

## Sky&Earth 151

Chapter 151: Deadly King of Hell, Xi Wu Qing!

Whatever my Taihang Sect wants to do, your Black Fiend School really cant do much about it. Bi Zhang Qian did not bother to read Hei Mings meaning.

Humph!

Hei Mings face was extremely dark, yet there was nothing he could have done as feeling Bi Zhang Qians aura, even him was not necessarily sure if he could defeat Bi Zhang Qian.

Brat, since you refused to toast, only to drink a forfeit, then I shall fulfill your wish!

Anyway, since that brat did not know how to appreciate favors and the Taihang Sect did not seem to have the intention of intervening, Hei Ming did not want to waste any more time and quickly took action once again against Su Yi as he still needed to chase after the Blood Spiritual Ginseng.

Crackle

With a movement akin to lightning, Hei Ming quickly struck. A black glow emitted from his right hand, turning into a frightful color. The black glow was intense yet brilliant as it instantly enveloped towards Su Yi.

Second Uncle

Bi Lings expression changed, her delicate face lost color as she seemingly wanted, her second uncle to intervene.

Bi Zhang Qians expression slightly moved, but he did not intervene. He had a good impression of the boy standing in front of him, only as the boy did not show even an ounce of fear on his face, it would be unsuitable for him to intervene and he also wanted to see what kind of strength the boy held.

Crackle

Hei Ming struck with his hand. The intense and brilliant black glow with an extremely frightening aura enveloped the vast void space.

A dignified Yuan Emperor Realm cultivator against a boy in the Yuan Soul realm. Isnt this a little too overboard?!

A faint yet old voice reverberated. The moment the words landed, a figure appeared like a ghost in front of Su Yi.

The incomer thrust out a palm that brought about an endless glow like a vast ocean as it slapped out.

A roaring aura vented out like an electric awn flashing in the surrounding as the radiance went through the clouds, soaring unhindered.

Boom!

Under such a clash of majestic auras, the surrounding huge rocks abruptly turned into powder.

There were electric arcs caused by Yuan Qi transforming into lightning scaling through the air, shocking peoples soul. The light was so bright that some people could not even open their eyes.

Rumble

The strong wind of energy blotted out the sky and covered the ground, making a deep hole on the flat ground due to the explosion. This kind of frightening collision was too shocking!

Su Yi could feel that his body was being pushed back violently, with the surrounding full of brilliant lights.

A mighty strong wind swept by, causing Su Yi's hair that was near his ear to be sliced off and his neck wounded as droplets of blood dripped down from the wound.

It was risky and dangerous. If it had been slanted by a little, that strong wind of energy would have pierced through Su Yi's throat.

But luckily, he had unknowingly evaded the attack. Someone bearing with a whiff of wine that spread through the air had saved Su Yi.

Without seeing the person, Su Yi had already figured out who it was that had saved him as the smell of wine was too familiar.

Pat pat

At present, Hei Ming's figure staggered backward for a total of ten steps before he could manage to stabilize his body. With a shocked expression, he blurted out: Who is it?

Senior

Su Yi also turned his head. At the moment, behind him was a familiar elder in his sixties holding a wine gourd drinking wine. The figure was skinny yet, stood tall and straight, the loose black robe slightly flapping. It was that mysterious old man he had met before.

Who I am is not important. A dignified Yuan Emperor Realm fighting against a boy in the Yuan Soul Realm is unpleasant to my eyes. The mysterious old man faintly remarked.

This is a person wanted by my Black Fiend School, if you dare to intervene then you can dream on, about getting out of the Forest of Demons!

Hei Ming glanced at the mysterious old man that had popped out of nowhere. There was some wariness on his face which had become darker.

All of the surrounding gazes were also sizing up this mysterious old man. Since he had dared to interfere into the Black Fiend Schools matter, that old man must have a strong background.

So what if it is the Black Fiend School, you at least still don't have the qualifications to be arrogant in front of me.

Suddenly, the mysterious old man glanced towards Hei Ming as his pair of brown eyes abruptly shone with light.

At the same time, the area around Hei Ming brightened up as a presence suddenly roared!

Boom!

The presence was huge. With the mysterious old man as the center, it was as if he was an emperor looking down on Hei Ming like he was his servant. The presence was surging, shocking people.

So strong!

The presence could be felt even from far away. The disciples from the Taihang Sect sucked in a cold breath as that presence was too strong.

Sir, could it be that you are Xi Wu Qing?

Blood God Sects Xue Shou slightly moved his eyes as he seemed to recall something. He secretly felt shocked as he softly questioned.

Xi Wu Qing!

When these three words spread, the peoples gazes at the scene had all changed.

Who is Xi Wu Qing?

Despite that, the disciples from the Taihang Sect only felt doubtful as they had no idea who Xi Wu Qing was.

Deadly King of Hell, Xi Wu Qing. You guys are still too young hence you dont recognize him. Twenty years ago, he was already a strong cultivator in the Yuan Emperor Realm, but he had suddenly retreated and disappeared without a trace. To think that we can meet him here. Bi Zhang Qian looked at Xi Wu Qing who was in front of him as ripples fluctuated in his sharp eyes.

Deadly King of Hell, Xi Wu Qing, is he truly that powerful? One of the disciples from the Taihang Sect asked. The name Deadly King of Hell did seem very powerful.

A strong cultivator in the Yuan Emperor Realm was indeed very powerful, but as a disciple from the Taihang Sect, he had seen many Yuan Emperor Realm cultivators before.

How could this Deadly King of Hell, Xi Wu Qing, be stronger than their Taihang Sects Yuan Emperor Realm experts?

Theres always a human beyond another human, a mountain beyond another mountain and a sky beyond another sky!

Bi Zhang Qian could see through what the disciple was contemplating as he said with a lecturing tone: Deadly King of Hell, Xi Wu Qing, is not only an Alchemist but also a Soul Tamer. Twenty years ago, just when he had stepped into the Yuan Emperor Realm First Grade, he already had a pinnacle level fight. Three Yuan Emperor Realm First Grade cultivators from the Heavenly Dragon Sect had ganged up to attack him. But in the end, he managed to hit one person heavily while seriously injuring the other two. Afterward, he disappeared.

However, the scariest thing is not his power but the way he does things. He is alone, by himself, and appears suddenly like a ghost. With his identity of an Alchemist and Soul Tamer, he had come up with a scary method. One time, a place was flattened overnight because a second-rate power had offended him. Except for those weak, old, women and children, the remaining 3000 disciples became idiots with no cures. Someone in the Heavenly Dragon Sect had offended him so consequently, within three years, he had plucked ten of its places. Many Heavenly Dragon Sect disciples became idiots which angered the upper levels of the Heaven Dragon Sect, leading them to send out strong cultivators to kill him. But in the end, he had disappeared without a trace.

Gulp gulp

Hearing this, the bunch of young disciples from the Taihang Sect sucked in a cold air. Deadly King of Hell, Xi Wu Qing, actually was this frightening. Not only was he an Alchemist, but he was also a Soul Tamer. Any of these identities were already extraordinary.

In addition as a Soul Tamer, that was a terrifying existence.

Especially the way he did things, that even if it was the Heavenly Dragon Sect, he was not afraid. Thus, what else would he be afraid of when the Heavenly Dragon Sect was already one of the ten superpowers of the One Mountain, Two Religious Sects, Three Sects, and Four Schools.

To think that after so long, there would still be people who recognize me. Xi Wu Qing stretched his waist as he lightly smiled, admitting his identity.

The moment he heard the nickname of Xi Wu Qing, Hei Mings face became even uglier. That was the Deadly King of Hell, Xi Wu Qing, an extremely formidable opponent.

Chapter 152: Nine Lives Cat Demon!

There are so many people here, how lively.

Suddenly, such a sound reverberated which was both soft and gentle.

The moment the words landed, all of the peoples expressions changed, even Xi Wu Qing.

A series of gazes glanced over to the direction of the voice. At the vacant space in front of them, there was a young girl with an appearance of 16-17 years old. However, she had a coquette manner, coupled with pearly white teeth, snow-white skin, thick and wavy silver hair that draped over her shoulders, thick lashes, seductive eyes and a pair of thick and luscious lips, that seemingly continually revealed all kinds of alluring expressions.

A girl with an appearance of 16-17 years old that had soundlessly appeared and was also this charming, momentarily caused all of the people to be astounded.

Despite that Yi Yun and the rest of the girls were prettier than most girls.

But at the moment as their gazes landed upon the young girl, they couldnt help but feel ashamed of their appearance.

Even Bi Ling also felt that the young girl looked stunning. With such a girl, it made her seem that she could not prevail against her too.

Su Yi raised his head. At present, he was also sizing up the girl who had appeared suddenly. The tall figure was wearing a white flower print strap dress that faintly revealed the seemingly soft snow-white chest. The dress fell up to the knee with a white belt tied to her waist tightly, making her breasts seem even fuller and firmer.

The young girl stood quietly. She had a pair of delicate hands with jade-like skin, a head full of wavy silver hair, a set of eyebrows that were slender like a painting, eyes that sparkled like the stars and below her tiny nose was a small mouth. Her features were defined, natural, and beautiful. She looked very refined as if she could not be, tainted by the world.

Such a young girl, at present for no particular reason, made Su Yi felt a special kind of aura from her.

This young girl seemed to be strange, unlike a typical strong cultivator.

Who can tell me where the Blood Spiritual Ginseng is?

The young girl swept her gaze around the people in the surroundings as she asked while smiling lightly. With an appearance like that of a 16-17 years old, she seemingly still had a kind of immature youthfulness and liveliness, yet she gave people a feeling that she was very charming and gorgeous.

You are that cat demon!

Hei Ming watched the young girl closely as his nerves abruptly pushed his alertness to the extreme.

Such a young girl that could appear soundlessly in front of them, Hei Mings heart suddenly dropped when thinking about it. Except for the rumors about a scary cat demon, there would be no one else.

