Chapter 21: Ask the Teacher to Check

The Head of Teaching was quite annoyed. Why would you bring this type of candy to school? She was intentionally trying to pick a quarrel or cause trouble! Jian Yiling was indeed a bad-hearted person!

After a long time, the Head of Teaching gritted his teeth and said, "Since this is all a misunderstanding, everyone should scatter. Where is the leader of the class? Hurry up and organize a morning reading!"

Other than scattering, there was nothing else that could be done.

Shenghua High School had no rules that didn't allow students to bring candy to school.

The Head of Teaching was planning to leave. However, Jian Yiling still had something to say.

"Also, my book was thrown by someone to the back of the classroom."

Jian Yiling's voice was light and her speech was slow. It didn't seem as though she was making a complaint but rather, just stating a fact.

Hearing what was said, the Head of Teaching glanced at the books that were scattered at the back of the classroom. He didn't want to take care of this, however, he couldn't ignore this matter.

Otherwise, he would appear to be irresponsible in front of the whole class.

If he wasn't here today, he could choose to not come. However, now that it happened right in front of his eyes, he couldn't turn around and pretend that nothing had happened.

After all, the behavior of throwing away the books of a classmate was indeed not good. This should not have occurred within a school that had strict rules and regulations such as Shenghua High.

Thus, the Head of Teaching could only ask routine questions to the entire class. "Who did this? If you are to take the initiative and admit it, you will suffer a lesser punishment. However, if you wait for me to find out, you will be punished severely."

The whole class was silent. Everyone knew that Qiu Yizhen did it.

When Qiu Yizhen did it, almost the entirety of the class was there.

Qiu Yizhen stood behind the Head of Teaching and gave everyone in the class a threatening look.

If anyone dared to say that she did it, she would make their lives miserable!

Everyone in the class remained silent. Even the student who initially told Jian Yiling what had happened lowered her head in silence. She did not dare to offend Qiu Yizhen.

The Head of Teaching also didn't want to go into the matter further. He half-heartedly attempted to wrap up the conversation by saying, "Since no one knows, then let this matter just be for now. If anyone remembers what had happened or discovers something, come to my office and tell me."

And if it were to be followed through, there was nothing else that could be done.

Qiu Yizhen raised the corners of her lips and gave Jian Yiling a provocative look.

Jian Yiling continued to stay calm and said to the Head of Teaching, "The time of the incident was within seven days. The retention of surveillance cameras should be more than a month. You can watch the surveillance recording to find the culprit."

Jian Yiling's way of thinking was clear. She wasn't in a rush nor did she appear resentful. Most importantly, she didn't appear to want to back down from the matter.

When Qiu Yizhen heard what was said, she started getting nervous. If the Head of Teaching were to go watch the surveillance, she would definitely be exposed.

While she was anxious, she cursed at Jian Yiling in her mind. This vicious hussy is evil!

She knew to watch the surveillance and cause trouble!

Of course, the Head of Teaching knew of the method that Jian Yiling had just mentioned. He didn't want to talk about it as he didn't want to waste time and energy on such a trivial matter.

Not to mention that Jian Yiling was a bad student that wasn't worthy of being a student at Shenghua High School.

He had originally wanted to forget about the matter. However, he didn't expect Jian Yiling to think about things so clearly and ask him to check the surveillance.

In front of all her classmates, the Head of Teaching felt that Jian Yiling was attempting to make matters difficult for him.

And thus, the Head of Teaching said with a straight face, "Do I need you to tell me this? Of course, I know to check the surveillance. However, I wanted to give this student the opportunity to own up to their mistakes."

Jian Yiling nodded and said, "That's fine. If the student does not own up, please remember to check the surveillance."

Chapter 22: Why is a Wolf Attending Class?

Jian Yiling appeared to not be in a hurry at all. Her demeanor was calm and her eyes were clear. In fact, her words were spoken warmly.

Instead, it was the Head of Teaching and Qiu Yizhen who were furious and couldn't even show it.

"Okay, everyone. It's not early anymore. The morning is the golden time of the day. You must seize this opportunity and study well. Don't waste such a good time to study! You guys must understand that your most important task is to study and should not be thinking of doing anything else!"

The Head of Teaching instructed everyone in the class and urged the class leader to lead the class for the readings. After doing so, he left in a hurry. He didn't want to look at Jian Yiling any longer. Doing so just made him angry.

Qiu Yizhen had a ball of fire in her heart. She felt as though she was being played by Jian Yiling the entire morning. She was so angry and didn't know where to go to vent it.

