

## Sky&Earth 141

### Chapter 141: News About The Blood Spiritual Ginseng

The Elder in front of them was the youngest Inner Elder that the Taihang Sect ever had in a thousand years, with unfathomable cultivation. Rumor had it that he had already stepped into the Yuan Emperor Realm.

Even in the entire continent consisting of One Mountain, Two Religious Sects, Three Sects, and Four Schools, Bi Zhang Qian was a very famous existence due to the fact that when he was young, he was already able to move around unhindered, bringing fame for his generation of outstanding people with his peerless talent and grace!

Those who are injured quickly heal yourselves!

Bi Zhang Qian glanced at the disciples in the area as he secretly frowned. There were several that were severely wounded and many more; that had suffered light injuries. Even the few that did not get injured were panting and in a miserable condition.

Elder Bi, why are there beasts from the Demonic True Realm when we have just entered the Grand Beast Canyon for a few days? The young man that was heavily wounded asked. According to the information they had gathered, although the Grand Beast Canyon was the passageway to the Demon Woods, usually only deep within the Demon Woods would there be powerful beasts in the Demonic True Realm.

But now they were only at the outer range of the Grand Beast Canyon, yet they had met with such powerful beasts in the Demonic True Realm.

All of this should be related to the Demon Emperor! Bi Zhang Qian stated as he slightly arched his eyebrow while the treasure sword in his hand had disappeared.

Demon Emperor! The disciples from the Taihang Sect uncontrollably trembled after hearing these two words.

The Demonic Emperor Realm was just too strong. At this moment, only Elder Bi who was in front of them would be able to contend against them, whereas, they would not even have the capability to stand against the ripples created from their fight.

The Blood Spiritual Ginseng has appeared in the Grand Beast Canyon so the nearest Demon Emperor should have felt it as they also wish to acquire the Blood Spiritual Ginseng. That's why there are so many beasts appearing in the Grand Beast Canyon. Bi Zhang Qian's gaze had also become grave, with the identity of the Taihang Sect, obtaining a Yellow Grade elixir was not difficult.

But this time he required the Blood Spiritual Ginseng for something. Furthermore, it was a Blood Spiritual Ginseng that had intelligence, so, he had to obtain it no matter what.

However, there were now beasts in the Demonic Emperor Realm who had also felt it.

Moreover, there were other strong cultivators in the Grand Beast Canyon searching for the whereabouts of the Blood Spiritual Ginseng. It seemed like it would not be an easy task to obtain the Blood Spiritual Ginseng.

Second Uncle, if this is the case, then is the news about the Blood Spiritual Ginseng true? Bi Ling asked. Her Second Uncle had entered the Grand Beast Canyon several days in advance so he must have verified the news about the Blood Spiritual Ginseng. Speaking of which, Bi Ling couldn't help but think of that strange young man who seemed to be interested in the Blood Spiritual Ginseng too. He wouldn't be at the Grand Beast Canyon now, right? Zhou Da, Guo Yan and the rest were still boiling with anger at him.

The news about the Blood Spiritual Ginseng should be real, and it has already stepped into the Demonic Void Realm. It has gone into hiding as it knew that many powerful cultivators are looking for it. Bi Zhang Qian responded.

Elder, the Blood Spiritual Ginseng seems to be good at hiding. Wanting to find it should be tough. A strong cultivator in the Taihang Sect asked. A Spiritual Herb like the Blood Spiritual Ginseng was born to be good at hiding, thus trying to find it would not be a simple task.

That is not entirely true. Bi Zhang Qian slightly smiled and responded: According to the information that is being spread around, although the Blood Spiritual Ginseng had broken through to the Demonic Void Realm, when it was trying to break through, it had revealed its location and got interrupted before it could undergo the tribulation. Counting the time, if the Blood Spiritual Ginseng does not undergo the tribulation in these few days, its cultivation will directly fall back, and when it wants to break through again, it will be even more difficult. Bi Zhang Qian paused for a moment as his expression changed slightly. He lightly sighed and said: So, no matter what, within these few days, the Blood Spiritual Ginseng will once again undergo the tribulation. At that time, there will be a fierce battle between all the powerful cultivators. Moments later, at the towering peak of the mountain with clouds floating around its surrounding, the disciples from the Taihang Sect each took an elixir and started to recover on the spot while meditating.

Those young and powerful cultivators who were leading the Taihang Sect, had injuries that were even more severed. After consuming the elixir, they sat cross-legged as they circulated the power within their bodies. A light surged from their bodies as it filled the air with a terrifying presence.

Bi Zhang Qian was in charge of the protection of these batch of disciples. This time he had received information of the Blood Spiritual Ginseng so, he had come to the Grand Beast Canyon. Coincidentally, there was also a batch of personal disciples that needed to go out for training and the responsibility to ensure that no accidents would occur had been handed over to him, this was also the reason why the Taihang Sect could exist for so long.

Several years later, these young and tender disciples would grow up to become Taihang Sects core power.

Second Uncle, do we still have to continue to enter deeper into the Grand Beast Canyon? Bi Ling had reached the side of Bi Zhang Qian and asked. She was not in a rush for healing as her injuries were not that serious.

Based on the cultivation of the beasts they had faced today, if they were to travel any farther, they might encounter even more powerful beasts.

Bi Zhang Qian chuckled. He had always doted on this niece from young. He passed an elixir to Bi Ling as he told her at the same time: We will wait around here for a few days. Thank you, Second Uncle. Bi Ling did not stand on ceremony as she grinned. Ever since she was young, she had been closer to her second uncle than to her biological father.

Go heal and recover yourself. When the Blood Spiritual Ginseng appears, at that time, all of you must stay as far away as possible. With your cultivation, there's simply nothing for you to do. Bi Zhang Qian stared ahead with brooding eyes as he said: The Blood Spiritual Ginseng might be too scared to go inside the Demon Woods. There is a possibility that it might just be around these areas.

Inside a chaotic forest, a sky-high tree had broke. A two feet tall ferocious bear had fallen onto the ground, the thick skin and meat on its body were dripping blood as its body was full of marks from a saber, that was deep enough to see its bones.

Two hundred and eighth! Su Yi kept his saber. In a total of ten days inside the Grand Beast Canyon, he had already exterminated 208 beasts.

But within these ten days, Su Yi did not venture too deep into the Grand Beast Canyon as the cultivation of the beasts inside were getting higher and higher. Su Yi had even met a few Demonic Spirit Realm beasts.

Facing with Demonic Spirit Realm beasts, Su Yi did not even have the slightest possibility to win. He could only initiate the Supreme Chaotic Yuan Technique to frighten them off.

Su Yi had finally understood why those mercenary groups and adventurer teams did not dare to venture casually into the Grand Beast Canyon. If it wasn't because of the Supreme Chaotic Yuan Technique that seemed to have the effect of frightening the beasts, he would not be able to persist for so long inside the Grand Beast Canyon as well.

In these ten days, during the day, Su Yi would train himself by cultivating the Three Sabres of the Raging Dragon, Seven Injuries Fist and the rest, and occasionally trained his arm strength with the broken heavy sword.

Of course, he had not forgotten to cultivate the Heavens Taming Incantation as with such an identity of a Soul Tamer, Su Yi had always treated it very seriously.

It was only that within the Forest of Demons, the identity of a Soul Tamer was not particularly suitable to use. Su Yi knew what he lacked the most was still the most fundamental of grinding.

During the night, Su Yi would search for places to hide and cultivate in the mysterious space.

Then, during the day, Su Yi will once again start a slaughtering fest where he often had to risk his life whenever he met with a Demonic Xuan Realm Third or Fourth Grade beast.

Chapter 142: Blood God Sect!

But after this type of grinding of reoccurring trials of death and reoccurring confronting imminent dangers, had brought Su Yi an incomparable feeling, experiences, and huge gains.

At night the sky was studded with stars.

There was a crack in the canyon with vines everywhere.

Within the concealed crack, a light was glowing with an aura that appeared luxuriant.

Inside the mysterious space, a dense Heaven and Earth energy, was fluctuating. Su Yi took off his cloak and mask as he sat cross-legged, forming a hand seal. His entire body looked as if covered in a layer of holy light.

From the time he had climbed out of the deep hidden valley till now, Su Yi's skin, for unknown reasons, was still as fair as jade with a crystal-clear gleam to it. However, his face formlessly had an extra fierceness to it.

Like the edge of a knife, although it did not have any blood on it, people could still feel the bloody aura.

How! Unknowingly at some time, a roar of a beast spread from within the mysterious space as a terrifying aura sipped out that could shock people's souls.

At a broken cliff;

The moon was shining brightly, lighting up the surroundings. At the far away hazy chain of mountains, looking from afar, it seemed like the eyes of the beasts.

Dozens of figures appeared at the broken cliff with a swift and fierce aura on their bodies.

If at the moment Su Yi was here, he would have surely recognized two familiar figures. They were High Elder Bai and High Elder Yu from the Black Fiend School.

