

Sky&Earth 111

Chapter 111: Saving someone

Su Yi's gaze was currently focused on the ragged-looking girl. He was also surprised.

This girl was no one else other than the lady he had met some time ago, Bi Ling.

But now she was alone, he did not see Yiyun and the other 3 people around.

It's the people from that adventurer party!

Behind the girl appeared several figures with fierce auras. Su Yi's eyebrow raised slightly and instantly Yuan Qi exploded beneath his feet, making him gain momentum. His figure dashing towards the fatty at full speed.

Save me!

The fatty was already terror-stricken. He knew the kid's ability. He had heard from his group that even Yuan Xuan Realm Third Grade cultivators have been killed by this kid. How would he be able to fight back? He raced ahead, trying to join up with the people ahead of him.

The distance between the fatty and the others was not large. The fatty used all his strength as he ran desperately to survive, the distance ahead became shorter and shorter.

Boom!

Suddenly, the expression of the fatty completely changed. He found that his body seemed to have been frozen for a short period of time. Then, behind him came a blazing hot aura striking him on his back with a slash.

Since the fatty was a Yuan Xuan Realm cultivator, he immediately put on a Yuan Qi Cloak.

Explode!

But at the same time, suddenly an explosion rang out from his cloak. An enormous scorching hot aura came, and it erupted like a volcano.

Rumble

The explosion rang out like thunder, and the violent winds ripped through the surroundings from the impact, like a hurricane.

Puh!

The Cloak of Yuan Qi on the fatty's back disintegrated, his body fell forward. His face turned white and blood spewed out from his mouth.

Pa!

The fatty collapsed onto the ground, unknown whether he was dead or alive.

The faces of Bi Ling and the other enemies were filled with shock. They could all tell from the attack that Su Yi was only at Yuan Soul Realm Seventh Grade, but a Yuan Xuan Realm First Grade could not even withstand his blow, how could he be simple?

Especially Bi Ling, this scene hit her hard.

Her talent in her entire sect was definitely among the very best, but she knew that back when she was at Yuan Soul Realm Seventh Grade, it would almost be impossible for her to fight an average Yuan Xuan Realm First Grade.

Their cultivation levels are not weak.

Su Yi looked at the several hostile figures. There were seven of them. He had detected some time ago that there was at least a Yuan Xuan Realm Fifth Grade or Sixth Grade cultivator among them. It would be unlikely for him to be able to deal with the person.

Its that bastard! Get him!

Alive, catch him alive!

Dont let that kid escape!

They could only watch as the fatty dropped to the ground in front of them. They could not save him in time. They were stunned for a moment, but they recovered and each one of them was furious yet ecstatic. They finally found their priced target, this was a huge achievement.

Swish! Swish!

Instantly, the seven figures lunged towards Su Yi, completely forgetting about Bi Ling.

Roar!

Screech!

Then, there were cries of beasts. The forest was awoken and the ground trembled.

A huge Flaming Beast Eagle soared out of the trees, its aura swept through the place like a hurricane with a sizzling temperature.

The Snow Jade Ape bellowed as it crashed through the towering trees, charging towards the seven people.

Shit!

The seven men who were lunging towards Su Yi instantly stopped in their tracks, their eyes filled with fear, stunned by the sudden appearance of these two beasts.

Demonic Spirit Realm!

Seeing the two beasts, Bi Lings face lost all color.

Boom!

Rumble!

Everything happened too quickly. The Flaming Beast Eagle and the Snow Jade Ape appeared, and two men were instantly flattened into a meaty patty, their remains a bloody mess.

Compared to these two beasts, the people there were like ants.

Shrak!

The Flaming Beast Eagle flapped its wide wings, its talons like hooks, ripping another man to shreds.

Roar!

The Snow Jade Ape roared, making people shiver with fear. Its giant palm reached out and slapped another person onto a boulder far away.

Crack!

The boulder cracked, and the person also turned into a bloodied mess, his blood and flesh flying everywhere.

In the blink of an eye, four men had already lost their lives. Each of them battered and bloodied, nearly unrecognizable.

You beast! Come at me!

The leader of the group hollered out, drawing his long saber. His strong aura surged through the air, fierce and intimidating.

He had wanted to run away, but his escape was sealed by the Snow Jade Ape, so he had no choice but to fight the beast with all his might.

Bam!

But unfortunately, the person was only at Yuan Xuan Realm Seventh Grade and was not a match for the Snow Jade Ape. Just one slap from the ape sent him flying and turning him into a gory pile of flesh, warm blood soaked through the ground.

Are you still not going to run? Hurry!

Su Yi's voice traveled into Bi Ling's ears, his figure already dashing into the trees.

Bi Ling snapped out of her daze, her eyes still filled with shock and she followed Su Yi closely as they left the scene.

After around two hours, Su Yi and Bi Ling reached a natural hidden cave.

We are lucky that the Flaming Beast Eagle and the Snow Jade Ape did not chase after us. Or else, we will be dead!

Bi Ling was panting heavily, trying to catch her breath. Her clothes stuck to her wonderful figure, further empathizing the slim curves of her body. Her hair was messy, but it only served to further charm others.

Bi Ling's heart was still palpitating. There were actually two Demonic Spirit Realm beasts, fortunately, they had escaped in the nick of time. Or else, they would never be able to fight those beasts.

Yeah, luckily we ran away fast.

Su Yi's eyes could not help but shift to that curvy body again and again. Bi Ling's age was not big, and she still had not developed fully, but her figure was already giving a ferocious impact on the eyes. She was probably on par with Liu Ruoxi's cousin, Liu Yanni.

But Bi Ling had a high-class and dignified air around her that Liu Yanni did not.

As for his relationship with the Snow Jade Ape and the Flaming Beast Eagle, naturally, Su Yi would not speak a word of it. Su Yi wanted to mercilessly kill off the entire bunch of adventurers.

But he suddenly saw Bi Ling being hunted, and he was not one that would sit at the side and watch someone die. After all, he did take an interspatial bag from the lady.

And she would surely have someone large backing her. Who knew whether or not the lady would fight him in the future, Su Yi did not wish to reveal the Snow Jade Ape and the Flaming Beast Eagle to the girl. Saving someone was just part of humanism.

Is the Flaming Beast Eagle and the Snow Jade Ape related to you?

Bi Ling stared at Su Yi, her eyes filled with suspicion. Those two beasts had suddenly come out of nowhere, yet they did not attack them nor come after them. This made her suspicious.

If they were related to me, why would I still need to worry about those adventurers? Su Yi smiled awkwardly, he was not planning to admit the fact.

Chapter 112: Taihang Sect

So, youre finally admitting that those adventurers have a grudge with you and the person they want to kill is you, yet you used us to deal with them, how despicable are you?!

Bi Ling was furious. It was as she had guessed. This kid did use her and her friends to fight with the adventurers while he sat by the side and reaped the rewards. If not for this kid, she and the rest of her group would not have been separated.

This.

Su Yi laughed awkwardly. But then his expression changed, he looked at Bi Ling seriously and said, Actually, how could you blame me? I did not tell you to fight them and it is your friends who were so arrogant and offended me first, later on, they even wanted to kill me, so everything that happened has nothing to do with me.

Thats just a fallacious argument!

Bi Ling stared furiously at Su Yi, but she could not find any words to retort with. It was true, it was due to the arrogance of her friends that they were used by him. But this was all a plot set up by that kid.

Su Yi found out from Bi Ling, that after he had taken the interspatial bags from Zhouda and the rest, they soon encountered the adventurers and fought a bloody path to escape.

Then, not long after, they met some strong cultivators from the adventurer party and she was separated from the rest and coincidentally met Su Yi.

Why did you guys come to the Forest of Demons anyway? There should be strong cultivators from your sect, right? So why did you guys need to fear those adventurers? Su Yi asked Bi Ling.

Our purpose for coming to the Forest of Demons this time was due to news of a Blood Spiritual Ginseng, so the High Elders from our sect brought us here to try our luck as well as train

Suddenly, Bi Ling reacted. The guy in front of her was trying to trick her into giving information. The High Elder has specifically reminded them not to say anything about this matter to anyone.

Blood Spiritual Ginseng

Hearing Bi Lings words, Su Yi dug up all the information he had about this plant from his mind. That spiritual herb was the main ingredient for many Yellow Grade elixirs.