And the key thing was the Head of Teaching had promised Jian Yiling that he would check the surveillance! She had think go back and figure out how to conceal this matter!

Before Qiu Yizhen left, she glared at Jian Yiling. That look seemed to be saying, "You wait!"

The student that shared the desk with Jian Yiling glanced at her from time to time. She seemed to be observing the difference between Jian Yiling right now and the one from seven days ago.

The girl who Jian Yiling shared the desk with was called Hu Jiaojiao. Her appearance was delicate and beautiful and she was quite timid.

She didn't have a bad relationship with Jian Yiling before this had all happened.

Although the Jian Yiling from before had a bad temper, she wasn't someone who was unable to distinguish right from wrong. If Hu Jiaojiao didn't wrong her, she would not take the initiative and bully her.

Hu Jiaojiao hesitated for a while before taking the initiative to ask Jian Yiling. "Jian Yiling, I'll help you pick up the books at the back of the classroom. They'll be needed in class later on."

Hu Jiaojiao felt a bit apologetic. This was because when the incident had happened, she had done nothing to stop it from happening.

"There's no need." Jian Yiling held the 'scalpel' candy in her mouth. She loved to eat sweets. Since she had started eating the candy, she didn't feel like stopping. It was bad to waste food anyways.

"You don't want me to go pick up the books?"

"It's not important," Jian Yiling replied. She didn't really care that her books were scattered around the back of the classroom.

Those books had no use for her. And even if someone were to pick those books up, it should be the person who had thrown them there in the first place.

Hu Jiaojiao realized that Jian Yiling didn't appear to care about those books and thus didn't mention the matter again.

Because according to her previous understanding of Jian Yiling, if she said that she didn't want it, she really didn't want it.

To be honest, Hu Jiaojiao didn't feel like Jian Yiling was difficult to get along with. Jian Yiling would never hide what she wanted and there was no need to work hard and speculate what was on her mind.

Her words were a bit too straightforward and she didn't like to beat around the bush when talking. She never praised or flattered anyone and often caused other people to be embarrassed.

The formal school bell rang and the first class was English. Jian Yiling brought out an English textbook from her schoolbag and stood it in front of her.

Following which, she took out two more notebooks and opened one in front of her hand.

After opening another book, Jian Yiling took out a pen and started writing something on it.

Hu Jiaojiao didn't want to pry on what Jian Yiling was writing. Thus, she only roughly saw the content that Jian Yiling was writing. It appeared to be some chemistry formulas and a bunch of formulas for organic matter.

When the English teacher came over, Jian Yiling covered the first notebook.

That notebook was the one that Qin Chuan had tutored her with. She turned to the section which had English notes. There were various summarized paragraphs of tips and tricks for grammar.

As the teacher saw that it was a study notebook, she didn't say anything.

For her, it was the first time that she saw Jian Yiling taking notes so seriously.

She didn't know whether Jian Yiling had changed for the better after the incident or not.

Either way, hopefully, it was not a brief period of enthusiasm.

Chapter 23: Why is a Wolf Trying to Pretend to Be a Bunny?

For Jian Yiling, it was easier to be in class than to face Qin Chuan for one on one classes.

She had a lot more time to do her own things.

As the teachers did not have high expectations of her, they would not stare at her all the time. It was much easier hiding from them than hiding from Qin Chuan.

For the entire day, Jian Yiling did not leave her seat. In the break time, she appeared to be busy as well.

Everyone in the class looked at her from time to time with strange eyes. However, no one dared to do anything and cause conflict.

At this time, there was another popular post that rose on the school forum.

Title: [Jian Yiling returns to campus. Discuss how strong is her crew/ family support]

The original poster had mentioned that Jian Yiling returned to school today. They had also attached a photo of Jian Yiling that was taken secretly from at a certain angle.

In the photo, Jian Yiling's outfit seemed to look extremely simple. She wore a white shirt with black pants with no extra decorative patterns.

Her hair was tied back into a ponytail and looked neat and tidy.

[How disgusting. Look at her dressing up like that and pretending to play innocent!]

[That's right! She's has a wolf's heart, yet she pretends to be a bunny! [Vomit Emoji]]

[I don't know what the school is thinking. How can they let a student with violent tendencies to return to school!? Are they not afraid that she will do something malicious again? [Angry Emoji]]

[I'm nervous. The next time I see her I will take a detour. Especially if I see her on the stairs, I need to be careful. I'm the only child of my parents. They're still waiting for me to provide for them when they're old! [Pitiful Emoji]]

[As I said, the school did not consider or see our opinion at all. If they did, why would they allow Jian Yiling to return?]

