

Sign In To Become a God #Chapter 21: Luo Feng - Read Sign In To Become a God Chapter 21: Luo Feng

It takes more than an hour to take the subway from the center of Yangzhou City to Yi'an District.

When Wang Yi walked out of the subway station, it was almost 2:30 in the afternoon.

Wang Yi is not the first time to come to Yi'an District. After he reached the age of sixteen, he came to the third high school in Yi'an District to find Luo Feng.

Otherwise, it is really difficult to find Luo Feng who is unknown.

In the original work, Luo Feng's home is on the 32nd floor of a 36-story residential building in Nan'an District.

So many residential buildings know which building Luo Feng's family lives in, so it's better to go to the school to find it. At least they know that Luo Feng is in the first year of high school and has a name and a surname.

Anyway, Wang Yi spent a lot of work at the time, it can be said that he racked his brains.

After all my thoughts, I gradually got acquainted with Luo Feng.

Wang Yi doesn't know how others think. Anyway, he has no psychological burden. First, he will not deliberately do things that damage Luo Feng's interests. Second, he also likes Luo Feng very much and sincerely makes friends with Luo Feng.

Cough, of course, it is also very important to be able to hold Luo Feng's thighs.

Wang Yi didn't go to Luo Feng's house first. Instead, he checked the time and went directly to the front entrance of the Third High School in Yi'an District. He sat in a cold drink shop and waited for Luo Feng to come out while drinking tea.

Wang Yi is not the only person in the cold drink shop, there are also a few girls sitting at another table, leaning together and whispering while secretly looking at Wang Yi.

They didn't know that no matter how low their voices were, Wang Yi could clearly hear their conversation.

Wang Yi just pretended not to know what they were talking about.

Soon, time passed, and the high school bell rang. Then, the whole school slowly became noisy, and young and energetic students came out in twos and threes from the main entrance.

When Wang Yi saw the two boys walking out with the crowd, Huo Di stood up.
walk out quickly.

"Luo Feng!"

"Wei Wen!"

The thin young man walking on the road with Wei Wen among the student crowd couldn't help but turned his head in confusion when someone called his name, but saw a familiar figure in gray sportswear hurriedly approaching.

"Wang Yi?" Luo Feng's eyes showed surprise.

"Wang Yi?" Wei Wen, the boy next to Luo Feng, also asked in surprise.

Luo Feng and Wei Wen are no strangers to Wang Yi. After all, Wang Yi often comes to visit them from Jiujiang City.

Especially Luo Feng, because Wang Yi is a senior martial arts student like him, and Wang Yi knows that he secretly admires Xu Xin and often gives him tips, so his relationship with Wang Yi is pretty good—though those sound like those. He has never used any unreliable tricks.

"Luo Feng! Wei Wen!" Wang Yi came to the two of them in three steps and two steps, and smiled and patted them on the shoulder.

"Why are you here?" Although Luo Feng was very happy to meet his old friends, he was also a little strange because he knew that Wang Yi was also a senior in high school and he was going to take the college entrance examination in a few days, so there was still time to run to him.

"I have something to tell you." Wang Yi smiled mysteriously, "Luo Feng, Wei Wen, should you be free? Let's find a place to have a good chat."

Luo Feng and Wei Wen looked at each other, "That's good."

After a while, Wang Yi, Luo Feng, and Wei Wen sat together at the cold drink shop before, drinking and chatting.

"You joined the Xtreme Martial Arts Gym?" Luo Feng and Wei Wen were a little surprised when they heard the news.

"Yes, I went to your Xtreme Club in Yangzhou City today, and passed the Quasi-Martial Artist Assessment. Because of my outstanding performance, I was specially recruited by Xtreme Martial Arts Center. It is estimated that the martial arts certificate will be released after two days." Wang Yi did not have it. hide.

Wei Wen couldn't help but said: "But, I heard that it is very difficult to be a martial artist, how did you pass the assessment? And if you want to become a martial artist, you have to go through the actual combat assessment, right?"

Luo Feng was also full of doubts. He knew that Wang Yi's strength was similar to him. Luo Feng is still a long way from passing the quasi-martialist assessment. In his opinion, Wang Yi should be similar to him. He did not expect that Wang Yi suddenly came over today, telling him that he had passed the quasi-martialer, and was valued by the Xtreme Martial Arts Center and became a fighter.

This is too hard to believe.

Luo Feng is also a senior student, and has been working hard with the goal of becoming a real warrior. He deeply knows how difficult it is to become a warrior before graduating from high school.

But Wang Yi actually did it?

