

The Heiress 691

Chapter 691 Start to Hit Back

Shane quieted down. The more Declan said that the more it reminded him that everything in front of him needed to be changed! Declan swept his gaze over Shane. “Everyone is watching you right now. Watch your tongue when you speak”

“Uncle Declan, | understand.” Shane drank his tea gloomily

Declan softened his tone and sighed. “I always thought we could be a happy family. Sometimes, | also think about the divination back then. Initially, | didn’t believe it, but so many things have happened. | finally believe it.

“But, Shane, you should know that ordinary people can’t accept this. Luckily, a few of the shareholders could understand your point of view. Every one of them came a long way. They would surely believe in fate”

Shane was finally relieved when he heard what Declan said. He leaned forward to fill up Declan’s teacup | understand. | also know that the others are hiding it deeply to collect energy”

“It’s good that you understand. Wynter is still young. She doesn’t know that fortune-telling can change one’s fate. It’s only normal.”

Shane chuckled when he heard that. Yes. What did that young girl know?

She thought her superstition could take him down. Little did she know that he and the others were so close together because everyone thought the same as him. Only his stupid father did not care about these things

“Speaking of Albert, | heard that he used to have a nice girlfriend, but your father did not agree to it back then” Declan changed the subject

“Out of sheer coincidence, | know her. She is working in my company right now. She has had her fortune- teller reading She brings luck to her husbands.”

Shane's eyes brightened. "Uncle Declan, you're saying

"Since it's his first love, and he likes her, shouldn't you as his father help them be together?" Declan smiled affectionately. "You should do something that makes your children happy. After all, he is returning

Shane nodded, resuming his usual gentle persona. "I'm glad you thought of it"

That was right, he did not need to spend all his energy on that stupid girl, Who cared about her? When she could no longer deal with the situation, she could cry all she wanted

From Shane's point of view/Wynter was surely unable to get out of the current tough spot. Tanya was the most famous celebrity under the Quinnell Group

One could only say that Shane was old and outdated. He did not know what everyone was talking about Chapter 691 Sturt to Hit Back at that moment since he had never once shown Rowan any concern.

The tide against Rowan was getting louder online. Some even started saying that when Yael had just started out, he had met with a lot of injustice because he looked like Rowan

Some even hinted that Rowan was afraid that Yael would surpass him, so he secretly blocked Yael's career from taking off.

Logically speaking, no one would believe such a thing. But the internet was magical. Stace, and anything.

Chapter 692 Wynter Turns Yael Into a Joke Rachel was the one who sent the legal notice, which included an announcement that read, "From now on. Mr. Rowan Quinnell will join our company cooperatively."

In addition, she retweeted both Yael's and various gossip accounts.

"The girl in the photo is Mr. Rowan's younger sister. We'll pursue any remarks that slander him. And also, Yael, please don't be a clout chaser."

The internet was up in arms. Nobody had expected such a clarification, More precisely, no company had mentioned a celebrity openly in an online announcement before.

a Rachel was hesitant when she posted the last sentence. However, she was told to send it this way by her new boss. So, she didn't object and did as she was told.

The last sentence infuriated Yael's fans. They always targeted other celebrities to support Yael. They would not, of course, put up with such "slander".

"Don't make me laugh! How can you prove they're siblings? I've learned about the entertainment circle for many years. But I've never heard of that 'A-lister' having a sister! You can't just make stuff up!"

"That's right! Buddies, please pay attention to this-that girl's coat is very expensive! I looked it up. It's a Queenlight Corporation limited edition. As we all know, it's difficult to get Queenlight Corporation's outfits. That 'A-lister' might not even afford to buy it!"

"I don't care how you explain the rumor, but you shouldn't slander Yael! Are you addicted to bullying? We're not to be trifled with!"

"I agree with that! Do you think Yael is poor like that 'A-lister'? He's a scion of a wealthy family! He doesn't need to clout-chase anyone!"