It is said that directly consuming a Blood Spiritual Ginseng can also raise ones cultivation level and even had the effect of bringing one back from the verge of death.

Su Yi was really astonished by the information he just gained. If the news was true and if he was able to get that Blood Spiritual Ginseng, he could help his Grandfather recover completely and even raise his cultivation level by a bit.

Are you alright?

Seeing Su Yi in a daze, Bi Ling asked confused. Everything about this youth in front of her seemed strange.

No, its nothing. I was wondering whether those adventurers will come looking for us. Su Yi snapped out of his thoughts and acted as if there was nothing wrong.

Wait for me to recover and meet up with the other people from the sect, then there would be no need to worry about those adventurers.

Bi Ling looked at Su Yi and asked, Which sect did you come from? Why did you also come to the Forest of Demons? Are you also here to train yourself?

I belong to no organization. I am but a rouge cultivator. Su Yi replied. These words were the truth.

Bi Ling continued staring at Su Yi. It was obvious that she did not believe Su Yis words.

She had witnessed Su Yis martial prowess and techniques. How could a youth like this not belong to any organization? It was so obvious that he did not want to tell her the truth.

Oh yes, umm.

Bi Ling looked at Su Yi, trying to say something but hesitated.

What is it? Su Yi smiled widely and was very enthusiastic.

Can you return the interspatial bag you took from me? My clothes are still inside. Bi Ling said, biting down on her lips slightly. Her current clothes were stained with blood and she had no means to wash up, but at the very least she had to change her clothes. She could not stand herself being in these clothes.

And noticing the clothes that Su Yi was currently wearing, Bi Ling recognized those belonged to Zhouda and was from within his interspatial bag.

Each interspatial bag was protected by the owners own techniques and this guy could actually open Zhoudas interspatial bag. Most likely, he would be able to open her interspatial bag as well.

Within her interspatial bag, other than some elixirs, there were still some clothes and stuff that women used. This guy probably has already searched through her bag.

Thinking about this fact, a blush appeared on Bi Lings face.

The interspatial bag? No problem! Everything back then was only a misunderstanding, just a misunderstanding. Su Yi smiled embarrassedly. He took out an interspatial bag and handed it over to Bi Ling. It was the interspatial bag that he had taken from Bi Ling back then.

Receiving the interspatial bag, Bi Ling saw Su Yis wide smile and felt that something was not right.

Then, Bi Ling checked the bag. As she had expected, it had been opened. But only the elixirs were taken and most of the other stuff remained.

Hehe, excuse me. I have already eaten all those elixirs. If there is an opportunity next time, I will definitely return them to you. Su Yi admitted.

Right now, all the elixirs were within his mysterious space, of course, he had no way of taking them out to return them.

Are you an alchemist or tool refiner? Bi Ling looked at Su Yi. Since this guy could open her interspatial bag, was he an alchemist or maybe a tool refiner?

No, Im neither. This bag was opened with a method that I had come up with. Su Yi shook his head. He knew that Bi Ling was referring to the mysterious space he had and his identity of being a Soul Tamer, but naturally, he would not reveal those to her. He looked back at Bi Ling and asked, I still do not know which sect you are from.

Taihang Sect!

Bi Ling hesitated for a moment and then said two words.

Su Yi was surprised. The weight of those two words was quite heavy.

Just as he had thought, Bi Ling had come from a large organization and not just any normal organization.

One Mountain, Two Religious Sects, Three Sects, and Four Schools. Sacred Mountain was one of these ten major powers.

The remaining two religious sects were the Gemini Religious Sect and the Endless Religious Sect.

The three sects referred to the Heavenly Dragon Sect, Taihang Sect, and the Immortal Sword Sect.

The four schools were Godly Tiger School, Infinity School, School of the Grand Pure One, and the Demon Subjugating School.

Taihang Sect was one of the top ten major powers on the continent and its name was on the same stage as the Sacred Mountain.

So, you are from the Taihang Sect, pardon me for my disrespect. Su Yi's face did not express anything he was thinking. There was only a smile. From his encounter and bad impression of Sacred Mountain, he had no interest regarding any of these major sects. Though he could not judge all of them just by seeing only one person, at least, he no longer admired them.

You said that you were a rouge cultivator, with your talent, I feel that you have the qualifications to enter my sect. I can help you put in some good words, and there shouldnt be any problem with you entering the sect. Hows that? Bi Ling looked at Su Yi closely. She wanted to know where this guy came from. When he heard about Taihang Sect, he did not seem to have any reaction. How could this response possibly come from a rouge cultivator?

Bi Ling was clear about this guys talent. Being able to easily kill a Yuan Xuan Realm First Grade cultivator at Yuan Soul Realm Seventh Grade was already proof of his talent. If he really wanted to join Taihang Sect, the High Elders in the sect would be delighted to take him in.

Never mind, I am already used to being free. Su Yi shook his head.

Thoughts went through Bi Lings head. So many people wanted to get into Taihang Sect but they could not.

That was Taihang Sect, one of the paradises and sacred land of all martial artists and cultivators.

Yet, this youth in front of her was not at all tempted by the invitation.

Unless the organization he had come from was just as good as the Taihang Sect.

The more she thought along this direction, the more Bi Ling felt it was possible. Or else, who else could be so indifferent about Taihang Sect.

Okay, please leave for a while. I need to change my clothes. Do not come in or I will not be polite. Bi Ling told Su Yi.

Chapter 113: Dharma Protector Heijiu

Okay, could you please go outside for a moment. I need to change my clothes. You are not allowed to come in, or else Bi Ling told Su Yi.

Sure, take your time to recover. I will protect you and dont worry, I wont peep on you.

Su Yi turned, waved his hand and left the cave.

Then, thats for the best. Dont come in. Seeing Su Yi leave, Bi Ling still worried about him peeping. She took two more glances, then lifted a huge boulder and sealed the mouth of the cave. Only after doing all this did she feel safe.

He is a bit special. Finishing all this work, Bi Ling mumbled to herself. Compared to Zhouda, Guoyan, and Qingfeng, this youth was way too different.

Outside the cave, seeing the mouth of the cave tightly sealed, Su Yi could only smile. Then, he fell into deep thought.

Blood Spiritual Ginseng. Su Yi was still thinking about that spiritual herb. If he had the chance to obtain it, he would be able to save his Grandfather.

In the dense forest, a huge mess was made. Trees were broken, boulders were shattered, and blood was splashed all over the place. Over ten people stood there, slightly trembling in their hearts at this sight.

Leader, over ten of our elite brothers have been killed again. We cannot continue on like this! A man spoke to Tao Tiancheng. There really werent many people left in the party anymore.

There are signs of beasts. This was not even caused by that brat! Damn! Tao Tiancheng inspected the area and found traces of beasts. There were only battered, mashed-up corpses with torn limbs scattered across the place. This was definitely the work of beasts.

Unless that kid really has a strong beast by his side! The man was shocked. He had already felt the remaining auras of the beasts around. This only proves that the kid has tamed beasts following him around. If that was really the case, they had to re-evaluate the kids identity.

I do not care whether or not he owns a beast, I will not let him go. Tao Tianchengs face was grim. He had nurtured the adventurer party for such a long time and now that his losses were so severe, his reputation was tarnished even in his own territory. If he did not apprehend this brat alive, what

face would he have left to show in the Forest of Demons? The only way to recover from such heavy losses was to hand that kid alive to Black Fiend School.

What about the Vice-Leader? Why is he not here yet? Tao Tiancheng was extremely displeased, with the appearance of high-leveled beasts and from what he could tell from the remains of the battlefield, there were more than one beasts present. The matter had also developed further and further away out of his imagination. He had to be ready to face anything now.

Leader, the Vice-Leader has sent a message that once he finished his work, he would rush over. His subordinate reported.

What is this Wang Yuchen trying to do? Do my words mean nothing to him anymore? Tao Tianchengs face fell even further. He had already ordered his men to send messages several times already, yet his Vice-Leader Wang Yuchen still hadn't arrived. This was a plain and simple way to challenge his authority.

Careful! Someone is here! Before finishing his sentence, Tao Tianchengs face suddenly changed and he looked straight ahead of him.

Howl! Howl! Howl! Howl! Suddenly, roars and howls of beasts rang out in their surroundings. The trees shook and in several seconds, Hell Wolves numbering not less than 200 pounced out from the trees. Their appearance was ferocious, their canines bared, causing people to tremble.

