

Sign In To Become a God #Chapter 20: Join Xtreme Martial Arts Gym - Read Sign In To Become a God Chapter 20: Join Xtreme Martial Arts Gym

Zhou Yongzheng's three-dimensional projection in the large audio-visual room has disappeared, leaving only Wu Tong and Wang Yi.

"Hahaha...Congratulations, Wang Yi, from now on, you are also a member of our Xtreme Martial Arts Gym." The smile on Wu Tong's face is particularly bright. From the attitude of the president just now, he has already learned that he recommends talents. The credit must be indispensable.

As for my colleague Jiujiang City Xtreme Martial Arts Hall, what will happen afterwards? Wu Tongcai was too lazy to think.

A smile also appeared on Wang Yi's face.

This time the quasi-martial assessment, he also achieved his goal. The first is to get the attention of the Xtreme Martial Arts Gym and join the Xtreme Martial Arts Gym, and the second is to get a place in the 'Elite Training Camp'.

In the starry sky devouring world of many comrades, the 'elite training camp' has almost become a copy that every protagonist must do.

There are so many good things there, and Wang Yi doesn't want to miss it.

The signing of the cheat sheet is indeed very sharp, but unfortunately it is too random. After Wang Yi has been engaged for so long, his strength has only grown so little.

Had it not been for the special reward for signing in for the first time, and the triple genetic level, his current physical fitness would probably not be much better than Luo Feng, who had just awakened his mental power.

Under Zhou Yongzheng's personal arrangement, a contract was drawn up quickly by the Jiangnan General Assembly Hall and passed it over. Wang Yi looked at it and signed it.

In terms of martial arts contracts, treaties around the world are almost the same. You must know that martial artists are a large collective and powerful. It is difficult to have any treaties that can force them to bind them. The treaty for genius warriors is also very loose, and the liquidated damages also have a maximum upper limit. Basically, as long as the stronger warriors want, they can easily be compensated.

In order to win over powerful and potential warriors, the various organizations and forces are desperately offering various generous conditions.

However, Wang Yi traveled through it. Naturally, he knew that joining the Xtreme Martial Arts Gym was the best choice when his initial strength was insufficient.

After signing the contract, even if Wang Yi formally joined the Xtreme Martial Arts Gym, because of his special circumstances, Xtreme Martial Arts will help him get his martial artist qualification certificate, instead of participating in the actual combat assessment of the martial artist on August 1.

To obtain the status of a martial artist for Wang Yi in advance, this is just a small matter for the Xtreme Martial Arts Gym.

According to Zhou Yongzheng, if all goes well... The Xtreme Martial Arts Center's arrangements for him will be issued soon. It is estimated that he will be sent to the Xtreme Martial Arts World Headquarters at the end of this month at the latest. As for entering the "Elite Training Camp" or "basic" Training camp' depends on the above discussion and decision.

Then Wu Tong handed over to Wang Yi the training method of the 'Genetic Power Cultivation Method'.

The 'Genetic Power Cultivation Method' is actually very simple. Basically, as long as the physical fitness reaches the standard of 'quasi-warrior', you can practice successfully.

But everyone's physical fitness, talents are different, and the efficiency of cultivation is also different.

Some people may take a month or two to cultivate, and some people may just take a few hours.

And some people may only gain three or four hundred kilograms of strength by practicing their genes for the first time, some people can gain five to six hundred kilograms, and some people can gain one or two thousand.

The more you increase... the higher your talent for cultivating genetic power!

is the so-called cultivation genius!

"By the way, Wang Yi." Wu Tong and Wang Yi walked in the corridor on the seventh floor together. Wu Tong, who was in a good mood, patted Wang Yi on the shoulder. "Your martial arts profile information is estimated to be completed in two days, and it will be sent to you at that time. You can use the above information to log in to our Xtreme Martial Arts Museum website and log in to your martial arts account."

"The 500 million free funds for buying cheats and another 100 million start-up capital must be used properly, which is very important for your future development..."

