

Silly Teen 74

Chapter 74

“What’s wrong Joo.” I hesitated for a moment, but walked up. I was drunk, but I still retained a few moments of sanity and was even more aware of the danger.

It was logical how Fatty Zhu wouldn’t know where I lived

“I’m a bit short of money these two days. I heard that you made a lot of money today, lend me some first?” Fatty Zhu just said to me in a contemptuous tone.

“How much do you want, Brother Zhu?” I asked Fatty Zhu in a very wary manner.

“It’s not much, just two thousand.” Fatty Zhu then said to me.

“But Brother Zhu, I don’t have that much on me either.” I said to Fatty Zhu in a very embarrassed manner. The figures he said were obviously aimed at the ones I had won this afternoon. And along with my words, Fatty Zhu’s face, instantly darkened and he looked at me with an even more unkind look.

“What do you mean it’s not that much? What about the money you earned!” Fatty Zhu then asked directly at me.

“I’ve already spent almost all of it for the night.”

I explained to Fatty Zhu.

“No matter what, you get the money out of me now, immediately, right now. Otherwise, you will be responsible for the consequences!”

Fatty Zhu then gave me a threat.

I looked at him and he didn’t hide the fact that he was coming over on behalf of the arcade! Maybe, just because I was a ‘kid’ in high school and had won so much money from the arcade, the arcade end would be upset and would want him to get his money back.

But no matter what, Fatty Zhu was not coming in good. And if I didn’t come up with the money now, I was afraid I would be in big trouble!

I hurriedly tried to call Cao Ge.

But when Fatty Zhu saw me move, he hurriedly asked his little brother to snatch my phone away.

Fatty Zhu took my phone from his little brother’s phone and looked at me with an even lighter expression: “Yo, you want to call Cao Ge? Are you ready to ask for help with him!”

I listened to his words, my face ashen, but didn’t respond to anything.

“This matter, do you think if you call Cao Ge, he will help you?” Fatty Zhu walked up to me and said with a cold laugh, “Do you think Cao Ge will break up with me just because you’re a high school student? Oh, don’t dream!”

“Yeah, I’m sure Cao Ge isn’t so stupid as to offend my brother Zhu just because you’re a high school student.”

“Kid, I advise you to give up this idea! Even if you make the call, Cao Ge will definitely not come.” Fatty Zhu’s little brother then said from the sidelines.

Although I was, in my heart, sneering at their words, I didn’t show it. They, now, held the initiative. And even my mobile phone was in their hands. Even if I wanted to call the police or get Uncle Chen to come over, there was nothing I could do now.

At this moment, if I were to fight them, let alone whether I could beat them.

But if my behaviour made them angry. Then they wouldn’t treat me the way they are now! If they started to be ruthless with me, then I would be in big trouble!

“Jinchao, hurry up and take out the money. The money isn’t yours anyway.” Fatty Zhu then said to me.

“But I really don’t have any more on me.”

I said with a frown.

“Are you joking with me?”

Fatty Zhu’s expression went cold.

“There really isn’t any! Brother Zhu, I really don’t have any money on me anymore.” It was at him that I gave an emphatic cry.

“Search it for me!”

Fatty Zhu snorted coldly. And the little brothers beside him agreed at once after listening to his words. They walked over to me and just searched me up and down my body. I didn’t resist anything either.

“Brother Zhu, this kid really doesn’t have a dime on him.” Fatty Zhu’s little brother then said.

“Go to his house and ask for it.”

Fatty Zhu’s face was ashen.

“But Brother Zhu I heard that this kid lives with his uncle.” Fatty Zhu had a little brother who was embarrassed to explain.

“And what’s wrong with that?”

Fatty Zhu then asked back in disbelief.

“But the thing is, his uncle is a cop!” Fatty Zhu’s little brother put the emphasis on it. What’s more, it made Fatty Zhu’s face look even more ugly.

“Brother Zhu, what should we do now?”

“What else can we do? Isn’t there a bank card in this kid’s wallet? Take him away! Tell him to take out all the money in the bank card for me!” Fatty Zhu said in a cold voice.

When I heard this, I became anxious: “I won’t touch the money in the bank card to death! Inside. It’s my money for college!”

“What do I care about you so much? Take it away!” Fatty Zhu said with a big wave of his hand. It was between his words that the little brother beside him, was driving according to his instructions. I resisted. But the two men beside me had a death grip on me and simply made it impossible for me to escape.

All along the way, I was thinking of ways to get help. But those pedestrians on the road saw it and simply didn’t care.

When Fatty Zhu saw that I was making a lot of noise, he turned around and punched me hard in the stomach. My stomach was in a spasm of pain. And while Fatty Zhu looked at me, he just told me to be honest, and then just ignored it and took me to the door of the bank.

He told me to hurry up and give up my password.

But I just wouldn’t say it to death.

“OK, you’re tough, aren’t you? I’ll tell you to be f*cking tough!” Fatty Zhu landed another punch on my stomach.

At once, I felt like I was going to throw up everything I had eaten at night.

“Are you going to say it or not?”

Fatty Zhu asked at me again.

But I still clenched my teeth and shook my head. When Fatty Zhu saw this, he landed another punch on my stomach. I felt my stomach churning and I finally threw up. Because I had drunk a lot of wine at night, I vomited all over Fatty Zhu.

Fatty Zhu’s hand was vomited on by me.

“My God! How dare you throw up on me? You’re dead, you’re dead!” Fatty Zhu was simply so angry that he was trembling.

“Brother Zhu, it’s not good to do it in front of the bank, let’s go to the alleyway on the side.” The little brother on the side gave a suggestion.

“Well, take him away!”

Fatty Zhu nodded. Walking in between the alleys, he had someone drop by and buy a few bottles of water and just rinse the filth off his body.

He looked at me with disgust and his tone was filled with anger, “Jin Chao, I’m giving you one last chance. Are you going to tell me your bank card PIN or not? If you know what you’re doing, you’ll be able to save yourself the pain and suffering of the shop! But if you don’t tell me, hehe, what will happen to you, you know clearly!”

As I listened to his words, I naturally understood in my heart. But what I knew even better was that even if I gave him the password, he would definitely still do it.

“The last five seconds are up, if you don’t tell us, we’ll have to do it.” Fatty Zhu reminded me at once.

“Five, four three, two.”

His words suddenly got stuck here!
