

Sky&Earth 121

Chapter 121: No Mercy!

It was too late. Before the man had even finished his cry, his neck was crushed until it exploded.

Splat, splat, splat

The head along with blood scattered through the air was savagely, while being thrown through the air just like a cannonball, hitting the second Yuan Spirit Realm cultivator who had just taken off into the air and wanted to escape.

Bang!

At the sound of the explosion, blood splattered.

The second Yuan Spirit Realm cultivator was struck down to the ground by the head, spitting out a mouthful of blood as his body crashed heavily to the ground in a pool of blood, losing his life instantly.

This chain of events happened at the blink of an eye, swift and cruel, actions that seemed to signify domination and destruction.

How could this happen? Wasnt that kid only at the Yuan Soul Realm? This is impossible!

Tao Tiancheng froze , standing there in a daze, his eyes filled with horror and fear.

This youth was like an emperor who could not be challenged, a merciless and cold God of Slaughter, bloody and violent!

The leading Yuan Spirit Realm Sixth Grade cultivator from Black Fiend School was currently in an intense fight with the Golden Python and of course, he saw what had happened to his comrade with his peripheral vision and he was stunned as he started to shake.

The expressions of the other four Yuan Spirit Realm cultivators who were currently in a fight with the Snow Jade Ape and the Flaming Beast Eagle completely petrified , their attacks had also been affected by this incident.

Who dares to kill the disciples of Black Fiend School?! Does he want to die?!

Suddenly, there was a shout from the distance.

Swoosh

A figure from the mountains was dashing here.

Just a few blinks and the person had reached, a freezing terrifying aura had descended upon the place.

It was an old man, his body taller than everyone else by a whole head, his bones like matchsticks. A grey robe covered him looking just like a piece of cloth on a skeleton.

The person was Dharma Protector Heijiu of Black Fiend School. He was hovering, walking on air.

This cultivation level was enough to prove that he had exceeded the Yuan Spirit Realm and had at least reached the Yuan True Realm.

Dharma Protector Heijiu, please hurry and attack! This is the kid! He is way too abnormal and has already killed many of our men!

The Yuan Spirit Realm Sixth Grade cultivator who was fighting the Golden Python saw the person who had just arrived, and his shocked expression turned into one filled with happiness and hope.

The other disciples of Black Fiend School and Tao Tiancheng were all filled with glee.

Dharma Protector Heijiu's eye swept across the beasts, then he frowned slightly. His eyes then locked onto Su Yi.

His face was devoid of flesh, his cheekbones high and his forehead bulging out. Heijiu's gaze was deep like a night cuckoo in the depths of a dark forest. He coldly said, You are the kid that had killed the Young Master of my Black Fiend School?

Currently, Su Yi's eyes were crimson red, like that of two tiny suns. He looked at Heijiu and did not reply, but a rampant aura started to surge from his body and the surrounding air started to shake.

Boom!

Suddenly, Su Yi stomped on the ground and from the point where his foot hit the ground, cracks started to spread out like a spider web.

Boom!

At the same time, making use of the stomps force, Su Yi shot into the sky like a cannonball towards the Dharma Protector.

Little runt, you are looking to die!

Though Heijiu was slightly surprised, this kid's cultivation level was different from the rumors and his aura had even made him slightly uneasy.

But, Heijiu was a real Yuan True Realm cultivator, exceeding the Yuan Spirit Realm.

His eyes turned cold, and he made his move. A palm seal quickly formed, and a bloody and cold aura formed in front of him, instantly turning into multiple black arrows of energy.

These arrows of black light were incomparably sharp, their light a deep black. Heijiu waved his sleeve and tens of arrows filled with chilling energy flew towards Su Yi.

Swoosh! Swoosh! Swoosh! Swoosh!

These arrows enveloped Su Yi perfectly. This level of control was amazing.

Su Yi's body was in mid-air. He was not moving. Then, there was a blazing hot aura like a thin film surrounding him.

Ka, ka

The tens of arrows had not even reached Su Yi before they all disintegrated into pure energy in a single second.

This sudden event made Heijiu's expression change and he started to frown slightly.

Black Fiend School should perish!

Su Yi's offense was not affected. He continued in mid-air, swung back his arm and slammed out a palm.

The palm seal had a scorching aura in front of it, as it headed towards Heijiu.

Heijiu's expression was cold, his fist enveloped by a bloody and freezing aura, he slammed it onto the palm seal.

Boom!

The first direct retaliation, the explosion was like that of thunder, the force of the impact was like a raging tsunami, its horrifying aura ripped through the surroundings like a hurricane.

Too strong!

The faces of the Yuan Spirit Realm cultivators down below and Tao Tiancheng were all shocked. They gazed at the hurricane of energy up above due to the collision of attacks and could not snap out of their daze.

Roar!

Screech!

On the other hand, at this moment, the few beasts that had arrived last had joined the battle and lunged towards Tao Tiancheng.

The gigantic tiger and the giant black mouse had even forcefully intervened in the fights and replaced the Snow Jade Ape and the Flaming Beast Eagle.

In the sky, Su Yi's body went backward from the low altitude he was at, and landed on the ground, staggering backward a few steps. But after several steps, he stomped on the floor and stabilized himself.

Whereas in the sky, Heijiu's body was blown back over 30 meters before he managed to stop himself. He locked onto Su Yi with gloomy eyes.

Heijiu's expression was really ugly. Was this the kid who was said to only have a cultivation level of Yuan Soul Realm?

He was at the Yuan True Realm, but from the clash of attacks just now, Heijiu knew that he was not at an advantage.

The kid's terrifying aura still made his hand numb.

Kid, no matter what, you are not going anywhere today!

Heijiu's face fell and did not waste any more time. The surroundings were still a mess with the remaining people surrounded and attacked by the beasts. This kid must be captured, and the beasts must be dealt with.

Rumble

A cold bloody aura started to circle Heijiu's body and black colored earth attribute Yuan Qi gradually appeared on his withered hands.

But his earth attribute Yuan Qi seems to have a wave of cold and evil energy and seemed to be connected with the energy of heaven and earth in the surroundings.

When one has reached the level of Yuan True Realm, the Yuan Qi within the body could already resonate with the energies of heaven and earth. That was the sign that one was at the Yuan True Realm.

Discharging Yuan Qi, then making it resonate with the energy of heaven and earth, after that controlling it and each attack would be able to unleash an even more terrifying strength.

Yuan True Realm exceeded the Yuan Spirit Realm.

This was the advantage of a higher realm, one that could not be replaced!

Yuan True Realm, though cultivators at this level were not the strongest in this world, it could definitely be said that the Yuan True Realm was the line that separated martial arts practitioners and the truly strong cultivators.

Despite people calling others strong cultivators once they had reached the Yuan Spirit Realm, but in reality, everyone knew that the Yuan Spirit Realm was just merely stronger than the Yuan Xuan Realm.

Chapter 122: Do you want to commit suicide

Yuan True Realm, was when the Yuan Qi is able to resonate with the energies of Heaven and Earth, truly being able to soar through the skies, drawing admiration and respect from martial artists everywhere.

Yuan Soul Realm, Yuan Xuan Realm, and the Yuan Spirit Realm, cultivators at these few realms, still depended on their own Yuan Qi and used them for attacks, making it easy for them to exhaust themselves completely.

For example, Su Yi. He could only use the Overlords Fist and the Wrath of the Eight Wastelands one time each before he exhausted himself.

But for those who had reached the Yuan True Realm, things were different. Using Yuan Qi to draw in energies of Heaven and Earth and using them was far stronger than using a persons own innate Yuan Qi.

Rumors had it, if one was to reach the legendary Yuan Emperor Realm, with a flick of a wrist, he would be able to use enough energy from the Heaven and Earth to move mountains, break oceans and cause a scene as if the earth and sky were shattering. In an instant, he would be able to kill thousands, reverse rivers and destroy lands.

Black Hell Claw!

With a cold shout, Heijiu had lunged at Su Yi. That sharp claw with an air of bloodlust swirling around it caused the surrounding space to seem as if it was bending as it crashed down on Su Yi.

Shatter!