[Don't even think about that! Jian Yiling's background is strong.]

[The person above me is correct. However, this has nothing to do with Jian Yiling's background being strong or not. You have to blame their family for being bias. Feels bad for Jian Yunnao. To be harmed by his sister and for his parents to still protect their daughter. If the victim doesn't say anything, there is nothing that the school can do. Furthermore, there is nothing the police can do either.]

[[Love heart]][Love heart] Don't cry Jian Yunnao. We will always support you! We are your eternal backing!]

Although registering for the campus forum requires student details, when making posts and commenting, it was possible to hide your name and use a nickname. Thus, when you commented, you didn't know who was who and didn't need to worry about exposing who you are.

As Hu Jiaojiao looked at the popularity of the post continuing to rise alongside more and more comments being added to the thread, she began to worry.

Thus, she carefully poked Jian Yiling in the elbow and pushed her mobile phone next to Jian Yiling to let her see the content within.

Hu Jiaojiao said cautiously, "If you didn't do it, you should go online and explain this to them."

Jian Yiling lowered her head and looked at Hu Jiaojiao's mobile phone screen. The opinions on the forum were quite strange. Topics and discussion could even range to discussing what people wore on a day to day basis.

Jian Yiling noticed that the person who posted the new thread was the same person who had accused that she was the person who had caused Jian Yunnao to become injured.

This caught Jian Yiling's attention.

Originally, the school only knew that Jian Yunnao had gotten injured. No one had linked the incident to Jian Yiling.

If it weren't for this individual who sprung this story into life, everyone would not have associated Jian Yunnao falling down the stairs with Jian Yiling.

Hu Jiaojiao glanced at Jian Yiling's expression and saw that although she appeared to be serious, she didn't look angry.

Thus, she whispered to Jian Yiling in an attempt to persuade her, " Why don't you try and explain to them? If you don't say anything, they will think that you are quiet because you're guilty."

“Thank you,” Jian Yiling said to Hu Jiaojiao. “However, there is no need for an explanation,” Jian Yiling continued as she rejected Hu Jiaojiao’s suggestion.

She didn’t think that debating them would result in anything.

Once Hu Jiaojiao saw that Jian Yiling didn’t want to explain her actions, she turned around to go back to doing her own things.

Chapter 24: Mysterious Investor

As Qin Chuan didn’t need to go tutor Jian Yiling today, he returned to Hengyuan University which was where he studied.

He was currently in his second year of university and thus, his workload wasn’t that intense yet. And with his current grades, even if he didn’t attend his classes, he still could successfully pass the exams. He didn’t have to worry about his grades at all.

As soon as Qin Chuan returned to his dorm, his roommate and good friend Bai Youqian threw himself at him in happiness.

Qin Chuan took a small step back before saying, “If you have something to say, say it properly. I’m straight.”

“Brother Chuan, there’s good news! Super good news in fact! We got funds for our project!”

Bai Youqian excitedly told Qin Chuan the amazing news that he had just received.

“There was someone who is willing to give us funds?” Qin Chuan’s face that usually appeared to look cold had a rare glimmer of excitement and emotion.

Qin Chuan had worked with his roommates to create a new software app for socializing. The software was currently in its prototype stage and they were trying to find angel investors.

The early stages of creating this application were incredibly costly. If they didn’t get timely investments, they wouldn’t even be able to pay the fees for using the server.

Qin Chuan and his roommates only had technological skills. They did not have money.

His roommates were children from ordinary families. Qin Chuan himself, could not even be considered to be from an ordinary family.

“Yes! And it’s two million! Our problem will be solved soon!” Bai Youqian jumped up and down with excitement. It was as though he was a three-year-old child.

“Where is the investor from?” Qin Chuan asked quickly.

Although Hengyuan University was one of the best universities in Hengyuan City, it was not ranked highly in the country.

It was incredibly difficult for an undergraduate from an ordinary university to receive funds for a startup company.

“I don’t know their real name. However, we will find out when we sign the contract.”

“You don’t know their real name?” This made Qin Chuan somewhat skeptical of the matter. Before he saw the money, anything could be possible.

“The other party always used an abbreviation of their name. The abbreviation is F.S.”

F.S?

“Was their surname Fu?”

“How much equity does the other party want?” Qin Chuan asked again.

Angel investors typically would take around 5-30% of the equity from the entrepreneurs. The amount would typically depend on the negotiations between the two parties.

And now that they were in a passive position and the other party was willing to fork out two million dollars, it was difficult to make sure that the other party wouldn’t ask for a ridiculous amount of equity.

“20%” Bai Youqian replied.