"For some reasons, my current strength is much stronger than before, but I can't tell you why." Wang Yi said. "But I have indeed become a martial artist, because I was specially recruited by the Xtreme Martial Arts Hall, so I don't have to go through the actual combat assessment."

Luo Feng and Wei Wen looked at each other. They still had a hard time imagining what level Wang Yi had to achieve in order to make the Xtreme Martial Art Museum in Yangzhou City make an exception for Wang Yi, so that he could have the qualifications of martial artist in advance without going through the actual combat assessment of martial artist.

Of course, Luo Feng and Wei Wen didn't know that it was not the Xtreme Club in Yangzhou City that gave Wang Yi the certificate, but the Xtreme Club in Jiangnan Base City. It is very easy for a general club in a base city to have a martial artist qualification. of.

"Let's go, let's find a place to practice. I'll see how much you have improved since you haven't seen you in a while." Luo Feng stood up and looked at Wang Yi with piercing eyes.

He is essentially a fighting spirit who refuses to admit defeat.

"Okay." A smile appeared on Wang Yi's face~www.mtlnovel.com~ Soon, Luo Feng and the three came to a weedy clearing behind the school playground of the third high school in Yi'an District.

The two stood face to face at a distance of ten meters, while Wei Wen stood not far away to help them hold things.

"drink!"

Seeing that Wang Yi didn't mean to make a move first, Luo Feng sharpened his eyes and gave a soft drink. He stepped on the ground and rushed towards Wang Yi.

Only in the blink of an eye, he came to Wang Yi's front, his right fist made a sound of wind, and he slammed Wang Yi's shoulder fiercely.

Wang Yi blinked, slightly to the side of his body, avoiding Luo Feng's attack.

Luo Feng's fists and feet were like the wind, and he kept attacking Wang Yi, but every time Wang Yi moved his body at random, he avoided Luo Feng's attack. No matter how hard he tried, Wang Yi's clothes were covered. Can't touch it.

And Wei Wen next to him has already opened his mouth.

Wang Yi's movement to avoid Luo Feng is so casual, if he lifts the weight lightly, he can feel the ease and comfort in his bones.

If he hadn't understood Luo Feng's temperament, he would have thought that Luo Feng was deliberately releasing water.

"Huh!" Luo Feng stopped in the field suddenly, took two steps back, looking at Wang Yi with shocked eyes, "Wang Yi, why have you become so powerful?" He only understood Wang Yi by doing it in person. , How terrible Wang Yi's strength is, and it feels like a pool of ancient wells.

Luo Feng has even been taught several times by Jiang Nian, the instructor of the Extreme Martial Arts Center in Yi'an District, but the feeling Jiang Nian gives him is faintly inferior to Wang Yi in front of him.

But he couldn't figure out what made Wang Yi's strength soar in a short period of time, to the point where it was impossible for him to touch a corner of his clothes.

For a while, the little friend he used to be familiar with unknowingly cast a veil of mystery in his eyes.

Sign In To Become a God #Chapter 22: Advance by leaps and bounds - Read Sign In To Become a God Chapter 22: Advance by leaps and bounds

"How about, am I not good?" Wang Yi laughed.

"Cow!" Luo Feng gave him a thumbs up, and he was convinced that Wang Yi is indeed much better than him now.

Wang Yi walked over and said with a smile: "As long as you work hard, one day you can reach my level."

When he said this, Wang Yi felt a little weird in his heart.

I can actually say to the famous Luo Feng one day that you can catch up with me like this.

Of course, Luo Feng didn't think so. He thought Wang Yi was encouraging him, his face also showed determination, and he hummed, nodding heavily.

"That, Wang Yi..." Following, Luo Feng hesitated to say something, seemingly embarrassed. "You are so strong now, can you teach me..."

"Of course there is no problem!" Wang Yi agreed, and he certainly wouldn't refuse the opportunity to get closer to Luo Feng.

And with Wang Yi's current achievements in swordsmanship, body techniques, and physical mastery, there is absolutely no problem in guiding Luo Feng, who is still immature.

"Thank you." Seeing that Wang Yi was so generous, Luo Feng was a little grateful instead.

"What are you polite with me!" Wang Yi smiled.

"Then let's start now!" Luo Feng was a little impatient.

"Okay!" Wang Yi is also a straightforward person.

Seeing Luo Feng and Wang Yi teaching in the open space, Wei Wen next to him shook his head, simply found a comfortable place, and sat there and watched.

was amazed in his heart, "This Wang Yi has only been in sight for a few days. It's incredible that Wang Yi suddenly became so awesome..."