Su Yi looked at the claw coming at him and he did not retreat, rather he stepped forth. His crimson eyes were like two blazing embers as the light flashed from them and instantly, there was a scorching aura enveloping the surroundings. He moved his arm and punched forward.

His fist was covered with crimson red energy and with the roars of thunder and wind, it collided with the incoming claw.

Bang!

The sound of a loud explosion came from the point of collision, the air around it roared as the aftershock of energy ripped through the place.

Pat! Pat!

Su Yi staggered backward, forced back over ten steps. With every step he took, the ground beneath his feet cracked.

Puh!

At the final step, for some reason, Su Yi suddenly coughed up a mouthful of blood. His body went weak, his legs shaking as if he could not withstand something as he knelt on the ground with one knee.

Dharma Protector Heijiu was also staggering backward, but after several steps, he had regained his footing.

I understand everything now. The power you have now is not even yours! No wonder

Seeing Su Yi's condition, the shocked Heijiu finally understood what happened to Su Yi and smiled coldly.

No wonder the kid was unlike the information he had received; the kid was currently using a power which wasn't even his.

But it also meant that there were many strange things about this kid.

Though I do not know what exactly the strange thing about your body is, you are only at the Yuan Soul Realm, you are too weak to be able to handle this kind of power!

Heijiu has understood the entire situation. A Yuan Soul Realm brat trying to withstand such enormous power, it was simply an action to court death. He was looking to die.

Finishing his words, Heijiu made another attack. His body dashed out like a dart and at the same time, he waved his palm, sending a fist seal towards Su Yi as his sleeves fluttered in the wind.

Sensing the cold aura filled with bloodlust, the crimson light in Su Yi's eyes did not fade. After a short moment of silence, he suddenly struggled and got up and once more, punched at the incoming attack with a blazing aura.

From what Heijiu had noticed, the power Su Yi was using now not his. It had originated from the mysterious space within his mind.

Currently, within the mysterious space, there was a wave of energy surging outwards, rushing into Su Yi's body.

The energy was too strong, as tough as Su Yi's body was, he was still unable to withstand such power and could not bear it for long.

Fortunately, Su Yi's physical body was tough. If it was another average cultivator at the same cultivation level, the person would most likely be dead.

Rumble

Everything happened in a flash. The two fists collided.

Amidst the loud rumbling noise, there was an outburst of savage power.

The resulting wind from the impact blew Su Yi back once again. The immense force traveled through his feet and into the ground, shattering wherever his foot landed.

Puh!

Spitting out another mouthful of blood, Su Yi's body wavered and went soft once again. Then, he knelt down on a knee, blood already filled his mouth.

Heijiu was also blown back, but he quickly regained his balance.

Heijiu sneered coldly. He was slightly afraid that Su Yi would die due to his body being blown apart.

The kid seemed really strange. Catching this kid may mean getting a good fortune. He could not miss it.

A weird aura suddenly started to emanate from Heijiu, it seemed to be filled with vitality, but also with bloodlust and cold evil. Then beside him, the aura condensed and formed multiple black vines.

They were formed by Wood attribute Yuan Qi. Heijiu was also a cultivator who bore the Wood attribute Yuan Qi.

All those who stand in my way shall die!

Su Yi stood up once again. He gritted his teeth and observed Heijiu's movements. He stood still for a moment and then, without any hesitation, the scorching aura on his body surged out and grew denser and denser.

Right now, within Su Yi, there was a crimson red light which started to become an actual blazing flame. His eyes were also completely painted crimson.

The scorching aura made the surroundings start to bend and become faint.

This isn't right. He is still growing stronger! What kind of external power is he receiving?! Why is it so strong?!

Sensing the aura released from Su Yi, Heijiu's pupils narrowed and a deep shock flashed across the depths of his eyes.

Puh!

Cr-Crack

As his body was bursting with the scorching aura, Su Yi once again spat out blood, even his body started to show signs of cracking as a hot aura spewed out. Black smoke started to emit from his body and his skin was completely red. He seemed as if he could melt at any moment. Some places of his body had just been blown apart, a mess of flesh and blood.

Right now, Su Yi was like a man of blood. Blood ran down his skin and veins bulged out on his face, making him look hideous.

He is still using the external power, does this kid really want to commit suicide?!

Heijiu shivered. Looking at the savage appearance of Su Yi, a cold chill ran down his spine.

Su Yi knew that he was running on fumes.

The power which was surging out of the mysterious space in his mind was huge, but the amount that he could actually use for himself was not much.

Su Yi was affected by the immense power which had surged out of the mysterious space, but he still retained his senses.

He was clear that if he could not deal with this strong cultivator from Black Fiend School, that would be when the real trouble begins. He did not want to die, and he could not afford to die!

Boom!

Seeing the opponent preparing to take him out in one hit, Su Yi had also made his decision. He had to release all the power he had, or he would not be able to take out the strongest cultivator which had come from the Black Fiend School.

Fully releasing all the energy from the mysterious space, blood burst out of the cracks in his body and his blood vessels were on the verge of exploding. The pain he was experiencing both internally and externally was excruciating.

Su Yi's body may be tough, but his body was also at the point where it was about to burst.

Chapter 123: Unlucky Heijiu

The mysterious power contained an unprovocative aura. Its intimidating might as if wanting to destroy anyone or anything that provoked it.

Su Yi was currently in a daze and under the mysterious powers influence, he desired to destroy everything that stood against his path.

Shiik

His body could no longer withstand the terrifying power as his skin began to split open, blood spilling continuously, painting his body red.

If it was not for the fact that Su Yi's body was tougher compared to an average cultivator he would have already blown up by now.

Su Yi seemed oblivious to the pain, his eyes shone red like the blazing sun and his aura grew even more violent and horrifying.

Heijiu seemed to have noticed something, his eyes intensely gazed at Su Yi to the extent that his attacks slowed down.

He was waiting, maybe the kid would die from his body exploding and he wouldn't be needed to make a move. If that happened he may even be able to reap some benefits.

And if that kid was to burst and die, Heijiu didn't plan to be anywhere near him. He could sense that if that power explodes he would be injured as well.

Su Yi's aura was getting more and more violent, blood kept on flowing from his wounds as he formed a hand seal to guide the mysterious power towards a single point.

Puh!

Su Yi coughed up blood, his body cracking.

In his half-conscious daze, Su Yi knew that he could not afford to die today. He had to all of his enemies at any cost.

The mysterious power converged in his hands.

Su Yi forcefully lead the mysterious power, condensing it into a sphere of light. He gradually turned the sphere of light to the size of a fist, the colour was incomparably red it burned bright like a small sun.

As more of the mysterious power converged, Su Yis body withstood enormous power, the splits on his skin grew to be innumerable.

Boom boom

The skin on Su Yis back also started to split, with blood splattering through the air. But the sphere of light within his palm had already been increased to the size of an infant, it excluded an intimidating aura.

The red sphere of light seemed to crackle like lightning, ready to explode at any moment.

Whats going on? Is he going to succeed in making his move?

Heijius complexion changed. He could sense the violent energy suppressed inside the red sphere that was making him shiver with fear.

As soon as the last strand of energy went into the sphere, Su Yis blood surged causing him to cough up blood once again. His face turned a shade of deathly white.

However, the red sphere of light also shone to its brightest at this moment.

Die!

His eyes became red, Su Yi glanced at Heijiu and then suddenly threw the sphere of light towards him.

Swoosh

The red sphere of light cut through the air, calm and peaceful.

Not even the slightest hint of energy leaked out from the sphere and no heat could be perceived from it.

At this moment Heijiu seemed to have realized something, his hair stood on its ends as a spine-chilling feeling crept up from the depths of his heart.

Yin Wood Prison!

Shouting, Heijiu subconsciously reacted and formed an attacking hand seal, his face became grim.

Swish! Swish! Swish!

In an instant, a creepy aura burst forth from Heijiu, bringing along a vibrant yet bloody and chilling aura.

Blood coloured vines started to appear around Heijiu and shot towards Su Yi like arrows. The vines covered half of the sky as they flew towards Su Yi.