You are looking for death!

Once the two words cat demon descended, the complexion of the young girl suddenly changed. With a cold and beautiful expression, she abruptly waved her hand as a brilliant light swept out. A strange and scary demonic aura sipped out and intertwined, forming into a light pillar as it blasted towards Hei Ming.

Hei Ming did not seem to have expected that the young girl would suddenly attack and his expression changed considerably. The Yuan Qi in his body surged as a black fog hovered around his body. A palm print was then shot out, blocking that light pillar.

Pu chi

The light pillar was like a bolt of lightning. Hei Mings throat let out a muffled cry as he staggered backward. There was a bloody hole in his palm as blood kept dripping, and his face changed dramatically.

The strong cultivators in the area instantly had faces of shock too. With Hei Mings cultivation, he had unexpectedly gotten injured in just one move.

It is her! The Nine Lives Cat Demon of the Demon Woods! Everyone quickly joins hand or else we wont be able to defeat her!

Hei Mings face became pale. Not bothering about his injuries, he was struck dumb with astonishment. Without a doubt, his opponent was the Nine Lives Cat Demon of the Demon Woods, a strong Demon Emperor.

Rumble

The moment Hei Mings words landed, the auras on Xue Shou, Bi Zhang Qian and the elder in his fifties from the Raging Dragon Mercenary Alliance immediately surged.

Dealing with a strong cultivator of the demon race, as fellow human beings, they indeed had the feelings of confronting a common enemy.

Competing with who has the most people is it? Dont forget that this is the Grand Beast Canyon, not the territory of the humans.

The young girl lightly stated. As the gentle voice descended, a huge commotion sounded from afar.

This region was a grand canyon where the surroundings were a mess. However, far away at the distant vast grassland, roars of the beasts were suddenly transmitted.

Roar

A full dozens of zhang tall huge bear roared as it appeared from the sky. Its roar was frightening as a gruesome flame appeared on its body.

The bear, that was as red as blood towered over the rest. Just by its roar alone, it had already made those weak cultivators on the scene to go limp, wanting to collapse on the ground.

At this instant, some of the mounts at the scene, no longer listened to their orders as they crouched on the floor on all fours with shivers running down their bodies non-stop.

These mounts were so terrified that they did not dare to lift their heads, utterly suppressed.

Chirp!

A sound pierced through the clouds and shattered the rocks as a ferocious bird with purple light spread its wings, its terrifying aura sweeping through. Its pinions were like a black cloud as it covered up the sky.

Moo

Another booming roar sounded as it shook both the sky and earth. A huge cow appeared with its whole body engulfed in blue light like the brilliant sun as it crashed through a far away mountain into pieces.

The blue cows vigor was raging as if imbued with a spirit that could conquer the mountains and the rivers. It carried a kind of momentum like a ruler descending upon the world as the blue ray of sunshine burst out of the clouds.

Scarlet Blood Bear Emperor, Purple-Wings Eagle Emperor and Blue Cow Demon Emperor!

Xue Shou raised his head as his gaze changed. Another three Demon Emperors had arrived.

As expected, there are more than one Demon Emperors. This time we are in big trouble!

Bi Zhang Qians expression had also become tense. Another three Demon Emperors had come for the Blood Spiritual Ginseng.

Howl

Far away, the ground moved, and the mountain shook. It seemed like there were even more beasts heading towards here.

Up in the sky, ferocious birds spread their wings. Each one of them had enormous wings, sailing across the sky like black clouds covering up the sky, causing the earth to darken considerably as an unknown monstrous aura filled the air, making peoples soul tremble.

Not good, there is a beast tide. These Demon Emperors brought along the beast tides!

Someone yelled out with fright as things had turned bad.

All of them were shocked, including those strong cultivators. With so many beasts running towards here, it would be unquestionably tough to defend.

Little boy, have you seen my Blood Spiritual Ginseng? I seem to be able to feel the Blood Spiritual Ginsengs aura from your body. Was it you who took it?

Far away, the roar of the beasts was like thunder as it blew away the sand and rocks. Ferocious birds covered the sky, yet the young girl seemed unbothered by it as she gave a faint smile while asking Su Yi thoughtfully.

I have not seen the Blood Spiritual Ginseng. Su Yi still shook his head. At this moment, his heart was in shock, however, it was the same for the rest of the people in his surroundings. No wonder her aura was not right. The young girl unexpectedly was a Demon Emperor.

Far away, there were also the Scarlet Blood Bear Emperor, Purple-Wings Eagle Emperor, and the Blue Cow Demon Emperor. A total of four Demon Emperors.

What kind of line-up was this? It was too horrifying.

Most likely, a large portion of people in their entire life had not seen as many strong cultivators as he did.

Little boy, you are dishonest!

The young girl glanced towards Su Yi. The moment the words landed, that beautiful and moving figure directly pounced towards Su Yi.

Crackle

The slender hand shook. The claws of the young girl grabbed towards Su Yi while it contained a terrifying demons aura with a brilliant light.

Crackle

At the same time, a figure once again appeared before Su Yi. A Yuan Qi light pillar swept out as they clashed.

Boom boom Two different kinds of energy suddenly clashed against each other in the void space as they exploded, causing the surrounding rocks to split, crumbling down into pieces and the ground to crack. A strong wind like that of a hurricane swept past.

Lets go An old and deep roar transmitted into Su Yis ear. Following this, Su Yi could feel his body step into the air as the howling of the winds roared in his ears.

Chapter 153: Silver Scaled Demonic Python

Where are you escaping to?!

A tender cry resounded behind them like the shadows.

As if mounting the clouds and riding the mist, Su Yi did not even dare to breathe loudly.

After calming down, Su Yi could then clearly see that the Deadly King of Hell, Xi Wu Qing, was holding onto his shoulders while speedily leaving along with him.

And behind them, the young lady that seemed to be a cat demon pursued after them while her speed, not losing out to Xi Wu Qing.

Bang bang bang

Howl! Rumble

Behind him on the ground, low and deep sounds reverberated as powers clashed violently and fearsomely.

The remaining strong beasts, the Black Fiend School, the Blood God Sect and other powerful cultivators seemed to have directly fought together.

But the sound was getting further and further away. Su Yi involuntarily flew through the chain of mountains and transversed over the canyon as the surrounding fog floated around him.

Su Yi felt as if he was like a bolt of lightning transversing through mid-air. The speed of someone from the Yuan Emperor Realm and the Demonic Emperor Realm was this terrifying.

You cant escape, human!

The young ladys voice was pleasant to the ears and was getting nearer.

Senior Su Yi wanted to say something as he was very grateful to him.

I will help you to obstruct this cat demon for a while. Im afraid that I wont be able to hold on for long. You have to escape first. Whether or not you can escape successfully, it all depends on you.

The moment the words of the Deadly King of Hell, Xi Wu Qing landed, his figure abruptly descended as he directly threw Su Yi down from a low altitude.

Crack!

Su Yi crashed and landed onto the tree-crown of a sky-high tree.

Yuan Qi surged as Su Yi instantly grabbed onto a tree branch to stabilize his body.

Su Yi raised his head to look, only to see that the Deadly King of Hell, Xi Wu Qing had once again ascended to the sky, his long robe fluttering as his aura surged.

I want that young boy. If you want to stop me, then you shall pay the price! The young lady softly spoke while glaring at Xi Wu Qing. On that bewitching face was a strict warning.

Lets see!

Xi Wu Qing spoke. With just a few words, the palm under his loose robe directly shot out as Yuan Qi surged with a blinding light, sweeping towards the young lady.

You have made me furious!

The expression of the young lady abruptly became cold. Lines of fierceness appeared on that beautiful face as a sternness was revealed within that captivating appearance whereas gathered at the corner of her eyes and the tip of her eyebrows, was arrogance and glamor. A demonic aura spread from her body as a glow covered up the sky and ground. Both of them collided together, erupting out a blinding shine like the rays of sunshine.

Rumble rumble

Under such a clash, there was a roar like that of thunder as a shocked expression revealed on both of their faces.

You do have a little strength in you. A strong one among the humans!

The young lady had never once stopped attacking as she coldly stated. A glow was spat out from her mouth that flew towards Xi Wu Qing like lightning.

Xi Wu Qings expression secretly changed. Condensing a hand seal, the Yuan Qi in his body fluctuated, forming a light shield as it charged out, blocking the blow.

Run

Su Yi did not have the time to thank Xi Wu Qing as he fell from the sky-high tree and immediately initiated the Hundred Transformation Steps, running like the wind and lightning, directly fleeing.

The intense fight behind him was terrifying as the sound waves itself were very destructive.

A battle between the strong cultivators in the Yuan Emperor Realm and the Demonic Emperor Realm was a rare sight to see.

Simply, Su Yi at the moment did not have the time to appreciate it as he ran away madly.

However, he did not run away for too far.

He distinctly understood that no matter how fast he was, he would not be faster than a strong cultivator in the Demonic Emperor Realm.

Furthermore, even if he hid at a random place, the aura on his body would not be able to escape from the snooping of the strong cultivators in the Demonic Emperor Realm. It was impossible to hide.

Moments later, there was a big meandering river streaming through the canyon as the water flowed slowly. Both sides of the shore were a verdant dark green.

Su Yi noticed, and without any hesitation, he dived headfirst into the river.

Under the riverbed at a hidden reef, there was a secret current flowing, proving that there was a concealed passage leading to other places.

Su Yi was good at swimming in his previous life and instantly drilled in, not caring where it would end up.

Under the secret current, as expected, there was a concealed passage that got wider the deeper it went. There was also an intersection inside.

Whoosh

The currents converged and formed a series of whirlpools.

Inadvertently, Su Yi involuntary hit his head hard on a few reefs, causing him to feel dizzy.

