

Silly Teen 54

Chapter 54

“Chao, what are you looking at? Hurry up and go!” Qin Shou then asked at me.

“Wait, you guys walk first.” My attention was still on those twenty or so people. Because of the incident in the warehouse last time, I had an impression of Xu Ying’s people. Of these twenty or so people, not all of them were the ones who helped me control Cao Ge last time, but there were old faces among them.

I hadn’t really expected to see them here! What were they doing here?

Puzzled, I approached in their direction. The more I walked in, the more I was sure that there were definitely Xu Ying’s people among them. And it was between my walking in that my attention, was no longer on them, but on the bald guy in the middle.

I looked at him and was feeling very familiar, as if I had seen him in Nah.

But exactly where I had seen him before, I didn’t recall for a moment.

And at that moment, my mobile phone suddenly rang. I took it out and saw that it was Xu Ying calling.

“Jin Chao, where are you doing?”

Xu Ying asked me on the other end of the phone.

“Just happen to be in this area Manager Xu, what the hell is going on here? Also, why have you taken so long and not returned my calls?” I then rushed to ask her.

“It’s a long story. What you need to do now is to hurry up and get out of there.” Xu Ying reminded me very seriously.

“Why?” I asked subconsciously.

“Don’t you recognise the bald guy in the middle?” Xu Ying then asked at me. Her words, more than anything else, made me feel like she was around here. But when I looked around, I couldn’t even see her in person.

“Who is he?” I then asked at Xu Ying.

“Wah!”

Xu Ying said to me in a very serious manner.

And I listened to Xu Ying’s words and was frozen for a moment. I said, “I don’t know where I’ve seen this bald guy before. Xu Ying’s words suddenly made me remember that I had seen this bald guy before, in the information Xu Ying had given me!

“But I’m standing here, nine times out of ten, he’s already noticed me.” I then said to Xu Ying.

“That’s why I want you to hurry up and leave!”

Xu Ying’s tone was also anxious.

“No rush first, I have my own ideas Manager Xu, let me ask you, this Hua Chai, will he know about our partnership?” I then asked at Xu Ying.

“It’s definitely not something that can be known. If he knew, wouldn’t our plan be ruined?” Xu Ying said hurriedly.

“Okay then!”

“Wait, what do you want?”

“I want to save him!”

I said straight away.

Xu Ying listened to me and obviously froze for a moment. She didn’t understand my intentions, and I then explained to her that I wanted to take this opportunity to blend in with Hua first. I also knew that it was a big risk, but risk and reward were often directly proportional.

I was helping him now, and if he was a man of conscience, he certainly wouldn’t lay a hand on mine. It would even sway him to take revenge on my Uncle Chen because of me, too.

I know the chances of achieving this effect are too low, but it’s a way out! I didn’t want to be led by Xu Ying’s nose either. If I helped Xu Ying with her plan, but then she suddenly crossed the river afterwards. What would I do then?

So it’s always good to have a way out for myself.

Besides, Uncle Chen had told me more than once before: relying on others is never the answer. Only when you are strong and have a solution, that is the most stable.

“Jin Chao, are you crazy?” Xu Ying was yelling at me from the other end of the phone. It was the first time I had heard her get this angry!

“But Manager Xu, if I can really ambush Hua’s side, wouldn’t I be able to help your end of the mission? At least, I could act as an eyesore for you, couldn’t I?” I then asked rhetorically.

“But what if Wah finds out about you?” Xu Ying then asked at me in a very serious manner.

“So it’s up to you. It’s fine for him to find out about my relationship with Uncle Chen. But if he finds out about our partnership, that would be devastating for both of us! But Manager Xu, I trust you, you will be able to handle our relationship well.”

I responded to Xu Ying.

“Jin Chao, just how sure are you?” Xu Ying asked at me after a moment of silence.

“To be honest, I’m not sure at all! But for some things, how do you know what the chances of success are if you don’t try?”

I then said to Xu Ying.

“Then if something happens to you, I don’t care!” Xu Ying said to me very seriously.

“That’s for sure!”

I also promised.

Since Xu Ying had the courage to promise to do it, I dared to get started. If I succeeded in getting involved with Hua, Xu Ying would have to weigh in even if she wanted to threaten me. If I were to take the initiative and spill the beans about our collaboration, Xu Ying would be in a lot of trouble!

The problem with Guan Dongxuan had already made me angry with Xu Ying, but it also made me feel a sense of crisis.

She said she would hand over Guan Dongxuan to me that night, but what about it? More than a week had passed and I still hadn’t seen him!

The fight was still going on.

I hurriedly called Cao Ge and told him to hurry up and bring someone over.

When Cao Ge heard my words, he was stunned: “Chao, what kind of international joke are you playing with me? Just the ten or so of us against twenty or so of them?”

I was also anxious, “Brother Cao, don’t worry about that. I won’t harm you, just do as I say!”

“Are you sure there really won’t be any major problems?” Cao Ge looked at me with great suspicion.

“I’m sure!” I assured down.

“Good, then let’s go.”

Cao Ge said through clenched teeth.

On the side, Zhao Yangbo and the others followed. This was the first time I had use for them. Since they were trying to get close to me, they would naturally consider this opportunity. Although those were social people, they also joined Cao Ge and the others and went on head on.

And our going up did not surprise Xu Ying’s men too much. It must have been Xu Ying’s prior communication with them.

“Damn, it’s impossible to fight!” Cao Ge said with a lot of effort. Since we have to act, we must be more realistic. If these people of Xu Ying’s put up a fight and Hua saw the flaw, it would be a direct end.

“I can’t carry it anymore.”

This was Guo Xiaoming’s voice.

“You guys help me stall a little longer!” I said hastily.

I took advantage of their delay to kill into the crowd and bring out the bald-headed Wah who was covered in blood. In the process, some people blocked us, and they were all taken care of by Wah.

“This!” Wah was obviously familiar with the surrounding area and instead even led me into the alleyway.