The auras of more than ten adventurers surged through the air, but, in front of a pack of more than 200 Hell Wolves, they could not help but feel chills run down their spine.

Are we encountering a Beast Tide? Why are there so many Hell Wolves?! the men shivered in fear at this sight. There were so many Hell Wolves, though their cultivation levels were not high, it was not something their group could deal with.

It can't be. Hell Wolves are small in numbers. One pack would at most only have a few wolves. This huge number of Hell Wolves could only mean someone has tamed them all! Someone responded. With just this number of Hell Wolves it could not possibly be a Beast Tide, they should have been tamed by someone.

Tao Tianchengs face changed. He understood clearly that the last time he had paid big money to rent those 20 Hell Wolves could already be considered as an almost impossible feat. Someone who could use so many Hell Wolves at once must have a very large backing.

Whoosh! Whoosh! Closely following behind the Hell Wolves were tens of figures.

It's the Vice-Leader! The Vice-Leader is here! Seeing a slightly fat and short man at the front of the figures, the adventurers were ecstatic. That man was their Vice-Leader, Wang Yuchen.

Tao Tiancheng was not happy. He was suspicious. He saw that though there were some adventurers belonging to their party besides him, the remaining tens of people were strangers. Among them were several cultivators who had very strong auras. One look at them and he could tell they were from a large organization.

Especially the old man who was taller than everyone else by a whole head, yet he was skinny as a stick. The brown robe that enveloped his body made him look just like a skeleton wearing clothes. His cheeks barely had any flesh. His cheekbones were high, his forehead was bulging out and his eyes were deep, just like a black cuckoo from the darkness inside the forest.

Black Fiend School! Seeing the old man, Tao Tiancheng's heart could not help but shiver. This person was definitely extremely strong, and he was not the average strong cultivator as well. What was more important was that these tens of strangers all had the same insignia on their clothes. Though he may not have any business with Black Fiend School, it did not mean that he will not recognize them. These were men of Black Fiend School.

Leader let me introduce you to this person. This is Dharma Protector Heijiu of Black Fiend School. Wang Yuchen walked forward with his short and plump figure, his face held a smile as he walked in front of Tao Tiancheng.

Wang Yuchen, you! Tao Tiancheng's face changed. These were men from Black Fiend School. Now that his Vice-Leader had arrived with brothers from the party and men from Black Fiend School, how could he not understand that Wang Yuchen had secretly contacted Black Fiend School and joined their side?

Leader, I think you better explain the situation to Dharma Protector Heijiu. Do you have any news of that kid? Wang Yuchen continued smiling, not at all affected by Tao Tiancheng's ugly expression.

Where is that kid now? Is he the one my Black Fiend School is looking for? I want all the information you have now, or else you know the consequences! Heijiu looked at Tao Tiancheng. His voice was sharp, piercing the ears of people. It was just like a screech from a cuckoo at night, making people feel uncomfortable.

One day later, the cave opened.

Bi Ling walked out. Her body already dressed in a long and light aquamarine skirt, embroidered with flower-like markings. Her lush black hair was draped over her shoulders while she walked. Her walk seemed to encompass the beauty of the world, brightness radiating from every step she took. Her lips were slightly red, and her face had also regained some of its rosininess.

Outside the cave, Su Yi was squatting in front of a campfire on a pile of rocks. His face slightly stained by the smoke. Seeing Bi Ling who was walking out of the cave, he could not help but fall into a daze.

Chapter 114: Exposed

What are you doing? Watching Su Yi, Bi Ling was slightly confused about what he was currently doing. Her thin eyebrows were slightly slanted. Her eyes were a black, beautiful and pure, like a clear stream of water.

I was hungry and wanted to eat something, so I decided to roast some meat. Su Yi snapped out of his daze. This girl was quite young, yet her looks were already top of the line. After a few years, once she develops fully, how beautiful would she be? How many conflicts would she cause?

Roasted meat? Bi Ling was curious. She walked over to Su Yi and looked at the pile of stones. Her shoulders were refined, her waist lean. Her neck was fair, and her skin seemed to glow. When she was beside Su Yi, a pleasant smell drifted into Su Yi's nose.

It should be ready. Su Yi smiled and separated the pile of stones. After putting out the fire, he lifted out a pile of dried dirt.

He broke the dried dirt and inside was something wrapped with a ball of leaves. They seemed to be some sort of aromatic leaves and exuded a fragrance.

Bi Ling quietly watched what Su Yi was doing. She was very curious.

When the aromatic leaves were opened, instantly, a wave of the sweet smell of fresh meat spread through the place. A golden-brown wild chicken was sizzling and hot chicken oil was slowly sliding down the fleshy meat of the chicken.

It smells so good! Bi Ling could not help but compliment. This fragrance from the meat seemed to make a person intoxicated. That aroma started to whet her appetite.

But after she said those words, a blush crept up to her face. She was one of the prodigious girls of Taihang Sect. How could she act in such an undignified manner in front of others?

It smells good, doesn't it? I had searched for a very long time for these ingredients. Come, sit down and have some. Su Yi smiled. Even if you could stay alive without food at Yuan Soul Realm, there will be times when you get hungry. Furthermore, humans have cravings for good food.

Luckily, this was the Forest of Demons. It was not all that hard to find some ingredients used to roast meat, it was just tedious. This kind of salt, dirt was important and the aromatic leaves which were used to cover the meat was rare as well. If these ingredients were not used, this kind of roasted meat will be called Beggars Chicken which would be bland and have no flavor.

Su Yi tore half of the Beggars Chicken which was wrapped in aromatic leaves and handed it to Bi Ling.

Bi Ling wanted to refuse, but she was hungry, and she had also never smelled that particular fragrance from meat before. She could not refuse the offer and received the meat. She could not care whether it would scald her tongue and took a small bite.

Delicious Bi Ling was astonished. This meat was so good! She had never tasted roasted meat like this before.

Its delicious, isn't it? It is my own secret recipe. If there are chances in the future, I can make more delicious food for you. In my hometown, there were many kinds of delicious food. Su Yi grinned. He did not care for his image and started taking big bites of the meat.

Bi Ling continued eating the meat while glancing at Su Yi from time to time. She found something strange. This guy had robbed them of their interspatial bags. He was sly and despicable. Yet, for some reason, she did not hate him as much as she thought she would. He even made her have a strange feeling.

Don't you have an interspatial bag? Why are you still carrying that saber and sword on your back? Bi Ling ate and asked. His appearance looked a bit unique.

Don't you find that this image looks cooler? If someone else saw me, they would definitely know that I am a skilled cultivator and would not dare to provoke me. Su Yi smiled and replied.

Hearing his words, Bi Ling rolled her eyes. She did not want to continue this topic and continued asking, My name is Bi Ling, you? I know you are called Bi Ling. Su Yi casually smiled. He had heard her name from her friends before and replied, My name is Su Yi. Su of Su Yi. Yi of Su Yi. Hearing Su Yi's reply, Bi Ling could only roll her eyes again.

Careful, there's movement! Suddenly, Bi Ling's expression changed.

Whoosh! Whoosh! Suddenly, there was movement in the trees and bushes ahead. Suddenly, two Hell Wolves dashed out.

Howl! Howl! The Hell Wolves howled. When they noticed Su Yi and Bi Ling, they immediately growled and lunged at them.

Swish Su Yi dashed forth, leaving only afterimages behind. A vast and mighty aura burst off his body.

When the aura appeared, the two Hell Wolves which had just lunged out trembled.

Shrak! Su Yi reached the two Hell Wolves, drew the saber out of the sheath on his back and swung it. There was only an arc of light and the Hell Wolves were sliced apart, blood scattered through the air.

Everything happened really quickly like lightning. This also made Bi Ling surprised. Though the strength of these two Hell Wolves was not much, they were not weak. An average Yuan Xuan Realm First Grade cultivator would find it difficult to deal with them, but they were annihilated by this guy in an instant. This made her shocked.

We have found the kid! Fire the signal flare! An anxious voice traveled out of the forest. Then, three figures appeared. Seeing Su Yi, happiness could be seen in their eyes. Someone immediately wanted to fire off a flare.

Attack them, or else we will be in deep trouble. Su Yi's voice rang beside Bi Ling's ear. Yuan Qi spiraled under his feet, using the Hundred Transformations Step, he charged towards the man who was going to fire off a flare.