Seeing the flurry flurry of comments on the internet, Yael felt as if the discontent that had been building up in his heart for so long had finally been released.

He never wanted his looks to be compared with Rowan's again.

He believed Rowan didn't have a strong background. So, he felt dissatisfied when the latter always got the upper hand.

It was human nature to admire people with stronger backgrounds. Because of that, Yael received more supporters. They repeatedly emphasized his wealth.

From their point of view, he was a scion from an affluent family who wasn't short of money. He was one of the few people in the circle who dared to speak frankly.

His fans assumed that his involvement in the entertainment circle was purely a hobby. He didn't have to be jealous of Rowan.

However, just as they were publicizing this statement, all of the Quinnell Group's enterprises took action.

Every tweet they sent was different, but they were all dishing out Yael's dirt. Furthermore, they posted Chapter 692 Wynter Tuan Yael into a Joke videos instead of photos.

The videos showed how he bullied rookies, used foul language, and clout- chased using Rowan's popularity. Moreover, his goal was always to get an advantage over Rowan, even if it meant treading on him.

When fans clicked on the last video, they could hear Yoel's voice.

"Isn't Rowan famous? So what if I clout-chased him? Just do what I say and stop spouting crap!

"I'm tired of them saying I look like him! How can a working-class fool compare with me? He just got lucky and entered this circle earlier.

"I must top the ranking list this time!

You said he's more popular than me? Then let my fans boost my ranking! my They're all from the lowest class.

De Without my presence, they'd never know what the upper class is!

Yael's voice couldn't possibly have been synthetic. In an instant, the internet was in turmoil Fans who had It was just shown their support for Yael in the comments section were stunned and held their phones blankly.

They always wished their idol the best. None of them had ever seen his true colors. It turned out that they were nothing in Yael's eyes and were even referred to as the lowest class.

His remarks turned them into a joke.

Chapter 693 Wynter Sends Quinnell Group's Stock Soaring Yael's fansite admins immediately started commenting.

"We admit that we've followed Yael blindly. We sincerely apologize to @Tranquil Rowan. @Yael, you don't deserve our support!"

In the entertainment circle, no celebrity had ever been unfollowed by all their fansite admins at the same time. Yael was truly a unique case.

As his words were too vile, and trending topics arose one after another. He asked an influencer to help him whitewash his dirt. The price was negotiable.

Unexpectedly, the influencer sounded hoarse, as if he was afraid. "Mr. Murray, I've advised you not to tamper with Rowan. We messed with someone we shouldn't have."

Yael believed there wasn't anybody his family didn't dare to mess with. "I'll pay the troll army! Just do as I say!"

The influencer scratched his head. "Mr. Murray, please take a close look at the accounts that tweeted. They're not from this circle, but do you know who is behind them? It's the Quinnell Group!"

As soon as he finished speaking, those enterprise accounts took action again. They all retweeted Rowan's account with the same sentence.

"We warmly welcome our second scion @Tranquil Rowan home!"

The Quinnell Group, the company that didn't tweet very often, also retweeted Rowan with the following sentence.

"By order of Ms. Quinnell, warmly welcome our second scion @Tranquil Rowan home!"

It instantly proved the identities of the people in the photo.

Yael's fans were already embarrassed, but they never expected a follow-up, which made them even more embarrassed.

Not only the entertainment but also the financial circles were in uproar, especially after the Quinnell Group retweeted Rowan.

"Holy crap! Can someone explain what's going on?"

"This is the first time I've seen my finance professor tweet!"

"The financial circle is in chaos. Quinnell Group's stock is expected to double several times from tomorrow onward!"

"Huh? Why?" someone unfamiliar with the capital market inquired.

Netizens enthusiastically responded, "Because Rowan is the Quinnells' second scion! He signed with Quinnell Group as well. Quinnell Group is so awesome!"

Chapter 693 Wynter Sends Quinnell Groups Stock Soaring
Plus, the Quinnells are the richest in Kingbourne."