Wei Wen didn't know. The same idea was also in the Jiangnan General Assembly Hall, which collected all the information of Wang Yi as quickly as possible.

The building of the General Guild Hall, the office of the president, the chairman of the Jiangnan General Guild Hall, Zhou Yongzheng in a white exercise suit is sitting behind a large desk, and in front of them are the three directors of the General Guild Hall!

The four giants of the Jiangnan General Assembly Hall of the Extreme Martial Arts Hall gathered together!

"This is all the information we have about Wang Yi so far. Let's see if you have any thoughts." Zhou Yongzheng handed over three thick documents.

The three major supervisors took over the data files and quickly turned it over.

If Wang Yi sees these materials here, he will definitely be surprised. Almost all the experiences he can find from his childhood are here. The energy of the Extreme Martial Arts Hall is so huge. I want to investigate Wang Yi, who was born as an ordinary person. It is even more effortless. It can be said that in the shortest time, the Extreme Martial Arts Museum has almost picked up the deeds of Wang Yi's grandfather's generation, just barely picking up the ashes of Wang Yi's grandparents and studying it.

As they learned about Wang Yi, Wang Yi's image in their minds quickly became fuller.

a long while.

The three supervisors put down the files one after another.

"How is it?" Zhou Yongzheng leaned back in his chair and stared at the three deputies of the General Assembly Hall in front of him.

The three supervisors looked at each other.

A middle-aged man wearing a black Tang suit with a thin body and a hooked nose, with a feminine feeling on the whole person, first spoke: "President, I don't think there is a problem. You can recommend this Wang Yi to the elite training camp. '."

A lean man then said: "I support Director Zhuge's opinion. This Wang Yi is young, with savvy, perseverance, and talent. He is definitely a rare genius in our Jiangnan base city in ten years!"

The last tall and burly supervisor said in a low voice: "President, I also agree with their opinions."

Zhou Yongzheng, after listening to them, nodded in satisfaction, glanced at the three of them, and said: "Then you agree to recommend Wang Yi to the 'elite training camp'?"

"agree."

"agree."

"agree."

The three supervisors did not hesitate.

"Since all of us have the same opinions..." Zhou Yongzheng stood up from the chair, "Then, now, in the name of Jiangnan General Assembly Hall, jointly apply to the headquarters to recommend Wang Yi to enter the 'elite training camp'!"

...

That night, in an ordinary hotel in Yi'an District, in a room on the third floor, a young man sat cross-legged on the bed, posing in a standard posture of 'five hearts to the sky' for cultivating genetic power. He closed his eyes and breathed long and mediocre. smell.

The five hearts here refer to "two soles of feet, two palms, and the Baihui point on the top of the head".

Wang Yi's heart is like still water, emptying his brain, not moving, not wanting, not smelling, not seeing... Soon, he enters a mysterious state, and his consciousness senses the ubiquitous and ubiquitous cosmic energy from the outside world.

"So fast." Wang Yi was overjoyed, and he suddenly woke up from that mysterious state.

But Wang Yi doesn't care much.

Because he has discovered that as long as he enters the state, it seems that he can easily perceive the cosmic energy from the outside world.

This is just a little longer.

"Well, in addition to successfully practicing the [Nine Tribulations Secret Code] First Tribulation Kungfu Method, my gene level has tripled, and I have signed some rewards during this period, which is also helpful to me." Wang Yi thought.

But he thinks that the improvement of the genetic level is the fundamental.

Of course, maybe Wang Yi also has a talent for induction.

"Since you feel the cosmic energy, let's practice." Wang Yi did not hesitate.

once again assumed the posture of five hearts facing the sky, spread his hands on his thighs, closed his eyes, and began to sink his heart.

As Wang Yi relaxes, his mind enters an ethereal state again.

Don't wonder why Wang Yi entered the cultivation state so quickly, because he has been deliberately cultivating this ability over the years.

Soon, he once again sensed the hazy breath of the outside world, UU reading www.uukanshu.com could feel that they were slowly flowing in along the palms of his palms, soles, and Baihui acupoints on the top of his head.

Wang Yi used his consciousness to guide those breaths and speed up the flow of them into his body. In an instant, it was like a flood bursting a bank. The breath that was originally trickling water suddenly became fierce and poured into Wang Yi's body frantically.

Wang Yi's body trembled slightly.