The crimson sphere stopped in its tracks.

Just as it was going to be imprisoned by the incoming wave of vines, the peaceful sphere shrunk and burst.

A terrifying aura rippled out in that moment.

The sky looked as if it had been torn and the ground split, a terrifying explosion rang throughout the surroundings.

Boom Boom

The crimson sphere exploded, and a scorching blaze tore through the surroundings like an erupting volcano.

The fiery aura swept through the place like a hurricane, raising up ripples in space and together with the encroaching blaze.

Whosh

The temperatures in the surroundings shot up in an instant.

The several Yuan Spirit cultivators who were fighting the beasts could not help but raise their heads from the fight. They felt their hair stand on its ends and their eyes filled with horror.

Howl!

As the scorching aura spread through the surroundings, several beasts roared and howled as they prostrated themselves.

Whoosh!

The searing energy also soundlessly wiped out the vines without any resistance.

The towering trees surrounding the mountain also turned to nothingness.

Run!

The remaining Yuan Spirit Realm cultivators including Tao Tiancheng saw the incoming tidal wave of blistering fire and could not help but gulp. Fear crept up from deep within their hearts and they immediately retreated.

Howl!

Several beasts also rapidly retreated, howling and roaring.

No living being dared to stand in the way of the incoming terrifying aura.

The aura spread around nearly 300 meters before gradually dying down.

Everything which was caught up in its path had been totally and utterly destroyed. Nothing remained but a barren piece of land.

And in the center of the barren land stood two figures.

Su Yi stood tall and proud, his clothes in tatters, his eyes red and though his body was bloodied, it was as if he was a bloodied blade of war, incomparably intimidating and pressurizing.

Puh!

Heijius eyes closely followed Su Yi when suddenly, he spat out a mouthful of blood. His hair flew all over and into a mess as his face turned white. His aura collapsed in the blink of an eye.

Sh-Shiik

At the same moment, Heijius robe exploded and his skin started to rip apart, staining his body red as fresh blood dripped onto the ground. Some of his injuries were so deep that the bone could be seen, it was a horrifying sight.

How could this be? This is impossible.

The expression on Heijius face was one filled with horror. He could not and dared not believe that he had been defeated.

All those who stand in my way must perish!

Su Yi shouted as his eyes glared at Heijiu. His crimson eyes were filled with bloodlust as if he was a reaper of death.

Retreat! Retreat!

Su Yis loud shout landed Heijius ears like thunderstorms. He panicked and trembled with horror and fear, with his bloodied and battered body, he took off into the air, not daring to stay even a single second longer.

Run! Run!

Seeing that even Heijiu had decided to run away, Tao Tiancheng and the other cultivators instantly materialized their Yuan Qi into figures of beasts and took off into the air as well.

Seeing Heijiu and the others leaving the place and disappearing into the horizon, Su Yis crimson eyes flashed and turned black before his bloodied body fell head-first onto the ground.

Chapter 124: Mysterious void

Howl

The roars of numerous beasts could be heard just before Su Yi completely lost consciousness.

After the horrifying fight was over, the frightening commotions finally became peaceful.

Nearly hundred foot of the area was transformed into a mess, with the center completely destroyed, leaving behind a shocking scene.

The Black Fiend Schools Dharma Protector seems to have escaped!

Even the beasts too, with most of them having strong auras!

I heard that the Black Fiend School had found the youth that killed their young master and had a fight here!

This looks like a battle between the strongest. Is that youth really that powerful?!

Many figures started to appear. All of them were lured here by the horrifying commotion the fight had caused.

That kind of commotion that ripped through the sky, had roused the attention of all the nearby beings.

Some of the mercenary groups and adventurer parties, even the rogue cultivators who were passing by, had come rushing here.

In a state of daze, when Su Yi's mind regained consciousness, he suddenly felt an aura that made his mind tremble. His surrounding was an empty void that was vast and boundless.

Inside the void, Su Yi could feel that his mind was traveling. The sound of thunderstorm filled up the surrounding as if it was coming from ancient times.

Howl

Suddenly, a virtual figure of a fearsome beast appeared in front of the void, its roar as loud as the thunder, baring fangs and brandishing its claws, seemingly as though it could incite the Ancient.

Howl

Following that, more and more virtual figures of beasts kept on appearing, every single one of them having eyes as bright as tomorrow's light. Some have light like the moon, bright and breath-taking. Some have roars as loud as thunder, deafening the ears.

Some of the huge beasts were like a dragon, some like a phoenix, some were monstrously big and some had wings that could cover up the entire sky.

These virtual figures of fearsome beasts glowed with a blinding light before disappearing into the void, like a firework that sparkled before disintegrated.

Under the terrifying aura, Su Yi's mind was throbbing and felt numb.

In front of him, the virtual figure of a beast that seemingly came from the ancient times kept appearing, alternating between light and dark. Its roar deafening like the thunder. So horrifying!

If even one of those Ancient beasts were to exist in reality, they would be able to shock the entire world!

Howl

A dragon roared. It was so gigantic that half of its body was submerged in the void, while the other half that could be seen had already risen over the void. Its aura was frantic as the horrifying aura pressed onto Su Yi's mind as if it was trying to make his mind explode.

Grumble

The roar pierced through the cloud and shattered the rocks. A ferocious bird stretched its wing as it covered the entire sky. Both of its wings directly tore through the sky, making the sky collapse and the ground shatter. So horrifying!

Roar

A tiger roared. Its roar was fearsome. One of its feet stepped down and an Ancient mountain was crushed to the ground. Its eyes were filled with hostility as though it had felt Su Yi's mind and turn to glare, making Su Yi's mind sank.

Su Yi was shocked. The virtual figures of the beasts were too powerful.

Did these frightening beast really exist in the real world? Or did they only exist in ancient times and were buried in the ground long ago?

If at present, these ancient beasts really did exist, what kind of era would it be? It would simply be an era of war.

The humans then, wouldn't have any hopes of contending against them.

In this vast void, Su Yi lost count of the numbers of virtual figures he had seen.

This kind of frightening might was just too terrifying!

Finally, those huge virtual figures of beasts start to disappear as the surrounding start to get hotter.

In a state of daze, Su Yi could feel that something went inside his body with a message and laid it into his soul.

After a while, Su Yi found that all around him was scorching heat. A gruesome heat that seemed to want to burn his soul.

But in this scorching heat, was a sense of familiarity as the heat also brought a comfortable feeling to Su Yi's mind and soul.

Whoosh

The heat came in waves, like an undulating ripple, bringing along an overbearing mighty aura.

The aura seemed to be able to oppress the Ancient. It was extremely dominating!

Virtually, Su Yi felt something flowing into his body, going into his organs, meridians, bones, and muscles.

And most importantly, the scorching heat seemed to be merging together with his mind and soul.

Su Yi could vaguely feel that the energy came from the mysterious sphere of light, which the powerful energy was used to deal with the Black Fiend Schools Dharma Protector Heijiu.

At present, some of the auras that were left behind were starting to merge together with Su Yi.

Inside a wide cave, Su Yi subconsciously sat cross-legged, his hand forming a hand seal. His body was caged within a blinding light as if he was wrapped by the lights. The lights shone like the Sun and intertwined.

Hum hum

The space around Su Yi quivered. A mysterious light flowed out from his body, making waves of fluctuations as if the mysterious power traveled through time and space, descending from the ancient times!

Through the naked eyes, Su Yi's blood-dripping body which was too horrifying to look at, had mysterious energy surging through and his body began to heal.

Over time, Su Yi's body got more and more radiant. His whole body was enshrouded in light as not even a tiny scar was left on his body.

While all of this was still continuing, the aura on his body got even more blinding. Gradually, a thunderous sound rang out as the mysterious power kept surging in his body.

While sitting cross-legged, Su Yi did not move a single muscle as his body glowed, trying to merge with the mysterious power.

The Su Yi at the moment was immersed in a strange state like he was separated from the outside world. Only his body could be seen giving out brilliant light.

At this time, the aura on his body was also gradually rising to a peak point.

Boom!

Immediately, the Yuan Qi Whirlpool within his Dantian let out a muffled sound and a new aura spread out.