That request was quite reasonable. After all, two million dollars was a lot for Qin Chuan and Bai Youqian at the moment. And furthermore, it could solve their urgent situation.

“Youqian, could you give me the other parties’ contact details? I will talk to them personally.” Qin Chuan was serious about this matter. He didn’t want to miss this opportunity.

“Sure thing!” Bai Youqian gave Qin Chuan the contact information. At the same time he also reminded his friend, “Brother Chuan, you should also pay attention to your health. You have so many things going on in your life right now. You have to take care of your mother, tutor that girl from that rich family and you’re also busy with our startup company. Please don’t tire yourself out.”

Although Qin Chuan skipped almost all his university classes, he could still only sleep around four hours a day.

“I’m fine.”

“How is the girl from that rich family anyways? Is she hard to deal with?”

“Much better than expected.” Speaking of Jian Yiling, Qin Chuan felt as though she was much easier to deal with than he had initially thought. She wasn’t wilful nor stubborn. It wasn’t even difficult for him to explain the required content to her.

In fact, when he tutored her, he even had time to do his own things.

Qin Chuan quickly sent a message to the email of this investor with the initials F.S.

At the same time, a message popped up on the screen of Jian Yiling’s phone that was currently on silent. The message read, [Hello, My name is Qin Chuan. I’m the main person in charge of Project Changhang.]

Chapter 25: Alone with Elder Brother (1)

Jian Yiling glanced at the message before she turned the screen off. She didn't immediately reply to the message.

Jian Yiling didn't want to have too much interaction with Qin Chuan. And thus, she didn't want the male lead to know her real identity when it came to the investment.

According to the direction of the original book, Qin Chuan's project would undoubtedly be a success. Jian Yiling had no reason to miss such an opportunity to make money.

Although she didn't like the male lead, it didn't mean that she was going to refuse an opportunity to make money and make the male lead work for her.

The Jian Yiling from the previous iteration of the novel wanted the male lead's love and attention. However, right now, the Jian Yiling of current only wanted to make money.

Jian Yiling specifically rushed to invest in the project before the original investor appeared. And she had only requested for 20% of equity.

This was due to the fact that the investor that would appear later caught on that Qin Chuan and his roommates desperately required funding for the project. Thus, they had requested 30% of equity.

By doing this, Jian Yiling could guarantee that even if the original investor appeared, Qin Chuan would be more inclined towards her money and support.

When school was over, the person who came to pick Jian Yiling up from school changed to her elder brother Jian Yuncheng.

Her mother, Wen Nuan had only taken two days of rest before she had hurried back to the hospital to change shifts with Jian Yuncheng.

As a mother, Wen Nuan wanted to stay with her son when he was the most depressed to help him become better.

A mother would take care of her son much better than a competent caretaker.

And thus, Wen Nuan insisted on taking care of Jian Yunnao by herself.

Jian Yiling spotted the obvious signs of exhaustion on Jian Yuncheng's face.

During this time, Jian Yuncheng not only had to take care of his younger brother, but he had to also expand his company overseas. He would often stay up till 3 to 4 am and sleep less than 4 hours a day.

Even if he had a fever just a few days ago, he could only have some medicine and take a small break.

Jian Yuncheng said to Jian Yiling, "Today, there will only be us two at home. What do you want to eat? We can eat outside."

Jian Yuncheng had asked Aunt An to go to the hospital to take care of Wen Nuan.

His mother couldn't get sick before his brother got discharged from the hospital.

Jian Yuncheng's attitude towards Jian Yiling was significantly better than before.

However, he still appeared to be serious and spoke with a straight face. It seemed as though he was dealing with work-related matters.

Jian Yiling glanced at Jian Yuncheng before replying, "Let's go home and eat. You're rather busy."

Jian Yuncheng needed rest. His eyes were bloodshot.

Jian Yuncheng agreed with Jian Yiling's proposal. "Then let's go home and order takeaway."

He really didn't have the energy to eat outside.

When they arrived home, Jian Yuncheng saw that there were seven to eight parcels piled in front of their house. They were all Jian Yiling's. During the day, Aunt Ao had accepted all these deliveries for Jian Yiling.

Jian Yuncheng didn't ask her what she had bought and why there were so many parcels.

The children of the Jian family had control of their own finances ever since they were children.

From a young age, the Jian family tried to develop their child's ability to independently manage their finances.

When he was the same age as Jian Yiling, he had attempted to buy stocks and shares.

And therefore, regardless of what Jian Yiling ordered online, as an elder brother, he didn't plan to ask her about it.