But at present, High Elder Bai and High Elder Yu were standing behind a black-clothed elder with a face full of awe and reverence.

The black-clothed elder had a hawk-like nose and a broad forehead with skin as white as a lady. There was a sharp glint glimmering in his eyes.

Wait for a while more, the Blood Spiritual Ginseng won't be hiding for long as it will unquestionably come out for its tribulation or else its cultivation will fall back, and it will be even harder for it to break through in the future. The black-clothed elder with a hawk-like nose and broad forehead said faintly.

High Elder Ye, people from the Raging Dragon Mercenary Alliance and Blood God Sect have also come. I'm afraid that they have also come here for the Blood Spiritual Ginseng! High Elder Bai exclaimed as his expression became slightly grave. If the Raging Dragon Mercenary Alliance and Blood God Sect were also involved, then the struggle for the Blood Spiritual Ginseng would undoubtedly be even harder.

Since we can receive the news, their coming is also not surprising. The only thing I'm afraid of is that people from the other powers will also come here. The black-clothed elder who was called High Elder Ye did not have any change in expression, but his eyes had become sharper.

At a cliff, under the shine from the moonlight, an unusual fog had spread around bringing with it a trace of blood, causing the moon on the empty sky to be tainted and turned into a blood moon.

At present, many figures were standing on top of the cliff.

Under the glow of the moonlight, several figures seemingly had a bloody radiance sipping out from their bodies. For no apparent reason, there were horrifying murderous auras in the air.

Black Fiend School, Raging Dragon Mercenary Alliance, and many other powerful cultivators are nearby. Looks like, all of them have also felt that the Blood Spiritual Ginseng is within this perimeter. A middle-aged man wearing a dark red robe with his black hair touching his shoulders spoke softly, standing in front of those several figures. His eyes that had been watching the sky shone with a slightly bloody glow.

Howl At the top of a mountain, a deep and low roar resounded as several gigantic flying beasts landed on a sky-high tree at a mountain peak. Their fearsome eyes resembled a brass bell, sweeping around the area.

Dozens of figures were also standing on top of the mountain. Their formless auras were fierce, making the surrounding air tensed up.

Interesting, the Black Fiend School and Blood God Sect have both arrived. There are also numerous other people nearby. Looks like, it will be a fierce battle between these powerful cultivators! Someone said in a bright voice.

Whoosh Inside the mysterious space, there was a light that appeared full of life. Su Yi sat cross-legged and not knowing when it had started, the aura on his body had been in a state of a continuous upward trend, and it was steadily increasing.

Rumble rumble At this moment inside Su Yi's body, the Yuan Qi Whirlpool within his Dantian, was getting more and more abundant. The Yuan Qi Whirlpool swirled as if it was forming a wind storm, letting out a low and deep rumbling sound like that of the wind and thunder.

Such a state had continued for a very long time as the aura on Su Yi's body already climbed to the peak as if it was going to erupt at any time.

Bang After the slight silence, at a certain period, a muffled sound rang out from the Yuan Qi Whirlpool within Su Yi's Dantian, accompanied by waves of heaven and earth energy from the surrounding as it abruptly surged forth, causing his hair to fly around as it trembled and his clothes to flutter. The aura on his body had once again climbed up to a new step.

If at this moment somebody was here, that person would be utterly shocked that a cultivator in the Yuan Soul Realm Ninth Grade, actually had such a powerful aura that was comparable to a Yuan Spirit Realm First Grade.

A moment later, the powerful aura on Su Yi's body gradually started to quiet down until it finally became tranquil.

Crackle When the aura on his body had completely calmed down, Su Yi who was sitting cross-legged, abruptly opened his tightly closed eyes. From his eyes, a blinding glow as if it had materialized, blasted out.

Boom! At the same time, a new aura from within Su Yi's body had also awakened as it suddenly swept out, carrying with it an oppressive might and destructive power!

Then, the aura finally receded. The glow in his eyes subsided as it gradually went back into the deep depths of Su Yi's firm and brooding eyes.

Yuan Soul Realm Ninth Grade! When everything had calmed down, the corner of Su Yi's mouth slightly curved up in a smile as his eyes also swelled with happiness.

Heaven indeed helps those who helped themselves, as in this period of grinding, he finally had the most practical gain. Yuan Soul Realm Ninth Grade, it seemed that it would not be long before he reached the Yuan Xuan Realm.

Feeling the current aura in his body and the changes, Su Yi felt very satisfied. Compared to the Yuan Soul Realm Eighth Grade, his battle power had gone up another level.

The abundant Yuan Qi in his body and the soothing spiritual power in his mind had given him an unexplainable comfort and satisfaction.

Roar! My lord! There were beast words transmitted over as several figures of beasts appeared before Su Yi. They were precisely the Fire-Eyes Beast Tiger, Fiery Red Demonic Mink, Snow Jade Ape, Flaming Beast Eagle, and the Spectral Mouse.

Did you guys breakthrough again? Su Yi stared at the five beasts in front of him as he could feel that currently, the auras on their bodies seemed to have increased by a grade compared to before they had entered the mysterious space.

Thanks to the elixir master had given us, all of us have broken through a grade. The Spectral Mouse squeaked and said with a smiling expression as all five of them had broken through another grade.

Good. Su Yi nodded his head. He was pleased that the elixirs he had brought were not in vain.

Sweeping his eyes across them, Su Yi discovered that the Golden Python, Silver Spirit Demonic Butterfly, and White Jade Swallow had still not woken up as their body was still glowing with light, even Da Bao and Xiao Ling the two small snakes were also caged in a special kind of light while the auras on their body were fluctuating.

You guys go drink the Spirit Essence and continue to cultivate in here. Su Yi told the Fire-Eyes Beast Tiger and the rest, allowing them to consume the strange Spirit Essence inside the mysterious space.

Although the Fire-Eyes Beast Tiger and the rest had broken through another grade, from what Su Yi had experienced recently, the beasts inside the Grand Beast Canyon were also getting stronger and stronger.

The cultivation and the strength of the Fire-Eyes Beast Tiger, Snow Jade Ape, and the rest were still not enough.

Also recently, there might be many powerful cultivators inside the Grand Beast Canyon. Bringing the beasts along with him would be very eye-catching thus Su Yi wanted these beasts to continue to stay in here.

#### Chapter 143: A Mysterious Young Girl!

Several hours later, within the luxuriant chain of mountains, on a cliff, a few flourishing yet old sky-high trees that seemed similar to ancient pine trees, resembled like a dragon on the ground.

Just on the cliff, a green Spiritual Herb was swaying with a crystal-like glow while emitting an alluring scent.

Green Xuan Grass.

Su Yi appeared under the cliff as his eyes gleamed.

Green Xuan Grass, a high-level Spiritual Herb that was the main ingredient used to refine many Moon Grade High-Level elixirs. Its whole body was green and was glowing brilliantly. It was born to draw the energy from heaven and earth, which was very rare.

I am in luck.

Su Yi was pleased. On the way, he had harvested many medicinal herbs and Spiritual Herbs, but it was his first time seeing a Spiritual Herb like the Green Xuan Grass.

Su Yi immediately prepared to climb up the cliff, ready to harvest it.

All of a sudden, just when Su Yi went close to the Green Xuan Grass, he felt his body tensing up and his hair raising.

Who!

At the same time, Su Yi raised his head and found a figure standing on the top, looking down at him.

In Su Yi's sight, a 14-15 years old young girl appeared, with white and tender skin. The snow-white skin had a tinge of pink as if water could be squeezed out from it.

The young girl had a temperament like the irises and orchids, her hair moving along with the wind and giving off a nice redolence. Her waist was thin, and her four limbs were slender and long, giving off a temperament like a celestial free from vulgarity.

Only, that young girl's pair of eyes that glanced at Su Yi, for no reason, made Su Yi's heart felt cold like it was covered in a layer of frost while the vigor in his body also unknowingly started to surge.

What are you looking at? The young girl spoke as she stared at Su Yi. Her eyes had a smile on them, yet, for no reason, it made Su Yi's heart covered in frost. Her lips, were as though it was smiling and talking sweetly, while her long hair fell straight onto her tiny waist as it moved along with the wind, spreading a special redolence like an elf that was left behind on this ancient canyon.

Because you are good looking. Su Yi replied as it was admittedly the truth. Although this little girl might not win against Liu Rou Xi and Bai Ling in terms of looks, the temperament on her body and that unknown smell were incredibly impactful which, could not be forgotten once you had seen it.

Really? I also think that I am good looking.

The young girl faintly beamed with a smile that could overturn a city.

Bang!

The moment the young girl smiled, a mysterious force surged as her foot stepped down. Abruptly, the wall of the cliff collapsed as the crack spread, and the surrounding rocks were like a flash flood as they rushed down towards Su Yi with a rumbling sound.