Watch out! The person was not weak. He was surprised and unleashed his Yuan Qi. A cultivation level of Yuan Xuan Realm Second Grade was already not weak on the outskirts of the Forest of Demons, and he parried Su Yi's blade.

Swish! There was a light from a sword, quick as lightning. A graceful figure dashed forth, Yuan Qi converged at the tip of the sword and like a lightning bolt, emitting a glaring light, it pierced the man's chest. The signal flare was not fired, and the person collapsed lifeless onto the ground.

Su Yi was surprised. The one who had attacked was Bi Ling. Su Yi could feel that Bi Ling's injuries have not completely recovered but being able to kill a Yuan Xuan Realm Second Grade cultivator with a single move, it seems that Bi Ling's strength far exceeded his expectations.

Run! How would the remaining two people dare to stay? They had heard how terrifying this kid was. He had killed many of the strong cultivators within their adventurer party and their cultivation level even was lower than their comrade who had just died.

In an instant, they turned tails and ran without any hesitation. This was a fast lightning like response they had gotten from being trained in the Forest of Demons.

You cannot escape! A voice rang beside one of the surviving adventurers ear. It sounded like the person was just right beside him. The man was shocked and before he was able to shout or make a move, a figure dashed past him. A powerful aura accompanied by a thunderous roar came and slammed right onto his chest.

Boom! An explosion rang out from the mans chest. He squinted his eyes. His chest had caved in. He could only feel a wave of continuous impacts within his body, severely injuring his internal organs.

Huhuk He spat out a mouthful of blood and his body went flying backward and crashed heavily onto the ground, feeling as if all his internal organs had shifted their positions.

Shiik The last person was trying to make a run for it when a sword ran straight through his back. He collapsed onto the ground lifeless, his eyes filled with horror. The person who had killed him was Bi Ling.

Chapter 115: Grand Beast Canyon

The man who had been severely injured by Su Yi was still alive, but he was hanging on just barely. He did not even have the strength to move a muscle and could only watch as Su Yi placed a giant saber against his neck.

Give me the locations of your Leader and your Vice-Leader now! If you do not want to reveal their locations, then die! Su Yi threatened the man.

There werent many people left in the adventurer party, yet they were still so relentless in pursuing him. Since the grudge was already made, he might as well go after them.

In the entire adventurer party, the only ones Su Yi was afraid of were the Leader and the Vice-Leader.

The Leader and the Vice-Leader are currently with the people from Black Fiend School, not far away from here. The man was terrified. He revealed everything he knew while blood ran down his mouth.

Black Fiend School!

Hearing those three words, Su Yis face fell.

How many are there from Black Fiend School? How many strong cultivators are there? Su Yi asked with a grave voice. He could ignore the people from the adventurer party, but he could not treat the Black Fiend School as nothing.

Su Yi never thought Black Fiend School would manage to track him down all the way here and they had even joined up with the adventurer party.

There are tens of people from Black Fiend School and at least 200 Hell Wolves. There is also a Dharma Protector called Heijiu leading the men along with many other strong cultivators.

The man continued watching Su Yi, his heart palpitating. He gritted his teeth and said while shaking, I have both old and young in my family, please spare my life, if not, you will also be unable to escape. Many strong cultivators from Black Fiend School have arrived, Ive heard that you have killed the Young Master of their School, they will not spare you!

I wanted to spare you, but I have always hated being threatened by others. You may have both old and young in your family to take care of, but you decided to hunt me down. From that moment forth, you should have been prepared to be killed by me. This is the law of Heaven, I too have old people in my family!

Su Yi finished his sentence and slid his giant saber across the mans throat, ending his life.

His eyes were cold, and his expression was grim.

He had never expected Black Fiend School to appear. Black Fiend School was way too strong for him to take on. The difference between them and the adventurer party was like heaven and earth. To Su Yi, Black Fiend School was like a towering mountain that he could not overcome.

Bi Ling sheathed her sword and looked at Su Yi. Seeing his cold expression and his merciless actions, it was like he was another person. This made her curious. She wondered which was the real Su Yi.

He was not old, yet she felt like she was looking at a vast ocean, one so deep she could not see the bottom.

Is something wrong? Seeing Su Yi's serious expression, Bi Ling hesitated and then asked Su Yi, Black Fiend School seemed to be a considerable power within the Forest of Demons, have you offended them in the past?

We do have some small grudges. Su Yi raised his eyes slightly. Obviously, he would not tell others that he had killed the Young Master of Black Fiend School. He then told Bi Ling, Your injuries have already recovered fairly well, it is time to part ways. Take care!

Bi Ling looked at Su Yi, paused for a moment, bit lightly on her lower lip and said softly, Not far ahead should be the rendezvous point where I am supposed to meet with the strong cultivators from my sect. You can accompany me there. At that time, even if we meet the people from Black Fiend School, we would have nothing to worry about.

It's okay. Su Yi smiled. If he was together with the strong cultivators of Taihang Sect, indeed, he would have no need to worry about Black Fiend School.

But Su Yi did not have any good feelings towards those major organizations and they may even add to his troubles.

Furthermore, he had already offended Zhou Da, Guoyan, and Qingfeng. If he stayed with Taihang Sect, he would have his fair share of troubles.

You do not need to worry. There is a small misunderstanding between you and the Senior Brothers, if I were to speak to them, they will still listen to me. There will be no problem. Bi Ling thought Su Yi was worried about her Senior Brothers. She tried to make Su Yi relieved and told him that she could get rid of the bad blood between them.

Haha, I am still more used to going solo.

Su Yi shook his head and smiled. What small misunderstanding? The thought of returning those interspatial bags, elixirs and martial art techniques had never crossed his mind and he will never return them.

Furthermore, when he was together with the people from Taihang Sect, his movements will be heavily restricted, and it may not be a good thing.

On the account that I helped protect you while you recovered and treated you to roast meat, can I ask of a final favor from you? Su Yi became serious and asked Bi Ling.

Okay, if it is something I can do, there should be no problem. Bi Ling stared at Su Yi and after a few moments, she nodded his head. This guy did have a motive.

I would like to know more about the Blood Spiritual Ginseng. Su Yi asked. He had returned the interspatial bag to Bi Ling and had even protected her for a day, his motive would obviously be to obtain more information about the spiritual herb.

The news about the Blood Spiritual Ginseng appearing within the Forest of Demons is a secret. Very few people know about it. Bi Ling was a bit hesitant. Not many people knew about this matter and the Blood Spiritual Ginseng was something that the strong cultivators of her sect wanted.

She paused for a moment, before resuming, From what I know, some other strong cultivators would have also gotten wind of the news and all of them would want to get their hands on the Blood Spiritual Ginseng. If you are also intending to get your hands on it, I advise you to get rid of that thought as soon as possible. It is not a matter which you can join in with your current ability.

I am just curious. Su Yi gave a slight smile and said to Bi Ling, If it inconveniences you, you need not say it.

The Blood Spiritual Ginseng would most likely appear in the Grand Beast Canyon. They say that the Blood Spiritual Ginseng already has its own intelligence and was discovered not too long ago. I only know this much.

Bi Ling bit her lips lightly and told Su Yi. This was all she knew.

The place where she was going to meet up with the cultivators of her sect was at the Grand Beast Canyon. The strong cultivators of her sect had already gone ahead to the Grand Beast Canyon to search for the Blood Spiritual Ginseng.

Grand Beast Canyon and that Blood Spiritual Ginseng even have intelligence

Su Yi knew perfectly well what the Grand Beast Canyon was.

Passing through the Grand Beast Canyon, you would arrive at the heart of the Forest of Demons.

The most important thing was that within the Grand Beast Canyon, many beasts converge there and among them were a fair number of extremely strong beasts. Normally, not many people dared to step within the Grand Beast Canyon.

Take care, Miss Bi Ling and may we meet again. Waving his hands, Su Yi turned and left. His lean figure seems so strong and straight against the light.

What a strange guy. Looking at that fading back, Bi Ling mumbled. Until that figure disappeared completely, there were thoughts behind her eyes, a flash of light streaked across her eyes and that beautiful figure turned and left as well.

Roar!

Screech!

After a moment, Su Yi saw the Flaming Beast Eagle and the Snow Jade Ape.

You guys have to be more cautious. Focus on staying stealthy.

Su Yi informed the two beasts that strong cultivators from Black Fiend School have arrived and they had to be on guard towards them.