A large amount of cosmic energy flooded into the body, continuously absorbed by the mitochondria in the cell, and at the same time transformed into a stream of 'genetic energy'. This energy was absorbed everywhere in the cell, and the whole cell had undergone earth-shaking changes. Wang Yi's body was also changed. Evolving rapidly.

The skin, muscles, bones, and even the deep level of every cell, and even the gene itself, have undergone slight changes. This change is the evolution of life and an optimization of life genes!

Because the human body has never actively absorbed the energy of the universe and its cells have been in a hungry state, it is generally the first time to absorb genetic energy, which is the greatest increase in strength.

Time passed by every minute and every second.

Wang Yi is still absorbing genetic energy.

Soon, dawn comes.

This time he practiced, Wang Yi spent almost eight hours.

"Huh!"

Wang Yi finally opened his eyes, feeling the changes in his body, with a smile on his face.

"I didn't expect it to take so long for the first time I practiced genetics." Wang Yi sighed with emotion.

He remembered Luo Feng's first time practicing genetic energies, and after only more than two hours of cultivation, he had absorbed saturation.

And he lasted almost eight hours.

is almost three times as long as Luo Feng!

and...

Wang Yi stood up, clenched his fist, and felt the power filled in his body that was stronger than before.

Sign In To Become a God #Chapter 23: Sign in at Luo Feng's house - Read Sign In To Become a God Chapter 23: Sign in at Luo Feng's house

"Well, the strength of the body has probably increased three times, or four times?" Wang Yi guessed in his heart.

incredible speed increase.

You need to know that Wang Yi's body has evolved to nearly 1,300 kilograms before.

According to Wang Yi's fuzzy sense, his current body evolution degree should be between 5,000 kg and 6,000 kg!

For the first time, I practiced genetic primordial energy, which increased almost four to five thousand kilograms of strength!

This is terrible!

You must know that the degree of progress in this first practice also represents a person's aptitude.

Some people practice for the first time and increase their punch strength by 300 kg, which is quite common.

Someone added 600 kg, which is quite good.

Someone has added 1,000 kilograms, which is considered an elite.

And if it has increased by more than 2,000 kilograms! It's a genius!

Wang Yi practiced for the first time, but he tripled or quadrupled it on the original basis!

Wang Yi knew that he was not such a genius, otherwise he would not have worked so hard for so many years, and he was just an ordinary senior martial arts student.

"It is estimated that the genetic level is improved." Wang Yi guessed. "Moreover, I can feel that my own absorption efficiency may far exceed other warriors."

He couldn't help sighing in his heart, this Nine Tribulations Secret Code is indeed against the sky, and it is worthy of being one of Luo Feng's assassins in the original work to enhance his strength.

Wang Yi's body has evolved to the point where it has reached five or six thousand kilograms of strength. Then, based on a triple genetic level, it is between 15,000 kilograms and 18,000 kilograms of strength.

The threshold for advanced fighters is 4,000 kilograms!

The threshold of a junior fighter's punch is 8,000 kilograms!

The bottom line of the mid-level fighter's punch is 16,000 kilograms!

In other words, with the help of the genetic level, Wang Yi's current physical fitness has reached a level comparable to that of an intermediate general-level warrior!

It has only been two months since he got the sign-in panel in April, and Wang Yi's strength has improved by leaps and bounds, from an ordinary martial arts senior student all the way to a point comparable to an intermediate general!

This speed of improvement is simply scary!

But only the first practice can have such an amazing absorption effect, and it will gradually slow down in the future.

"Now it's just a start. In the future, I will get stronger and stronger."

Wang Yi looked at the rising sun slowly outside the window, which seemed to represent his life.

...

Wang Yi came to Luo Feng's house early in the morning.

"Ah, it's Xiao Wang, how come you are free." Luo Feng's parents Luo Hongguo and Gong Xinlan also recognized their son as a friend, a little surprised.

"Quickly, come in and sit down." They greeted Wang Yi quickly.

Luo Feng's parents are very enthusiastic, because they know that their son has very few real friends.

As for Luo Feng's younger brother, a boy with pale skin and weak skin, 'Luo Hua' was sitting in a wheelchair and blinking at Wang Yi.

Wang Yi looked at the shabby and narrow house with emotion in his heart. Although it was not the first time he saw him, every time he came to Luo Feng's house and saw his family living in this embarrassing house, he always felt uncomfortable.

Although Wang Yi's family conditions are also very poor, don't forget that Luo Feng's family also has a disabled Luo Hua. Just taking care of Luo Hua's family will be broken.

Luo Feng's temperament can be so firm, and it is estimated that it has also been affected by the hard living environment since childhood.