Jian Yiling asked Jian Yuncheng to return to his study room to rest. "Go sleep for a bit, I'll call you when the food is ready."

When she was speaking, Jian Yiling's eyes were not looking directly at Jian Yuncheng.

Jian Yuncheng could only see the top of Jian Yiling's head. Her soft and black hair.

Jian Yuncheng assumed that Jian Yiling meant she was planning to go and order food when she said "Call you when the food is ready."

He had no objection to this. He wasn't a picky eater.

However, he didn't know that once he returned to his study, Jian Yiling went into the kitchen.

After checking the ingredients in the refrigerator, Jian Yiling began to prepare dinner.

Chapter 26: Alone with Elder Brother (2)

There was a variety of rich and fresh ingredients in the fridge.

First of all, Jian Yiling made chicken soup. She left the chicken soup to simmer on the fire.

Jian Yuncheng needed some soup to supplement him.

The second dish Jian Yiling prepared was 'Chicken, mushroom and ham threads in a consomme'.

This dish required numerous different ingredients to be cut into very fine and thin shreds.

Not only did this dish depend on knife work, but it also depended on patience.

It just happened to be that Jian Yiling required practice for her surgery. Although cutting vegetables and surgery were two very different things, this sort of cutting could also be used in practicing and developing her skills.

Jian Yiling found the ingredients that were required to make the dish from the fridge. Pork, chicken breast, winter bamboo shoots, mushrooms, and ham.

There were all common ingredients in the Jian family kitchen.

After cutting up the ingredients, she placed them into a plate and began to steam them.

Finally, she boiled some okra. Green vegetables were very important to eat.

During the time where the soup simmered and the dishes were being steamed, Jian Yiling went to the table next to the kitchen and took out her computer for a while.

Almost an hour later, the soup was ready.

For two people, there were two dishes and one soup. There was a healthy combination of meat and vegetables.

At this time, Jian Yuncheng also came downstairs. This was because it had almost taken an hour and he felt that takeaway was a bit slow today.

When he arrived downstairs, he saw hot and fresh food on the table.

The fragrance of the food permeated the room and made people incredibly hungry.

Jian Yuncheng was probably starving. He ate two bowls of rice and drank an extra bowl of soup at the end.

Jian Yuncheng had to admit that the takeaway food that Jian Yiling ordered was quite good. Although the food delivery took quite a while, it was worth the wait.

###

After dinner, Jian Yiling returned to her room and opened the parcels one by one. Within one of the parcels, there was a mini 4G camera.

It was in a cube shape and was no bigger than a pencil sharpener.

It had a memory card and could be directly connected to a mobile hotspot.

Jian Yiling placed the camera into her bag.

The second parcel had black woolen thread and knitting needles.

Jian Yiling wrapped the wool around the needle and began to knit. She used the most common flat needles.

She didn't finish knitting everything in one sitting. After knitting for a while, she went to her study to do other things.

Jian Yiling preferred the combination of working occasionally and resting occasionally. She liked combining mental work and manual work.

At eleven o'clock, Jian Yuncheng came to Jian Yiling's study room to visit her.

He found out that she was asleep at the table.

In order to catch up with progress, Jian Yiling hardly slept in the last week.

In the previous week, after she got tutored by Qin Chuan every single day, she returned to her bedroom. From that time onwards, she was busy in the middle of the night. She went to sleep at around the same time that Jian Yuncheng did.

Jian Yuncheng's eyebrows furrowed slightly when he saw Jian Yiling's appearance when sleeping.

Her small face looked thin and haggard.

Was it because she had too many arrangements in the last few days that she hardly got time to rest? Was she too exhausted?

Jian Yuncheng walked to the desk and picked up Jian Yiling. He planned to carry her back to her own room and let her sleep there.

What he didn't expect was that Jian Yiling had woken up in fright.

She instinctively began to struggle and her eyes were filled with terror.

It was only when she saw the person who had touched her was Jian Yuncheng that the panic in her eyes gradually calmed down.

Jian Yiling wasn't used to the touch of other people.

As a member of the medical staff, she had lacked the touch of her loved ones ever since a young age.

Due to this factor, this habit was not easy to break.

Jian Yiling's panic and fright had shocked Jian Yuncheng.

At that moment, there was an emotion in Jian Yiling's eyes that Jian Yuncheng had never expected.

Even now that she had stopped struggling, Jian Yuncheng could still sense that Jian Yiling was extremely tense and nervous.

Chapter 27: Qiu Yizhen Causing Trouble Again

Jian Yiling reached out and gently pushed Jian Yuncheng away.

The movement wasn't large, but there was an obvious intention of resistance.