After a moment, light could be seen from the front as the space got bigger and bigger. A seemingly concealed river poured down with a rumbling sound.

Su Yis figure was flushed out with the current. The river was so deep that it seemed bottomless. After hearing the rumbling sound, Su Yi returned to his senses and scurrying surged his Yuan Qi, pulling onto a reef to stop his body.

Turning his head back to look, at the bottom was a hundred feet tall waterfall with water splashing around. The rumbling sound lingered in ones ears.

That is close!

Su Yi sucked in a cold breath. From such a tall height, if he had been flushed down, even if he did not die, he would suffer serious injuries.

Sizing up the surroundings, Su Yi discovered that not far away was a widespread cave hidden inside the waterfall.

The cave would be enough to hide him, making it an excellent hiding place.

The reefs were covered with moss, making them slippery and wet.

Su Yi had already been exhausted from the assaults of the current as he finally reached the cave by climbing up from one reef to another.

The cave was very wet with moss everywhere.

Howl!

Inside the cave, a roar of the beast reverberated as a giant beast suddenly appeared.

The giant beast curled on the ground as if it was trying to fill up half of the cave. Its entire body had shiny silver scales while its head was flat but was full of patterns. Its eyes were like brass bells, and its tongue that was as red as blood flicked around as it coldly glanced at Su Yi.

It was a silvery python with sparkling snow white scales furling on its entire body like the blade of a knife.

Silver Scaled Demonic Python!

Su Yi was stunned. It was a Silver Scaled Demonic Python, and from its aura, it was definitely in the Demonic Spirit Realm. It was a powerful beast with a bloodthirsty and aggressive personality.

The Silver Scaled Demonic Python stared at Su Yi. That was a snack that had delivered right into its mouth. Looks like its luck today was not bad.

Su Yi's expression changed. Even if, he was not exhausted, and was full of energy, he would not be the opponent of this beast.

Rumble!

All of a sudden, the Supreme Chaotic Yuan Technique within Su Yi's body circulated as he stood up straight with both of his eyes quietly staring at the beast.

In the beginning, the Silver Scaled Demonic Python still had a murderous air emanating from it as it kept staring at Su Yi. But after feeling the aura on Su Yi presently, its expression abruptly changed.

After facing each other for a moment, the Silver Scaled Demonic Python's tongue kept flicking as a low neighing sound transmitted from its throat. It lowered its head like it was bowing and then turned around to leave.

Splash

The Silver Scaled Demonic Python's figure of over twenty zhang moved with a silvery light on its body like a silver dragon as it drilled into the concealed turbulent water and disappeared.

Su Yi did not strike as he had scared away the Silver Scaled Demonic Python.

That was also within Su Yi's expectation as the aura of the Supreme Chaotic Yuan Technique seemed to be the jinx of the beasts.

Feeling the surrounding, it seemed that he would be safe for the time being. Su Yi bitterly laughed, if the cat demon could still find him despite all this, then that would merely be his fate.

Blood Spiritual Ginseng!

Panting with heavy breaths, Su Yi finally recalled about the Blood Spiritual Ginseng.

Luring so many powerful cultivators in the Yuan Emperor Realm, alerting all parties of power and even exposing his location by the lightning strikes, these were all caused by that Blood Spiritual Ginseng. It was the initiator of evil.

Chapter 154: Heart Broken!

Sitting cross-legged, Su Yi summoned out the mysterious space.

But the moment he went into the mysterious space, he was dumbfounded.

Fire-Eyes Beast Tiger and the rest were still absorbed in cultivating, so they did not know what was happening around them.

However, the first thing that Su Yi saw was that in the center of the mysterious space that produced the Spiritual Essence, that radish-like Blood Spiritual Ginseng was soaking inside the pool of Spiritual Essence as its entire body was glowing with green light like the rays of sunshine.

The cracks that were previously on the radish's body were gradually healing, and even the withered leaves on its head had once again regained its luster.

Whoosh

At the moment, soaking inside the Spiritual Essence, the roots of the Blood Spiritual Ginseng seemed to have taken root in the pool of Spiritual Essence, absorbing the endless supply of Spiritual Essence as it soaked within. On its surrounding, a layer of light steam was rising, causing it to look peerlessly mysterious.

Stupid radish!

Su Yi was momentarily stunned. That was the Spiritual Essence that even he was reluctant to drink, a precious treasure. But now, a radish was soaking itself within while massively absorbing the Spiritual Essence.

Watching the scene, Su Yi was heartbroken as he suddenly dashed forward, wanting to pluck the Blood Spiritual Ginseng out.

Only, when he reached the outside of the pool, his footsteps abruptly stopped as his expression secretly changed. His eyes were closely staring at the Blood Spiritual Ginseng.

The Blood Spiritual Ginseng. It was what the Black Fiend School, Blood God Sect and even the strong cultivators of the Taihang Sect, had been looking for. A Spiritual Herb that had stepped into the Demonic Void Realm, the main ingredient for numerous Yellow Grade stage elixirs.

Rumors had it that by directly consuming the Blood Spiritual Ginseng, it could advance someone's cultivation and could even bring the dead back to life.

In that instant, Su Yi's heart quivered.

He had always wanted to get the Blood Spiritual Ginseng for his grandfather's recovery and also to advance his grandfather's cultivation. Now, hadn't the Blood Spiritual Ginseng delivered itself to his doorstep?

Su Yi tightly stared at the Blood Spiritual Ginseng which closely resembled a radish.

An inconspicuous fellow, yet, it could lure lightning strikes and even cause numerous strong cultivators to fight over it. It seemed like it would unmistakably be beneficial. As long as his grandfather took it, his injuries would recover wholly and could even advance his cultivation.

Thinking about the Blood Spiritual Ginseng's original appearance, Su Yi guessed that it must have been struck harshly by the lightning and suffered extensive injuries. Only by thoroughly recovering, it would have the best effect for his grandfather when he took it in the future.

Thinking that it was for his grandfather's sake and it was a Blood Spiritual Ginseng that had delivered itself to his doorstep, at the moment, Su Yi could only glance at the Spiritual Essence that was absorbed. His heart felt reassured and no longer in pain.

Inside the mysterious space, it was easy to come in, but to go out, it would require his consent.

Hence, he was at ease, not worrying that the Blood Spiritual Ginseng would escape.

Su Yi was also exhausted and needed to meditate.

That scary cat demon in the Demonic Emperor Realm might still be outside searching for him.

Within a short period, Su Yi had no plans to go out, only to stay within the mysterious space.

Sitting cross-legged, Su Yi started to circulate his power and meditate.

A large area was full of debris as rocks had split open and chains of mountains had collapsed, this was a sign that a great battle had occurred. But now it had already returned to its former serenity.

The frightening beast tide and the powerful beasts had also vanished.

People from the various forces had also disappeared. Only the ground was left with numerous traces of blood and corpses of the beasts, confirming that not long ago, a fierce battle had occurred here.

From a distance, some figures had appeared as they carefully went forward.

These people were some adventurers that had been lured over from nearby for the Blood Spiritual Ginseng.

However, looking at the traces of the fierce battle, all of them sucked in a cold breath.

The Blood Spiritual Ginseng had appeared and undergone the tribulation. A strong cultivator must have gotten it!

It seems like the people from the Black Fiend School, Raging Dragon Mercenary Alliance, and the Blood God Sect were here!

I think there were also strong cultivators from the Taihang Sect!

Those Demon Emperors are too scary!

I wonder if the Blood Spiritual Ginseng has landed into the hands of those Demon Emperors or the Black Fiend School?

People were discussing. However, as there were mighty beasts in the Demon Emperor Realm, Black Fiend School, powerful cultivators from the Taihang Sect and others taking part, there was no hope for them to get the Blood Spiritual Ginseng.

At the peak of a mountain, several figures stood there. It was precisely Deacon Wu and the rest from the Ling Bao Pavilion.

To think that even Bi Zhang Qian from the Taihang Sect is here. Deacon Wu stated while glancing far away. Earlier, the Ling Bao Pavilion had not taken part in the fight.

The most unexpected part is that even the Deadly King of Hell, Xi Wu Qing, had come.

Lan Chuolian, who had worn a lilac dress that outlined her graceful figure softly spoke. She mumbled: That young man seems familiar. Could it be him?

Fairy Maiden is talking about the one called Yi Su? The woman in plain dress answered as she had also seen some signs.

If that young man is Yi Su, then it seems like the one behind him is Deadly King of Hell, Xi Wu Qing? Lan Chuolian seemed to be engrossed in thought.

Fairy Maiden, just now we did not catch sight of the Blood Spiritual Ginseng. Could it be that the Blood Spiritual Ginseng has run away again? Deacon Wu felt that it was weird. From the earlier big battle, it seemed that no one had caught the Blood Spiritual Ginseng.

The Blood Spiritual Ginseng originally had the talent in hiding. However, that young man had also appeared there. Was it truly just a coincidence or something else Lan Chuolian softly muttered: That Nine Lives Cat Demon wanted to chase after the young man. Maybe, it has noticed something.

Since the whereabouts of the Blood Spiritual Ginseng is unknown, and those Demon Emperors have also found this place, Fairy Maiden, we should head back. The woman in plain dress stated as she quietly stood behind Lan Chuolian with wrinkles on her face like the marks left by time.

Alright, lets head back!

Lan Chuolian slightly lifted her head as her waist-long hair leaned on the soft yet seemingly boneless waist, making it appeared even enchanting.

At the top of a mountain, the strong cultivators of the Black Fiend School stood panting. Some of them even had traces of blood.

Even High Elder Bai and High Elder Yu looked miserable.

Notify the entire clan to spare no efforts in finding the whereabouts of that brat and Xi Wu Qing! The Blood Spiritual Ginseng might even be with that brat. We must not let them go!