"Uncles and aunts, you don't have to be so polite, I will have something to do later, and I will leave soon." Wang Yi hurriedly said.

Consciousness is silently manipulating the golden sign-in panel.

"Check in."

[Ding, congratulations to the host for signing in successfully, and reward the apprentice with the ninth-level spiritual rosary beads.]

【Your mental power has been improved. 】

【Number of check-ins available for this place: 0】

When these messages surfaced in Wang Yi's mind, in his sea of consciousness, the vast sea of fog suddenly grew out of nothing, and a dark golden sphere slowly emerged.

Wang Yi's consciousness could observe that the dark golden orb kept spinning, and at the same time it emitted some white mist.

Wang Yi could feel that his perception of his surroundings has greatly improved.

With a thought, an invisible force spread out like ripples.

is like an invisible eye, standing on a high place with Wang Yi as the center, looking down at everything around him.

Attention is concentrated, even the trace of a fly dozens of meters away from the window can be clearly seen.

Concentrated, the movement of the entire building was heard in the ears.

At this moment, Wang Yi felt that everything was under control.

Wang Yi has a feeling that he can manipulate the invisible force in his mind to control other objects.

But of course Wang Yi would not do this at Luo Feng's house.

"This is the mental power." Wang Yi muttered in his heart.

The human body has two powers, one comes from body genes, which is called genetic power.

A kind of mysterious soul, called mental power.

Generally speaking, those who can practice genetic primal energy can be collectively referred to as warriors.

Those who are able to use the power of mind are called 'spiritual teachers'.

'Spiritual Teacher', who also cultivates genetic primal abilities, is the most special and mysterious group among the warriors.

Even in the world, spiritual teachers are very rare.

Because of cultivating genetic primal abilities and spiritual teachers at the same time, each spiritual teacher can be called an invincible existence of the same level.

The reason is that their mental power is two levels stronger than physical power.

A high-level warrior-level spiritual teacher can have the mental power of a medium-level general.

In addition, the spiritual teacher can manipulate multiple hidden weapons at a distance to attack together. The attack methods are diverse, unpredictable, and very scary.

In the original work, Luo Feng possesses the strongest talent of spiritual teacher among the people on earth. Once Luo Feng's physical fitness reaches the middle God of War

level, the dark golden sphere in his mind that condenses a large amount of spiritual power will shatter and be completely absorbed. He naturally possesses the spiritual power of the pinnacle of the higher God of War, and U U Reading www.uukanshu.com has become the most terrifying existence among the God of War!

And now, through the sign-in panel, Wang Yi also has the same mental talent as Luo Feng!

Wang Yi's body is now only advanced fighter level, with a strength of between 5,000 and 6,000 kilograms, plus three times the genetic level, so that his physical strength can reach the level of an estimated medium warrior level!

And the strength of mental power is determined by the strength of the martial artist's own body!

The general mental power is two levels higher than the physical strength of the martial artist!

In other words, Wang Yi, who has now reached the middle general level in physical fitness, has almost the mental power of the elementary God of War level!

Eighteen years old, with the strength of the first God of War! Moreover, he is still the most terrifying spiritual teacher among the warriors. In terms of true combat effectiveness, perhaps even the middle-class war **** is not afraid!

If there is a sudden attack and you are caught off guard, even the high gods of war can be killed!

A God of War is already a very important figure in the base city.

And now Wang Yi also has the strength of the God of War, and is still a spiritual teacher with infinite potential among the warriors!

This is Wang Yi now!

A high school student who has not graduated yet! He has the strength that ordinary people can't even think of in a lifetime!

As Wang Yi's physical fitness continues to improve, his mental power will also continue to improve.

and mental power will also help improve physical fitness, of course, not as great as genes, but it does exist.

Gaining mental power from Luo Feng's house also made Wang Yi once again improve his strength by leaps and bounds, and added a big weapon!

but...

The eyes he looked at Luo Feng couldn't help but look weird. "Sure enough, he is the son of the plane of this world. Even the broken house he lived in from childhood can get this kind of high-level reward."

Sign In To Become a God #Chapter 24: Scenery - Read Sign In To Become a God Chapter 24: Scenery

In fact, when he came to Luo Feng's house, Wang Yi didn't have much expectation about the mentality of signing in.

After all, it was not that Wang Yi had never tried it before. He also tried it specially where the ordinary martial artist lived, but it didn't work at all.

And the place where Luo Feng lives is just a broken house.

Unexpectedly, Luo Feng gave him an unexpected surprise.