"The Quinnells are nationally-renowned businessmen. In terms of strength, they're probably 20 times the Murrys."

"The legendary Quinnells' six scions are all mysterious. I never imagined that my favorite celebrity would be the Quinnells' second scion!"

The news caused a stir throughout the city. The Quinnell Group had also attracted unprecedented attention. The company used to be low-key, but it was the most popular topic among the people now.

With Rowan's popularity, many of Quinnell Group's products sold out in minutes.

"It turns out that the real scion is Rowan!"

"Yael, do you feel ashamed?"

Yael dared not respond. His father reprimanded him and urged him to go the Quinnells and apologize in person.

home, intending to take him to Alexis soon received a call from the Murrays, but Wynter declined to answer it.

Yael had been clout-chasing Rowan for many years. Did he believe that an apology would be enough to make up for his mistakes?

"He is a celebrity. Since he likes acting, let him stay in that circle Since he wanted to destroy Rowan by inciting public opinion, he had to face the music.

Alexis nodded and replied to the Murrays. Rachel and Rowan's regular assistant had witnessed what it was like to publicly disgrace someone without showing respect.

Rachel had been a celebrity manager for many years and had never seen such a successful impact on public opinion.

Rowan's career would not only be unaffected, but it would actually advance as a result of this incident.

Chapter 694 Wynter Makes Quinnell Group Popular Beyond that, there were thousands of comments about the Quinnell Group.

The sentence "By order of Ms. Quinnell, warmly welcome our second scion @Tranquil Rowan home!" gained popularity over the internet.

Quinnell Group was in the business circle, but its tweet exuded a rare sense of gallantry.

Young people who had previously been apathetic about business were also becoming interested in the Quinnell Group.

After reading up on the internet, they soon learned about Quinnell Group's development history.

It turned out that during a turbulent era, the Quinnell Group played its role in passing on information and providing funding. They proceeded to sponsor students to study overseas from that time forward.

People of that generation desired to bring knowledge back from overseas because Cascadia was in desperate need of development at that time.

Until now, Quinnell Group also donated a significant amount of money every year, either to improve education for children in mountainous areas or to invest in infrastructure.

Moreover, Quinnell Group had insisted on developing domestic brands over the years.

Netizens immediately became enthralled. They excitedly purchased anything they could afford as long as it belonged to Quinnell Group.

They were particularly interested in Ms. Quinnell, who was referenced in the tweet.

After all, everyone had seen her photo. Wynter's appeared slender and tall from the back. She was in a black T-shirt and a high ponytail. Furthermore, she didn't look old enough to run a company.

The Quinnells' genes were indeed good. Through the photo, everyone could see that Rowan doted on his sister. Otherwise, he wouldn't have been photographed smiling at Wynter as she opened the car door.

That was why why people overanalyzed his gentle and doting expression.

They were merely wondering if Rowan could bring his sister out to act, especially as the siblings' characters in the movie. They were ready to draft the script!

Quinnell Group's enterprises didn't expect that this so-called announcement would eventually have this.

effect.

Even the invested shopping malls and gold stores sold a large amount of jewelry. Other companies' bosses came to seek tips after seeing Quinnell Group's good product sales.

The heads of each subsidiary company said simply, "We do nothing. It's just that we have a competent Mrs. Quinnell."

Those bosses were rendered speechless.

Chapter 694 Wynter Makes Quinnell Group Popular

Things didn't go as Shane expected. Tanya's Incident did come to light, but the police solved the case too quickly. Nobody tied it to the Quinnell Group.

Shane had just come out of the villa when he received a call from a shareholder.

"I'd like to help you, Shane. But your daughter is quite capable. What I earned today is equivalent to what I make in a year! You'd better not come to me for your problems again."

Shane suppressed his rage and said nothing. He gritted his teeth as he looked at the current state of the company. It appeared that he should consider starting his plan from his sons' side.

Wynter's action might have seemed unintentional, but it had far-reaching consequences for Kingbourne.