Hei Mings voice was grim. His body was piercingly cold while his face was as white as paper. Although the gaping hole on his palm no longer dripped blood, it still looked bloody. Additionally, in the battle previously with a Demon Emperor, he had suffered quite a fair bit of loss which further enhanced his miserable appearance.

The chain of mountains connected to the big mountain stood towering. It was a place where humans rarely frequented.

Within a deep canyon, a turbulent surging waterfall violently swooped down with the might of a running horse, like a water dragon emitting a frightening roar as though ten thousand steeds were galloping.

Rumble

The waterfall flowed vertically down with a height of a hundred feet as it continuously roared with a majestic momentum.

Swoosh

The water crashed onto the rocks protruding out from the wall and splashed as if an enormous dragon was spitting. The water droplets splattered like droplets of a silver jade.

Hu

Inside the mysterious space, Su Yi stopped meditating and kept his hand seal as he exhaled a breath.

Bang!

He opened his eyes as a blinding light glimmered within. A strong aura from his body sipped out, causing the surrounding to tremble. Gradually, the aura resided.

Then, feeling the abundant Yuan Qi in the Ocean of Yuan Qi within his Dantian, Su Yi revealed a satisfied expression as his cultivation had stabilized at the peak of Yuan Soul Realm Ninth Grade.

Chapter 155: I Will Cut You Up To Stew Soup Now!

Howl

Deep and low roars of the beasts transmitted into Su Yi's ears, but it was in beast language.

This is the Blood Spiritual Ginseng, right? Reportedly, after consuming it, it can directly increase your cultivation.

How did the Blood Spiritual Ginseng arrive? Was it my lord that brought it here?

Is it truly the Blood Spiritual Ginseng? Reputedly, it is a treasure. I want to eat it!

The muttering of beast language forwarded into Su Yi's ears.

Get lost! If you come any closer, then don't blame me, Granddaddy Seng, for treating you terribly. A voice like that of an ancient old man said.

Su Yi followed the voices and looked, only to see the White Jade Swallow, Spectral Mouse, Snow Jade Ape, Silver Spirit Demonic Butterfly, and even Da Bao and Xiao Ling had all woken up and were circling the pool of Spiritual Essence.

The eyes of every single beast were staring closely to the Blood Spiritual Ginseng.

Especially Spectral Mouse and Fiery Red Demonic Mink as the drools in their mouth were almost leaking out.

At the moment, the Blood Spiritual Ginseng was standing at the center of the pool of Spiritual Essence with eyes full of vigilance. Its whole body was emitting a green-red light as it stared at the Golden Python, Fire-Eyes Beast Tiger and the rest with wariness.

My lord has awakened!

Greetings, my lord!

Seeing that Su Yi had awoken, Fire-Eyes Beast Tiger, Flaming Beast Eagle and the rest abruptly run over to greet Su Yi.

My lord.

Da Bao and Xiao Ling seemingly flew out from the back of Fire-Eyes Beast Tiger and directly landed on Su Yi's body.

Da Bao and Xiao Ling each coiled onto the left and right arm of Su Yi as they flicked their tongues, affectionately licking Su Yi's cheeks.

Very good!

Presently feeling all of the beasts right before him, all of them had broken through again, especially those who had drunk the Spiritual Essence as they had once again broken through by another level, causing Su Yi to be very content.

Even Da Bao and Xiao Ling, Su Yi could feel that they had become much stronger.

However, when the moment Su Yi glanced at the Blood Spiritual Ginseng who was inside the pool of Spiritual Essence, the smile on his face was instantly wiped off as his complexion became dark.

My Spiritual Essence!

Su Yi's anxious heart was in pain. Initially, the amount of Spiritual Essence in the pool was quite a lot, but now it was entirely drained till not even a single drop was left.

Instead, the Blood Spiritual Ginseng that formerly had a miserable and anguished appearance was now, replaced with a light radiance on its clear body. The leaves on its head were also sparkling and looking vividly green, emitting a rich aromatic smell that could make people's mouths watered.

Are you a human or a demon? Your aura is strange

Su Yi had not yet spoken, but instead, the Blood Spiritual Ginseng had questioned him first.

Seeing that Su Yi was close to so many beasts and that his aura was also very unusual, the Blood Spiritual Ginseng could not help but feel odd.

All of the Spiritual Essence was drunk by you?

Su Yi was not in the mood to answer the Blood Spiritual Ginseng, although he had thought things through and was no longer feeling sorry for his Spiritual Essence.

But now, when he saw that not a single drop of it was left, Su Yi's heart was uncontrollably in agony once again.

That Spiritual Essence is exceptional, undeniably a treasure. Is there any more? If I can have some more, I will be able to recover entirely! The eyes of the Blood Spiritual Ginseng shone as its roots fluttered. It glanced towards Su Yi and asked with eyes full of expectation.

The Spiritual Essence was a treasure, having a tremendous effect on its recovery.

Stupid radish! I am going to cut you up to stew soup right now!

Su Yi was swelling with a large amount of anger. That was a precious treasure which even he was reluctant to drink yet, that radish still had the cheek to ask him for more.

Swoosh!

Su Yi took out the big sword behind his back and swung it, wanting to cut the Blood Spiritual Ginseng up. At most, he would let it dry for his grandfather to drink as ginseng tea. Perhaps the effect would also be excellent.

Hey, brat, how dare you? You are not my opponent. If you dare to disrespect me, you shall bear the consequences!

The roots of the Blood Spiritual Ginseng stood as a green-red glow emitted from its eyes. With a dignified and imposing manner, it was trying to warn Su Yi.

The big sword in Su Yi's hand paused in mid-air as he was wary.

This Blood Spiritual Ginseng seemed to be in the Demonic Void Realm which was equivalent to a strong cultivator in the Yuan Void Realm.

Not right

However, Su Yi was skeptical as the Blood Spiritual Ginseng just before seemed to be wary of Fire-Eyes Beast Tiger, Spectral Mouse and the rest. Moreover, it did not look like it was very robust. Its appearance did also seem like a bluff.

Could this Blood Spiritual Ginseng be faking it?

Su Yi was suspicious. If not, why would a Blood Spiritual Ginseng in the Demonic Void Realm be afraid of Fire-Eyes Beast Tiger and the rest?

I would like to see what are the consequences!

Su Yi's expression secretly changed as he swung the sword towards the Blood Spiritual Ginseng.

Bastard! You dare!

The expression of the Blood Spiritual Ginseng abruptly changed remarkably while it poured out criticism. However, it still rapidly scurried away and jumped out of the pool of Spiritual Essence with extreme speed as fast as lightning.

Sure enough, you are bluffing. Let's see where are you going to run! Today I must unconditionally cut you into slices!

Su Yi drew back the corners of his mouth as he rebuked. That radish had almost deceived him. It might not even be a Blood Spiritual Ginseng.

Thinking that this was a fake radish and it had even wrecked his Spiritual Essence, Su Yi's heart was in severe pain.

There was no way that he was going to let this radish off. Su Yi immediately chased after it.

Brat, when I have recovered, I will not let you off!

The Blood Spiritual Ginseng also kept shooting back criticisms, but that tiny little figure, however, had fled away speedily.

I will surely cut you into slices! Su Yi was choked with anger as he chased after it non-stop. Anyway, the space was not that big, so the radish would not be able to run away for very far.

Whoosh whoosh

The figure of the Blood Spiritual Ginseng was akin to lightning as it traversed between the Spiritual Herbs that Su Yi had planted.

Snow Ape, Fire Bird, go surround it. Su Yi said towards the Snow Jade Ape and the rest as he did not want to ruin his Spiritual Herbs.

Howl!

Fire-Eyes Beast Tiger and the rest had wanted to intervene long ago. They abruptly came forward and surrounded the Blood Spiritual Ginseng, placing it in the middle.

Im too lazy to play with you guys anymore. It is impossible for you guys to catch me. This place seems profound and bizarre, having great benefit for me. I will make use of this time to cultivate!

The Blood Spiritual Ginseng hid within the Spiritual Herbs as it glanced at the enclosed circle with no escape routes. However, it was not anxious as it even glanced at Su Yi with a mocking smile. Then, its body emitted a green-red glow as it wanted to burrow into the ground to escape.

Eh

However, in that instant, the Blood Spiritual Ginseng that seemed to want to burrow into the ground was suddenly shocked as it discovered that the land was very unusual. Its innate gift seemed to have lost its effect as it was utterly unable to escape.

Ah! Brat, let go!

Then, the Blood Spiritual Ginseng suddenly shrieked as its body was involuntarily lifted up and brutally plucked out of the ground.

At this instant, Su Yis face was filled with anger while holding onto the leaves of the radish as he pulled on it.

This fake Blood Spiritual Ginseng had actually dared to wreck his Spiritual Essence. How could Su Yi let it go that easily?

So what if I dont let go!

Su Yi furiously yelled. This fake radish still dared to threaten him. As expected, it was not a Blood Spiritual Ginseng.

If not, how could he deal with a Blood Spiritual Ginseng in the Demonic Void Realm?

Brat, do you truly think that Granddaddy Seng is a vegetarian?!

The Blood Spiritual Ginseng cried. A green-red light exploded from its body while an enormous power abruptly swept through. A glow shone dazzlingly inside the mysterious space as its aura swept across everywhere.

Chapter 156: I Love Peace!

Bang!

The aura was no trivial matter. It was remarkable and shook the whole area!

It was undoubtedly mighty that it had directly blown Su Yi away, who crashed heavily several zhang away.

The Blood Spiritual Ginseng had also broken free from Su Yi's hand and ran like lightning, once again escaping.

Rumble!

All of a sudden at this instant, deep within the upper part of the mysterious space, a brilliant radiance like a bolt of lightning charged through.

The radiance was akin to lightning, bringing along an unrivaled tremendous overbearing aura like the lightning as it directly landed onto the body of the Blood Spiritual Ginseng.

Bang!