All of this had happened too suddenly. The surrounding mountain rocks, with the lightest one being around 5 kilograms, and the larger huge rocks weighed around hundreds or even thousands of kilograms. There was also no lack of enormous boulders weighing tens of thousands of kilograms rolling down.

The young girl standing on top of the cliff had stomped a foot down to make the mountain wall collapsed, trying to directly smash Su Yi into falling, which had also proved that the young girl was quite powerful.

F\*\*k, the most vicious is the woman's heart!

Su Yi did not think that at such a young age, the young girl would be so evil and poisonous.

Whoosh

The surrounding mountain wall collapsed as huge rocks rolled down. The momentum was extremely astonishing.

Su Yi did not have the time to care about the Green Xuan Grass as he quickly initiated the Hundred Transformation Steps. The Yuan Qi in his body surged as his figure was suddenly jumping around among the chaotic scenario.

Su Yi's figure speedily dodged, but even though he had evaded the large rocks, he still got smashed by many of the smaller ones.

Rumble rumble!

Disordered rocks rolled down. Su Yi was in a miserable state that even his cloak and mask had been smashed down and his body had sustained many hits.

If it wasn't because Su Yi's body was hard and Yuan Qi was protecting his body, he might be severely injured.

But even like this, Su Yi's hair was disheveled, and his face was brutally battered up.

At present, the young girl on top of the cliff had already impolitely harvested the Green Xuan Grass and was staring at Su Yi, who had been forced to fall down the cliff. Her gaze was strange.

She seemed to have paid attention to what had just happened and was surprised that Su Yi could unexpectedly easily dodge so many rocks that were rolling down.

When she saw Su Yi's cloak and mask that had been smashed down, the eyes of the young girl abruptly shone with a special light as she spoke: I didn't expect that I can meet you here. Yan Shang Yang, from the Black Fiend School, was killed by you right?

Su Yi had initially planned to find the young girl to reason with, but when he heard those words, his expression suddenly became tense.

It seemed like the Black Fiend School's bounty was great that even after going all the way to the Grand Beast Canyon yet, someone could still recognize him.

You got the wrong person.

As there might be a powerful cultivator from the Black Fiend School here, Su Yi did not want to attract more trouble nor did he intend to reason with the young girl anymore. It would be better to get away first.

I have seen your portrait before so how could I recognize wrongly? Reportedly, even with the Black Fiend School's rewards, you still can't be captured, and you have escaped several times. It looks like you also have some ability. The young girl lightly spoke as she firmly believed that he was the one. Her pair of eyes were curiously sizing up Su Yi.

I've said that you got the wrong person!

Su Yi shook his head. He did not want to be tangled up anymore and planned to leave.

Where are you going!

Seeing that Su Yi wanted to leave, the young girl arched her eyebrow as another foot stepped down.

This time, the girl had used an even bigger force as her Yuan Qi surged. A big piece of the cliff cracked, and the surrounding rocks rolled down with a rumbling sound as it covered the sky and ground, moving towards Su Yi like it was trying to submerge him.

Little bitch, I will get you for that! Su Yi was furious, this young girl was so young, yet her heart was cruel and merciless.

At this moment, Su Yi did not have the time to ponder too much as Yuan Qi surged under his feet, initiating the Hundred Transformation Steps to continuously, dodge the large rocks.

Ultimately, relying on the Hundred Transformation Steps and some luck, albeit in a state of misery, Su Yi finally rushed out of the rolling rocks range, but his face was even more battered up than before making him look more and more miserable.

Seems like his skill is not bad.

At the same time, the young girls figure moved like a ghost, appearing not far away from Su Yi. She stood on a large rock as she secretly sealed Su Yis path of retreat, her glance curiously sizing up Su Yi. For an unknown reason, her aura was fluctuating, causing people to tremble.

Oh ya, what does little bitch mean? The young girl asked as it was her first time hearing it but, she could guess that it must not be a good thing.

It means that you are very stunning. Su Yi angrily replied while he was wary in his heart.

This girl had a mysterious origin, and he was uncertain whether she had a powerful cultivator behind her or her actual power was that strong.

But no matter which one it was, Su Yi knew that both of them were disadvantageous to him.

Really? How come I dont believe it? Then are you a little bitch? The young girls eyes looked as though she was harmless as she earnestly glanced towards Su Yi and asked.

Su Yi was stunned, this little girl wanted him to join in to scold himself. He immediately replied in an angry tone, scolding her: You are the little bitch, your whole family is a little bitch!

Sure enough, it is nothing good, looks like I have to teach you a lesson. Since you can kill Yan Shang Yang, your strength should be quite good.

Chapter 144: Brutally Ransacked!

The young girl looked at Su Yi as the expression on her beautiful; slim and youthful exquisite face became chilly. Gradually, a strong fluctuation burst out as a scary aura came surging forward like a wave.

Su Yis face also became dark as his eyes grew sharper. Since it was unavoidable, he should give it his best shot.

The young lady did not appear to be old. As a man and even a reincarnated man at that, could it be that he really could not win against a little girl in a fight?!

I will let you make the first move, just so, you cant claim that I have bullied you!

The young lady glanced at Su Yi who at the moment, his hair was in a mess and his face smashed up badly. She appeared to be generous and wanted to have a fair fight, therefore she urged Su Yi to make the first move so she would not be taking advantage of him.

Su Yi did not make a move as he was on alert. This little girl was very odd, and her real motive was unknown.

What are you waiting? If I make a move, you might not have the strength to strike back anymore. The young lady glanced at Su Yi and said seriously. But in her eyes was an intentional or unintentional expression along with disdain and arrogance.

Little bitch, there are no ill feelings or any form of relationship between us. I no longer want the Green Xuan Grass, so why must we fight? If you keep on creating trouble, aren't you worried that in the future when you grow older, no man will want you? Su Yi's face was dark and his expression was unsightly.

The young lady stood on the rock with a shocked face. On the face, that could overturn a city or a country, was a dazed expression. What did the brat in front of her say a second ago? He had dared to actually, look downed and criticized her.

You are the little bitch. How dare you lecture me!

The young lady could not tolerate it any longer as her Yuan Qi surged and shook the ground. The beautiful figure that looked as if a gust of wind could knock her over unknowingly actually contained such mighty force that it swept off the surrounding sand along with the rocks. A crimson light was surging, giving off a blazing heat. Immediately after, she charged towards Su Yi.

The young lady was mad. No one had ever ridiculed her before, yet the brat had dared to say that no man would ever want her in the future.

In her heart, unless the man was like her father, there will be no man in the world that was compatible with her.

Allow me to see if you have the capability to kill Yan Shang Yang!

The young lady tenderly yelled. In a second, she leaped from the rock and the crimson aura, like a great wave with its shockingly blazing heat, instantly blew towards Su Yi.

In a short moment, the young lady's figure arrived in front of Su Yi. Her five long and slim fingers clenched into a fist, as it wrapped around the fire element Yuan Qi and directly detonated it towards Su Yi.

The fist was very robust, carrying along with a windstorm of blazing heat. The surrounding sand with rocks was blown away as dust filled the air, and many crushed rocks flew away.

So fast and powerful!

Su Yi was perplexed. The young lady was young, yet her power was very mighty.

Since it was unavoidable, Su Yi did not retreat and prepared to contend against it. The Yuan Qi in his body surged, making his messy black hair fly all over his head. The badly smashed up face that looked pathetic, for no reason, suddenly became more attractive as a mighty and frenzy aura seeped out.

Overlords Fist!

Knowing how powerful the young lady was, Su Yi did not dare to be careless. With a shout in his heart, he initiated the Overlords Fist.

Su Yi raised his arm, giving it a shake and clenched his fist tightly. In that fist, contained a frightening Yuan Qi energy like a volcano that was erupting, giving off brilliant rays of lights. His fist seemed to have inflated as a cleared wind and thunder rang through like a thunderclap rumbling, bringing with it a feeling as if a king had awoken to descend, producing a tremendous pressure that reverberated throughout.

The next moment, both of the fists clashed. Ripples were felt in the surroundings as peculiar violent energy exploded between the two fists.

Boom! Boom!

Strong and massive winds formed waves like a wind storm and directly fired over.

The strong wind swept by emitting a shockingly deep and loud sound as if a frightening thunder was blasting.

Pat! Pat!

After the attack, Su Yi staggered and moved dozens of steps back. The gravel beneath his feet was, also crushed into powder.

As for the young lady, she only went back a step. But, her eyes revealed that she was astonished.

Immediately, the young lady's eyes were instantly wide opened as she stepped forward. Her figure was moving very fast as her slender hand was forming a hand seal bringing along ripples of Yuan Qi as it quickly intertwined and shot out.

Seeing that the young lady had once again charged forward while his body was still unstable, Su Yi was unable to avoid it once more.

But he had never once been afraid. Beneath the sword-like eyebrows, his eyes glowed as an unknown crimson light surged out with an arrogant and mighty aura that was getting stronger and stronger.

The young lady seemed to have felt something weird as the aura spread, causing her expression to secretly changed.