Jian Yuncheng frowned. However, he still had to put Jian Yiling down.

Once Jian Yiling's feet touched the ground, she told Jian Yuncheng that she was going to sleep first.

She swiftly picked up the things on the table and put them all into her school bag. After she did so, she turned around and left the room.

Jian Yiling's actions were akin to a small animal that was trying to hide from a hunter.

And Jian Yuncheng was that hunter that was attempting to hunt down the prey.

Jian Yuncheng couldn't help but reflect on his actions. Was he too strict on her recently? She was only a fifteen-year-old girl...

After thinking about it for a while, he realized that he shouldn't be having such thoughts.

Yiling had done the wrong thing. Even though he cared and treasured her, who was going to care about the future of Yunnao? His hands were now ruined.

Compared to what Yunnao had to go through, Jian Yiling's suffering over the past two days meant nothing.

As Jian Yuncheng thought about Yunnao, his brows furrowed even more.

Even though Yunnao's medical records had been sent, the other party still hadn't been able to give them a good reply.

As he thought about this, he forgot about Jian Yiling's matters. He turned around and went back into his room. He wanted to try and find his friends to see whether they could help him contact a specialist in this area.

###

The next morning, Jian Yuncheng sat next to Jian Yiling as he sent her to school. His face was cold as ever.

On the way to school, the two of them didn't even say a word. Jian Yuncheng was concentrating on driving whereas Jian Yiling concentrated on her mobile phone.

Shortly after Jian Yiling arrived at the class, Qiu Yizhen came to find her again. As usual, two of her followers were close behind her.

Due to the predicament that Jian Yiling placed her in, Qiu Yizhen was in a desperate situation yesterday.

In the end, she used her father's position and connections in the school to erase the surveillance.

This time, if she saw Jian Yiling again, Qiu Yizhen would be extremely pleased with herself.

"Jian Yiling, do you think that you're very clever?! You even wanted to use the surveillance to get me into trouble! However, do you see me being punished? Do you think that you can affect me at all?" Qiu Yizhen said in a mocking tone.

"The school holds surveillance for three months. If the surveillance video were to go missing in seven days, there definitely is a problem." Jian Yiling raised her head and gazed at Qiu Yizhen.

Her eyes were sharp and it was as though she could read people's minds.

Furthermore, it was not only her eyes that made people apprehensive, her words too were astonishing.

Her tone was confident and her expression was calm. It was as though she had seen what happened right in front of her eyes.

And the truth wasn't far from this. This made Qiu Yizhen quite flustered.

However, there was only a moment of panic. Qiu Yizhen quickly calmed down again.

"So what? What if there is a section of the surveillance that has gone missing? There are thousands of reasons which could explain why! Either way, you have no way to prove that your book was damaged by me!"

Qiu Yizhen spoke with a prideful tone and her attitude was arrogant.

The two followers behind her also began to laugh.

"Jian Yiling, if you want to mess with me, take a good look at yourself first! At Shenghua, no one messes with me!"

"Besides, Jian Yiling never knew about what she could do and what she couldn't. Look at her right now! After we got to know that she pushed her brother off the stairs, she starts acting as though she is innocent! A pitiful look that tries and suggests that she would never hurt a soul! I'm disgusted just looking at you! And I don't even know who you are acting for. As if anyone would believe your act!"

Chapter 28: Leave Shenghua High School As Soon As Possible

The two followers continued to mock Jian Yiling.

The words that they said made the rest of the students in Class 8 feel quite uncomfortable.

Qiu Yizhen was quite an arrogant individual. She did everything she wanted just because her father was the Chairman of the school. One could say that she was the tyrant of the school. She even deleted the surveillance.

However, no one dared to say anything. The first reason for this was because they were all afraid of Qiu Yizhen.

The second reason being, although Qiu Yizhen wasn't a good person, neither was Jian Yiling.

As they argued, they were akin to a dog fighting another dog. It would be best for the rest of them to just watch and not be stupid enough to interrupt and cause trouble for themselves.

As Qiu Yizhen saw that Jian Yiling remained silent, she was delighted and felt the thrill of insulting her.

Qiu Yizhen continued to ridicule Jian Yiling, "That's right. Just to remind you, today's recording is still available. You can go talk to the Head of Teaching and cry about how I ridiculed you! Of how I made fun of you standing less than 10 centimeters away! Ask him to check the surveillance for evidence! And of course, the premise of that is the surveillance in our school has sound available!"

Following her statement, Qiu Yizhen and her two followers began to laugh.