"It seems that it is not impossible to sign in. It is estimated that there are some potential conditions, such as people who live in insufficient level or have any special features." Wang Yi thought to himself.

"Speaking of which, other super powers on the earth, the first person on the earth, 'Hong', and the second person, 'Thunder God', can sign in and get good things out of the places where they live all year round?" Wang Yi fell into deep thought.

.....

Wang Yi didn't stay at Luo Feng's house for long. He left after a greeting. Luo Feng's family also knew that Wang Yi had joined the Xtreme Martial Arts Gym and became a martial artist. After being shocked, they also asked Wang Yi to take care of his son Luo Feng and Wang Yi. Of course there was no promise.

Wang Yi knew very well that in the eyes of Luo Feng's family, Wang Yi had already become a powerful warrior, so he hoped that he would take advantage of Luo Feng.

But Wang Yi knew that with Luo Feng's talent, that he could do nothing, Luo Feng could rise quickly and soon became the top powerhouse on the planet.

The Luo family soon ushered in take-off and became the largest and most legendary family on earth.

The descendants of the Luo family are scattered throughout the Milky Way.

The rise of Luofeng thoroughly proved the truth of 'one person gains the Tao, the chicken and the dog ascend to heaven'.

Thinking of Luo Feng, naturally thinking of Xu Xin, and then thinking of myself.

I don't know if the children born to Shen Yan and Shen Yan will be able to create a super family in the future.

Wang Yi patted his head, wake up, you don't have a wife yet.

.....

On June 3rd, Wang Yi came to Yangzhou City Thunder Hall.

"Check in."

【Ding, congratulations to the host for signing in successfully, and bonus knife experience plus two.】

【Your swordsmanship has been elevated to the level of 'specialization'.】

【Number of check-ins available for this place: 0】

"Huh? Is the sword skill improved?" Wang Yi was a little surprised.

It's not that Wang Yi has never signed in to the two convention halls in Jiujiang City, but the rewards given are hard to say in a word. It feels inferior to the district martial arts hall.

In just three days in Yangzhou City, he gave Wang Yi three huge surprises one after another!

The sword technique is the same as the body technique, and is also divided into four levels:

Basic-Specialization-Consummation-Artistic Conception.

The improvement of the sword technique is not much easier than that of the body technique. Wang Yi has been searching on the Internet since he was a child and has not known how many basic sword techniques he has practiced.

It is very difficult to continue every step.

And now, through the sign-in panel, Wang Yi quickly improved his knife skills from basic to specialized in just two months!

is super fast!

I felt a lot of knowledge and insights in my mind, and at the same time, these insights were also integrated into Wang Yi's body, becoming an instinct for him!

Now, Wang Yi casually slashed out, the power is much stronger than before.

This is the effect brought by the improvement of the sword art realm!

Wang Yi sighed in his heart, if this continues, I don't want to fight anymore...

Now Wang Yi has a physical strength of 5,000 to 6,000 kilograms, his mental power has reached the elementary God of War level (the bottom line is 64,000 kilograms of power), his sword technique has reached the specialty level, and his body technique has reached the micro level!

And Wang Yi is only eighteen years old now! It's like a monster!

"The strength has improved a lot, but I seem to have overlooked something... By the way, let's do it!"

Wang Yi suddenly remembered.

is devouring the starry sky, and there is a saying that the body is exerting strength.

can increase the strength of the body through some special techniques, such as the original strength of 10,000 kilograms, through special techniques, it can reach 20,000 or even 30,000 kilograms. This is the body's strength!

Wang Yi remembered that the most powerful cheat on the planet today, [Nine-fold Thunder Knife], can achieve seven times the force!

"My martial artist certificate has been taken down yesterday, and it is estimated that it has been delivered to my home. I can also log in to the ultimate martial arts hall internal network 'Extreme Home' and buy cheats and various items on it." Wang Yi thought of this, already a little impatient. .

ran quickly towards the subway station.

"And it's time for the family to move into the villa in the community." Wang Yi's face was full of smiles.

has been in this world for so long, this is his easiest time.

As for Jiujiang City, the low-rent housing area in Guqing District, Guangyuan Community, the d23 residential building, a news has spread wildly yesterday.

"Have you heard? The son of the king of the 23rd building has become a warrior!"

"Wang family? You are talking about Wang Shun's son? Isn't his son still a high school student? Who did you listen to?"

"My eldest uncle lives in Building 23. He heard that he saw someone from the martial arts gym come to Wang Shun's house yesterday with his own eyes, and said that he was sending Wang Yi's martial arts qualification certificate."