In a small town, at a courtyard.

In the main hall, the miserable Heijiu stood there with his head bowed, his complexion as white as paper. Although he had changed his robe, it couldn't hide his miserable appearance.

Standing behind Heijiu were some of the Black Fiend Schools Yuan Spirit cultivators with their ashen complexion, not daring to even breathe loudly.

Bunch of trash! Go find him for me now!

At the top of the main hall was an elder in his 60s, glaring coldly at Heijiu. He wore an over-size black robe which further emphasized his withered bones, his complexion was pale as if he just recovered from an illness. His eyes were sunken into his eye socket that when people looked at him, they would quiver in fear.

If Su Yi was here, he would know who that person was from a glance. This elder was the one who followed along with the Black Fiend Schools young master, High Elder Bai.

Hu

Su Yi who was sitting cross-legged undid the hand seal and breathe out as he opened his eyes.

A glint flashed through his eyes like red lightning, bright and dazzling before it subsided.

Golden Python, Fire-Eyes Beast Tiger, Fiery Red Demonic Mink, White Jade Swallow, Silver Spirit Demonic Butterfly, and Spectral Mouse

Su Yi was surprised. The moment he opened his eyes, the thing he saw first was the figures of the six beasts: Golden Python, Fire-Eyes Beast Tiger, Fiery Red Demonic Mink, White Jade Swallow, Silver Spirit Demonic Butterfly, and Spectral Mouse, who he had parted from not long ago.

Chapter 125: Beast Language!

Su Yi could still recall that when he was fighting against the Black Fiend School, the Golden Python was the first one to appear, followed by Fire-Eyes Beast Tiger and the rest.

Howl.. Seeing that Su Yi had regained consciousness, the Fire-Eyes Beast Tiger and the rest had a smiling expression as they softly roared like they were very excited.

Hiss hiss Two little golden snakes came out of nowhere and directly climbed onto Su Yi's shoulders, affectionately rubbing on his face.

My lord, I missed you. My lord, I missed you too. A youthful voice transmitted into Su Yi's ear.

Oh, it's you guys. Su Yi placed the two golden snakes onto his palm. He realized that the two golden snakes had grown bigger than before, their eyes showing intelligence.

F**k, something not right Suddenly, Su Yi's eyes became wide as a hair-raising feeling spread through his body. He stared closely at the two golden snakes in his palm that were swirling and asked dumbfoundedly: Is it you guys that just talk to me? Hiss hiss the two golden snakes flicked their tongues creating the swishing sound.

My lord, it is us that just spoke. My lord, what's wrong? The voices landed into Su Yi's ears as the two golden snakes stood with their head held high, their intelligent eyes looking at Su Yi curiously.

Roar Chirp chirp My lord, are you ok?! My lord, have you recovered? Their roars relayed into Su Yi's ears, yet it sounded like there were many humans talking.

F**k, so it was you guys who are talking Su Yi now really felt goosebumps appearing all over his body. He stared at the Fire-Eyes Beast Tiger, Golden Python and the rest who were by his side. It was clearly them who had just spoken.

No, it's not that they can speak the human language but it's me who can understand their speech I seem to be able to understand the beast language! Su Yi was shocked, his gaze quavering.

At present, it was not that these beasts could speak the human language. After all, only when they have reached the Demonic Void Realm, can they speak the human tongue. It was obvious that it was him who could finally understand the beast language.

My lord, what's wrong? Looking at Su Yi's appearance, the Golden Python, Fire-Eyes Beast Tiger, Spectral Mouse and the rest were flabbergasted and stared at Su Yi curiously.

My lord, you can understand what we are saying?

Immediately, Golden Python and the rest felt even more flabbergasted that Su Yi could actually understand their language.

Are you the ones who brought me here? Su Yi took a deep breath to suppress the shock in his heart. His eyes gazed at the six beasts while he asked, his eyes watching them closely.

Yes, when my lord fainted, we brought you to this place. The Fire-Eyes Beast Tiger nodded its head and looked toward Su Yi with curiosity. In its eyes, the fear that was in the depth of its heart was no longer portraying out.

F**k, I really can understand the beast language! At this moment, Su Yi had confirmed that he really could understand the beast language.

Su Yi pondered. Not too long ago, he didn't have this skill. Thinking carefully, this must have happened recently.

Could it be Suddenly, Su Yi thought of something. When he was unconscious, he seems to have gone through a vast and boundless void that had numerous figures of beasts appearing with auras that could suppress the ancient times.

After that, the Supreme Chaotic Yuan Technique automatically refined the strand of energy that was left behind. This was also a piece of information that flowed into his mind.

Apparently, because of this information and the aura that merged with him, allowed him to suddenly understand the beast language.

Yuan Soul Realm Eighth Grade! When he felt the aura on his body, the corner of his mouth lifted up in a smile. At present, his cultivation was actually at the Yuan Soul Realm Eighth Grade. It seems this was the benefit he gained after refining the leftover energy.

Especially for his spirit, Su Yi could feel that the spirit in his mind had become stronger than before. Originally, the spiritual power in his mind that radiated a golden light now seems to be dyed in a light layer of crimson, becoming different from before.

The changes within the spirit made Su Yi feel that there must be something special which might have some use in the future.

But for now, Su Yi couldn't come up with anything. He only knew that the changes within the spirit would only bring him benefit and no harm.

Following after that, Su Yi's heart became heavy when he thought about his circumstances not long ago.

This time, there were more ominous than blessings.

And although he could avert the disaster, Su Yi knew that it was all because of the power within the mysterious sphere of light that saved him.

That power was so powerful that it came surging out, almost causing him to die of an explosion.

That mysterious sphere of light made Su Yi feel that it was unpredictable as it contained too many mysteries. It could even erupt and give out such explosive power, making him a Yuan Soul Seventh Realm to be able to defend against a Yuan Void Realm strong cultivator. How powerful was it?

Treasure Su Yi rejoiced secretly. The mysterious sphere of light was really a treasure amongst treasures.

Following that, Su Yi sized up his surroundings and realized that he was inside a wide cave with his 500-kilogram broken sword and saber laying by his side. The six beasts must have brought him here along with his weapons.

Where is this place? Su Yi questioned the six beasts. My lord not far ahead is the Grand Beast Canyon. The Golden Python opens its mouth, the neighing speech from its throat allowed Su Yi to hear it loud and clear.

Grand Beast Canyon! Upon hearing this, Su Yi's expression changed. From what Bi Ling said, the Blood Spiritual Ginseng seems to have appeared inside the Grand Beast Canyon. Most likely, the Grand Beast Canyon was now overrun by many strong cultivators, with many of them trying to obtain the Blood Spiritual Ginseng.

As for the Grand Beast Canyon, Su Yi knew it like the back of his hand. Entering from the east to the west, after crossing the Grand Beast Canyon, you will reach the heart of the Forest of Demons.

If entered from the south, after crossing the Grand Beast Canyon, it will be the Demon Woods where rumors had it that, that was where most of the strong beasts reside in.

Rumors that even the powerful Black Fiend School that shows off its strength in the Forest of Demons also did not dare to enter the Demon Woods.

However, in the Grand Beast Canyon, there were also many beasts that gathered there and amongst them, were several strong beasts.

Usually, only a handful of people would even dare to enter the Grand Beast Canyon, hence, much less to be said about the Demon Woods.

After listening to the six beasts talking, Su Yi found out that the Fire-Eyes Beast Tiger, Golden Python and the rest were heading towards the Grand Beast Canyon when they felt Su Yi's aura. After searching for him, they met with the scene where he was in danger.

All of you can feel my aura? Su Yi felt that it was very weird as they had parted ways for quite some time. Is it true that the Golden Python and the rest really could feel his aura?

Chapter 126: Doing the opposite way!

The inheritance we gained is closely linked with my lord's aura. Within a certain distance, we can feel master's aura, and if master is in any danger, we can feel it within the distance too. The length of the distance seems to be related to our cultivations. The White Jade Swallow replied to Su Yi.

Inheritance? Su Yi questioned.