There was in fact no sound available for the surveillance. One would only be able to see Qiu Yizhen talk and laugh in front of Jian Yiling. However, Qiu Yizhen could explain that she was just here to have a friendly chat with Jian Yiling.

And thus, Qiu Yizhen could say whatever she wanted in front of Jian Yiling. As long as she didn't resort to violence, Jian Yiling had no choice but to suffer in silence.

There was no expression of anxiousness on Jian Yiling's face.

"You can't do whatever you want just because your father is the Chairman of the school." Jian Yiling said slowly.

She simply stated the fact that everyone knew.

"Why not? Are you jealous? Jealous that my father is the Chairman of the school? Even if you're upset, you can't do anything about it!" Qiu Yizhen mocked. Her eyes were full of sarcasm as she continued, "And I want to tell you that, not only can I delete the surveillance video, I can also get you kicked out of Shenghua High School!"

"That's right!" One of Qiu Yizhen's followers echoed. "Go look at yourself in the mirror, Jian Yiling. Figure out your own situation first. You're just someone who is detested by everyone. Get lost and go home! There is no place in Shenghua High School for you! We don't need someone who hurts her own brother."

Qiu Yizhen didn't want Jian Yiling to return to school.

As a fan of Jian Yunnao, she couldn't do much for him. However, she could ensure that before Jian Yunnao returns to school, Jian Yiling would disappear.

Jian Yiling remained calm. Her expression and eyes appeared to be indifferent to what was happening in front of her.

Hu Jiaojiao who sat next to her felt uncomfortable listening to all this. She wondered how Jian Yiling was coping with all this.

Qiu Yizhen glanced at the time and realized that it was almost time for class. Thus, Qiu Yizhen gave Jian Yiling one last warning and said, "Get out of Shenghua High School! Otherwise, you won't have a single peaceful day! I'm only giving you a warning at the moment. Once my patience runs out, then you will suffer!"

There was only so much that Qiu Yizhen could do to Jian Yiling at school. She could easily bully other students. However, Jian Yiling's background made it difficult for her to bully.

If she did something at school and that alarmed the elders of the Jian family, then that was something that even Qiu Yizhen's father couldn't deal with.

If Jian Yiling continued to be an irksome presence, then Qiu Yizhen would do worse things to her. Even if she couldn't do anything at school, she knew some people who did dirty work outside of school. Compared to Qiu Yizhen, they would easily mess up little girls like Jian Yiling!

Chapter 29: Recorded a Video

Qiu Yizhen and her two followers finally left Class 8.

After she left, the whole class was relieved.

When Qiu Yizhen was in the room, no one dared to breathe loudly for the fear of accidentally annoying her.

At this moment, Jian Yiling picked up a black cube-shaped object from her desk.

She removed a memory card from the object.

Then she inserted the memory card into her laptop.

Hu Jiaojiao's eyes widened when she saw what Jian Yiling was doing.

Soon, the recording of Qiu Yizhen and her two followers appeared on Jian Yiling's laptop screen.

"You... You recorded everything?" Hu Jiaojiao had an inconceivable expression on her face.

"The surveillance of the school isn't effective."

Jian Yiling knew that Qiu Yizhen was the daughter of the Chairman of the School. It was not hard to guess that the surveillance of the school posed no threat to her.

And thus, compared to the school surveillance, one that she recorded herself was much more reliable. In addition, the equipment that she had purchased could also record sound.

Whilst she was answering Hu Jiaojiao's question, Jian Yiling's fingers quickly tapped away on the keyboard. She modified a few sections of the video, pixelating the faces of individuals involved and removing certain phrases.

The key phrase that she got rid of was "Jian Yiling." She didn't want her name to appear in the video.

Hu Jiaojiao blinked her eyes in confusion. She knew that the surveillance of the school wasn't reliable. However, Jian Yiling appeared as though she could read the future.

After editing the video, Jian Yiling uploaded the video. She paid a few internet celebrities to retweet her video.

By the afternoon, numerous internet celebrities had retweeted her video.

Before the end of school, the video had become a hot topic.

Because of the pixelation, no one knew who was the arrogant tyrant of the school. However, that didn't prevent them from expressing their opinions.

[Isn't this too arrogant? She thinks she can do anything just because she is the daughter of the Chairman!?!]

[This is bullying! It is definitely bullying! Why is there no one taking care of this matter?]

[Come come, someone tell me what school this is. Which Chairman is ready to come out and have a good talk with us?]

[See how important it is to reincarnate in the right person's stomach?]

It didn't take long for the comments to reach the thousands. Furthermore, the number of comments continued to rise.

Because of the pixelation, people on the Internet couldn't recognize the individual in the video.