"Really? Wang Yi is only eighteen years old, right? How could he become a warrior?"

Everyone who heard the news was shocked inexplicably.

warrior, has a special meaning in this era!

symbolizes strength, status, wealth, glory...I don't know how many young people dream of becoming a martial artist, but most of them have not realized this dream. In reality, few people can become a martial artist.

Not to mention low-rent housing, which are poor places where ordinary people live. Once a warrior appears, it will naturally attract a lot of attention.

Wang's house went on fire all of a sudden.

After it was confirmed that Wang Yi really became a warrior... Wang's family suddenly became a hot spot in the entire Guangyuan community ~www.mtlnovel.com~ From yesterday to today, I don't know how many people came to watch Wang's family.

The gate of Wang's house was closed tightly. Wang Yi's father Wang Shun was in distress over the past two days. The news that Wang Yi became a warrior spread throughout the community, and the people who came to the door almost broke the threshold.

Wang Yi's uncle and aunt's family, even the neighbors, acquaintances, and even the leaders of the work unit came to inquire... This was a bit too much, and Wang Shun was tired to deal with it.

Although physically and mentally tired, Wang Shun's heart is still full of excitement and joy.

When his son said that he was going to participate in the assessment of quasi-war fighters, Wang Shun was unwilling to agree. In his opinion, the fighters were too vague, and the college entrance examination was the most important thing.

It was only at the insistence of his son that he reluctantly agreed.

But I didn't expect it! Not only did his son pass the quasi-martial examination, he was also valued by the Xtreme Martial Arts Gym, and he was directly qualified as a martial artist!

This is a martial artist, even the leaders of their district have to be polite, and they don't seem to have heard of any martial artist in the community now!

Those who can come out of martial arts have moved out a long time ago, so how can they stay in a place like low-rent housing?

Wang Shun's heart was filled with endless joy. He could listen to his wife talking to the married eldest daughter in the room without turning his head. They had been talking for an hour, how could they not finish.

Until now, Wang Shun has a dreamlike feeling.

It is really the surprise that his son brought him too much, which made him feel a little unreal.

"Ring Ling Ling..." At this time, the phone Wang Shun had been holding in his hand rang.

Wang Shun quickly picked it up and saw that it was his son's call, and quickly connected.

"Dad, I'm back."

On the other side of the phone, there was a hearty voice from his son.

Sign In To Become a God #Chapter 25: arrange - Read Sign In To Become a God Chapter 25: arrange

On June 3rd, after returning home to deal with his parents and relatives, Wang Yi became busy.

Mainly busy among the three girls, Shen Yan, Gao Yurong, and Lin Youyu.

On June 4th, Wang Yi's family moved to the Mingyue Community in Yangzhou City. Although Jiujiang City Extreme Martial Art Museum once sent people to invite Wang Yi to live, and said that they would allocate him the best housing, Wang Yi still refused.

Although the family did not understand why Wang Yi insisted on moving to Yangzhou City, Wang Yi now has more say in the family than everyone else. It is his father Wang Shundu who has no opinion on his decision. Anyway, Yangzhou City is next door to Jiujiang City. , It takes only a few hours to take the subway, and it is more convenient to

come back if you have something to do. Under Wang Yi's arrangement, the family quickly settled in Mingyue Community, Yangzhou City, and moved into a spacious and comfortable villa.

In the evening, Wang Yishui sat in casual clothes on the sofa in the audio-visual room on the second floor of the villa, and used the large screen to video chat with Lin Youyu and the others.

While chatting, they also introduced them to the internal content of Xtreme Home's website.

"Look, this is my current account funds, not much, just a few hundred million..."

"Look at this cheat book, "Nine Thunder Knife". It is the second strongest in the world and the strongest cheat book created by Thunder God, the founder of the Thunderbolt Gym. It has a full set of 100 billion, but one day I will learn all of it. Finish, haha, don't you believe me, how about a bet?"

"What? Don't bet? I'm a gangster? Emmmm..."

"I will buy the first four of Thunder Knife Nine, because the first purchase can be discounted at half price, so it only costs 250 million."

"Don't feel bad, what do girls know, this is called early investment..."

"This is money given by others. You can only buy things here. If you don't buy it, you can't buy it..."

"There are also these two war swords...I want to hold the sword with both hands. How do you think these two are handsome?"

"Combat uniform... What style do you see and what color suits me?"

"Don't make trouble, this is women's!"

"Tactical watches, combat backpacks... Do you want watches? What? No? Why? The meaning is not good?"

"?????"