An explosion sound rang out like thunder while suddenly the surroundings of the Blood Spiritual Ginseng was filled with electric arcs as the body that was about to escape, landed onto the ground and spewed out black smoke.

Ah

The Blood Spiritual Ginseng gave a horrible shriek and continuously rolled on the floor as though it had suffered Heavens punishment.

Howl

Fire-Eyes Beast Tiger, Golden Python and the rest prone on the floor and glanced at the sky like they were paying homage. That powerful aura had made their hearts trembled with terror.

Su Yi stood up from the floor. Although he got blasted away, he did not seem to be hurt.

Watching everything before him, Su Yi was likewise secretly surprised. It was as though the mysterious space was helping him to deal with that fake radish.

Whereas at the moment, after being struck, the Blood Spiritual Ginseng was once again, too horrifying to be seen.

Black smoke rose from the glistening jade green leaves while its body was no longer clear, looking as if it was a frosted eggplant.

If you have the guts, you can continue to run!

Su Yi did not know why the mysterious space had helped him, but he had become accustomed to the unexpected. He immediately rushed over, not letting the radish to run away again. He once again directly plucked the Blood Spiritual Ginseng up.

Brat, what do you want?

The Blood Spiritual Ginseng seemed to have lingering fear as the power just now was too frightening.

Most importantly, within that frightening power was a tremendous overbearing aura like that of a supreme king, causing it to have chills down its spine, unable to resist at all.

You have devoured so much of my Spiritual Essence so now I can only stew you!

Su Yi gnashed his teeth and exclaimed. Since so much of the Spiritual Essence, was devoured by this fake radish, he could only stew it to drink as a soup to see if he could gain back some of the losses.

Su Yi pondered, if this fake radish was not the Blood Spiritual Ginseng, it didnt seem to be so simple. Maybe he might not suffer too many losses.

Isnt it just a little bit of Spiritual Essence? Brat, we can negotiate. Wait till I am fully recovered, I will pluck something for you to make up for the Spiritual Essence. Su Yi held the Blood Spiritual Ginseng within his hand. Its roots had already withered, and even its momentum had diminished. The glow on its body had also darkened like it no longer had the strength to escape.

Do you think I will believe in your words? Su Yi sourly laughed. How could he believe in a fake radishs word?

I am a Blood Spiritual Ginseng. A Blood Spiritual Ginseng in the Demonic Void Realm. Granddaddy, I, even only a root of mine, is worth more than your humans one stalk of Mirage Grade elixir. The Blood Spiritual Ginseng helplessly stated. It was unmistakable a tiger may even be teased by a dog when it leaves the remote mountains and comes to the bright and flat area; even a shrimp dares to dupe the dragon when it is in shallow water. It was a genuine Blood Spiritual Ginseng in the Demonic Void Realm, yet at this moment, it was in the hands of a tiny human. Where did it have the appearance of a Demonic Void Realm?

If the radish had not mentioned about the Blood Spiritual Ginseng, it was still okay. But once it had stated about it, Su Yi was even more furious.

Initially, Su Yi had still thought that he could finally heal his grandfather, but who would have thought that he would meet with a fake radish. Not to mention that it had wrecked his Spiritual Essence, even until now, it had still wanted to cheat his feelings.

Blood Spiritual Ginseng, you still dare to say Blood Spiritual Ginseng. I see that you must be a pirated version of it! The more Su Yi thought about it, the angrier he got. He kept on swinging the Blood Spiritual Ginseng while holding onto it. Although this fake radish did indeed look similar to the Blood Spiritual Ginseng, with its appearance now, how could it be a Blood Spiritual Ginseng in the Demonic Void Realm?

Brat, I am indeed a Blood Spiritual Ginseng, a Blood Spiritual Ginseng in the Demonic Void Realm. Cant you see it with your eyes? The state of the Blood Spiritual Ginseng was too horrifying to be seen. The smoking leaves on its head were almost flung off. It was so angry that it was foaming with anger as it felt very wrong.

A Blood Spiritual Ginseng in the Demonic Void Realm, then why would you land into my hands? How would Su Yi believe in this fake radish?

I am a Blood Spiritual Ginseng, not a beast. I love peace! Moreover, my tribulation had failed, whereas not dying was already not bad. I will not be your opponent. The Blood Spiritual Ginseng sincerely answered as it seemed to be genuinely scared that Su Yi would stew it.

Su Yi's eyes moved as his expression turned doubtful, not knowing if what the Blood Spiritual Ginseng had said was the truth or lies.

What I say is the truth. I am a Blood Spiritual Ginseng. Although I have reached the Demonic Void Realm, I am not a beast, so I do not have much power to deal with anyone. I am only good at hiding. As though it had seen through Su Yi's suspicion, the Blood Spiritual Ginseng continued to speak.

You have failed your tribulation? Su Yi stared at the Blood Spiritual Ginseng with some curiosity.

That's right. Not long ago when I was trying to break through to the Demonic Void Realm, just when I am about to proceed to undergo the tribulation, a few Demonic Emperor Realm beasts had interrupted hence I had to escape.

Although I was affected by it, the tribulation kept urging me without allowing me to have any time to prepare and wait.

I forcefully underwent the tribulation, and in the end, it had failed. I coincidentally saw this space that seemed to be able to protect my safety and consequently went in. Then, I saw you and your Spiritual Essence. The rest you already know. The Blood Spiritual Ginseng said with an aggrieved tone as though it was going to cry.

It also was considered as being thoroughly unlucky as it had finally attained the Demonic Void Realm but was still at the end discovered by the powerful beasts in the Demonic Emperor Realm. Its First Tribulation had failed, and now it had landed into a strange brat's hand.

First Tribulation

Su Yi had heard about it before. Beasts and Heavenly Spirits were different from humans. Once they reached the Demonic Void Realm, they had to undergo the First Tribulation.

Additionally, when they reached the Demonic Emperor Realm, they still had to undergo the Changing Shape Tribulation.

So what will happen when your tribulation fails? Su Yi glanced at the Blood Spiritual Ginseng and questioned. He still had some suspicion that this fake radish was not the real Blood Spiritual Ginseng that had failed the tribulation.

Originally, even if I did not die, my cultivation will also be revert back. But your strange space rescued me. However, as my tribulation has failed, my cultivation of the Demonic Void Realm is unstable. After some time, I'm afraid that my cultivation will slip, and if I want to undergo the First Tribulation again, it will be harder than before. The chances of succeeding are less than one in ten thousand. The voice of the Blood Spiritual Ginseng was a little depressed. In the end, it was a failure.

Although what you said sounds real, I still do not believe in you. Su Yi shook his head. All of these were the words of the fake radish and might not necessarily be the truth.

Brat, your Granddaddy, I, have lived for several hundred years. Do I have to deceive a kid like you? The Blood Spiritual Ginseng shouted. That brat actually still did not believe in him.

Unless you can prove that you are the Blood Spiritual Ginseng, I will stew you for soup right away. Su Yi glanced at the Blood Spiritual Ginseng in his hand with no intention of fooling around.

You

The Blood Spiritual Ginseng was foaming with anger as it stared at Su Yi fiercely. However, it was incapable of doing anything. In the end, it seemingly gnashed its teeth and said: Okay, you can pluck out one of my roots, and eat it. Although I am still weak now, it will still inadvertently give you great benefits.

Is that so

Su Yi hesitated as he suspected if there was any foul play. What if the fake radish was tricking him and its root had poison?

Fine, I will trust you this one time!

A moment later, Su Yi had made his decision and directly plucked out a thick root from the Blood Spiritual Ginseng.

Ah

The Blood Spiritual Ginseng gave another horrible shriek as the pain from plucking its root was especially painful.

Chapter 157: Heavenly Yuan Demonic Soul!

Keep an eye on this radish.

Without paying attention to the shrieks of the Blood Spiritual Ginseng, Su Yi directly threw it to the Golden Python.

Crack

The entire body of the Golden Python glowed as it tightly coiled around the Blood Spiritual Ginseng between its entrenched figure. Standing upright with its head raised while flicking its tongue, the Golden Python glared fiercely at the Blood Spiritual Ginseng as though telling it that if the Blood Spiritual Ginseng misbehaves, it would not mind swallowing the Blood Spiritual Ginseng in one gulp.

Howl

Spectral Mouse, Fire-Eyes Beast Tiger, Fiery Red Demonic Mink and the rest also stood together to watch the Blood Spiritual Ginseng.

All of the beasts were licking their lips as drool almost dripped out of their mouths. They seemed to wish that the Blood Spiritual Ginseng would misbehave just so that they would have a reason to swallow it.

The Blood Spiritual Ginseng felt miserable as it wanted to cry, yet there were no tears!

As a genuine being in the Demonic Void Realm that had cultivated for several hundred years, today it was being regarded as a shrimp dares to dupe the dragon when it is in shallow water!

Is it truly a Blood Spiritual Ginseng?

Also at this time, Su Yi had been staring at the root of the Blood Spiritual Ginseng in his hand while he carefully pondered.

The root appeared to be dull, but there were seeps of glistening clear crystal emitting a green-red glow as if there was Spiritual Essence that was about to drip out. It indeed had an aura that could make ones mouth water.

Lets give it a try.

Under the mouthwatering aura, Su Yi secretly gritted his teeth as he decided to swallow it.

Reportedly, if it was indeed a Blood Spiritual Ginseng, directly consuming it could increase ones cultivation.

Su Yi reckoned that a root of a Blood Spiritual Ginseng in the Demonic Void Realm should be enough for him to refine it.

Sitting cross-legged, Su Yi ate the root in one bite as he chewed on it like a radish.

When the root went into his mouth, Su Yis eyes momentarily shone brightly.

The root seemingly melted in his mouth and then transformed into a scorching hot liquid that flowed into his throat.

Gulp!

Su Yi subconsciously swallowed the scorching heat down his throat in one gulp.

Bang!