However, the movement in the young lady's hands had never once stopped. A hand seal was formed, giving out a glow like a flame that was burning, directly shooting towards Su Yi's chest.

Su Yi's expression did not change as he quickly took action. The fire element exploded out as if there was a flame on the hand seal like the former.

A blazing heat was felt on the surrounding of the hand seal as though the surrounding air was burning up, making people's skin burnt and burst into goosebumps!

Crimson Flame Palm!

Su Yi also greeted it with a palm.

Boom!

The two palms clashed once again causing a muffled sound to suddenly, exploded out.

Whoosh

An enormous and blazing hot airflow was compressed and then inflated as it exploded like a bomb. An aura as if a small volcano that was erupting exploded out and the airflow was like a small tornado; billowing through.

Boom

This time, Su Yi was even worse. The powerful surging of the blazing heat directly sent his body flying away.

Puh

Seemingly because of the weight of the 500-kilogram broken sword, he crashed onto the ground less than a foot away. The blood in his body surged, and he uncontrollably spat out blood.

So you are only at the Yuan Soul Realm!

The young lady knew of Su Yi's cultivation as Su Yi had gone all out, releasing all of his Yuan Soul Realm Ninth Grades aura.

The moment the words descended, the young lady's expression did not change as a teasing smile appeared. She then instantly arrived beside Su Yi.

The young lady quickly took action. Her hand seal changed, giving out a brilliant light and blazing aura as numerous rays of lights quickly caged Su Yi.

Whoosh whoosh

As multiple lights landed, the Yuan Qi in Su Yi's body suddenly straggled. Without waiting for him to react, he was already caged up.

Brat, was Yan Shang Yang, really killed by you? It seems dubious!

The young lady was suspicious as Yan Shang Yang's strength did not appear to be so weak.

I already said I'm not. Su Yi said as he felt wronged. But at this moment, he could only act like a coward since he did not have any other alternative plans after being caught by her.

Since you are so dishonest, you should not be any good person. Yan Shang Yang could not be arrogant forever and might, possibly be slain by you. The young lady said with her sole judgment, not trusting in any of Su Yi's words.

Then what do you want to do? Su Yi felt extremely wronged.

Don't worry. Today my mood is good, so I will not kill you.

The young lady replied seriously yet at the same time, on the face that could overturn a city or a country, and her innocent eyes, a cunning expression swept past. She lowered her body and searched Su Yi's body, taking out all of the interspatial bags.

Wow, so many interspatial bags. Sure enough, you are not a good person. This will be deemed, as enforcing justice on behalf of the Heaven and helping the people to get rid of evil on my part.

The young lady was surprised to discover that there were so many interspatial bags on Su Yi's body.

Chapter 145: The Strange Radish

With so many interspatial bags, it was evident that not all of them could be Su Yi's.

As this was the Forest of Demons, everyone could know where these interspatial bags originated.

The young lady had a serious; compassionate face of a female bodhisattva as she impolitely took all the interspatial bags from Su Yi into her arms.

After that, she gazed at Su Yi with a serious face as she declared: I've sealed up your meridians and it will automatically release in a day or two. Unless you meet up with some beasts, you should be able to survive. If not, it will be regarded as the Heaven, seeking out to destroy you and I also can't save you. It all solely depends on whether you are a good person or a bad person.

The words descended and with a smile in her eyes, she swaggeringly walked away with satisfaction.

You better not fall into my hands or let me encounter you again

Su Yi yelled furiously. How could the young lady be so shameless and even act so serious shamelessly?

The young lady completely disregarded Su Yi as her figure gradually vanished from his eyes while he was lying on the ground.

Su Yi was helpless as she had subjugated him. Although within his mysterious space were several powerful beasts, he did not have the chance to summon them out.

Now that Su Yi was restricted and caged, he could not summon the mysterious space out anymore.

Rumble

Seeing that the young lady had indeed left, he initiated the Supreme Chaotic Yuan Technique to start assaulting the restriction in his body. Previously, when he was at the Black Fiend Schools mine, it was also the same situation thus Su Yi knew what to do to release the restriction.

It was only that at the moment, he still required some time to break open the restriction.

The time slowly passed by as the surrounding quieted down.

It was as if nothing had happened before, apart from Su Yi who was laying on the ground trying to assault the restriction in his body.

Su Yi felt very wronged and heartache.

All of the interspatial bags with him were ransacked by the young lady including the one with the leftover Yuan Stones, that he had gotten from Ling Bao Pavilion not long ago.

Those Yuan Stones, Su Yi was unwilling to let the mysterious space absorb it as he wanted to keep them by his side, in case there was a demand for it.

If he knew that it would end up like this, he would have allowed the mysterious space to absorb it.

Su Yi's heart felt even more painful when he thought about it.

All along, it had been Su Yi robbing others risking his life to accumulate this wealth.

But now the wealth that he had accumulated was robbed by others.

And it was even robbed by a little girl. Su Yi was getting angrier the more he thought about it.

Little girl, if I ever meet you again, your daddy, I must strip you off and feed you to the beasts. Su Yi grumbled in his heart.

But thinking back, Su Yi suddenly realized, why must he strip her to feed the beasts when he could feed her to them without disrobing her.

Strip her so that I can vent my rage. Su Yi grumbled bitterly in his heart.

During the night, the moon hung in the sky, lighting up the area. Occasionally roars from the beasts could be heard.

Crack

Under the Supreme Chaotic Yuan Technique, the last strand of the restriction was finally broken through. Su Yi's eyes slightly moved as he momentarily struggled to get up.

Su Yi did not dare to linger as he rapidly left the place.

Half an hour later, within a continuous chain of mountains.

In an inconspicuous mountain, Su Yi was at a natural mountain cave summoning the mysterious space out.

Luckily, he had placed all of the elixirs into the mysterious space to intensify their potency. He ate a recovery elixir and sat cross-legged, beginning to absorb the medicinal power to start healing his injuries.

Inside the mysterious space, several beasts were still self-cultivating with lights twinkling on their bodies.

Time leisurely passed by to late at night.

With nobody around to witness, right beside Su Yi's mountain, a crack on the ground suddenly popped out.

Silently, a green-red glow spread out.

The glow flickered as a soft green-red glow jumped out from the crack onto the ground.

The glow was about the size of a baby. Examining closely, it was unexpectedly a big radish.

Strictly speaking, it was not a radish, but it looked too similar to it.

The object was in a shape like a radish with its roots full of dense whiskers that were also giving out a green-red color.

On top of its head were a few crystal-cleared, palm-sized green leaves.

At present, such a radish had emerged on top of the mountain where Su Yi was recovering.

The object was glowing with light as it seemed to reveal two eyes that were carefully exploring its surroundings.

All of this was just too weird!

If Su Yi, who was now recovering inside the mountain, in the mysterious space was to see this walking radish; that was walking right by the mountain beside his, he would undoubtedly jump up in surprise.

The radish appeared and looked at the moon in the sky. The green leaves on its head stretched out, absorbing the moonlight as if it was absorbing the spirit from the Heaven.

Moments later, there was a glow within the radish's eyes, which seemed like it was anticipating for something.

Not long after in the clear sky at the front, a black cloud suddenly permeated.

The black cloud spread out quietly covering up the moon, making the earth fall into darkness.

The moment the black cloud appeared, a dignified and trepidation showed up in the radish's eyes.

Rumble

All of a sudden above the clear sky, a tremor spread unknowingly.

At this moment, the beasts from the surrounding mountain seemed to have felt something, as the thousands of beasts suddenly became quiet. Silence filled up the air.

The whole atmosphere on the earth at this instant became suppressed.

Swish swish

Also, at this moment in several places within the Grand Beast Canyon, numerous figures stared at the clear sky almost at the same time.

High above in the sky, the black cloud was getting denser as it was converging towards a place.

What is happening?

Such a strong might!

Under the pressure of such a frightening might, more and more gazes glanced towards the clear sky.

That formless pressure of a frightening might caused people's souls to uncontrollably tremble.

Swish swish

All of the people's gazes involuntarily looked towards the clear sky.

At present, above the clear sky, the thick black cloud was vast and mighty. Suddenly, out of nowhere, a massive thundercloud emerged.

Crack

The thundercloud swelled. The lightning flashed as it brightened up the darkened world.

Suddenly the entire sky was forcefully split open as a striking thundercloud took its place.

The thundercloud was different from a normal thundercloud, having a powerful kind of thunder-like raging force as it spreads out.

That force, in an instant, made the entire world humans and beasts' hearts throbbed as chills went down their backs and inside their hearts.

Thundercloud, why would a thundercloud appear?

What is going on?

Inside the Grand Beast Canyon, many gazes trembled because of the sudden appearance of the thundercloud as they were frightened.

They gaze up at the clear sky while their bodies were shaking.

At a cliff, an old man in his 60s was holding a wine gourd. His body was skinny, yet he stood tall and straight. His neck filled with deep wrinkles that stacked together. The loose black robe moved along with the wind while a pair of brown eyes that were sunken into the eye sockets were watching the far away thunderclouds on the clear sky as they were shining.