One night, it passed in the hot chat between Wang Yi and the girls. Facts have proved that as long as it is shopping, few girls are not fanatical, even if they are not spending their money.

Seeing the long and inexplicable list on his shopping list, Wang Yi did not know the purpose of many things. Wang Yi fell into doubts about life. What did he buy last night?

And the next day, Wang Yi invited Lin Youyu and others over...

Wang Yi's parents felt that their son was so acquainted with the source, and I'm sorry for the girl's family, but they thought about their son's current performance, they discussed it privately for a while, and decided to leave it alone.

They believe that their son's character is reliable.

In addition, they were busy dealing with their new neighbors all day long, and gradually forgot about their son's steps on several boats.

The cheat sheet for "Nine-fold Thunder Knife" was soon delivered, and Wang Yi began to practice life.

Gene can practice, sword technique, body technique cultivation...

However, he still spends time with Lin Youyu and the others every day. He has a hunch that the time for separation will soon come.

Soon, the time came to June 7th, the day of the college entrance examination.

Although he has joined the Xtreme Martial Arts Hall and became a martial artist, Wang Yi did not intend to give up this college entrance examination.

He will embark on another path in the future, a path that no one can predict.

"Luo Feng, should be fainted on the 9th." Wang Yi thought to himself. "Go and see him then."

To be honest, Wang Yi was sometimes very entangled in Luo Feng's experience.

In the end, Wang Yi decided to sit on the wall and watch. After all, this was also a kind of tempering for Luo Feng.

"The most important thing was the killing of Li Yao's son Li Wei, which provokes a global reward of hundreds of billions of dollars, but that is almost half a year later." Wang Yi thought.

He is already a spiritual teacher of the 'Elementary God of War', and he has the sign-in panel as a plug-in. To be honest, he doesn't put the advanced God of War Li Yao in his eyes.

Li Yao's strength is only average among the high-level Gods of War. It is far worse than the "Phantom Demon" Cattelan, let alone the "Invincible God of War".

The only people who really see Wang Yi on the whole earth are Hong, Thunder God, and Luo Feng!

"In half a year, I don't know how far I will rise, and will I reach the realm of surpassing the **** of war?" Wang Yi was full of expectation.

He has now realized that his speed of progress has surpassed Luo Feng, the protagonist in the original book, and he has the first calamity of the Secret Book of Nine Tribulations and the mental power of mind. He can even go ahead and grab all the opportunities that belong to Luo Feng. come over.

Of course, Wang Yi would not do such a wicked thing.

At least there is no such need now!

The world that swallows the starry sky is too magnificent, and the water is too deep. It is Wang Yi. Although he has gold fingers, he can't protect himself from accidents and death in the future.

Goldfinger only improves his strength, but there is no guarantee that he will never die.

Who knows the future?

A little more protection is also good. UU reading [www. uukanshu.cOM](http://www.uukanshu.com)

In his bones, Wang Yi is not an ambitious person, even he is not like Luo Feng, who can say, 'my life is colorful because of battle, and endless light because of you!' Such words.

Although I am envious, Wang Yi is Wang Yi, not Luo Feng!

He didn't plan to be Luo Feng either.

To be able to live forever, with family and love by his side, and to appreciate the infinite wonders of the world, perhaps this is what Wang Yi really wants.

He will not shirk the responsibility he should bear.

To help the people of the earth rise, do it if you can, or if you can't.

Right to live with one's own heart, just be ashamed of one's heart.

On June 9th, when Wang Yi came out of the examination room ahead of time after finishing the exam quickly, he got news that Luo Feng was suddenly fainted and sent to

the hospital during the exam. Wang Yi said with emotion that the inertia of fate is really strong.

Of course, Wang Yi is happy to do this. If only the inertia of fate is still so strong after the earth disaster is over.

Wang Yi rushed to the People's Hospital of Yi'an District to visit Luo Feng and comfort him.

Luo Feng was very calm, and he was very grateful for the arrival of his old friend.

The failure of the college entrance examination is actually a blessing more than a disaster for Luo Feng, after all, becoming a martial artist is his real way out.

Going to college for four years is a waste of time.

Even if Luo Feng is not fainted this time, it is estimated that Wang Yi can't help but think of a way to keep him fainting again.

Go to university? Go dreaming!

Wang Yi felt that sometimes his mind was bad.

But, Luo Feng doesn't know. Wang Yi looked at the grateful young man in front of him and thought to himself.

At the same time, the Jiangnan General Assembly Hall of Extreme Martial Arts finally received a reply from the global headquarters.