The pampered socialites didn't get it. However, if they observed closely, they would notice that the Scotts, who had been basking in great glory a few days before, hadn't appeared recently.

The Scotts' situation continued to deteriorate, and their business suffered as well.

"I heard that Mr. Scott Senior was selling off his shares yesterday."

"What happened to his grandson?"

"He grew foolish. Nobody knows if he'll recover."

Some people lamented while others believed the Scotts deserved it. After all, the Scotts were well-known in the industry for exploiting small companies from other places.

The Fentons and the Winstons, who were closely connected with the Scotts, had neither bright spots nor shortcomings.

Instead, people were talking about the Quinnells, who were already in decline but surprised everyone by coming out on top. All of this seemed to be tied to Wynter's return.

Chapter 695 Something's Wrong With Logan

"You guys take her too seriously." Chad sat on the couch and fixed his tle. "She does know to do somet strange things. But do you guys believe we've suffered a loss just because of her?"

Chad lowered his voice. "Mr. Quinnell Senior might have taught her."

Someone next to him retorted uneasily, "But Chad, if she's incapable, she can't be the famous designer Lamar! We saw that at the Quinnells' reunion banquet. She's not easy to mess with. Tobias, Sebastian, and Elliot defended her.

"We don't dare to cause trouble for the Quinnells, especially Sebastian. My dad said that he's an outstanding litigator!"

Nobody had ever refuted Chad's statement on such an occasion before. Despite the gathering of familiar friends, none agreed with his statements.

As an illegitimate child, Chad cared most about having power, even in this small circle.

He clenched his hands. "If you guys retreat, what should Naomi do? She can't even go home now."

Everyone became quiet after hearing that. Those scions harbored feelings for Naomi. After all, they'd worshipped her since they were little. They heard that she no longer wanted the Quinnells' support and was working hard on her own.

She was even called up for interrogation because of what happened last time and almost had a criminal record.

"She didn't do anything wrong. She just has a crush on Dalton, but Wynter treats her like that."

Chad said that not only for Naomi but also for the Winstons.

At the family reunion banquet, the Quinnells had embarrassed the Winstons.

Although Clyde used many connections to get Wendy out, her life was ruined. She'd never be able to marry a good man.

Marie even grabbed his aunt's position as first lady and embarrassed his aunt in public.

Adding all of this up, he had long desired to settle his accounts with Wynter. However, Dalton was behind.

her.

Chad let out a long sigh. "I understand everything is different now, but we must uphold justice. Wynter is too ruthless."

Those scions were a little hesitant, believing she had overwhelmed Naomi too much.

Logan, who had been sitting in the corner, burst out laughing mockingly. "That was never Naomi's home! Was what the Quinnells said not clear enough? Why did you keep trying to whitewash her?"

"You said Naomi had done nothing wrong by having crush on Dalton. As Dalton stated, she just wants to be a mistress. That's not love..

Chapter 695 Something's Wrong With Logan

"Up until now, you and she have been belittling Wynter in various ways. She doesn't even bother talking to you."

Logan's voice grew increasingly clear as if he had suddenly matured, "If you still want the Winstons to exist, don't cut matured if you cause Wynter any trouble. This is the last time I'll show you respect."

He picked up his coat and said, "Don't ask me to attend this kind of gathering again."

With a bang, he kicked the door open. He felt uncomfortable and showed his displeasure.

Austin looked a little uncomfortable. "I have the same idea as Logan. As your buddy, I advise you guys not to seek death." After saying that, he caught up with Logan.

He always felt that something was wrong with Logan couldn't publiately, but he m words. Logan seemed to have something in mind.

It was quite bizarre. He had never seen Logan like this before since the latter hadn't even been sad for a single day during his lovelorn. Austin wondered what was up with Logan. these days.

Chapter 696 She Should Be the Quinnells' Heiress When Austin got in the car, he observed Logan and whistled,

"Logan, this is the first time I've seen you rebuke Chad in front of others. What do you mean by showing him respect for the last time?"