#### Chapter 146: The First Tribulation

Inside a valley, a bunch of Taihang Sect disciples was startled as they stared at the distant clear sky. Their expressions greatly changed.

It finally showed up. Bi Zhang Qian stood with his hands clasped behind his back. His figure was slender and tall while the long hair that touched his shoulders slightly moved under the night breeze. The lightning from far away kept flashing, which added a touch of sharpness to his appearance.

On a broken cliff.

At the distant hazy chain of mountains, under the flashes of lightning, the mountains seemed to appear and disappear.

Dozens of figures showed up at the broken cliff with auras that were swift and fierce. Among them were the Black Fiend Schools High Elder Bai and High Elder Yu.

You finally couldn't hide anymore huh, Blood Spiritual Ginseng!, A black-clothed elder with a hawk-like nose, broad forehead and skin as white as a lady, stared at the faraway lightning while his eyes sparkled with a fierce glint.

On the cliff, far away from the lightning flashes, the air was filled with an unusual kind of bloody atmosphere that was very horrifying.

Several figures stood there as a seemingly bloody radiance began to glow on their bodies. For no apparent reason, there were horrifying murderous auras in the air.

It has shown up A middle-aged man wearing a dark red robe with his black hair touching his shoulders spoke softly. His eyes that were watching the sky were shining with a slightly bloody glow.

At the top of a mountain, several gigantic flying beasts landed on a sky-high tree at a mountain peak. Their fearsome eyes resembled a brass bell, but for unexplained reasons, at present, their bodies were shivering as if they were cold.

However, there were also dozens of figures standing on top of the mountain. The formless auras that they released were fierce, making the surrounding air suddenly tensed up.

I can't wait to find out who will get the Blood Spiritual Ginseng in the end! Someone responded in a bright voice.

On a mountain peak, several figures stood tall.

Standing in the front was a figure wearing a cloak on her head and a white veil as a mask, with a lilac dress that outlined her elegant physique incisively.

Behind the figure was a man in his 50s in regular clothing, whose black hair was bald halfway, which was very eye-catching.

There was also another figure in the 50s. It was a woman in a plain dress.

The woman was wearing a hairpin in her hair with some wrinkles on her face. She was also standing quietly behind the astounding figure that was wearing a cloak on her head and a white veil as a mask.

If presently Su Yi was here, he would unmistakably recognize them.

These people were from the Ling Bao Pavilion. Deacon Wu was amongst them and the one standing at the front was, the lady called Lan Chuolian.

The Blood Spiritual Ginseng had indeed appeared. This is only the First Tribulation correct? Lan Chuolian said while slightly raising her head. Her waist-long hair that was touching her soft boneless-like waist was very enchanting.

Correct, this is the First Tribulation. But the beasts that can succeed are not many, not to mention the Blood Spiritual Ginseng, this kind of Heavenly Spiritual Being, it is even harder for it. The woman in plain dress replied.

It seems like the way Heaven treats the beasts, and Heavenly Spiritual Beings are unfair. Deacon Wu responded softly.

Deacon Wu is wrong. Lan Chuolian smiled lightly and stated: Whether it is a beast or a Heavenly Spiritual Being although, when it reaches the Demonic Void Realm they are obliged to undergo the tribulation, once they succeed, they will be stronger than a human on the same cultivation. In this world of the cycle of heaven path, whenever a being that defies the heaven appears, it will naturally lure the tribulation of destruction. If it can pass the trial, it will be able to continue to exist in this world. If it cannot pass the trial, then it will vanish into thin air. We, humans, are also the same. Rumors have it that to become a truly powerful cultivator, we must likewise, pass the tribulation! Fairy Maiden is correct. Deacon Wu bitterly smiled, no wonder there were rumors in the pavilion that this Fairy Maiden was different from the rest which was true.

Seems like their hands should be itching, right? The woman in plain dress asked while looking at the surroundings.

Even though this is the First Tribulation of the Blood Spiritual Ginseng, nobody will be intervening as they do not dare to bear the consequences. Im afraid once the tribulation ends, it is going to be very lively. Lan Chuolian answered. Whenever a tribulation appeared, nobody would dare to stay close because if they were to arouse the wrath of the tribulation, they are giving themselves a big problem.

Disrupting the tribulation was the same as defying the laws of Heaven and might lure an even more frightening tribulation to come.

Crackle On top of the mountain, the gathering thunderclouds were getting thicker and thicker.

The body of the radish was starting to give out a green-red light as a mighty power exploded out, covering its body in a glow.

Rumble! The green-red radish stood tall with its head held high, the green leaves on its head suddenly spread open as if it was showing the lightning its unwillingness and defiance while a tremendous amount of energy filled its entire body. The side of its body revealed a red light, yet its body had the smell of an herb that would make peoples mouth waters when they smelled it.

Rumble! In an instant, between the thunderclouds, a bolt of blinding lightning was gathered, and as though it was connected to the heaven and earth, it struck directly onto the green-red radish with boundless terror!

That was the tribulation. Unlike any ordinary lightning, this was the punishment sent down from Heaven to the earth!

Rumble rumble It did not stop there. With the radish as the center, the outburst from the lightning was vigorous and limitless as it came from everywhere, surging crazily and descending crazily!

What is happening there? Its too terrifying! Far away, a lot of gazes were watching this horrifying scene for the first time. All of them were unbelievably shocked.

The scene was too shocking. Under the majestic aura of the lightning along with an earth-shattering pressure, it was as if, trying to destroy everything.

Even though the people were far away from the clear sky, all of them felt pressurized and couldnt breathe at that moment.

Is this the tribulation of the Blood Spiritual Ginseng? Its too scary! Far away at the Taihang Sects battle array, all of the disciples were raising their head peering at the frightening lightning as it fell. Their throats moved as they swallowed their saliva.

Rumble A big bolt of lightning landed as it caged around the surroundings, making the mountains around it explode, destroying everything.

A bolt of lightning, landed onto the body of the radish but the green leaves had blocked it.

The green leaves that seemed as though a gust of wind could knock them over, exploded with a strange power, that actually could defend continuously against the numerous frightening lightning.

At the top of the mountain, the rolling black cloud on the sky seemed to have been provoked as a bolt of frightening abnormal lightnings might suddenly surged through, charging up the entire sky!

Crack! Within a short moment on the sky, the rolling thundercloud suddenly shrank as a brilliant silver electric arc formed into a thunderbolt like a hole opening through the space as it blasted through the cloud decreasing towards the radish.

The shafts of the lightning were like a bunch of silver pythons as it stormed out from the thundercloud and tore open the space, carrying with it a frightening boom while heading towards the green-red radish, harshly blasting it down.

Whoosh! There was fear in the radishs eyes, but it did not back down as dense energy sipped out from its body, directly contending against the bolts of lightning.

Rumble! Under such lightning, an eye-catching electric awns suddenly spreads all over on the body of the white radish.

#### Chapter 147: Getting Struck by Lightning!

Far far away, in the Taihang Sects battle array.

Bi Lings eyes moved as her facial expression changed while staring at the distant empty sky. Even separated by such a long distance, she could still feel the horrifying and tremendous pressure. She

couldnt help but ask with a shocked expression: The tribulation is so frightening, can the Blood Spiritual Ginseng truly contend against it?

The Blood Spiritual Ginseng wants to overcome the tribulation and officially step into the Demonic Void Realm, which is defying the Heavens. Whether it is a human or a beast or even a Heavenly Spiritual Being, cultivation itself is an act of defying the Heaven. In the end, they must suffer the tribulations obstruction. If they can endure the series of tribulations, then they can continue to exist in this world. If they cannot endure it, they will merely vanish into thin air.

Bi Zhang Qian softly replied to Bi Ling while at the same time, informed the Taihang Sect disciples that were at his side with frightened expressions: At this moment, it is still the First Tribulation of the Blood Spiritual Ginseng. Although trying to overcome it is not easy, Heaven is still unprejudiced, giving it a trace of a chance. If it can endure the First Tribulation, the Blood Spiritual Ginseng will be able to advance a step further. Also, only by enduring this lightning tribulation will it be able to persist in this world, becoming a Blood Spiritual Ginseng of the Demonic Void Realm.

Elder Bi, how many types of tribulations are there? Us humans, powerful cultivators, at what stage do we have to pass the tribulation? Yi Yun curiously asked Bi Zhang Qian.

Bi Zhang Qian turned his head to glance at Yi Yun and replied: The First Tribulation only occurs when beasts and Heavenly Spiritual Beings step into the Demonic Void Realm and this is the first of the numerous tribulations. After stepping into the Demonic Void Realm, they will receive the care and protection of the Heaven and will be able to speak the human language.

Whereas when stepping into the Demonic Emperor Realm, beasts and Heavenly Spiritual Beings will face the second point of Changing Shape Tribulation.