A powerful aura gushed out from Su Yis body as if overflowing with the air of propitious spiritual energy, bringing along a green-red ray like the sunshine as it rushed out from Su Yis body.

The glow was resplendent and dazzling as it enclosed Su Yi within.

Su Yi sat on the spot cross-legged. Instantly, his body glowed as every cell and pore in his body also had a green-red light gushing out of it.

The commotion made the Golden Python, Fire-Eyes Beast Tiger and the rest immediately glance towards Su Yi as they curiously sized him up. They seemed to have felt something as subconsciously their throats were burning.

It seems that there is a tremendous benefit? The Fiery Red Demonic Mink spoke as its gaze was still on the Blood Spiritual Ginseng that had been tightly coiled by the Golden Python, seemingly wanting to have a bite.

I wonder how does the Blood Spiritual Ginseng taste like? The drool of the Spectral Mouse was going to drip all over the place. It had also heard about the Blood Spiritual Ginseng before. If words of a treasure like this were to spread outside, it was enough to make the surroundings boil. Even if, it was only a root, it would be satisfied too.

Brat, you are only in the Yuan Soul Realm. If you die because of overstuffing, it is not my fault!

The Blood Spiritual Ginseng stared with its tongue-tied. That brat was only a rookie in the Yuan Soul Realm, yet he had directly taken its thickest root. Was he trying to be stuffed to death?

What strong energy. Refine!

At this moment, Su Yi's eyes shone as his doubtful expression, was now replaced with excitement. That spiritual root had turned into surging energy inside his body. He immediately initiated the Supreme Chaotic Yuan Technique to absorb and refine the energy in his body.

What a strong aura. Is he a human or a demon?

When it felt the aura from Su Yi's Supreme Chaotic Yuan Technique, the Blood Spiritual Ginseng was flabbergasted. The aura seemed as though it should not have appeared on a human. It was like the king of the demons, incomparably powerful that even it had felt suppressed.

Whoosh

Very quickly, the entire body of Su Yi was directly caged within that green-red glow as the light overflowed and spilled from the pores within his body, flickering with radiance, and revealing a radiant luster.

However, presently, the inside of Su Yi's body was not that good.

The energy was too enormous that it seemed as though it was going to be spurt out from Su Yi's limbs, bone, and seven apertures.

Su Yi forcefully suppressed the energy within his body as he sat cross-legged on the spot, focusing his power to oppress the boundless energy inside his body.

Enduring heavily with the energy impact that was ripping apart all of his internal organs, Su Yi circulated the Supreme Chaotic Yuan Technique to refine as an arrogant and overbearing aura exploded out to suppress that frenzied and surging energy.

Rumble rumble

Very quickly, a rumbling thunder-like sound could even be heard from within Su Yi's body as the surrounding green-red light grew even more blinding, seemingly trying to submerge this space.

Rays of sunlight emanated with an aromatic smell of herbs, causing the entire space to be glowing.

Smells so nice. I want to eat it. Da Bao and Xiao Ling flicked their tongues. Under the aromatic herb smell, they were also drooling, wanting to have a bite.

Wait after my lord has finished taking it. We will have a chance in the future. Spectral Mouse said to both Da Bao and Xiao Ling. Its misty-eyes moved as it occasionally swept across the body of the Blood Spiritual Ginseng.

You guys dare?! Don't you guys own any thoughts about me! The Blood Spiritual Ginseng shouted with anger towards Spectral Mouse and the rest. But it was so scared that its roots had all shrank as it did not want its roots to be plucked again.

I can do it. Refine!

Su Yi was still gnashing his teeth as his entire body was covered in a dazzling green-red glow while his physical body was traversing.

The impact of the energy was formidable. For any typical Yuan Soul Realm Ninth Grade cultivator, they would have directly burst like a balloon filled with air.

Luckily, Su Yi's body was extraordinary as the first level of the Chaotic Yuan Demonic Body, Indestructible Vajra Body, allowed his body to become hard like the vajra. That was enough to make him much stronger than beasts on the same level of cultivation as him.

The time slowly passed by as Su Yi gnashed his teeth, trying to suppress the surging energy inside his body.

At the same time, the energy from the Blood Spiritual Ginseng's root, except for those that had been refined into Xuan Qi and used up the Ocean of Yuan Qi within his Dantian, the rest were gradually assimilated into his body.

The energy flowed between Su Yi's bones and muscles, making his body to become even more dazzling and radiant as if he had once again gone through the baptism.

At the same time, the energy also rushed into Su Yi's mind as it could nourish his spiritual soul.

This energy, not only could it increase his cultivation, but it could also nourish his body and spiritual soul.

The energy for Su Yi was too immense and vigorous.

It was hard to believe that a strand of the root, could unexpectedly have such surging energy.

My lord is not in trouble, right? That energy is still surging! White Jade Swallow was a little worried as it could feel that the energy was very formidable. It was afraid that Su Yi would not be able to hang on.

No way, my lord is exceptional. That is nothing for my lord! Fire-Eyes Beast Tiger had absolute faith in Su Yi.

Time had passed by for a very long time. It had been precisely a day. The assault of the energy on Su Yi's body did not seem to have any signs of diminishing.

Bang!

The energy in Su Yi's body was still assaulting, making Su Yi's body to glisten while also simultaneously to tremble from it.

The frenzied energy that assaulted Su Yi's body had made all his internal organs, bones, and muscles to be washed by one wave after another, creating faint sounds of thunder.

At this moment, the strength of Su Yi's Indestructible Vajra Body had been unveiled unmistakably as his entire body glowed, flickering with radiance and bursting out with fluctuations as if to suppress everything.

Unknowingly when it had started, the aura from within Su Yi's body had also silently escalated.

The speed of the escalation was like a rocket, speedily charging upwards.

Bang!

All of a sudden, inside Su Yi's mind, a terrifying aura sipped out, shaking the mysterious space.

Chapter 158: Breaking Through to Yuan Xuan Realm

Inside Su Yi's mind, a light crimson spiritual soul fluctuated as its momentum emanated out.

Presently, the energy of the Blood Spiritual Ginseng seemed to be able to draw out Su Yi's spiritual soul, causing it to fluctuate.

This aura had appeared before back when Su Yi had broken through to the Yuan Soul Realm Eighth Grade.

It was from when he was in that mysterious imaginary realm that looked realistic, where everything there had already been buried at the end of the Ancient.

The scorching aura in the imaginary realm had seemingly gone inside Su Yi's spiritual soul when he was in a state of dazed, trying to burn his spiritual soul.

But when Su Yi had regained consciousness, his spiritual soul had once again experienced a transformation.

Now, because of the Blood Spiritual Ginseng's energy, Su Yi's spiritual soul once again had this frightening aura.

What a powerful aura!

The Fire-Eyes Beast Tiger, Snow Jade Ape and the rest kept on staring with their tongue-tied.

Under that frightening aura, they uncontrollably shook as their bodies involuntarily trembled.

The Silver Spirit Demonic Butterfly, White Jade Swallow, and the Flaming Beast Bird, the three flying beasts spread their wings open as they laid on the ground with shocked expressions.

The Blood Spiritual Ginseng was also astonished, simply not believing the things that were happening right before it. This strange human was absolutely a little inconceivable.

Inside Su Yi's mind, at the moment, the radiance fluctuated as the light crimson glow was undulating while shaking the surroundings, and transforming into surging rays of sunshine.

At the same time, inside Su Yi's mind, the crimson glow was also getting brighter and brighter like a small sun that was waking up as the radiance was unprecedented dazzling.

The series of lights were brilliant like the galaxy as it gathered towards a place in the center.

In that instant, Su Yi could distinctly feel that his spiritual power was getting stronger as though it still contained a special kind of power that seemingly was waking up.

That power was of identical nature to the mysterious power that he had previously used to deal with Dharma Protector Heijiu from the Black Fiend School.

Heavenly Yuan Demonic Soul!

Suddenly, Su Yi's heart shook as he seemingly thought of something.

The First Level of Chaotic Yuan Demonic Body was the Indestructible Vajra Body. The Second Level was the Heavenly Yuan Demonic Soul.

First Level of Chaotic Yuan Demonic Body, the Indestructible Vajra Body, consisted of all types of fortifying the physical body.

The Second Level was the Heavenly Yuan Demonic Soul, which was to absorb all kinds of spiritual souls.

Regardless of a beast or a human, all spiritual souls could be absorbed and refined with the Supreme Chaotic Yuan Technique to strengthen and fortify his spiritual soul.

Heavenly Yuan Demonic Soul, taking the souls of all living beings while strengthening his own!

Cruel yet overbearing.

Most importantly, it required sheer might.

Hence, in those times although he knew the cultivation method for the Heavenly Yuan Demonic Soul, Su Yi did not even dare to think about it as with his cultivation of the Yuan Soul Realm, taking someone else's spiritual soul to strengthen his own, was undeniably an unrealistic expectation.

But right now, Su Yi could discern that this feeling seemed to be precisely the feeling of the Heavenly Yuan Demonic Soul.

Could it be

Su Yi instantly recalled that the Blood Spiritual Ginseng was a Heavenly Being and was also a part of the demons. Although it was not a spiritual soul, it had the effect of nourishing the spiritual soul.

Thus right now, although it was unintentionally, he could fulfill his wishes to start cultivating the Heavenly Yuan Demonic Soul.

Whoosh

Inside his mind, the aura of the spiritual soul fluctuated like undulating ripples, bringing along an arrogant and overbearing air that seemed to be able to suppress the Ancient, looking down on the Heavens!

The mysterious space isolated everything.

Su Yi sat cross-legged as his entire body was enclosed within the blinding light that shone flamingly like the sun.

From Su Yi's body, a holy light sipped out and emanated ripples of fluctuation, as if a mysterious power had transcended time and space, descending from the time of the Ancients!

All of these were continuing as the glow on Su Yi's body was getting more and more blinding while it was gradually giving out roars of thunder.