"It's nothing." Logan was distracted.

Austin had also heard of the Winstons and was aware of their problematic relationship with their siblings. But Logan had given up on inheriting the company from the start.

"Why is your brother unable to let go of Naomi?" Austin changed the subject. "He's stubborn and insists on confronting Wynter head-on. If she takes action against him, he'll be doomed."

Logan abruptly asked, "Do you think he does everything for Naomi?"

"Who else could it be for?" Austin appeared naive.

Logan lowered his eyes. "Maybe I'm overthinking it. My brother always..."

"Always what?" Austin couldn't hear the rest clearly. Logan didn't want him to know either.

Logan knew, however, that Chad always acted following Clyde's wishes. He wasn't sure why. But when he returned to the Winston residence recently, he felt a chill. Perhaps it was due to fear. He was afraid he wasn't aware of his family's true colors.

"Nothing." Logan turned the steering wheel. "I'll drop you at the subway entrance. I want to go back to the Winston residence."

Austin gazed at him. "Are you going to visit Mr. Winston Senior? You're amazing. I'm scared every time I see him. He left a deep impression on me when I was little.

"Go ahead. Help me offer him a fruit basket. I hope he gets better soon."

Logan nodded. Clyde was indeed ill for a long time. He hoped everything went smoothly and that Chad wouldn't cause any trouble during this period.

Meanwhile, the atmosphere in the private room became extremely awkward after Logan left. When Naomi came in, her smile stiffened when she saw the scene.

She only had two friends left who weren't from the socialite circle. They may, at most, be considered wealthy. They weren't even deserving of attending such an event in the past.

However, since the last family reunion banquet, the ladies who had greeted her affectionately no longer allowed the socialites to get close to her. She was even unable to invite some scions. Indeed, those people were always realistic, Naomi clenched her hands and sneered inwardly, but she still appeared elegant.

Chapter 696 She Should Be the Quinnells Heiress

"What's going on?" she asked gently, "I invite you guys to dine. Why do you look so unhappy?"

A loose-tongued scion revealed everything that happened just now.

Naomi gazed at Chad. "I know you feel sorry for me, but I'm doing well now. Wynter has her reasons not to accept me. After all, I wouldn't be who I am without the Quinnells."

At this point, she changed the subject and grinned. "Don't worry about me, Chad. I'm here to tell you that I'll be on TV. I'll probably be able to find some good stuff."

"On TV? Is it Cascadia TV?" Everyone present became thrilled.

Naomi nodded and chuckled. "Yes, my professors recommended me to them."

"You're amazing, Naomi! They thought she was indeed capable."

Lamar's fame was limited to her status as a foreign designer. She required widespread acknowledgment in Cascadia.

At this point, no one in the circle could compare to Naomi. She was a certified cultural relic restorer who was protected.

Their tutors also described her as a genius in terms of her knowledge of cultural relics. The truth was that she was going to be on Cascadia TV. glo

Naomi smiled as she watched everyone's reactions. She believed that once she got phí Cascadia TV, everything would return to normal. She assumed she should be the Quinnells' heiress.

Chapter 697 Planning to Harm Dalton However, another person wasn't as confident as Naomi.

In the villa, Declan stared at the chessboard on the table and didn't move for a long time. The most recent information about Wynter was placed under the chessboard.

He was curious. She was only a girl returning from the countryside. How could she possess such abilities?

Over the years, he had learned to match his words to his actions. Even if he was emotional, he wouldn't show it on the surface.

"Go find out what she did in Havenlight County. If she truly rescued Elliot, we should pay heed to her."

The butler standing next to him was young. Logically speaking, he shouldn't have been in charge of the matter, but Declan favored him.

The butler asked, "Are you worried that the Scotts incident has something to do with her?"

"Yes, because she appeared at the perfect time."

Declan set down a chess piece. "Go back and inform your boss. I can't offend the Yarwoods. Dalton has already made his attitude clear at the Quinnells' reunion banquet.