Chapter 116: Predicament

If he were to ride the Flaming Beast Eagle during the day, he would probably expose himself.

Su Yi estimated that Dharma Protector Heijiu of Black Fiend School would most likely be at, at least Yuan Spirit Realm. That was actually the minimum. Currently, he had no way of knowing exactly what the Dharma Protectors cultivation level was.

Su Yi was also sure that among the strong cultivators from Black Fiend School, there would be some which could even fly.

The people from Black Fiend School were already nearby, if he were to reveal himself by riding the Flaming Beast Eagle, he would only put himself in more danger. If he wanted to ride the Flaming Beast Eagle, it could only be possible at night when it would be much safer.

The Flaming Beast Eagle and the Snow Jade Ape nodded their heads. Though they could not speak, they could understand what Su Yi was telling them.

It would be better to leave now. Su Yi made his decision. The people from Black Fiend School have already arrived, he could not stay here any longer. Just the sheer number of Hell Wolves is already enough to make sure he had nowhere to hide.

Howl!

Bam! Bam!

Suddenly, from the silence of the forest, there were thunderous roars of beasts and sounds of explosions.

Screech!

The Snow Jade Ape roared, and the Flaming Beast Eagles talons which were like hooks. Every time they made an attack, horrible shrieks would rang out.

Three Sabers of the Raging Dragon, Tyrant Dragon Whirlwind Slash!

The light from the saber was as quick as lightning. As it slashed across the air, its pressure enormous and its aura fierce and swift. Shock and fear filled the eyes of a disciple from Black Fiend School who was in front of Su Yi, he could already feel death approaching him.

But it was too late for regrets, with a cultivation level of Yuan Xuan Realm Third Grade, he had lost his life at the hands of a Yuan Soul Realm Seventh Grade kid. He could not believe this even as he was killed.

Snow Ape, Fire Bird, lets go!

Blood dripped down the large saber. Su Yi turned and left immediately. Since he had encountered disciples from Black Fiend School, it would only mean that there would be more nearby. He had to leave as soon as possible.

The place was a mess and several Hell Wolves laid dead.

Over ten disciples of Black Fiend School had turned into corpses. Some of them had been smashed and ripped apart by the Flaming Beast Eagle and the Snow Jade Ape, leaving only a pool of blood and flesh.

Bastard! Is that kid so hard to deal with?!

After a while, in front of a pile of unrecognizable corpses, Heijiu's face was not happy. These were after all the disciples from Black Fiend School.

Tao Tiancheng, didn't you say that the kid was only at Yuan Soul Realm? How is it that several of my Black Fiend Schools Yuan Xuan Realm Eight and Ninth Grade cultivators are also dead?!

Heijiu stared at Tao Tiancheng in the eyes. The coldness in his eyes making people shiver with sheer terror.

Many disciples of Black Fiend School and a few other adventurers felt this aura and were completely silent due to fear, not daring to make a single noise.

Dharma Protector Heijiu, the kid is certainly only at the Yuan Soul Realm. This fact I am absolutely sure, but I suspect that strong beasts are accompanying him. Tao Tiancheng hesitated for a moment, but he could only gather his courage and reply. Though he felt really wronged and helpless, what did the deaths of people from Black Fiend School have to do with him? Most people from his adventurer party were also already dead.

Indeed, there are signs of beasts and there should be two of them.

Heijiu's expression changed slightly. He scanned the surroundings and said, All Yuan Spirit Realm cultivators shall each lead a team and set out personally. The kid must be found before nightfall. If the beast that is beside the kid is a flying beast, once it night comes, it would be even harder for us to find that brat!

Yes, Dharma Protector!

Search! Find that kid before nightfall!

Instantly, figures dashed out in every direction, each person leading a group.

The sky was painted yellow as the sun fell beyond the horizon. A red glow blanketed the entire sky.

Among the rubble, Su Yi's large saber was once again dripping with blood. Corpses were strewn about everywhere.

In just a few hours, Su Yi had encountered three search parties led by Hell Wolves. There was no lack of Yuan Xuan Realm Eighth Grade and Ninth Grade cultivators among them. If it weren't for the Flaming Beast Eagle and the Snow Jade Ape, he would be in deep trouble.

Howl!

From the distance, there was a howl. Su Yi's ears stood up. This sound was all too familiar to him. It was the howl from a Hell Wolf.

They are coming again. Move!

Su Yi's slightly pale face had a grave expression. He popped an elixir into his mouth quickly.

This was a recovery elixir that he had obtained from Zhou Da and the rest of his friends. To deal with Black Fiend School chasing him down, Su Yi had specially taken it out from the mysterious space for times which he needed it.

Whoosh! Whoosh!

Howl!

Not long had passed before Su Yi was surrounded by over 30 Hell Wolves.

We found him, its that brat!

Kid, lets see where you are going to run to now!

Dont let this kid escape again!

In the blink of an eye, nearly 30 men appeared in Su Yis surroundings and had encircled him tightly.

Those who had arrived were all disciple of Black Fiend School. Each of them had a fierce aura which could not be compared to those of the adventurers.

Su Yi observed his surroundings, his face grave and focused. Nearly 30 disciples and among them were at least two Yuan Spirit Realm cultivators.

Take him down!

A man shouted and after giving the order, he stared at Su Yi.

Swish! Swoosh!

As soon as the man gave the order, disciples charged forth towards Su Yi.

Boom!

At this moment, Su Yi initiated his Supreme Chaotic Yuan Technique without any hesitation. A majestic and tyrannical aura spread rippled outwards.

Howl! Howl!

Under this aura, the Hell Wolves were stunned, their eyes filled with fear and respect, interfering with many of the disciples advances.

Kill!

Su Yi hollered. His aura surging and his eyes exceedingly cold.

Howl! Growl!

Instantly, the Hell Wolves became maniacal and lunged towards the disciples of Black Fiend School instead. Growling and biting with all their might.

What is this?!

Shit!

No matter how much the disciples gave their orders, the Hell Wolves no longer responded to them and the chaos began.

This kid is abnormal, be cautious!

A strong cultivators face fell and immediately killed the two Hell Wolves which were lunging at him. He stepped forth, his Yuan Qi surging as he shot towards Su Yi.

Screech!

Suddenly a sharp shrill sound was heard. There was movement in the forest and a scorching aura descended upon the place. Sharp talons stretched out and targeted that strong cultivator.

Flaming Beast Eagle! Demonic Spirit Realm First Grade!

The strong cultivator was shocked, then Yuan Qi rushed out of his body and gathered at his fists. His fingers clenched tightly and a glaring light radiated from both of his hands, colliding with the pair of talons.

Boom! Boom!

Two thunderous explosions shook the air and the strong cultivator was sent skidding across the ground several meters back. His face was slightly dark.

In the air, a Flaming Beast Eagle was flapping its wide wings, sending rocks and sand flying off the ground.

Tyrant Dragon Whirlwind Slash!

At the same time, Su Yi drew his saber and intercepted one of the disciples heading towards him. The weapons clashed as clanging sounds resonated through the surroundings.

Roar!

Several disciples charged at Su Yi but just as they got near him, they were smashed dead by the Snow Jade Ape.

You beast!

One of the Yuan Spirit Realm cultivators expression changed greatly. His Yuan Spirit Realm First Grade aura surged and with a long pike in his hand which was as fast as lightning, he blocked the Snow Jade Ape.

Chapter 117: Surrounded

Boom! Boom!

Two thunderous explosions shook the air and the strong cultivator was sent shooting across the ground several meters back. His face was slightly dark.

The Flaming Beast Eagle was flapping its wide wings, sending rocks and sand flying off the ground.

Tyrant Dragon Whirlwind Slash!

At the same moment , Su Yi drew his saber and intercepting one of the disciples heading towards him. The sound of clashing weapons resonated in the surroundings.

Roar!

Several disciples charged at Su Yi, but they were smashed dead by the Snow Jade Ape before they could even get close to him.

You beast!

One of the Yuan Spirit Realm cultivators expression changed greatly. His Yuan Spirit Realm First Grade aura surged, as fast as lightning with a long pike in his hand, he blocked the Snow Jade Ape.

Swoosh!

Su Yi blasted a disciple away and made use of the impact, Yuan Qi spiraled under his feet and he jumped onto the back of the Flaming Beast Eagle without any hesitation.

Screech!