After overcoming the Changing Shape Tribulation, beasts and Heavenly Spiritual Beings will officially become members of the Demon, and from then onwards, they can change into their human forms.

Only, whether if it is the First Tribulation or the Changing Shape Tribulation, just one out of hundreds of beasts and Heavenly Spiritual Beings, can overcome the tribulation.

If they fail, the lightest backlash is to have their cultivation fall back and wanting to advance a step further will be as difficult as ascending the sky. The worst is directly sustaining massive injuries or vanishing into thin air.

As for the tribulation of human cultivators, it is still too early for you guys to know.

If there is a day that you guys can walk until that step, you will naturally know how many tribulations you will need to overcome. The Taihang Sect will also take care of every preparation for your tribulation.

So it is like this

Yi Yun gazed up at the sky. If she had reached the step that required to overcome the tribulation, how frightening would her strength be?

Crackle!

Far away in the distant sky, the thundercloud had been crazily surging.

Between the rising wind and scudding clouds in the empty sky, the thick black cloud shrouded out of thin air bringing along with flashes of lightning and roars of thunder as a series of lightning struck down onto the radish's body.

At present, under the flashes of the blinding lightning and thunder roars, the entire space had once again silently become dim.

It was as if this piece of land had soundlessly sunk into darkness.

In the empty sky, a formless energy was fluctuating, causing the entire canyon to shake.

Crackle

Up in the sky within the thundercloud, a series of lightning continuously fell harshly onto the body of the green-red radish.

There were also several scattered lightning falling onto the ground of the surrounding mountain, destroying everything.

Rumble

Several mountain tops around were enclosed within. Mountains cracked and the ground split, rocking the earth as the chain of mountains came down in torrents and collapsed.

The momentum was as though annihilation and was extremely frightening!

Many cracks appeared on the body of the green-red radish as if it was going to split open. The green leaves on its head were also wrapped up by the blinding lightning while its leaves were no longer green as if it was burnt and had started to look withered.

Rumble

Another lightning landed and directly blown the radish away as it tumbled several times on the floor.

Crackle!

At this moment, a series of lightning successively struck down.

The aura of the lightning seemed to be getting stronger as numerous lightning immediately struck down again, causing the strange radish to get continually blown away.

Crackle!

The surrounding scattered lightning also directly caused the nearby mountain tops to crack and the ground to split as the big canyon instantly become flattened.

Whoosh!

The body of the green-red radish flashed with a glimmered of light, but its whole body was already wilting as the lightning became stronger and stronger, making it unmistakably hard to hang on.

Crackle!

Just when the green-red radish had still not recovered its strength, another lightning had struck down.

The lightning tore through the empty sky, making the surrounding rocks crack into pieces!

The radish was once again blown away and tumbled. Its whole body was extremely wilted like it was going to crack open at any time.

Boom

At this moment, no one had noticed that in the middle of the surging lightning that had been pouring down, a mountain that was destroyed by the lightning into a flat land, revealed a mysterious glow.

Under the obscured cover of the blinding light, a strong and compelling spiritual power spread as if separated from the world.

There were still scattered lightning that continued to fall, but when the light spread over, as though it could feel the lightning landing, its radiance abruptly grew bigger, letting out a brilliant crimson light.

Boom!

An arrogant and mighty aura like an unprovoked might of an emperor had abruptly exploded.

The scattered lightning seemed to have felt something as the blinding lightning, all of a sudden like it had intelligence, harshly broke the space to swerve, not daring to get close to that obscured cover of blinding light.

That was the heaven and earth lightning, the power of the First Tribulation.

That was capable of destroying everything, the lightning that substituted the Heavens to seek punishment!

However, at the moment when faced with that obscured cover of blinding light, it possessed a deep fear.

If someone was to witness this scene clearly, how shocked would that person be!

Crackle

The scattered lightning did not dare to land onto that obscured cover of blinding light, but it did not let go of the radish.

The thundercloud continued to surge towards the radish that was on its last breath and whose body was wilting and cracking, as it continued to strike with its terrifying and destructive might.

At this moment, the radish that looked like it had real eyes, glanced towards that mysterious obscured cover of blinding light as though it had seen a path of retreat like a life-saving straw in the middle of the sea.

It already had no other choice, and it could no longer continue to contend against the lightning or, it would vanish into thin air.

Swish

The radish promptly made a decision. While using all of its strength, the body of the radish gleamed, heading towards the mysterious obscured cover of blinding light and darted over.

Rumble

As if it could feel that the radish wanted to escape, the thundercloud in the sky surged even more violently.

Whoosh

A series of blinding lightning with a frightening aura headed towards the radish like a rainstorm.

Swish swish

The radish did not dare to stop as the lightning's aura behind its back made its heart quiver. It desperately darted towards the mysterious obscured cover of blinding light.

Bang bang bang

Numerous lightning landed onto the radish's body. In an extremely threatening situation, the radish managed to fall into the mysterious obscured cover of blinding light.

Crackle

The sky was full of brilliant lightning as it covered the mysterious light as though it felt unreconciled.

Chapter 148: A Strong Cultivator in the Yuan Emperor Realm?

Rumble!

Inside the mysterious light, a crimson glow surged through as a domineering destructive power gushed out like a warning roar!

Whoosh

The blinding lightning retreated, not daring to strike down.

Following that, the hair-raising power of the lightning just abruptly vanished within the empty sky.

The thundercloud in the sky had also started to dissipate.

Eh, does this mean it has succeeded?

It seems like it has passed!

Don't let the Blood Spiritual Ginseng run away again!

Far away in the surroundings, eyes began to glow in a blinding light.

Auras abruptly surged as several figures immediately flown to the sky.

Rumble

The rumbling of the thunder transmitted into his ears. Su Yi, who was presently refining the elixir to recover while meditating had no idea what was going on outside and urgently paused his meditation. When he opened his eyes, right in front of him, a disheartened radish had come in staggeringly.

This radish was too weird as its entire body was green-red with withered leaves on its head. There were roots on its body, and its body looked as if it was going to break into pieces at any moment.

Most importantly, this radish seemed to have a pair of eyes.

As Su Yi was staring at the radish that had charged in, the radish was also staring back at Su Yi.

They looked at each other as both of them were stunned and wary.

Blood Spiritual Ginseng!

Human!

Very quickly, Su Yi recognized that it was the Blood Spiritual Ginseng as it precisely resembled what he had visualized it to be.

At this moment, the disheartened Blood Spiritual Ginseng made Su Yi instantly recalled something.

Rumors had it that the Blood Spiritual Ginseng in the Grand Beast Canyon had already reached the Demonic Void Realm and many strong cultivators were coming for it.

It seemed like this was the Blood Spiritual Ginseng that everyone had been searching for.

Glancing at the condition of the Blood Spiritual Ginseng: disheartened, staggering and in a state that was too horrible to look at, it seemed that things were grave.

At the same time, the Blood Spiritual Ginseng also cried out in surprise as it had seemingly never imagined that inside this mysterious light would unexpectedly be a human.

Beasts

In an instant, the Blood Spiritual Ginseng felt that something was not right. Inside, not only was there a human right before its eyes, but there were also several beasts that were currently still cultivating.

Someone is coming, not good

Simultaneously, Su Yi felt that someone was coming over.

At present, he was still inside the mysterious space. Su Yi was positive that nothing on his body could compare to this mysterious space.

The mysterious space was very significant to him as it was a treasure amongst the treasures. He must not let anyone find out about it.

He did not have the time to care about the Blood Spiritual Ginseng now since, anyway, the Blood Spiritual Ginseng seemed to have charged into his mysterious space on its own volition, so he would care about it later when he had the time.

Immediately, Su Yi directly kept the mysterious space away, and his figure emerged on the outside.

When glancing at the disastrous scene outside where the chain of mountains had collapsed with cracks on the ground everywhere and the remainder of the lightnings aura that had not yet faded in the sky, Su Yi was somewhat dumbfounded. It seemed that lightning had struck here not long ago.

Swish swish

A few moments after Su Yi had kept the mysterious space, a wind separating sound reverberated from the empty sky in the surroundings.

Su Yi raised his eyes and looked over. Under the moonlight, many figures appeared in the surroundings.

Rumble

In an instant, several strong presences descended and unknowingly suppressed the empty sky with a brilliant light.

Under these several presences, it made Su Yi unbearably felt like bending down and kneeling as it was very overpowering. It was a might that came from the high realms.

The Yuan Qi in his body surged, allowing Su Yi to stand tall with a proud and unyielding character as he raised his eyes to look at the surrounding empty sky.

On the empty sky in the surroundings, several figures came and marched on the air as they did not condense Yuan Qi into a bird.

Revealing that these people must be at least in the Yuan Void Realm.

Su Yi had seen a strong cultivator in the Yuan Void Realm before but compared to the auras when he had first met High Elder Bai and High Elder Bi from the Black Fiend School, and the mysterious girl, these several people in front of him seemed to be much more powerful.