"You can also move in the villas in the community now. If you like, I will arrange for them to move in tomorrow." Wu Tong is very enthusiastic.

Finally, Wu Tong reminded: "Also, Wang Yi, the headquarters has decided to come. It is estimated that you will soon be separated from your family and go to the global headquarters to study. You will not be able to return until at least January next year, so cherish this time. Get along with your family more."

Wang Yi nodded silently, feeling a little sad.

...

Wang Yi did not go back to the sixth floor martial arts hall to meet with those people. He took his ID card away when he left with Wu Tong, so he didn't need to get anything at this time, and he walked out of the club building directly.

Wang Yi glanced back at the extraordinary hall building, feeling a little bit in his heart, and finally joined the Xtreme Martial Arts Hall.

The following is fast getting stronger.

Wang Yi took out his mobile phone to announce the good news to his family.

Wang Yi was also very happy when he heard the joyous tone of the opposite parents.

To be honest, Wang Yi and Luo Feng are not the same. He doesn't have the idea of becoming stronger.

No one is a born saint or savior. They are all driven to that step by the environment step by step.

For Wang Yi today, his goal now is to become stronger, possess the ability to protect himself, and then resolve the crisis between the Golden Horn monster and the Nuolan Mountain family, and then go to see in the vast universe and see how billions of geniuses have gathered. The scenery of the pinnacle of genius battle.

If you have the chance, join the virtual universe company, mix with the core layer, and lead your family to live a comfortable life with peace of mind, and cultivate into a god, and then wait for Luo Feng, a **** teammate to develop successfully, and lie down to win...and then rely on Luo Feng. It's just a matter of waiting for death in the Holy Land Universe. This is the actual idea.

So he won't grab Luo Feng's chance. On the contrary, he still wants Luo Feng to develop as soon as possible.

But... It is now that Wang Yi joined the Xtreme Martial Arts Gym one step in advance. Who will know the rest?

...

"This is the Thunder Hall in Yangzhou City."

Soon after, Wang Yi appeared in another community in Yangzhou City, Pinghai Community.

This is one of the world's two largest martial arts gymnasiums. The Raiden Martial Arts Hall is in the base camp of the guild hall in Yangzhou City. UU reading www.uukanshu.com

Mingyue Community where and Xtreme Martial Arts Hall are located is actually not far away, just two blocks away.

"Unfortunately, it is no longer possible to sign in today." Wang Yi felt a little regretful.

"However, I have already told my family about passing the quasi-martial examination and the treatment of the ultimate martial arts gym. At least they can rest assured that they will not worry about my college entrance examination." Wang Yi thought.

The college entrance examination is no longer meaningful to Wang Yi now, but as a memory of more than ten years of study, it can be regarded as a memorial to Wang Yi's life. Wang Yi still does not want to miss it.

looked at the sky, because the assessment and testing speed was very fast, so Wang Yi only stayed at the Xtreme Martial Arts Gym for more than three hours before he came out.

The assessment started at about ten o'clock, and now it's less than half past one.

Most of the time was spent with Wu Tong.

"There is still time, so let's go to Luo Feng's place first." Wang Yi thought.

He was worried about whether Luo Feng's family could sign in and come out with mental power.

Luo Feng's mental power was very impressive in the early stage.

"I haven't seen Luo Feng for a long time, but it's only June 1st. Luo Feng suddenly fainted and woke up on the 9th exam day."

"Participate in the assessment of quasi-war fighters on July 1."

"It was then in prison that I discovered and used mental power for the first time."

"I can sign in at Luofeng's house tomorrow on the 2nd, and come to Yangzhou City Thunder Hall to sign in on the 3rd the day after tomorrow. I can go home at noon and arrange for my family to move to Mingyue Community." Wang Yi felt that the sign-in panel was troublesome for the first time. of.

More importantly, it is difficult to sign for any good rewards in ordinary martial arts gymnasium. It is a small improvement to oneself, and it has to run around, so it is difficult for Wang Yi to get interested in going to those far places now.