After three days, Su Yi was finally no longer in pain. Most of the surging energy was refined and was not a threat anymore.

Su Yi's physical body was glowing as it tried to assimilate that enormous energy into his body while refining and absorbing all of it.

Inside his mind, Su Yi's spiritual soul was also glowing as though it was going to condense everything together while the glow kept getting hotter and more blinding.

This is the Heavenly Yuan Demonic Soul! Su Yi was astounded.

From going out of City of Man, from when his grandfather was hurt, from getting thrown to the towering cliff by the Sacred Mountain, from getting chased by the Black Fiend School and from

getting searched by people unscrupulously a few days ago, Su Yi had continually craved to strengthen himself, desiring to become a powerful cultivator one day.

This goal in Su Yi's heart was getting more and more firm and unwavering!

Heavenly Yuan Demonic Soul, the Second Level of the Chaotic Yuan Demonic Body. Su Yi thought highly of it.

Presently, he had by chance started to cultivate the Heavenly Yuan Demonic Soul causing his heart to be wild with joy.

Feeling the aura from the spiritual soul, it was as though the soul contained an emperor!

If there was a day when the cultivation of the Heavenly Yuan Demonic Soul succeeded, and when it had further improved, he would be even more powerful!

I must succeed cultivating the Heavenly Yuan Demonic Soul as soon as possible!

Su Yi gritted his teeth and did not let the happiness get to his head. Even with the root of the Blood Spiritual Ginseng, it was impossible to cultivate the Heavenly Yuan Demonic Soul successfully.

Back then, he had used three years to finish cultivating the Indestructible Vajra Body.

The energy converted from the root of the Blood Spiritual Ginseng was getting lesser and lesser inside his body as the aura within Su Yi's body was getting stronger while his body emitted light.

My lord has such a powerful aura. Is he going to break through?

Fire-Eyes Beast Tiger was prone on the ground as his brass bell-like eyes were fluctuating.

Although his lord only had an aura of the Yuan Soul Realm Ninth Grade, it had made him feel fearful as if the aura was resonating with the heaven and earth, the pressure imposing!

A total of five days later, although the aura on Su Yi's body was still escalating, the blinding glow had diminished.

Bang!

However, only after a short pause, a new aura surged out from within Su Yi's body, sweeping through the mysterious space.

Rumble rumble

At this instant, the glow on Su Yi's body once again shone brilliantly as a powerful aura made his robe flutter, sweeping through all around making the Fire-Eyes Beast Tiger, White Jade Swallow and the rest to be shocked.

Yuan Xuan Realm, this human has broken through!

From the gap between the entrenched figure of the Golden Python, the gaze of the Blood Spiritual Ginseng drastically changed as it was very shocked. That human brat was unexpectedly alright and had endured it, even succeeded in directly broken through.

My lord has such a powerful aura!

Fiery Red Demonic Mink, Snow Jade Ape and the rest were astonished.

At the moment, feeling the aura of the Yuan Xuan Realm First Grade on Su Yi's body, his level of valiant was no trivial matter as it was utterly incomparable to the humans on the same level of cultivation as him.

Even beasts with the same cultivation could not be on par.

Crack

The aura finally became peaceful. Su Yi opened his eyes as the glow in his eyes was blinding. Then, it subsided.

Hu

He exhaled a breath from his throat. Before he had the time to feel the changes from the breakthrough, Su Yi could already directly sense the differences within his body presently.

Everything had become stronger!

This kind of strengthening was not just an increase by a small step, but had skyrocketed many times!

His body, the Ocean of Yuan Qi within his Dantian and even his spiritual soul

Entirely everything had all changed.

His bones and muscles had become stronger, while he had an abundant Yuan Qi and the spiritual power in his mind was also emitting light.

All of this converged together, indistinctly releasing a powerful aura, giving him a strong feeling.

Congratulations, my lord on breaking through!

Fire-Eyes Beast Tiger, Flaming Beast Bird and the rest were extremely excited and congratulated Su Yi for the breakthrough.

You can finally let me go, right? Your Granddaddy, I, am a Blood Spiritual Ginseng. Quickly let go of me!

The voice of the Blood Spiritual Ginseng transmitted from the gaps within Golden Pythons entrenched figure.

Release that radish! Su Yi opened his mouth as his expression revealed his glee. He was very content as he had no idea that with just a root of the radish, could allow him to break through to the Yuan Xuan Realm, causing him to feel that reaching to the Yuan Xuan Realm was not that difficult at all.

If someone knew what Su Yi was thinking presently, they would probably yearn to smack Su Yi to death.

Chapter 159: Was There Anymore Spiritual Essence?

The root of a Blood Spiritual Ginseng in the Demonic Void Realm was an absolute treasure.

If the Blood Spiritual Ginseng was in its flourishing period, even a single root would be comparable to a Mirage Grade High-Level elixir. A priceless value.

It might not be difficult for those personal disciples from the major sects and schools to get Mirage Grade elixirs to assault the Yuan Xuan Realm, but it would be unquestionably hard to use a Blood Spiritual Ginsengs root to attack the Yuan Xuan Realm!

By comparison, the root of a Blood Spiritual Ginseng was unmistakably much better.

Listening to Su Yi's words, the Golden Python let go of the Blood Spiritual Ginseng.

My lord has broken through. I also want to eat this Blood Spiritual Ginseng. Da Bao and Xiao Ling climbed onto Su Yi's shoulders as they stared at Su Yi with glowing eyes.

Sure, in the future I will give it to you guys to eat. Su Yi slightly smiled as his eyes were also secretly gleaming. One root of the Blood Spiritual Ginseng already had so much effect. He could make use of this in the future.

Wishful thinking! Granddaddy Seng, I, will not obey your orders unless I have died!

The Blood Spiritual Ginseng stared at Su Yi with a look that viewed death as though returning home.

Don't worry. I did not mention that I want to pluck your roots now. Moreover, with your present condition, I must at least wait until you have fully recovered. Additionally, I will only pluck some of your roots, while you will still be able to grow them back in the future, which is nothing much for you. Why are you acting so selfish? Su Yi glanced at the Blood Spiritual Ginseng with a much better attitude.

At this moment, Su Yi had wholeheartedly believed that it was the rumored Blood Spiritual Ginseng that had broken through to the Demonic Void Realm. In the future, whether his grandfather could recover or even advance, would all depend on this Blood Spiritual Ginseng.

Wishful thinking. Do you think that Granddaddy Seng's root, can be plucked whenever you want?! The Blood Spiritual Ginseng felt dismal. What kind of brat had it encountered that seemed to be different from the average human?

No need to worry, in the future I will just pluck less. Su Yi sheepishly smiled. His gaze secretly changed as he continued to coax the Blood Spiritual Ginseng: Granddaddy Seng, you are truly indeed a Blood Spiritual Ginseng. But why did you become so wretched?

Now you finally believe that Granddaddy Seng, I, am a Blood Spiritual Ginseng!

The Blood Spiritual Ginseng had a face full of injustice as it was very agitated. Later, it shook the roots on its body as it told Su Yi: Didn't I already tell you? Back then, I was interrupted when I was trying to break through. This time, I did not have the time to prepare, so my tribulation had failed, and I consequently came into this space.

Glancing at the surroundings, the Blood Spiritual Ginseng seemingly still had some lingering fear towards this space. But as it glanced at the field of herbs, its gaze secretly changed. With a face full of insouciance, it continued to say towards Su Yi: Then is there any more of your Spiritual Essence? That Spiritual Essence has some benefits for me. Since I have helped you to break through, then you should give me some Spiritual Essence, so that we can call it even.

The Spiritual Essence was all used up by you, okay? When the Spiritual Essence was brought up, Su Yi's heart still felt a little stung.

However, since it was indeed the Blood Spiritual Ginseng, and he had also gained immense benefits from it by directly breaking through to the Yuan Xuan Realm, Su Yi's heart felt much better.

With that being the case then why not do it like this, since I am currently still wounded, I will stay inside here for some time to nurse myself back to health, hoping that there will still be chances to continue to pass the tribulation!

The Blood Spiritual Ginseng glanced at Su Yi as it said this while carefully observing Su Yi. It seemed that it wanted to capture the changes in Su Yi's expression while within its eyes, there was some sentimentality.

No problem, definitely no problem. Granddaddy Seng can relax and nurse your health back here.

Su Yi's eyes secretly moved without revealing anything on his expression as he asked the Blood Spiritual Ginseng: But, I thought that Granddaddy Seng had failed the tribulation? How can you continue to pass the tribulation?

I did fail, but strictly speaking, it is not entirely failing but only merely avoided.

The Blood Spiritual Ginseng said while peeping at Su Yi. Its eyes were somewhat avoiding him as it continued: When I was undergoing the First Tribulation, towards the end, I could not continue to contend against it. Just when I thought that I would be fraught with grim possibilities of survival, because of your appearance with the mysterious space, it had interrupted the tribulation. That's why even though I have failed my tribulation, you could also say that I have only dodged it. Although there will be a huge impact in the future, I will still have the chance to assault it again. Only, the tribulation that I will encounter the next time will be much more difficult than before.

Is that so Su Yi's eyes moved. He indeed did hear that the Blood Spiritual Ginseng mentioned that its tribulation had failed and that initially, even if it did not die, its cultivation would drop back. But, because of the mysterious space, although the Blood Spiritual Ginseng had failed the tribulation, it had, nevertheless, dodged it, resulting in its Demonic Void Realm being unstable which could slip after some time. If it wanted to undergo the First Tribulation again, it would be much harder than before that the chances of succeeding would be less than one in ten thousand.

Granddaddy Seng can relax here while nursing your health back. The expression of Su Yi changed as he smiled.

Moments later, Su Yi brought Snow Jade Ape, Fire-Eyes Beast Tiger, Golden Python and the rest to leave the mysterious space.