A middle-aged man with a slender and tall figure, handsome features and long hair that touched his shoulders scanned the surroundings with grave and sharp eyes before finally landing onto Su Yi.

A black-clothed elder with a hawk-like nose, broad forehead and skin as white as a lady, also looked towards Su Yi and sized him up after scanning the surroundings with a sharp glint in his eyes.

A middle-aged man wearing a dark red robe with his black hair touching his shoulders glanced towards Su Yi with a faint bloody glow shining in his eyes as though wanting to see through Su Yi.

Roar

An elder in his fifties sat on a beast that resembled a lion and a tiger with yellow scales throughout its body, causing his momentum to be more fearsome, was also sizing up Su Yi.

Later, Su Yi could also see a familiar figure holding onto a big wine gourd as he stood on the air, standing far away from the crowd.

The figure was in his sixties, skinny yet stood tall and straight while wearing a loose black robe with a pair of brown eyes that were sunken into his eye sockets.

At the moment, the elder glanced at Su Yi's figure as a shocked expression secretly swept through the elder's eyes that were sunken into the eye sockets.

It's him.

Su Yi was secretly bewildered. That elder was precisely the old man from that night who had insisted Su Yi to accompany him to drink wine. As expected, he was also a terrifyingly strong cultivator.

Are all of them in the Yuan Emperor Realm?!

Su Yi shockingly guessed in his heart as compared to sensing the auras from these people to the people from the Yuan Void Realm that he had met before, these people were indistinctly much more powerful than them, giving off an even menacing feeling.

Could it be that all these people were a powerful cultivator in the legendary Yuan Emperor Realm?!

Brat, where is the Blood Spiritual Ginseng?

The black-clothed elder with a hawk-like nose and a broad forehead spoke faintly first.

What Blood Spiritual Ginseng? I have no idea. Su Yi shook his head. These people had indeed come for the Blood Spiritual Ginseng.

The Blood Spiritual Ginseng had faced the tribulation here, and you are here too. How could you not know?

The black-clothed elder coldly glared at Su Yi as he asked. A cold light sipped out from his eyes as his aura unknowingly pressurized and caged Su Yi.

I was spending the night here when all of a sudden, the lightning appeared and destroyed everything. I narrowly escaped from death and did not see any Blood Spiritual Ginseng. If you don't believe me, you guys can search my body.

Su Yi replied, knowing the motive of these people.

All of them were unquestionably fearsome and powerful cultivators. If they wanted to deal with him, it would be easier than squashing an ant.

But at the moment, the Blood Spiritual Ginseng was inside the mysterious space. Even if it was for the mysterious space, Su Yi knew he could not expose it.

Really

The black-clothed elder coldly replied as his aura surged. At the same time, when the words resounded, his figure had disappeared from the spot.

Then, I will search!

When the last word landed, the voice had already transmitted from around Su Yi's ear.

Crack

The black-clothed elder, that had disappeared a moment ago, appeared right before Su Yi as a freezing light sipped out from one of his hands grabbing towards Su Yi.

Chapter 149: Xue Shou!

A bone-chilling aura had also erupted.

Too strong!

Su Yi wanted to retreat, but at the moment, he was detained under the aura as if the surrounding air, was frozen causing his Yuan Qi to stagnate, and his entire body unable to move.

Is this the strength of the Yuan Emperor Realm?!

Su Yi's heart was shocked. Within the time taken to raise a hand, the elder had already detained him. The Yuan Emperor Realm was so powerful that Su Yi did not even have the strength to resist.

Hei Ming, the Black Fiend School should not be too overbearing. Don't hurt the kid since we still need to interrogate him. At the same time, a voice had also sounded from around Su Yi's ears.

Chi

A figure appeared behind Su Yi. Under the moonlight, an unusual fog spread around Su Yi with a bloody color.

In an instant, the detainment around Su Yi abruptly vanished.

At the same moment, a palm print landed on Su Yi's shoulder, and an indistinct power pulled Su Yi backward.

The black-clothed elder suddenly raised his head, and his expression instantly turned chilly when his hand landed on nothing. His figure stagnated as he faintly said in a chilling tone: Xue Shou, what is the meaning of this, Blood God Sect?!

Nothing, I'm just afraid that you will hurt this kid as we still need to interrogate him on the whereabouts of the Blood Spiritual Ginseng.

The voice then transmitted into Su Yi's ear and immediately asked: Kid, did you truly not see the Blood Spiritual Ginseng?

Su Yi finally realized what was happening and abruptly turned his head. Before him, a middle-aged man emerged wearing a dark red long robe with black hair touching his shoulders.

The Black Fiend School and the Blood God Sect!

At this time, Su Yi's heart was immensely shocked. That black-clothed elder was a powerful cultivator from the Black Fiend School, and the person behind him was from the Blood God Sect which similarly, was also one of the top three powers in the Forest of Demons.

What I said is the truth, I have never seen the Blood Spiritual Ginseng. Su Yi shook his head as his expression revealed nothing and his gaze firmed.

The issue of the Blood Spiritual Ginseng was small, but if the mysterious space was exposed, there would be a big calamity. The matter of the mysterious space must not be laid bare.

Xue Shou, you will search that kid and see whether or not the Blood Spiritual Ginseng is on his body. At the top of the empty sky, an elder in his fifties sat on a ferocious beast that resembled a lion and a tiger with yellow scales throughout its body, lightly swept his glance across Su Yi's body.

The mysterious old man who was holding onto the wine gourd was still standing far away on the empty sky, lightly watching as things unfolded. Inside those pair of brown eyes, there were no fluctuations.

Although the old man stood far away, Xue Shou, Hei Ming and the rest had already sized him up and were secretly wary of him.

Bi Zhang Qian also did not have much reaction when watching the situation unfold. He was scanning the surroundings, seemingly trying to see if there were any clues.

Kid, since you refuse to say anything, I can only search you.

The middle-aged man called Xue Shou by the black-clothed elder, declared as a faint bloody glow shone in his eyes, watching Su Yi like he was trying to see through him.

Without waiting for Su Yi's reply, Xue Shou directly searched Su Yi's body.

Su Yi did not dare to resist, and he also could not resist back.

In front of a group of strong cultivators, he was just like an ant in front of an elephant.

I need to become stronger!

At this moment, the blood inside Su Yi's body was surging. If he had been strong, then these so-called powerful cultivators would not have dared to be so unscrupulous in front of him and search his body.

However, right now, he was still too weak as he was only just an ant to them.

Not to mention the fact that they did not need to put him in their hearts, they did not even put him in their eyes.

At this moment, the desire in Su Yi's heart to become stronger had reached the peak.

Nothing.

Very quickly, Xue Shou shook his head as he had found nothing on Su Yi's body.

With Xue Shou's cultivation, Su Yi would not be able to hide anything on his body.

Xue Shou also did not discover any interspatial bags as coincidentally, all of the interspatial bags on Su Yi had been, ransacked by that young girl.

Seeing that Xue Shou shook his head, everyone around did not seem to feel that much letdown.

Everyone could see that this was only a small rookie. Even if he did meet the Blood Spiritual Ginseng, it was impossible for him to catch it.

Evidently, like what he had mentioned before, he was coincidentally in the area and had been affected by the Blood Spiritual Ginseng's First Tribulation. Looking at his miserable appearance, it did seem like he had narrowly escaped death by luck.

Whoosh whoosh

Howl!

From the surrounding empty skies, several figures once again rushed here.

Some had Yuan Qi under their feet condensed into a ferocious bird.

Some directly charged and stepped onto the air to rush here. There were also people who rushed here on a ferocious beast mount.

At a particular line-up, there was a large vessel giving off light as it glowed. The ship had a mysterious pattern inscribed on it as it flew on the empty sky with numerous young disciples standing on it, curiously glancing over.

The line-up landed right behind Xue Shou, Hei Ming and the elder in his fifties who was sitting on a ferocious beast that resembled a lion and a tiger with yellow scales throughout its body.

When some of the figures came forward, Su Yi swept his glance across them. His expression once again changed.

Su Yi discovered several familiar faces. On that airship was exactly Bi Ling, Yi Yun, Zhou Da, Wu Qingfeng and Guo Yan.

All of them had also instantly recognized Su Yi.

Enemies often crossed each other's path. Abruptly within the eyes of Wu Qingfeng, Zhou Da and Guo Yan, a fire burned as they fiercely glared at Su Yi.

Then, all of a sudden, Su Yi felt another sharp glance landed on him.

Following that glance, Su Yi abruptly looked over and saw two familiar figures that were no strangers to him. It was precisely High Elder Bai and High Elder Yu from the Black Fiend School who he had met in the beginning. Enemies indeed often crossed each others path.

Glancing at Su Yi, their eyes became chilled. Following that, High Elder Bai and High Elder Yu stood next to Hei Ming and whispered something into his ear.