However, the teachers and students from Shenghua High School could recognize who the individual was from a glance.

The silhouette was way too familiar.

Wasn't this their school tyrant, Qiu Yizhen, and her two followers?

The matter quickly caught the attention of the school. Soon after, Qiu Yizhen's father, Qiu Liyao, got contacted regarding this matter. He was put under pressure to do something by the other members of the school board.

If this matter became big, this would affect the reputation of the school and the interest of all the shareholders that were involved.

Qiu Liyao immediately called Qiu Yizhen to his office.

"What's your problem? How do I have a daughter like you? You never learn from the good and only learn things from the bad! It doesn't matter if you're not studying well. However, why are you trying to be the tyrant of the school?! Are you trying to kill me now or something?"

Qiu Yizhen got scolded by her father as soon as she entered the office.

Qiu Yizhen hadn't been on Weibo yet today. Thus, she didn't know that the video of her troubling Jian Yiling had been uploaded.

Qiu Yizhen also became furious that she kept getting scolded. "Why are you so angry? Other than telling me off, do you know how to do anything else?!"

Chapter 30: Qiu Yizhen is Anxious

Qiu Yizhen didn't have a good relationship with her father. They often argued.

"What are you talking about? Look for yourself!" Qiu Liyao picked up the phone and nearly hit his daughter on the head with the device.

He paused for a moment before he threw the phone onto the desk.

Qiu Yizhen picked up the phone and clicked open the video. As soon as she saw the video, her expression changed completely.

Wasn't this what happened in the morning when she went to cause Jian Yiling trouble?

Jian Yiling actually recorded it?!

Qiu Yizhen's face went pale.

When Qiu Liyao saw her expression, he became even more furious. "And now you're dumbfounded? You are indeed my good daughter!"

Contrary to what Qiao Liyao expected, Qiu Yizhen straightened up her chest and retorted, "What about you when you cheated on my mother? You never ever think about me when you're working either. Have you ever considered me as your daughter?"

"I haven't considered you as my daughter? Who was the one who funded you for your food and education? If it weren't for me, how would you even manage in this school? You're alive today because of me!"

Qiu Yizhen went silent at the scolding.

Although Qiao Liyao didn't spend much time with his daughter, he made up for it with money and status.

If it weren't for Qiu Liyao's position in the school and his protection, there was no way that Qiu Yizhen would be so oppressive in the school.

Just to take an example, she was able to delete a section of the surveillance due to the fact that she was Qiu Liyao's daughter. If it weren't for that, the person in charge would never have let her erase the surveillance video.

Qiu Liyao continued to direct his anger at her, "I'm telling you right now, I'll find someone to delete what's on the internet right now. However, before the end of today, you must find a way to get rid of the original video! Otherwise, if your face turns up on the internet, you will be in deep trouble!"

The current video was pixelated. Right now, there was no way to directly connect the video with Qiu Yizhen and Qiu Liyao.

However, if the original video were to be sent out, it would be a matter of minutes before someone figured out that the school in question was Shenghua High.

Qiu Yizhen certainly knew who released the video. There was nobody else other than Jian Yiling who could take the video at this angle.

"I know, I know. I'll settle this!"

"I hope you can settle this! Otherwise, don't ever come back! Tonight I have to meet an important individual! If your incident causes me to be not able to meet this individual, your monthly living expenses will be gone!" Qiu Liyao mercilessly said to Qiu Yizhen.

After being given an ultimatum, Qiu Yizhen ran directly to Class 8 after she left the office.

School had just ended and Jian Yiling was packing up her things and ready to go home.

As soon as Qiu Yizhen entered the classroom, the entire class stopped what they were doing and looked at her nervously.

Qiu Yizhen stopped right in front of Jian Yiling and yelled, "Jian Yiling! You hussy! How dare you video me in secret!? Have you lived for too long?!"

Jian Yiling didn't turn around immediately when she heard Qiu Yizhen's voice. She took her time to pack up her belongings before she turned around.

As she packed up her belongings, the entire class was sweating nervously.

Qiu Yizhen was filled with anger. Her fists were squeezed together and she wanted to hammer them down on Jian Yiling. She wanted to shatter the calm expression on her face.

When Qiu Yizhen saw Jian Yiling's bag, she suddenly remembered that the thing that recorded the video should be in her bag.

She was just about to grab at the bag when Jian Yiling spoke up.

"The original video has already been stored in a Cloud. It is useless for you to break any of my possessions."

Jian Yiling's voice remained calm and leveled. However, the more Qiu Yizhen heard her voice, the angrier she got.