When Su Yi and the rest left, inside the mysterious space, the expression of the Blood Spiritual Ginseng instantly changed as it secretly revealed an astonished face and mumbled: Such a precious place. Exactly, what kind of place is this? If I really can cultivate in here for a period of time, there are hopes for my First Tribulation to succeed.

My lord, in the future, will I truly get to eat that Blood Spiritual Ginseng? I can feel that the taste must be great. Inside the wet cave, a rumbling sound rang from the waterfall on the outside. Da Bao coiled around Su Yi's shoulder as it still could not forget about it.

The aromatic herb smell that emanated from the Blood Spiritual Ginseng was an irresistible temptation for the beasts.

There will be a chance. Su Yi smilingly replied.

My lord, I heard that the Blood Spiritual Ginseng is very sneaky and sly. You must beware of it. Golden Python warned Su Yi as it was cautious of the Blood Spiritual Ginseng.

It is certainly sneaky. Su Yi slightly smiled while responding.

The Blood Spiritual Ginseng was tortured by having its root plucked, but it surprisingly did not even mention about leaving the mysterious space.

How could Su Yi not understand its intentions? The mysterious space could increase the potency and grades of the Spiritual Herbs and elixirs, so for the Blood Spiritual Ginseng, there would be an unmistakably tremendous benefit for it.

Unquestionably, that old fellow, Blood Spiritual Ginseng, had discovered that the mysterious space had a tremendous effect for it, so it did not want to leave.

As for Su Yi, this was undoubtedly beneficial for him as the more potent the Blood Spiritual Ginseng got, the better the effect for his grandfather. Hence, he had no plans for the Blood Spiritual Ginseng to leave.

Afterward, Su Yi told the Golden Python, White Jade Swallow and the rest about the things that had happened recently and that there were several Demonic Emperor Realm beasts in the area.

Demonic Emperor Realm!

After hearing it, the eyes of the Golden Python, Fire-Eyes Beast Tiger and the rest all shone with lights full of expectation and yearning.

With their bloodline, no matter how much they cultivated, it would be nearly impossible to reach such high levels of cultivation. To be able to be in the Demonic Spirit Realm was already a miracle.

For cultivation, humans would firstly look at their talent.

If, their talent was weak, then no matter how hard they trained, they would not be able to achieve much in life.

Chapter 160: Child Of The Demons

Hence, that was why those big sects or schools would check for their talents first before accepting disciples.

It was impossible for any sects or schools to spread their resources widely for everyone and to also brought out so many resources to deplete. Thus, they could only groom those disciples with promising futures.

As for the beasts, their bloodlines would decide their future achievements.

Some beasts had inadequate bloodlines that no matter how much they cultivated, they would not be able to become a strong beast in the Demonic Void Realm or the Demonic Emperor Realm.

Reportedly, some beasts with an extremely high bloodline, from the moment they were born, they were destined to become a royalty among the demons, capable of intimidating the other party.

The Fire-Eyes Beast Tiger, White Jade Swallow, Spectral Mouse, Fiery Red Demonic Mink and the rest, initially only had average bloodlines, and could only survive on the outskirts of the Forest of Demons.

They worked hard on cultivating, wanting to become powerful, but no matter how hard they trained, they would not be able to achieve much.

However, it was different now as all of them had gained the inheritance from the mysterious space.

Only they knew precisely how mighty the inheritance that they had gained was.

Everything had become possible in the future!

Later, Su Yi made Golden Python, Spectral Mouse, White Jade Swallow and the rest to go out first to see whether the Nine Lives Cat Demon and those other powerful beasts were still around the area.

Yes, my lord.

White Jade Swallow and the rest, replied as they left the cave. Although the hundred feet waterfall was turbulent, it could not stop them.

Half a day later, White Jade Swallow and the rest had returned and informed Su Yi that there did not seem to be a massive amount of beasts in the area and there were also no signs of strong beasts in the Demonic Emperor Realm.

Lets leave here. Su Yi finally felt rest assured. Then they charged out of the waterfall while Su Yi sat on the White Jade Swallow.

Yuan Xuan Realm!

Su Yi landed within the chain of mountains. The aura on his body surged as he smashed his fist onto a sky-high tree with a scurfy skin like that of a dragon.

Bang!

The sky-high tree cracked into pieces, and the leaves fell everywhere. The surrounding floor was shaking as a crack extended.

My lord is so strong!

The Fire-Eyes Beast Tiger was shocked as its eyes widened in astonishment. The Fire-Eyes Beast Tiger itself was a beast with overpowering strength, but at the moment, it distinctly felt that even when it was at the Demonic Xuan Realm First Grade, its power was far from Su Yis pure strength.

Lets test out the power!

Su Yi spotted a rock not far away, and his gaze momentarily shone. He wanted to know the difference between the Yuan Xuan Realm and the Yuan Soul Realm. His Yuan Qi surged while it ran through his meridians with a rumbling sound like that of wind and thunder.

Boom!

The large rock exploded open with clouds of dust flying everywhere, and gravel flung towards the sky!

My goodness!

The Golden Python, Fiery Red Demonic Mink and the rest were stunned.

The power was so robust that even beasts on the same cultivation level would not be his opponent.

What do you guys think, with my lord's strength, can he contend against those children of the demons with strong bloodlines at the same cultivation level? Spectral Mouse questioned. Although they were also beasts, as long as their cultivations had not reached the Demonic Void Realm, they were not acknowledged, as genuine members of the demons.

However, from the moment those children of the demons were born, they were destined to be mighty members of the demons due to their extremely high bloodline. They were naturally powerful.

My lord is enough to surpass those children, and one day, we will also become real members of the demons, becoming one of the royalty!

The Fire-Eyes Beast Tiger deeply growled with a luminous gleam flashing in its eyes.

So satisfying!

Not far away, Su Yi had stopped testing his power.

After taking a deep breath, Su Yi smiled. The difference between the Yuan Xuan Realm and Yuan Soul Realm was too huge.

Not enough, this is only the beginning!

Su Yi did not get too excited as he was only at the Yuan Xuan Realm. If it was Ji Chao from the Sacred Mountain, although he was only a few years older than him, he had almost reached the Yuan Xuan Realm since a long time ago.

Su Yi reckoned that under the resources of the Sacred Mountain, Ji Chao should have already stepped into the Yuan Xuan Realm.

It was reported that Liu Ruoxi had already stepped into the Yuan Xuan Realm a long, long time ago before him.

There were also other disciples with exceptional talent from the big sects and schools.

Additionally, behind them were strong cultivators guiding them with powerful techniques. There were also various types of cultivation resources supporting them.

If he wanted to surpass them, then he could only work even harder to cultivate and grind himself.

Under the waterfall, Su Yi composed himself and tidied his clothes.

Once again, the time he had spent in the Forest of Demons was not short. The Su Yi now had grown a little taller, while his face still revealed some tenderness to it, yet compared to people of the same age as him, there was more sharpness and steadiness to it.

Continue to grind!

Su Yi said to Fire-Eyes Beast Tiger and the rest.

Several days had passed since the commotion that the Blood Spiritual Ginseng had created. The Grand Beast Canyon seemed to have once again regained its original peace with no more appearances of those powerful beasts.

Despite this, Su Yi did not dare to carelessly rush in, not daring to even be separated too far from Golden Python and the rest.

Even though Golden Python and the rest were in the Demonic Spirit Realm, they were much stronger than Su Yi.

During the day, Su Yi would sharpen himself, while at night, he would enter the mysterious space to cultivate.

Inside the mysterious space, the Blood Spiritual Ginseng had long drilled itself into the land with its roots plunged into the ground. Its entire body permeated a green-red glow while its leaves on the top gradually recovered its freshly green radiance.

Over the course of time, Su Yi had entirely stabilized his cultivation of the Yuan Xuan Realm First Grade.

My lord, there is a commotion in the front. Many beasts are chasing after a human girl. Another day had passed and in the morning when Su Yi walked out of the mysterious space, Silver Spirit Demonic Butterfly who was guarding outside, enthusiastically told Su Yi.

Chasing after a human girl? What's her strength? Su Yi stretched his waist and smoothly replied. He could feel that he was improving every day, and this type of feeling was very comfortable. The mysterious space, together with the Supreme Chaotic Yuan Technique, was simply like a tiger with added wings.

The human girl is not that old, about the same age as my lord. She is quite pretty, while her strength did not seem to have reached the Yuan Spirit Realm. However, amongst the beasts that were chasing her, there were two Ice-Cold Wild Wolves in the Demonic Spirit Realm. That human girl will be dead for sure. The Flaming Beast Bird replied.

Is that so

Su Yi arched his eyebrow as he was not really affected by it. After all, there were many people, dying under the mouths of the beasts every day in the Forest of Demons.

About the same age as me and is also quite pretty. Could it be

All of a sudden, Su Yi's expression changed as an image of a person floated in his mind. It couldn't be such a coincidence that it was her, right?

Quick, where has she fled to and bring me to her quickly!

Abruptly, Su Yi's expression became urgent. Regardless of whether it was her or not, it was better to check.

Howl!

A wolf howled while it echoed around the entire forest.

Around twenty white bodies of Ice-Cold Wild Wolves were howling and emitting a chilling air. Their mouths were filled with sharp teeth as they surrounded a young girl.

The young girl's complexion was as white as paper with disheveled hair and she looked miserable.

As she glanced at the twenty over Ice-Cold Wild Wolves before her, the expression of the young girl became extremely imposing.

She had never thought that she would unexpectedly lure a group of Ice-Cold Wild Wolves. If she had known about this earlier, undoubtedly she would not have gone there alone and would be well-prepared.

Howl

The Ice-Cold Wild Wolves howled as they seemed to be unable to restrain themselves any longer. They opened their bloody mouths wide, showing a mouth full of sharp teeth while their auras were remarkably frightening!