The Flaming Beast Eagle screeched and took off into the sky, rushing through the dense trees.

Snow Ape, retreat now!

Su Yi ordered. There were just too many disciples from Black Fiend School and they were even at the Yuan Spirit Realm cultivators, he did not want to get entangled in this mess one bit.

This commotion would only serve to attract more strong cultivators of Black Fiend School.

Where do you think you are going?!

Seeing the Flaming Beast Eagle flying off, the Yuan Spirit Realm cultivator which had been beaten black and blue by the Flaming Beast Eagle shouted. A cold light flashed in his eyes and with a flash of light under his feet, he jumped off the ground and into the air.

Boom!

In that instance, with a flash of light under his feet a strong aura surged, then a figure of a bird around 3 meters long appeared under his feet. Its talons bared and its eyes burning with a blazing fire, just as if it was a real beast.

The man waved his sleeve and chased after the Flaming Beast Eagle on the bird.

Yuan Qi Materialization, this was the sign of a Yuan Spirit Realm cultivator.

Yuan Spirit Realm cultivators could materialize beasts using Yuan Qi and fly. Su Yi had seen this before back at the City of Man. A Yuan Spirit Realm cultivator from Sacred Mountain had used it before and filled many people with envy and admiration.

But this was just the materialization of a beast using Yuan Qi, its speed could not be compared to the real Flaming Beast Eagle.

The other Yuan Spirit Realm cultivator was still held up by the Snow Jade Ape. When he wanted to take off by materializing a beast, he was sent flying with a punch from the ape.

Kid, you cannot escape! The Yuan Spirit Realm cultivator on the figure of a bird hollered, but the speed of his materialization was far too different compared to the Flaming Beast Eagle.

Boom Boom Brat, escaping is impossible! But at this time, from the tree beneath, nearly ten auras shot to the sky, causing a tremor within the forest and one by one, numerous Yuan Qi beasts could be seen flying in the sky. There was a person riding each of them, their auras menacing, and every person was from Black Fiend School.

Screech! The Flaming Beast Eagle cried out, its aura erupting fiercely, wanting to charge past the people in front of it.

Go down! Someone in front hollered and a strong Yuan Qi light column was shot out.

Rumble At the same time, several figures in the surroundings lunged forth and several attacks headed towards the Flaming Beast Eagle.

Fire Bird, watch out! The attacks were too quick, and they were all targeting the Flaming Beast Eagle, Su Yi could not interfere at all. These attacks were all by Yuan Spirit Realm cultivators, even if Su Yi could interfere, he would not be able to withstand their attacks .

The Flaming Beast Eagle screeched, its feathers started to glow like a blazing fire, its aura surged until its peak as it dodged two attacks from the front, but the several attacks coming from other directions still managed to hit it.

Boom! Boom! The several attacks landed, their impacts making loud sounds of explosions. The huge body of the Flaming Beast Eagle started to waver, its feathers drifted in the wind and in the end, it dropped towards the ground.

Rumble The Flaming Beast Eagle crashed into a valley formed by the mountains, shattered rocks flew everywhere, and blood spewed out from its mouth.

Su Yi also tumbled off the back of the Flaming Beast Eagle, falling onto the ground.

Fire Bird Su Yi got up looking worriedly at the Flaming Beast Eagle. During these days, he had already developed feelings for the Flaming Beast Eagle and the Snow Jade Ape. If not for them offering their protection, he would not have been able to deal with the troubles from the adventurer party.

Screech! The Flaming Beast Eagle stretched its wings, its body bloodied and bruised . It screeched and looked at Su Yi, signaling him to run.

Swoosh! Swoosh! Swoosh! Roughly ten figures descended, the figures of beasts under their feet disappeared as they surrounded Su Yi and the Flaming Beast Eagle.

Kid, run if you can now! The Yuan Spirit Realm cultivator which could not catch up to Su Yi just now sneered, his eyes brimming with bloodlust.

Su Yi stood beside the Flaming Beast Eagle and looked at the figures surrounding him. Along with the initial Yuan Spirit Realm cultivator, there were a total of nine Yuan Spirit Realm cultivators surrounding him and several of them had very strong auras, most likely above Yuan Spirit Realm Third Grade or Fourth Grade. If not, they would not be able to do anything to the Flaming Beast Eagle.

Su Yi knew that though the Flaming Beast Eagle had only broken through to the Demonic Spirit Realm for a short period of time, but if two Yuan Spirit Realm cultivators were to fight head-on, they will not be able to do anything about a Demonic Spirit Realm beast.

Kid, it is you who killed my younger brother! Now that you have ended up in my hands today, I want you to suffer a fate worse than death! A middle-aged man in grey clothes stepped out, bloodlust flowing from his eyes. He was Tao Tiancheng. He was leading a small group of adventurers nearby searching for Su Yi when he detected the commotion in the area and raised his head to see the Flaming Beast Eagle and hence, he rushed forth.

So, those are the people from the adventurer party. It should be Tao Tiancheng! Su Yis eyes fell upon Tao Tiancheng. He did not have the insignia of Black Fiend School on him, but he had the aura of the Yuan Spirit Realm, from the information he had gotten from the adventurer he had held captive, Su Yi guessed this person should be the leader of the adventurer party, Tao Tiancheng.

Roar! There was a loud roar and the Snow Jade Ape could be seen charging towards them from a distance. It had detected the commotion here and did not continue to fight the Yuan Spirit Realm cultivators.

Beast! Seeing the Snow Jade Ape charging towards them, the face of a Yuan Spirit Realm cultivator fell and he sent a fist flying its way. Yuan Qi surged and the black colored earth attribute Yuan Qi howled, emanating a heavy pressure.

The Snow Jade Ape roared in rage, its body glowed and punched straight at the incoming cultivator.

Boom! The collision was like thunder, rough winds rippled outwards, sending dust into the air like a hurricane.

Pat, pat The Yuan Spirit Realm cultivator which attacked staggered and was blown backward ten-plus steps before he managed to stop and stabilize himself. His face had an expression of being stunned. His cultivation level was Yuan Xuan Realm Second Grade and this Snow Jade Ape was only Demonic Spirit Realm First Grade, yet he was actually blown back. People say that the Snow Jade Ape naturally had great strength, and sure enough, the sayings were true.

Chapter 118: Fight

The Snow Jade Ape sprinted towards Su Yi and then its body directly stood together with him, obviously trying to protect him.

Looking at Fire Bird and Snow Ape beside him, Su Yi felt warm in his heart. In this world where strong triumph over the weak, these beasts who may be savage looking, are far better compared to most humans. In times of distress, they will stand together with you.

Two Demonic Spirit Realm First Grade beasts! Tao Tiancheng looked at the Flaming Beast Eagle and the Snow Jade Ape beside Su Yi. His face darkened, but he felt fortunate that the people from Black Fiend School were here. This kid actually had two Demonic Spirit Realm First Grade beasts accompanying him. If he had encountered Su Yi himself, he would've been the unlucky one. No wonder so many adventurers who were sent out to find this kid was killed.

It should be this kid, there should be no mistake. Catch him alive! One of the Black Fiend School Yuan Spirit Realm cultivators examined Su Yi and quickly confirmed that he was indeed the kid who had killed the Young Master of Black Fiend School. They could not let him escape this time.

Take care of those two beasts. This kid must be captured alive! A middle-aged man in black clothes spoke. His eyes had a ferocious gaze and the aura of bloodlust hung around his body, he seemed to be the one with the highest position among the group.

Boom In an instant, several figures with their Yuan Spirit Realm auras fully surging lunged out, they held nothing back as they charged towards the Snow Jade Ape and the Flaming Beast Eagle.

Roar! Screech! The Snow Jade Ape roared, pounding his chest, bloodlust exploded from its body, he charged out and fought two of the Yuan Spirit Realm cultivators.

The Flaming Beast Eagle had been seriously injured, yet it was dragging its battered body, struggling to fight.

Su Yi wanted to help, but he would not make it in time. A man in grey clothes dashed out, his eyes freezing cold and shouted, Little runt, you are not going anywhere today! As he shouted, Tao

Tiancheng appeared in front of Su Yi, his fist enveloped in a fire attribute Yuan Qi as it shot towards Su Yis chest.

This was a Yuan Spirit Realm cultivator. Su Yi knew that he could not match him, yet he had no choice but to fight. Without any hesitation, Yuan Qi converged as it surged through his meridians. The veins on his face started to appear , making him look ferocious .