All of us have gained the inheritance from my lord's space. Silver Spirit Demonic Butterfly said while flapping its white jade-like crystal cleared wings, landing gently onto the back of Fire-Eyes Beast Tiger.

The inheritance was very powerful. That's why we can break through so fast recently. The Fiery Red Demonic Mink said with a content expression. Within a short period, each one of them had a fast breakthrough.

Su Yi observed the six beasts in front of him. The aura on the Golden Python seemed to have reached Demonic Spirit Realm Fourth Grade while Fire-Eyes Beast Tiger and the rest, had reached Demonic Spirit Realm Third Grade.

How long had they been separated? When he first met the Golden Python, it had only just broken through to Demonic Spirit Realm First Grade. Su Yi was unable to contain the surprise in his heart!

Back when they first stepped into the mysterious space, Su Yi had felt that it was weird.

When Flaming Beast Eagle and Snow Jade Ape went inside the mysterious space, the commotion inside the mysterious space was different compared to when Golden Python, Fire-Eyes Beast Tiger and the rest first went in.

Now that he heard what Fire-Eyes Beast Tiger, Fiery Red Demonic Mink and the rest had said, he finally understood that what they had gotten then was a mighty inheritance.

And that inheritance must have some form of connection with him thus the six beasts were so obedient to him.

Where are Fire Bird and Snow Ape? Thinking about Flaming Beast Eagle and Snow Jade Ape, Su Yi finally realized that both of them were not here and they had also sustained extensive injuries.

My lord, they are severely injured. At the moment, they are outside healing. Golden Python replied.

Su Yi felt reassured after listening to what Golden Python had replied.

Flaming Beast Eagle and Snow Jade Ape had accompanied him for so long, and they had shielded him from getting injured. That caused Su Yi to feel very touched.

Seemingly, the feeling must have been the influence of practicing Supreme Chaotic Yuan Technique.

Or it might be because Su Yi himself did not despise beasts. He felt that compared to being with humans, being with these beasts were much safer and comfortable.

Why are you guys going to the Grand Beast Canyon for? Su Yi was curious as to why did these beasts had to go there.

Our real motive is the Demon Woods as only at there, will we advance even faster. But with our current cultivations, we could only go to Grand Beast Canyon. Fire-Eyes Beast Tiger answered.

The inheritance told us that by sharpening our skills, could we advance quicker. So, we are planning to go to the Grand Beast Canyon. Only at there, will we be able to grow even stronger! Spectral Mouse responded.

My lord, why not you follow us to the Grand Beast Canyon too. My brother and I have also gained the inheritance and are also planning to sharpen ourselves, to quickly become powerful! The golden snake on the left spoke, gazing at Su Yi with anticipation in its eyes while it rubbed affectionately against Su Yi's palm.

So you guys have also gained the inheritance Su Yi shockingly stared at the two golden snakes. Back then their eggshells were also caged within that mysterious light.

It turned out that these two fellows had also gained a piece of the inheritance.

Going with you guys to the Grand Beast Canyon

Su Yi raised his eyebrow. Currently, he did not need to worry about that adventurer team, but the Black Fiend School had once again targeted him.

This time by luck, he managed to chase away Dharma Protector Heijiu, but the next time, he might not be so lucky.

Su Yi reckoned that at present, the Black Fiend School must be sending out tons of strong cultivators to look for him and perhaps, they had also laid down traps on the outside of the Forest of Demons.

The most dangerous place is the safest place! Doing the opposite way!

All of a sudden while immersed in thinking, Su Yi's eyes glimmered, and his heart had made the decision.

Anyway, just down the front was Grand Beast Canyon so he might as well go there and train.

And within the Grand Beast Canyon, there were beasts everywhere, so it served more benefits to him.

Black Fiend School, you have angered me. If you have the guts to come to Grand Beast Canyon, I will certainly play with you! Su Yi deeply chanted as his expression became cold.

This time the Black Fiend School had thoroughly angered Su Yi.

After a moment, Su Yi changed into a sturdy short robe which he got from the interspatial bag from Zhou Da and the rest.

Carrying the sword and saber on his back, Su Yi walked out of the cave to find Flaming Beast Eagle and Snow Jade Ape in another cave not too far away, healing.

My lord!

Upon seeing Su Yi, the Snow Jade Ape and Flaming Beast Eagle immediately stopped healing.

Come in here to heal yourselves. Su Yi nodded his head as he summoned the mysterious space out, allowing for Snow Jade Ape and Flaming Beast Eagle to enter since the healing process will speed up by double in there.

Seeing that Su Yi had actually, understood beast language, Flaming Beast Eagle and Snow Jade Ape felt surprised. But they still followed Su Yi's instructions and went inside the mysterious space.

Lets go and be careful.

Su Yi said to Golden Python, Fire-Eyes Beast Tiger and the rest.

Even though they had mentioned before that there were more beasts in the Grand Beast Canyon, but because of the news about the Blood Spiritual Ginseng spreading around recently, it had attracted many strong cultivators, so it was better to be safe than sorry.

Inside the dense forest with towering trees that covered up the sky.

Su Yi walked with the sword and saber crossed on his back, slowly traveling through the forest.

Several meters in front of them through a towering trees gap, Su Yi could see over thirty figures that were resting.

Within these figures were males of different ages. The youngest aged around twenty years old but all of them had a bloody aura.

On the side of these thirty over people were bursting baggage. It seemed that their profits in the Forest of Demons were quite good and they were planning to leave.

Looking at those people, they seemed to be a small adventurer team. Su Yi did not want to face them and turned around to leave, not wanting to cause any more troubles.

That kid over there is all alone in here but has yet to be eaten by a beast! Someone from far away saw Su Yi and said with a laughing ridiculing demeanor.

Maybe theres someone with him. A kid that is still wet behind the ears wouldnt run here alone, or a beast would have swallowed him long ago. Someone jokingly remarked.

Dont you guys think that the kid looks similar to the one that Black Fiend School has offered a huge amount of money for? All of a sudden, someone claimed as he watched Su Yi turned around and left. His eyes became dark, revealing a doubtful expression.

Surely, that is not him right? Hearing this, many people became interested as their eyes glowed with greed.

The reward Black Fiend School was giving out, was much more than the amount that they painstakingly earned in a few months inside here.

If he is truly that kid, then we will be rich!

Go have a look, if that is indeed him, then we have strike rich!

Many of them suddenly boiled up as their gazes stared at Su Yi's back, their eyes burning with anticipation.

Chapter 127: Fight

Many of them suddenly boiled up as their gazes stared at Su Yi's back, their eyes burning with anticipation.

Su Yi's steps slowed down, and his face turned gloomy as the words descended onto his ears distinctly.

Stop right there, kid! The moment the shout traveled into Su Yi's ear, many figures instantly gathered around him.

Are you calling me? Su Yi turned his head around and stared at the figures that had gathered. A cold light flashed in his eyes.

That's right, I'm calling you. Figures by figures stood near Su Yi with their eyes sizing him up.

It should be this kid. I have seen the portrait before, and they look alike. So similar. People were discussing like they were sizing up some goods, totally not placing Su Yi in their eyes.

If you guys don't want to die, then stay away from me. Su Yi swept his gaze along the figures. It was a team of over 30 people, but they could not be compared to Tao Tiancheng's group as they did not have any Yuan Spirit Realm cultivator. There were only a few Yuan Xuan Realm Eighth Grade and Ninth Grade cultivators.

Hearing Su Yi's word, the figures in front of him were astonished, staring at Su Yi with a surprised expression.

Haha, this kid is so arrogant! Whether he is the kid or not, let's seize him first and hand him over to the Black Fiend School to find out! Instantly, laughter filled up the surrounding, completely disregarding Su Yi.

Since you guys choose to die, then you all shall die! Su Yi coldly swept his eyes over them, his killing intentions sipping out. These people completely did not place him in their eyes and wanted to hand him over to the Black Fiend School, wanting him to die of regrets.

Haha, this kid must be insane! A kid that is still wet behind the ears was actually so overbearing. This kid is crazy. All of them scoffed at Su Yi and laughed at him uncaringly. But suddenly, their ridiculing words were stuck in their throat as their facial expressions changed.

