

Silly Teen

Chapter 17

Chapter 17

Guan Dongxuan's mouth cursed and said that I do not know how to behave. It is when they want to leave, I am bold to continue to block in front of Guan Dongxuan. I couldn't accept that the money was gone, and Guan Dongxuan was so angry that he lifted his foot and kicked me.

I fell to the ground, but they are walking past me, completely is not a serious look.

The people passing by on the side, looking at my wretched appearance, also did not say anything. I patted the dust on my body, and walked back to the classroom with a more lost heart.

But how could I have imagined that it was after school that I was in big trouble because of Guan Dongxuan!

"Jinchao, you come with me. Brother Xuan wants to see you for something." Guan Dongxuan's two lapdogs in the class then called me away directly.

"Brother Xuan wants to see me for something?"

I was a little excited in my heart, I thought Guan Dongxuan was going to face this one thousand three. But when I thought about it, something wasn't right! If Guan Dongxuan really intended to face it, he would have called me himself before he left just now Why did it have to come from his little brother?

There must be something odd about this!

And I was worried in my heart, so I followed them together and walked out of the school. I was also more and more nervous inside.

"Jin Chao, you come here."

Guan Dongxuan sat on a chair in front of the cigarette store, with a cigarette in his mouth, and waved at me. He looked like nothing at all. The beating that he and his lapdogs gave me earlier didn't seem to have happened at all.

"Brother Xuan."

I cautiously walked up to his side.

Guan Dongxuan just pointed to his side, long prepared plastic chair, let me sit down. I was a little hesitant, and he looked at me, sneered and I said: "Jin Chao, you do not want money? Give me a good seat, wait here. Someone will send the money over soon."

"Really?"

I was a little happy in my heart.

"Of course it's true!"

Guan Dongxuan nodded solemnly.

And I sat on the empty space, but very embarrassed. The side was simply a group of delinquent students, they smoked cigarettes, and the topic of our school girls in their mouths. I sat dry in my chair and didn't say a word. I was still foolish enough to believe that Guan Dongxuan was really going to pay me for asking me to wait here.

But along with a motorcycle roar, I looked at the visitor and stood up on the stool at once.

"Brother Xuan, you pit me?"

I turned my head on a deadly stare at Guan Dongxuan.

Guan Dongxuan stood up, is to walk to the motorcycle from the Cao brother and their side, on the Cao brother and their smoke: "Jin Chao, look at what you said, how I pitted you? As I said, now that the person who gave you the money has come, shouldn't you thank me?"

"Yes, don't you want money? Why did you wimp out as soon as Brother Cao came?" Guan Dongxuan's little brother mocked me.

And between their words, the slattern, Cao, came to my side and sat directly opposite me.

Brother Cao greeted me with a cigarette in his mouth: "Okay, don't stand, sit down!"

I looked at the seven or eight people Cao brought, gritted his teeth and said, "Sorry, brother Cao, I don't want the money."

But Cao gave me a blank look and said, "How can this be? I've already prepared the money for you, and you say you don't want it, so wouldn't I have prepared it for nothing?"

"Then Brother Cao, where is the money"

“In another place. You wait and I will take a trip, I will take you to get it.” Cao said as he exhaled smoke rings.

I secretly feel bad in my heart. But at this time, I am simply in a dilemma. I was also willing to bear some relatively small price if I could salvage the money.

“How about it?”

“Okay, I’ll go!”

I agreed. I sat in the chair and watched Cao finish the cigarette in his hand. During the process, many delinquent students on the side came up and greeted Cao, all looking like they wanted to please him. And when he finished smoking, he dawdled a bit more, which is to get up and ready to leave.

Cao told me to take his car, and took me out of here.

It was when we were leaving that Guan Dongxuan raised his hand and waved at me. The smile on the corner of his mouth made me feel even more uneasy. I had heard before that Guan Dongxuan and the others got into the car and subsequently took each other to a more isolated place, that is, a beating.

“Brother Cao, aren’t we going to a bank or something? How come it’s getting more and more remote?” I asked cautiously.

“What do you care so much? There’s money on the line!” Cao, who was riding in front of me, barked at me.

“Brother Cao, we’re here.”

His little brother spoke up.

“Get off!”

Cao said to me.

I listened to his voice and rolled right off the car. The location where they parked was bordered by several stores. The sound of machine washing mahjong came out from inside. And behind me, Cao, with a cigarette in his mouth, pushed me.

“Brother Cao, did you bring me here to gamble?” I didn’t understand what was going on rushed Cao and asked.

“Gambling? You look like you have money to gamble?” Cao looked at me and said with a disdainful laugh, “Kid, I brought you here to collect the bill. You go in, find a fat man of

about two hundred pounds, so that he owes me 10,000 yuan back to me! As long as you give can do, I'll pay you back."

I have never done this kind of thing, but even more terrified up: "Brother Cao, I'm afraid I can not ah."

Brother Cao's face was a scowl: "Fuck! You want money, don't you? Now I bring you here, and you tell me that you can't, you're playing with me?"

"Brother Cao, I told you this kid would not be able to do it. He's such a wimp, can he receive the money?"

"Yes, I think it's better for us to do it ourselves. When it's over, drag this kid to the corner and beat him up and settle the matter!"

But Cao was weighing his options and said, "But no matter what, this is someone else's turf after all. It's still not good for us to come over and collect the debt. It is good to have such a cannon fodder in. If he can't, we'll go on."

When Cao's words came out, the little brother on the side was immediately a burst of sloppy: "Damn, or Cao you think far ahead!"

"That's right, we didn't think of any of this." Their words were more like deliberate acts. And Cao was obviously enjoying it. I listened to their words, and a burst of anger rose up. But there was nothing else I could do. Even if they use me, I can only try!

When Cao looked at me, he kicked me in the ass: "Go on, what are you doing?"

"Hurry up!"

In the midst of their urging, I gritted my teeth and opened the floor-to-ceiling glass door in front of me