Overlords Fist! Su Yi hollered, as Yuan Qi erupted like a terrifying volcano from his fist. He slammed it towards Tao Tiancheng violently.

At this moment, under the eyes of everyone present, the two fists collided against each other but the people only saw the light from Su Yis fists growing larger and brighter, his fist seemed to have swelled, accompanied by the faint rumblings of thunder and howls of wind. A heavy pressurizing aura from an awakened king spread out as if it was the arrival of an Emperor.

Boom The two fists clashed with each other and created a powerful impact which sent waves of wind ripping through the air like a hurricane.

Huhuk! Su Yi spat out a mouthful of blood as his body was blown away, crashing heavily into a boulder.

The boulder cracked, and Su Yis body rolled onto the ground, blood dripping through the gap of his mouth. He stood up and wiped away the blood at the corner of his mouth, his face pale and his expression grim.

Pat, pat Tao Tianchengs body wobbled. His eyes full of shock, he did not use all his strength just now, but he definitely used enough to cripple the kid in one blow, just enough power for the kid to be barely alive. But now the brat was injured, he did not act as if it was a huge issue.

What was most important was that Tao Tiancheng was certain that the strength of the kids fist was too strong. He had a cultivation level of Yuan Soul Realm Seventh Grade, yet that kids aura and strength was equivalent to an average Yuan Xuan Realm Third Grade or Fourth Grade. This kid really was too abnormal.

Very strange! The Yuan Spirit Realm cultivators from Black Fiend School did not stop Tao Tiancheng from attacking Su Yi because they also wanted to find out Su Yis ability. Seeing the current situation, they could not help but become shocked.

Su Yi scanned his surroundings, the situation of the Snow Jade Ape and the Flaming Beast Eagle did not look good and he could not even fight a single one of the remaining five Yuan Spirit Realm cultivators, let alone five.

After being surprised, Tao Tianchengs face became even colder. The kid was too unpredictable, from what he knew, this kid had improved heaps in a short period of time. He was not at the Yuan Soul Realm Seventh Grade initially. But, now he had acquired such fighting prowess at the Yuan Soul Realm Seventh Grade. If the kid broke through to the Yuan Xuan Realm, he would probably become a threat even to him. He cannot leave this kid alive today.

Brat, lets see how much more you can handle ! Tao Tiancheng wanted to attack once again.

It is not your place to take care of a target from the Black Fiend School! The leading Black Fiend School Yuan Spirit Realm cultivator glared at Tao Tiancheng coldly and stopped him.

Tao Tianchengs expression was slightly ugly. He was furious, but he dared not continue to attack. Black Fiend School was an existence he could not offend. He could only suppress his anger. His gaze towards Su Yi became even more ferocious.

Kid, are you going to surrender, or do you want to suffer?! The leading Yuan Spirit Realm cultivator looked straight at Su Yi. This kid may be unpredictable, but he was only at the Yuan Soul Realm, he did not worry about him one bit.

Su Yi untied the 500-kilogram sword on his back and stabbed it into the ground beside him and instantly his body felt so much lighter.

If you have the courage then come at me! So, what if you are a Yuan Spirit Realm cultivator! Looking at the several Yuan Spirit Realm cultivators, Su Yi popped a recovery elixir into his mouth and absorbed the medicinal power, channeling it throughout his body.

Today's situation was definitely a desperate and hopeless one. Su Yi knew that this was far more dangerous than anything else he had gotten involved into in the past few years. There was probably no chance for him to escape, but surrendering was not his style. Those Yuan Spirit Realm cultivators, he shall fight them!

Kid, you are making this hard for yourself! The leading Yuan Spirit Realm cultivator did not want to waste any more time. Whoever was the first one to capture this kid would have made a great achievement. He could not let anyone else get the credit for killing this kid.

Finishing his words, the cultivator made his move. He pushed one foot off the ground and his body shot forward as fast as light. He stretched out his arms, making his hand appear like a claw. At the tip of his nails, there was a sparkling of golden light. That was metal attribute Yuan Qi, he was swift and sharp, along with a faint aura of bloodlust.

Hundred Transformations Step! With the 500-kilogram sword off his back, Su Yis speed and agility had increased greatly. Yuan Qi spiraled under his feet as he quickly dodged that sharp claw.

Eh?

The cultivator was surprised. A Yuan Soul Realm Seventh Grade cultivator could actually manage to dodge one of his attacks. This kid was indeed strange. His hand which acted like a claw was manipulated to act like a fist, the movements of his feet changed as he slammed his fist towards Su Yis back.

Chapter 119: Protection of the Beasts

The attacking cultivator was surprised. A Yuan Soul Realm Seventh Grade cultivator could actually manage to dodge one of his attacks. This kid was indeed strange. His hand which acted like a claw was manipulated to turn into a fist, the movements of his feet changed as he slammed his fist towards Su Yis back.

It was already pure luck for Su Yi to dodge the first attack, and also partly due to the opponents carelessness. Now, even if he used the Hundred Transformations Step, he would not be able to dodge it. After all, he was only a Yuan Soul Realm Seventh Grade, the difference between them was way too large.

Overlords Fist! Su Yi quickly turned around. He could only try his best to counter the attack and once again Yuan Qi surged out from his fists.

Bang! Huhuk! The two fists collided, sending out a thunderous sound of an explosion with violent winds rippling out like a tornado through the surroundings. Blood spewed out from Su Yi's mouth and his body was also blown back, crashing heavily onto the ground, sending broken rocks scattered across the air.

Su Yi could no longer fight back against a High-Grade Yuan Spirit Realm cultivator. The difference was not only a few grades, but it was also two whole realms. The Yuan Soul Realm to the Yuan Spirit Realm was a two entire realms difference.

Su Yi spat out blood, his internal organs seemed to have been hit by thunder, his blood was surging, and his Yuan Qi had received such a strong blow that it was currently in chaos. He had been severely injured. If it was not for his enemy trying to capture him alive, he would probably be dead by now.

But even so, Su Yi still found it as a struggle to even get up on his feet.

Howl! The Flaming Beast Eagle and the Snow Jade Ape sensed Su Yi's predicament and roared in rage, releasing all their strength, their savagery fully unleashed. But both of them were occupied by two Yuan Spirit Realm cultivators each and could not leave.

The Snow Jade Ape used its huge body and physical defense, purposely taking multiple blows and became injured, trying to save Su Yi, yet it was forcefully halted again.

The leading High-Grade Yuan Spirit Realm cultivator saw Su Yi's body collapse and did not delay any more. His achievement was so close at hand, it was a time of fortune for him. If he was rewarded by the School Master according to their achievements, he would be able to get so many benefits.

Kid, just surrender! Shouting, the man lunged forward, baring his hands. Golden sharp Yuan Qi shot out from his hand like five columns of light, forming a large glowing Yuan Qi claw. Its aura fierce as it descended upon Su Yi, trying to capture him.

The terrifying aura seemed to have affected the surroundings as Su Yi's body which was already struggling to get up once again collapsed onto the ground, unable to resist.

Will I meet my end here? No, this is not the ending I want! Su Yi bellowed in his heart, resisting with all his might. Veins bulged out on his face, adding a hint of ferociousness to his appearance.

I cannot meet my end here! I want to fight! I want to continue fighting! Furiously shouting within his heart, Su Yi was unwilling to be resigned to this fate. His grandfather was still injured, the whereabouts of his mother and father were unknown, he still had not entrusted Wan Er to anyone and he had not stepped onto Sacred Mountain, how could he meet his end like this?

He was unwilling, unyielding!

Boom! Then suddenly, the unwillingness and determination within his heart seemed to awaken something. The mysterious sphere of light in his mind was affected and suddenly started to quiver as more light radiated from it.

But now, the claw had already reached him. Sharp as ever and with heavy pressure. A Yuan Spirit Realm cultivator, moreover, in the High Grades, how could a Yuan Soul Realm cultivator be able to resist?

Swoosh! At this crucial moment, a huge golden light seemed to have fallen from the sky and like a swift gigantic golden lightning bolt, with unthinkable speed, it rammed into the incoming golden claw from the Yuan Spirit Realm cultivator.

Rumble Under the impact of the collision, rocks flew in every direction and the golden light fluctuated and moved like waves, a terrifying force blew outwards.