Howl Beasts roared whiningly, and six gigantic beasts suddenly appeared. A ferocious bird was circling in the air, a golden python was curled up on the ground, and a huge tiger was glaring viciously at them. The surrounding wind suddenly howled as the space trembled.

Beasts at Demonic Spirit Realm! Numerous people had a horrified expression as their hairs stood under the intense pressure. Those were Demonic Spirit Realm beasts. Furthermore, there were six of them, yet they did not have any Yuan Spirit Realm cultivators.

Kill! Su Yi coldly declared while waving his hands to signal. Fire-Eyes Beast Tiger, Golden Python and the rest had been following him from afar, now that they make an appearance, it was enough to sweep clean this small adventurer team.

Chirp At low altitude, the trees were swaying, and the leaves were dancing in the air due to the violent wind caused by White Jade Swallow and Silver Spirit Demonic Butterfly. Under the strong explosive aura, White Jade Swallow used its sharp claws and directly torn up a person, spilling blood everywhere.

Silver Spirit Demonic Butterfly might seem small in size, but under the fluttering of its wings, the surrounding air formed a tornado. Two people could not evade in time and were, shattered by the wind storm.

Witnessing such gory and bloody scene, the adventurer team couldnt help but feel their hair rising as a spine-chilling sensation went down their back.

Howl The Fire-Eyes Beast Tiger, Fiery Red Demonic Mink, Spectral Mouse, and Golden Python directly pounced at the same time. Roars filled the air as their bursting auras made the surrounding trembled.

Six Demonic Spirit Realm beasts pounced onto people, killing with their fangs and claws. Their auras covered the sky and earth as their fierce gazes shocked people. These adventurer team could not even defend for themselves.

Run! Faster run Those beasts are with that kid! Help! In an instant, several figures with pale complexions ran away quickly.

At this moment, they finally understood that these six Demonic Spirit Realms beasts were actually with that kid. If they had known this beforehand, how would they dare to confront him? However, it was already too late for regrets.

Unfortunately, the remaining people that wanted to flee; could not escape successfully.

Fire-Eyes Beast Tiger opened its large mouth and in one bite, torn the person into pieces. Blood flowed like a river while its teeth filled with scraps of meat. With one glimpse, it would send chills down peoples back.

Golden Python, Fiery Red Demonic Mink, and Spectral Mouse attacked. The smell of blood filled the air while roars rang in the ears.

Chi The Spectral Mouse ran as fast as lightning, and in one bite, it crushed both the human and their weapons. Those teeth seemed indestructible as it instantly bites a persons head into pieces. The scene too horrifying to watch.

Several people ganged up to stop Golden Python, but with a swipe of its tail as if a gong was ringing, the people and their weapons were sent flying. Mouthfuls of blood were spat out, and the people landed on the ground dead.

Roar! The Fire-Eyes Beast Tiger roared as its claws glowed with light. A cold light glimmered, letting out a resounding clang that shook the ground as it directly smacked a person with its claw into a meat paste.

Kill all of them! When do I get to kill The two golden snakes appeared at Su Yi's shoulders, sizing up the bloody scene in front of them. Their dewy eyes revealed nothing of fear; instead, there was some yearning.

Da Bao and Xiao Ling, both of you must train hard. Only when you become strong, can you protect yourselves! Su Yi said to the two golden snakes with heavy emotions. Whether if it is him or the beasts, only when they became strong can they have the ability to protect themselves and the people around them.

As for Da Bao and Xiao Ling, they were the names Su Yi gave to the two golden snakes. Da Bao was the older brother while Xiao Ling was the younger sister.

Very quickly, over thirty of them, were killed as none of them had escaped. Su Yi stood at one side calmly watching. The world was like this as the strong preyed on the weak. If today, he did not have Fire-Eyes Beast Tiger and the rest following him, he would be the unlucky one.

My lord, we have killed all of them! Fire-Eyes Beast Tiger, Fiery Red Demonic and the rest came forward, each one of them having blood on their claws and mouth. The corpses were almost swallowed by every one of them.

The bloody auras within the cultivators' corpses, were like an essence for the beasts.

Su Yi nodded his head as he swept his eyes across the scene and placed the bursting baggage from the adventurer party into the interspatial bag.

He must not linger around the place. The quicker he entered Grand Beast Canyon, the better.

This time, Su Yi had no intention to part with Golden Python and the rest, allowing them to follow behind him.

Chapter 128: Ling Bao Pavilion!

During these times, Su Yi had finally understood the rule of the strong preyed on the weak. With his cultivation, he couldn't become a strong cultivator within a short time. Instead, that adventurer team and Black Fiend School had reminded him that if he couldn't instantly become strong, why not depend on the others around him? The Fire-Eyes Beast Tiger, Golden Python and the rest at his side were also part of his real strength.

An hour later, even though Su Yi had the intention to hide, he had once again met with another adventurer team. There were fewer people in this team, which amounted to less than ten people.

They carefully sized up Su Yi. Those people seemed to have recognized Su Yi and tried to capture him.

Kill Su Yi ordered, letting the nearby Fiery Red Demonic Mink and the rest to kill these people.

Looks like I have to be more careful. Su Yi muttered in his heart. The Black Fiend School seemed to have distributed his portrait everywhere to capture him for a reward so, there must be a lot of people in the Forest of Demons that have seen his portraiture. He had to be more careful.

From these people's baggage, Su Yi had found a cloak and a cape to cover up his face and weapons. Then he continued forward on the road.

Although this disguise was more eye-catching, there were also some people who had entered the Forest of Demons individually. Even though most of the people were mercenary groups and adventurer teams, there were likewise many different kinds of people who had entered.

Hence, even though Su Yi's disguise was weirdly eye-catching, no one else could recognize him when he met with other adventurer teams.

During dawn, far away at the front through the mountains, there was a flat land that revealed several buildings.

Many mercenary groups and adventurer teams arrived in the surrounding, all heading towards the same direction.

Yi City! Su Yi slightly raised his head, revealing eyes that were looking at the front as his eyes changed.

Inside the Forest of Demons, the Yi City was not uncommon, so Su Yi was not a stranger to it.

Furthermore, in some places of the Forest of Demons, there were quite a few flourishing cities with many residents. If not, the Black Fiend School and the rest would not have such impressive power.

Even at the perimeter of the Forest of Demons, a typical adventurer team that had entered to find medicinal herbs would have also required a few months before leaving.

Also, things like the interspatial bags were not something many people could afford, especially those small mercenary groups and adventurer teams. They could not afford to keep carrying their spoils on their backs for a month or keep their loot on their bodies for a long time.

Yi City, other than being a place for people to stay, it was also a place to trade for various types of cultivation resources, even wine, objects, and women. There were all kinds of things inside.

Gazing at the front, Su Yi hesitated. Not far ahead was the Grand Beast Canyon. Probably, this should be the only Yi City that leads to the Grand Beast Canyon. Fortunately, he could buy some elixirs in case a situation arises for it as he was unsure when he would be able to leave the Grand Beast Canyon. Perhaps even by then, the Black Fiend School had still not given up on him.

After finding a secluded and safe spot, Su Yi notified the Golden Python and the rest to find a secured location nearby and wait for him. After that, he started to pull things out from the interspatial bags, planning to trade them for something in Yi City.

The dusk had shrouded the mountains, and red clouds filled up the sky.

Yi City was enormous than what Su Yi had expected. There was only one way in, yet when entered the city, there were many roads.

Ten thousand-year-old Four Leaf Spiritual Grass, an absolute treasure! Claws of the Mighty Blue Glow Bear, a great material for refining weapons. Only accepting exchange, no Yuan Stones Centuries old aging wine, please come and try it! When Su Yi entered the Yi City, clamorous sounds spread through the air making the place seemed very lively.

Although Yi City was termed a city, in reality, it had two streets. On both sides were filled with various stores and restaurants. At the back was an inn for people to stay.

The price of the inn was high. For typical cultivators, as long as there was a place to sit down and meditate, it would be a night. Except for those filthy rich people, that wanted to change their environment to reward themselves, they would be willing to stay in the inn.

