Family wins!"

The top two hundred students were already waiting at the front of the line. Upon hearing his name, Male Number One walked up to the stage respectfully.

The youths who had participated in the Awakening Ceremony many times were familiar with the process of the Awakening Ceremony. After going on stage, the boy bowed to the abbot before extending his right index finger towards the crystal ball.

The moment his fingertip reached out, a vine-shaped tentacle suddenly emerged from the crystal ball. It wrapped around the youth's hand and pierced through his skin while sucking his blood into the crystal ball.

The host reminded the young man, "Calm down, concentrate, and resist the attack of the crystal ball with all your strength."

The crystal ball was aggressive. After its energy entered a person's body, it would turn into something that the person involved was most afraid of and launch a fierce attack on the person involved in the spiritual world.

"If you yield to that fear, you will fail to awaken. If you can awaken your beast nature and summon your beast form to fight against it, then you will be considered to have awakened successfully!"

The young man's face became contorted, as if he had seen an extremely terrifying scene. He only held on for three to four seconds before kneeling on the ground, hugging his head and howling in pain, "Don't kill me, I admit defeat!"

Seeing this, the host spoke calmly, as if he had expected it. "Go down. Number 2, Yong Hui High School, Zhou Xiangchen!"

...

He had tested nearly three hundred students in a row, but none of them had successfully summoned their beast forms. This made Dean Lin feel disappointed. It seemed like he would not achieve anything today.

"No. 398, Yong Hui High School, Anna Tao!"

Anna Tao was wearing a Lolita-style dress today. She was wearing Yong Hui High School's uniform and had a cute bunny bag slung over her shoulder.

Anna Tao walked onto the stage with light footsteps. Pigtails swayed with her movements, causing some of the boys below the stage to blush.

Seeing this, Dean Lin shook his head again. He thought that this little girl was cute and cute. One look and he could tell that she was a timid and weak little bunny.

There was no chance.

Anna Tao bowed to the host and did something unexpected.

She quickly opened the rabbit bag and took out Master Sheng's good luck card again. Then, she stammered at the card, "Master Sheng, Master Sheng, you, you, you must protect me and help me awaken successfully!"

Sheng Xiao was dumbfounded.

Dean Lin looked at Sheng Xiao meaningfully and teased him. "Sheng Xiao, it seems that you hold a high position in the public's heart."

Sheng Xiao was embarrassed.

Yu Huang only wanted to cover her face as she stood below the stage. She already felt embarrassed for Anna Tao. She had embarrassed herself in front of him. She was really something!

Anna Tao tied the good luck tag around her neck. "I'm ready," she told the host.

The host came back to his senses and was somewhat speechless."Extend your hand,"

Anna Tao extended her finger, and the vines immediately wrapped around her slender finger. Then, they pierced through her fair skin and transferred energy into her body. In the next moment, Anna Tao's body shook, as if she had encountered a ferocious beast.

Seeing this, Dean Lin shook his head and said to Master Sheng, "She is just a little girl who is easily frightened."

Sheng Xiao was about to nod when the translucent crystal ball suddenly turned black!