"Unless your boss has a way to deal with Dalton. Otherwise, our cooperation won't go smoothly."

The young man bowed and poured Declan some tea. "I'll convey your orders to him. Don't worry. My boss. has a way of dealing with Dalton. After all, the medium is there."

Declan nodded. "Those on the list are interested in joining us. Put away the offerings they gave properly. I didn't attend the shareholders' meeting this time, but that girl noticed the doll. If she finds out more, we'll be doomed."

"We've been safe for so many years. The young man smiled. "We have a backer, after all. What's more, ordinary people would never think of that place."

Declan stood up. "You still have to pay attention to her. You may go ahead." The young man saluted and walked out.

Declan's expression turned solemn. According to the plan, it wouldn't be long before he could help Shane take over and use the latter as a puppet. Then, he would control the Quinnells behind the scenes.

Marie disappointed the Whitmans. So, if something happened, the Whitmans would consider whether to intervene in the Quinnells' affairs. After all, they were in Hawford.

As for his brother, he had heard that someone could make him mute.

Declan stared at the half-length mirror, pondering. It had been so long, but he had received no results. Foplyans were too slow in doing things.

Just as he was thinking, someone came outside. He immediately shifted his cunning expression to a gentle one.

He had a principle that he wouldn't do anything on his own. He would wait for the other party's solution, as they had stated. Everything would be fine as long as they could deal with Dalton.

Moreover, he was ready to move some "chess pieces" he had been preparing for a long time.

In the weekly news, Quinnell Group was the most popular. Rowan woke up after a good nap, and his fever had gone away.

The Quinnell residence was rarely lively. The maid had prepared many dishes.

Tobias came right after he got off the stage and started gossiping the om minute he walked through the door. "Rowan, your trending topic is quite popular. Has your endorsement fee doubled?"

"From now on, I'll only endorse the Quinnells' brands."

Rowan, who was in a white shirt, said gently, "I'm now Wynter's artist, so I'll only listen to her Now you're still nominally my and Wynter's competitor."

Tobias was rendered speechless. When did he become Wynter's competitor?

Sebastian reminded the yellow-haired Tobias from a lawyer's perspective, "You're signing for the

Yarwoods' entertainment company.

Although the company you worked for was the largest in the past, Wynter has r now taken over our entertainment company.

"You're unlike me and Rowan. You can't help Wynter make money. But we can."

Chapter 698 The Quinnell Family's Affection Tobias immediately understood what Sebastian meant. He rolled his eyes and took out his phone. He mentioned Wynter in the group chat, entered his password, and transferred the money.

Her phone vibrated as soon as she finished her work.

"Tobias is transferring you 100 thousand dollars."

"Tobias is transferring you 100 thousand dollars."

"Tobias..."

The first three messages were from Tobias. After that, Elliot, Sebastian, and Rowan followed suit. The difference was that the amounts they sent had more digits than Tobias.

Wynter removed her helmet, raised her eyebrow slightly, and asked the butler who came to pick her up to look at her phone. "Phil, what's going on?"

Phil smiled. "They're competing for your favor."

She was confused. He held the flashlight up and told her what had happened in the living room. He couldn't help but laugh.

"This place has not been so lively for a long time. Mr. Tobias is still the same as when he was little. Whenever his brothers provoke him, he'll act silly."

Although Tobias was now a celebrity, he hadn't changed. Wynter could see Phil's feelings for the Quinnells.

She didn't understand it before. But after a trip to Hawford, she learned the origin.

When the Quinnells first started the business, Phil's family was already present, helping with port operations and making significant contributions to cultural relic protection.

They were even willing to go to jail to protect their master.

Wynter remembered all of it. She took the flashlight from him and said, "Be careful, Phil. I'll hold it. The road is long. I can come in by myself afterward. You don't need to pick me up."

"I'm happy to pick you all up." Phil was indeed old. His wrinkles were more evident when he smiled. "I know you're worried about me, but don't worry. My legs are getting better since I applied the medicine you gave me last time."