It was not the first time that Su Yi had come to Yi City. In the past, when he was staying inside the Forest of Demons, he had been to Yi City before so he already knew the rules in Yi City.

Typically, any of the Yi City would have a powerful group protecting the city or a strong cultivator hidden in the shadows protecting it. Within the Yi City, no one was allowed to fight even if it was an irreconcilable hatred. It was the unwritten rule in the Yi City of the entire Forest of Demons.

Su Yi slowly walked with his cloak and cape while exchanging for some Spiritual Herbs in the street stalls.

These Spiritual Herbs still had mud in its roots, which were easier to survive inside his mysterious space. Although Su Yi had also taken out medicinal herbs to exchange, those medicinal herbs already could no longer persist inside his mysterious space.

There were many people selling things on a street stall. All various types of rare goods and cultivation resources were available, but there were even more medicinal herbs.

Su Yi was not stupid. Wanting to find good things on these street stalls was not easy as more than half of them were substandard products, put out as excellent products. If he unmistakably needed to find something magnificent, then he had to go to a bigger store. Although the quality was guaranteed and there were more cultivation resources, it was pricey.

After walking one round, Su Yi couldnt find anything more that caught his eye. Su Yi could see with one glance that those weapons and those weird so-called unrivaled martial arts, were just ordinary things.

Ling Bao Pavilion. Su Yi slightly lifted his head and went in the store. Within Yi City, this seemed to be the biggest store while the signboard was very imposing. In this remote part of the Forest of Demons that was Yi City, it looked unique and generous.

Inside the Ling Bao Pavilion, the area was big with lots of people entering it. Many of them were adventurers.

Most of them had come in here to sell their things for a profit. All of them wore a smile as they went out.

And of course, there were also people who came here to buy elixirs and other things.

Within the Ling Bao Pavilion, there were many assortments of items that were glowing and Su Yi was entranced by them. There were all kinds of cultivation resources and rare medicinal herbs too.

There were also many cultivation techniques, martial arts techniques, weapons, etc.

Su Yi slowly wandered around the store as many of the things were very tempting to him.

He regrettably touched the small baggage that he was carrying with him, and bitterly smiled. Not long ago he had already traded off most of them, so there were not many things remained with him. Furthermore, although those Spiritual Herbs were rare, he currently did not have any needs for it.

Chapter 129: Big Store that bullies Guests

Can I buy elixirs here? Su Yi asked one of the apprentices in the Ling Bao Pavilion. He wanted to sell off some of the medicinal herbs and Spiritual Herbs in his bag, in exchange for some things he needed to prepare.

Wait a minute. The way the apprentice in the Ling Bao Pavilion had looked at Su Yi was like he didnt care much about him as his voice sounded young. He was thinking that the young man who had come in would not have anything decent and continued to attend to the several adventurers who were also here to trade resources.

Well.

Su Yi nodded as he did not care much and continued to stroll around the Ling Bao Pavilion.

Half an hour later, Su Yi who had waited for the apprentice of the Ling Bao Pavilion to finish dealing with the last batch of adventurers, went towards him again for inquiries.

Wait a minute. said the apprentice in the Ling Bao Pavilion without paying too much attention to Su Yi.

Im in a hurry and there is no one else here.

Said Su Yi, seeing that the apprentice in the Ling Bao Pavilion had already dealt with several adventurers while Su Yi himself had waited for a long time, and now there was no one else.

Just wait when I ask you to wait, dont I need some rest? The apprentice of the Ling Bao Pavilion was in his 30s. He was a practitioner of the Yuan Xuan Realm, but he was probably just in the lower grades of the Yuan Xuan Realm. He glanced coldly at Su Yi as his expression gradually became annoyed.

Get out of the way. Line up. Ill go first.

Three strong looking men who were twice the size of Su Yis body and were also taller than him, had come up. They directly pushed Su Yi away and had come to the counter in front of the apprentice of the Ling Bao Pavilion with two full big bags. The bag was full of Spiritual Herbs and all kinds of materials of wild animals when it was opened.

Fellow people, I came first, can you line up?

Su Yis stubborn temper grew as he stared at the three bulky men.

Why hide your head and show only your tail, pretending to be deep? Get lost as far as you can, if we were not in Yi city, I would have killed you directly!

Of the three men, the one on the right was nearest to Su Yi. He was in his forties, dressed in tight clothes, had dark skin and a pair of bright eyes. His Yuan Spirit Realm Second Grades aura was looming and had enveloped Su Yi, suppressing him.

Deng!

This aura made Su Yis step shudder, and had almost made his legs weak.

Boom!

The Yuan Qi in Su Yis body surged, the Supreme Chaotic Yuan Technique secretly circulated in his body, his aura did not flow out but it had resisted the invisible suppression.

With just your grade, you do not have enough qualifications to kill me, if we were outside now, you would have already become a corpse by now!

Su Yi looked directly at the bulky man, The Yuan Spirit Realm was like an emperor that should not be provoked and if it was not because Su Yi was intentionally suppressing it, it might have attacked back.

Feeling the aura from the bulky man in front of him, Su Yi did not bother to care because if this had happened outside, it would not be certain who would die!

Just by listening to Su Yi's words, the big man was suddenly stunned and seemed to be a little surprised. Did he really meet a strong opponent, but looking at his appearance and that slightly immature voice, he could not be old, and his cultivation level should not be any stronger.

You are provoking our Wild Bear Gang, when you get out of this Yi city, you will pay the price! said the strong and rough looking man coldly while staring at Su Yi as his facial expression darkened.

When you are out of Yi city, you are welcome to find me and make me pay the price!

Su Yi said coldly. His eyes under the hood looked straight at the person in front of him.

Swooshswoosh

Such movement had immediately attracted the attention of many eyes in the Ling Bao Pavilion, and many curious looks were directed towards them. They started observing Su Yi and the three strong men.

At the moment, on the third floor of the Ling Bao Pavilion, three figures stood quietly.

Three people; a man, a woman and a person with a white veil wearing a cape.

The man was in his 50s, dressed in plain clothes, he had black hair and was half bald.

The woman looked like someone in her fifties, wearing a plain dress with a bun and slight wrinkles on her face. She looked a little like a kind lady, standing quietly beside the person with the cape and a white veil.

The last person wore a lilac dress with a veil, showing her beautiful body curve with her long hair tilted on her pretty little waist that looked so soft as if boneless. Although her face could not be seen clearly, it could very well be imagined that underneath the veil was a pretty face.

At this moment, the eyes of these three people were also attracted towards the incident on the floor below.

Okay, if you want to wait you can wait, if you don't want to, please leave, our Ling Bao Pavilion would not be lacking of customers even if you don't buy anything.

In the hall, the apprentice of the Ling Bao Pavilion stared at Su Yi coldly, then looked at the three big men with a smile, and said to the big man who was staring at Su Yi with a warm smile, Third Brother Xiong, why do you want to bother arguing with this fella, this time you have got a lot of stuff.

Lets stick to the old rules. The second big man lowered his voice and said while his eyes passed Su Yi, and then looked at the apprentice of the Ling Bao Pavilion.

All right, same old rules. The apprentice of the Ling Bao Pavilion had also lowered his voice and said with a satisfied look in his eyes.

Su Yi stood aside while looking at the Ling Bao Pavilions apprentice, he smiled bitterly and shook his head.

Big store that bullies customers, if this place doesnt want me here, I am sure there are others who want. Su Yi gave a wry smile, there was no need to stay, Ling Bao Pavillion was not the only store in Yi city.

As he had said, he turned around and left.

The three Xiong brothers looked at Su Yis back and said, Dont let me see you outside Yi City, or you will die!

Upon hearing this, Su Yi stopped while turning back midway, he turned his head to stare at the three Xiong brothers and said, Same goes to you!

When he had finished, Su Yi did not turn back and left directly.

Hum, outside the city, you will definitely be dead!

The three Xiong brothers had a cold look on their face, while they clenched their fists. They could not fight in this Yi City.

It was the custom of the Yi City that any dispute should be settled outside the city.