Go and search! That Blood Spiritual Ginseng must still be around this area. It cannot escape from our grasp! The elder in his fifties who was sitting on a ferocious beast that resembled a lion and a tiger shouted as finding the Blood Spiritual Ginseng was much more critical.

Xue Shou, Bi Zhang Qian and the rest also planned to leave as the Blood Spiritual Ginseng should still be around the area.

Brat, indeed tearing through iron shoes to hunt when all the time its easy to be found! It turns out you had run into the Grand Beast Canyon. Come follow me!

Hei Mings glance fixed onto Su Yi as a frosty cold chill sipped out from his eyes.

He had almost missed Su Yi. Tearing through iron shoes to hunt with no result but, unexpectedly, he was right before them. Hei Ming had found it strange that why would a kid like this show up in the Grand Beast Canyon. It turned out that it was this brat.

Hearing Hei Mings words, Xue Shou, Bi Zhang Qian and the rest that were leaving, abruptly paused their steps.

Hei Ming, I have already searched that kid. Do you not believe me? Xue Shou coldly stated. He had already searched that person, yet, Hei Ming did not want to let him go. No doubt, this was slapping him in the face for not believing in him.

Xue Shou, this has nothing to do with you. This brat is the one who had killed my Black Fiend Schools young master!

Hei Mings voice was faint and deep. His gaze intentionally or unintentionally swept across the surroundings like he was warning all of the people as he shouted: Today I must bring back this brat. Whoever dares to intervene, will become my Black Fiend Schools enemy!

Chapter 150: Are you willing to be my disciple?

Many gazes abruptly landed on Su Yi as they curiously sized him up.

The news about the Black Fiend Schools young master, was killed by someone had already been spread around massively even to the outside of the Forest of Demons.

It turned out that it was unexpectedly this young man before them who had killed the Black Fiend Schools young master.

Su Yis expression also became dark as everything that he had feared, actually happened, even meeting up with the people from the Black Fiend School.

High Elder Bai and High Elder Yu were already strong cultivators in the Yuan Xuan Realm whereas Hei Ming was even more terrifying.

Su Yi estimated that today, he would be fraught with grim possibilities.

Risk it!

At this point, Su Yi had no plans of getting caught by them.

Since this was unavoidable and that there were no ways to escape, he could only risk it.

Although Su Yi knew that pitting with his strength against those strong cultivators from the Black Fiend School was like using an egg to hit a rock, however, even if the light from a firefly could not be compared to the moon, at least it could still glow.

Among the Taihang Sects disciples, Bi Lings expression secretly changed. With a nervous feeling, the beautiful figure arrived beside Bi Zhang Qian and softly told him something, causing Bi Zhang Qians expression to quietly changed as he glanced towards Su Yi.

Brat, surrender yourself and come over here!

Hei Ming yelled as he watched Su Yi closely, while the contempt and disdain in his look had lessened.

He had received news from the Black Fiend School that there seemed to be a power on the brat that did not belong to him and had even caused Heijiu to suffer massive injuries, resulting in the brat to escape from Heijiu.

That person was indeed killed by me. Surrendering is out of the question as this young masters body will certainly object to it. If you have the capability, then come at me! Su Yi took a deep breath as the Yuan Qi in his body secretly surged. No matter what, he had to risk it.

Hehe, you are overestimating yourself! Hei Ming was secretly taken aback as the young man before his eyes that seemed to still be wet behind the ears, actually had seemingly not put him in his eyes. A touch of chilled sipped out from his eyes as he prepared to attack.

Please wait!

Bi Zhang Qians figure stepped out as his shout rang out, attracting the surrounding gazes causing Hei Mings expression to change secretly.

You must be from the Taihang Sect. Who are you? Hei Mings face was dark, as judging from the badge on the airship, he already recognized that it was the Taihang Sect.

As a sect from one of the top ten big powers, it was undoubtedly an enormous being. Even though the Forest of Demons was the heaven of the three powers, Hei Ming still had to be wary of the Taihang Sect.

Taihang Sect, Bi Zhang Qian!

Bi Zhang Qian spoke as he stepped out with an overbearing elegance.

Fast Wind Sword, Bi Zhang Qian!

Hearing this, some of the eyes in the area were secretly trembling.

The name of the person like the shadow of the tree, the name Fast Wind Sword, Bi Zhang Qian was very well-known.

Rumors had it that the Fast Wind Sword, Bi Zhang Qian, was the youngest Inner Elder that the Taihang Sect ever had in a thousand years, with unfathomable cultivation.

In the entire continent, Bi Zhang Qian was a very famous existence.

When he was young, he was able to move around unhindered, having unrivaled elegance and talent while leaving behind numerous prestige!

What does the Taihang Sect want? Hei Ming stared at Bi Zhang Qian as his darkened face twitched. Naturally, he had heard about the name, Fast Wind Sword, Bi Zhang Qian.

Bi Zhang Qian did not pay attention to Hei Ming as he glanced at Su Yi and asked: Is your name Yi Su?

Yes.

Su Yi glanced at Bi Zhang Qian and could see Bi Ling standing right by his side. There were already some guesses in his mind about what had happened.

Are you willing to join my Sect and become my disciple? Bi Zhang Qian spoke straight to the point as he asked while watching Su Yi.

From what he had heard from Bi Ling, that boy was extraordinary and had helped Bi Ling before, so he wanted to intervene and lend a helping hand to save the boy.

After hearing this, many people were surprised, including Wu Qingfeng, Zhuo Da, and the rest. If Elder Bi, genuinely going to accept that brat as his disciple, in the future when they were back at the Taihang Sect, it would be harder for them to seek revenge.

Hei Ming, High Elder Bai, High Elder Yu, and the rest, secretly twitched their eyes. It was evident that the Taihang Sect wanted to intervene.

Many thanks to the elders goodwill, this boy appreciates it. Su Yi was shocked but immediately shook his head as he grasped his fists and bowed with respect while answering Bi Zhang Qian.

Seeing that Su Yi shook his head, the old man that was holding a wine gourd while silently observing everything in a corner, secretly revealed a questioning expression in his eyes before regaining calmness.

Boy, do you know what it means to become my disciple and what it represents? At least when people want to attack you, they have to think about whether they can afford to offend the Taihang Sect! Bi Zhang Qian initially thought that the boy would, at this moment, definitely kowtow his head to express his gratitude and immediately greet him as his master.

And for the sake of his niece, Bi Ling, he would accept this disciple.

As long as it was really as what Bi Ling had said of having an above average talent, it would be fine.

But, that boy did not seem to hesitate much and directly rejected the offer. That made Bi Zhang Qian suspicious.

Thank you, senior.

Su Yi once again bowed. How could he not understand Bi Zhang Qian's goodwill? As long as he was to greet Bi Zhang Qian as his master, then he would be a disciple of the Taihang Sect.

Hence, those from the Black Fiend School that wanted to attack him would have to consider seriously, even if this was the territory of the Black Fiend School.

But Su Yi did not want to have a master in this way, neither did he want to die, since nobody would want to die as well.

However, once he accepted the offer, he would be joining the Taihang Sect.

Not to mention that Su Yi did not have any good impression of those powerful sects or schools, at least for Su Yi, he felt that by accepting such an offer, it was too cowardly.

Even if he was to have a master, it must be done openly and righteously.

Aren't you afraid of dying? Bi Zhang Qian observed Su Yi as he asked with a calm expression and a sharp voice, seemingly trying to see through Su Yi.

I am!

Su Yi nodded his head and lightly smiled. He then told Bi Zhang Qian in a neither haughty or humble tone: But for this boy, once a master will always be a father. Admitting a master is the same as recognizing a foster father. Naturally, recognizing someone as a father must not be done casually. Life can be forfeited, but recognizing someone as a father cannot be done negligently. If this boy does not die today, it is not impossible to greet senior as my master if there are still chances in the future.

After listening to Su Yi's words, Bi Zhang Qian was stunned. But immediately, with a smile on his face, he replied: What a nice Life can be forfeited, but recognizing someone as a father, cannot be done negligently. What a man of character. If you can survive through today, in the future you can come to the Taihang Sect to find me straight away.

Yi Su This fellow, how could you fail to see what's good for you!

Bi Ling stared at Su Yi. She did not know either why she wanted to help that fellow but seeing that he rejected her good intentions, she was momentarily furious on the delicate face of hers.

Many thanks to Lady Bi Ling!

Su Yi lightly smiled as he knew that this was Bi Ling's good intentions towards him.

The Taihang Sect should not go too overboard as this is the Forest of Demons, not the Taihang Mountain. Since the kid has rejected the Taihang Sect, then this has nothing to do with the Taihang Sect!

Hei Mings face was dark. Although he had to be wary of the Taihang Sect, this was still the domain within the Forest of Demons.

The ten big powers had always wanted to be a part of the Forest of Demons, but in all these years, they had not once succeeded.

Inside the Forest of Demons, it was still the power of the Black Fiend School, Raging Dragon Mercenary Alliance, and the Blood God Sect.