After hearing that, Wynter didn't insist on persuading him.

Older people were persistent. Phil had been devoted to the Quinnells throughout his life. He had seen many things that saddened him and found it impossible to help.

The Quinnells were getting better, and Fabian was becoming healthier. Wynter was extremely nice to him and the maids as well.

Although Phil didn't understand business, he could see through people. The Quinnells now were the real national businessmen.

Fabian understood all of this best. When Wynter returned, the first thing she did was change the layout of the house.

His condition, Elliot's life, and the murder case that involved Rowan. She saved the Quinnells repeatedly and shot the Quinnell Group to global fame.

If Fabian hadn't figured everything out by now, he'd be unable to control the Quinnells. Shane had been superstitious for many years and believed that outsiders could bring him prosperity. He probably never expected that the person who could make him prosperous would be Wynter, who he thought was destined to be a jinx.

Nobody knew whether he'd regret it when he found out the truth.

Fabian no longer wanted to care about Shane. He just asked Alexis to pay more attention to Shane and keep the latter out of the Quinnell Group's affairs.

He also scheduled an appointment with an attorney to discuss changing the company's equity next week. As long as Albert and Blake returned, Wynter would own the entire company.

"Mr. Quinnell Senior, Mr. Albert's flight will be landing soon."

When Fabian heard that, he was overjoyed. "Then ask the people to prepare a few more dishes. Albert likes homemade dishes."

"Yes, sir."

The Quinnells were thrilled. Wynter sat in the center, surrounded by her brothers jath of whom were enquiring about the set case.

"It has something to do with the wooden doll." She had no intention of You keeping it from her family.

should all be careful in the future.

Don't respond to strange people and things, especially Tobias."

Chapter 699 Worry About Dreams Coming True Wynter had always been concerned about what happened to Tobias in her dream.

She was unable to compute the fate of her relatives. But she was aware that among her brothers, Tobias had the most ups and downs.

In addition, dolls had appeared frequently recently, so Wynter had to give more reminders.

Tobias was about to say something when his reminded him not to forget about the TV shone rang. It was a call from his manager, Jacqueline. She

"Show? What show?" Wynter was inquisitive because she was worried that the previous director would find a place with Earthbound Formation to shoot again. Tobias really looked like a celebrity when he handled his work seriously.

He didn't know how to explain it to Wynter at first. But since she took the initiative to ask, he smiled brightly and responded, "It's a show to increase knowledge. The company chose it for me. I can bring my family to the Cascadia TV show."

Tobias gazed at Wynter. "Wynter, do you want to come with me?"

Rowan said lightly, "I can go with you. She is a non-celebrity. Why are you asking her to go?"

"I want to promote the Quinnells at the right time." Tobias wasn't stupid. "Cascadia TV is for all ages. It would be great to officially reveal my identity as well."

Wynter wasn't interested in Cascadia TV. However, if Tobias could reveal his identity to the world, some of the things in her dream wouldn't happen, such as his being shunned and slandered as a call boy.

"When will the show start? I'll ask Alexis to arrange the time," Wynter said while turning on her phone.

Tobias felt warm when he saw that. "It's on next week."

"Okay." She appeared blank, yet serious, just like when she was a child.

Sebastian and Rowan smiled as they looked at the scene. They used to study in an international school. Every time they returned home, the first thing they did was head to the baby room to see Wynter.

Wynter was unlike other children who cried regularly. If she had something to hold, she could remain silent all day.

When she slept, her eyelashes appeared long, and her face was the size of a palm. When she was awake, she held the bottle and drank her/milk, not forgetting to command Tobias with her eyes.

At that time, no matter how weary they were from school, seeing Wynter and the other brothers at home made them feel like the happiest people in the world.

But later, Tobias seemed to have changed after Wynter was kidnapped. Now, everything was back to before. Of course, they felt pleased.

Fabian went out of the study pleasantly. He then turned on the television to watch a movie. He enjoyed his tea, while Rowan and Sebastian accompanied him and talked about their plans.