Pat, pat Due to the huge impact, the High-Grade Yuan Spirit Realm cultivator from Black Fiend School staggered backward around 10 steps before he stabilized himself. His face full of shock.

Demonic Spirit Realm Fourth Grade! When he stopped himself, he could not stop himself from speaking. His eyes fell upon the strong beast which had just appeared. He only saw a huge gigantic golden python in front of him. His hair stood on his end, the golden scales which covered its entire body seemed to radiate golden light, its eyes cold and the red flickering tongue did not comfort people at all.

Golden Python, how could it be so strong! The man recognized that the beast was a Golden Python. But him, a Yuan Spirit Realm Sixth Grade had taken quite the loss against this Demonic Realm Fourth Grade Golden Python. According to logic, a beast like the Golden Python should never have this kind of strength. Furthermore, he had killed several Golden Pythons before within the Forest of Demons and hence was even more familiar with Golden Pythons. The Golden Python in front of him seemed to be far stronger and more special than any Golden Python he had killed before, regardless of whether it was its aura or the pressure it was emitting.

Rumble A light flickered in Su Yi's eyes, from the depths of his eyes emerged a crimson red color, looking like burning embers.

At this moment, a ferocious aura suddenly erupted from Su Yi like an unrivaled beast waking up from its deep slumber.

I will take care of this Golden Python, the rest of you, hurry up and capture that kid! Hurry! Feeling the aura from Su Yi, the expression of the High-Grade Yuan Spirit Realm cultivator changed. That aura made him feel uneasy. He dared not be careless. He could not allow this kid to escape once again, or else, the School will not let him off.

Boom! The fight must be finished swiftly. Finishing his orders, the cultivator had taken a giant black hammer off his back. It was glowing, Yuan Qi drifted off it and it slammed right at the Golden Python.

Hiss! In one swift movement, its coiled up giant body sprung into the air, its ferocious aura fully unleashed, its red mouth wide open as it intercepted the cultivator in front of it in the blink of an eye.

Swoosh! Swoosh! The remaining four Yuan Spirit Realm cultivators did not dare be conceited. They had all sensed how strange was Su Yi now. He had been injured to the point where he could not get up, yet in an instant, a wave of terrifying aura had exploded from his body as if something was about to awaken. They must make use of this opportunity and capture him quickly, or else if something really happens, none of them would escape the heavy punishment.

There were claw markings, fist techniques, and weapons from all four directions, north, south, east, and west heading towards Su Yi.

Su Yi's aura was still growing stronger. Not only did his face look savage, the veins on his face were bulging out one by one as well, but it seemed that he still needed a little bit more time. The aura was still in the awakening process.

Chapter 120: Sudden Change!

But the four attacks from the Yuan Spirit Realm cultivators had already reached, approaching him from all four directions. Their power rippling outwards, sending a wave of wind like that of a miniature tornado, able to crush everything in its path. Before the attacks have even hit Su Yi, the ground beneath him had begun to crack. If these four attacks were to hit Su Yi, it would probably be enough to blow his body into pieces.

Screech! Roar! The deafening cries of beasts pierced the clouds and the sound of cracking stone, echoed through the forest, their auras incomparably savage.

Swoosh! Swoosh! Swoosh! Swoosh! As those merciless attacks were about to hit, several lights like lightning, with an aggressive aura charged out at each direction, a blinding light emanating through the area. With the light and a ferocious aura spreading out in each direction, it protected Su Yi who was in the center of it all.

The several lights expanded and connected with each other, forming a glaring dome of light.

This dome of light was like a Yuan Qi Cloak, yet it was not one. On it were images of ruthless beasts, the cries of beasts could be heard vaguely, and it had an aura of majesty and domination, one that did not allow provocation.

Rumble Everything happened in a flash, the four attacks from the Yuan Qi reached at the same time but were blocked by the light dome. At that moment, the collision of energies was like that of thunder. Violent winds reflected off the dome and turned into a powerful impact which engulfed the surroundings, turning everything into a mess as large amounts of sand and stones flew through the air.

Whats that? This sudden change of events caused the four Yuan Spirit Realm cultivators expression to change. That strange dome of light had actually blocked the attack which the four of them had shot out. Was it not a bit too strong?

Rumble The light then faded away and under several shocked gazes, a giant tiger, a small crimson mink, a white bird, a tiny black mouse the size of a baby and a pure white butterfly had surrounded Su Yi with their bodies, placing Su Yi under their close guard in the center, protecting him with their bodies.

There are so many beasts and they are all Demonic Spirit Realm; how is this possible?! The Yuan Spirit Realm cultivators were all shocked. Wasnt this sight a bit too surprising? All these Demonic Spirit Realm beasts were actually protecting that kid right now. Like a horde of beasts protecting their master, how miraculous was this sight? It was also astonishing. If they were not witnessing this sight themselves, they would never actually believe this. These beasts which had always killed, and devoured humans were actually giving their lives to protect their master. Did something happen, or was there a huge secret about that kid?

Boom! At this moment, Su Yi's aura reached its peak and his eyes completely turned into a shade of crimson red.

Su Yi's aura was no longer weak, and his entire person seems to be bursting with power like a volcano, giving off an air of majesty and destruction.

Howl! When this aura spread through the place, the tiger, bird, mink and the giant mouse all prostrated themselves respectfully.

Even the Snow Jade Ape, Golden Python, and the Flaming Beast Eagle seemed to have received some kind of effect. As they fought, they too roared and their aura seemed to have grown stronger.

What happened to the kid? How did he suddenly become so strong and why does he have so many Yuan Spirit Realm cultivators following him?! Tao Tiancheng was stunned. His eyes were closely fixed onto Su Yi.

Since you all wanted to kill me, then go and die! Su Yi stepped out, his eyes already red, his aura as powerful as it could be, all his injuries were quickly healing. His eyes swept across the Yuan Spirit Realm cultivators near him, his crimson red eyes moving. He stomped on the ground and lunged towards the nearest Yuan Spirit Realm cultivator.

Kid, trying to scare us with your petty tricks! Do you want to die?! This Yuan Spirit Realm cultivator may be still shocked at Su Yi's current aura and changes, but he knew that the kid was only a Yuan Soul Realm Seventh Grade cultivator, even if he had somehow recovered, how much damage could he possibly do?

Finishing his sentence, the person slammed his fist at Su Yi. Because his school wanted this kid alive, he did not dare use his weapon. If he accidentally killed this kid, not only would he have no credit, he would definitely be punished.

Die! Said Su Yi with an emotionless and stern voice. He shouted once, and his fist met the opponent's attack. The light enveloped his fist, his aura surging and blazing, seeming to bring destruction along with it.

Boom! The two fists clashed, and a violent wind burst out.

Arg! From the explosion, a horrible cry could be heard. The arm of the Yuan Spirit Realm cultivator who was currently fighting Su Yi, started to collapse from the collision, before his entire arm was blown into bits. Blood spewed out from his mouth and his body flew away like a kite whose string had been cut.

Everyone was stunned. Wasn't that kid only at the Yuan Soul Realm? How did he suddenly become so terrifying? What the hell happened here?

Die! Bloodlust was brimming from Su Yi's crimson red eyes. Without a single pause, the Hundred Transformations Step seemed to have come out naturally as he continued onwards to the second Yuan Spirit Realm cultivator.

Boom! The Yuan Spirit Realm cultivator was in a daze, then he snapped out of it and with the fear which was ingrained into his subconsciousness, made him think how could he dare to retaliate? And he immediately backed off.

Go and die! But Su Yi's speed seemed to have accelerated several times over, his body immediately appeared in front of the Yuan Spirit Realm cultivator and slammed his fist into the cultivator's chest.

Boom! The mans chest was penetrated by the fist, blood flowed down, the sight was so terrible that one could not bear to see it. On the spot, he lost his life.

Run! The remaining two Yuan Spirit Realm cultivators who had attacked Su Yi looked at each other, their faces white. Yuan Qi moved under their feet, while trying to materialize a flying beast to escape through the air.

Die! A chilling voice shout and one of the men who was just about to fly off on the beast which he had just materialized under his feet suddenly, felt a huge force coming at him from his back, which had forcefully pulled him down and a palm had already grabbed onto the back of his neck.

I am going to lose my life, someone, save me! The man felt shivers go down his spine, all of his hair standing on their ends. The smell of death crept up his nose, despair and horror filled his heart.