Deacon Wu, did you hear that? A big store that bullies customers. Although the Yi city is small, Ling Bao Pavilions name is not small. On the third floor of the Ling Bao Pavilion, the graceful and beautiful person with a white veil on her face and a cloak opened her mouth. Her voice was clear, but it was also a little immature, and her age seemed to not be very old.

I employed the wrong person. said the man in his 50s to the woman with a respectful look, but with an attitude neither servile nor haughty.

I dont blame you. In a large granary, there will always be moths.

The woman had spoken in a quiet voice. Dont let people think that we are bullying customers in the Ling Bao Pavilion because we are a big store. The reason my Ling Bao Pavilion has todays achievements and status is directly related to the respect we give the customers.

Yes, Ill arrange it. The old man saluted, then he bowed and stepped back.

Su Yi got out through the Ling Bao Pavilions door. Since he was not welcome, he decided to change to another store because this store bullied customers.

Fellow friend, please stop.

When Su Yi had not even walked thirty feet from the Ling Bao Pavilion, someone had caught up to him from behind.

Chapter 130: Deacon Wu!

Su Yi looked back, it was a rather young man with an appearance less than 30 years old. From his attire, it could be seen that he was also an apprentice from the Ling Bao Pavilion.

What is the matter? Seeing that the man was Ling Bao Pavilions apprentice, Su Yis eyebrows raised as he asked calmly.

Our deacon has invited you in, we are sorry for the matter just now. We hope that you could have a seat in the Ling Bao Pavilion, and accept our apology. The young man said politely to Su Yi.

Well, Im too lazy to go back.

Su Yi shook his head as he no longer had a good impression of the Ling Bao Pavilion so he wanted to turn around and leave when he had finished his words.

Please stay, my friend.

The young man immediately came forward, stopping Su Yi. It seemed that he had felt this was a little strange as in this demon-filled forest, others would have been flattered if he said that the deacon had personally invited them, but this person was unmoved, so it was natural for the young man to feel strange.

Looking at Su Yi, the young man did not leave a trace of his inner feelings appear on his face, and his attitude was sincere as he continued, My friend, you seemed like you had wanted to sell things, you know, in the whole Yi city, our Ling Bao pavilion has the highest offers, moreover, you are a guest invited by our deacon, so the price will be higher. If I cannot persuade this friend, even the deacon will think that it was because of my inability, so please friend, dont put me in this difficult situation, this worker will appreciate it very much.

Su Yi looked at the man in front of him who had a sincere attitude which surprised him. After pondering for a while, he nodded and said, Well, I really need to sell some things, and buy some elixirs at the same time.

My friend, please come in. The variety of elixirs in Ling Bao Pavilion is also the greatest in the city. Seeing this, the young man immediately smiled and led Su Yi back to the Ling Bao Pavilion.

This time, with the young man leading the way, Su Yi had been showered with many yearning looks while he walked through the lobby to the second floor.

The second floor was smaller than the lobby. Su Yi only knew that the second floor was like a paradise opened in front of him when he had seen it himself.

There were many cultivation resources on the second floor.

There were all kinds of elixirs, martial art technique, cultivation technique, weapons, armor, medicinal herbs, etc. This floor could be said to be a few levels higher in quality than the floor below.

Red Fire Blood Fungus, Snow Jade Spirit Fruit.

Su Yi looked around, there were tons of medicinal herbs that were expensive and he had even seen some high-end medicinal herbs which would be enough to make a Mirage Grade High-Level elixir.

This second floor is only open to important guests of the Ling Bao Pavilion. Our deacon will arrive soon. Please wait for a moment. The young man had taken Su Yi to a rather luxuriously decorated small hall, served him tea, bowed and then left.

Su Yi looked around the small hall, in such a place like the Forest of Demons, this place was rather comfortable and luxurious, he seemed to have underestimated this Ling Bao Pavilion.

Ling Bao pavilion has always been entertaining guests like VIPs, and for what happened just then, please forgive me. While Su Yi had been looking around, a man in his fifties entered the small hall and stared at him. His attire was normal and half of his head was bald.

The strong cultivator in the Yuan Void Realm!

Su Yi looked at the old man, and suddenly his eyes dimmed, on the ordinary back of the old man, Su Yi could feel an invisible but strong aura.

This aura was similar to that of the High Elder Bai from the Black Fiend School that Su Yi had encountered, and also the woman that had dressed up as a man. This was the strong cultivator of the Yuan Void Realm.

Let me introduce myself. This old man is an ordinary deacon of the Ling Bao Pavilion. My surname is Wu. May I know how to address you, my friend?

The old man looked at Su Yi, and seemed like he had wanted to know something by looking through his mask, but he did not use his aura to check in detail and had just observed quietly.

Deacon Wu. Su Yi nodded, neither in a servile nor overbearing manner, as it was not his first time encountering strong cultivator of the Yuan Void Realm.

But with the level of Yuan Void Realm this old man was in, he could only be a general deacon in the Ling Bao Pavilion which had made Su Yi feel surprised.

Su Yi did not show any emotion on his face, could it be possible that the Ling Bao Pavilion had another identity. The High Elder Bai and other Yuan Void Realm cultivators were all elder-level figures in the Black Fiend School.

Looking at Su Yi's actions and attitude that was neither servile nor overbearing, and the fact that he had no reaction whereas listening to his voice he could assume that he was a young man, but then again, his reaction seemed to be unfathomable, which had made Deacon Wu's expression secretly change.

He was a deacon, and had no need to attend to customers like this. But for some reason he had to.

This was only a small shop of Ling Bao Pavilion, and just the branch office he was supervising this time. He had to show up only because that important person was in the Pavilion when he had encountered this thing.

But the young man in front of him didn't seem to have much of a reaction. He had a reason to be moved because anyone from the demon-filled forest would have been moved to hear the words of the Deacon of Ling Bao Pavilion.

May this old man know what my friend wants to buy? Deacon Wu did not show any trace of his emotions, the young man seemed to give him a strange feeling.

Nothing much Deacon Wu, some inconspicuous medicinal herbs and elixirs, I am afraid that Deacon Wu would not even bother to care about it. Su Yi gave a slight smile. His things would be nothing in front of this strong Yuan Void Realm practitioner. It would not even be worth mentioning and he felt a little embarrassed to take it out.

But Su Yi eventually opened the bag, anyway it had been the people from Ling Bao Pavilion who had insisted for him to come back.

Su Yi had packed some medicinal herbs that he got along the way in the bag, the amount was neither little nor too much except for those he had wanted to exchange.

Of course, the medicinal herbs he had on him were not only just these.

Su Yi was afraid that he would attract attention if he had exchanged too many of them in one go.

In addition, Su Yi had also taken out some needless elixirs and wanted to exchange for some other elixir, in order to prepare for any unexpected circumstances.

When Su Yi had opened the bag, Deacon Wu was originally looking forward to the items but when he saw the pile of medicinal herbs, he immediately secretly returned to his former calmness, leaving no trace of his earlier expectations.

They really were some inconspicuous medicinal herbs, it was indeed very inconspicuous to him as he was a practitioner of the Yuan Void Realm.

Is this the elixir

Deacon Wu had picked up a jade bottle, he had no more expectations on the medicinal herbs and had just opened the jade bottle to pour out some elixir.

Yuan Restoration Elixir, Earth Xuan Elixir, Doubling Yuan Elixir, Third Yuan Elixir

Looking at the Yuan Restoration Elixir, Deacon Wu had lost his last hope.

Although the Yuan Restoration Elixir, Earth Xuan Elixir, Doubling Yuan Elixir and the Third Yuan Elixir were Moon Grade High-Level Elixirs, but to a person of the Yuan Void Realm, they were not uncommon and of breathtaking value anymore.

These elixirs were nothing to either his status as a Yuan Void Realm practitioner or even him as the deacon of the Ling Bao Pavilion.

Is this all

When Deacon Wu spoke, he had lost all his expectations.

There was nothing special about the young man it seemed, and these things were not much better than what were sold by ordinary little adventurers.

Eh..

Suddenly, Deacon Wu saw something, and his expression couldnt help but change into that of unexpected surprise.