Meanwhile, Tobias was seeking advice from Wynter on how to dress for his concert. He also showed her a demo of his new song.

He initially let her listen casually, but he didn't expect her to understand the music. After she adjusted a few notes, the whole song became more upbeat.

Tobias' eyes lit up. He sat on the floor, tapping his hands to the beat.

Although he had never said it, he had always felt inferior to his brothers.

Both Tobias and Rowan were involved in the entertainment circle. Rowan was the country's best actor and had proven himself through his acting skills.

His dream, however, was to be an idol. He enjoyed music and the feeling of being on stage.

Tobias had assumed that he didn't care about other people's opinions. But after hearing it repeatedly, some of the words displeased him.

Some people commented that he was doing useless things by singing and dancing. Regardless of how famous he was, he could only gratify girls.

Chapter 700 Albert Is Back Even though Tobias had become a celebrity, those words always seemed to hover over him. Some nights, he would ask himself whether his current path was meaningful.

So, he abruptly asked, "Wynter, do you think what I'm doing is right?"

"What?" Wynter was still listening to the song.

Tobias looked away. "I want to be an idol without thinking about the aftermath."

Wynter felt a little depressed as she looked at him, recalling the last scene about him from her dream. If she hadn't met and gotten to know Tobias, this feeling might not have been so evident.

He was a spirited young man who pursued his passion despite the obstacles. When he eventually made it to the world stage, a conspiracy ruined him. That trash Shane had always suppressed him mentally as well.

"You're a sparkling celebrity." Wynter gazed up affectionately. "Tobias, you were born to stand on stage. You look cool. How could that be wrong?"

She wasn't joking. "I never underestimated the influence of idols. I've read your interviews. Many overseas fans are eager to learn about Cascadia's history because of you. After understanding our history, they're warm and friendly to us.

"Aren't you always engaged in cultural exchanges? With music as the center and you as the medium, your future will be more dazzling than anyone else's."

Wynter looked serious. "Tobias, I'm proud to have a brother like you."

Tobias was astonished when he first heard that. Then, he became inexplicably joyful, and his heart appeared to be filled with warmth. Nobody had ever told him this before.

He had always wanted to perform on the world's biggest stage as a Cascadian. He assumed no one would agree with him, but he didn't expect Wynter to understand him.

Sebastian and Rowan, who were drinking tea and playing chess nearby, could sense Tobias's emotions.

After hearing Wynter's comments, they reflected. They were able to accept what happened back then because they could judge.

But that wasn't the case for Tobias. At that time, he most likely could only walk and knew nothing.

They went to live on campus, leaving him alone at home. None of them could imagine his situation at that time.

Sebastian and Rowan hadn't given it much thought before because they were unaware of what Shane had done. Now, those issues were laid out in front of them at once.

Sebastian was smart. He had even realized that his dumb father was actually cunning but was too selfish. For himself, he could even sacrifice his love and his children.

Chapter 700 Albert Back

Sebastian didn't want to think about Shane anymore since it made him want to throw up.

He approached Phil and asked him to begin the meal. "Albert may return late. He said we didn't need to wait for him."

When there were a lot of people in the family, they preferred to eat pizza together while watching TV.

Their meal was no different from an ordinary family's. That was the family tradition of the Quinhells. Everything tasted good as long as they were together.

The luxury only began after Naomi came, Shane wanted to elevate her status and give her the best in everything. Those two always paid attention to the Importance of eating the freshest seafood.

Shane didn't follow Gordon to save people like Fabian.

Fabian understood that food was scarce, thus he never wasted it. At never most, he would ask Phil to prepare a

few more dishes because Wynter enjoyed meat.

Each person had a small pizza and a large one in the middle covered in various toppings.

The Quinnells relished their meal in this way. While they eating, Philm exclaimed surprisingly, "Mr. Quinnell Senior, I saw the car! Mr. Albert is back!"
